CHAIRMAN'S STATEMENT

Dear shareholders, employees, customers, and the community,

Hello!

As being a corporate with the characteristics of specialised, refined, unique, and novel, we always uphold high standards of production and operation. During the year, our outstanding performance has been recognised by local governments and municipal committees. We proudly gained the honorary titles of “Five-star Grassroots Party Organisation”, “A-class Enterprise”, and “Level III Enterprise for Safety Production Standardisation”.

The board of directors (the “Board”) and the management team attached great importance to Environmental, Social, and Governance (“ESG”) issues, and focused on incorporating ESG into the overall strategic management and internal risk control. A comprehensive materiality assessment was conducted to maintain ongoing communication with our key stakeholders and to ensure we can prioritise material ESG-related issues with reference to stakeholders’ expectations and concerns. We aim to move in line with the United Nations 2030 Sustainable Development Goals to develop our ESG governance and corporate strategy in the future.

In the face of fierce market competition, we always adhered to the efficiency-centred, market-oriented, and customer-connected approach. Over the past year, we participated in various export commodities fairs to promote our products and the brand. Meanwhile, not only the production and operation of the Group were enhanced, a more robust and sound environmental management system was also implemented. We continued to expand our solar power generation systems in production plants with the aim to reduce the business environmental impact caused by greenhouse gas emissions. In order to resolve the sudden regional power shortages, we collaborated with the Collective Economy Group to establish a production base in Hunan Province.

主席報告

尊敬的股東、員工、客戶及社區：

大家好！

作為一家專業化、精細化、獨特化、新穎化的企業，我們始終堅持高標準的生產及經營。在這一年，我們的突出表現得到了地方政府和市委的肯定，獲得了「五星基層黨組織」、「A級企業」和「安全生產標準化三級企業」的榮譽稱號。

董事會「董事會」和管理團隊高度重視環境、社會及管治，重點將環境、社會及管治納入整體策略管理和內部風險控制中。通過進行全面的重要性評估，我們繼續保持著與關鍵持份者的持續溝通，以確保我們能夠根據持份者的期望和擔憂，優先考慮與環境、社會及管治相關的重大問題。我們的目標是與聯合國二零二三年可持續發展目標保持一致，以製定我們未來的環境、社會及管治的總體治理和企業策略。

面對激烈的市場競爭，我們始終堅持以效率為核心、以市場為導向、以客戶為中心的方針。在過去的一年中，我們參加了各種出口商品交易會，以推廣我們的產品和我們的品牌。此外，本集團不僅加強了生產及經營，亦落實了更為穩健的環境管理體系。我們繼續擴大生產工廠的太陽能發電系統，旨在減少由商業經營所造成的溫室氣體排放對環境的影響。為了解決突然出現的區域性電力短缺問題，我們與集體經濟合作，在湖南省建立了生產基地。

Environmental, Social and Governance Report 環境、社會及管治報告

ABOUT THE GROUP

Business Overview

The Group's principal business is the design, development, production, sales and marketing of cosplay products (including cosplay costumes and wigs) and non-cosplay costumes (including sexy lingerie), factory leasing and research and development ("R&D"), manufacturing and providing laundry, personal care and home care products. We have more than 80,000 square metres of production plants, more than 2,000 employees and tens of thousands of certified franchisees and business partners. Our products are exported and sold to more than 20 countries and regions, notably including the United States, Germany, the United Kingdom, Japan, Italy, and the Netherlands.

Our role-playing products mainly include party costumes and anime inspired role-playing costumes and wigs, including popular animation, comics, cartoons, traditional fairy tales, film and game characters, as well as traditional, party, Halloween, Christmas and other holiday themes. The comprehensive service platform of the Group provides integrated services in all aspects of product development, which includes R&D, production planning, raw material procurement and production.

Risk Adaptation and Opportunity Recognition

During the Reporting Period, we have established a production base in cooperation with the Collective Economy Group in Hunan Province of the PRC, which helps to resolve the sudden regional power shortages. In order to tackle climate change, we have designated responsible personnel to check the weather forecast in advance and take prompt precautions where necessary. At the same time, relevant departments of the local government have also strengthened the advance notification of weather disasters. Hence, extreme weather changes (i.e. extreme rainstorms in Jiangxi) caused a relatively small operational impact on our staff's ability to arrive at the workplace and on logistics transportation.

Looking ahead, the Group is still on the journey of digital transformation and sustainable development. As a costume manufacturer with customers all around the world, promoting the brand, engaging with stakeholders, and maximising shareholders' value are undoubtedly our constant pursuit.

關於本集團

業務概述

本集團主要從事設計、開發、生產、銷售和營銷角色扮演產品(包括角色扮演服裝和角色扮演假髮)和非角色扮演服飾(主要包括性感內衣)、廠房租賃和研究及發展(「研發」)、製造及銷售衣物清潔護理、個人清潔護理及家居清潔護理產品。我們擁有八萬多平方米的生產工廠，兩千多名員工，數萬名經認證的特許經營商和商業夥伴。我們的產品出口並銷往二十多個國家和地區，其中主要包括美國、德國、英國、日本、義大利及荷蘭。

我們的角色扮演產品主要包括派對服裝和動漫啟發的角色扮演服裝和假髮，有流行動畫、漫畫、卡通、傳統童話、電影和遊戲角色，以及傳統、派對、萬聖節、耶誕節和其他節日主題。本集團的綜合服務平台在產品開發的各個方面提供綜合服務，包括研發、計劃生產、原材料採購和生產。

風險適應及機遇識別

在報告期內，我們與集體經濟在中國湖南省合作建立了一個生產基地，這有助於化解突發地域性的電力短缺問題。為了應對氣候變化，我們已指定負責人員提前查看天氣預報，並在必要時採取迅速的防範措施。與此同時，當地政府的有關部門也加強了對天氣災害的提前通報。因此，極端天氣變化(如江西的極端暴雨)對我們員工抵達工作場所和物流運輸能力並未造成較大的運營影響。

展望未來，集團仍處在數字化轉型和可持續發展的征程上。作為一家擁有世界各地客戶的服裝製造商，推廣品牌、與持份者互動、最大化股東價值無疑是我們的一貫追求。

Environmental, Social and Governance Report 環境、社會及管治報告

Internally, the Board will continue to seek new opportunities to enrich our products and diversify our businesses by acquiring intellectual property (“IP”) rights with growth potential, while working with upstream and downstream companies to jointly promote the green production of textiles. Equipped with years of experience, the Group will also continue to assess and to select target companies that possess investment value and have the potential to synergise with our existing business and industry value chain, to enable us to gain a competitive edge when entering new markets. The Environment, Health and Safety Committee (the “EHS Committee”) for the purpose of managing material ESG-related risks and opportunities has been set up by the Group. This Committee acts as a concrete support for our business development and ensures that the Board will be able to review and track the measures and performance of ESG issues in a timely manner.

Externally, the provisions of the “Outline of the Development of the Textile Industry in the 14th Five Year Plan” published by the China Textile Industry Federation in 2021 has clarified the development focus around circular economy and digital transformation for Chinese manufacturers in the future. During the Reporting Period, we have adopted the practice of reusing packaging boxes of raw materials, which effectively reduced our reliance on virgin plastic packaging and paper packaging.

In the context of China’s “Double-Carbon Goals” – achieving peak carbon emissions by 2030 and carbon neutrality by 2060, we will continue to improve our green production methods, which include procuring and utilising solar panels in near future to smoothen the green transition and sustainable development. We also recognise that any improvements in technological progress and labour productivity will not only benefit the Group, but also directly contribute to the economic growth in Jiangxi Province of the PRC, as well as the optimisation and upgrading of the industrial structure. Therefore, we will continue to move in line with global standards, and will take more actions in the upcoming year to improve the efficiency of resource utilisation.

在內部，董事會將繼續尋求新的機遇，通過收購具有增長潛力的知識產權（「知識產權」），豐富我們的產品並使我們的業務多樣化，同時與上下游產業的公司合作，共同促進紡織品的綠色生產。憑藉多年的經驗，本集團還將繼續評估和選擇具有投資價值並有潛力與我們現有業務和行業價值鏈協同的目標公司，使我們能夠獲得競爭優勢，進入更多新市場。本集團已成立環境健康安全委員會（「環境健康安全委員會」），以管理重大環境、社會及管治相關風險和機遇。該委員為我們的業務發展提供了大力支持，並確保董事會能夠及時審查和跟蹤環境、社會及管治問題的措施和績效。

從外部來看，中國紡織工業聯合會於二零二一年發佈的《紡織業「十四五」發展綱要》點明了中國製造商未來圍繞循環經濟和數字化轉型的發展重點。在報告期內，我們採取了重複利用原材料包裝盒的做法，這有效地減少了我們對原始塑膠包裝和紙質包裝的依賴。

在中國「雙碳目標」（即到二零三零年實現碳排放峰值，到二零六零年實現碳中和）的背景，我們將繼續改進我們的綠色生產方式，包括在不久的將來採購並使用太陽能電池板，以推動綠色轉型和可持續發展。我們還認識到，技術進步和勞動生產率的任何提高不僅將使集團受益，而且將直接促進中國江西省的經濟增長，以及產業結構的優化和升級。故此，我們將繼續遵循全球標準，並將在明年採取更多行動，從而進一步提高資源利用效率。

These honours and certificates all reflect that, we, as the specialised, refined, unique, and novel enterprise, always attach great attention to product quality and operation standards, which lays out the concrete foundation for the sustainable development of the Group.

此外，我們在義烏市人民政府展開的二零二二年度工業畝產產益率綜合評價中被評為「A類企業」（左下圖）。我們亦被義烏市應急管理局認定為「安全生產標準化三級企業」（右下圖）。這些榮譽和證書都反映出，作為一家專業化、精細化、獨特化、新穎化的企業，我們始終高度重視產品品質和運營標準，這為本集團的可持續發展奠定了堅實的基礎。

Materiality Assessment

By recognising the considerable relevance and linkage between the interests of stakeholders and the interests of the Group, the Group has commissioned an independent sustainability consultancy to assist in conducting a comprehensive materiality assessment this year. We have systematically identified and evaluated the expectations and concerns of our stakeholders, thus ensuring we prioritise issues with the most significance and urgency. Specifically, a three-step approach has been taken to assess the materiality of ESG-related issues:

Step 1: Identification

Potential material ESG issues have been identified through the following sources:

- Previous ESG reports of the Company
- ESG reports of industry peers
- Global Reporting Initiative (“GRI”) Standards

The criteria to identify material ESG issues include whether the issue has a significant impact on the stakeholders’ assessment and decisions, and whether it reflects the Group’s material environmental and social impact. Using the said criteria, we have identified and defined 22 materiality issues.

步驟一：識別

通過參考以下資料識別潛在的重要環境、社會及管治議題：

- 本公司過往的環境、社會及管治報告
- 業界同行的環境、社會及管治報告
- 全球報告倡議組織(GRI)標準

識別重要環境、社會及管治議題的標準包括該議題是否對持份者的評估和決策產生重大影響，以及是否反映了本集團的重大環境和社會影響。我們使用上述標準確定並定義了22個重要議題。

重要性評估

由於認識到了持份者利益與集團利益之間的顯著相關性與聯系，本集團今年委託了一家獨立的可持續發展顧問公司協助進行全面的重要性評估。我們系統性地識別和分析了我們持份者的期望和擔憂，從而確保我們優先考慮最為重要和緊迫的事宜。具體來講，我們採用了三步法去評估環境、社會及管治相關議題的重要性：

Environmental, Social and Governance Report

環境、社會及管治報告

Step 2: Prioritisation Different stakeholder groups were engaged based on their influence on the Group. We distributed standardised surveys to stakeholders to ensure a consistent and systematic assessment of material issues. Stakeholders were tasked to grade the relative importance of the identified ESG issues.

- 7 members of the Board and senior management ranked the importance of material issues to the Group's sustainable development.
- 12 employees of the Group ranked the importance of material issues based on their own preferences and expectations.

步驟二：優先排序 不同的持份者群體根據他們對本集團的影響而參與。我們向持份者分發了標準問卷，以確保對重要議題進行一致和有系統性的評估。持份者的任務是對已識別的環境、社會及管治議題的相對重要性進行評級。

- 7名董事會成員和高級管理層就重要議題對本集團可持續發展的重要性進行排序。
- 12名本集團的員工根據他們自己的喜好和期望對重要議題的重要性進行排序。

Step 3: Validation and Review The Group's management confirmed and validated the material issue list disclosed in this Report. The Board has reviewed both the material issues identified and the results of the materiality assessment to ensure that they are relevant and important to the Company.

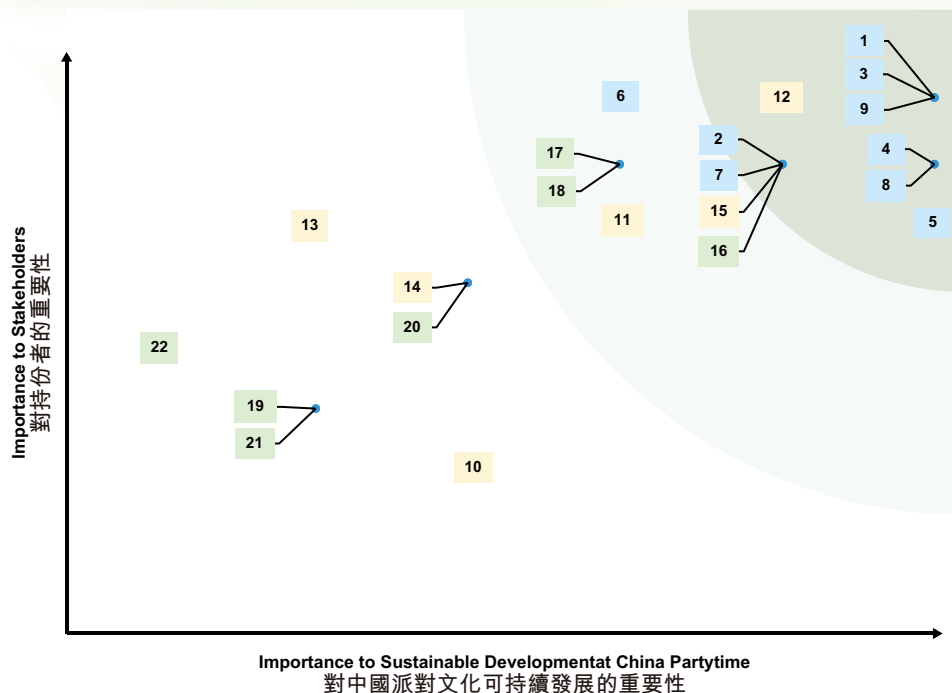

步驟三：驗證及審核 本集團管理層確認並驗證了本報告中披露的重要議題清單。董事會審查了已識別的重要議題及重要性評估結果，以確保與本公司具有適當的相關性和重要性。

The following matrix and table demonstrate the results of the materiality assessment and reflect the prioritisation of material ESG issues based on their importance to the Group's sustainable development (represented by Board members and senior management) and their importance to other stakeholders (represented by our employees). In this Report, we will focus on discussing the key ESG performance in the order of identified materiality. Moving forward, China Partytime will continue to identify any important emerging ESG issues and strengthen its management of these issues.

ESG Strategy

A clear and proper ESG strategy can shed light on the sustainable development path of corporations. Based on the above materiality matrix analysis with the mean value calculated, “Products and Businesses” ranks as the most important aspect, followed by “People and Community” and “Environment and Resources”. Accordingly, these three pillars shaped the Group’s overall strategies and actions.

The Group reviews the ESG strategy biannually to ensure its overall effectiveness. Led by the Administrative Department and coordinated by other departments, this strategy is revised periodically and updated to align with the Group’s latest business progress and industry development trends. All changes require approval from the Board.

While striving to promote corporate growth and maximise shareholder value, we recognise the obligation to contribute to the United Nations Sustainable Development Goals (“SDGs”) as a part of the global sustainability agenda in 2030. We are determined to join the global movement and take common actions to improve living standards, protect the earth and bring a better future. Among the seventeen SDGs, the Group has identified eight of them that are relevant to its business and operations to various degrees.

環境、社會及管治策略

一個清晰並恰當的環境、社會及管治策略可以揭示企業可持續發展的思路。根據上述重要性矩陣分析和平均值計算，「產品和業務」被視為最重要的方面，其次是「人文和社區」以及「環境和資源」。因此，這三大支柱決定了本集團的總體方針和行動部署。

本集團每兩年審查一次環境、社會及管治策略，以確保其整體的有效性。該策略由行政人事部門牽頭，其他部門協調，定期修訂和更新，以符合集團的最新業務進展和行業發展趨勢。所有變更均需董事會準予。

在努力促進企業增長和股東價值最大化的同時，我們認識到本集團有義務為聯合國可持續發展目標做出貢獻，作為二零三零年全球可持續發展議程的一部分。我們決心加入這項全球運動，採取共同行動，提高生活水準，保護地球家園，共創美好未來。在十七個可持續發展目標中，本集團確定了其中八個在不同程度上與其業務和運營相關。

Production Safety and Operational Compliance

A safe, efficient and smooth workplace lays as the foundation of the Group's production and operation. We are proud to highlight the fact that our products are produced under the Quality Management Certification (GB/T19001-2016/ISO 9001:2015) and the Occupational Health And Safety Management System Certification (GB/T45001-2020/ISO 45001:2018).

生產安全及合規操作

安全、高效、順暢的工作場所是本集團生產經營的基礎。我們可以很自豪地強調，我們的產品均在《質量管理體系認證》(GB/T19001-2016/ISO 9001:2015)和《職業健康安全管理体系認證》(GB/T45001-2020/ISO 45001:2018)下生產的。

By adhering to the “the Production Safety Law of the PRC” and the “Law of the PRC on the Prevention and Control of Occupational Diseases”, we have established a set of robust measures to guarantee production safety and operational compliance. These measures include implementing standard codes, setting up a hierarchical management system, and conducting production safety training and fire drills.

通過遵守《中華人民共和國安全生產法》和《中華人民共和國職業病防治法》，我們制定了一套強有力的措施，以確保生產安全和運營合規。這些措施包括實施標準規範、建立分級管理體系、開展安全生產培訓和消防演習。

Environmental, Social and Governance Report 環境、社會及管治報告

The EHS Committee of the Company holds the following responsibilities to further monitor and reassure the production safety and operational compliance:

- Carry out regular inspection of environment, health and safety status within the production plants
- Require relevant departments to follow up and analyse root causes in case of violation of laws and regulations or major safety incidents
- Formulate corresponding rectification and propose improvement measures for risk issues in a timely manner
- Conduct trainings on production safety and operational compliance that cover employees at all levels and suppliers

During the production process, all our technicians must comply with both the national and corporate requirements. China Partytime always remembers the correlation between fire safety and high-quality development. In April 2023, the Group actively participated in the National Security Education Day by conducting a fire drill in its factory. This annual fire drill helps to maintain our employees' awareness and ability to handle fire emergencies, thus preventing and reducing any potential risks and losses.

本公司的環境健康安全委員會負有以下職責，以進一步監督和確保安全生產和合規運營：

- 定期檢查生產工廠的環境、健康和 safety 狀況
- 如果發生違反法律法規或重大安全事件，要求相關部門跟進並分析根本原因
- 針對風險問題及時製定相應的整改措施，並提出改進辦法
- 對各層級員工和供應商進行安全生產和操作合規培訓

在生產過程中，我們的所有技術人員必須遵守國家和公司的相關要求。派對文化始終銘記消防安全與高品質發展之間的關聯性。於二零二三年四月，本集團積極參加了「國家安全教育日」，在工廠內進行了消防演習。這項年度消防演習活動有利於保持我們員工在處理火災緊急情況時的意識和能力，從而預防和減少任何潛在的風險和損失。

Environmental, Social and Governance Report 環境、社會及管治報告

Additionally, for specific production facilities, designated operators must receive full training and attend the Three-level Safety Training session before commencing work. For any replacement, inspection, maintenance, preservation, acceptance, and demolition of production facilities, a standardised management process of safety production will be carefully conducted to ensure that all facility designs meet the national standards and regulations on safety, hygiene, environmental protection, and fire safety. During the Reporting Period, the Group was not aware of any non-compliance cases regarding production safety and operational compliance, hence, protecting employees from occupational hazards.

Customer Privacy and Data Management

Trust is our key to maintain good relationships with customers across the world. In light of our 'Confidentiality and Non-competition Agreement', which covers Jiangxi Partytime and was drafted by the Administrative Department, reviewed by the General Manager and published in 2014, this comprehensive and strict information confidentiality system of the Group stipulates the employees and the Group's confidentiality obligations, and the liability for a breach of the Agreement.

Prior to work commencement, employees are required to sign a 'Privacy Contract' with the Group. This Contract stipulates that all employees shall not steal, copy or disclose non-public, proprietary or confidential materials obtained during their employment or within two years of termination of employment. The aforementioned materials include but are not limited to customer information, customer resources, technical information, product design, product information, supply channels, purchase and sales contracts, financial information, and unpublished major investment decisions.

For any contract breaches or customer data leakage, we will terminate the 'Employment Contract' with the culprit immediately. Depending on the severity of the breach, we have the right to claim for all losses caused, including direct economic losses, loss of available profits, profits of the infringer and litigation fees, investigation fees and attorney fees, etc. If the situation is of the utmost seriousness, the case will be handed over to the local law enforcement authority for further action.

此外，對於特定的生產設施，指定的操作員必須接受全面培訓，並在開始工作前參加三級安全培訓課程。對於生產設施的任何更換、檢查、維護、保存、驗收和拆除，均將認真執行安全生產的標準化管理流程，以確保所有設施設計符合國家安全、衛生、環境保護和消防安全標準和規定。在報告期內，本集團未發現任何生產安全和運營合規方面的不合規情況，以此保護員工免受職業危害。

客戶隱私及數據管理

信任是我們與全球客戶保持良好關係的關鍵。根據我們建立的《保密和競業禁止協議》，該協議涵蓋江西派對，由行政人事部起草，交由總經理審核並於二零一四年發佈。該全面嚴格的資訊保密制度規定了員工和本集團的保密義務，以及違反協議所需負的責任。

在工作開始之前，員工必須與本集團簽訂《隱私合約》。此合約規定，所有員工不得竊取、複製或披露在其任職期間或辭職兩年內獲得的任何非公開、專有或機密資料。上述資料包括但不限於客戶資訊、客戶資源、科技資訊、產品設計、產品資訊、供應通路、採購和銷售合同、財務資訊以及未公開的重大投資決策等。

對於任何合同違約或客戶數據洩露，我們將立即終止與該責任員工的《僱傭合同》。根據違約的嚴重程度，我們有權對造成的所有損失提出索賠，包括直接經濟損失、可用利潤損失、侵權者的利潤和訴訟費、調查費及律師費等。若情況極其嚴重，案件將移交當地執法部門以作進一步處理。

Quality Assurance and Control

“Responsibility is the Guarantee of Quality, Quality is the Life of the Corporate” is the Enterprise Quality Concept of China Partytime. We have formulated a set of rigorous procedures and a response plan to prevent and tackle different quality issues at different stages. We aim to ensure that all finished products comply with the “Production Quality Law of the PRC” to meet our stringent product standards, and are delivered to customers in their best condition. Our Quality Department is responsible for ensuring that we comply with all the internal policies and the external standards imposed by our customers throughout the production process.

At the procurement stage, our adherence to product quality is reflected by the strict supplier selection criteria and procedures. In the selection of raw materials, we only choose knitted fabrics that comply with national and industrial standards and are environmentally friendly and safe to wear and use. By constructing our own ‘Qualified Supplier List’, we only purchase raw materials from suppliers on the pre-approved supplier list. All raw materials are sampled and tested by our Quality Department before warehousing, and only those with the best quality, function and characteristics could stay in our stock, whilst substandard materials will be returned to the suppliers. For more details, please refer to the sub-section of ‘Supply Chain Management’ under the “Products and Businesses” section.

At the production stage, the Quality Department actively monitors the whole production process, which includes conducting random sample checks to evaluate whether the quality of the semi-finished products meet the industry standards and customised specifications. On receiving contract manufacturing orders, we will invite the customers to conduct on-site audits of our production base to ensure that our production processes meet their expectations on environmental protection, occupational health and safety, corporate social responsibility and anti-terrorism. By using labels to indicate the inspection status of the product, this single-piece accountability and traceability mechanism helps to improve the quality of our products throughout the whole process.

品質保證及控制

「責任是質量的保證，質量是企業的生命」是派對文化的企業質量理念。我們制定了一套嚴謹的應對流程和應急計劃，以防止和解決不同階段的不同品質問題。我們的目標是確保所有成品符合《中華人民共和國產品質量法》，以滿足我們嚴格的產品標準，並在它們的最佳狀態交付給客戶。我們的質量部門負責確保我們在整個生產過程中遵守客戶製定的所有內部政策和外部準則。

在採購階段，我們嚴格的供應商遴選標準和流程反映了我們對產品品質的堅持。在原材料的選擇上，我們只選擇符合國家和行業標準、環保且佩戴和使用安全的針織布。通過構建我們自己的《合格供應商清單》，我們僅向預批名單上的供應商採買原材料。所有原材料在入庫前都由我們的質量部門進行了取樣和測試，只有質量、功能和特性最好的原材料才可入庫，而不合格的材料將被退回給供應商。更多詳細資訊，請參閱「產品和業務」章節下的「供應鏈管理」小節。

在生產階段，質量部會積極監控整個生產過程，包括進行隨機抽樣檢查，以評估半成品的質量是否符合行業標準和定制要求。在收到合同製造訂單時，我們將邀請客戶對我們的生產基地進行實地審核，以確保我們的生產過程滿足他們對環境保護、職業健康安全、企業社會責任和反恐主義議題的期望。通過使用標籤標明產品的檢驗狀態，這種單品責任性和可追溯性的機制有助於在整個生產過程中提高我們產品的質量。

Environmental, Social and Governance Report 環境、社會及管治報告

At the final sampling test stage, an appearance review and a product testing will be conducted on each batch of the finished products before delivering them to our customers. Relevant departments will inspect and subsequently repair any substandard products detected in the self-review process. More importantly, corresponding preventive measures will be adopted timely to prevent occurrence of similar problems in the future. We strictly follow the “Law of the PRC on the Protection of Consumers’ Rights and Interests”. Thus, for any defective products found through customer complaints or testing by the national quality inspection authorities, we will recall all sold defective products in the market and cease further production immediately so as to prevent violation against customers’ rights and interests, as well as to minimise the damage to the Company’s reputation.

Given the aforementioned robust quality assurance and control measures, the Company managed to satisfy the industry standards and stay abreast of the latest global market trends with great production efficiency and high-quality products. During the Reporting Period, we did not receive any cases of sold or shipped product recalls due to product quality or health and safety reasons.

Customer Satisfaction and Communication

China Partytime has always taken great initiative to closely follow fashion trends in the market and actively communicated with various stakeholders to understand their expectations. Creating a comprehensive service platform that integrates procurement, production and sales is our objective. This sincere attitude has helped us win the trust and good relations with different participants in our business network.

Our happy culture guides us to treat every customer with enthusiasm. The business concept of “Market-oriented Products Win” is our unchanged insistence while customer satisfaction is the greatest driving force to promote the development of the Group. As a consumer-centrism producer, we interacted with customers via various channels to understand their needs and incorporate them into our designs and products.

In our detailed ‘Complaint Management Procedures’ that aims to handle customer dissatisfaction, we specify that customers may complain to us about the quality of products and services through multiple channels, such as telephone, fax and email. The General Manager or the Business Department is responsible for taking over or guiding the relevant employees to handle customer complaints and propose solutions. We also conduct customer satisfaction surveys periodically to collect customers’ feedback and opinions on our products and services. During the Reporting Period, the Group was unaware of any major complaints about its products and services.

在最終的抽樣測試階段，交付給客戶之前，我們將會對每批成品進行外觀檢查和產品測試。相關部門會檢查並修復在自檢過程中發現的任何不合格產品。更重要的是，我們會及時採取相應的預防措施，防止今後發生類似問題。對於遭到客戶投訴或在國家質檢機構檢測發現的任何缺陷產品，因此，我們嚴格遵守《中華人民共和國消費者權益保護法》。我們將會召回市場上已售出的任何缺陷產品，並立即停止後續生產，以防止因銷售問題而侵犯客戶權益，並將對公司聲譽的損害降至最低。

基於上述穩健的品質保證和控制措施，本公司以極高的生產效率和優質的產品滿足了行業標準，並緊跟最新的全球市場趨勢。在報告期內，我們沒有收到任何因產品品質或健康安全原因導致的已售出或已裝運產品召回的案例。

客戶滿意度及溝通

派對文化一直致力於密切關注市場的時尚趨勢，並積極與各方持份者溝通，以瞭解他們的期望。創建一個集採購、生產和銷售於一體的綜合服務平台是我們的目標。這種真誠的態度幫我們贏得了業務網絡中不同參與者的信任和良好關係。

我們的快樂文化引導我們熱忱地對待每一位客戶。「市場導向，產品致勝」的經營理念是我們不變的堅持，客戶的滿意則是推動本集團發展的最大動力。作為一家以消費者為主的生產商，我們通過各種渠道與客戶互動，瞭解他們的需求，並將其納入我們的設計和產品中。

在我們旨在處理客戶不滿的詳細「投訴管理流程」中，我們明確了客戶可以通過電話、傳真和電子郵件等多種渠道向我們投訴產品和服務質量。總經理或業務部負責接手或指導相關員工處理客戶投訴並提出解決方案。我們亦定期進行客戶滿意度調查，以收集客戶對我們產品和服務的迴響和意見。在報告期內，本集團未發現任何有關其產品和服務的重大投訴。

Intellectual Property Rights and Product Innovation

In the costume industry, R&D has always been the engine of corporate development and is the top priority for our business operations. The R&D Department of China Partytime is equipped with advanced technology and a team of creative consultants and experts with rich experiences in the animation derivatives industry and clothing industry, so that the rapidly developing trends and changing consumer preferences can be quickly predicted, identified and responded to.

China Partytime mainly focuses on the development of patented technologies related to the production of its products. When designing and producing our high-quality costumes, we carefully consider the users' perspective and take current trends into account. We are proud to be a specialist who continuously creates, develops and promotes innovative products. The Company has obtained a total of seven invention patents during the Reporting Period, mainly related to the equipment used for production and packaging of clothing and wig. To maintain and further enhance our R&D capabilities, we have adopted measures such as 'Employee Incentive Plan', talent cultivation, recruitment and retention, and cooperation with universities and colleges on R&D of patented technologies.

To comply with the "Patent Law of the PRC", "Copyright Law of the PRC" and the "Self-discipline Convention on the Protection of Intellectual Property Rights in China's Garment Industry" and to protect our IP rights, we have implemented the regulation of 'Internal Intellectual Property Rights Management' to protect our innovation achievements and intangible brand assets including patents, copyrights and trademarks. Meanwhile, as the Group understands the importance of IP rights, we not only aim at protecting and promoting our own IP rights, but also pledge to respect all the achievements of industry peers. We will never use other parties' technology or trademark without their prior permission.

Besides, in order to walk the talk of the aforementioned pledges and strengthen our employees' awareness of IP rights protection, the Group conducts relevant trainings periodically. Trainings include the methods to effectively implement the national standards formulated by the Enterprise Intellectual Property Management Code (GB/T29490-2013), as well as the common problems and legal aid and other important issues related to these processes. These trainings helped to improve the sensitivity of the R&D Department to IP rights, and enhance our employees' awareness of paying attention to and respecting IP rights in their daily work.

為遵守《中華人民共和國專利法》、《中華人民共和國版權法》和《中華人民共和國服裝行業知識產權保護自律公約》，保障我們的知識產權，我們落實了「內部知識產權管理」制度，以保護我們的創新成果和無形品牌資產，包括專利、版權和商標。同時，由於本集團知悉知識產權的重要性，我們不僅致力於保護和宣傳自己的知識產權，亦承諾尊重業界同行的所有成就。未經他們的事先許可，我們將不會使用他人的技術或商標。

此外，為了履行上述承諾，加強員工對知識產權的保護意識，本集團定期開展相關培訓。培訓內容包括如何有效執行《企業知識產權管理規範》(GB/T29490-2013)製定的國家標準，以及在此過程中的常見問題和法律援助等重要問題。這些培訓有助於提高研發部門對知識產權的敏感性，並增強我們員工在日常工作中關注和尊重知識產權的意識。

Environmental, Social and Governance Report 環境、社會及管治報告

With regards to the Board and Senior Management team, we emphasise the guideline advocated by the Communist Party of China that “efforts shall be made to build systems and mechanisms that dare not corrupt, cannot corrupt, and do not want to corrupt” in every single meeting, and advocate the management team to be a loyal, transparent and responsible staff member. We highly value the culture of ethical governance and strive to create an unstained business atmosphere that are not only the necessary conditions for corporate citizens to achieve sustainable development, but also the cornerstone of promoting the harmonious development of the whole society. During the Reporting Period, 153 board members, management teams and general staff have participated in the anti-corruption training, which lasted for a total of 30 minutes. In the future, our goal is to continuously improve the current training plan in accordance with the corporate characteristics of China Partytime and national orientation in the context of the New Socialism Era with Chinese characteristics.

With regard to the Procurement Department, the Group published the ‘Code of Integrity and Self-discipline’ in 2014, which covers Jiangxi Partytime and was drafted by the Administrative Department and reviewed by the General Manager. This Code clearly stipulates that procurement staff must comply with relevant regulations during their work. For example, during the procurement process, employees are prohibited from requesting suppliers or business partners to provide any form of rebates, including but not limited to cash, gifts and coupons. At the same time, employees are also prohibited from participating in any banquets or entertainment activities that may affect the normal procurement work of the Group. Whenever necessary, employees must obtain the prior approval of their Department Head and the engagement must be recorded by their departments. Hence, this procedure helps to standardise the daily operation of the Procurement Department, enhances the probity of employees, and protects the legitimate rights and interests of the Group.

針對董事會和高級管理團隊，我們會在每次會議中強調中國共產黨宣導的「努力建立不敢腐、不能腐和不想腐的制度和機制」的指導方針，宣導管理團隊做一個忠誠、乾淨、有擔當的職員。我們高度重視道德管治文化，竭力營造不受污染的商業氛圍，這不僅是企業公民實現可持續發展的必要條件，也是促進整個社會和諧發展的基石。在報告期內，一百五十三名董事會成員、管理團隊和一般員工參加了反腐敗培訓，培訓時長共計三十分鐘。未來，在中國特色社會主義新時代的背景下，我們旨在根據派對文化的企業特點和國家定位，不斷完善現有的培訓計劃。

對於採購部門，本集團於二零一四年發佈了《廉潔自律責任書》，涵蓋江西派對，由行政人事部起草，總經理審核。該責任書明確規定採購人員在工作期間必須遵守相關規定。例如，在採購過程中，禁止員工要求供應商或商業夥伴提供任何形式的回扣，包括但不限於現金、禮品和優惠券。同時，員工也被禁止參加任何可能影響本集團正常採購工作的宴會或娛樂活動。如有必要，員工必須事先獲得部門負責人的批准，並必須由其部門進行記錄。因此，該明確的流程有助於規範採購部門的日常運作，提高員工的誠信度，保障本集團的合法權益。

With regard to the Supply Chain Department, employees of the department are required to sign an 'Anti-corruption Contract' before engaging in formal collaborations with all business partners. Issued in 2014, this Contract covers Jiangxi Partytime and was drafted by the Administrative Department prior to being submitted to the General Manager for final review. We regulate our suppliers using the same high standard as those that apply to our employees. The purpose of this Contract is to prevent our employees and our customers, suppliers or service providers from providing unfair benefits to each other to obtain trading opportunities or engaging in unfair competition to obtain favourable trading conditions. For further details, please refer to the following sub-section of "Supply Chain Management" within this section.

Apart from the 'Code of Integrity and Self-discipline', the Company has also implemented a 'Whistleblowing Policy' to help build and protect the ethical corporate atmosphere. The confidentiality and anonymity of the entire process are guaranteed. Moreover, if we find that a business partner or an employee seeks, accepts or offers any form of financial or non-financial benefits, we will terminate the business cooperation or employment relationship with the offender immediately. In case of suspected crimes, we will report the case to local enforcement authorities for further investigation. 對於供應鏈部門，該部門的員工必須在與所有業務合作夥伴正式合作之前簽訂《反腐敗協議》。該協議發佈於二零一四年，涵蓋江西派對，由行政人事部擬定再交由總經理進行最終審查。我們以適用於規範員工的相同高標準來規範供應商。本協議旨在防止我們的員工和我們的客戶、供應商或服務提供者相互提供不正當利益，以獲取交易機會或有利於交易條件的不公平競爭行為。更多關詳細資訊，請參閱本章節下的「供應鏈管理」小節。

除《廉潔自律責任書》外，本公司還實施了《舉報政策》，以幫助建立和保護廉潔企業環境。首先，我們提供了各種溝通渠道，包括內部電話和意見箱，以鼓勵我們的員工和業務夥伴以安全有效的方式向我們舉報和披露任何不當行為。我們會保證整個過程的保密性和匿名性。此外，如果我們發現商業夥伴或員工尋求、接受或提供任何形式的財務或非財務利益，我們將立即終止與該違法者的商業合作或僱傭關係。如果涉嫌犯罪，我們會將案件移交給當地執法部門進行進一步調查。由此類不當行為造成的任何經濟損失應由違法者承擔，並將給予相應的賠償。在報告期內，本公司未發現任何與反貪污相關的重大違法違規行為。

Supply Chain Management

Suppliers are one of the most critical stakeholders in our business. It is clear that a high-quality, environmentally friendly and safe product is inseparable from a well-managed supply chain. With strict quality, environmental and social standards, we select excellent suppliers from thousands of clothing and wig raw material suppliers to guarantee the quality of our products. Within the Supplier Management System, China Partytime published the 'Supply Chain Management Policy' in 2014, which details the procedures of regulation, assessment and mechanisms. Covering Jiangxi Partytime, this Policy was drafted by the Material Control and Planning Department and reviewed by the General Manager. During the Reporting Period, we collaborated with 38 suppliers in the PRC (2022: 73 suppliers), with the majority located in Zhejiang Province.

供應鏈管理

供應商是我們業務中最重要持份者之一。很明顯，一個高品質、環保和安全的產品與管理良好的供應鏈密不可分。憑藉嚴格的質量、環境和社會標準，我們從數千家服裝和假髮原材料供應商中選擇優秀的供應商，以確保我們產品的品質。在供應商管理體系中，派對文化於二零一四年發佈的《供應鏈管理政策》詳細規定了監管、評估和程式。該政策涵蓋江西派對，由物控計劃部起草，再由總經理審核。在報告期內，我們與中國的38家供應商進行了合作(二零二二年：73家)，其中大部分位於浙江省。

The 'Supplier Review Form' formulated by the Group is the first step to regularly monitor and assess the compliance of suppliers. By evaluating the company profile, ranging from company status, supply chain capability, product quality, production system and other aspects, we select and approve qualified suppliers and include them in the 'Qualified Supplier List' (the "List"). Secondly, to maintain constant management, we will further assess certain aspects against raw material suppliers on a bi-annual basis. These assessment aspects include the delivery quality, delivery turnaround time, product price, service quality and other designated factors relative to supply and demand. Thirdly, a 'Summative Assessment' will be conducted annually to ensure the effectiveness of the List. Finally, all assessment data will be promptly recorded in the 'Qualified Supplier Approval Form' for further reference.

Based on the assessment data collected, we will review the performance of qualified suppliers annually, and reward suppliers that demonstrate excellent performance. For instance, we will make a certain amount of advance payment to these outstanding suppliers. Should suppliers fail to meet our requirements, we will halt all business collaborations and remove them from the List immediately. Furthermore, the Group has actively engaged with its major suppliers to improve their awareness and behaviour regarding green production and business ethics. Before mass production of our products, we will test the relevant materials during the product proofing stage to ensure these materials meet our standards in green production. Meanwhile, a number of measures have been implemented to identify, prevent, and tackle potential environmental risks and social risks along the supply chain.

本集團製定的《供應商評審表》是定期監測和評估供應商合規性的第一步。通過評估公司概況，從公司狀態、供應鏈能力、產品質量、生產系統等方面，我們會甄選然後准予合格的供應商，並將其列入《合格供貨商名單》（「名單」）。其次，為了實現持續管理，我們將每半年對原材料供應商的某些方面進行一次評估。這些評估包括的方面有交付質量、交付週期、產品價格、服務質量以及其他供需相關的指定因素。第三，每年將進行一次總評，以確保名單的時效性。最後，所有評估數據將會及時記錄在《合格供應商評審表》中，以供後續參考。

根據收集的評估數據，我們將對合格供應商的績效每年進行一次檢閱，並獎勵表現優異的供應商，例如，我們將會向優秀供應商預付一定金額的預付款。若供應商未能滿足我們的審查要求，我們將立即停止一切業務合作並將其從名單中刪除。此外，本集團積極與主要供應商合作，以提高他們對綠色生產和商業道德的認識和行為。在批量生產我們的產品之前，我們會在產品打樣時對相關材料進行檢測，以確保這些材料符合我們的綠色生產標準。與此同時，我們還製定了一系列措施，以識別、預防和應對供應鏈上潛在的環境風險和社會風險。

Environmental risks

We require all our suppliers to comply with the “Environmental Protection Law of the PRC”, the “Law of the PRC on Prevention and Control of Environmental Pollution by Solid Waste” and other relevant laws and regulations. A handful of environmental recommendations that align with national standards and principles have been provided to suppliers as the guidance for green production. For instance, we encourage them to obtain qualifications and certifications in environmental management, and other management systems, which will help improve their environmental awareness at the operational level.

Social risks

The aforementioned annual review also helps the Company to assess the business conduct and professional ethics of its suppliers and identify potential social risks in the supply chain. We require all suppliers to comply with the same laws and regulations as we do in our daily operations. Only those with satisfactory social responsibility performance will be selected for cooperation, and any supplier that has been found to have violated these laws and regulations will be removed from the List immediately. For instance, all our suppliers have to sign an ‘Anti-corruption Agreement’ with the Group, which prohibits them from offering any form of benefits to our employees in exchange for orders or business cooperation with the Group. If there are any cases of a breach of this Agreement, we will terminate all business relations with the supplier immediately, freeze its account and handover the case to the local judicial authorities for further investigation depending on the severity of the breach. We will also terminate business relations with suppliers who deliberately use child labour, forced labour or have other serious violations of the local labour laws and regulations.

環境風險

我們要求我們所有的供應商遵守《中華人民共和國環境保護法》、《中華人民共和國固體廢物污染環境防治法》和其他相關法律法規。同時，我們也向供應商提供了一些符合國家標準和原則的環境建議，作為綠色生產的指導。例如，我們鼓勵他們獲得環境管理等管理體系的資格和認證，這將有助於提高他們在運營層面的環境意識。

社會風險

上述年度審查亦幫助本公司評估供應商的商業行為和職業道德，並識別供應鏈中的潛在社會風險。我們要求供應商遵守與我們日常生產相同的法律法規。只有社會責任表現令人滿意的供應商才會被選中合作，任何被發現違反這些法律法規的供應商都將立即從名單中刪除。例如，我們所有的供應商都必須與本集團簽署《反腐敗協議》，該協議嚴禁供應商向我們的員工提供任何形式的利益，以換取與集團的訂單或業務合作。如若發生任何違反本協議的情況，我們將立即終止與該供應商的所有業務關係，凍結其帳戶，並根據違法的嚴重程度將案件移交給當地司法機構進行進一步調查。我們還將終止與故意使用童工、強迫勞動或其他嚴重違反當地勞動法律法規的供應商的業務關係。

PEOPLE AND COMMUNITY

人文和社區

People are invaluable assets to our businesses. We firmly believe that bringing a group of experienced and innovative talents together is the only way to constantly transform imagination into finished products in the animation derivatives industry and costume industry. For employees and workers along the supply chains, we not only care about their health and well-being, but also focus on promoting comprehensive training and development.

China Partytime adheres to the Enterprise Talent Concept of “Cultivate Yourself with Accomplishment, Write Resume with Ability, Create Opportunities with Diligence and Prove Yourself with Performance”. Equality, justice, inclusiveness, and fraternity are the key concepts of our human resources management. During the Reporting Period, the Group did not encounter any non-compliance cases relating to the employment practices of recruitment and promotion, equal opportunity, diversity and anti-discrimination, as well as the labour standards of child labour prevention and forced labour.

For our community, we are keen to understand the most pressing social issues and fulfil our corporate social responsibility. This year, our Party Members and employees participated in the “Community Night Patrol” activity to continue supporting the public welfare undertakings.

員工是我們企業的寶貴財富。我們堅信，在動漫衍生品行業和服裝行業，彙集一批經驗豐富、富有創新精神的人才是不斷將想像力轉化為成品的唯一途徑。對於供應鏈上的僱員和工人，我們不僅關心他們的健康和福祉，同時也注重促進全面的培訓和發展。

派對文化秉承著「用素養修己達人，用能力書寫簡歷，用勤奮創造機遇，用業績證明自己」的企業人才理念，以平等、公正、包容和博愛的概念作為我們人力資源管理的關鍵。在報告期內，本集團並無存在任何有關包括招聘及晉升、平等機會、多元化、反歧視等在內的僱傭常規，以及包括反童工和強迫勞工在內的勞工準則的違規案例。

對於我們的社區來說，我們渴望了解最緊迫的社會問題，並履行我們的企業社會責任。今年，我們的黨員和員工投身於了「社區夜巡」的活動，以此來繼續支持公益事業。

Prevention of Child Labour and Forced Labour

China Partytime pays great attention to the issues of forced labour and child labour. In order to avoid the circumstances of forced labour in our production plants, the Group has implemented the 'Standard Working Hour System', which clarifies the maximum working time of eight hours per day and forty hours per week. If the working hours of the employees have to be extended during peak season due to production needs, we will provide overtime allowance or arrange time off according to the regulation of the "Provision of the State Council on Working Hours of Workers and Staff Members".

In compliance with the "Law of the PRC on the Protection of Minor" and the "Regulations on Prohibition of Child Labour", the 'Guidelines for Saving Child Labour of the Company' that covers Jiangxi Partytime, and was drafted by the Administration and Human Resources ("HR") Department, and submitted to the General Manager for final review and issued in 2014. All job applicants will be assessed based on these Guidelines to avoid the presence of child labour within the Group. In the case of employment of child labour with counterfeit identification documents, we will notify the relevant departments and instruct them to conduct further investigation immediately. Once the case is confirmed, we will terminate the employment and contact his/her legal guardian for further handling. Afterwards, the relevant departments will also be required to reflect, so as to avoid the recurrence of similar incidents.

Occupational Health and Safety

The occupational health and safety of our employees is the priority of the Group's human resources management. Alongside a series of production safety and operation compliance standards mentioned in the previous sub-section entitled 'Production Safety and Operational Compliance', we have obtained the Occupational Health And Safety Management System Certification (GB/T45001-2020/ISO 45001:2018). We have also conducted health and safety training in line with the "Law of the PRC on Prevention and Control of Occupational Diseases" and the "Regulations on the Supervision and Administration of Occupational Health in the Workplace" to comprehensively enhance our employees' safety awareness.

防止童工及強迫勞動

派對文化非常關注強迫勞動和童工問題。為了避免我們的生產工廠出現強迫勞動的情況，本集團實施了「標準工時制度」，該制度明確了每天八小時和每週四十小時的最長工作時間。如果在旺季期間因生產需要需要延長員工的工作時間，我們將根據《國務院關於職工工作時間的規定》的規定提供加班津貼或安排調休。

根據《中華人民共和國未成年人保護法》和《禁止使用童工條例》，由行政人事（「行政人事」）部起草，並提交總經理進行最終審核的涵蓋江西派對的《童工拯救規範》於二零一四年發佈。所有求職者將根據該規範進行審查，以避免本集團內存在童工。若發現誤聘了偽造身份證件的童工，我們將通知有關部門，指示他們立即展開進一步調查。一旦案件被核實，我們將終止他／她的僱傭，並聯繫其法定監護人作進一步處理。事後，相關部門也將被要求進行檢討，以避免類似事件再次發生。

職業健康與安全

我們員工的職業健康和安全是集團人力資源管理的首要任務。除上述「生產安全及合規操作」小節中提到的一系列生產安全和操作符合性標準外，我們已獲得了《職業健康安全體系認證》（GB/T45001-2020/ISO 45001:2018）。我們亦根據《中華人民共和國職業病防治法》和《工作場所職業衛生監督管理條例》開展了健康安全培訓，以全面提高我們員工對職業安全的意識。

Environmental, Social and Governance Report 環境、社會及管治報告

The Group has prevention and follow-up measures in place to further enhance the health and safety of its employees. Before signing an employment contract with an employee, he/she will be informed of all the potential occupational hazard factors and consequences that may be faced in the course of his/her work to ensure that the employee fully understands the importance of occupational safety and health. During his/her tenure, we will establish an 'Occupational Health Monitoring Profile' for him/her. This Profile records results of their occupational health check-ups before work commencement, during work, and at termination of employment.

In addition, the Company also focuses on strengthening the employees' perception towards natural disasters and their understanding of remedial measures. Through short videos on "WeChat Channels", our employees can acquire specific scientific knowledge of emergency rescue, including how to handle a fire emergency, how to carry out bare handed CPR (cardiopulmonary resuscitation) and use an AED (automatic external defibrillator), and how to escape in the event of an earthquake. Overall, the Group had no cases of work-related fatalities or injuries and prosecutions in the past four years, which includes the Reporting Period.

Equal Opportunity and Diversity

China Partytime respects and treats every employee equally, and provides them with a harmonious, inclusive and non-discriminatory work environment. In accordance with the "Labour Law of the PRC", the "Labour Contract Law of the PRC" and other relevant laws and regulations, the Group requires all the employees to sign a 'Labour Contract', which covers Jiangxi Partytime, and was drafted by the Group's Administration and HR Department, and then submitted to the General Manager for final review and issued in 2014.

The Group values the construction of diverse teams and strives to gather talents from different regions with different cultural backgrounds and qualifications. Given our employment principle of "Open Recruit, Equal Compete, Superior Appointed, Internal First", we promise our applicants and employees that the processes of recruitment, development and promotion of employees are based on academic and professional qualifications and work performance, and they will never be treated differently because of their gender, age, race, disability, religious belief or marital status.

本集團具備了進一步確保其員工健康和安全的預防和後續措施。在與員工簽訂合同之前，他/她將被告知在工作過程中他/她可能面臨的所有潛在職業危害因素和後果，從而確保員工充分瞭解職業安全和健康的重要性。在他/她的任職期間，我們將為他/她建立職業健康監測檔案。該檔案記錄了他們在工作開始前、工作期間以及辭職時的職業健康檢查結果。

此外，本公司還注重加強員工對自然災害的認知和對補救措施的理解。通過微信短視頻，我們的員工能了解緊急救援的具體科學知識，包括如何處理火災緊急情況、如何進行徒手CPR（心肺復甦）和使用AED（自動體外除顫器），以及如何在發生地震時逃生。在過去四年（包括報告期）內，本集團沒有發生與工作相關的死亡或傷害案件和起訴。

平等機會與多元化

派對文化尊重並平等對待每一位員工，致力於為他們提供一個和諧、包容和無歧視的工作環境。根據《中華人民共和國勞動法》、《中華人民共和國勞動合同法》等相關法律法規，本集團要求所有員工簽署《勞動合同書》，該合同涵蓋江西派對，由本集團行政人事部起草，交由總經理審查，並於二零一四年發佈。

本集團重視多元化團隊的建設，並努力彙聚來自不同文化背景和資歷的不同地區的人才。鑒於我們「公開招聘、平等競爭、擇優錄用、先內後外」的用人原則，我們向申請人和員工承諾，員工的招聘、發展和晉升過程會基於其自身的學歷和專業資格，以及工作表現，他們不會因性別、年齡、種族、殘疾、宗教信仰或婚姻狀況而受到區別對待。

Employee Training and Development

With the training principle of “Plan for All, Implement at Levels” in mind, the Group purposely provides diversified and personalised training for all the employees, with the aim of nurturing innovative, agile and experienced talents with industry knowledge. An ‘Annual Training Schedule’ has been set up since 2021, which covers Jiangxi Partytime and was formulated by the Administration and HR Department before submitting to the General Manager’s Office for final review.

After analysing the training needs of the employees of different departments, we have specified the annual, monthly and special training plans in this Schedule. These training plans set out the training objectives, content, frequency, place, trainer and assessment methods. The types of training provided include knowledge training, management skills training, special skills/qualification training, induction training, academic qualification training, strategic training and professional service training. Employees can opt for different training methods, such as self-training, internal training, external training, integrated training, and participative training. The assessment methods include oral examination, operational examination and written examination. We will also review and evaluate the effectiveness of these trainings annually by means of questionnaires and examinations, which serve as the basis for subsequent adjustments of our training strategy.

Apart from the aforementioned three-level safety training under the sub-section of ‘Production Safety and Operational Compliance’, IP training under the sub-section of ‘Intellectual Property Rights and Product Innovation’ and anti-corruption training under the sub-section of ‘Business Ethics and Integrity’, the Group has also conducted a variety of thematic trainings to broaden the safety awareness and professional knowledge of the employees. Our training also includes safety production, quality control, fire safety, skill learning, director responsibility, and so on. In addition, the Group has organised the “100 Days Competition” from late March to the end of June in 2023 (figures below). This competition revolves around quality control, production promotion, and delivery guarantee as the main content, attracting employees from all employment categories to participate.

員工培訓與發展

本著「全員計劃，分級實施」的培訓原則，本集團特為所有員工提供多元化和個性化的培訓，旨在培養具有行業知識的創新、敏捷和經驗豐富的人才。《年度培訓計劃表》自二零二一年起實施，涵蓋江西派對，由行政人事部製定，後交由總經理進行最終審查。

在分析了不同部門員工的培訓需求後，我們在計劃表中細分了年度、月度和專項培訓計劃。這些培訓計劃規定了培訓對象、培訓內容、培訓頻率、培訓地點、培訓師和考核方法。培訓類型包括知識培訓、管理技能培訓、特殊技能／資格培訓、上崗培訓、學術資格培訓、策略培訓和專業服務培訓。員工可以選擇不同的培訓方式，如自我培訓、內部培訓、外部培訓、綜合培訓、以及參與式培訓等。評估方法包括口語、操作測驗和筆試。我們還將每年通過問卷調查和考試的方式來審查和評估這些培訓的有效性，並以此作為後續調整培訓策略的基礎。

除了上述「生產安全及合規操作」小節中的三級安全培訓、「知識產權及產品研發」小節中的知識產權培訓和「商業道德及誠信」小節中的反貪污培訓外，本集團還開展了各種主題培訓，以提高員工的安全意識和專業知識。我們的培訓內容亦包括安全生產、品質控制、消防安全、技能學習、董事責任等。此外，與二零二三年三月下旬至六月底，本集團組織了一場「百日賽」（見下圖）。本次比賽以品質控制、生產推廣和交付保障為主要內容，吸引了各個層級的員工參加。

Through initiating various competitions and training programs, the Group hopes that they can help to not only promote the business development, but more importantly, to teach employees the knowledge and skills in the animation derivatives industry, clothing industry and even life skills. We encourage all the trained employees to share their knowledge and skills to other employees by organising seminars or providing instructions, so as to facilitate the process of “learning-by-doing” and jointly improve the operational efficiency of the Company.

Community Investment and Public Welfare Activities

The future generation is the hope of our country. In recent years, the Chinese government has attached great importance to education, with a series of measures to promote the development of education. China Partytime recognises that residents of some remote areas in China cannot access adequate education due to the geographical constraints. As a result, in order to tackle the issue of inequality and promote the balanced development of urban-rural education, the Group has donated 100,000 yuan to support the education of vulnerable people in Yiwu City, Zhejiang Province, China.

通過發起各類競賽和培訓項目，本集團希望這不僅能有助於促進業務發展，更重要的是，它們能向員工傳授動漫衍生品行業、服裝行業的知識和技能、甚至日常生活中的技能。我們鼓勵所有經過培訓的員工通過舉辦研討會或提供指導的方式，將他們所學的知識和技能傳授給其他員工，通過推行「邊做邊學」的方式，共促本公司的高效運營。

社區投資及公益活動

未來一代是我們國家的希望。近年來，中國政府高度重視教育，採取了一系列促進教育發展的措施。派對文化認識到，由於地理限制，中國一些偏遠地區的居民無法獲得足夠的教育。因此，為了解決不平等問題，促進城鄉教育均衡發展，本集團捐贈了十萬元人民幣來支持中國浙江省義烏市的教育事業。

Environmental, Social and Governance Report 環境、社會及管治報告

For the purpose of contributing to public welfare and protecting the community safety, in February 2023, seven Party Members and employees of the Group volunteered in the “Community Night Patrol” activity at Chi’an Town, Jiangxi Province. 為了促進公益事業，保護社區安全，二零二三年二月，本集團的七名黨員和積極員工在江西省赤岸鎮街道參加了「社區夜巡」的活動。我們在這項社區活動中總共貢獻了十四個小時的時間。此外，在二零二三年三月，我們的兩名員工參加了持續兩個小時的「赤岸鎮學雷鋒紀念日公益市場活動」。展望未來，本集團將繼續與社會各界人士合作，努力實現可持續發展目標，以「廣角鏡」關注社區問題，以「多角度」謀求人民福祉，向全社會傳播幸福文化。

ENVIRONMENT AND RESOURCES

環境和資源

It is widely acknowledged that climate change and its related derivative risks pose prominent challenges to business entities nowadays. The urgency, extensiveness and uncertainty of climate-related risks may either directly or indirectly affect the business model, financial condition and business strategy of corporations. In light of our corporate mission of “Happy Spirit, Committed to becoming the World’s Leader in Creating Happy Products”, the happy spirit extends that, we, as a responsible costume manufacturer, hope to achieve the harmonious coexistence of the commercial society and mother nature. Hence, adopting environmentally friendly practices is undoubtedly duty bound. We are obligated to meet the needs of our generation without compromising the ability of future generations to meet their own needs. In this context, the Group has implemented comprehensive policies and measures that align with international standards and national regulations to cope with identified climate-related issues and pursue sustainable development.

We have reviewed our governance and operational practices for the purpose of disclosing the Group’s impact on the climate, environment and natural resources, as well as the risks and impact of each mentioned aspect on the Group. In terms of governance, China Partytime has included environmental and climate-related issues in the materiality assessment in order to clearly understand the potential impact of those issues on the Group and vice versa. Meanwhile, we have formulated a series of governance measures, which are based on the relevant laws and regulations, covering the climate, environment, and natural resources.

眾所周知，氣候變化和相關衍生的風險對當今商業實體構成了突出挑戰。氣候相關風險的緊迫性、廣泛性和不確定性可能直接或間接影響企業的商業模式、財務狀況和商業策略。秉持我們「快樂精神，致力成為世界快樂產品締造的領航者」的企業使命，作為一家負責任的服裝製造商，我們希望將快樂精神延伸致實現商業社會與自然母親的和諧共存。因此，落實環保的措施無疑是責無旁貸的。我們有義務在滿足我們這一代人需求的同時，不損害後代滿足自身需求的能力。在這方面，本集團貫徹了符合國際標準和國家法規的全面政策和措施，以應對已確定的氣候相關問題，並追求可持續發展。

我們已審視自身的管治和運營實踐，旨在披露本集團在氣候、環境、和自然資源方面的影響，以及上述各方面對本集團會造成的風險和影響。在治理方面，派對文化已將環境和氣候相關議題納入重要性評估，以明確了解這些問題對本集團帶來的潛在影響，反之亦然。同時，我們根據相關法律法規制定了一系列含括氣候、環境、和自然資源的治理措施。

Environmental, Social and Governance Report 環境、社會及管治報告

Next, China Partytime has identified and evaluated the physical and transition risks from two aspects: the likelihood of the event occurring and the degree of impact on the Group. It effectively mitigates the actual and potential impact of environmental and climate issues on our business and strategy. In response to these risks, on the one hand, we have actively implemented multiple emission mitigation plans. On the other hand, we have adopted various resources conservation measures that signify our commitment to saving and protecting natural resources throughout the entire operational processes.

Finally, China Partytime believes that formulating reasonable metrics and targets can assist in improving the Group's management and response to environmental- and climate-related risks and opportunities. Also, this demonstrates our actions and determination in energy conservation and emission reduction to the public. In the future, we may consider adding long-term targets and reviewing the outcomes of carbon reduction actions regularly.

接著，派對文化從事件發生的可能性和對本集團的影響程度這兩方面識別並評估了實體風險和轉型風險。這有效地減輕了環境和氣候問題對我們業務和策略的實際和潛在衝擊。針對這些風險，我們一方面積極實施了多項排放緩解計劃，另一方面，我們採取了各類資源保護辦法，致力於在運營整個過程中節約並保護自然資源。

最後，派對文化相信，制定合理的指標及目標有助於提高本集團對環境和氣候相關風險和機遇的管理及應對，亦能向公眾展示我們在節能減排上的行動和決心。在未來，我們或將考慮增加長期目標，並定期回顧減碳行動的成果。

Environmental, Social and Governance Report

環境、社會及管治報告

Governance

First of all, accountability and alignment are two key criteria for good governance. China Partytime has launched a number of policies, measures and agreements throughout the product life cycle that scrutinise national and international standards to guide the daily operation and production. For green production, activities have been carried out based on our Environmental Management System Certification (GB/T24001-2016/ISO 14001:2015). By consciously complying with the relevant laws and regulations, including but not limited to “Environmental Protection Law of the PRC”, the “Law of the PRC on Water and Soil Conservation” and the “Law of the PRC on the Prevention and Control of Water Pollution”, we have established green production measures called the “Cradle to Grave”. These measures introduce the low-carbon operation concept, promote the waste recycling, monitor the implementation of systematic carbon reduction measures, and aim at maximising the utilisation and recycling rate of resources and energy whilst minimising the discharge rate of waste to reduce the burdens on the environment.

管治

首先，問責制和一致性是良好管治的兩大關鍵要素。在產品的整個生命週期內，派對文化參考國家和國際標準，推行了一系列指導日常運營和生產的政策、舉措和協定。對於綠色生產，我們的所有活動皆基於《環境管理體系證書》(GB/T24001-2016/ISO 14001:2015)開展。通過自覺遵守相關法律法規，包括但不限於《中華人民共和國環境保護法》、《中華人民共和國水土保持法》和《中華人民共和國水污染防治法》，我們製定了「從搖籃到墳墓」的綠色生產措施。該措施推行低碳運營的理念，促進廢棄物回收利用，並監測系統性減碳措施的實施情況，旨在最大限度地提高資源和能源的利用率和回收率，同時最大限度地降低廢物排放率，以減輕環境負擔。

In order to combat climate change issues, the Company has published the ‘Policy and Measures to Cope with Natural Disasters’ in 2020, covering Jiangxi Partytime, and it was drafted by the Administrative Department and final reviewed by the General Manager. According to the characteristics of different natural disasters, this Policy provides our employees with specific guidelines to handle the circumstances before, during and after natural disasters, in hope of minimising the negative impact of any potential physical risks.

為了應對氣候變化問題，本公司於二零二零年發佈了《應對天然災害的政策及措施》，該文件涵蓋江西派對，由行政人事部門起草，總經理最終審核。根據不同自然災害的特點，此政策為我們的員工提供了克服自然災害之前、期間和之後情況的具體指南，希望將任何潛在實體風險的負面影響降至最低。

Environmental, Social and Governance Report 環境、社會及管治報告

Besides, we have formulated a ‘Hazardous Waste Disposal Agreement’ in line with the “Law of the PRC on the Prevention and Control of Environmental Pollution by Solid Waste” and the “Technical Policy for Prevention and Control of Hazardous Waste Pollution” to properly handle the Group’s hazardous wastes which include oil drums and lubricating white oil for facility maintenance. This Agreement was published in 2016, covering Jiangxi Partytime and was drafted by the Administrative Department and reviewed by the General Manager. As highlighted in the ‘Hazardous Waste Disposal Agreement’, hazardous wastes will be temporarily and separately stored by the Group, before being handed over to a professional licensed recycling agency for proper collection and treatment. In order to ensure the proper storage and transportation of hazardous wastes, we have implemented necessary safety measures, such as rapid tests against leakage, scattering and spillage. During the Reporting Period, owing to its strict and comprehensive green production measures, the Group was not aware of any violations relating to exhaust gas and greenhouse gas emissions, sewage discharge to water and land, and the generation of hazardous and non-hazardous waste.

Strategy

In order to efficiently use all energy and resources and manage potential risks, China Partytime has prepared comparison tables of energy consumption every month to actively analyse its resources consumption. These tables help to identify the consumption pattern and enable us to implement corresponding saving measures to mitigate any negative environmental impact. The types and sources of energy and resources we have used during the Reporting Period, as well as the respective conservation actions are summarised in the table below. For the detailed emission data, please refer to the “KPIs Summary” section.

此外，我們還根據《中華人民共和國固體廢物污染環境防治法》和《危險廢物污染防治技術政策》製定了《危廢處理協議》，以處理本集團的有害廢物，包括用於設施維護的油桶和潤滑白油。本協議於二零一六年出版，涵蓋江西派對，由行政人事部門起草，總經理最終稽核。如協議中所強調的，有害廢物將由本集團臨時單獨儲存，然後交由專業的有執照的回收機構妥善收集和處理。為了確保有害廢物的正確儲存和運輸，我們採取了必要的安全措施，如快速檢測洩漏、散落和溢出。在報告期內，正因嚴格和全面的綠色生產措施，本集團並無存在任何有關廢氣及溫室氣體排放、向水及土地的排污、有害及無害廢棄物的產生的違規案例。

策略

為了有效利用各種能源和資源並管理潛在風險，派對文化會每月編製能耗對比表，以積極分析其資源消耗情況。這類表格有助於確定消耗模式，使我們能採取相應的節約措施，以減輕負面環境影響。在報告期內我們使用的能源和資源的類型和來源、以及相應的節約措施皆總結於下表。有關詳細的排放數據，請參閱「關鍵績效指標總匯」章節。

Environmental, Social and Governance Report 環境、社會及管治報告

According to our environmental footprint assessment, the productions and operations of the Group did not involve any industrial wastewater, and its wastewater discharged is mainly domestic sewage. Except for wastewater and noise emissions, there are no other areas that have significant adverse impacts on the environment or natural resources near our plants.

根據我們的環境足跡評估，本集團的生產和運營不涉及任何工業廢水，其排放的廢水主要是生活污水。除廢水和噪音外，工廠附近沒有其他對環境或自然資源有重大不利影響的方面。

Environmental, Social and Governance Report 環境、社會及管治報告

Based on the abovementioned identified environmental footprints, China Partytime has conducted systematic analyses to understand and discuss climate-related risks that may adversely affect the Group's business and strategy in the short-term and mid-term. With the help of an independent sustainability consultancy, we have adopted a risk assessment matrix to assess actual and potential material climate-related risks from the perspectives of severity and frequency.

Material Physical Risks

As demonstrated in the table below, extreme precipitation, typhoons, heat waves, and thunderstorms are recognised as “acute material physical risks” that can easily disrupt the daily operation and production capacities of Jiangxi Partytime. The Group's aforementioned ‘Policy and Measures to Cope with Natural Disasters’ issued in 2020 provides all our employees with guidance to cope with various natural disasters. For example, when working on lightning and rainy days, the employees should not use any electrical appliances with insufficient lightning protection measures and should stay far away from equipment such as electric and metal wires or other similar metal devices. When faced with the threat of flooding, the employees should escape to hillsides and highlands in an organised way based on the scheduled route. Alternatively, the employees should try to use boats, rafts, door panels, wooden beds, among others, to take temporary refuge and wait for rescue.

基於上述已識別的環境足跡，派對文化進行了系統性的分析，以瞭解和討論短期和中期可能對集團業務和策略產生不利影響的氣候相關風險。在獨立可持續性顧問的幫助下，我們採用了風險評估矩陣，從嚴重性和頻率這兩個角度評估實際和潛在的重大氣候相關風險。

重大實體風險

如下表所示，極端降水、颱風、熱浪和雷暴被視為「急性重大實體風險」，較容易干擾江西派對的日常運營和生產能力。上述的本集團於二零二零年發佈的《應對天然災害的政策及措施》為我們的所有員工提供了應對各類自然災害的指引。例如，在雷電和雨天工作時，員工不應使用任何缺少或沒有充分防雷措施的電器，並且應遠離電線、金屬線或其他類似金屬裝置的帶電設備。當面臨洪水威脅時，員工應根據預定路線有組織地逃往山坡和高地；或者，員工應嘗試使用船隻、木筏、門板、木床等臨時避難並等待救援。

Material Transition Risks

We pay close attention to the “Fourteenth-Five Year Plan for National Economic and Social Development of the People’s Republic of China” which highlights the need for technological transformation and green production for the textile industry. Apart from using the risk assessment matrix and analysing the resource consumption pattern and sources to continuously improve our quality of disclosures and response measures, we have taken into consideration material climate-related risks in our materiality assessment to enable us to understand our stakeholders’ opinions in a timely manner. With regards to green and low-carbon production, we have adopted a solar power system for electricity generation to reduce our reliance on traditional purchased electricity. For more details, please refer to the next sub-section ‘Risk Management’.

重大轉型風險

我們密切關注著《中華人民共和國國民經濟和社會發展第十四個五年規劃》，該規劃強調了紡織行業技術改造和綠色生產的必要性。除了使用風險評估矩陣並分析資源消耗模式和來源以不斷提高我們的披露質量和應對措施外，我們還在重要性評估中考慮了與氣候相關的重大風險，使我們能夠及時瞭解持份者們的意見。在綠色低碳生產方面，我們採用了太陽能發電系統，以減少對傳統外購電力的依賴。更多關詳細資訊，請參閱下一小節「風險管理」。

Risk Management

Emission Mitigation

We have identified that burning fossil fuels for cooking stoves and vehicles is the major source of the Group's Scope 1 direct emissions. Our exhaust gas emissions mainly stemmed from the air pollutants generated by the Company's vehicles and stationary combustion facilities, including nitrogen oxides ("NOx"), sulphur oxides ("SOx") and particulate matter ("PM"). During the Reporting Period, we owned and used 5 vehicles (2022: 5 vehicles), with a total driving distance of 62,755 km (2022: 55,655 km). We have installed 2 cooking stoves burning liquefied petroleum gas in our employee canteen (2022: 2 stoves).

Since most of our greenhouse gas ("GHG") emissions originate from Scope 2 emissions generated due to the purchase of electricity for production and operation, in response, we have adopted clean energy such as solar power to eliminate our reliance on the purchased electricity. During the Reporting Period, the solar power generation system in Jiangxi Partytime generated 278.50 mWh (2022: 273.00 mWh), which is equivalent to offsetting approximately 148.16 tCO₂e of carbon emissions. In our production plants, Jiangxi Partytime has introduced low-carbon operations by suspending the operations of unnecessary production facilities whenever possible.

At the same time, we endeavour to promote low-carbon operations and expand the solar power generation systems in production plants to reduce the consumption of fossil fuels. Looking ahead, we will further expand our investment in solar power. For means of transportation, we encourage our employees to choose low-carbon methods to commute to work, which include but are not limited to the use of shared bicycles and the purchase of new energy vehicles and electromobility.

In our office, we have frequently promoted the concepts of low-carbon and energy-saving in the hope of raising the employees' awareness towards environmental protection in their daily work and life. Apart from adhering to the 'Paperless Office Principle' by eliminating all unnecessary paper printing, we have not only encouraged our employees to open windows instead of turning on air-conditioners, but also displayed posters around the office to guide them in utilising daylight instead of turning on the lights whenever possible and take the stairs instead of elevators. Meanwhile, the publicity posters initiated by the Yiwu Development and Reform Bureau have been posted around the Company's premises to promote the concept of low-carbon and energy-saving.

風險管理

排放緩解措施

我們已識別爐灶和車輛燃燒的化石燃料是集團範圍一直接排放的主要來源。我們的廢氣排放主要來自公司車輛和固定燃燒設施產生的空氣污染物，包括氮氧化物(NOx)、硫氧化物(SOx)和顆粒物(PM)。在報告期內，我們擁有並使用了5輛汽車(二零二二年：5輛)，總行駛距離為62,755公里(二零二二年：55,655公里)。我們在員工食堂配備了2個燃燒液化石油氣的灶具(二零二二年：2個灶具)。

由於我們大部分的溫室氣體排放源於生產和運營中外購電力所產生的範圍二排放，我們已將部分購電替換為太陽能等清潔能源，以消除對購電的依賴。在報告期內，江西派對太陽能發電系統的發電量為278.50兆瓦時(二零二二年：273.00兆瓦時)，相當於抵銷了大約148.16噸二氧化碳當量。在我們的生產工廠，江西派對通過盡可能暫停不必要的生產設施的運營，引入了低碳運營。

同時，我們大力推行低碳運營，並擴大生產工廠的太陽能發電系統，以減少化石燃料的消耗。展望未來，我們將進一步擴大對太陽能的投資。對於交通工具，我們鼓勵我們的員工低碳通勤，包括但不限於使用共享單車、購買新能源汽車和電動汽車。

在我們的辦公室，我們經常宣傳低碳和節能的概念，希望提高員工在日常工作和生活中的環保意識。除了堅持「無紙化辦公原則」以減少所有不必要的紙張印刷外，我們不僅鼓勵我們的員工打開窗戶而不使用空調，還在辦公室周圍張貼海報，引導他們盡可能利用日光代替開燈，用走樓梯代替電梯。同時，由義烏市發展和改革局發起的宣傳海報已張貼在公司辦公場所周圍，以推廣低碳和節能的理念。

Resource conservation

As an environmentally responsible enterprise, we fully understand the importance of conserving limited natural resources. In China, water resources are under growing pressure. This is not only because China has insufficient water resources, but also the water quality has gradually deteriorated due to increasing levels of pollution. The lack of sufficient water resources has caused serious negative impacts on the society and the environment. In this context, the Group commits to strictly following the relevant disposal regulations to handle wastewater while saving water from the source. As shown below, we have created a poster that introduces various ways of saving water resources in daily life, which enables us to promote the importance of water management and enhance water-saving. Overall, the Group has no issue in sourcing water that is fit for purpose.

資源保護

作為一家對環境負責的企業，我們充分懂得保護有限自然資源的重要性。在中國，水資源面臨著越來越大的壓力。這不僅是因為中國的地下水資源不足，而且水質也因日漸嚴重的污染而逐漸惡化。水資源短缺對社會和環境造成了嚴重的負面影響。在此背景下，本集團承諾嚴格遵守以下的相關處置規定處理廢水，同時從源頭節約用水。如下圖所示，在我們製作的海報中，我們介紹了日常生活中節約水資源的各種方法，這有助於我們宣傳用水管理以及節水的重要性。本集團在採取適合用途的水方面沒有出現問題。

China Partytime has been monitoring chemical oxygen demand, suspended matter, ammonia nitrogen, and animal and vegetable oil in wastewater for many years. In July 2023, the Group again employed a third-party testing agency to carry out the inspection of wastewater and noise generated in its daily operations, aiming to further quantify and determine its impact on the ecological environment. According to the requirements of the Integrated Wastewater Discharge Standard (GB8978-1996) and the Emission Standard for Industrial Enterprises Noise at the Boundary (GB12348-2008), all monitoring results met the established standards.

於二零二三年七月，本集團聘請了一家第三方檢測機構對其日常運營中產生的廢水和噪音進行檢測，旨在進一步量化和確定其對生態環境的影響。根據《污水綜合排放標準》(GB8978-1996)和《工業企業廠界環境噪聲排放標準》(GB12348-2008)的要求，監測結果均符合既定標準。

Environmental, Social and Governance Report 環境、社會及管治報告

The layout plan of rainwater and sewage pipe network, the corresponding responsible person for safety management and operation, as well as the drainage permit have all been clearly posted in our factory. It states that “no one is allowed to change the rain and sewage pipe network without authorisation. If it needs to be changed, please contact the person in charge of safety management of the town”. Regarding the operation and maintenance of the rainwater and sewage pipe network, we have designated a special personnel to patrol the area once a month, wash the oil separator every month, wash the septic tank every half a year, replace the defective kiln well cover promptly, dredge the blocked or overflowing pipes promptly, ensure that there is no debris or scaling in the kiln well, and ensure that the sewage included in the sewage pipe is according to the specifications.

Next, in order to properly handle wastewater to reduce the risks of hazards, we have conducted simple treatment using the sewage treatment facilities at the factories. By changing the rain and sewage diversion of the underground pipelines, it has effectively reduced the discharge of wastewater. The domestic sewage has then been drained into the local sewage plants through the municipal pipeline network for further purification or treatment. In order to commit to the concept of green office, we have also posted reminders around the Company’s premises to notify the employees to turn off taps and lights promptly when they leave.

China Partytime has also put great effort in resource conservation throughout our product lifecycle. With regard to material selection, we have purchased environmentally friendly raw materials and auxiliary materials for the production of costumes and wigs. Biodegradable non-woven fabrics are our priority in the production of our products. In order to improve the rate of recycling and reduce the consumption of virgin plastic and paper packaging, we reuse raw material packaging boxes when packing our products.

雨污管網平面分布圖、安全管理和運營的相關負責人，以及排水許可證均清楚地張貼於我們的工廠內。其明確標明，「嚴禁任何人擅自改動雨污管網，如需改動請聯系鎮安全管理負責人」。關於雨水和污水管網的運行和維護，我們已指定專人每月巡查一次，每月對隔油池進行沖洗，每半年對化糞池進行沖洗，及時更換缺損窰井蓋，及時對堵塞或冒溢管道進行疏通，確保窰井內無雜物或結垢，並確保污水按規範納入污水管道。

接下來，為了妥善處理廢水以減少有害擴散的風險，我們會利用工廠的廢水處理設施進行簡單的處理。通過改變地下管道的雨污分流，這有效地減少了廢水排放。然後，生活污水將會通過市政管網排入當地污水廠進行進一步淨化或處理。為了貫徹綠色辦公室的理念，我們亦在公司周圍張貼了提醒，旨在讓員工在他們離開時及時關閉水龍頭和電燈。

派對文化也致力於盡可能在我們產品的生命週期中保護資源。關於材料的選擇，我們購買了環保原材料和輔助材料來生產服裝和假髮，可生物降解的無紡布是生產我們產品時的首選。為了提高了回收率，減少了塑膠和紙包裝的消耗，我們在包裝我們的產品時會重複使用原材料包裝盒。

Environmental, Social and Governance Report 環境、社會及管治報告

Regarding the treatment of non-hazardous waste of the Group, which mainly stems from production waste, waste cartons, and domestic waste, we have formulated a set of classification-based internal waste collection and management procedures. We adhere to the principles of reduction, harmlessness, and reclamation for waste control and disposal, whilst strictly monitoring the sorting, storage and disposal of each type of waste. All the waste dumps within our factories have been replaced with intelligent garbage sorting stations to facilitate the process of waste classification and recycling. For production wastes such as scraps in the fabric cutting process and remnant synthetic hair in the wig brushing process, after sorting and collecting, we either process them for reuse or sell them to recycling companies, so as to realise the principle of recycling of waste materials.

As shown in the figure below, in order to orderly manage domestic waste and cultivate the awareness of garbage sorting, we have posted a series of reminders asking the employees to dispose of waste in accordance with the specific classification guidelines formulated for the offices and the factory premises. Non-hazardous wastes of the Company will be collected and transported by the Environmental Sanitation Office of the Development Zone every day.

Metrics and Targets

Based on the aforementioned identified environmental footprints and impacts, the Group has set the following 11 environmental objectives to reduce the environmental footprint in its daily operations and in the hope of achieving environmentally friendly development in the long run. During the Reporting Period, we have fully achieved 8 targets, and the rest of them will also be achieved in an orderly manner as planned.

In terms of exhaust gas and GHG emissions, we managed to maintain an annual emissions intensity by area at 0.04 tCO₂e-/m² in 2023. We have planted a total of 75 trees since the operation and our goal is to keep increasing the greenery coverage in the upcoming years. Regarding the packaging materials, we have achieved the target of limiting the consumption intensity of plastic and paper packaging materials to no more than 0.02 kg/product.

關於本集團主要來自生產廢料、廢紙箱和生活垃圾的無害廢棄物的處理，我們製定了一套基於分類的內部廢物收集和管理流程。我們堅持減量化、無害化和回收利用的原則來控制和處置廢物，同時嚴格監控各類廢物的分類、儲存和處置。我們工廠內的所有垃圾場都已被智慧垃圾分類站取代，以便於進行垃圾分類和回收。對於生產廢料，如織物切割過程中的廢料和假髮刷過程中的殘餘合成毛髮，經過分類和收集後，我們會將其加工或出售給回收公司，以實現廢物回收的原則。

如下圖所示，為了有序管理生活垃圾並培養垃圾分類的意識，我們張貼了一系列提醒，要求員工按照辦公室和工廠的具體分類指南處理垃圾。本公司分類的無害廢棄物將交由開發區環境衛生辦進行每日的收集和運輸。

指標與目標

根據上述確定的環境足跡和影響路徑，本集團已製定了以下十一個環境目標，以減少日常運營中的環境足跡，並希望從長遠來看實現環保發展。在報告期內，我們已經全面實現了八個目標，其餘目標也將會按計劃有序落實。

在廢氣和溫室氣體排放方面，我們設法在二零二三年把按面積劃分的總排放密度降低到了0.04噸二氧化碳當量每平方米。我們自運營以來共種植了75棵樹，我們的目標是在來年繼續新增綠化覆蓋率。關於包裝材料，我們實現了將塑膠和紙包裝材料的消耗密度限制在每產品不超過0.02千克的目標。

Environmental, Social and Governance Report 環境、社會及管治報告

For energy consumption, given the development of our solar power generation system, the total amount of electricity generated by solar power has increased by 2.01% when compared to that in 2022. The Company will further expand its investment in solar energy in the future. Last but not the least, we have achieved all water-related targets, including that all newly installed taps are sensor-activated in the living areas of Jiangxi Partytime, and the water consumption intensity does not exceed 1.00 m³/m² from 2022 onwards.

在能源消耗方面，基於我們太陽能發電系統的發展，太陽能發電的總量比二零二二年增加了2.01%。本公司將在未來進一步擴大其對太陽能的投資。最後，我們已實現了所有與水相關的目標，包括在江西派對的生活區內新安裝的水龍頭全部為感應式水龍頭，以及從二零二二年起，耗水量密度不超過1.00立方米每平方米。
