STRICTLY CONFIDENTIAL – DO NOT FORWARD
THIS OFFERING IS AVAILABLE ONLY TO INVESTORS
WHO ARE OUTSIDE OF THE UNITED STATES.

IMPORTANT: You must read the following disclaimer before continuing. The following disclaimer applies to the attached offering memorandum following this page. You are therefore advised to read this disclaimer carefully before reading, accessing or making any other use of the attached offering memorandum. In accessing the attached offering memorandum, you agree to be bound by the following terms and conditions including any modifications to them from time to time, each time you receive any information from us as a result of such access.

Confirmation of Your Representation: You have accessed the attached document on the basis that you have confirmed your representation to Credit Suisse (Hong Kong) Limited, Deutsche Bank AG, Singapore Branch, BOCI Asia Limited, Haitong International Securities Company Limited, UBS AG Hong Kong Branch, Fulbright Securities Limited and Kaisa Financial Group Company Limited (the “Initial Purchasers”) that (1) either (i) you and any customers you represent are outside the United States and to the extent you purchase the securities described in the attached offering memorandum, you will be doing so pursuant to Regulation S under the U.S. Securities Act of 1933, as amended (the “U.S. Securities Act”) AND (2) that you consent to delivery of the attached offering memorandum and any amendments or supplements thereto by electronic transmission.

The attached offering memorandum is not a prospectus for the purposes of the European Union’s Regulation (EU) 2017/1129.

MiFID II product governance/Professional investors and ECPs only target market – Solely for the purposes of the manufacturer’s product approval process, the target market assessment in respect of the securities described in the attached document has led to the conclusion that: (i) the target market for the securities described in the attached document is eligible counterparties and professional clients only, each as defined in Directive 2014/65/EU (as amended, “MiFID II”); and (ii) all channels for distribution of the securities described in the attached document to eligible counterparties and professional clients are appropriate. Any person subsequently offering, selling or recommending the securities described in the attached document (a “distributor”) should take into consideration the manufacturer’s target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the securities described in the attached document (by either adopting or refining the manufacturer’s target market assessment) and determining appropriate distribution channels.

PROHIBITION OF SALES TO EEA AND UK RETAIL INVESTORS – The securities described in the attached offering memorandum are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (“EEA”) or in the United Kingdom (the “UK”). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II, or (ii) a customer within the meaning of Directive (EU) 2016/97 (the “Insurance Distribution Directive”), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II. Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the “PRIIPs Regulation”) for offering or selling the securities described in the attached offering memorandum or otherwise making them available to retail investors in the EEA or in the UK has been prepared and therefore offering or selling the securities described in the attached offering memorandum or otherwise making them available to any retail investor in the EEA or in the UK may be unlawful under the PRIIPs Regulation.

The communication of the attached offering memorandum and any other document or materials relating to the issue of the securities described in the attached offering memorandum is not being made, and such documents and/or materials have not been approved, by an authorized person for the purposes of section 21 of the United Kingdom’s Financial Services and Markets Act 2000, as amended. Accordingly, such documents and/or materials are not being distributed to, and must not be passed on to, the general public in the United Kingdom. The communication of such documents and/or materials as a financial promotion is only being made to those persons in the United Kingdom who have professional experience in matters relating to investments and who fall within the definition of investment professionals (as defined in Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005, as amended (the “Financial Promotion Order”), or who fall within Article 49(2)(a) to (d) of the Financial Promotion Order, or who are any other persons to whom it may otherwise lawfully be made under the Financial Promotion Order (all such persons together being referred to as “relevant persons”). In the United Kingdom, the securities described in the attached offering memorandum are only available to, and any investment or investment activity to which the attached offering memorandum relates will be engaged in only with, relevant persons. Any person in the United Kingdom that is not a relevant person should not act or rely on the attached offering memorandum or any of its contents.

Notification under Section 309B(1)(c) of the Securities and Futures Act, Chapter 289 of Singapore (the “SFA”) — the Company has determined, and hereby notifies all relevant persons (as defined in Section 309A(1) of the SFA), that the Notes are prescribed capital markets products (as defined in the Securities and Futures (Capital Markets Products) Regulations 2018 of Singapore) and Excluded Investment Products (as defined in MAS Notice SFA 04-N12: Notice on the Sale of Investment Products and MAS Notice FAA-N16: Notice on Recommendations on Investment Products).

The attached document has been made available to you in electronic form. You are reminded that documents transmitted via this medium may be altered or changed during the process of transmission and consequently none of the Initial Purchasers or any person who controls them or any of their directors, employees, representatives or affiliates accepts any liability or responsibility whatsoever in respect of any discrepancies between the document distributed to you in electronic format and the hard copy version. We will provide a hard copy version to you upon request.

THE SECURITIES HAVE NOT BEEN AND WILL NOT BE REGISTERED UNDER THE U.S. SECURITIES ACT, OR THE SECURITIES LAWS OF ANY STATE OF THE UNITED STATES OR OTHER JURISDICTION, AND MAY NOT BE OFFERED OR SOLD WITHIN THE UNITED STATES EXCEPT PURSUANT TO AN EXEMPTION FROM, OR IN A TRANSACTION NOT SUBJECT TO, THE REGISTRATION REQUIREMENTS OF THE U.S. SECURITIES ACT AND ANY APPLICABLE STATE OR LOCAL SECURITIES LAWS.

Except with respect to eligible investors in jurisdictions where such offer is permitted by law, nothing in this electronic transmission constitutes an offer or an invitation by or on behalf of either the issuer of the securities or to the Initial Purchasers to subscribe for or purchase any of the securities described therein and access has been limited so that it shall not constitute a general advertisement or solicitation in the United States or elsewhere. If a jurisdiction requires that the offering be made by a licensed broker or dealer and the Initial Purchasers or any affiliate of the Initial Purchasers is a licensed broker or dealer in that jurisdiction, the offering shall be described to be made by the Initial Purchasers or their affiliates on behalf of the issuer in such jurisdiction.

You are reminded that you have accessed the attached offering memorandum on the basis that you are a person into whose possession such offering memorandum may be lawfully delivered in accordance with the laws of the jurisdiction in which you are located and you may not nor are you authorized to deliver such offering memorandum, electronically or otherwise, to any other person. If you have gained access to this transmission contrary to the foregoing restrictions, you will be unable to purchase any of the securities described therein.

Actions That You May Not Take: You should not reply by e-mail to this announcement, and you may not purchase any securities by doing so. Any reply e-mail communications, including those you generate by using the “Reply” function on your e-mail software, will be ignored or rejected.

YOU ARE NOT AUTHORIZED AND YOU MAY NOT FORWARD OR DELIVER THE ATTACHED OFFERING MEMORANDUM, ELECTRONICALLY OR OTHERWISE, TO ANY OTHER PERSON OR REPRODUCE SUCH OFFERING MEMORANDUM IN ANY MANNER WHATSOEVER. ANY FORWARDING, DISTRIBUTION OR REPRODUCTION OF THE ATTACHED OFFERING MEMORANDUM, IN WHOLE OR IN PART, IS UNAUTHORIZED. FAILURE TO COMPLY WITH THIS DIRECTIVE MAY RESULT IN A VIOLATION OF THE U.S. SECURITIES ACT OR THE APPLICABLE LAWS OF OTHER JURISDICTIONS.

You are responsible for protecting against viruses and other items of a destructive nature. Your use of this e-mail is at your own risk and it is your responsibility to take precautions to ensure that it is free from viruses and other items of a destructive nature.

KAISA GROUP HOLDINGS LTD.

(incorporated in the Cayman Islands with limited liability)

US\$300,000,000 7.875% Senior Notes due 2021

Issue Price: 100.0%

Our 7.875% Senior Notes due 2021 (the “Notes”) will bear interest at the rate of 7.875% per annum and will mature on June 9, 2021. The Notes will bear interest from June 10, 2020, payable in arrears on December 10, 2020 and June 9, 2021.

The Notes are senior obligations of Kaisa Group Holdings Ltd. (the “Company”), guaranteed by certain of our existing subsidiaries (the “Subsidiary Guarantors”), other than (1) those organized under the laws of the PRC and (2) certain other subsidiaries specified in “Description of the Notes.” We refer to the guarantees by the Subsidiary Guarantors as Subsidiary Guarantees. The Company and the Subsidiary Guarantor Pledgors (as defined herein) have agreed to pledge the capital stock of the Subsidiary Guarantors held by them to secure the Notes and the Subsidiary Guarantees of such Subsidiary Guarantor Pledgors.

At any time and from time to time prior to June 9, 2021, we may redeem up to 35% of the aggregate principal amount of the Notes with the net cash proceeds of one or more sales of common stock of the Company in an equity offering at a redemption price of 107.875% of the principal amount of the Notes, plus accrued and unpaid interest, if any, to (but not including) the redemption date. In addition, we may at our option redeem the Notes, in whole but not in part, at any time prior to June 9, 2021, at a redemption price equal to 100% of the principal amount of the Notes plus a premium as set forth in this offering memorandum and accrued and unpaid interest if any, to (but not including) the redemption date. See “Description of the Notes — Optional Redemption.” Upon the occurrence of a Change of Control Triggering Event (as defined in the indenture governing the Notes (the “Indenture”)), we must make an offer to repurchase all Notes outstanding at a purchase price equal to 101% of their principal amount, plus accrued and unpaid interest, if any, to the date of repurchase.

The Notes will be (1) at least *pari passu* in right of payment against the Company with all other unsecured, unsubordinated Indebtedness (as defined in the Indenture) of the Company (subject to any priority rights of such unsubordinated Indebtedness pursuant to applicable law), (2) senior in right of payment to any existing and future obligations of the Company expressly subordinated in right of payment to the Notes, (3) effectively subordinated to the secured obligations of the Company, the Subsidiary Guarantors and the JV Subsidiary Guarantors, to the extent of the value of the assets serving as security therefor (other than the collateral securing the Notes), and (4) effectively subordinated to all existing and future obligations of the Non-Guarantor Subsidiaries (as defined below). In addition, applicable law may limit the enforceability of the Subsidiary Guarantees, the JV Subsidiary Guarantees (as defined herein) and the pledge of any collateral. See the section entitled “Risk Factors — Risks Relating to the Subsidiary Guarantees, the JV Subsidiary Guarantees and the Collateral.”

For a more detailed description of the Notes, see the section entitled “Description of the Notes”.

Investing in the Notes involves risks. See the section entitled “Risk Factors”.

Application will be made to the Singapore Exchange Securities Trading Limited (the “SGX-ST”) for the listing and quotation of the Notes on the SGX-ST. The SGX-ST assumes no responsibility for the correctness of any of the statements made, opinions expressed or reports contained in this offering memorandum. Approval in-principle from, admission to the Official List of, and listing and quotation of the Notes on, the SGX-ST are not to be taken as an indication of the merits of the offering, the Company, the Notes, the Subsidiary Guarantees, the Subsidiary Guarantors or their respective subsidiaries or associated companies (if any).

The Notes and the Subsidiary Guarantees have not been and will not be registered under the United States Securities Act of 1933, as amended (the “U.S. Securities Act”), and may not be offered or sold within the United States except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act. The Notes and the Subsidiary Guarantees are being offered and sold outside the United States in compliance with Regulation S under the U.S. Securities Act (“Regulation S”).

It is expected that delivery of the Notes will be made on or about June 10, 2020 through the book-entry facilities of Euroclear Bank SA/NV (“Euroclear”) and Clearstream Banking S.A. (“Clearstream”) against payment therefor in immediately available funds.

This offering memorandum does not constitute an offer to sell to, or a solicitation of an offer to buy from, any person in any jurisdiction to whom it is unlawful to make the offer or solicitation in such jurisdiction. Neither the delivery of this offering memorandum nor any sale made hereunder shall, under any circumstances, create any implication that there has been no change in our affairs since the date of this offering memorandum or that the information contained in this offering memorandum is correct as of any time after that date.

This offering memorandum is not a prospectus for the purposes of the European Union’s Regulation (EU) 2017/1129.

MiFID II product governance/Professional investors and ECPs only target market – Solely for the purposes of the manufacturer’s product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is eligible counterparties and professional clients only, each as defined in Directive 2014/65/EU (as amended, “MiFID II”); and (ii) all channels for distribution of the securities described in the attached document to eligible counterparties and professional clients are appropriate. Any person subsequently offering, selling or recommending the Notes (a “distributor”) should take into consideration the manufacturer’s target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer’s target market assessment) and determining appropriate distribution channels.

PROHIBITION OF SALES TO EEA AND UK RETAIL INVESTORS — The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (“EEA”) or in the United Kingdom (the “UK”). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II, or (ii) a customer within the meaning of Directive (EU) 2016/97 (the “Insurance Distribution Directive”), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II. Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the “PRIIPs Regulation”) for offering or selling the Notes or otherwise making them available to retail investors in the EEA or in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA or in the UK may be unlawful under the PRIIPs Regulation.

The communication of this offering memorandum and any other document or materials relating to the issue of the Notes offered hereby is not being made, and such documents and/or materials have not been approved, by an authorized person for the purposes of section 21 of the United Kingdom’s Financial Services and Markets Act 2000, as amended (the “FSMA”). Accordingly, such documents and/or materials are not being distributed to, and must not be passed

on to, the general public in the United Kingdom. The communication of such documents and/or materials as a financial promotion is only being made to those persons in the United Kingdom who have professional experience in matters relating to investments and who fall within the definition of investment professionals (as defined in Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005, as amended (the “Financial Promotion Order”)), or who fall within Article 49(2)(a) to (d) of the Financial Promotion Order, or who are any other persons to whom it may otherwise lawfully be made under the Financial Promotion Order (all such persons together being referred to as “relevant persons”). In the United Kingdom, the Notes offered hereby are only available to, and any investment or investment activity to which this offering memorandum relates will be engaged in only with, relevant persons. Any person in the United Kingdom that is not a relevant person should not act or rely on this offering memorandum or any of its contents.

Notification under Section 309B(1)(c) of the Securities and Futures Act, Chapter 289 of Singapore (the “SFA”) — the Company has determined, and hereby notifies all relevant persons (as defined in Section 309A(1) of the SFA), that the Notes are prescribed capital markets products (as defined in the Securities and Futures (Capital Markets Products) Regulations 2018 of Singapore) and Excluded Investment Products (as defined in MAS Notice SFA 04-N12: Notice on the Sale of Investment Products and MAS Notice FAA-N16: Notice on Recommendations on Investment Products).

IN CONNECTION WITH THIS OFFERING, EACH OF THE INITIAL PURCHASERS (AS DEFINED HEREIN), AS STABILIZING MANAGER, OR ANY PERSON ACTING ON ITS BEHALF, MAY PURCHASE AND SELL THE NOTES IN THE OPEN MARKET. THESE TRANSACTIONS MAY, TO THE EXTENT PERMITTED BY APPLICABLE LAWS AND REGULATIONS, INCLUDE SHORT SALES, STABILIZING TRANSACTIONS AND PURCHASES TO COVER POSITIONS CREATED BY SHORT SALES. THESE ACTIVITIES MAY STABILIZE, MAINTAIN OR OTHERWISE AFFECT THE MARKET PRICE OF THE NOTES. AS A RESULT, THE PRICE OF THE NOTES MAY BE HIGHER THAN THE PRICE THAT OTHERWISE MIGHT EXIST IN THE OPEN MARKET. IF THESE ACTIVITIES ARE COMMENCED, THEY MAY BE DISCONTINUED AT ANY TIME AND MUST IN ANY EVENT BE BROUGHT TO AN END AFTER A LIMITED TIME. THESE ACTIVITIES WILL BE UNDERTAKEN SOLELY FOR THE ACCOUNT OF THE STABILIZING MANAGER, AND NOT FOR US OR ON OUR BEHALF.

We, having made all reasonable inquiries, confirm that: (i) this offering memorandum contains all information with respect to us, our subsidiaries and affiliates referred to in this offering memorandum, the Notes and the Subsidiary Guarantees that is material in the context of the issue and offering of the Notes; (ii) the statements contained in this offering memorandum relating to us and our subsidiaries and our affiliates are in every material respect true and accurate and not misleading; (iii) the opinions and intentions expressed in this offering memorandum with regard to us and our subsidiaries and affiliates are honestly held, have been reached after considering all relevant circumstances and are based on reasonable assumptions; (iv) there are no other facts in relation to us, our subsidiaries and affiliates, the Notes and the Subsidiary Guarantees, the omission of which would, in the context of the issue and offering of the Notes, make this offering memorandum, as a whole, misleading in any material respect; and (v) we have made all reasonable enquiries to ascertain such facts and to verify the accuracy of all such information and statements. We accept responsibility accordingly.

This offering memorandum is highly confidential. We are providing it solely for the purpose of enabling you to consider a purchase of the Notes. You should read this offering memorandum before making a decision whether to purchase the Notes. You must not use this offering memorandum for any other purpose, or disclose any information in this offering memorandum to any other person.

We have prepared this offering memorandum, and we are solely responsible for its contents. You are responsible for making your own examination of us and your own assessment of the merits and risks of investing in the Notes. By purchasing the Notes, you will be deemed to have acknowledged that you have made certain acknowledgements, representations and agreements as set forth under the section entitled “Transfer Restrictions” below.

No representation or warranty, express or implied, is made by Credit Suisse (Hong Kong) Limited, Deutsche Bank AG, Singapore Branch, BOCI Asia Limited, Haitong International Securities Company Limited, UBS AG Hong Kong Branch, Fulbright Securities Limited and Kaisa

Financial Group Company Limited (the “Initial Purchasers”) or Citicorp International Limited (the “Trustee”), Citibank, N.A., London Branch (the “Paying Agent”, the “Transfer Agent” and the “Registrar”) or any of their respective affiliates, directors or advisors as to the accuracy or completeness of the information set forth herein, and nothing contained in this offering memorandum is, or should be relied upon as, a promise or representation, whether as to the past or the future. None of the Initial Purchasers, the Trustee, the Paying Agent, the Transfer Agent or the Registrar or any of their respective affiliates, directors or advisors has independently verified any of the information contained in this offering memorandum, they can give no assurance that this information is accurate, truthful or complete, and, to the fullest extent permitted by law, none of them accepts any responsibility for the contents of this offering memorandum. This offering memorandum is not intended to provide the basis of any credit or other evaluation nor should it be considered as a recommendation by the Company, the Subsidiary Guarantors, the Initial Purchasers, the Trustee, the Paying Agent, the Transfer Agent or the Registrar that any recipient of this offering memorandum should purchase the Notes.

Each person receiving this offering memorandum acknowledges that: (i) such person has been afforded an opportunity to request from us and to review, and has received, all additional information considered by it to be necessary to verify the accuracy of, or to supplement, the information contained herein; (ii) such person has not relied on the Initial Purchasers, the Trustee or any person affiliated with the Initial Purchasers or the Trustee in connection with any investigation of the accuracy of such information or its investment decision; and (iii) no person has been authorized to give any information or to make any representation concerning us, our subsidiaries and affiliates, the Notes or the Subsidiary Guarantees (other than as contained herein and information given by our duly authorized officers and employees in connection with investors’ examination of our company and the terms of the offering of the Notes) and, if given or made, any such other information or representation should not be relied upon as having been authorized by us or the Initial Purchasers or the Trustee.

The Notes and the Subsidiary Guarantees have not been approved or disapproved of by the United States Securities and Exchange Commission (“SEC”), any state securities commission in the United States or any other United States regulatory authority, nor have any of the foregoing authorities passed upon or endorsed the merits of the offering or the accuracy or adequacy of this offering memorandum. Any representation to the contrary is a criminal offense in the United States.

We are not, and the Initial Purchasers are not, making an offer to sell the Notes, including the Subsidiary Guarantees, in any jurisdiction except where an offer or sale is permitted. The distribution of this offering memorandum and the offering of the Notes, including the Subsidiary Guarantees, may in certain jurisdictions be restricted by law. Persons into whose possession this offering memorandum comes are required by us and the Initial Purchasers to inform themselves about and to observe any such restrictions. For a description of the restrictions on offers and sales of the Notes, including the Subsidiary Guarantees, and distribution of this offering memorandum, see the sections entitled “Transfer Restrictions” and “Plan of Distribution” below.

This offering memorandum summarizes certain material documents and other information, and we refer you to them for a more complete understanding of what we discuss in this offering memorandum. In making an investment decision, you must rely on your own examination of us and the terms of the offering, including the merits and risks involved. We are not making any representation to you regarding the legality of an investment in the Notes by you under any legal, investment, taxation or similar laws or regulations. You should not consider any information in this offering memorandum to be legal, business or tax advice. You should consult your own professional advisors for legal, business, tax and other advice regarding an investment in the Notes.

We reserve the right to withdraw the offering of Notes at any time, and the Initial Purchasers reserve the right to reject any commitment to subscribe for the Notes in whole or in part and to allot to any prospective purchaser less than the full amount of the Notes sought by such purchaser. The Initial Purchasers and certain related entities may acquire for their own account a portion of the Notes.

CERTAIN DEFINITIONS, CONVENTIONS AND CURRENCY PRESENTATION

We have prepared this offering memorandum using a number of conventions, which you should consider when reading the information contained herein. When we use the terms “we,” “us,” “our,” the “Company,” the “Group” and words of similar import, we are referring to Kaisa Group Holdings Ltd. itself, or to Kaisa Group Holdings Ltd. and its consolidated subsidiaries, as the context requires.

Market data, industry forecast and PRC and property industry statistics in this offering memorandum have been obtained from both public and private sources, including market research, publicly available information and industry publications. Although we believe this information to be reliable, it has not been independently verified by us or the Initial Purchasers or their respective directors and advisors, and neither we, the Initial Purchasers nor our or their respective directors and advisors make any representation as to the accuracy or completeness of that information. In addition, third-party information providers may have obtained information from market participants and such information may not have been independently verified. Due to possibly inconsistent collection methods and other problems, such statistics herein may be inaccurate. You should not unduly rely on such market data, industry forecast and PRC and property industry statistics.

In this offering memorandum, all references to “US\$” and “U.S. dollars” are to United States dollars, the official currency of the United States of America (the “United States” or “U.S.”); all references to “HK\$” and “H.K. dollars” are to Hong Kong dollars, the official currency of the Hong Kong Special Administrative Region of the PRC (“Hong Kong” or “HK”); and all references to “RMB” or “Renminbi” are to Renminbi, the official currency of the People’s Republic of China (“China” or the “PRC”).

We record and publish our financial statements in Renminbi. Unless otherwise stated in this offering memorandum, all translations from Renminbi amounts to U.S. dollars were made at the rate of RMB6.9618 to US\$1.00, the noon buying rate in New York City for cable transfers payable in Renminbi as certified for customs purposes by the Federal Reserve Bank of New York on December 31, 2019, and all translations from H.K. dollars into U.S. dollars were made at the rate of HK\$7.7894 to US\$1.00, the noon buying rate in New York City for cable transfers payable in H.K. dollars as certified for customs purposes by the Federal Reserve Bank of New York on December 31, 2019. All such translations in this offering memorandum are provided solely for your convenience and no representation is made that the Renminbi amounts referred to herein have been, could have been or could be converted into U.S. dollars or H.K. dollars, or vice versa, at any particular rate or at all. For further information relating to the exchange rates, see the section entitled “Exchange Rate Information.”

References to “PRC” and “China,” for the statistical purposes of this offering memorandum, except where the context otherwise requires, do not include Hong Kong, Macau Special Administrative Region of the PRC (“Macau”), or Taiwan. “PRC government” or “State” means the central government of the PRC, including all political subdivisions (including provincial, municipal and other regional or local governments) and instrumentalities thereof, or, where the context requires, any of them.

Our financial statements are prepared in accordance with Hong Kong Financial Reporting Standards (the “HKFRS”) which differ in certain respects from generally accepted accounting principles in certain other countries.

Unless the context otherwise requires, references to “2017”, “2018” and “2019” in this offering memorandum are to our financial years ended December 31, 2017, 2018 and 2019, respectively.

FORWARD-LOOKING STATEMENTS

This offering memorandum contains forward-looking statements that are, by their nature, subject to significant risks and uncertainties. These forward-looking statements include statements relating to:

- our business, financing and operating strategies;
- our capital expenditure and property development plans;
- the amount and nature of, and potential for, future development of our business;
- our operations and business prospects;
- various business opportunities that we may pursue;
- the interpretation and implementation of the existing rules and regulations relating to land appreciation tax and its future changes in enactment, interpretation or enforcement;
- the prospective financial information regarding our businesses;
- availability and costs of bank loans and other forms of financing;
- our dividend policy;
- projects under development or held for future development;
- the regulatory environment of our industry in general;
- the performance and future developments of the property market in China or any region in China in which we may engage in property development;
- changes in political, economic, legal and social conditions in China, including the specific policies of the PRC central and local governments affecting the regions where we operate, which affect land supply, availability and cost of financing, pre-sale, pricing and volume of our property development projects;
- significant delay in obtaining the various permits, proper legal titles or approvals for our properties under development or held for future development;
- timely repayments by our purchasers of mortgage loans guaranteed by us;
- changes in competitive conditions and our ability to compete under these conditions;
- the performance of the obligations and undertakings of the third-party contractors under various construction, building, interior decoration, material and equipment supply and installation contracts;

Such statements reflect the current views of our management with respect to future events, operations, results, liquidity and capital resources and are not guarantee of future performance and some of which may not materialize or may change. Although we believe that the expectations reflected in these forward-looking statements are reasonable, we cannot assure you that those expectations will prove to be correct, and you are cautioned not to place undue reliance on such statements. In addition, unanticipated events may adversely affect the actual results we achieve. Important factors that could cause actual results to differ materially from our expectations are disclosed under the section entitled “Risk Factors.” Except as required by law, we undertake no obligation to update or otherwise revise any forward-looking statements contained in this offering memorandum, whether as a result of new information, future events or otherwise after the date of this offering memorandum. All forward-looking statements contained in this offering memorandum are qualified by reference to the cautionary statements set forth in this section.

ENFORCEMENT OF CIVIL LIABILITIES

We are an exempted company incorporated in the Cayman Islands with limited liability, and each Subsidiary Guarantor is also incorporated or may be incorporated, as the case may be, outside the United States, such as in the Cayman Islands, the British Virgin Islands (the “BVI”) and Hong Kong. The Cayman Islands, BVI, Hong Kong and other jurisdictions have different bodies of securities laws from the United States and protections for investors may differ. All of our assets and all of the assets of the Subsidiary Guarantors are located outside the United States. In addition, all of our directors and officers and the Subsidiary Guarantors’ directors and officers are nationals or residents of countries other than the United States (principally of the PRC or Hong Kong), and all or a substantial portion of such persons’ assets are located outside the United States. As a result, it may be difficult for investors to effect service of process within the United States upon us, any of the Subsidiary Guarantors or such directors and officers or to enforce against us or any of the Subsidiary Guarantors or such directors and officers judgments obtained in United States courts, including judgments predicated upon the civil liability provisions of the securities laws of the United States or any state thereof.

We and each of the Subsidiary Guarantors expect to appoint Cogency Global Inc. as our and their respective agent to receive service of process with respect to any action brought against us or any Subsidiary Guarantor in the United States federal courts located in the Borough of Manhattan, the City of New York under the federal securities laws of the United States or of any state of the United States or any action brought against us or any Subsidiary Guarantor in the courts of the State of New York in the Borough of Manhattan, the City of New York under the securities laws of the State of New York.

We have been advised by our BVI legal adviser, Harney Westwood & Riegels LP, that any final and conclusive monetary judgment for a definite sum obtained in the United States courts against us would be treated by the courts of the BVI as a cause of action in itself and could be sued upon as a debt at common law so that no retrial of the issues would be necessary, provided that: (a) the court giving such judgment had jurisdiction in the matter and that we either submitted to such jurisdiction or were resident or carrying on business within such jurisdiction and were duly served with process; (b) the judgment given was not in respect of penalties, taxes, fines or similar fiscal or revenue obligations; (c) the judgment was not procured by fraud; (d) recognition or enforcement of the judgment in the BVI would not be contrary to public policy; and (e) the proceedings pursuant to which judgment was obtained were not contrary to the principles of natural justice.

We have been advised by our Cayman Islands legal adviser, Harney Westwood & Riegels, that any final and conclusive monetary judgment for a definite sum obtained in the United States courts against us would be treated by the courts of the Cayman Islands as a cause of action in itself and sued upon as a debt at common law so that no retrial of the issues would be necessary provided that: (a) the court giving such judgment had jurisdiction in the matter and that we either submitted to such jurisdiction or were resident or had a fixed place of business within such jurisdiction and was duly served with process; (b) the judgment given was not in respect of penalties, taxes, fines or other amounts payable to any government entity; (c) the judgment was not procured by fraud; (d) recognition or enforcement of the judgment in the Cayman Islands would not be contrary to public policy; and (e) the proceedings pursuant to which judgment was obtained were not contrary to natural justice.

We have been advised by Sidley Austin, our Hong Kong legal adviser, that Hong Kong has no arrangement for the reciprocal enforcement of judgments with the United States. However, under Hong Kong common law, a foreign judgment (including one from a court in the United States predicated upon U.S. federal or state securities laws) may be enforced in Hong Kong by bringing an action in a Hong Kong court, and then seeking summary or default judgment on the strength of the foreign judgment, provided that the foreign judgment is for a debt or definite sum of money and is final and conclusive on the merits. In addition, the Hong Kong courts may refuse to recognize or enforce a foreign judgment if such judgment:

- (a) was obtained by fraud;
- (b) was rendered by a foreign court that lacked the appropriate jurisdiction at the time;
- (c) is contrary to public policy or natural justice;
- (d) is for penal damages; or
- (e) is based on foreign penal, revenue or other public law.

We have also been advised by our PRC legal adviser, Commerce & Finance Law Offices, that there is uncertainty as to whether the courts of China would (i) enforce judgments of U.S. courts obtained against us, our directors or officers, any Subsidiary Guarantor or their directors or officers predicated upon the civil liability provisions of the U.S. federal or state securities laws or (ii) entertain original actions brought in China against us, our directors or officers, any Subsidiary Guarantor or their directors or officers predicated upon the U.S. federal or state securities laws.

SUMMARY

This summary does not contain all the information that may be important to you in deciding to invest in the Notes. You should read the entire offering memorandum, including the section entitled “Risk Factors” and our consolidated financial statements and related notes thereto, before making an investment decision.

Overview

We are a leading PRC property developer with a sizable and diversified land bank of approximately 26.8 million sq.m. GFA in 47 cities across six regions. According to China Real Estate Information Corporation and China Real Estate Appraisal Center, we were ranked 27th among Chinese property developers nationwide in terms of attributable contracted sales. We focus on mass market housing demand and are primarily engaged in the development of large-scale residential properties as well as integrated commercial properties.

Headquartered in Shenzhen, the Special Economic Zone adjacent to Hong Kong, we have historically focused our property development in the Pearl River Delta region. Our well-established position in the Pearl River Delta region is supported by our geographically diversified development portfolio, including projects in Shenzhen, Foshan, Guangzhou, Huizhou, Dongguan, Zhongshan, Zhuhai, Yangjiang and Qingyuan. Leveraging our success in the Pearl River Delta region, we have expanded into other areas in China, including Shanghai, Hangzhou, Taizhou, Suzhou, Zhangjiagang, Ningbo, Nanjing, Changzhou, Shaoxing, Jiaxing, Xuzhou, Hefei and Jiangyin in the Yangtze River Delta region, Chengdu, Chongqing, Pengzhou and Nanchong in the Western China region, Changsha, Hengyang, Wuhan, Ezhou, Xiaogan, Xinzheng, Xinxiang, Luoyang and Zhuzhou in the Central China region, and Shenyang, Yingkou, Benxi, Anshan, Liaoyang, Dalian, Dandong, Huludao, Bazhou, Gu’an and Qingdao in the Pan-Bohai Bay Rim.

As of December 31, 2019, we had a total of 176 property development projects, including completed properties, properties under development and properties for future development, in 47 cities in China. As of December 31, 2019, we had completed properties with a total GFA of approximately 27.3 million sq.m., and had a land bank with an estimated total GFA of approximately 26.8 million sq.m., including completed properties held for sale with a total GFA of approximately 2.5 million sq.m., properties under development with an estimated total GFA of approximately 13.9 million sq.m. and properties for future development with an estimated total GFA of approximately 10.4 million sq.m.

We focus primarily on development of the following:

- Residential properties. Our large-scale residential properties are generally located in suburban areas with access to public transport and other urban facilities in selected cities in China. These properties include apartments, serviced apartments and townhouses, often with complementary commercial facilities, restaurants and community facilities. The principal target customers for our residential properties are middle to upper-middle income households. We often develop our residential properties in a number of phases. We believe our multi-phased approach has enabled us to manage our capital resources efficiently and has increased our returns through the higher average selling prices which we expect to achieve at subsequent development phases.
- Commercial properties. Our integrated commercial properties are generally located in central business districts in selected cities in China. Our other commercial projects consist of a mixture of office buildings and retail spaces.

Our revenue was RMB32,779.3 million, RMB38,705.0 million and RMB48,021.7 million (US\$6,897.9 million) in 2017, 2018 and 2019, respectively.

We have historically contracted out construction works of all our development projects to construction contractors, and intend to continue to outsource substantially all of our construction works. We cooperate with Centaline and World Union to jointly promote our developed properties in different regional markets in China. Going forward, we will continue to improve the management of our sales through our dedicated sales team and intend to continue to engage professional property sales agencies to provide marketing and sales services for our properties in China.

We intend to continue to focus on developing residential and commercial properties in the Pearl River Delta region and further diversify geographically through expansion into other promising markets in China. In addition to our focus on residential and commercial development projects, we also aim to increase our investment properties and consequentially our rental income. We intend to retain certain of our commercial properties for long-term investment purposes. In managing our investment property portfolio, we will take into account the estimated long-term growth potential, overall market conditions and our cash flows and financial conditions.

Our Competitive Strengths

We believe we have the following competitive strengths:

- market leadership in the Pearl River Delta region with a national footprint;
- quality land bank at relatively low cost and supplemented by acquisition by redevelopment;
- responsiveness to market trends and prudent financial management; and
- experienced and long-serving senior management team and continuous recruitment of management talent.

Our Business Strategies

We aim to continue to grow as a leading property developer with a national presence in key economic regions in China. We have developed the following business strategies to pursue our growth objectives:

- continue to enhance profit margin from urban redevelopments in Shenzhen and the rest of the Pearl River Delta region and achieve further geographical diversification in China;
- further enhance asset turnover and cost efficiency through standardized product lines and a scalable business model;
- continue to focus on residential mass market and commercial property development while enhancing property diversification and selectively expanding our land bank and diversify our business; and
- further enhance our brand recognition.

Recent Developments

On January 15, 2020, we issued the January 2025 Notes. See “Description of Material Indebtedness and Other Obligations — January 2025 Notes.”

On January 23, 2020, we issued the July 2025 Notes. See “Description of Material Indebtedness and Other Obligations — July 2025 Notes.”

On February 20, 2020, we issued the February 18 2021 Notes. See “Description of Material Indebtedness and Other Obligations — February 18 2021 Notes.”

At the end of December 2019, public health officials from China informed the World Health Organization that an unknown, new virus was causing pneumonia-like illness in the city of Wuhan. They determined that it was a coronavirus named COVID-19, and that it was rapidly spreading through and outside of Wuhan. On March 11, 2020, World Health Organization declared COVID-19 outbreak a pandemic. As of the date of this offering memorandum, more than 80,000 cases had been confirmed in China and more than six million cases have been confirmed worldwide. Several cities in China had imposed travel restrictions in an effort to curb the spread of the highly infectious COVID-19. The COVID-19 outbreak poses potential risks to our business operation and financial condition. Since April 2020, China and some other countries gradually lifted stay-at-home orders and began to resume work and school at varying levels and scopes. Given the uncertainties as to the development of the outbreak at the moment, it is difficult to predict how long these conditions will persist and to what extent to which we may be affected. See “Risk Factors — Risks Relating to the Business — The national and regional economies in China and our prospects may be adversely affected by natural disasters, acts of God, and occurrence of epidemics.”

After the pledge of the Collateral by the Company and the Subsidiary Guarantor Pledgors as described below under the caption “Security to be Granted,” subject to the limitations described in “Risk Factors — Risks Relating to the Subsidiary Guarantees, the JV Subsidiary Guarantees and the Collateral,” the Notes will be secured by a pledge of the Collateral as described below under the caption “Security to be Granted” and will:

- be entitled to a lien on the Collateral (subject to any Permitted Liens and the Intercreditor Agreement); and

- rank effectively senior in right of payment to unsecured obligations of the Company with respect to the value of the Collateral pledged by the Company securing the Notes (subject to any priority rights of such unsecured obligations pursuant to applicable law).

Subsidiary Guarantees and JV
Subsidiary Guarantees.

Each of the Subsidiary Guarantors and JV Subsidiary Guarantors will jointly and severally guarantee the due and punctual payment of the principal of, premium, if any, and interest on, and all other amounts payable under, the Notes provided that any JV Subsidiary Guarantees will be limited to the JV Entitlement Amount. The initial Subsidiary Guarantors will be Chang Ye Investment Company Limited (昌業投資有限公司), Da Hua Investment Company Limited (大華投資有限公司), Dong Chang Investment Company Limited (東昌投資有限公司), Dong Sheng Investment Company Limited (東升投資有限公司), Guang Feng Investment Company Limited (廣豐投資有限公司), Heng Chang Investment Company Limited (恒昌投資有限公司), Jie Feng Investment Company Limited (捷豐投資有限公司), Jin Chang Investment Company Limited (進昌投資有限公司), Rong Hui Investment Company Limited (榮輝投資有限公司), Rui Jing Investment Company Limited (瑞景投資有限公司), Tai He Xiang Investment Company Limited (泰和祥投資有限公司), Zheng Zhong Tian Investment Company Limited (正中天投資有限公司), Tai He Sheng Investment Company Limited (泰和盛投資有限公司), Tai An Da Investment Company Limited (泰安達投資有限公司), Tai Chang Jian Investment Company Limited (泰昌建投資有限公司), Tai Chong Fa Investment Company Limited (泰昌發投資有限公司), Tai Chong Li Investment Company Limited (泰昌利投資有限公司), Bakai Investments Limited (八凱投資有限公司), Yifa Trading Limited (益發貿易有限公司), Advance Guard Investments Limited (先驅投資有限公司), Central Broad Limited (中博有限公司), Guo Cheng Investments Limited (國承投資有限公司), Ri Xiang Investments Limited (日翔投資有限公司), Yin Jia Investments Limited (銀佳投資有限公司), Jet Smart Global Development Limited (捷利環球發展有限公司), Apex Walk Limited (巖行有限公司), Vast Wave Limited (廣濤有限公司), Fulbright Financial Group (Enterprise) Limited (富昌金融集團(企業)有限公司), Fulbright Financial Group (Development) Limited (富昌金融集團(發展)有限公司), Kaisa Investment Consulting Limited, Goldenform Company Limited, Hong Kong Jililong Industry Co., Limited, Kaisa Holdings Limited, Leisure Land Hotel Management (China) Limited, Regal Silver Manufacturing Limited, Success Take International Limited, Woodland Height Holdings Limited, Yi Qing Investment Company Limited, Yong Rui Xiang Investment Company Limited, Kaisa Investment (China) Limited, Wan Rui Fa Investment Company Limited, Wan Rui Chang Investment Company Limited,

Wan Tai Chang Investment Company Limited, Wan Jin Chang Investment Company Limited, Multi-Shiner Limited, Hong Kong Kaisa Industry Co., Limited, Bakai Investments (Hong Kong) Limited, Topway Asia Group Limited, Kaisa Financial Group (China) Company Limited, Hong Kong Kaisa Trading Limited, Hong Kong Wanyuchang Trading Limited, Hong Kong Zhaoruijing Trading Limited, Guo Cheng (Hong Kong) Investment Limited, Ri Xiang (Hong Kong) Investment Limited, Yin Jia (Hong Kong) Investment Limited, Rich Tech Hong Kong Investment Limited, Apex Walk (Hong Kong) Limited, Vast Wave (Hong Kong) Limited and Fulbright Financial Group (Hong Kong) Limited. Other than the initial Subsidiary Guarantors, none of the Company's other Restricted Subsidiaries organized outside of the PRC (the "Other Non-Guarantor Subsidiaries") and the Restricted Subsidiaries organized under the laws of the PRC (the "PRC Non-Guarantor Subsidiaries," and together with the Other Non-Guarantor Subsidiaries, the "Existing Non-Guarantor Subsidiaries") will be a Subsidiary Guarantor on the Original Issue Date. The initial Subsidiary Guarantors do not have significant operations or assets.

None of the existing or future Restricted Subsidiaries organized under the laws of the PRC or Exempted Subsidiaries will provide a Subsidiary Guarantee or JV Subsidiary Guarantee at any time in the future.

Each future Subsidiary of the Company (other than Subsidiaries organized under the laws of the PRC and Exempted Subsidiaries) will provide a guarantee of the Notes as soon as practicable after such Subsidiary becomes a Restricted Subsidiary or ceases to be an Exempted Subsidiary. Notwithstanding the foregoing sentence, the Company may elect to have any future Restricted Subsidiary (and its Restricted Subsidiaries) organized outside the PRC not provide a Subsidiary Guarantee or a JV Subsidiary Guarantee at the time such entity becomes a Restricted Subsidiary or ceases to be an Exempted Subsidiary so long as such Restricted Subsidiary does not guarantee any other Indebtedness of the Company or any other Restricted Subsidiary; *provided* that, after giving effect to the Consolidated Assets of such Restricted Subsidiary, the Consolidated Assets of all Restricted Subsidiaries organized outside the PRC (other than Exempted Subsidiaries) that are not Subsidiary Guarantors or JV Subsidiary Guarantors do not account for more than 20% of Total Assets.

A Subsidiary Guarantee may be released or replaced in certain circumstances. See “Description of the Notes — The Subsidiary Guarantees and the JV Subsidiary Guarantees — Release of the Subsidiary Guarantees and JV Subsidiary Guarantees.” In the case of a Subsidiary Guarantor with respect to which the Company or any of its Restricted Subsidiaries is proposing to sell, whether through the sale of existing shares or the issuance of new shares, no less than 20% of the Capital Stock of such Subsidiary Guarantor, the Company may (i) release the Subsidiary Guarantees provided by such Subsidiary Guarantor and each of its Restricted Subsidiaries organized outside the PRC, (ii) discharge the pledge of the Capital Stock granted by such Subsidiary Guarantor, and (iii) discharge the pledge of Capital Stock made by the Company or any Subsidiary Guarantor over the shares it owns in such Subsidiary Guarantor, *provided* that after the release of such Subsidiary Guarantees, the Consolidated Assets of all Restricted Subsidiaries organized outside the PRC (other than Exempted Subsidiaries) that are not Subsidiary Guarantors or JV Subsidiary Guarantors (including the Subsidiary Guarantors whose Subsidiary Guarantees were released) do not account for more than 20% of Total Assets.

Ranking of Subsidiary

Guarantees

The Subsidiary Guarantee of each Subsidiary Guarantor is:

- a general obligation of such Subsidiary Guarantor;
- is effectively subordinated to secured obligations of such Subsidiary Guarantor, to the extent of the value of the assets serving as security therefor;
- is senior in right of payment to all future obligations of such Subsidiary Guarantor expressly subordinated in right of payment to such Subsidiary Guarantee;
- ranks at least *pari passu* with all unsecured, unsubordinated Indebtedness of such Subsidiary Guarantor (subject to any priority rights of such unsubordinated Indebtedness pursuant to applicable law); and
- effectively subordinated to all existing and future obligations of the Non-Guarantor Subsidiaries.

After the pledge of the Collateral by the Company and the Subsidiary Guarantor Pledgors as described below under the caption “Security to be Granted,” subject to the limitations described in “Risk Factors — Risks Relating to the Subsidiary Guarantees and the Collateral,” the Subsidiary Guarantee of each Subsidiary Guarantor Pledgor will be secured by a pledge of the Collateral as described below under the caption “Security to be Granted” and will:

- be entitled to a lien on the Collateral pledged by such Subsidiary Guarantor Pledgor (subject to any Permitted Liens and the Intercreditor Agreement); and

- rank effectively senior in right of payment to unsecured obligations of such Subsidiary Guarantor Pledgor with respect to the value of the Collateral pledged by such Subsidiary Guarantor Pledgor securing such Subsidiary Guarantee (subject to any priority rights of such unsecured obligations pursuant to applicable law).

Ranking of JV Subsidiary

Guarantees

If any is provided, the JV Subsidiary Guarantee of each JV Subsidiary Guarantor:

- will be a general obligation of such JV Subsidiary Guarantor;
- will be enforceable only up to the JV Entitlement Amount;
- will be effectively subordinated to secured obligations of such JV Subsidiary Guarantor, to the extent of the value of the assets serving as security therefor;
- subject to the limitation to the JV Entitlement Amount, will be senior in right of payment to all future obligations of such JV Subsidiary Guarantor expressly subordinated in right of payment to such JV Subsidiary Guarantee;
- subject to the limitation to the JV Entitlement Amount, will rank at least *pari passu* with all other unsecured, unsubordinated Indebtedness of such JV Subsidiary Guarantor (subject to any priority rights of such unsubordinated Indebtedness pursuant to applicable law); and
- effectively subordinated to all existing and future obligations of the Non-Guarantor Subsidiaries.

The JV Subsidiary Guarantees of each JV Subsidiary Guarantor will not be secured.

Security to be Granted

The Company has agreed for the benefit of the holders of the Notes, to pledge, and cause each initial Subsidiary Guarantor Pledgor to pledge, the Capital Stock of the initial Subsidiary Guarantors (the "Collateral") owned by it (subject to Permitted Liens and the Intercreditor Agreement) in order to secure the obligations of the Company under the Notes and the Indentures and of each such initial Subsidiary Guarantor Pledgor under its Subsidiary Guarantee.

	<p>None of the Capital Stock of the Non-Guarantor Subsidiaries will be pledged on the Original Issue Date or at any time in the future (unless they cease to be Non-Guarantor Subsidiaries). In addition, none of the Capital Stock of any future Restricted Subsidiary that may be organized under the laws of the PRC will be pledged at any time in the future. If any JV Subsidiary Guarantor is established, the Capital Stock of such JV Subsidiary Guarantor owned by the Company or any Subsidiary Guarantor will be pledged to secure the obligations of the Company under the Notes and the Indentures, and of such Subsidiary Guarantor under its Subsidiary Guarantee, as the case may be, in the manner described above. However, none of the JV Subsidiary Guarantors will provide a Security Document pledging the Capital Stock of its direct or indirect Restricted Subsidiaries as security in favor of the Common Security Trustee for the benefit of the Trustee and the Holders.</p>
Intercreditor Agreement	<p>The Company, the Subsidiary Guarantor Pledgors, Citicorp International Limited as Common Security Trustee, and other secured parties thereto, respectively, entered into an amended and restated intercreditor agreement dated July 21, 2016 (as so amended and supplemented from time to time, the “Intercreditor Agreement”), to which the Trustee will accede on the Original Issue Date. The Intercreditor Agreement provides that the security interests in the Collateral with respect to the Notes will be shared on a <i>pari passu</i> basis among (i) the trustee for the benefit of the holders of each series of Existing Notes, (ii) the Trustee for the benefit of the holders of each series of the Notes and (iii) any other creditors with respect to future Permitted Pari Passu Secured Indebtedness.</p>
Use of Proceeds	<p>The Company intends to use the net proceeds of the offering of the Notes for refinancing its existing indebtedness and general corporate purposes.</p>
Optional Redemption	<p>At any time prior to June 9, 2021, the Company may at its option redeem the Notes, in whole but not in part, at a redemption price equal to 100% of the principal amount of the Notes, plus the Applicable Premium as of, and accrued and unpaid interest, if any, to the redemption date. In addition, at any time prior to June 9, 2021, the Company may redeem up to 35% of the aggregate principal amount of the Notes with the Net Cash Proceeds of one or more sales of Common Stock of the Company in an Equity Offering at a redemption price of 107.875% of the principal amount of the Notes, plus accrued and unpaid interest, if any, to the redemption date.</p>
Repurchase of Notes Upon a Change of Control Triggering Event	<p>Not later than 30 days following a Change of Control Triggering Event, the Company will make an offer to purchase all outstanding Notes at a purchase price equal to 101% of the principal amount thereof plus accrued and unpaid interest, if any, to the date of repurchase.</p>

Additional Amounts	<p>All payments on the Notes or under the Subsidiary Guarantees or the JV Subsidiary Guarantees will be made without withholding or deduction for, or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature imposed or levied by or within any jurisdiction in which the Company, a successor of the Company or an applicable Subsidiary Guarantor or JV Subsidiary Guarantor is organized or resident for tax purposes or any jurisdiction from or through which payment is made (or any political subdivision or taxing authority thereof or therein), unless such withholding or deduction is required by law or by regulation or governmental policy having the force of law. Subject to certain exceptions and as more fully described herein, in the event that any such withholding or deduction is so required, the Company, a successor of the Company or the applicable Subsidiary Guarantor or JV Subsidiary Guarantor, as the case may be, will pay such Additional Amounts as will result in receipt of such amounts as would have been received by the holder of each Note had no such withholding or deduction been required. See “Description of the Notes — Additional Amounts.”</p>
Redemption for Taxation Reasons	<p>Subject to certain exceptions and as more fully described herein, the Company may redeem the Notes, in whole but not in part, at a redemption price equal to 100% of the principal amount thereof, together with accrued and unpaid interest, if any, to the date of redemption, if the Company, a Surviving Person, a Subsidiary Guarantor or a JV Subsidiary Guarantor would be obligated to pay certain Additional Amounts as a result of certain changes in specified tax laws or other circumstances. See “Description of the Notes — Redemption for Tax Reasons.”</p>
Covenants	<p>The Notes, the Indenture and the Subsidiary Guarantees will limit the Company’s ability and the ability of its Restricted Subsidiaries to, among other things:</p> <ul style="list-style-type: none"> • incur additional Indebtedness and issue preferred stock; • make investments or other Restricted Payments; • guarantee Indebtedness; • enter into certain transactions with affiliates; • create Liens; • enter into Sale and Leaseback Transactions; • sell assets; • enter into agreements that restrict the Company’s Restricted Subsidiaries’ ability to pay dividends; • issue and sell Capital Stock of Restricted Subsidiaries; • effect a consolidation or merger; and • engage in different business activities. <p>All of these limitations are subject to a number of important qualifications and exceptions. See “Description of the Notes — Certain Covenants.”</p>

Transfer Restrictions	The Notes, the Subsidiary Guarantees and the JV Subsidiary Guarantees (if any) will not be registered under the Securities Act or under any state securities laws of the United States. See “Transfer Restrictions.”	
Form, Denomination and Registration	The Notes will be issued only in fully registered form, without coupons, in denominations of US\$200,000 and integral multiples of US\$1,000 in excess thereof and will be initially represented by one or more global notes deposited with a common depository and registered in the name of the common depository or its nominee for the accounts of Euroclear or Clearstream.	
Book-Entry	The Notes will be issued in book-entry form through the facilities of Euroclear or Clearstream for the accounts of its participants. For a description of certain factors relating to clearance and settlement, see “Description of the Notes — Book-Entry; Delivery and Form”.	
Delivery of the Notes	The Company expects to make delivery of the Notes, against payment in same-day funds on or about June 10, 2020, which is expected to be the fifth business day following the date of this offering memorandum. See “Plan of Distribution.”

Summary Consolidated Financial and Other Data

The following table presents our summary financial and other data. The summary consolidated statement of profit or loss and other comprehensive income data for 2017, 2018 and 2019 and the summary consolidated statement of financial position data as of December 31, 2017, 2018 and 2019 set forth below (except for EBITDA data) have been derived from our consolidated financial statements as of and for the year ended December 31, 2018 and 2019 as audited by Grant Thornton Hong Kong Limited, Certified Public Accountants, and are included elsewhere in this offering memorandum. Our financial results for any past period are not, and should not be taken as, an indication of our performance, financial position or results of operations in future periods. Our financial statements have been prepared and presented in accordance with HKFRS, which differ in certain respects from generally accepted accounting principles in other jurisdictions. The summary financial data below should be read in conjunction with the section entitled “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and our consolidated financial statements and the notes to those statements included elsewhere in this offering memorandum.

EBITDA is not a standard measure under HKFRS. EBITDA is a widely used financial indicator of a company’s ability to service and incur debt. EBITDA should not be considered in isolation or construed as an alternative to cash flows, net income or any other measure of financial performance or as an indicator of our operating performance, liquidity, profitability or cash flows generated by operating, investing or financing activities. In evaluating EBITDA, we believe that investors should consider, among other things, the components of EBITDA such as sales and operating expenses and the amount by which EBITDA exceeds capital expenditures and other charges. We have included EBITDA because we believe it is a useful supplement to cash flow data as a measure of our performance and our ability to generate cash flow from operations to cover debt service and taxes. EBITDA presented herein may not be comparable to similarly titled measures presented by other companies. Investors should not compare our EBITDA to EBITDA presented by other companies because not all companies use the same definition. See the section entitled “Management’s Discussion and Analysis of Financial Condition and Results of Operations — Non-GAAP Financial Measures” for a reconciliation of our profit or loss for the year under HKFRS to our definition of EBITDA. Investors should also note that EBITDA as presented herein is calculated differently from Consolidated EBITDA as defined and used in the Indenture governing the Notes, in particular, EBITDA as presented herein does not exclude EBITDA of our Unrestricted Subsidiaries or EBITDA of our PRC subsidiaries, which cannot freely distribute dividends. Interest expense excludes amounts capitalized. See the sections entitled “Description of the Notes — Definitions” for a description of the manner in which Consolidated EBITDA is defined for purposes of the Indentures governing the Notes.*
- (2) *EBITDA margin is calculated by dividing EBITDA by revenue.*

RISK FACTORS

You should carefully consider the risks and uncertainties described below and other information contained in this offering memorandum before making an investment decision. The risks and uncertainties described below may not be the only ones that we face. Additional risks and uncertainties that we are not aware of or that we currently believe are immaterial may also adversely affect our business, financial condition or results of operations. If any of the possible events described below occur, our business, financial condition or results of operations could be materially and adversely affected. In such case, we may not be able to satisfy our obligations under the Notes, and you could lose all or part of your investment.

Risks Relating to the Business

We are heavily dependent on the performance of the PRC real estate market, particularly in the Pearl River Delta region

Our business and prospects depend on the performance of the real estate market in China and, in particular, in the Pearl River Delta region. Any real estate market downturn in China generally or, in particular, in the Pearl River Delta region and other cities and regions where we operate, could adversely affect our business, results of operations and financial condition. As of December 31, 2019, the total GFA of our land bank was 26.8 million sq.m., 13.6 million sq.m. were located in the Pearl River Delta region, 3.4 million sq.m. were located in the Western China region, 3.6 million sq.m. were located in the Central China region, 2.2 million sq.m. were located in the Yangtze River Delta region, 3.9 million sq.m. were located in the Pan-Bohai Bay Rim, and 0.1 million sq.m. were located in Hainan. We also intend to enter into other regions and cities in China. We cannot assure you that the demand for new properties in the Pearl River Delta region and other regions and cities in China where we operate or intend to expand will continue to grow or that prices will not deteriorate. In addition, fluctuations of supply and demand in the real estate market in China are caused by economic, social, political, regulatory and other factors that are outside of our control and we cannot assure you that there will not be over-supply of properties or an economic downturn in the property sector in the Pearl River Delta region and other cities and regions of China where we operate or intend to expand. Any such over-supply or economic downturn may result in a slow down in property sales or downward pressure on property prices regionally or nationwide. Any adverse development in the real estate market in the Pearl River Delta region or other regions and cities in China where we operate or may operate in the future could have a material and adverse effect on our business, results of operations and financial condition.

Our business is subject to extensive governmental regulation and, in particular, we are susceptible to policy changes in the PRC property sector

Our business is subject to extensive governmental regulation and the macroeconomic control measures implemented by the PRC government from time to time. As with other PRC property developers, we must comply with various requirements mandated by the PRC laws and regulations, including the policies and procedures established by local authorities designated to implement such laws and regulations. In particular, the PRC government exerts considerable direct and indirect influence on the development of the PRC property sector by imposing industry policies and other economic measures, such as control over the supply of land for property development, control of foreign exchange, property financing, taxation and foreign investment. Through these policies and measures, the PRC government may restrict or reduce land available for property development, raise benchmark interest rates of commercial banks, place additional limitations on the ability of commercial banks to make loans to property developers and property purchasers, impose additional taxes and levies on property sales and restrict foreign investment in the PRC property sector. In recent years, the PRC Government has introduced a series of regulations and policies designed to generally control the growth of the property market, including, among others:

- strictly enforcing the idle land related laws and regulations;
- restricting the grant or extension of revolving credit facilities to property developers that hold a large amount of idle land and vacant commodity properties;
- prohibiting commercial banks from lending funds to real estate developers with an internal capital ratio of less than a certain prescribed percentage; and
- restricting PRC commercial banks from granting loans to property developers for the purpose of paying land grant premiums.

In particular, the PRC Government also introduced the following policies, among others, to specifically control the growth of the residential property market:

- limiting the maximum amount of monthly mortgage and the maximum amount of total monthly debt service payments of an individual borrower;
- imposing a business tax levy on the sales proceeds for second-hand transfers subject to the length of holding period and type of properties;
- increasing the minimum amount of down payment of the purchase price of the residential property of a family;
- tightening the availability of individual housing loans in the property market to individuals and their family members with more than one residential property;
- imposing a 20.0% individual income tax on the gain from the sale of second-hand properties; and
- limiting the availability of individual housing provident fund loans for the purchase of second (or more) residential properties by employees and their family members.

The PRC government has also in recent years announced a series of other measures designed to stabilize the growth of the PRC economy and to stabilize the growth of specific sectors, including the property market, to a more sustainable level. In particular, since the second half of 2016, the local governments in certain cities including without limitation Shenzhen, Guangzhou, Foshan, Dongguan, Huizhou, Zhuhai, Chengdu, Qingdao, Changsha, Wuhan, Changzhou, Shanghai, Suzhou, Hangzhou and Nanjing, where we have property projects, have issued new property market control policies, including restoring or strengthening the restriction on purchases of residential properties and tightening credit policy. From time to time, local governments may adopt more stringent policies to regulate the property market. For instance, Shanghai has recently launched a new campaign to clamp down on so-called commercial-title apartments by which the approval of all new commercial-title apartment projects is to be suspended, while the construction and sale of commercial and office projects will be strictly regulated. Property developers will be required to rectify any unsanctioned modifications to their original designs before the release of the commercial and office projects. We cannot assure you that our projects in Shanghai will not be affected by such new policy. Other political, economic and social factors may also lead to further adjustments and changes of such policies. In August 2018, the Urban Planning, Land & Resources Commission of Shenzhen Municipality issued a circular which required that since July 31, 2018, commercial apartments shall be only for rent and cannot be sold and change of usage is prohibited, subject to limited exceptions. We cannot assure you that the PRC government, local governments or other regulatory bodies will not impose restrictions or adopt additional and more stringent industry policies, regulations and measures in the future, nor can we assure you when or whether the existing policies will be eased or reversed. Moreover, the geographical concentration of our property development projects in Pearl River Delta Region makes us vulnerable to regional policy changes. If we fail to adapt our operations to new policies, regulations and measures that may come into effect from time to time with respect to the property industry, or such policy changes disrupt our business, reduce our sales or average selling prices, or cause us to incur additional costs, our business prospects, results of operations and financial condition may be materially and adversely affected. For more information on the governmental regulation, policies and measures, see “Regulations.”

See “— Risks Relating to the Real Estate Industry in China — The PRC government may adopt further measures to slow down growth in the property sector” for more risks and uncertainties relating to the extensive PRC regulations.

The national and regional economies in China and our prospects may be adversely affected by natural disasters, acts of God, and occurrence of epidemics

Our business is subject to general economic and social conditions in China. Natural disasters, epidemics and other acts of God which are beyond our control may adversely affect the economy, infrastructure and livelihood of the people in China. Some regions in China, including the cities where we operate, are under the threat of flood, earthquake, sandstorm, snowstorm, fire, drought, or epidemics such as the Severe Acute Respiratory Syndrome, or SARS, the H5N1 avian flu, the human swine flu, also known as Influenza A (H1N1), or, most recently, the novel coronavirus named COVID-19 by the World Health Organization.

As of the date of this offering memorandum, more than 80,000 cases have been confirmed in China and more than six million cases have been confirmed worldwide. Several cities in China where we have significant land bank and operations had imposed travel restrictions in an effort to curb the spread of the highly infectious COVID-19. As a result, sales offices and construction of our development projects were temporarily shut down. Moreover, supply of our raw materials and productivity of our employees were adversely affected. The suspension of construction and sales activities of our projects may in turn result in substantial increase in our development costs, late delivery of properties and/or otherwise adversely affect our profitability and cash flows. For the four months ended April 30, 2020, our total contracted sales and average selling price decreased significantly as compared with corresponding period in 2019. Further, our customers may face financial difficulties, which may in turn result in a reduction in demand for our properties. Customers who have previously entered into contracts to purchase properties may also default on their purchase contracts if the economic situation further deteriorates as a result of the epidemic. In addition, the COVID-19 outbreak poses risks to the wellbeing of our employees and the safety of our workplace, which may materially and adversely affect our business operation. Given the high uncertainties associated with the COVID-19 epidemic at the moment, it is difficult to predict how long these conditions will last and the extent to which we may be affected. Should the disruption to our operations continue, it may materially and adversely affect our results of operations and financial condition and may also cause reputation damage. Moreover, global capital markets have experienced and may continue to experience negative investor sentiment, significant volatility and liquidity disruptions. This may adversely affect our ability to access capital markets for funding, which may in turn have a negative effect on our liquidity. The outbreak of COVID-19 epidemic also caused the delay in resumption of local business in the PRC after the Chinese New Year holiday. In addition, as the outbreak extended, several countries have introduced new restrictions on travel, including restrictions on travel to and from China. The COVID-19 epidemic has created and may further create negative economic impact globally. It increased volatility in the PRC and global market and may continue to cause increasing concerns over the prospects of the PRC residential property market, which may materially and adversely affect the demand for properties and property prices in China. Since April 2020, China and some other countries gradually lifted stay-at-home orders and began to resume work and school at varying levels and scopes. However, given the uncertainties as to the development of the outbreak at the moment, it is difficult to predict how long these conditions will persist and to what extent to which we may be affected. We cannot assure you that our business, financial condition and results of operations will not be materially and adversely affected.

Past occurrences of epidemics, depending on their scale, have caused different degrees of damage to the national and local economies in China. Another public health crisis in China triggered by a recurrence of SARS or an outbreak of any other epidemics, including, for example, the ongoing COVID-19, especially in the cities where we have operations, may result in material disruptions to our property development and sales and the operation of commercial properties. In addition, the outbreak of communicable diseases, such as the COVID-19 outbreak on a global scale may affect investment sentiment and result in sporadic volatility in global capital markets or adversely affect China and other economies. Such outbreak has resulted in restrictions on travel and public transportation and prolonged closures of workplaces, which may have a material adverse effect on the global economy. Any material change in the financial markets, the PRC economy or regional economies as a result of these events or developments may materially and adversely affect our business, financial condition and results of operations.

We may not always be able to obtain land reserves at a commercially acceptable cost, or at all, that are suitable for development

We derive our revenue principally from the sale of properties that we have developed. Therefore, we must maintain or increase our land reserves in strategic locations at an appropriate pace in order to ensure sustainable business growth. Our ability to identify and acquire suitable development sites is subject to a number of factors, some of which are beyond our control.

The supply of substantially all of the land in China is controlled by the PRC government. The land supply policies adopted by the PRC government directly impact our ability to acquire land use rights for development and our costs of such acquisitions. In recent years, the PRC central and local governments have implemented various measures to regulate the means by which property developers may obtain land. The PRC government also controls land supply through zoning, land usage regulations and other means. All these measures further intensify the competition for land in China among property developers. The implementation of these regulations may increase land transfer prices and require property developers to maintain a higher level of working capital. See

“Regulations — Land for Property Development” for information on the regulatory procedures and restrictions relating to land acquisition in PRC.

In addition, we cannot assure you that the parcels of land we have acquired to date will appreciate in value, or that we will continue to be able to acquire land of sufficient size and with an appropriate scope of usage in desirable locations at a commercially acceptable cost, or at all. If we fail to acquire sufficient land reserves in a timely manner and on acceptable terms, or at all, our business, results of operations, financial condition and prospects may be materially and adversely affected.

We may not always be able to obtain land use rights certificates with respect to certain parcels of land in connection with which we have entered into various contractual arrangements

We may not always be able to obtain land use rights certificates with respect to certain parcels of land. We have entered into various land grant contracts with the PRC government. As of December 31, 2019, the deposits paid in respect of the abovementioned parcels of land totalled approximately RMB19,891.4 million (US\$2,857.2 million). We have not obtained the land use rights certificates with respect to these parcels of land. We cannot assure you that the relevant PRC government authorities will grant us the appropriate land use rights or issue the relevant land use rights certificates in respect of these parcels of land or in respect of other land we may contract to acquire in the future, in a timely manner, or at all. Nor can we assure you that our contractual arrangements will eventually result in our acquisition of any land use rights. As these contractual arrangements are subject to various government approvals that involve relatively complex procedures, it is not uncommon to take years to complete the acquisition of the underlying land, if at all. If we fail to obtain, or experience material delay in obtaining, the land use rights certificates with respect to any parcels of land we have contracted or may contract to acquire in the future, in a timely manner, or at all, our business, results of operations and financial condition may be materially and adversely affected. Furthermore, as of December 31, 2019, our total contracted commitment for property development expenditures was approximately RMB34,429.9 million (US\$4,945.5 million). We cannot assure you that the transactions as contemplated in the relevant agreement can be completed, any refund of our prepayments will be provided in a timely manner or at all. In addition, we have not yet obtained land use rights certificates or property ownership certificates for certain of our properties mainly for water-way transportation business and we also lease certain land and buildings mainly for football training purposes from third parties who have not provided the relevant land use rights or property ownership certificates. There can be no assurance that the use of such properties will not be challenged as a result of the properties' title defects. If we fail to complete the acquisition of the underlying land and obtain land use rights certificates, to obtain refunds or our use of properties are challenged, our financial condition, cash flow and results of operations and business may be materially and adversely affected.

Our acquisition of companies holding land use rights may be unsuccessful and our acquisition agreements may not provide us with sufficient protection against potential liability

We intend to continue to acquire the controlling equity interests in companies holding land use rights as a means of expanding our business and land bank. However, we may face strong competition during the acquisition process and we may not be successful in selecting or valuing target companies or their land appropriately. As a result, we may be unable to complete such acquisitions at reasonable cost, or at all. In addition, we may have to allocate additional capital and human resources to integrate the acquired business into our operations. We also cannot assure you that the integration of any acquired company will be successfully completed within a reasonable period of time, or at all, or that it will generate the economic benefit that we expected.

We experienced net cash outflows from operating activities in the past and maintain a significant amount of indebtedness, which may materially and adversely affect our liquidity and our ability to service our indebtedness

We had net cash outflows from operating activities of RMB3,431.2 million and RMB2,063.5 million (US\$296.4 million) in 2017 and 2019, respectively. We maintain a significant amount of indebtedness to finance our operations. As of December 31, 2017, 2018 and 2019, our total borrowings were RMB111,173.2 million, RMB108,766.0 million and RMB117,195.6 million (US\$16,834.1 million), respectively. Our gearing ratio (total borrowings less cash and bank balances, bank deposits and restricted cash divided by total equity) was approximately 300.0%, 236.2% and 144.0%, respectively, as of December 31, 2017, 2018 and 2019. Of our total outstanding borrowings of RMB117,195.6 million (US\$16,834.1 million) as of December 31, 2019, RMB31,892.0 million (US\$4,581.0 million) was repayable within 12 months and RMB85,303.6 million (US\$12,253.1 million) was repayable in more than one year. Furthermore, our leverage, measured by net debt to adjusted inventory, may remain high.

Our cash flow and results of operations of our operating subsidiaries will affect our liquidity and our ability to service our indebtedness. Furthermore, our high debt leverage could limit our ability to satisfy our obligations under the Existing Notes, the Notes and other debts. We cannot assure you that we will not experience negative operating cash flow in the future, or will be able to continue to generate and maintain sufficient cash flow to service our indebtedness. If we are unable to make scheduled payments in connection with our debts and other fixed payment obligations as they become due, we may need to refinance such obligations, obtain additional financing or default on our obligations. Furthermore, the Existing Notes, the Notes and some of our bank loans contain cross default provisions under which default in one of them could trigger a default on other Existing Notes, Notes or bank loans as well. We cannot assure you that our refinancing efforts would be successful or timely or that we could secure additional financing on acceptable terms, or at all. If we fail to maintain sufficient cash flow to service our indebtedness or our refinancing efforts are unsuccessful, our liquidity, business, and financial condition will be materially and adversely affected.

In addition to borrowings, we rely on proceeds from the pre-sale of residential properties as a major source of funding for our property development activities. If our pre-sales are limited or reduced for any reason, including policy or regulatory changes, a reduction in demand for or in the prices of our properties, or an increase in the time required to complete sales, we could experience cash flow shortfalls and difficulties in funding our property development activities and servicing our indebtedness. For example, during the period from December 2014 to July 2016, Shenzhen Urban Planning and Land and Resources Commission blocked a number of our property projects from processing and filing sale and purchase agreements. See “— Our business is subject to extensive governmental regulation and, in particular, we are susceptible to policy changes in the PRC property sector.” The blockages disrupted our cash flows and resulted in our failure to pay the interests under our various debts at the time. Standard & Poor’s Ratings Services and Moody’s Investors Service downgraded and subsequently withdrew our credit ratings after our cash flows were disrupted by the blockages. See “— We may not have adequate financing to fund our land acquisitions and property projects” for details. In addition, in connection with the blockages, some of our onshore creditors filed applications with PRC courts for preservation of our assets. We started our Debt Restructuring in light of the liquidity situation caused by the blockages. The Debt Restructuring was effected on July 21, 2016. See “Description of Material Indebtedness and Other Obligations — Debt Restructuring”. Although the blockages have been removed and the preservation of our assets in connection with the blockages has been lifted as of the date of this offering memorandum, we cannot assure you that we will not experience similar incidents in the future. In addition, if our onshore creditors choose to enforce share pledges in connection with our onshore borrowings, we may lose control or ownership of our PRC subsidiaries.

We may not have adequate financing to fund our land acquisitions and property projects

Property development is capital intensive. We finance our property projects primarily through a combination of internal funds, construction loans, proceeds from pre-sales, capital markets activities and other methods of financing. As of December 31, 2019, our total borrowings amounted to RMB117,195.6 million (US\$16,834.1 million). Our ability to procure adequate and suitable financing for acquisitions of land and/or companies holding land use rights for property developments depends on a number of factors some of which are beyond our control, including general economic conditions, our financial strength and performance, credit availability from financial institutions, cost of borrowing and monetary policies in China.

Various PRC regulations restrict our ability to raise capital through external financing and other methods, including without limitation, the following:

- We cannot pre-sell uncompleted units in a project prior to achieving certain development milestones;
- PRC banks are prohibited from extending loans to real estate companies for the purposes of funding the purchase of land use rights;
- We cannot borrow from a PRC bank for a particular project unless we obtain the land use rights certificate, construction land planning permit, construction works planning permit and construction works commencement permit for that project;
- PRC banks are restricted from granting loans for the development of luxury residential properties;
- Property developers are strictly prohibited from using the proceeds from a loan obtained from a local bank to fund property developments outside the region where that bank is located;

- PRC banks are prohibited from accepting properties that have been vacant for more than three years as collateral for loans;
- restricting the granting or extension of revolving credit facilities to property developers that hold a large amount of idle land and vacant commodity properties; and
- restricting the granting or extension of revolving credit facilities to property developers that have a history of being included in land-related abuses, including misconduct related to changing the use of land, postponing construction or completion of projects or hoarding property.

In November 2009, the PRC government raised the minimum down payment to 50% of the total land premium and required the land premium to be fully paid within one year after the signing of a land contract, subject to limited exceptions. In March 2010, the PRC government further tightened this requirement by setting a minimum price for land transfers of at least 70% of the benchmark price for land in the surrounding locality and requiring a bidding deposit of at least 20% of the applicable minimum land transfer price. Additionally, a land grant contract must be entered into within 10 working days of closing and the 50% down payment (taking into account any deposits previously paid) paid within one month of signing the land grant contract, with the balance to be paid in full within one year of the contract date in accordance with provisions of such contract, subject to limited exceptions. In April 2017, the PRC government required that the examination system of land acquisition capital should be adopted by local authorities to ensure that property developers are acquiring land with internal funds.

These government actions and policy initiatives limit our ability to use bank loans to finance our acquisitions and property development projects. The PRC government, moreover, could introduce other initiatives which may further limit our access to capital, and consequently limit our ability to obtain bank loans, the net proceeds from this offering or other forms of financing. On June 27, 2018, NDRC emphasized in a post on its website that the proceeds from bond offerings offshore by PRC property enterprises shall be mainly used for repayments of the debts due and shall be restricted from being used for investments in property projects within or outside China or working capital. On July 12, 2019, NDRC published a Notice on Requirements for Foreign Debt Registration Application by Real Estate Enterprises (《關於對房地產企業發行外債申請備案登記有關要求的通知》) on its website which imposes more restrictions on the use of proceeds of foreign debts incurred by real estate developers. According to the notice, the use of proceeds of foreign debt incurred by a real estate developer is limited to refinancing its medium to long term offshore debts which will become due within one year, and the real estate developer is required to specify in the documents for application of foreign debt registration with NDRC the details of such medium to long term offshore debts to be refinanced, such as amount, maturity date and whether such medium to long term offshore debts were registered with NDRC. The real estate developer is also required to submit a commitment letter to NDRC regarding the authenticity of its foreign debt issuance. Failure to comply with these restrictions, the real estate developer may be blacklisted and prevented from obtaining foreign debt registrations in the future. If we fail to secure adequate financing or renew our existing credit facilities prior to their expiration, or if the PRC government adopts further restrictive credit policies in the future, our business, results of operations and financial condition may be materially and adversely affected.

In addition, our ability to obtain adequate financing may be affected by our lack of credit ratings from internationally recognized rating agencies. In January 2015, Standard & Poor's Ratings Services lowered its corporate rating on us to SD from BB- with a negative outlook, and Moody's Investors Service lowered its corporate credit rating on us to Ca from B3 with a negative outlook. In March 2015, Standard & Poor's Ratings Services further downgraded its corporate rating on us to D from SD. In June 2015, Standard & Poor's Ratings Services discontinued its corporate rating on us and Moody's Investors Service withdrew its corporate rating in August 2015. Without credit ratings from internationally recognized rating agencies, we may not be able to obtain adequate financings at commercially acceptable costs, or at all.

Our LAT provisions and prepayments may not be sufficient to meet our LAT obligations

In accordance with the provisions of the Provisional Regulations of the People's Republic of China on Land Appreciation Tax ("LAT") (《中華人民共和國土地增值稅暫行條例》) and the related implementation rules, all entities and individuals that receive income from the sale or transfer of land use rights, buildings and ancillary facilities are subject to LAT at progressive rates ranging from 30% to 60% of the appreciated value of such properties. There is an exemption for the sale of ordinary residential properties if the appreciated value does not exceed 20% of the total

deductible expense items allowed under the relevant LAT regulations. This exemption is not available for sales of luxury residential properties, villas and commercial properties. It is not clear whether the residential portion of our mixed residential and commercial developments will be eligible for the exemption available to ordinary residential properties. The State Administration of (“SAT”) Taxation clarified LAT settlement to some extent in its Notice on the Administration of the Settlement of Land Appreciation Tax of Property Development Enterprises (《關於房地產開發企業土地增值稅清算管理有關問題的通知》) effective February 1, 2007. The Notice clarifies that provincial and local tax bureaus may formulate their own implementing rules and determine how LAT will be settled in their jurisdictions. On May 19, 2010, the SAT issued the Circular on Issues Concerning Settlement of Land Appreciation Tax (《關於土地增值稅清算有關問題的通知》) to clarify and strengthen the settlement of LAT. Furthermore, on May 25, 2010, the SAT issued the Notice on Strengthening the Collection of Land Appreciation Tax (《關於加強土地增值稅徵管工作的通知》), which requires that the minimum LAT prepayment rate shall be 2% for provinces in the eastern region, 1.5% for provinces in the central and northeastern regions, and 1% for provinces in the western region.

We have been prepaying LAT in respect of our pre-sale proceeds since a prepayment obligation was imposed in 2004. In addition, we also make provision for the estimated amount of LAT that may be payable in respect of our other sales. We made LAT provisions of RMB1,611.4 million, RMB2,505.5 million and RMB2,559.9 million (US\$367.7 million) for the years ended December 31, 2017, 2018 and 2019, respectively. LAT provisions are recorded as a part of “income taxes payable” on our consolidated statement of financial position. We cannot assure you that the relevant tax authorities will agree with our calculation of LAT liabilities nor can we assure you that the LAT provisions will be sufficient to cover our LAT obligations in respect of our past LAT liabilities. If the relevant tax authorities determine that our LAT liabilities exceed our LAT prepayments and provisions, and seek to collect that excess amount, our cash flow, results of operations and financial condition may be materially and adversely affected. See “Management’s Discussion and Analysis of Financial Condition and Results of Operations — Key Factors Affecting our Results of Operations — LAT.”

The transition from business tax to value-added tax may adversely affect our business, results of operations and financial condition

The PRC Government has been progressively implementing the pilot reform for the transition from business tax to value-added tax in certain regions and industries from 2012. Pursuant to the Notice on the Full Implementation of Pilot Program for Transition from Business Tax to Value-Added Tax (《關於全面推開營業稅改徵增值稅試點的通知》) and the Implementing Measures for the Pilot Program for Transition from Business Tax to Value-added Tax (《營業稅改徵增值稅試點實施辦法》) issued by the Ministry of Finance (“MOF”) and SAT on March 23, 2016. On May 1, 2016, the “transitioning from business tax to value-added tax” scheme became effective.

Changes in the scope of taxation affect, to a certain extent, our tax burden. We have only recently become subject to the value-added tax regime. We expect the scheme will not materially affect our net profit or cash flow but may negatively affect our revenue and costs. At the same time, we are required to re-formulate our business and financial management procedures and adjust our accounting and audit treatment as well as tax system in order to comply with such scheme. The scheme also imposes stricter requirements on contractors and suppliers. In addition, the PRC Government may further supplement and amend relevant policies and rules, and different interpretations may be applied in implementing these policies and rules. As a result, uncertainties remain as to the tax treatment of our income and expenses under the new value-added tax regime. As of the date of this offering memorandum, we have been conducting ongoing assessment on the impact on our tax burden and profitability caused by the transition from business tax to value-added tax. We cannot assure you that the transition from business tax to value-added tax will not have an adverse impact on our business, results of operations and financial condition.

We may be adversely affected by fluctuations in the global economy and financial markets

Our business is sensitive to national and local economic conditions in the markets where we operate or may operate in the future, including GDP growth, inflation, interest rates, availability of and access to capital markets, consumer spending rates, and the effects of governmental initiatives to manage economic conditions. Such economic conditions are closely related to global economic conditions and any disadvantageous changes in global economy could adversely affect China’s economic conditions and in turn our business.

The global economic slowdown and turmoil in the global financial markets that started in the second half of 2008 have had a negative impact on the world economy. In 2010, a financial crisis emerged in Europe, triggered by high budget deficits and rising direct and contingent sovereign debt in Greece, Ireland, Italy, Portugal and Spain, which created concerns about the ability of these European nations to continue to service their sovereign debt obligations. On August 6, 2011, Standard and Poor's Ratings Services ("S&P") downgraded the rating for long-term United States debt to "AA+" from "AAA" for the first time in 70 years. The downgrade of United States debt by S&P, coupled with the economic turmoil in Europe and other parts of the world could lead to another global economic downturn and financial market crisis. In addition, in the United Kingdom, a remain-or-leave referendum on its membership within the European Union was held in June 2016, the result of which favored the exit of the United Kingdom from the European Union ("Brexit"). On January 31, 2020, the United Kingdom officially exited the European Union following a UK-EU Withdrawal Agreement signed in October 2019. The United Kingdom and the European Union will have a transition period until December 31, 2020 to negotiate, among others, trade agreements in details. Given the lack of precedent and uncertainty of the negotiation, the effect of Brexit remains uncertain, and Brexit has and may continue to create negative economic impact and increase volatility in the global market.

Any global economic slowdown and financial market turmoil may have adversely affect, and may continue adversely affecting, homeowners and potential property purchasers, which may lead to a decline in the general demand for our products and erosion of their sale prices. China's economic growth may slow due to weakened exports as a result of tariffs and trade tensions caused by the U.S.-China trade war. In 2018 and 2019, the U.S. government, under the administration of President Donald J. Trump, imposed several rounds of tariffs on cumulatively US\$550 billion worth of Chinese products. In retaliation, the Chinese government responded with tariffs on cumulatively US\$185 billion worth of U.S. products. In addition, in 2019, the U.S. government restricted certain Chinese technology firms from exporting certain sensitive U.S. goods. The Chinese government lodged a complaint in the World Trade Organization against the U.S. over the import tariffs in the same year. The trade war created substantial uncertainties and volatilities to global markets. On January 15, 2020, the U.S. and Chinese governments signed the U.S.-China Economic and Trade Agreement (the "Phase I Agreement"). Under the Phase I Agreement, the U.S. agreed to cancel a portion of tariffs imposed on Chinese products, China promised additional purchases of U.S. goods and services, and both parties expressed a commitment to further improving various trade issues. Despite this reprieve, however, it remains to be seen whether the Phase I Agreement will be abided by both governments and successfully reduce trade tensions. If either government violates the Phase I Agreement, it is likely that enforcement actions will be taken and trade tensions will escalate. Furthermore, additional concessions are needed to reach a comprehensive resolution of the trade war. The roadmap to the comprehensive resolution remains unclear, and the lasting impact the trade war may have on China's economy and the PRC real estate industry remains uncertain. In addition, any further tightening of liquidity in the global financial markets may negatively affect our liquidity. Therefore, if the global economic slowdown or the financial markets crisis continue, our business, financial condition and results of operations may be negatively affected.

We may be adversely affected by the performance of third-party contractors

We engage third-party contractors to provide various services, including design, pile setting, foundation digging, construction, equipment installation, interior decoration, electromechanical engineering, pipeline engineering and elevator installation. Our principal independent third-party contractors carry out property construction and subcontract various works to independent third-party subcontractors. We endeavor to employ construction contractors with good reputations, strong track records, and adequate financial resources. We also adopt and follow our own quality control procedures and routinely monitor works performed by third-party contractors. However, we cannot assure you that any third-party contractor will provide services that satisfy our required standard of quality. If the performance of any third-party contractor is not satisfactory, we may need to replace that contractor or take other remedial actions, which could increase the cost and lengthen the time required to complete the work and the whole project. In addition, we are expanding our business into other regional markets in China, and there may be a shortage of contractors that meet our quality requirements in such markets. Moreover, contractors may undertake projects for other developers, engage in risky or unsound practices or encounter financial or other difficulties, which may affect their ability to complete their work for us on time or within budget. Any of the above factors could have a material and adverse effect on our reputation, business, results of operations and financial condition.

We may not be able to effectively manage our expansion and growth

We have historically focused on developing properties in the Pearl River Delta region. We have expanded into other regions and plan to further explore other promising markets in China. Our expansion is based on our forward-looking assessment of market prospects. We cannot assure you that our assessments will turn out to be accurate. In addition, to succeed with our business expansion, we will need to recruit and train new managers and other employees and build our operations and reputation in our target regional markets within a relatively short period of time. We have limited knowledge of the conditions of these local property markets and little or no experience in property development in these regions. As we enter into new markets, we may not have the same level of familiarity with contractors, business practices and customs and customer tastes, behavior and preferences as compared to the cities where we are an established property developer. In addition, when we enter into new geographical areas, we may face intense competition from developers with an established presence and market share in those areas. Therefore, we cannot assure you that we can execute successfully our contemplated expansion plan or that we will succeed in effectively integrating our expanded operations, or that our expanded operations will generate adequate returns on our investments or positive operating cash flows. Furthermore, our business expansion may place a substantial strain on our managerial and financial resources and any failure in effectively managing our expanded operations may materially and adversely affect our business, results of operations, financial condition and prospects.

We may not be able to effectively diversify our business

We have been seeking to diversify our business. We currently operate four hotels in Shenzhen, two hotels in Huizhou, one in Liaoyang and one hotel in Suizhong, and intend to launch a few new hotels under our own brands “Kare (可域酒店)” and “Orientino Hotels (鉞域酒店)” in the near future. We also engage in cinema, department store and cultural center operations. In November 2016, we acquired 21.7% equity interest in Kaisa Health Group Holdings Limited (formerly known as Mega Medical Technology Limited), a Hong Kong Stock Exchange listed company engaging in supply of dental equipment and consumables, and became its largest shareholder. In 2017, we further increased our equity interest in Kaisa Health Group Holdings Limited to 41.24% through its rights issue. In July 2017, we acquired 17.7% equity interest in Nam Tai Property Inc., company principally engaged in real estate development and management in Shenzhen and listed on the NYSE under the symbol NTP to explore market opportunity in high-tech industry property.

In September 2017, we acquired 21.25% equity interest in Guangdong Mingjia Lianhe Mobile Technology Co. Ltd., a company principally engaged in internet marketing and listed on the Shenzhen Stock Exchange under the stock code 300242) to leverage Mingjia Lianhe’s mobile internet marketing as an entrance to facilitate our Group’s integration of various resources, and upgrade our existing businesses to give full play to their potential.

In November 2017, we acquired 18.57% of equity interest in Zhenxing Biopharmaceutical & Chemical Co., Ltd., a company principally engaged in production and sales of blood products and listed on the Shenzhen Stock Exchange under the stock code 403. The acquisition will serve us with opportunity for entering the biopharmaceuticals sector.

See “Business — Our Business Strategies.” We cannot assure you that we will be able to leverage our past experience in the property development industry in expanding into these industries. We may be exposed to considerable reputational and financial risks if these operations are mismanaged or do not meet the expectations of our customers. If we fail in our efforts to diversify our business, there may have a material adverse effect on our reputation generally, and our business, results of operations, financial condition and prospects may be materially and adversely affected.

The fair value of our investment properties is likely to fluctuate from time to time and may decrease significantly in the future, which may materially and adversely impact our profitability

We are required to reassess the fair value of our investment properties as of the end of each reporting date. In accordance with HKFRS, gains or losses (as applicable) arising from changes in the fair value of our investment properties should be recognised in profit or loss in the period in which they arise. Our investment properties were revalued by an independent property valuer as of December 31, 2017, 2018 and 2019, respectively. In making the judgement, consideration is given to assumptions that are mainly based on market conditions existing at the reporting date. We recognize and measure our investment properties on our consolidated statement of financial

position at fair value with changes in fair value being recognized in our consolidated profit or loss. For the years ended December 31, 2017, 2018 and 2019, the fair value gains on our investment properties were RMB2,088.8 million, RMB212.4 million and RMB178.4 million (US\$25.6 million), respectively.

Fair value gains or losses do not, however, change our cash position as long as the relevant investment properties are held by us, and accordingly do not increase our liquidity in spite of the increased profit represented by any fair value gains. The amount of revaluation adjustments has been, and will continue to be, subject to market fluctuations. Macroeconomic factors, including economic growth rate, interest rate, inflation rate, urbanization rate and disposable income level, in addition to any government regulations, can substantially affect the fair value of our investment properties and affect the supply and demand in the PRC property market. All these factors are beyond our control and we cannot assure you that changes in market conditions will continue to create fair value gains on our investment properties at the historical levels, or at all, or that the fair value of our investment properties will not decrease in the future. If the fair value of our investment properties declines, our profitability would be materially and adversely affected.

We guarantee mortgage loans of our customers and may be liable to the mortgagee banks if our customers default on their mortgage payments

We generally pre-sell properties before construction is completed. The purchasers of our properties may need mortgage loans to purchase our properties, and we typically arrange for various banks to provide these mortgage loans. In accordance with market practice, the mortgagee banks require us to guarantee our customers' mortgage loans. Typically, our guarantee obligations for such customers' mortgage loans are released upon the earlier of (i) the satisfaction of the mortgage loan by the purchaser of the property; and (ii) the issuance of the property ownership certificate for the mortgaged property and the completion of the registration of the mortgage. It generally takes six months to one year after we deliver possession of the relevant property to the purchaser for our guarantee to be released. In line with industry practice, we rely on the credit analysis performed by the mortgagee banks in respect of individual customers and we do not conduct any independent credit checks on them.

As of December 31, 2017, 2018 and 2019, our outstanding financial guarantees for the mortgage loans of our customers amounted to RMB30,094.9 million and RMB30,587.4 million and RMB32,816.5 million (US\$4,713.8 million), respectively. If a purchaser defaults under the mortgage loan and the mortgagee bank calls on our relevant guarantee after it deals with the relevant property through a default auction, we are required to repay the outstanding amount owed by the purchaser to the mortgagee bank under the mortgage loan. In 2017, 2018 and 2019, we did not experience any instances where we had to honor our guarantee obligations as a result of a failure by our customers to repay their mortgage loans. If we are required to honor our guarantees, our results of operations and financial position may be materially and adversely affected.

We may suffer certain losses not covered by insurance

We do not carry comprehensive insurance against all potential losses or damages with respect to our properties before their delivery to customers nor do we maintain insurance coverage against liability from tortious acts, property damage or personal injury relating to the construction and maintenance of our properties. Although we expect our third-party construction companies to maintain appropriate insurance coverage, we cannot assure you that their insurance would cover or be sufficient to satisfy all claims, or that we would not be sued or held liable for damages notwithstanding their insurance coverage. Moreover, there are certain losses for which insurance is not available on commercially practicable terms in China, such as losses suffered due to earthquake, typhoon, flooding, war and civil disorder. If we suffer from any losses, damages or liabilities in the course of our business, we may not have sufficient financial resources to cover such losses, damages or liabilities or to satisfy our related obligations. Any payment we make to cover any losses, damages or liabilities may have a material and adverse effect on our business, results of operations and financial condition.

We may not be able to complete our projects according to schedule or on budget

A property development project requires substantial capital expenditures prior to and during the construction period, and it may take over a year before a development generates positive cash flow through pre-sales or sales. The progress of, and costs for, a development project can be adversely affected by many factors, including, without limitation:

- changes in market conditions, an economic downturn or a decline in consumer confidence;
- delays in obtaining necessary licenses, permits or approvals from government agencies or authorities;
- relocation of existing residents and demolition of existing structures;

- increases in the market prices of raw materials if we cannot pass on the increased costs to customers;
- shortages of materials, equipment, contractors and skilled labor;
- latent soil or subsurface conditions and latent environmental damage requiring remediation;
- unforeseen engineering, design, environmental or geographic problems;
- labor disputes;
- construction accidents;
- natural disasters;
- adverse weather conditions;
- changes in government practices and policies, including reclamation of land for public works or facilities; and
- other unforeseen problems or circumstances.

Our property projects are at risk from earthquakes, floods and other natural disasters in the regions where we operate. Damage to any of our properties or impact on the markets, whether by natural disasters or otherwise, may either delay or preclude our ability to develop and sell our properties or adversely affect our budget for the projects. See “— We may be adversely affected by fluctuations in the global economy and financial markets” and “— The national and regional economies in China and our business may be adversely affected by natural disasters or other catastrophic events.” In 2017, 2018 and 2019, we experienced delays in completion or delivery of our certain projects. We may experience additional or significant delays in completion or delivery of our projects in the future and we may be subject to liability for any such delays. Construction delays or failure to complete construction of a project according to its planned specifications, schedule or budget may materially and adversely affect our reputation, business, results of operations and financial condition.

We have in the past had significant lapses in our internal controls. If we fail to implement and maintain an effective system of internal controls, we may be unable to accurately or timely report our results of operations or prevent fraud, which may adversely affect our business and results of operations

As stated in the Company’s announcement on the Hong Kong Stock Exchange (“HKEx”) dated July 15, 2016, our former auditor, PricewaterhouseCoopers (“PwC”), who tendered its resignation as the auditor of the Company with effect on June 24, 2016, communicated in February 2015 to our Board of Directors certain issues (“Significant Reporting Matters”) identified during the course of its audit of our 2014 consolidated financial statements and recommended our Board of Directors to form an independent investigation on such issues. The Significant Reporting Matters identified by PwC included: (a) identification of certain newly uncovered agreements and the authenticity of the Company’s accounting records, (b) identification of unexplained cash payments and receipts, (c) re-purchases, sales, cancellation of sales, and purchases of properties under development, completed properties held for sale in bulk and proposed development project with alleged third parties, (d) disposal of subsidiaries located in Dongguan and Huizhou to alleged third parties, (e) re-designation of advance proceeds received to other payables and (f) the blockage of certain property projects. Further details are set out in the Company’s announcement on the HKEx dated July 15, 2016. To address the Significant Reporting Matters, an independent committee was subsequently established by our independent non-executive directors for the purpose of reviewing our financial statements.

FTI Accounting and Advisory Services Ltd (“FTI”) was then engaged to conduct a forensic examination of our financial information. In October 2016, FTI issued its findings in a report and the Company disclosed the key findings and the key limitations on the work performed by FTI in its announcement on the HKEx dated December 19, 2016. According to the findings of the FTI’s investigation, (1) certain former employees of the Company (the “Former Employees”) attempted to obscure the existence of certain borrowing agreements (the “Uncovered Borrowings”) through an elaborate scheme which involved (i) the creation of fictitious agreements and documents; (ii) substantial improper and unauthorized payments; (iii) the use of fund remittance agents to disguise the true purpose of the improper and unauthorized payments; (iv) incorrect accounting treatment of the payments and the outstanding liability in the Company’s accounting records and (v) collusion between multiple parties, including the Former Employees, suppliers, fund remittance agents and certain other third parties; (2) certain payment transactions, which have been approved by a number of the Former Employees, were found to have no clear business purpose and certain receipt transactions by the Company were either not properly authorized or had no identifiable business

purpose, and (3) the Company acquired the equity interests in 19 project companies during the financial year of 2014, while none of these transactions was properly authorized and approved. FTI was unable to find any payments (or other types of consideration) made by the Company for the acquisition of any of these 19 project companies. FTI also identified the creation of certain fictitious agreements, which facilitated the re-designation of certain accounting entries of advance proceeds received to other payables, as opposed to debt. FTI did not identify any evidence of fraud that was involved in the blockage of property projects.

In its report, FTI highlighted that its findings were subject to key limitations, including: (1) PwC refused to meet with FTI to assist with its understanding of the Significant Reporting Matters; (2) a significant number of senior management and employees of the Company whom FTI considered to be integral to obtain a full understanding of the Significant Reporting Matters had resigned since the identification of the Significant Reporting Matters and were not available to assist with the investigation; (3) some of the documents and/or electronic records that FTI requested were no longer retained, or cannot be located or they may have been inadvertently lost or misplaced; (4) many of the third party entities which were the subject of FTI's enquiries have either been dissolved since the end of 2014, and/or they were offshore entities registered in the British Virgin Islands, whose exact ownership records are not publicly available, and, furthermore, these third parties engaged financial intermediaries or agent to transact with the Company on their behalf which obfuscated FTI's analysis of the transaction chronology and funds flows; (5) the interviewees that FTI interviewed generally had either limited or no knowledge of the relevant transactions or they were reluctant to divulge any information to substantiate their statements owing to confidentiality reasons; and (6) a large number of transactions were not supported by sufficient documentary evidence and transaction descriptions in the Company's general accounting ledgers were incomplete, inaccurate or inadequate. As a result of the limitations on the work performed by FTI, there can be no assurance that FTI's investigations uncovered all of the wrongdoings or irregularities, or that the steps we took to address the Significant Reporting Matters would have addressed other matters that could have been uncovered if such limitations did not exist, all of which could have a material and adverse effect on the Company's business, results of operations and financial condition.

Taking into account the findings of FTI's investigation, we have made prior year adjustments when we prepared our consolidated financial statements for the year ended December 31, 2014, including recording a loss of RMB482,736,000 in the Company's consolidated profit or loss for the year ended December 31, 2014. Grant Thornton Hong Kong Limited, our auditor for the financial year ended December 31, 2014, did not express an opinion on whether the consolidated financial statements for the year ended December 31, 2014 gave a true and fair view of our loss and cash flows for the year ended December 31, 2014. Grant Thornton Hong Kong Limited gave a true and fair view of the state of the affairs of the Company and the Group as at December 31, 2014 with regard to the Company's and the Group's statements of financial position in accordance with HKFRSs.

Subsequent to the FTI's investigation, GT Advisory was engaged by the Company to conduct a review of our internal controls. GT Advisory identified the following major areas of enhancements, including (1) internal audit function not being independent, (2) the whistle-blowing mechanism lacking independence and having inadequate follow-up procedures, (3) inadequate document retention procedures, (4) Company chops being applied to fictitious or unauthorized contracts, (5) certain accounting entries being made in the absence of sufficient and appropriate supporting documents, (6) certain on-line bank payments being made in the absence of sufficient and appropriate supporting documents, (7) inadequate borrowing procedure controls and lack of segregation between financing function and fund transfer function, (8) lack of guidelines governing fund remittance agents, (9) lack of clear guidelines governing transactions with significant monetary amounts or transactions not in the normal course of business, (10) inadequate functions in the office automation system in preventing errors or fraud and (11) decision making power was concentrated in the chairman of the board. We have enhanced our internal control procedures accordingly. See "Business — Internal Control" for details of enhancements we have made to our internal controls. We have also announced in detail the actions taken by us to enhance our internal controls in our announcement on the HKEx dated March 26, 2017.

There is no assurance that securities class actions or other lawsuits in relation to such Significant Reporting Matters or other accounting irregularities could be filed against the Company, its directors or its officers. Any such investigations or lawsuits may adversely affect the Company's business financial condition, results of operations and cash flows or materially harm the Company's business and reputation. Also, although we had implemented various measures to enhance our internal controls, such measures may not fully address these deficiencies in our internal control, and ineffective internal controls would significantly hinder our ability to prevent fraud. We cannot assure you that we will not experience similar incidents in the future, and any similar incidents in the future could result in inaccuracies in our financial statements, which could

also impair our ability to comply with applicable financial reporting requirements and related regulatory filings on a timely basis. As a result, our business, financial condition, results of operations and prospects, as well as the trading price of our securities, may be materially and adversely affected.

We have faced negative publicity in the past and may face negative publicity in future that could lead to material adverse impacts on our business, reputation and financial conditions.

From time to time, we may face negative publicity relating to our business, financial performance, financial reporting or operations or our directors and officers. For example, certain of our directors and officers were reported in news articles in the past to have connections with PRC officials, who were investigated and found to have committed misconduct. Even when such publicity is speculative and without merit, we may be required to defend ourselves against such allegations and publicity through public announcements or legal and administrative proceedings as appropriate. However, we cannot assure you that such actions would be effective to protect our reputation, that such proceedings would result in a ruling or decision to our favor, or that the negative publicity effect would be eliminated or reduced upon a positive ruling. Such publicity could also have a range of materially adverse effects on our business and our reputation, including but not limited to our relationship with government regulators, our ability to sell our properties, our ability to raise necessary funding and ultimately our financial performance, as well as more broadly distracting our management from day-to-day operation of our business. Any such effect could adversely affect the market for our securities, including the Notes. Even if negative publicity is without merit, such publicity or resulting effects on our reputation or business could lead one or more investors to file securities class action or other lawsuits against us, or draw regulatory action, which could further harm our reputation and business. We cannot assure you that we will be able to reverse negative publicity or obtain the dismissal of any such legal actions, even if they are without merit. We will also incur costs, and it may take a long period of time, to manage such negative publicity and defend and resolve any such legal actions, and we may incur related indemnity obligations. We may need to pay damages or settle any such legal actions with a substantial amount of cash or other penalty or sanction affecting our business. The foregoing effects and financial costs could have a material adverse impact on our business, our reputation, our results of operation and cash flow.

Our profitability and results of operations are affected by changes in interest rates and fluctuations in foreign exchange rates

We rely on and expect to continue to rely on bank and third-party loans to finance our project developments. Changes in interest rates have affected and will continue to affect our finance costs and, ultimately, our results of operations. As our bank loans are principally denominated in Renminbi, the interest rates on our loans are primarily affected by the benchmark interest rates set by the People's Bank of China ("PBOC"), which have fluctuated significantly in recent years. The PBOC benchmark one-year lending rates in the PRC as of December 31, 2017, 2018 and 2019 were 4.35%. Any further increase in such benchmark lending rates will increase the interest costs for our property developments.

A substantial portion of the interest expense has been capitalized as properties under development, which will then be recognized in the consolidated profit or loss as cost of sales upon the sale of properties. Capitalized interest represented 16.0%, 13.0% and 14.1% of our cost of sales in 2017, 2018 and 2019, respectively. As a result, such capitalized interest expense may adversely affect our gross profit margin upon the sales of properties in future.

In addition, increases in interest rates may affect our customers' ability to secure mortgages on acceptable terms, which in turn may affect their ability to purchase our properties.

A substantial portion of our liabilities, including our outstanding indebtedness and the interest paid thereon is denominated in U.S. dollars, while substantially all our revenues are generated by our PRC operating subsidiaries and are denominated in our functional currency, Renminbi. Because the functional currency of the Company and most of its subsidiaries is the Renminbi, the balance and certain amounts due to third parties denominated in a foreign currency such as U.S. dollars are subject to translation at each reporting date, which could materially affect our business, financial condition and results of operations. The translation of monetary liabilities denominated in foreign currencies (such as the Company's outstanding U.S. dollar indebtedness, including the Notes) are presented in its financial statements, including its profit or loss within net finance costs, such that an increase in the value of the Renminbi against the U.S. dollar would reduce U.S. dollar finance costs, while a decrease in the value of the Renminbi against the U.S. dollar would increase U.S. dollar finance costs. As such, fluctuations in the exchange rate between the Renminbi and U.S. dollars may cause us to incur foreign exchange losses and affect our

financial results. Movements in Renminbi exchange rates are affected by, among other things, changes in political and economic conditions and China's foreign exchange regime and policy. Since July 2005, the Renminbi has not been pegged to the U.S. dollar. In August 2015, the Renminbi experienced a substantial devaluation as a result of adjustments made by the People's Bank of China to the reference Renminbi to U.S. dollar exchange rate. The Renminbi appreciated significantly against the U.S. dollar in 2017, which resulted in the Company experiencing net exchange gains for the year ended December 31, 2017. In 2018, the Renminbi has depreciated significantly against the U.S. dollar. Because of our substantial indebtedness denominated in U.S. dollar, any significant fluctuation in the value of the Renminbi may have a material adverse effect on our business condition and results of operations.

We may have to compensate our customers if we fail to meet all requirements for the delivery of completed properties and the issuance of property ownership certificates

According to the relevant PRC law, property developers must meet various requirements as stated below within 90 days after the delivery of property or such other time period that may be provided in the relevant sales and purchase agreement to assist a purchaser in obtaining the individual property ownership certificate. We generally elect to specify the deadline to apply for an individual property ownership certificate in the sales and purchase agreement to allow sufficient time for the application and approval process. Within eight months of the date of the completion certificate for a development, we must apply for a general property ownership certificate for the entire development. This involves, among other things, the submission of a number of documents, including land use rights documents, planning approvals and construction permits. Following the effective date of a sales and purchase agreement for one or more units in a development, we then assist the purchaser to apply for an individual property ownership certificate for each unit. This involves submission of other documents, including the sales and purchase agreement, identification documentation for the purchaser, evidence of payment of deed tax and a copy of the general property ownership certificate issued to us. Delay by a purchaser in providing the documents relating to the purchaser, or delay by the various administrative authorities in reviewing the relevant application document, as well as other factors beyond our control, may affect timely delivery of the relevant individual property ownership certificate. Under current PRC laws and regulations and under our sales and purchase agreements, we are required to compensate our customers for delays in delivery caused by us of individual property ownership certificates. During the three years ended December 31, 2019, we did not incur any expense as compensation for delays in delivery of individual property ownership certificates. However, we cannot assure you that delays in delivery caused by us of the required property ownership certificates will not occur. Significant delays with respect to one or more of our developments may materially and adversely affect our reputation, business, results of operations and financial condition.

The PRC government may impose fines on us or take back our land if we fail to develop a property according to the terms of the land grant contract

Under PRC laws and regulations, if we fail to develop a property according to the terms of the land grant contract, including those relating to the payment of land premium, demolition and resettlement costs and other fees, the specified use of the land and the time for commencement and completion of the development, the PRC government may issue a warning, impose a penalty, and/or take back our land. Under current PRC laws and regulations, if we fail to pay any outstanding land grant premium on time, we may be subject to a late payment penalty of 0.1% of the outstanding balance for every day of delay in payment. In addition, the PRC government may impose an idle land fee equal to 20% of the land premium or allocation fees if (i) we do not commence construction for more than one year after the date specified in the relevant land grant contract, or (ii) total constructed GFA is less than one-third of the total proposed GFA for the development or the capital invested in the development is less than one-fourth of the total investment approved for the development, and the development is suspended for more than one year without governmental approval. Furthermore, the PRC government has the authority to take back the land without compensation to us, if we do not commence construction for more than two years after the date specified in the land grant contract.

In 2016, ten parcels of land for two of our property projects in Shenzhen were deemed as idle land by local land authorities, for which we have paid the required idle land fees and entered into contracts with local land authorities to extend the respective construction commencement date as stipulated in the relevant land grant contracts. In 2017, we received notices from a local government which imposed penalties on us of a total amount of RMB13.7 million in respect of our two pieces of idle land, and as of the date of this offering memorandum, we have fully paid such penalties. Furthermore, if we fail to complete the construction of our property projects within the time period as stipulated in the land grant contracts, the land authorities may require us to pay

liquidated damages or even take back the land without compensation. For example, for one of our projects in Shenzhen, the local land authority has required us to pay the liquidated damages of RMB16 million due to having not completed the construction of the project within the time period as stipulated in the land grant contracts. We also have not completed development of certain other projects within the time period stipulated in the relevant land grant contracts, for which we have not yet been required to pay any liquidated damages or imposed on other penalties, but we cannot assure you that the government will not impose any penalty on us in the future. None of our land has been taken back by the government as a result of being idle as of the date of this offering memorandum. Furthermore, we have not commenced development of certain other projects within the time period stipulated in the relevant land grant contracts or required by relevant PRC laws, for which we have not received any idle land notice or been required to pay liquidated damages or other penalties.

We cannot assure you that there will be no significant delays in the commencement of construction or the development of our properties in the future, or that our developments will not be subject to idle land penalties or liquidated damages, or be taken back by the government as a result of such delays. The imposition of substantial idle land penalties or liquidated damages, could have a material and adverse affect on our business, results of operations and financial condition. If any of our land is taken back by the government, we would not only lose the opportunity to develop the property, but we would also lose our prior investments in the development, including land premiums paid and costs incurred in connection with such land.

We may be required to relocate existing residents and pay demolition and resettlement costs associated with our future property developments and such costs may increase

We may be required to undertake and pay for demolition of existing buildings and resettlement of existing residents with respect to some of our property developments in accordance with the relevant PRC laws and regulations. We have also entered into certain contractual arrangements involving demolition and resettlement works. In particular, we have entered into certain contractual arrangements relating to redevelopment and primary land development with a view to facilitating potential acquisitions of land use rights or enhancing our future expansion into the relevant markets. See the section entitled “Business — Description of our Property Development Projects — Contractual Arrangements.” In 2017, 2018 and 2019, our demolition and resettlement costs were approximately RMB960.7 million, RMB1,952.6 million and RMB1,329.9 million (US\$191.0 million), respectively. The compensation we pay for resettlement is calculated in accordance with certain formulas published by the relevant local authorities. These formulas take into account the location, GFA and the type of building to be demolished, local income levels and many other factors. There can be no assurance that local authorities will not change or adjust their formulas without prior notice. Existing owners or residents may disagree with the compensation arrangements or refuse to relocate. The administrative process to settle the amount of compensation, together with any appeals, or a refusal to relocate may significantly delay the timetable for the affected development. Although we take into consideration the difficulties in resettlement compensation negotiations before we enter into such contractual arrangements, the protracted resettlement process may cause delays in the redevelopment projects, and adversely affect our plans to obtain the relevant land use rights or enter into the new markets. Furthermore, resettlement negotiations with villagers, zoning approvals from local governments and other non-commercial factors could result in much longer development cycle which could adversely affect our cash flow. In addition, there is no assurance that we will be able to reach agreements for compensation and resettlement for such redevelopment projects on terms satisfactory to us or at all. Moreover, we may be involved in disputes with other property developers over the land development rights of the redevelopment projects. As a result, we cannot assure you that we will be able to recoup our upfront investments in such redevelopment projects. An unfavorable final judgment, determination or settlement regarding the land development right or the amount of compensation payable by us may increase the cost of the development and materially and adversely affect our cash flow, business, results of operations and financial condition.

A deterioration in our brand image could adversely affect our business

We rely to a significant extent on our brand name and brand image, “Kaisa” (“佳兆業”). Any negative incident or negative publicity concerning us or our property developments could adversely affect our reputation and business. In addition, although we are a well-known brand in the Pearl River Delta Region, we are less well known in other regions in China. Brand value is based largely on subjective consumer perceptions and can be damaged by isolated incidents that reduce consumer trust. Consumer demand for our products and our brand value could diminish significantly if we fail to preserve the quality of our products, or fail to deliver a consistently positive consumer experience in each of our complexes, or if we are perceived to act in an unethical or socially irresponsible manner.

In addition, our efforts to protect our brand name may not be adequate, and we may be unable to identify any unauthorized use of our brand name or to take appropriate steps to enforce our rights on a timely basis. See the section entitled “Business — Intellectual Property Rights.” Our brand could be misappropriated or misused in the future. Any unauthorized use or infringement of our brand name and trademarks may impair the value we have built in our brand name, damage our reputation and materially and adversely affect our business and results of operations.

Our success depends on the continued services of our senior management team

Our success and growth depend on Mr. Kwok Ying Shing, one of our founders and Chairman and the continued services of our executive Directors and other members of our senior management team. They have extensive experience in the PRC real estate industry, and in-depth knowledge of various aspects of property development, strategic planning and business management. We cannot assure you that Mr. Kwok, any executive director or member of senior management is willing or able to continue in his or her present position or that we will be able to find and hire a suitable replacement, or if he or she is recruited by a competitor or departs to start a competing business. In addition, if we enter into financing agreements in the future which require any of our senior management members to main his/her position as a senior management member, resignation of such senior management member may trigger mandatory prepayment provisions under such financing agreements. Moreover, along with our steady growth and expansion into other regional markets in China, we will need to employ, train and retain additional suitable skilled and qualified management and employees from a wider geographical area. If we cannot attract and retain suitable personnel, our business and future growth may be materially and adversely affected.

Property owners may terminate our engagement as the provider of property management services

We provide property management services to the owners of our developed residential and commercial projects through our property management subsidiaries. We believe that property management is an important part of our business strategy and is critical to the successful marketing and promotion of our property developments. Under PRC laws and regulations, a majority of property owners of a residential community of certain size have the right to change the property management service provider. We had not experienced any termination of our property management services by the owners of our developed properties in 2017, 2018 and 2019. In 2017, 2018 and 2019, the revenue derived from our property management services was RMB315.9 million, RMB516.2 million and RMB912.3 million (US\$131.0 million), respectively. If the owners of our developed properties, however, choose to terminate our property management services, or our customers are unsatisfied with our property management services, our reputation and results of operations may be materially and adversely affected.

We may be involved from time to time in disputes, administrative, legal and other proceedings arising out of our operations or subject to fines and sanctions in relation to our non-compliance with certain PRC laws and regulations, and may face significant liabilities as a result

We may be involved in disputes with various parties involved in the construction, development and the sale of our properties, including contractors, suppliers, construction workers, original owners and residents, partners and purchasers. These disputes may lead to protests, legal or other proceedings and may result in damage to our reputation, incurrence of substantial costs and the diversion of resources and management’s attention. As most of our projects are comprised of multiple phases, purchasers of our properties in earlier phases may file legal actions against us if our subsequent planning and development of the relevant project is perceived to be inconsistent with our representations and warranties made to such earlier purchasers. These disputes and legal and other proceedings may materially and adversely affect our reputation, business, results of operations and financial condition. For example, several of our PRC subsidiaries have been involved in the disputes with their contractors, suppliers or purchasers, with the bank accounts and certain buildings subject to preliminary injunction in aid of later execution. Additionally, 0.15% of our shares in one of our Shenzhen based investment companies was frozen by local court in connection with the disputes with a third party. The judicial process of releasing the seizure of properties may decrease the time we devote to normal and customary operating functions. In addition, we may have compliance issues with regulatory bodies in the course of our operations, which may subject us to administrative proceedings and unfavorable decrees that result in liabilities and cause delays to our property developments. For instance, we have been imposed penalties by relevant local governmental authorities as we commenced the construction before obtaining relevant governmental approvals or permits for certain of our property projects and we

have also been imposed penalties by relevant local governmental authorities as result of non-compliance with the relevant planning permits or construction permits we have obtained. There have also been instances where we did not pay the relevant taxes fully or timely. For example, in 2016, one of our PRC subsidiaries in Guangzhou was required by the local tax authority to pay the overdue stamp duty for an amount of approximately RMB2.4 million along with penalties of approximate RMB2.1 million, and one of our PRC subsidiaries in Qingdao was required to pay the overdue local taxes for an amount of approximately RMB10 million. Additionally, as of May 1, 2017, another PRC subsidiary in Shenzhen failed to pay the overdue tax of approximately RMB131 million accrued. If we fail to comply with any applicable PRC laws or regulations, our reputation and our business, results of operations and financial condition may be materially and adversely affected.

In addition, several of our PRC subsidiaries are not fully in compliance with PRC laws and regulations, including those in relation to registered share capital, business licenses, operation permits, tax payment obligation, land use and articles of association of these PRC subsidiaries, and their operations may be adversely affected if they are subject to fines or sanctions imposed by PRC authorities as a result.

We are subject to legal and business risks and our business may be adversely affected if we fail to obtain or maintain the required qualification certificates and other requisite government approvals

A PRC property developer must hold a valid qualification certificate to develop property. In addition, at various stages of project development, the PRC property developer must also obtain various licenses, certificates, permits, and approvals from the relevant PRC administrative authorities, including land use rights certificates, planning permits, construction permits, pre-sale permits and certificates or confirmation of completion.

According to the Provisions on Administration of Qualifications of Real Estate Developers (房地產開發企業資質管理規定) issued by the Ministry of Construction (now MOHURD), a newly established property developer must first apply for a provisional qualification certificate with a one-year validity, which can be renewed annually for not more than two consecutive years. If, however, the newly established property developer fails to commence a property development project within the one-year period following the provisional qualification certificate, it will not be allowed to renew the term of its provisional qualification certificate. Developers with longer operating histories must submit their qualification certificates to relevant construction administration authorities for review annually. Government regulations require developers to fulfill all statutory requirements before they may obtain or renew their qualification certificates.

We conduct our property developments through project companies. These project companies must hold valid qualification certificates to be able to conduct their businesses. Some of our project companies are in the process of obtaining or renewing their qualification certificates. We cannot assure you that our project companies will be able to obtain or renew the necessary qualification certificates in a timely manner, or at all. If any of our project companies does not obtain or renew the necessary qualification certificate in a timely manner, or at all, our prospects, and our business, results of operations and financial condition may be materially and adversely affected.

Pursuant to the Measures for the Administration of Qualifications of Property Service Enterprises (《物業服務企業資質管理辦法》), entities engaged in property management had been required to obtain qualification certificates before they commence their business operations. On March 8, 2018, the Measures for the Administration of Qualifications of Property Service Enterprises was abolished. On March 19, 2018, the Regulation on Property Management was revised accordingly so that the qualification scheme system in monitoring the property service enterprises has been abolished. Our property management subsidiaries are primarily engaged to manage the residential and commercial properties we developed.

In addition to the above, we cannot assure you that we will not encounter significant problems in satisfying the conditions to, or delays in, the issuance or renewal of other necessary licenses, certificates, permits or approvals. There may also be delays on the part of the administrative bodies in reviewing and processing our applications and granting licenses, certificates, permits or approvals. If we fail to obtain the necessary governmental licenses, certificates, permits or approvals for any of our major property projects, or a delay occurs in the government's examination and review process, our development schedule and our sales could be substantially delayed, resulting in a material and adverse effect on our business, results of operations and financial condition.

We have in the past experienced restrictions on the processing and filing of sale and purchase agreements relating to our projects, which caused an adverse impact on our cash flows, financial position and operations

During the period from December 2014 to July 2016, Shenzhen Urban Planning and Land and Resources Commission blocked a number of our property projects from processing and filing sale and purchase agreements. As a result of the blockages, we experienced a substantial decline in our cash collection from property sales, causing an adverse impact on our cash flows, financial position and operations. See “— We experienced net cash outflows from operating activities in the past and maintain a significant amount of indebtedness, which may materially and adversely affect our liquidity and our ability to service our indebtedness.” In particular, the blockages disrupted our cash flows and subsequently resulted in our failure to pay interest under our various debts at the time. In addition, in connection with the blockages, some of our onshore creditors filled applications with PRC courts for preservation of our assets. As a result, we were subject to substantial litigation and arbitration suits filed by onshore creditors. In light of the liquidity situation caused by the blockages, we started our Debt Restructuring, which was effected on July 21, 2016. As of the date of the offering memorandum, none of our projects are subject to asset preservation as a result of the blockages. See “Description of Material Indebtedness and Other Obligations — Debt Restructuring.” Although the blockages have been removed as of the date of this offering memorandum, we cannot assure you that we will not experience similar restrictions and blockages in the future, which would have a material and adverse impact on our cash flows, financial position and operations and, in turn, our ability to make payments under the Notes.

We may need to alter our sales model if the cooperation between us and our primary sales partner is discontinued

We have been cooperating with Centaline and World Union for a number of years to promote our properties across different regional markets in China. We generally enter into one-year non-exclusive sales agency agreements with respect to the sales agency services provided by Centaline and World Union on a project-by-project basis. Under these agreements, Centaline and World Union are generally entitled to a sales commission for sales they conclude upon completion of the sales pursuant to the relevant property purchase contracts. Our arrangements with Centaline and World Union have always been and will continue to be dependent upon the demand for the properties we develop in the relevant local markets. If we discontinue or significantly limit our cooperation with Centaline or World Union, terminate our sales agency agreements or decide not to enter into new agreements upon expiration of our existing sales agency agreements, our sales may be interrupted. As a result, our business, financial condition and results of operations may be adversely affected.

Any disputes with joint venture or co-development partners may materially and adversely affect our business.

We may carry out our business through joint ventures or in collaboration with third parties which we do not control. Such joint venture arrangements or collaborations involve a number of risks, including:

- disputes with our partners in connection with the performance of their obligations under the relevant project, joint venture or cooperative property development agreements;
- disputes as to the scope of each party’s responsibilities under these arrangements;
- financial difficulties encountered by our partners affecting their ability to perform their obligations under the relevant project, joint venture or cooperative property development agreements with us;
- conflicts between the policies or objectives adopted by our partners and those adopted by us; and
- losses of our investments in such joint venture arrangements or collaborations as there is no guarantee that they will materialize into profitable arrangements or projects.

Any of these and other factors may materially and adversely affect our business.

Our substantial shareholders may take actions that are not in, or may conflict with, our or our creditors’, including the holders of the Notes, best interests

As of the date of this offering memorandum, Mr. Kwok Ying Shing, Mr. Kwok Ying Chi, Da Chang Investment Company Limited, Da Feng Investment Company Limited and Da Zheng

Investment Company Limited hold in the aggregate 39.24% of our outstanding shares. These shareholders have and will continue to have the ability to exercise influence over our business, and may cause us to take actions that are not in, or may conflict with, our or our creditors', including the holders of the Notes, best interests, including matters relating to our management and policies and the election of our directors and senior management. They will be able to influence our major policy decisions, including our overall strategic and investment decisions, through the election of our directors and, in turn, indirectly affecting the selection of our senior management, determining the timing and amount of any dividend payments, approving our annual budgets, deciding on increases or decreases in our share capital, determining our issuance of new securities, approving mergers, acquisitions and disposals of our assets or businesses, and amending our articles of association. For more information, see "Management," "Substantial Shareholders," and "Related Party Transactions."

Risks Relating to the Real Estate Industry in China

The PRC government may adopt further measures to slow down growth in the property sector

Along with the economic growth in China, investments in the property sectors have increased significantly in the past few years. In response to concerns over the increase in property investments, from 2004 to March 2013, the PRC government introduced various policies and measures to curtail property developments, including:

- requiring real estate developers to finance, with their internal resources, at least 35% of the total investment (excluding affordable housing projects);
- limiting the monthly mortgage payment to 50% of an individual borrower's monthly income and limiting all monthly debt service payments of an individual borrower to 55% of his or her monthly income;
- suspending land supply for villa construction and restricting land supply for high-end residential property construction;
- requiring that at least 70% of the land supply approved by any local government for residential property development during any given year must be used for developing low- to medium-cost and small- to medium-size units for sale or as low-cost rental properties;
- requiring that at least 70% of the total development and construction area of residential projects approved or constructed on or after June 1, 2006 in any administrative jurisdiction must consist of units with a unit floor area of less than 90 square meters and that projects which have received project approvals prior to this date but have not obtained construction permits must adjust their planning in order to comply with this new requirement, with the exception that municipalities under direct administration of the PRC central government and provincial capitals and certain cities may deviate from such ratio under special circumstances upon approval from MOHURD;
- requiring any first-time home owner to pay the minimum amount of down-payment of 30% of the purchase price of the underlying property;
- requiring any second-time home buyer to pay an increased minimum amount of down-payment of 60% of the purchase price of the underlying property and an increased minimum mortgage loan interest rate of no less than 110% of the relevant PBOC benchmark one-year bank lending interest rate;
- for a commercial property buyer, (i) requiring banks not to finance any purchase of pre-sold properties, (ii) increasing the minimum amount of down-payment to 50% of the purchase price of the underlying property, (iii) increasing the minimum mortgage loan interest rate to 110% of the relevant PBOC benchmark one-year bank lending interest rate, and (iv) limiting the terms of such bank borrowings to no more than 10 years, with commercial banks allowed flexibility based on their risk assessment;
- for a buyer of commercial/residential dual-purpose properties, increasing the minimum amount of down-payment to 45% of the purchase price of the underlying property, with the other terms similar to those for commercial properties;
- limiting the grant or extension of revolving credit facilities to property developers that hold a large amount of idle land and vacant commodity properties;
- imposing more restrictions on the types of property developments that foreign investments may engage in;

- imposing or increasing taxes on short-term gains from second-hand property sales;
- restricting foreign investment in the property sector by, among other things, increasing registered capital and other requirements for establishing FIREEs, tightening foreign exchange control and imposing restrictions on purchases of properties in China by foreign persons;
- requiring commercial banks to suspend mortgage loans to customers for purchase of a third or further residential property, or to non-residents who cannot provide proof of local tax or social security insurance payments for more than a one-year period;
- Raising the benchmark one-year lending rate published by PBOC for the year ended December 31, 2010 to 5.81% and to 6.56% in July 7, 2011;
- adjusting the PBOC Renminbi deposit reserve requirement ratio for all PRC deposit taking financial institutions nine times in 2011 and 2012;
- non-registered residents who own one or more residential properties and fail to provide one-year or longer tax payment certificates or social insurance payment certificates are prohibited from purchasing any residential properties located in the administrative area; and
- strictly enforcing a 20% tax on home sale profits.

Since the second half of 2014, the central and local governments have implemented measures to support the demand of buyers of residential properties and to promote the sustainable development of the real estate market. In September 2014, PBOC and the China Banking Regulatory Commission (“CBRC”, which has been reorganized as the China Banking and Insurance Regulatory Commission) jointly issued a circular which provide that (1) the minimum mortgage loan interest rate for first-time purchasers of residential property was set at 70% of the benchmark lending interest rate; (2) where a family that owns a residential property and has paid off its existing mortgage loan applies for a new mortgage loan to purchase another residential property to improve living conditions, the bank may apply the aforesaid mortgage loan policy for first-time purchasers of residential property; and (3) in cities that have lifted restrictions on the purchase of residential property by residents or those that have not imposed such restrictions, when a family that owns two residential properties or more and has paid off its existing mortgage loans applies for a new mortgage loan to purchase another residential property, the bank is required to assess the credit profile of the borrower, taking into consideration the solvency and credit standing of the borrower and other factors, to decide the down payment ratio and loan interest rate. In view of the local urbanization plan, banks may provide mortgage loans to non-local residents that meet the conditions required by the related policies. In March 2015, PBOC, CBRC and MOHURD jointly issued a notice to lower the minimum down payment to 40% for the family that owns a residential property and has not paid off its existing mortgage loan applying for a new mortgage loan to purchase another ordinary residential property to improve living conditions and allow the bank at its own discretion to decide the down payment ratio and loan interest rate taking into consideration the solvency and credit standing of the borrower. Furthermore, according to a notice jointly issued by SAT and MOF, effective from March 31, 2015, a business tax will be levied on the entire sales proceeds from resale of properties if the holding period is shorter than two years, and if the holding period is more than two years, business tax for transfer of ordinary residences will not be imposed, whereas for the transfer of non-ordinary residences business tax shall be paid on the basis of price difference between the transfer income and the purchase cost. In February 2016, the PBOC and CBRC jointly issued a notice which provides that in cities where property purchase control measures are not being implemented, the minimum down payment ratio for a personal housing commercial loan obtained by a household for purchasing its first ordinary residential property is, in principle, 25% of the property price, which can be adjusted downward by 5% by local authorities. For existing residential property household owners which have not fully repaid the previous loan and are obtaining further personal housing commercial loan to purchase an additional ordinary residential property for the purpose of improving living conditions, the minimum down payment ratio shall be not less than 30%, which is lower than the previous requirement of not less than 40%. In February 2016, SAT and MOF jointly issued a circular to further adjust downward the deed tax and business tax payable for real estate transactions. Since the second half of 2016, certain local governments including without limitation Shenzhen, Guangzhou, Foshan, Dongguan, Huizhou, Zhuhai, Chengdu, Qingdao, Changsha, Wuhan, Changzhou, Shanghai, Suzhou, Hangzhou and Nanjing, where we have property projects, have issued new property market control policies, including restoring or strengthening the restriction on

purchases of residential properties and tightening credit policy. On August 25, 2019, PBOC issued the Announcement of the People's Bank of China No.16 [2019] under which, starting from October 8, 2019, new commercial individual housing loans should be priced by adding basis points to the latest monthly loan prime rate (LPR) of corresponding maturity. The basis points added should conform to the national and local housing credit policy requirements, reflect the loan risk profile, and remain fixed during the contract period. The interest rate of first-time commercial individual housing loans should not be lower than the LPR of corresponding maturity, and the interest rate of second-time commercial individual housing loans not be lower than the LPR of corresponding maturity plus 60 basis points.

We cannot assure you that the PRC government will not change or modify these temporary measures in the future. For more information on the various restrictive measures taken by the PRC government, you should refer to the section entitled "Regulations." These measures may limit our access to capital resources, reduce market demand for our products and increase our operating costs in complying with these measures. We cannot assure you that the PRC government will not adopt additional and more stringent measures, which could further slow down property development in China and adversely affect our business and prospects. For example, the PRC government has announced that it may impose a broader real estate tax in the future. We are not sure whether and when such tax will be imposed and neither can we assess the adverse impact of the new tax on our business operations and financial results. Furthermore, the PRC government has imposed and may further impose strict restriction on the sale of the properties, such as limiting the scope of purchasers and limiting the sale price, which have or will have adverse impact on our business. If we fail to adapt our operations to new policies, regulations and measures that may come into effect from time to time with respect to the real property industry, or such policy changes disrupt our business or cause us to incur additional costs, our business, prospects, financial condition and results of operations may be materially and adversely affected.

The property industry in China is still at a relatively early stage of development, and there is a significant degree of uncertainty in the market as a whole

Private ownership of property in China is still at a relatively early stage of development. Demand for private residential property has been increasing rapidly in recent years. However, increased demand has often been coupled with volatile market conditions and fluctuations in prices. Numerous factors may affect the development of the market and accordingly, it is very difficult to predict when and how much demand will develop. Limited availability of accurate financial and market information and the general low level of transparency in China contribute to overall uncertainty. Investors may be discouraged from acquiring new properties due to the lack of a liquid secondary market for residential properties. In addition, the limited amounts and types of mortgage financing available to individuals, together with the lack of long-term security of legal title and enforceability of property rights, may also inhibit demand for residential property. Finally, the risk of over-supply is increasing in parts of China where property investment, trading and speculation have become more active. If as a result of any one or more of these or similar factors, demand for residential property or market prices decline significantly, our business, results of operations and financial condition may be materially and adversely affected.

Increasing competition in the PRC, particularly in the Pearl River Delta region, may adversely affect our business and financial condition

In recent years, a large number of property developers have undertaken property development and investment projects, particularly in the Pearl River Delta region. The intensity of the competition among property developers in the Pearl River Delta region and other parts in the PRC for land, financing, raw materials and skilled management and labor resources may result in increased cost for land acquisition and construction, a decrease in property prices and delays in the government approval process. An oversupply of properties available for sale could also depress the prices of the properties we sell and may adversely affect our business, financial condition and results of operations.

In addition, the property markets in the Pearl River Delta region and elsewhere in the PRC are rapidly changing. Macro-economic measures have recently been adopted by the PRC government in an attempt to slow the rapid growth of the PRC's economy and deter investment in fixed assets, including real estate assets. If we cannot respond to changes in market conditions in the Pearl River Delta region or elsewhere or react to changes in customer preferences more swiftly or more effectively than our competitors, our business, results of operations and financial condition could be adversely affected.

We are exposed to contractual, legal and regulatory risks related to pre-sales

We depend on cash flows from pre-sales of properties as an important source of funding for our property developments. We face risks relating to the pre-sale of properties. For example, we

may find ourselves liable to the purchasers for their losses if we pre-sell units in a property development and fail to complete that development. If we fail to complete a pre-sold property on time, our purchasers may claim compensation for late delivery pursuant to either their contracts with us or relevant PRC laws and regulations. If our delay extends beyond a specified period, our purchasers may terminate their pre-sale contracts and claim for compensation. A purchaser may also terminate his or her contract with us if the GFA of the relevant unit, as set out in the individual property ownership certificate, deviates by more than 3% from the GFA of that unit set out in his or her contract. We cannot assure you that we will not experience delays in the completion and delivery of our projects, nor that the GFA for a delivered unit will not deviate by more than 3% from the GFA set out in the relevant contract in every instance. Any termination of the purchase contract as a result of our late delivery of properties or deviation from the GFA set out in such contract will have a material adverse effect on our business, financial condition and results of operations. Further, the PRC government has imposed strict regulations on the advertising of property pre-sales and some of our project companies have been penalized for violations of such pre-sale regulations.

Under current PRC laws and regulations, property developers must fulfill certain conditions before they can commence pre-sales of the relevant properties and pre-sales proceeds may only be used to finance the related development. Various PRC authorities and regulators have publicly called for the discontinuance or abolishment of pre-sales, or to impose tighter regulations on such practice and recently, the Guangdong Real Estate Association issued a notice in September 2018 to solicit provincial developers' views on phasing out the system of pre-sales of properties. We cannot assure you that the PRC governmental authority will not ban the practice of pre-selling uncompleted properties or implement further restrictions on the pre-sale of properties, such as imposing additional conditions for a pre-sale permit or further restrictions on the use of pre-sale proceeds. Proceeds from the pre-sale of our properties are an important source of financing for our property developments. Consequently, any restriction on our ability to receive payment on pre-sold properties, or to pre-sell our properties, including any increase in the amount of up-front expenditure we must incur prior to obtaining the pre-sale permit, would extend the time period required for recovery of our capital outlay and would result in our needing to seek alternative means to finance the various stages of our property developments. This, in turn, could have an adverse effect on our business, cash flow results of operations and financial condition.

The total GFA of some of our developments may exceed the original permitted GFA and the excess GFA is subject to governmental approval and payment of additional land premium

The permitted total GFA for a particular development is set out in various governmental documents issued at various stages. In many cases, the underlying land grant contract will specify permitted total GFA. Total GFA is also set out in the relevant urban planning approvals and various construction permits. If constructed total GFA exceeds the permitted total, or if the completed development contains built-up areas that the authorities believe do not conform to the approved plans as set out in relevant construction works planning permit, we may not be able to obtain the acceptance and compliance form of construction completion (竣工驗收備案表) for the development, and as a consequence, we would not be in a position to deliver individual units to purchasers or to recognize the related pre-sale proceeds as revenue. Moreover, excess GFA requires governmental approval, and the payment of additional land premium. We may also be subject to liability to purchasers under our sales and purchase agreements. In 2017, 2018 and 2019, we did not have any other cases where our constructed total GFA exceeded the permitted total GFA.

We cannot assure you that constructed total GFA for each of our existing projects under development or any future property developments will not exceed permitted total GFA for that development, or that the authorities will not determine that all built-up areas conform to the plans approved as set out in the construction permit. Moreover, we cannot assure you that we would have sufficient funding to pay any required additional land premium or to pay for any corrective action that may be required in a timely manner, or at all. Any of these circumstances may materially and adversely affect our reputation, business, results of operations and financial condition.

The terms on which mortgage loans are available, if at all, may affect our sales

Substantially all of the purchasers of our properties rely on mortgages to finance their purchases. An increase in interest rates may significantly increase the cost of mortgage financing and affect the affordability of residential properties. In addition, the PRC government and commercial banks may also increase the down payment requirement, impose other conditions or otherwise change the regulatory framework in a manner that would make mortgage financing

unavailable or unattractive to potential property purchasers. In addition, banks may not lend to any individual borrower if the monthly repayment of the anticipated mortgage loan would exceed 50% of the individual borrower's monthly income or if the total debt service of the individual borrower would exceed 55% of such individual's monthly income. On August 25, 2019, PBOC issued the Announcement of the People's Bank of China No.16 [2019] under which, starting from October 8, 2019, new commercial individual housing loans should be priced by adding basis points to the latest monthly loan prime rate (LPR) of corresponding maturity. The basis points added should conform to the national and local housing credit policy requirements, reflect the loan risk profile, and remain fixed during the contract period. The interest rate of first-time commercial individual housing loans should not be lower than the LPR of corresponding maturity, and the interest rate of second-time commercial individual housing loans not be lower than the LPR of corresponding maturity plus 60 basis points. If the availability or attractiveness of mortgage financing is reduced or limited, many of our prospective customers may not be able to purchase our properties and, as a result, our business, liquidity and results of operations could be materially and adversely affected.

In line with industry practice, we provide guarantees to banks for mortgages they offer to our purchasers up until we complete the relevant property and the individual property ownership certificates with respect to the relevant properties are issued to our purchasers and the mortgage registrations for the relevant properties have been completed. If there are changes in laws, regulations, policies and practices that would prohibit property developers from providing guarantees to banks in respect of mortgages offered to property purchasers and the banks would not accept any alternative guarantees by third parties, or if no third party is available or willing in the market to provide such guarantees, it may become more difficult for property purchasers to obtain mortgages from banks and other financial institutions during sales and pre-sales of our properties. Such difficulties in financing could result in a substantially lower rate of sale and pre-sale of our properties, which would materially and adversely affect our cash flow, financial condition and results of operations.

Our results of operations may vary significantly from period to period

Our results of operations may vary significantly due to a number of factors, including the timetables of our property development projects, the timing of the sale of properties that we have developed, our revenue recognition policies and any volatility in expenses such as raw material costs. The overall schedules of our property development and the number of properties that we can develop or complete during any particular period are limited as a result of the substantial capital required for the acquisition of land, demolition and resettlement and construction. The sale of properties we develop is subject to general market or economic conditions in the areas where we conduct our business and the level of acceptance of our properties by prospective customers. According to our accounting policy, we recognize revenue upon the completion and delivery of the properties to purchasers, which may typically take six to 18 months after the commencement of the pre-sale. Therefore, in periods in which we pre-sell a large aggregate GFA, we may not generate a correspondingly high level of revenue if the properties pre-sold are not delivered within the same period. In addition, our business depends on obtaining adequate supplies of raw materials and is subject to fluctuation in the market prices of raw materials. The prices that we pay for raw materials may increase due to increased industry demand, inflation, higher fuel and transportation costs and other factors. We will continue to experience significant fluctuations in revenue and profit on an interim basis subsequent to the offering. We therefore believe that period-to-period comparisons of our operating results may not be as meaningful as they would be for a company with recurring revenue.

Potential liability for environmental damages could result in substantial cost increases

We are subject to a variety of laws and regulations concerning the protection of health and the environment. The particular environmental laws and regulations that apply to any given project development site vary according to the site's location, the site's environmental condition, the present and former uses of the site and the nature and former uses of adjoining properties. Compliance with environmental laws and regulations may result in delays in development, substantial costs and may prohibit or severely restrict project development activity in environmentally sensitive regions or areas. Under PRC laws and regulations, we are required to submit an environmental impact assessment report to the relevant governmental authorities for approval before commencing construction of any project. Although the environmental inspections conducted by the relevant PRC environmental protection agencies to date have not revealed any environmental violations that we believe would have a material adverse effect on our business, results of operations or financial condition, there may be potential material environmental liabilities of which we are unaware. After the construction project has been completed, the project

company (other than the environmental authorities) should conduct environmental protection inspection of the completed project, formulate environmental protection inspection report, disclose the report to the public, and submit the relevant data and information through the online platform of environmental protection inspection on completion of construction projects. In addition, our operations could result in environmental liabilities or our contractors could violate environmental laws and regulations in their operations that may be attributed to us. For more information, see the section entitled “Business — Environmental and Safety Matters.”

The construction business and the property development business are subject to claims under statutory quality warranties

Under Regulations on the Administration of Quality of Construction Works (《建設工程質量管理條例》), all property development companies in the PRC must provide certain quality warranties for the properties they construct or sell. We are required to provide these warranties to our customers. Generally, we receive quality warranties from our third-party contractors with respect to our development projects. If a significant number of claims are brought against us under our warranties and if we are unable to obtain reimbursement for such claims from third-party contractors in a timely manner or at all, or if the money retained by us to cover our payment obligations under the quality warranties is not sufficient, we could incur significant expenses to resolve such claims or face delays in correcting the related defects, which could in turn harm our reputation and have a material and adverse effect on our business, financial condition and results of operations.

Our investments in the PRC are subject to the PRC government’s control over foreign investment in the property sector.

The PRC government imposes restrictions on foreign investment in the property sector to curtail the overheating of the property sector by, among other things, increasing the capital and other requirements for establishing foreign-invested real estate enterprises, tightening foreign exchange control and imposing restrictions on purchases of properties in China by foreign persons. For example, in May 2007, MOFCOM and the State Administration of Foreign Exchange (“SAFE”) jointly issued the Notice on Further Strengthening and Regulating the Approval and Supervision on Foreign Investment in Real Estate Sector in the PRC (《關於進一步加強、規範外商直接投資房地產業審批和監管的通知》), which, among other things, provides that:

- foreign investment in the property sector in the PRC relating to luxury properties should be strictly controlled;
- prior to obtaining approval for the establishment of foreign-invested real estate enterprises, either (i) both the land use rights certificates and housing title certificates should be obtained, or (ii) contracts for obtaining land use rights or housing titles should be entered into;
- foreign-invested real estate enterprises approved by local authorities shall immediately register with MOFCOM through a filing made by the local authorities; and
- foreign exchange administration authorities and banks authorized to conduct foreign exchange business should not effect foreign exchange settlements of capital account items for those foreign-invested real estate enterprises which have not completed their filings with MOFCOM or fail to pass the annual inspection.

From November 2015, the aforesaid record-filing procedures with MOFCOM for foreign-invested real estate enterprises has been cancelled. These restrictions imposed by the PRC government on foreign investment in the property sector may affect our ability to make further investments in our PRC subsidiaries and as a result may limit our business growth and have a material adverse effect on our business, prospects, financial condition and results of operations.

The PRC government has imposed restrictions on the ability of PRC property developers to receive offshore funds

In May 2007, MOFCOM and SAFE jointly issued the Notice on Further Strengthening and Regulating the Approval and Supervision on Foreign Investment in Real Estate Sector in the PRC (《關於進一步加強、規範外商直接投資房地產業審批和監管的通知》). In April 2013, SAFE issued the Notice Regarding Promulgation of Administrative Measures on Foreign Debt Registration (《國家外匯管理局關於發佈《外債登記管理辦法》的通知》) effective from May 13, 2013 which contains an appendix named the Operating Guidelines for Foreign Debt Registration Administration (外債登記管理操作指引). These notices indicate that SAFE will no longer process foreign debt registrations or foreign debt applications for the settlement of foreign exchange submitted by real estate enterprises with foreign investment that obtained authorization certificates from and

registered with MOFCOM on or after June 1, 2007. These regulations effectively prohibit us from injecting funds into our PRC project companies by way of shareholder loans. Without the flexibility to transfer funds to PRC subsidiaries as loans, we cannot assure you that the dividend payments from our PRC subsidiaries will be available on each interest payment date to pay the interest due and payable under the Notes, or on the maturity date to pay the principal of the outstanding Notes. Furthermore, on June 27, 2018, NDRC emphasized in a post on its website that the proceeds from bond offerings offshore by PRC property enterprises shall be mainly used for repayments of the debts due and shall be restricted from being used for investments in property projects within or outside China or working capital. On July 12, 2019, NDRC published a Notice on Requirements for Foreign Debt Registration Application by Real Estate Enterprises (《關於對房地產企業發行外債申請備案登記有關要求的通知》) on its website which imposes more restrictions on the use of proceeds of foreign debts incurred by real estate developers. According to the notice, the use of proceeds of foreign debt incurred by a real estate developer is limited to refinancing its medium to long term offshore debts which will become due within one year, and the real estate developer is required to specify in the documents for application of foreign debt registration with NDRC the details of such medium to long term offshore debts to be refinanced, such as amount, maturity date and whether such medium to long term offshore debts were registered with NDRC. The real estate developer is also required to submit a commitment letter to NDRC regarding the authenticity of its foreign debt issuance. Failure to comply with these restrictions, the real estate developer may be blacklisted and prevented from obtaining foreign debt registrations in the future. There is no assurance that offshore debts issued by property companies will not be further restricted and the PRC government may impose additional requirements or conditions for offshore debts. If PRC government impose additional requirements which restrict our ability to receive offshore funds, our liquidity and our ability to fund and expand our business could be materially and adversely affected.

Risks Relating to China

PRC economic, political and social conditions, as well as governmental policies, could affect our business and prospects

The PRC economy differs from the economies of most of the developed countries in many aspects, including:

- the amount and degree of the PRC government involvement;
- growth rate and degree of development;
- uniformity in the implementation and enforcement of laws;
- content of and control over capital investment;
- control of foreign exchange; and
- allocation of resources.

The PRC economy has been transitioning from a centrally planned economy to a more market-oriented economy. For approximately three decades, the PRC government has implemented economic reform measures to utilize market forces in the development of the PRC economy. In addition, the PRC government continues to play a significant role in regulating industries and the economy through policy measures. We cannot predict whether changes in PRC economic, political or social conditions and in PRC laws, regulations and policies will have any adverse effect on our current or future business, financial condition or results of operations.

In May 2017, Moody's downgraded China's sovereign credit rating for the first time since 1989 and changed its outlook from stable to negative, citing concerns on the country's rising levels of debt and expectations of slower economic growth. The full impact of the Moody's downgrade remains to be seen, but the perceived weaknesses in China's economic development model, if proven and left unchecked, would have profound implications. In September 2017, S&P Global Ratings downgraded China's sovereign credit rating for the first time since 1999, citing similar concerns. The full impact of such actions by international rating agencies remains to be seen, but the perceived weaknesses in China's economic development model, if proven and left unchecked, would have profound implications. If China's economic conditions worsen, or if the banking and financial systems experience difficulties from over-indebtedness, businesses in China may face a more challenging operating environment. Our business, financial condition and results of operations may be adversely affected by: (i) changes in the PRC political, economic and social conditions; (ii) changes in policies of the PRC government, including changes in policies in relation to our business segments; (iii) changes in laws and regulation or the interpretation of laws and regulations; (iv) measures that may be introduced to control inflation or deflation; (v) changes

in the rate or method of taxation; the imposition of additional restrictions on currency conversion and remittances abroad; and (vi) a reduction in tariff protection and other important restrictions.

In addition, many of the economic reforms carried out by the PRC government are unprecedented or experimental and are expected to be refined and improved over time. Other political, economic and social factors may also lead to further adjustments of the reform measures. This refining and adjustment process may not necessarily have a positive effect on our operations and business development. For example, the PRC government has in the past implemented a number of measures intended to slow down certain segments of the economy that the government believed to be overheating, including the real estate industry. These measures have included restricting foreign investment in certain sectors of the real estate industry, raising benchmark interest rates of commercial banks, reducing currency supply and placing additional limitations on the ability of commercial banks to make loans by raising bank reserves against deposits and raising the thresholds and minimum loan interest rates for residential mortgages. These actions, as well as future actions and policies of the PRC government, could cause a decrease in the overall level of economic activity, and in turn have a material and adverse impact on our business and financial condition.

Changes in government control of currency conversion and in PRC foreign exchange regulations may adversely affect our business operations

The PRC government imposes controls on the convertibility between Renminbi and foreign currencies and the remittance of foreign exchange out of China. We receive substantially all our revenue in Renminbi. Under our current corporate structure, our income is primarily derived from dividend payments from our PRC subsidiaries. Our PRC subsidiaries must convert their Renminbi earnings into foreign currency before they may pay cash dividends to us or service their foreign currency denominated obligations. Under existing PRC foreign exchange regulations, payments of current-account items may be made in foreign currencies without prior approval from SAFE by complying with certain procedural requirements.

However, approval from appropriate governmental authorities is required when Renminbi is converted into foreign currencies and remitted out of China for capital-account transactions, such as the repatriation of equity investment in China and the repayment of the principal of loans denominated in foreign currencies. Such restrictions on foreign exchange transactions under capital accounts also affect our ability to finance our PRC subsidiaries. Subsequent to this offering, we have the choice, as permitted by the PRC foreign investment regulations, to invest our net proceeds from this offering in the form of registered capital or a shareholder loan into our PRC subsidiaries to finance our operations in China. Our choice of investment is affected by the relevant PRC regulations with respect to capital-account and current-account foreign exchange transactions in China. Our investment decisions are additionally affected by various other measures taken by the PRC government relating to the PRC property market as we have disclosed in the section entitled “Industry Overview — The PRC Real Estate Industry — Measures affecting the PRC property market.” In addition, our transfer of funds to our subsidiaries in China is subject to approval by or filing with PRC governmental authorities in the case of an increase in registered capital, and subject to approval by and registration with PRC governmental authorities in case of shareholder loans to the extent that the existing foreign investment approvals received by our PRC subsidiaries permit any such shareholder loans at all. These limitations on the flow of funds between us and our PRC subsidiaries could restrict our ability to act in response to changing market conditions.

We may be treated as a PRC resident enterprise for PRC tax purposes, which may subject us to PRC income taxes on our worldwide income.

In March 2007, the National People’s Congress of the PRC and its Standing Committee (the “NPC” or the “National People’s Congress”) enacted the Enterprise Income Tax Law of the PRC (《中華人民共和國企業所得稅法》) (the “Enterprise Income Tax Law”), which took effect on January 1, 2008 and was amended on February 24, 2017 and December 29, 2018, respectively. The Enterprise Income Tax Law imposes a unified income tax rate of 25% on all domestic and foreign-invested enterprises unless they qualify under certain limited exceptions.

Under the Enterprise Income Tax Laws, enterprises established under the laws of jurisdictions outside China with their “de facto management bodies” located within China may be considered PRC resident enterprises and therefore subject to PRC enterprise income tax at the rate of 25% on their worldwide income. The Enterprise Income Tax Laws provide that the “de facto management body” of an enterprise is the organization that exercises substantial and overall management and control over the production, employees, books of accounts and properties of the enterprise. In April 2009, the SAT specified certain criteria for the determination of the “de facto

management bodies” for foreign enterprises that are controlled by PRC enterprises. However, there have been no official implementation rules regarding the determination of the “de facto management bodies” for foreign enterprises that are not controlled by PRC enterprises (including companies such as ourselves). If a majority of the members of our management team continue to be located in China, we may be considered a PRC resident enterprise and therefore subject to PRC enterprise income tax at the rate of 25% on our worldwide income. If we or any of our non-PRC subsidiaries otherwise become a PRC resident enterprise under the Enterprise Income Tax Laws, our profitability and cash flow would be materially and adversely affected.

Interest payable by us to our foreign investors and gain on the sale of our Notes may become subject to withholding taxes under PRC tax laws

Under the Enterprise Income Tax Laws, if our Company is deemed a PRC resident enterprise, the interest payable on the Notes will be considered to be sourced within China. PRC income tax at the rate of 10% will be applicable to such interest payable by us to investors that are “non-resident enterprises” so long as such “non-resident enterprise” investors do not have an establishment or place of business in China or, if despite the existence of such establishment or place of business in China, the relevant income is not effectively connected with such establishment or place of business in China. Similarly, any gain realized on the transfer of the Notes by such investors will be subject to a 10% PRC income tax if such gain is regarded as income derived from sources within China. It is uncertain whether we will be considered a PRC “resident enterprise,” so we are not sure whether the interest payable to our foreign investors, or the gain our foreign investors may realize from the transfer of our Notes, would be treated as income sourced within China and be subject to PRC tax. If we are required under the Enterprise Income Tax Laws to withhold PRC income tax on our interest payable to our foreign shareholders who are “non-resident enterprises,” we will be required to pay such additional amounts as will result in receipt by a holder of a Note of such amounts as would have been received by the holder had no such withholding been required. The requirement to pay additional amounts will increase the cost of servicing interest payments on the Notes, and could have a material adverse effect on our ability to pay interest on, and repay the principal amount of, the Notes, as well as our profitability and cash flow. In addition, if you are required to pay PRC income tax on the transfer of our Notes, the value of your investment in our Notes may be materially and adversely affected. It is unclear whether, if we are considered a PRC “resident enterprise,” holders of our Notes might be able to claim the benefit of income tax treaties or agreements entered into between China and other countries or areas.

PRC regulations relating to the establishment of offshore special purpose companies by PRC residents may adversely affect our business operations

In October 2005, the SAFE issued the Notice Regarding Certain Administrative Measures on Financing and Round-trip Investment by PRC Residents through Offshore Special Purpose Vehicles (《關於境內居民通過境外特殊目的公司融資及返程投資外匯管理有關問題的通知》), or Circular No. 75 which became effective on November 1, 2005. The notice requires PRC residents, including both legal and natural persons, to register with the local SAFE branch before establishing or controlling any company outside of China (an “offshore special purpose company”) for the purpose of acquiring any assets of or equity interest in a PRC company and raising funds offshore. In July 2014, Circular No. 75 was abolished by SAFE and was superseded by the Notice Regarding Certain Issues on the Foreign Exchange Administration on the Offshore Investment and Financing and Round-trip Investment by PRC Residents through Special Purpose Vehicles (《關於境內居民通過特殊目的公司境外投融資及返程投資外匯管理有關問題的通知》), or Circular No. 37.

Circular No. 37 and other relevant SAFE rules require PRC residents, including both legal and natural persons, to register with the banks before making capital contribution to any company outside of China (an “offshore SPV”) with onshore or offshore assets and equity interests legally owned by PRC residents. In addition, any PRC individual resident who is the shareholder of an offshore SPV is required to update its registration with banks with respect to that offshore SPV in connection with change of basic information of the offshore SPV such as its company name, business term, the shareholding by individual PRC resident, merger, division and with respect to the individual PRC resident in case of any increase or decrease of capital in the offshore SPV, transfer of shares or swap of shares by the individual PRC resident. Failure to comply with the required registration and updating requirements described above may result in restrictions being imposed on the foreign exchange activities of the PRC subsidiaries of such offshore SPV, including increasing the registered capital of, payment of dividends and other distributions to, and receiving capital injections from the offshore SPV. Failure to comply with Circular No. 37 may also subject the relevant PRC residents or the PRC subsidiaries of such offshore SPV to penalties under PRC foreign exchange administration regulations for evasion of applicable foreign exchange restrictions.

If the SAFE promulgates clarifications or regulations in the future requiring our beneficial owners who are Hong Kong permanent residents to comply with the registration procedures and update requirements described above and if our beneficial owners are unable or fail to comply with such procedures, our beneficial owners may be subject to fines and legal sanctions and our business operations may also be materially and adversely affected, particularly with respect to the ability of our Chinese subsidiaries to remit foreign currency payments out of China.

Our operations and financial performance could be adversely affected by labor shortages, increase in labor costs, changes to the PRC labor-related laws and regulations or labor disputes

The PRC Labor Contract Law, which became effective on January 1, 2008, imposes greater liabilities on employers and significantly affects the cost of an employer's decision to reduce its workforce. Further, it requires certain terminations to be based upon seniority and not merit. In the event we decide to significantly change or decrease our workforce, the Labor Contract Law could adversely affect our ability to effect such changes in the most cost effective or timely manner to our business, hence may adversely affect our financial condition and results of operations. In addition, the PRC government has continued to introduce various new labor-related regulations after the promulgation of the Labor Contract Law. Among other things, the paid annual leave provisions require that paid annual leaves ranging from five to fifteen days be available to nearly all employees and further require that employers compensate an employee for any annual leave days the employee is unable to take in the amount of three times of such employee's daily salary, subject to certain exceptions.

On October 28, 2010, the Standing Committee of the National People's Congress promulgated the Social Insurance Law of the PRC (《中華人民共和國社會保險法》), which became effective on July 1, 2011, to clarify the contents of the social insurance system in China. According to the Social Insurance Law, employees will participate in pension insurance, work-related injury insurance, medical insurance, unemployment insurance and maternity insurance and the employers must, together with their employees or separately, pay for the social insurance premiums for such employees.

As a result of the implementation of these and any future rules and regulations designed to enhance the standard for labor protection, our labor costs may continue to increase. Furthermore, as the interpretation and implementation of these new laws and regulations are still evolving, we cannot assure you that our employment practice will at all times be deemed fully in compliance, which may cause us to face labor disputes or governmental investigations. If we are deemed in violation of such labor laws and regulations, we could be subject to penalties, compensations to the employees and loss of reputation, and as a result our business, financial condition and results of operations could be materially and adversely affected.

Further, labor disputes, work stoppages or slowdowns at our operating subsidiaries or project sites or affecting the operations of our business partners could disrupt our daily operation or our expansion plans, which could have a material adverse effect on our business and results of operations.

Interpretation of the PRC laws and regulations involves uncertainty and the current legal environment in China could limit the legal protections available to you

Our core business is conducted in China and is governed by PRC laws and regulations. Our principal operating subsidiaries are located in China and are subject to the PRC laws and regulations. The PRC legal system is a civil law system based on written statutes, and prior court decisions have limited precedential value and can only be used as a reference. Additionally, PRC written laws are often principle-oriented and require detailed interpretations by the enforcement bodies to further apply and enforce such laws. Since 1979, the PRC legislature has promulgated laws and regulations in relation to economic matters such as foreign investment, corporate organization and governance, commercial transactions, taxation and trade, with a view to developing a comprehensive system of commercial law, including laws relating to property ownership and development. However, because these laws and regulations have not been fully developed, and because of the limited volume of published cases and the non-binding nature of prior court decisions, interpretation of PRC laws and regulations involves a degree of uncertainty and the legal protection available to you may be limited. Depending on the governmental agency or the presentation of an application or case to such agency, we may receive less favorable interpretations of laws and regulations than our competitors. In addition, any litigation in China may be protracted and result in substantial costs and diversion of resources and management attention. All these uncertainties may cause difficulties in the enforcement of our land use rights, entitlements under our permits, and other statutory and contractual rights and interests.

We cannot guarantee the accuracy of facts, forecasts and other statistics with respect to China, the PRC economy, the PRC real estate industry and the selected PRC regional data contained in this offering memorandum

Facts, forecasts and other statistics in this offering memorandum relating to China, the PRC economy, the PRC real estate industry and the selected PRC regional data have been derived from various official or other publications available in China and may not be consistent with other information compiled within or outside China. However, we cannot guarantee the quality or reliability of such source materials. They have not been prepared or independently verified by us, the Initial Purchasers or any of our or their respective affiliates or advisors (including legal advisors), or other participants in this offering and, therefore, we make no representation as to the accuracy of such facts, forecasts and statistics. We have, however, taken reasonable care in the reproduction and/or extraction of the official and other publications for the purpose of disclosure in this offering memorandum. Due to possibly flawed or ineffective collection methods or discrepancies between published information and market practice, these facts, forecasts and statistics in this offering memorandum may be inaccurate or may not be comparable to facts, forecasts and statistics produced with respect to other economies. Further, there can be no assurance that they are stated or compiled on the same basis or with the same degree of accuracy as in other jurisdictions. Therefore, you should not unduly rely upon the facts, forecasts and statistics with respect to China, the PRC economy, the PRC real estate industry and the selected PRC regional data contained in this offering memorandum.

It may be difficult to enforce any judgments obtained from non-PRC courts against us in the PRC

Substantially all of our assets are located within the PRC. The PRC does not have treaties providing for the reciprocal recognition and enforcement of judgments of courts with the United States, the United Kingdom, Japan or some other countries. Therefore, it may be difficult for our Notes holders to enforce against us in the PRC any judgments obtained from non-PRC courts.

Risks Relating to the Notes

Our Company is a holding company and payments with respect to the Notes are structurally subordinated to liabilities, contingent liabilities and obligations of our subsidiaries

Our Company is a holding company with no material operations. We conduct our operations through our PRC subsidiaries. The Notes will not be guaranteed by any current or future PRC subsidiaries. Our primary assets are ownership interests in our PRC subsidiaries, which are held through the Subsidiary Guarantors, certain Unrestricted Subsidiaries and certain existing Non-Guarantor Subsidiaries and may be held by JV Subsidiary Guarantors or New Non-Guarantor Restricted Subsidiaries (as defined herein) in the future. The Subsidiary Guarantors do not and the JV Subsidiary Guarantors (if any) may not, have material operations. Accordingly, our ability to pay principal and interest on the Notes and the ability of the Subsidiary Guarantors and JV Subsidiary Guarantors (if any) to satisfy their obligations under the Subsidiary Guarantees or JV Subsidiary Guarantees (if any) will depend upon our receipt of principal and interest payments on the intercompany loans and distributions of dividends from our subsidiaries.

Creditors, including trade creditors of Non-Guarantor Subsidiaries and Unrestricted Subsidiaries and any holders of preferred shares in such entities, would have a claim on the Non-Guarantor Subsidiaries' assets that would be prior to the claims of holders of the Notes. As a result, our payment obligations under the Notes will be effectively subordinated to all existing and future obligations of our Non-Guarantor Subsidiaries and Unrestricted Subsidiaries, including their obligations under guarantees they have issued or will issue in connection with our business operations, and all claims of creditors of our Non-Guarantor Subsidiaries and Unrestricted Subsidiaries will have priority as to the assets of such entities over our claims and those of our creditors, including holders of the Notes. As of December 31, 2019, our Non-Guarantor Subsidiaries had consolidated indebtedness and other liabilities outstanding owed to third parties in the amount of RMB58,673.1 million (US\$8,427.9 million), capital commitments of RMB39,458.8 million (US\$5,667.9 million) and financial guarantees of RMB32,816.5 million (US\$4,713.8 million). The Notes and the Indenture permit us, the Subsidiary Guarantors, the JV Subsidiary Guarantors (if any) and our Non-Guarantor Subsidiaries to incur additional indebtedness and issue additional guarantees, subject to certain limitations. In addition, our secured creditors or those of any Subsidiary Guarantor or JV Subsidiary Guarantor (if any) would have priority as to our assets or the assets of such Subsidiary Guarantor or JV Subsidiary Guarantor (if any) securing the related obligations over claims of holders of the Notes.

Under the terms of the Notes, a Subsidiary Guarantee required to be provided by a subsidiary of the Company under the terms of the Notes may be replaced by a limited-recourse guarantee, or JV Subsidiary Guarantee, following the sale or issuance to, a third party of an equity interest in such subsidiary or its direct or indirect majority shareholders (subject to the satisfaction of certain conditions). Recovery under a JV Subsidiary Guarantee is limited to an amount equal to our proportional interest in the issued share capital of such Subsidiary Guarantor multiplied by the fair market value of the total assets in such JV Subsidiary Guarantor and its subsidiaries, on a consolidated basis, as of the date of the last fiscal quarter end of the Company. As a result, the amount that may be recovered by the Trustee pursuant to a JV Subsidiary Guarantee (compared to a Subsidiary Guarantee) is reduced, which in turn may affect your ability to recover any amounts due under the Notes.

We have substantial indebtedness and may incur substantial additional indebtedness in the future, which could adversely affect our financial health and our ability to generate sufficient cash to satisfy our outstanding and future debt obligations

We now have, and will continue to have after the offering of the Notes, a substantial amount of indebtedness. Our total indebtedness, including both current and non-current borrowings, as of December 31, 2017, 2018 and 2019, was RMB111,173.2 million, RMB108,766.0 million and RMB117,195.6 million (US\$16,834.1 million), respectively. Our gearing ratio was 300.0%, 236.2% and 144.0% as of December 31, 2017, 2018 and 2019, respectively.

Our substantial indebtedness could have important consequences to you. For example, it could:

- limit our ability to satisfy our obligations under the Notes and other debt;
- increase our vulnerability to adverse general economic and industry conditions;
- require us to dedicate a substantial portion of our cash flow from operations to servicing and repaying our indebtedness, thereby reducing the availability of our cash flow to fund working capital, capital expenditures and for other general corporate purposes;
- limit our flexibility in planning for or reacting to changes in our businesses and the industry in which we operate;
- place us at a competitive disadvantage compared to our competitors that have less debt;
- limit, along with the financial and other restrictive covenants of our indebtedness, among other things, our ability to borrow additional funds; and
- increase the cost of additional financing.

In the future, we may from time to time incur substantial additional indebtedness and contingent liabilities. Under the Notes, our ability to incur additional debt is subject to the limitation on indebtedness and preferred stock covenant. Under such covenant, we may incur certain indebtedness if we can, among other things, satisfy the Fixed Charge Coverage Ratio (as defined in “Description of the Notes”). The Fixed Charge Coverage Ratio is derived by dividing Consolidated EBITDA by Consolidated Fixed Charges (each as defined in “Description of the Notes”). Because our definition of Consolidated Net Income (which is a significant component of Consolidated EBITDA) includes any net after tax gains arising from our sale of certain investment properties (or the stock of subsidiaries holding such properties) as a result of the difference between the original cost and the cash sale price, and our definition of Consolidated Interest Expense excludes the interest expense on indebtedness of third parties that we guarantee (except to the extent that such interest expense is actually paid by us), our Consolidated EBITDA could be substantially larger and our Consolidated Interest expense could be smaller when compared to other similarly situated PRC issuers whose covenants do not typically include such net after tax gains in the definition of Consolidated Net Income and would typically include any interest expense accruing on indebtedness of any other person guaranteed by such issuers and their subsidiaries in the definition of Consolidated Interest Expense. As a result, our ability to incur additional debt under the Fixed Charge Coverage Ratio could be substantially larger when compared to such other issuers. In addition, we may, pursuant to certain exceptions to the Fixed Charge Coverage Ratio requirement, incur additional indebtedness which could be sizeable. In particular, we may incur indebtedness to finance the acquisition of certain property via acquiring the capital stock of an entity and this entity needs not become a restricted subsidiary, subject to certain conditions. If we or our subsidiaries incur additional debt, the risks that we face as a result of our already substantial indebtedness and leverage could intensify.

Our ability to generate sufficient cash to satisfy our outstanding and future debt obligations will depend upon our future operating performance, which will be affected by prevailing economic conditions and financial, business and other factors, many of which are beyond our control. We anticipate that our operating cash flow will be sufficient to meet our anticipated operating expenses and to service our debt obligations as they become due. However, there is no assurance that we will be able to generate sufficient cash flow for these purposes. If we are unable to service our indebtedness, we will be forced to adopt an alternative strategy that may include actions such as reducing or delaying capital expenditures, selling assets, restructuring or refinancing our indebtedness or seeking equity capital. These strategies may not be instituted on satisfactory terms, if at all.

On the other hand, our ability to meet the Fixed Charge Coverage Ratio requirement may be affected by events beyond our control. We cannot assure you that we will be able to meet these ratios. Certain of our financing arrangements also impose operating and financial restrictions on our business. See “Description of Material Indebtedness and Other Obligations.” Such restrictions in the Indenture and our other financing arrangements may negatively affect our ability to react to changes in market conditions, take advantage of business opportunities we believe to be desirable, obtain future financing, fund required capital expenditures, or withstand a continuing or future downturn in our business or the general economy. Any of these factors could materially and adversely affect our ability to satisfy our obligations under the Notes and other debt.

The short term nature of the Notes may place increased pressure on our cash flow and funding needs

The Notes have a maturity date of less than one year and will be redeemed on June 9, 2021. Our ability to repay the Notes and to meet our other debt service obligations depends on our future operating and financial performance and ability to generate cash in the short term, which are affected by general economic, financial, competitive and other factors beyond our control. Dedicating a substantial portion of our cash flow to making payments on our debt, including the Notes, within a short period would limit the availability of funds for working capital, business opportunities and other general corporate purposes, increase our vulnerability to adverse general economic or industry conditions, limit our flexibility in planning for, or reacting to, changes in our business and the industry in which we operate, and potentially increase our cost of borrowing. In addition, the availability of external financing with which to repay our debt financing, including the Notes, is subject to numerous factors, including general political, economic and capital market conditions (both internationally and within the PRC), interest rates, credit availability from banks and other major lenders and investor confidence in us and our business, some of which may be outside our control. In addition, the issuance of the Notes has not been registered with National Development and Reform Commission (the “NDRC”) of the PRC pursuant to the Notice on Promoting the Reform of the Filing and Registration System for Issuance of Foreign Debt by Enterprises (《國家發展改革委關於推進企業發行外債備案登記制管理改革的通知》(發改外資[2015]2044號, the “NDRC Notice”) as the NDRC Notice only applies to offshore debt instruments with a tenor of one year or above. However, uncertainties remain regarding its interpretation, implementation and enforcement by the NDRC, and, in particular, there is a risk that the NDRC could in the future amend the rules relating to the NDRC Notice or the interpretation thereof (including with retroactive effect), such that debt instruments similar to the Notes will be subject to the registration and other requirements under the NDRC Notice.

Our subsidiaries are subject to restrictions on the payment of dividends and the repayment of shareholder loans or advances to us and our subsidiaries

As a holding company, we depend on the receipt of dividends and the interest and principal payments on shareholder loans or advances from our subsidiaries, including our PRC subsidiaries, to satisfy our obligations, including our obligations under the Notes. The ability of our subsidiaries to pay dividends and make payments on shareholder loans or advances is subject to, among other things, distributable earnings, cash flow conditions, restrictions contained in the articles of association of our subsidiaries, applicable laws and restrictions contained in the debt instruments or agreements as well as guarantee or security agreements of such subsidiaries. In particular, a substantial number of our PRC subsidiaries holding a significant number of our projects are, directly or indirectly, restricted from paying dividends or making payment on shareholder loans. See “Description of Material Indebtedness and Other Obligations.” Furthermore, such restrictions may adversely affect the calculation of our Consolidated Net Income, and in turn our ability to undertake additional financing, investment or other transactions under the terms of the Notes. In addition, if any of our subsidiaries raises capital by issuing equity securities to third parties, dividends declared and paid with respect to such equity securities would not be available to us to make payments on the Notes. These restrictions could reduce the amounts that we receive from our subsidiaries, which would restrict our ability to meet our payment obligations under the Notes and the obligations of the Subsidiary Guarantors or JV Subsidiary Guarantors (if any) under the Subsidiary Guarantees or JV Subsidiary Guarantees, as the case may be.

PRC laws and regulations permit payment of dividends only out of accumulated profits as determined in accordance with PRC accounting standards and regulations and such profits differ from profits determined in accordance with HKFRS in certain significant respects, including the use of different bases of recognition of revenue and expenses. Our PRC subsidiaries are also required to set aside a portion of their after-tax profits according to PRC accounting standards and regulations to fund certain reserves that are not distributable as cash dividends. In practice, our PRC project companies may pay dividends only after they have completed not only the project development, at least the development of a phase or a stand-alone tower or building, and the revenue recognition but also the required government tax clearance and foreign exchange procedures. In addition, dividends paid by our PRC subsidiaries to their non-PRC parent companies will be subject to a 10% withholding tax, unless there is a tax treaty between the PRC and the jurisdiction in which the overseas parent company is incorporated, which specifically exempts or reduces such withholding tax. Pursuant to avoidance of double taxation arrangements between Hong Kong and the PRC, if the non-PRC parent company is a Hong Kong resident and directly holds a 25% or more interest in the PRC enterprise, such withholding tax rate may be lowered to 5%, although there is uncertainty under a recent circular regarding whether intermediate Hong Kong holding companies will remain eligible for benefits under this arrangement. As a result of such restrictions, there could be timing limitations on payments from our PRC subsidiaries to meet payments required by the Notes or satisfy our obligations under the Subsidiary Guarantees or JV Subsidiary Guarantees, as the case may be, and there could be restrictions on payments required to redeem the Notes at maturity or as required for any early redemption.

Furthermore, although we currently do not have any offshore shareholder loans to our PRC subsidiaries, we may resort to such offshore lending in the future, rather than equity contributions, to our PRC subsidiaries to finance their operations. In such events, the market interest rates that our PRC subsidiaries can pay with respect to offshore loans generally may not exceed comparable interest rates in the international finance markets. The interest rates on shareholder loans paid by our subsidiaries, therefore, are likely to be lower than the interest rate for the Notes. Our PRC subsidiaries are also required to pay a 10% (or 7% if the interest is paid to a Hong Kong resident) withholding tax on our behalf on the interest paid under any shareholder loan. Prior to payment of interest and principal on any such shareholder loan, the PRC subsidiaries (as foreign-invested enterprises in China) must present evidence of payment of the withholding tax on the interest payable on any such shareholder loan and evidence of registration with SAFE, as well as any other documents that SAFE or its local branch may require.

As a result of the foregoing, we cannot assure you that we will have sufficient cash flow from dividends or payments on intercompany loans or advances from our subsidiaries to satisfy our obligations under the Notes or the obligations of the Subsidiary Guarantors or JV Subsidiary Guarantors (if any) under the Subsidiary Guarantees or JV Subsidiary Guarantees, as the case may be.

PRC regulation of loans to and direct investments in PRC entities by offshore holding companies may delay or prevent us from using the proceeds of this offering to make loans or additional capital contributions to our PRC operating subsidiaries

According to the existing PRC rules and regulations relating to supervision of foreign debt, loans by foreign companies to their subsidiaries in China, such as our PRC subsidiaries established as foreign-invested enterprises in China, are considered foreign debt, and such loans must be registered with the relevant local branches of SAFE. Such rules and regulations also provide that the total outstanding amount of such foreign debt borrowed by any foreign-invested enterprise may not exceed the difference between its total investment and its registered capital, each as approved by the relevant PRC authorities. In addition, in July 2007, SAFE issued a circular indicating that it would not process any foreign debt registration or conversion of foreign debt for foreign-invested enterprises in the real estate sector that was approved by the local office of MOFCOM, and registered with MOFCOM after June 1, 2007. Therefore, the proceeds of the current offering may only be transferred to our PRC subsidiaries as equity investments and not as loans. Equity contributions by us and our non-PRC subsidiaries to our PRC subsidiaries had required approvals from or filing with the commerce department of the local government and the local banks, which may take considerable time and result in delays of receiving the contribution. This may in turn adversely affect the financial condition of the PRC subsidiaries. Since January 1, 2020, instead of the aforesaid filing with or approvals from the commerce authorities, the relevant reports to the commerce authorities through the enterprise registration system will be required. We might not be able to obtain necessary approvals or complete requisite reporting procedures for our PRC subsidiaries at all. Furthermore, on June 27, 2018, NDRC emphasized in a post on its website that the proceeds from bond offerings offshore by PRC property enterprises shall be mainly used for repayments of the debts due and shall be restricted from being used for investments in property projects within or outside China or working capital. On July 12, 2019, NDRC published a notice on its website, under which the use of proceeds of foreign debt incurred by a real estate developer is limited to refinancing its medium to long term offshore debts which will become due within one year.

The PRC government may introduce new policies that could further restrict our ability to use funds raised outside China. Our borrowings from sources outside of China as a percentage of our total borrowings has been increasing and may continue to increase in the future. Due to restrictions imposed by the PRC laws and regulations, we may not be able to use all or any of the funds that we raise outside of China, including the net proceeds from the current offering, as we contemplated, which may have a material and adverse effect on our business, results of operations, financial condition and prospects.

We may be subject to risks presented by fluctuations in exchange rates between Renminbi and other currencies, particularly the U.S. dollar

The Notes are denominated in U.S. dollars, while substantially all of our revenues are generated by our PRC operating subsidiaries and are denominated in Renminbi. Pursuant to reforms of the exchange rate system announced by PBOC on July 21, 2005, Renminbi-to-foreign currency exchange rates are allowed to fluctuate within a narrow and managed band against a basket of foreign currencies, rather than being effectively linked to the U.S. dollar. Further, from May 18, 2007, PBOC enlarged the floating band for the trading prices in the inter-bank foreign exchange market of Renminbi against the U.S. dollar from 0.3% to 0.5% around the central parity rate, effective on May 21, 2007. The floating band was further widened to 1.0% on April 16, 2012 and 2.0% on March 17, 2014. These changes in currency policy resulted in Renminbi appreciating against the U.S. dollar by approximately 26.9% from July 21, 2005 to December 31, 2013. The PRC government may adopt further reforms of its exchange rate system, including making the Renminbi freely convertible in the future. If such reforms were implemented and resulted in the devaluation of the Renminbi against the U.S. dollar, our financial condition and results of operations could be adversely affected because of our substantial U.S. dollar denominated indebtedness and other obligations. Such a devaluation could also adversely affect the value, translated or converted into U.S. dollars or otherwise, of our earnings and our ability to satisfy our obligations under the Notes.

There are limited hedging instruments available in China to reduce our exposure to exchange rate fluctuations between the Renminbi and other currencies. Following the offering of the Notes, we may enter into foreign exchange or interest rate hedging arrangements in respect of our U.S. dollar-denominated liabilities under the Notes. These hedging arrangements may require us to

pledge or transfer cash and other collateral to secure our obligations under the arrangements, and the amount of collateral required may increase as a result of mark-to-market adjustments. The Initial Purchasers and their affiliates may enter into such hedging arrangements permitted under the Indenture, and these arrangements may be secured by pledges of our cash and other assets as permitted under the Indenture. If we were unable to provide such collateral, it could constitute a default under such hedging arrangements.

Any hedging obligation entered into or to be entered into by us or our subsidiaries, may contain terms and conditions that may result in the early termination, in whole or in part, of such hedging obligation upon the occurrence of certain termination or analogous events or conditions (howsoever described), including such events relating to us and/or any of our subsidiaries, and the terms and conditions of such hedging obligation(s) may provide that, in respect of any such early termination, limited or no payments may be due and payable to, or that certain payments may be due and payable by, us and/or any of our subsidiaries (as relevant) in respect of any such early termination. Any such early termination, in whole or in part, of any such hedging obligation(s), and the payment and any other consequences and effects of such early termination(s), may be material to our financial condition and/or any of our subsidiaries and may be material in relation to the performance of our or their respective obligations under or in relation to the Notes (if applicable), any indebtedness or any other present or future obligations and commitments.

The terms of the Notes permit us to make investments in Unrestricted Subsidiaries and minority owned joint ventures

In light of land prices, sizes of projects, the competitive landscape and other factors, we may from time to time consider developing properties jointly with other property developers. As a result, we may need to make investments in joint ventures (including joint ventures in which we may own less than a 50% equity interest) and such joint ventures may or may not be Restricted Subsidiaries under the Indenture governing the Notes. Although the Indenture governing the Notes restricts us and our Restricted Subsidiaries from making investments in Unrestricted Subsidiaries or joint ventures, these restrictions are subject to important exceptions and qualifications, including, among others, that we may, subject to certain conditions, make investments in Unrestricted Subsidiaries and minority owned joint ventures in an aggregate amount not to exceed 15% of our total assets without having to satisfy the Fixed Charge Coverage Ratio. See “Description of the Notes.”

We may designate members of the “Restructuring Group” as Unrestricted Subsidiaries under the Indenture if and when we decide to proceed with the Restructuring, which members will not be subject to various covenants under the Indenture

Although we do not have any specific plan yet, we may designate members of the Restructuring Group (as defined in “Description of the Notes”) as Unrestricted Subsidiaries under the Indenture, if and when we consider appropriate, subject to certain conditions, including, among others, that our Board of Directors has determined in good faith that the designation of Unrestricted Subsidiaries is necessary to obtain approval from the relevant stock exchange for the Restructuring. Following such designation:

- interest expenses on Indebtedness (as defined in the Indenture) of such entity will not be included in the calculation of our Consolidated Interest Expense under the Indenture, other than such interest expenses on Indebtedness that is Guaranteed and paid by us or a Restricted Subsidiary;
- the net income of the Restructuring Group will not be included in the calculation of our Consolidated Net Income and Consolidated EBITDA under the Indenture except to the extent of the cash actually distributed to us or any Restricted Subsidiary as a dividend or other distribution from the Restructuring Group;
- any Investment by us or any Restricted Subsidiary in the Restructuring Group would need to satisfy the “Limitation on Restricted Payments” covenant; and
- future transactions between us or any Restricted Subsidiary on the one hand and any member of the Restructuring Group on the other will need to comply with the requirements in the “Limitation on Transactions with Shareholders and Affiliates” covenant, except for those that (i) are entered into in connection with the Restructuring, or (ii) are entered into in the ordinary course of business, on fair and reasonable terms and are disclosed in the offering documents issued in connection with the Restructuring, or any amendment, modification, extension or replacement thereof, subject to certain conditions.

As a result of any such designation, the value of assets subject to the restrictive covenants under the Indenture may decrease and the market price and trading of the Notes may be materially affected. Accordingly, you are cautioned as to our potential designation of Unrestricted Subsidiaries under the Indenture, notably the members within the Restructuring Group, and our ability to designate further Unrestricted Subsidiaries subject to the conditions set forth in the Indenture.

We may not be able to repurchase or repay the Notes upon a Change of Control Triggering Event

We must offer to purchase or repay the Notes, upon the occurrence of a Change of Control Triggering Event. See the sections entitled “Description of the Notes.”

The source of funds for any such purchase or payment would be our available cash or third-party financing. However, we may not have sufficient available funds at the time of the occurrence of a Change of Control Triggering Event to make purchases or payment of the outstanding Notes. Our failure to make the offer to purchase or repay, or to purchase or repay, the outstanding Notes would constitute an event of default under the Notes. The event of default may, in turn, constitute an event of default under other indebtedness, any of which could cause the related debt to be accelerated after any applicable notice or grace periods. If our other debt were to be accelerated, we may not have sufficient funds to purchase or repay the Notes and repay the debt.

In addition, the definition of a Change of Control Triggering Event for purposes of the indenture does not necessarily afford protection for the holders of the Notes in the event of some highly leveraged transactions, including certain acquisitions, mergers, refinancings, restructurings or other recapitalizations. These types of transactions could, however, increase our indebtedness or otherwise affect our capital structure or credit ratings. Additionally, investors should note that our equity interests have been, and will from time to time be, pledged by our shareholders to secure financing provided by third-party banks to our shareholders. If our shareholders default on such financing, it may result in enforcement of such pledges by such third-party banks, that may result in the occurrence of a Change of Control Triggering Event. The definition of a Change of Control Triggering Event for purposes of the indenture also includes a phrase relating to the sale of “all or substantially all” of our assets. Although there is a limited body of case law interpreting the phrase “substantially all,” there is no precise established definition under applicable law. Accordingly, our obligation to make an offer to purchase or repay the Notes and the ability of a holder of the Notes to require us to purchase or repay its Notes pursuant to the offer as a result of a highly-leveraged transaction or a sale of less than all of our assets may be uncertain.

The insolvency laws of the Cayman Islands and other local insolvency laws may differ from U.S. bankruptcy law or those of another jurisdiction with which holders of the Notes may be familiar

Because we are incorporated under the laws of the Cayman Islands, an insolvency proceeding relating to us or any such Subsidiary Guarantor, even if brought in the United States, would likely involve Cayman Islands insolvency laws, the procedural and substantive provisions of which may differ from comparable provisions of United States federal bankruptcy law. In addition, our other Subsidiary Guarantors are incorporated or may be incorporated in the BVI or Hong Kong and the insolvency laws of the BVI and Hong Kong may also differ from the laws of the United States or other jurisdictions with which the holders of the Notes may be familiar.

We conduct substantially all of our business operations through PRC-incorporated subsidiaries in China. The Subsidiary Guarantors, as equity holders in our PRC subsidiaries, are necessarily subject to the bankruptcy and insolvency laws of China in a bankruptcy or insolvency proceeding involving any of such PRC subsidiaries. The PRC laws and regulations relating to bankruptcy and insolvency and the legal proceedings in that regard may significantly differ from those of the United States and other jurisdictions with which the holders of the Notes may be familiar. You should analyze the risks and uncertainties carefully before you invest in our Notes.

We may be unable to obtain and remit foreign exchange

Our ability to satisfy our obligations under the Notes depends solely upon the ability of our PRC subsidiaries to obtain and remit sufficient foreign currency to pay dividends to us and, if applicable, to repay shareholder loans. Our PRC subsidiaries must present certain documents to SAFE, its authorized branch, or the designated foreign exchange bank, for approval before they can obtain and remit foreign currencies out of China, including, in the case of dividends, evidence that the relevant PRC taxes have been paid and, in the case of shareholder loans, evidence of the registration of the loan with SAFE. Prior to payment of interest and principal on any shareholder

loan we make to our PRC subsidiaries, the relevant PRC subsidiary must also present evidence of payment of the 10% (or 7% if the interest is paid to a Hong Kong resident) withholding tax on the interest payable in respect of such shareholder loan. If any PRC subsidiary for any reason fails to satisfy any of the PRC legal requirements for remitting foreign currency payments, the PRC subsidiary will be unable to pay us dividends or interest and principal on shareholder loans, which may affect our ability to satisfy our obligations under the Notes.

If we are unable to comply with the restrictions and covenants in our debt agreements or the Indenture, there could be a default under the terms of these agreements or the Indenture, which could cause repayment of our debt to be accelerated, or we could be required to redeem our debt

If we are unable to comply with the restrictions and covenants in the Indenture or our current or future debt obligations and other agreements, there could be a default or a redemption obligation under the terms of these agreements. In the event of a default under these agreements, the holders of the debt could terminate their commitments to lend to us, accelerate repayment of the debt and declare all outstanding amounts due and payable or terminate the agreements, as the case may be. Furthermore, some of our debt agreements, including the Indenture, contain cross-acceleration or cross-default provisions. As a result, our default under one debt agreement may cause the acceleration of repayment of not only such debt but also other debt, including the Notes, or result in a default under our other debt agreements, including the Indenture. If any of these events occur, we cannot assure you that our assets and cash flow would be sufficient to repay in full all of our indebtedness, or that we would be able to find alternative financing. Even if we could obtain alternative financing, we cannot assure you that it would be on terms that are favorable or acceptable to us.

Our operations are restricted by the terms of the Notes and other obligations which could limit our ability to plan for or to react to market conditions or meet our capital needs, which could increase your credit risk

The indenture governing the Notes and the documents governing our certain other obligations include a number of significant restrictive covenants. These covenants restrict, among other things, our ability, and the ability of our Restricted Subsidiaries, to:

- incur or guarantee additional indebtedness and issue disqualified or preferred stock;
- declare dividends on capital stock or purchase or redeem capital stock;
- make investments or other specified restricted payments;
- issue or sell capital stock of Restricted Subsidiaries;
- guarantee indebtedness of Restricted Subsidiaries;
- sell assets;
- create liens;
- enter into sale and leaseback transactions;
- engage in any business other than permitted business;
- enter into agreements that restrict the Restricted Subsidiaries' ability to pay dividends, transfer assets or make intercompany loans;
- enter into transactions with shareholders or affiliates; and
- effect a consolidation or merger.

These covenants could limit our ability to plan for or react to market conditions or to meet our capital needs. Our ability to comply with these covenants may be affected by events beyond our control, and we may have to curtail some of our operations and growth plans to maintain compliance.

A trading market for the Notes may not develop, and there are restrictions on resale of the Notes

The Notes are a new issue of securities for which there is currently no trading market. Although application will be made to the SGX-ST for the listing and quotation of the Notes on the SGX-ST, we cannot assure you that we will obtain or be able to maintain a listing and quotation of the Notes on the SGX-ST, or that, if listed, a liquid trading market will develop. In addition, the Notes are being offered pursuant to exemptions from registration under the U.S. Securities Act and, as a result, you will only be able to resell your Notes in transactions that have been registered under the U.S. Securities Act or in transactions not subject to or exempt from registration under the U.S. Securities Act. See the section entitled “Transfer Restrictions.” We cannot predict whether an active trading market for the Notes will develop or be sustained.

The Notes will not be rated and our corporate ratings maybe lowered or withdrawn in the future

The Notes will not be rated and we have received corporate rating of “B” with a stable outlook by S&P, “B1” with a stable outlook by Moody’s and “B” with a stable outlook by Fitch. A rating is not a recommendation to buy, sell or hold securities and may be subject to revision, suspension or withdrawal at any time. We cannot assure you that a rating will remain for any given period of time or that a rating will not be lowered or withdrawn entirely by the relevant rating agency if in its judgment circumstances in the future so warrant. We have no obligation to inform holders of the Notes of any such revision, downgrade or withdrawal. A suspension, reduction or withdrawal at any time of our ratings may adversely affect the market price of the Notes.

Certain transactions that constitute “connected transactions” under the Listing Rules will not be subject to the “Limitation on Transactions with Shareholders and Affiliates” covenant

Our shares are listed on the Hong Kong Stock Exchange and we are required to comply with the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the “Listing Rules”), which provide, among other things, that any transaction between a listed company or any of its subsidiaries, on the one hand, and a “connected person” of such listed company, on the other hand, is a “connected transaction” that, if the value of such transaction exceeds the applicable *de minimis* thresholds, will require the prior approval of the independent shareholders of such listed company. The definition of “connected person” to a listed company includes, among others, any 10% or more shareholder of (i) such listed company or (ii) any subsidiary of such listed company. The concept of “connected person” also captures “associates,” which include, among others, (a) any subsidiary of such “connected person,” (b) any holding company of such “connected person” and any subsidiary of such holding company, and (c) any company in which such entity or entities mentioned in (a) and (b) above taken together has/have the power to exercise control, directly or indirectly, of 30% or more of the voting power of such company.

The “Limitation on Transactions with Shareholders and Affiliates” covenant in the Notes only applies to transactions between the Company or any Restricted Subsidiary, on the one hand, and (x) any holder (or any affiliate of such holder) of 10% or more of the shares of the Company or (y) any affiliate of the Company, on the other hand. As such, transactions between the Company or any Restricted Subsidiary, on the one hand, and an affiliate of any Restricted Subsidiary, on the other hand, will not be captured by such covenant, even though they are subject to the independent shareholders’ requirement under the Listing Rules. As a result, we are not required by the terms of the Notes to ensure that any such transactions are on terms that are fair and reasonable, and we will not need to deliver officers’ certificates or procure the delivery of fairness opinions of accounting, appraisal or investment banking firms to the trustee of the Notes for any such transactions.

The liquidity and price of the Notes following the offering may be volatile

The price and trading volume of the Notes may be highly volatile. Factors such as variations in our revenues, earnings and cash flows, proposals for new investments, strategic alliances and/or acquisitions, changes in interest rates, fluctuations in price for comparable companies, government regulations and changes thereof applicable to our industry and general economic conditions nationally or internationally could cause the price of the Notes to change. Any such developments may result in large and sudden changes in the trading volume and price of the Notes. We cannot assure you that these developments will not occur in the future.

There may be less publicly available information about us than is available in certain other jurisdictions

There may be less publicly available information about companies listed in Hong Kong than is regularly made available by public companies in certain other countries. In addition, the financial information in this offering memorandum has been prepared in accordance with HKFRS, which differ in certain respects from generally accepted accounting principles in other jurisdictions, or other GAAPs, which might be material to the financial information contained in this offering memorandum. We have not prepared a reconciliation of our consolidated financial statements and related footnotes between HKFRS and other GAAPs. In making an investment decision, you must rely upon your own examination of us, the terms of the offering and our financial information. You should consult your own professional advisers for an understanding of the differences between HKFRS and U.S. GAAP or between HKFRS and other GAAPs and how those differences might affect the financial information contained in this offering memorandum.

We will follow the applicable corporate disclosure standards for debt securities listed on the SGX-ST, which standards may be different from those applicable to debt securities listed in certain other countries

For so long as the Notes are listed on the SGX-ST, we will be subject to continuing listing obligations in respect of the Notes. The disclosure standards imposed by the SGX-ST may be different than those imposed by securities exchanges in other countries or regions such as the United States or Hong Kong. As a result, the level of information that is available may not correspond to what investors in the Notes are accustomed to.

Risks Relating to the Subsidiary Guarantees, the JV Subsidiary Guarantees and the Collateral

Our initial Subsidiary Guarantors do not currently have significant operations and certain Subsidiary Guarantees may in some cases be replaced by limited-recourse guarantees

We conduct substantially all of our business operations through our PRC subsidiaries, but none of our current PRC subsidiaries will provide a Subsidiary Guarantee or JV Subsidiary Guarantee either upon issuance of the Notes or at any time thereafter. No future subsidiaries that are organized under the laws of the PRC, or that are not permitted by applicable law or regulation to guarantee the Notes (the “Exempted Subsidiaries”), will provide a Subsidiary Guarantee or JV Subsidiary Guarantee at any time in the future. Moreover, the Notes will not be guaranteed by certain Other Non-Guarantor Subsidiaries. In addition, certain of our offshore subsidiaries will not be required to guarantee the Notes if the consolidated assets of these subsidiaries (other than the Exempted Subsidiaries) do not exceed 20% of our total assets. As a result, the Notes will be effectively subordinated to all the debt and other obligations, including contingent obligations and trade payables, of the PRC subsidiaries. See the sections entitled “Description of the Notes — The Subsidiary Guarantees and the JV Subsidiary Guarantees” for a list of the existing Non-Guarantor Subsidiaries (other than our PRC subsidiaries).

The initial Subsidiary Guarantors that will guarantee the Notes do not have significant operations. In addition, the Subsidiary Guarantors guarantee our obligations under the Existing Notes (as defined in the “Description of the Notes”) and the Exchange Convertible Bonds. We cannot assure you that the initial Subsidiary Guarantors or any subsidiaries that may become Subsidiary Guarantors or JV Subsidiary Guarantors in the future will have the funds necessary to satisfy our financial obligations under the Notes if we are unable to do so. See the section entitled “— Risks Relating to the Notes — We are a holding company and payments with respect to the Notes are structurally subordinated to liabilities, contingent liabilities and obligations of our subsidiaries.”

Under the terms of the Notes, if no less than 20% of the Capital Stock of a Subsidiary Guarantor is sold to a third party (whether through sale of existing shares or issuance of new shares), such Subsidiary Guarantor may either substitute its Subsidiary Guarantee for JV Subsidiary Guarantee or release its Subsidiary Guarantee and do not provide any guarantee for the Notes, as long as the consolidated assets of all Restricted Subsidiaries organized outside the PRC (other than the Exempted Subsidiaries) that are not Subsidiary Guarantors or JV Subsidiary Guarantors do not account for more than 20% of our total assets.

In addition, in the case of a subsidiary or any entity established after the original issue date of the Notes that is incorporated outside the PRC, a limited-recourse JV Subsidiary Guarantee may be provided following the sale or issuance to a third party of no less than 20% of equity interest in such subsidiary, or purchase from a third party of an equity interest in such entity such that it becomes our subsidiary (subject to the satisfaction of certain conditions). Recovery under a JV Subsidiary Guarantee is limited to an amount equal to our proportional interest in the issued share capital of such JV Subsidiary Guarantor multiplied by the fair market value of the total assets in such JV Subsidiary Guarantor and its subsidiaries, on a consolidated basis, as of the date of the last fiscal year end of the Company.

The Subsidiary Guarantees or JV Subsidiary Guarantees may be challenged under applicable insolvency or fraudulent transfer laws, which could impair the enforceability of the Subsidiary Guarantees or JV Subsidiary Guarantees

Under bankruptcy laws, fraudulent transfer laws, insolvency or unfair preference or similar laws in the Cayman Islands, the BVI, Hong Kong and other jurisdictions where future Subsidiary Guarantors or JV Subsidiary Guarantors (if any) may be established, a guarantee could be voided, or claims in respect of a guarantee could be subordinated to all other debts of that guarantor if, among other things, the guarantor, at the time it incurred the indebtedness evidenced by, or when it gives, its guarantee:

- incurred the debt with the intent to hinder, delay or defraud creditors or was influenced by a desire to put the beneficiary of the guarantee in a position which, in the event of the guarantor's insolvency, would be better than the position the beneficiary would have been in had the guarantee not been given;
- received less than reasonably equivalent value or fair consideration for the incurrence of such guarantee;
- was insolvent or rendered insolvent by reason of the incurrence of such guarantee;
- was engaged in a business or transaction for which the guarantor's remaining assets constituted unreasonably small capital; or
- intended to incur, or believed that it would incur, debts beyond its ability to pay such debts as they mature.

The measure of insolvency for purposes of the foregoing will vary depending on the laws of the applicable jurisdiction. Generally, however, a guarantor would be considered insolvent at a particular time if it were unable to pay its debts as they fell due or if the sum of its debts was then greater than all of its properties at a fair valuation or if the present fair saleable value of its assets was then less than the amount that would be required to pay its probable liabilities in respect of its existing debts as they became absolute and matured.

In addition, a guarantee may be subject to review under applicable insolvency or fraudulent transfer laws in certain jurisdictions or subject to a lawsuit by or on behalf of creditors of the guarantor. In such case, the analysis set forth above would generally apply, except that the guarantee could also be subject to the claim that, since the guarantee was not incurred for the benefit of the guarantor, the obligations of the guarantor thereunder were incurred for less than reasonably equivalent value or fair consideration.

In an attempt to limit the applicability of insolvency and fraudulent transfer laws in certain jurisdictions, the obligations of the Subsidiary Guarantors or JV Subsidiary Guarantors (if any) under the Subsidiary Guarantees or JV Subsidiary Guarantors (as the case may be) will be limited to the maximum amount that can be guaranteed by the applicable Subsidiary Guarantor or JV Subsidiary Guarantor (if any) without rendering the guarantee, as it relates to such Subsidiary Guarantor or JV Subsidiary Guarantor (if any), voidable under such applicable insolvency or fraudulent transfer laws.

If a court voids a Subsidiary Guarantee or JV Subsidiary Guarantee (as the case may be), subordinates such guarantee to other indebtedness of the Subsidiary Guarantor or JV Subsidiary Guarantor, or holds the Subsidiary Guarantee or JV Subsidiary Guarantee (as the case may be) unenforceable for any other reason, holders of the Notes would cease to have a claim against that Subsidiary Guarantor or JV Subsidiary Guarantor based upon such guarantee, would be subject to the prior payment of all liabilities (including trade payables) of such Subsidiary Guarantor or JV Subsidiary Guarantor (as the case may be), and would solely be creditors of us and any Subsidiary

Guarantors or JV Subsidiary Guarantors whose guarantees have not been voided or held unenforceable. We cannot assure you that, in such an event, after providing for all prior claims, there would be sufficient assets to satisfy the claims of the holders of the Notes.

The pledge of certain Collateral may in some circumstances be voidable

The pledge of the Collateral may be voidable as a preference under insolvency or fraudulent transfer or similar laws of Hong Kong, the Cayman Islands and the BVI at any time within six months of the perfection of the pledge or, under some circumstances, within a longer period. Pledges of capital stock of future Subsidiary Guarantors may also be voidable as a preference under relevant insolvency or fraudulent transfer or similar laws. In addition, the pledge of certain Collateral may be voided based on the analysis set forth under the section entitled “— The Subsidiary Guarantees or JV Subsidiary Guarantees may be challenged under applicable insolvency or fraudulent transfer laws, which could impair the enforceability of the Subsidiary Guarantees or JV Subsidiary Guarantees” above.

If the pledges of the Collateral were to be voided for any reason, holders of the Notes would have only an unsecured claim against us and the Subsidiary Guarantor Pledgors.

The pledge of certain Collateral may be released under certain circumstances

If we dispose of not less than 20% of the shares of a Subsidiary Guarantor, the Subsidiary Guarantees provided by such Subsidiary Guarantor and its subsidiaries, and the Collateral comprising the shares of these companies, may be released if the consolidated assets of our non-PRC subsidiaries (other than the Exempted Subsidiaries) that do not guarantee the Notes do not account for more than 20% of our total assets immediately following such release.

Moreover, in the event the conditions applicable to the replacement of a Subsidiary Guarantee with a JV Subsidiary Guarantee are satisfied, we are permitted to release the pledge of the shares granted by such Subsidiary Guarantor, as well as the pledge of the shares granted by the subsidiaries of such Subsidiary Guarantor. We are only required to deliver a replacement share pledge for the shares that we continue to hold in such JV Subsidiary Guarantor (but not the subsidiaries of such JV Subsidiary Guarantor) following the sale of the equity interests in such Subsidiary Guarantor. As a result, in the event we sell minority equity interests in our Subsidiary Guarantors or otherwise create JV Subsidiary Guarantors in accordance with the terms of the Indenture, the Collateral will be reduced in value and scope, and holders of the Notes would be subject to increased risks.

The Trustee may request the holders of the Notes to provide an indemnity and/or security to its satisfaction

In certain circumstances the Trustee may (at its sole discretion) request the holders of the Notes to provide an indemnity and/or security to its satisfaction before it takes actions on behalf of the holders of the Notes. The Trustee shall not be obliged to take any such actions if not indemnified to its satisfaction. Negotiating and agreeing to an indemnity and/or security can be a lengthy process and may impact on when such actions can be taken. The Trustee may not be able to take actions, notwithstanding the provision of an indemnity and/or security to it, in breach of the terms of the Indenture governing the Notes and in circumstances where there is uncertainty or dispute as to the applicable laws or regulations and, to the extent permitted by the agreements and the applicable law, it will be for the holders of the Notes to take such actions directly.

The value of the Collateral is unlikely to be sufficient to satisfy our obligations under the Notes and other pari passu secured indebtedness

The Collateral consists only of the capital stock of certain of the initial Subsidiary Guarantors. The security interest in respect of certain Collateral may be released upon the disposition of such Collateral and any proceeds from such disposition may be applied, prior to repaying any amounts due under the Notes, to repay other debt or to make investments in properties and assets that will not be pledged as additional Collateral.

The ability of the Trustee, on behalf of the holders of the Notes, to foreclose on the Collateral upon the occurrence of an Event of Default or otherwise will be subject to the terms of the Intercreditor Agreement, as well as in certain instances to perfection and priority status. Although procedures will be undertaken to support the validity and enforceability of the security interests, we cannot assure you that the Trustee or holders of the Notes will be able to enforce the security interest.

The value of the Collateral in the event of a liquidation will depend upon market and economic conditions, the availability of buyers and similar factors. No independent appraisals of any of the Collateral have been prepared by or on behalf of us in connection with this offering of the Notes. Accordingly, we cannot assure you that the proceeds of any sale of the Collateral following an acceleration of the Notes will be sufficient to satisfy, or will not be substantially less than, amounts due and payable on the Notes. By its nature, the Collateral, which consists solely of the capital stock of any existing or future Subsidiary Guarantor, is likely to be illiquid and is unlikely to have a readily ascertainable market value. Likewise, we cannot assure you that the Collateral will be saleable or, if saleable, that there will not be substantial delays in its liquidation.

The Collateral will be shared on a *pari passu* basis by the holders of the Notes, the holders of the Exchange Convertible Bonds and the holders of any outstanding Existing HY Notes and may be shared on a *pari passu* basis with holders of other indebtedness ranking *pari passu* with the Notes that we may issue in the future. Accordingly, in the event of a default on the Notes or the other secured indebtedness and a foreclosure on the Collateral, any foreclosure proceeds would be shared by the holders of secured indebtedness in proportion to the outstanding amounts of each class of such secured indebtedness. The value of the Collateral securing the Notes and the Subsidiary Guarantees of the Subsidiary Guarantor Pledgors is unlikely to be sufficient to satisfy the obligations of the Company and each of the Subsidiary Guarantor Pledgors under the Notes and the Subsidiary Guarantees of the Subsidiary Guarantor Pledgors, and the Collateral securing the Notes and such Subsidiary Guarantees may be reduced or diluted under certain circumstances, including the issuance of Additional Notes (as defined herein) or other *pari passu* indebtedness and the disposition of assets comprising the Collateral, subject to the terms of the Indenture.

The Intercreditor Agreement may impact the ability of the Company and the Subsidiary Guarantors to pay amounts due under the Notes and the Subsidiary Guarantees and the Intercreditor Agreement may limit the rights of holders of the Notes to the Collateral

The Common Security Trustee is required to take action to enforce the Collateral in accordance with the instructions of the holders of the Notes and the holders of the Exchange Convertible Bonds given under and in accordance with the Intercreditor Agreement. Any enforcement action taken by the Common Security Trustee will adversely affect the Company's entitlement to receive distributions from the Collateral, which will, in turn, have an adverse impact on the Company's ability to fulfill its payment obligations under the Notes. Further, the Subsidiary Guarantors' ability to pay under the Subsidiary Guarantees will be adversely affected. The ability of holders of the Notes to enforce the Collateral is restricted under the Intercreditor Agreement, as only the Common Security Trustee is permitted to take enforcement actions. If an event of default occurs under the Notes, the holders holding 25% of the outstanding amount of a series of Notes and other secured parties under the Intercreditor Agreement may decide whether to take any enforcement action and may thereafter, through their respective trustee or agent, in accordance with the Intercreditor Agreement, instruct the Common Security Trustee to take enforcement action against the Collateral. By virtue of the instructions given to the Common Security Trustee described above, actions may be taken in respect of the Collateral that may be adverse to holders of such series of Notes. In such event, the only remedy available to holders of such series of Notes would be to sue for payment under the Notes and the Subsidiary Guarantees.

The Common Security Trustee, acting in its capacity as such, shall have such duties with respect to the Collateral pledged, assigned or granted pursuant to the Intercreditor Agreement and the Security Documents as are set forth in the Intercreditor Agreement. Under certain circumstances, the Common Security Trustee may have obligations under the Security Documents or the Intercreditor Agreement that are in conflict with the holders of the Notes. The Common Security Trustee will not be under any obligation to exercise any rights or powers conferred under the Intercreditor Agreement or any of the Security Documents for the benefit of the holders of the Notes or the Exchange Convertible Bonds, unless such holders or lender have offered to the Common Security Trustee indemnity and/or security satisfactory to the Common Security Trustee against any loss, liability or expense.

USE OF PROCEEDS

We intend to use the net proceeds for refinancing our existing indebtedness and general corporate purposes.

EXCHANGE RATE INFORMATION

China

PBOC sets and publishes daily a base exchange rate with reference primarily to the supply and demand of Renminbi against a basket of currencies in the market during the prior day. PBOC also takes into account other factors, such as the general conditions existing in the international foreign exchange markets. From 1994 to July 20, 2005, the conversion of Renminbi into foreign currencies, including Hong Kong dollars and U.S. dollars, was based on rates set daily by PBOC on the basis of the previous day's inter-bank foreign exchange market rates and then current exchange rates in the world financial markets. On July 21, 2005, the PRC government introduced a managed floating exchange rate system to allow the value of the Renminbi to fluctuate within a regulated band based on market supply and demand and by reference to a basket of currencies. On May 18, 2007, PBOC enlarged, the floating band for the trading prices in the inter-bank foreign exchange market of the Renminbi against the U.S. dollar from 0.3% to 0.5% around the central parity rate, effective on May 21, 2007. The floating band was further widened to 1.0% on April 16, 2012 and 2.0% on March 17, 2014. In August 2015, the PBOC moved to devalue the Renminbi against the U.S. dollar and announced a policy change allowing a more market-based determination of the official fixing rate. Following such announcement, the Renminbi depreciated significantly against the U.S. dollar. The PRC government may from time to time make further adjustments to the exchange rate system in the future. PBOC authorized the China Foreign Exchange Trading Centre to announce the central parity exchange rate of certain foreign currencies against the Renminbi on each business day. This rate is set as the central parity for the trading against the Renminbi in the inter-bank foreign exchange spot market and the over-the-counter exchange rate for the business day.

The following table sets forth the noon buying rate for U.S. dollars in New York City for cable transfer in Renminbi as certified for customs purposes by the Federal Reserve Bank of New York for the periods indicated:

Hong Kong

The Hong Kong dollar is freely convertible into other currencies, including the U.S. dollar. Since October 17, 1983, the Hong Kong dollar has been linked to the U.S. dollar at the rate of HK\$7.80 to US\$1.00. The Basic Law of the Hong Kong Special Administrative Region of the People's Republic of China (the "Basic Law"), which came into effect on July 1, 1997, provides that no foreign exchange control policies shall be applied in Hong Kong.

The market exchange rate of the Hong Kong dollar against the U.S. dollar continues to be determined by the forces of supply and demand in the foreign exchange market. However, against the background of the fixed rate system which applies to the issuance and withdrawal of Hong Kong currency in circulation, the market exchange rate has not deviated significantly from the level of HK\$7.80 to US\$1.00. In May 2005, the Hong Kong Monetary Authority broadened the 22-year-old trading band from the original rate of HK\$7.80 per U.S. dollar to a rate range of HK\$7.75 to HK\$7.85 per U.S. dollar. The Hong Kong government has indicated its intention to maintain the link within that rate range. Under the Basic Law, the Hong Kong dollar will continue to circulate and remain freely convertible. The Hong Kong government has also stated that it has no intention of imposing exchange controls in Hong Kong and that the Hong Kong dollar will remain freely convertible into other currencies, including the U.S. dollar. However, no assurance can be given that the Hong Kong government will maintain the link at HK\$7.80 to US\$1.00 or at all.

(2) We have, since December 31, 2019, in the ordinary course of business, entered into additional financing arrangements to finance our property developments and for general corporate purposes, including, among others, the January 2025 Notes, the July 2025 Notes and the February 18 2021 Notes. These changes in our borrowings after December 31, 2019 have not been reflected in this capitalization table.

(3) Our borrowings do not include capital commitments or contingent liabilities. As of December 31, 2019, our capital commitments were RMB39,458.8 million (US\$5,667.9 million) and our contingent liabilities, which were in the form of guarantees that we have provided to our customers in relation to their purchases of our properties, amounted to RMB32,816.5 million (US\$4,713.8 million).

(4) Representing the proceeds from this offering, before deducting the underwriting discounts and commissions and other estimated expenses payable in connection with this offering.

(5) Total capitalization equals total non-current borrowings plus total equity.

For a description of our other material indebtedness, please see the section entitled “Description of Material Indebtedness and Other Obligations” in this offering memorandum. Except as otherwise disclosed in this offering memorandum, there has been no material adverse change in our capitalization since December 31, 2019.

SELECTED CONSOLIDATED FINANCIAL AND OTHER DATA

The following table presents our selected financial and other data. The selected consolidated statement of profit or loss and other comprehensive income data for 2017, 2018 and 2019 and the selected consolidated statement of financial position data as of December 31, 2017, 2018 and 2019 set forth below (except for EBITDA data) have been derived from our consolidated financial statements as of and for the years ended December 31, 2018 and 2019, as audited by Grant Thornton Hong Kong Limited, included elsewhere in this offering memorandum. Our financial results for any past period are not, and should not be taken as, an indication of our performance, financial position or results of operations in future periods. Our financial statements have been prepared and presented in accordance with HKFRS, which differ in certain respects from generally accepted accounting principles in other jurisdictions. The selected financial data below should be read in conjunction with the section entitled “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and our consolidated financial statements and the notes to those statements included elsewhere in this offering memorandum.

(1) EBITDA for any period consists of profit or loss for the period before, changes in fair value of investment properties, changes in fair value of financial derivatives, net fair value change on financial assets at FVTPL, waiver of other payables, net gain on repurchase of senior notes, net finance cost (excluding net exchange gains/losses), net exchange gains/losses, impairment loss on intangible assets, impairment loss on interest in an associate, impairment loss on goodwill, loss on derecognition of interest in an associate, provisions for expected credit loss, capitalized interest charged to cost of sales, income tax expense, depreciation of property, plant and equipment and right-of-use assets, amortization of intangible assets, amortization of land use rights, share-based payments and write down of completed properties held for sale, provisions for properties under development, write off of intangible assets, gain on disposal of financial assets at FVTPL, loss on disposal of investment properties, loss on disposal of deposits for land acquisitions and (gain)/loss on disposal of property, plant and equipment. EBITDA is not a standard measure under HKFRS. EBITDA is a widely used financial indicator of a company's ability to service and incur debt. EBITDA should not be considered in isolation or construed as an alternative to cash flows, net income or any other measure of financial performance or as an indicator of our operating performance, liquidity, profitability or cash flows generated by operating, investing or financing activities. In evaluating EBITDA, we believe that investors should consider, among other things, the components of EBITDA such as sales and operating expenses and the amount by which EBITDA exceeds capital expenditures and other charges. We have included EBITDA because we believe it is a useful supplement to cash flow data as a measure of our performance and our ability to generate cash flow from operations to cover debt service and taxes. EBITDA presented herein may not be comparable to similarly titled measures presented by other companies. Investors should not compare our EBITDA to EBITDA presented by other companies because not all companies use the same definition. See the section entitled "Management's Discussion and Analysis of Financial Condition and Results of Operations — Non-GAAP Financial Measures" for a reconciliation of our profit or loss for the year/period under HKFRS to our definition of EBITDA. Investors should also note that EBITDA as presented herein is calculated differently from Consolidated EBITDA as defined and used in the Indenture governing the Notes, in particular, EBITDA as presented herein does not exclude EBITDA of our Unrestricted Subsidiaries or EBITDA of our PRC subsidiaries, which cannot freely distribute dividends. Interest expense excludes amounts capitalized. See the sections entitled "Description of the Notes — Definitions" for a description of the manner in which Consolidated EBITDA is defined for purposes of the Indentures governing the Notes.

(2) EBITDA margin is calculated by dividing EBITDA by revenue.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with the section entitled "Selected Consolidated Financial and Other Data" and our consolidated financial statements, including the notes thereto, included elsewhere in this offering memorandum. All significant intra-group transactions, balances and unrealized gains on intra-group transactions have been eliminated.

Our consolidated financial statements were prepared in accordance with HKFRS, which differ in certain material respects from generally accepted accounting principles in other jurisdictions. In this section of the offering memorandum, references to "2017", "2018" and "2019" refer to our financial years ended December 31, 2017, 2018 and 2019, respectively.

Overview

We are a leading PRC property developer with a sizable and diversified land bank of approximately 26.8 million sq.m. GFA in 47 cities across six regions. According to China Real Estate Information Corporation and China Real Estate Appraisal Center, we were ranked 27th among Chinese property developers nationwide in terms of attributable contracted sales. We focus on mass market housing demand and are primarily engaged in the development of large-scale residential properties as well as integrated commercial properties.

Headquartered in Shenzhen, the Special Economic Zone adjacent to Hong Kong, we have historically focused our property development in the Pearl River Delta region. Our well-established position in the Pearl River Delta region is supported by our geographically diversified development portfolio, including projects in Shenzhen, Foshan, Guangzhou, Huizhou, Dongguan, Zhongshan, Zhuhai, Yangjiang and Qingyuan. Leveraging our success in the Pearl River Delta region, we have expanded into other areas in China, including Shanghai, Hangzhou, Taizhou, Suzhou, Zhangjiagang, Ningbo, Nanjing, Changzhou, Shaoxing, Jiaxing, Xuzhou, Hefei and Jiangyin in the Yangtze River Delta region, Chengdu, Chongqing, Pengzhou and Nanchong in the Western China region, Changsha, Hengyang, Wuhan, Ezhou, Xiaogan, Xinzheng, Xinxiang, Luoyang and Zhuzhou in the Central China region, and Shenyang, Yingkou, Benxi, Anshan, Liaoyang, Dalian, Dandong, Huludao, Bazhou, Gu'an and Qingdao in the Pan-Bohai Bay Rim.

As of December 31, 2019, we had a total of 176 property development projects, including completed properties, properties under development and properties for future development, in 47 cities in China. As of December 31, 2019, we had completed properties with a total GFA of approximately 27.3 million sq.m., and had a land bank with an estimated total GFA of approximately 26.8 million sq.m., including completed properties held for sale with a total GFA of approximately 2.5 million sq.m., properties under development with an estimated total GFA of approximately 13.9 million sq.m. and properties for future development with an estimated total GFA of approximately 10.4 million sq.m.

Our revenue was RMB32,779.3 million, RMB38,705.0 million and RMB48,021.7 million (US\$6,897.9 million), respectively, in 2017, 2018 and 2019. In 2017, 2018 and 2019, our revenue was primarily generated from sales of our developed properties, which amounted to approximately 95.2%, 93.2% and 91.3% of our revenue, respectively. Our remaining revenue in 2017, 2018 and 2019 included rental income, revenue from our property management services, revenue from hotel and catering operations, revenue from cinema, department store and cultural centre operations, revenue from water-way passenger and cargo transportation and revenue from other operations.

Key Factors Affecting Our Results of Operations

Our business, results of operations and financial condition have been, and we expect will continue to be, affected by a number of key factors and material risks, many of which are beyond our control. Please refer to the section entitled "Risk Factors." These factors and risks include the following:

Economic conditions, speed of urbanization and demand for residential and commercial properties in China, particularly in the Pearl River Delta region

Our business is heavily dependent on the performance of the real estate market in China, particularly in the Pearl River Delta region. The performance of the PRC real estate industry is subject to continued growth in the economy, the rate of urbanization and the resultant demand for properties in China. Recent world events and developments, such as Brexit and trade tensions between the United States and China, will continue to affect China's economy at the macro level. See "Risk factors — Risks relating to the Business — We may be adversely affected by fluctuations in the global economy and financial markets." The key factors that we consider to be important to our operations include (1) general economic development, including the global economy and the overall economic growth in China, (2) growth conditions in the private sector and (3) urban planning. Economic growth attributable to the private business sector has increased the general level of disposable income and the number of middle to upper-middle income households, which are our primary target customers. Developments in the economy and the rate of urbanization have in the past increased the supply of and demand for residential properties and affected pricing trends in the property sector in the cities and regions where we operate in China. We believe that these factors will continue to significantly affect our results of operations.

The slowdown of the worldwide economy from 2008 to early 2009, including that of China, resulted in the decline in real estate market sentiment, which adversely affected property demand and average selling prices in many areas of China. In 2010, a financial crisis emerged in Europe, creating concerns about the ability of certain European nations to continue to service their sovereign debt obligations. On August 6, 2011, S&P downgraded the rating for long-term United States debt to "AA+" from "AAA" for the first time in 70 years and on December 1, 2014, Moody's downgraded the debt rating of Japan to "A1" from "Aa3." These events, including the uncertainties surrounding Brexit, coupled with ongoing political unrest in the Middle East, Eastern Europe and Africa have resulted in an environment of macroeconomic uncertainty. More recently, the risk of a trade war between China and the United States has emerged which, together with the impact of the COVID-19 pandemic, have contributed to additional macroeconomic uncertainty and adding further downward pressure and negative sentiment to the global economy, including that of China and the United States. It is difficult to determine the impact that any global economic slowdown, financial crisis or trade war may have on the property industry in China. If any global economic slowdown, financial market crisis or trade war eventuates, continues or worsens, our business prospects, revenues, cash flows and financial condition could be materially and adversely affected.

The regulatory environment and measures affecting the real estate industry in China

Our business and results of operations have been, and will continue to be, affected by the regulatory environment in China, PRC governmental policies and measures taken by the PRC government on property development and related industries. In recent years, the PRC government has implemented a series of measures with a view to control the growth of the economy, including the real estate markets. While the real estate industry is regarded as a pillar industry by the PRC government, the PRC government has taken various restrictive measures to discourage speculation in the real estate market and to increase the supply of affordable residential properties. From time to time, the PRC government adjusts or introduces macroeconomic control policies to encourage or restrict development in the private property sector through regulating, among others, land grants, pre-sales of properties, bank financing and taxation. Measures taken by the PRC government to control money supply, credit availability and fixed assets also have a direct impact on our business and results of operations. The PRC government may introduce initiatives which may affect our access to capital and the means in which we may finance our property development. See "Regulations" for more details on the relevant PRC laws and regulations.

Ability to acquire suitable land at suitable prices

To have a steady stream of properties available for sale and to achieve continuous growth in the long term, we need to replenish and increase land reserves suitable for development. Based on our current development plans, we have sufficient land reserves for property developments for the next five years. We expect competition among property developers for land reserves that are suitable for property development to remain intense. In addition, PRC government policies and measures on land supply may further intensify competition for land in China among property developers. For example, although privately held land use rights are not prevented from being traded in the secondary market, the statutory means of public tender, auction and listing-for-sale practice in respect of the grant of state-owned land use rights is likely to increase competition for

available land and to increase land acquisition costs. Furthermore, in November 2009, the PRC government raised the minimum down-payment of land premium to 50% and required the land premium to be fully paid within one year after the signing of a land grant contract, subject to limited exceptions. In March 2010, the Ministry of Land and Resources promulgated a notice to strictly regulate the transfer of land for commercial buildings. According to the notice, the area of a parcel of land granted for commodity residential development should be strictly restricted in accordance with the catalog of restricted use of land and the minimum price of the land transfer should not be less than 70% of the benchmark price of the place where the land being transferred is located, and the real estate developer's bid deposit should not be less than 20% of the minimum transfer price. See "Regulations." These changes of policy may materially and adversely affect our cash flow and our ability to acquire suitable land for our operations.

Land and construction costs

Our results of operations are affected by key components of our cost of sales, such as land costs and construction costs. In 2017, 2018 and 2019, our land costs recognized in cost of sales were RMB7,186.1 million, RMB12,330.4 million and RMB13,198.7 million (US\$1,895.9 million), respectively, and our land cost as a percentage of our property sales revenue was approximately 23.0%, 34.2% and 30.1%, respectively. Land premiums have generally been increasing over the past 10 years in China. We believe that land premiums will continue to rise as the PRC economy continues to develop. Another key component of our cost of sales is construction costs, which are susceptible to the price volatility of construction materials such as steel and cement.

Access to and cost of financing

Borrowing is an important source of funding for our property developments. As of December 31, 2017, 2018 and 2019, our outstanding borrowings amounted to RMB111,173.2 million, RMB108,766.0 million and RMB117,195.6 million (US\$16,834.1 million), respectively. The effective interest rates on our bank borrowings included in non-current liabilities as of December 31, 2017, 2018 and 2019 were approximately 6.9%, 7.3% and 7.0%, respectively. The effective interest rates on our bank borrowings included in current liabilities 6.4%, 7.2% and 6.6% as of December 31, 2017, 2018 and 2019, respectively. As commercial banks in China link the interest rates on their bank loans to benchmark lending rates published by the PBOC, any increase in such benchmark lending rates will increase the interest costs for our developments. Our ability and flexibility to use bank loans to finance our property projects are also affected by the measures taken by the PRC government from time to time to restrain money supply and credit availability for fixed asset investments, particularly with respect to the property development sector. In addition to bank borrowings, we have also accessed capital markets for our financing requirements. See "Description of Material Indebtedness and Other Obligations." An increase in our finance costs would negatively affect our profitability and results of operations and the availability of financing will affect our ability to engage in our project development activities, which will negatively affect our results of operations.

Pre-sale and progress of property development

Pre-sales constitute the most important source of our operating cash inflow during our project development. PRC law allows us to pre-sell properties before their completion upon obtaining the pre-sale permit from the relevant governmental authorities and requires us to use the pre-sale proceeds to develop the relevant pre-sale property projects. However, we do not recognize revenue from the pre-sale of a property until the property has been delivered to the purchaser. We record the proceeds received from the pre-sold properties as contract liabilities (or "advance proceeds received from customers and deposits received" prior to January 1, 2018 on which date HKFRS 9 and HKFRS 15 became effective), an item of current liabilities on our consolidated statement of financial position and as a part of cash inflows from operating activities on our consolidated cash flow statements. Our advance proceeds received from customers and deposits received as of December 31, 2017 and contract liabilities as of December 31, 2018 and 2019 amounted to RMB29,564.9 million, RMB39,154.1 million and RMB39,388.7 million (US\$5,657.8 million), respectively, demonstrating a steady growth of our property development business, which was driven by the increasing demand in housing in regions where we operate with net population inflow and strong economic development such as the Pearl River Delta Region.

The progress of property development may affect our ability to deliver properties to our customers within the specified time limit and in turn affect the amount and timing of cash inflows from pre-sales. In addition, reduced cash inflow from pre-sales of our properties will increase our reliance on external financing and will impact our ability to finance our continuing property developments.

LAT

We are subject to LAT with respect to the appreciated value of land. LAT applies to both domestic and foreign developers and investors in real properties in China, irrespective of whether they are corporate entities or individuals. In 2017, 2018 and 2019, we made LAT prepayments of RMB567.6 million, RMB849.8 million and RMB714.9 million (US\$102.7 million), respectively and LAT provisions of RMB1,611.4 million, RMB2,505.5 million and RMB2,559.9 million (US\$367.7 million), respectively. We prepay LAT on the basis of our pre-sale proceeds in accordance with requirements of PRC tax authorities and provide for unpaid LAT liabilities based on our best estimate according to our understanding of prevailing tax rules. Actual LAT liabilities are, however, subject to determination by the tax authorities upon completion of the property development projects and, because the PRC government has not published clear and comprehensive guidelines in this regard, the tax authorities may disagree that our provisions are sufficient to cover all actual LAT obligations as of each balance sheet date in respect of our past LAT liabilities. See “Regulations.”

Fair Value of Investment Properties

We hold investment properties for rental income or capital appreciation. We consider the estimated long-term growth potential, overall market conditions and our cash flows and financial condition when we decide whether to sell or hold our completed properties for long-term investment purposes. Going forward, we intend to continue to consider the above factors in deciding whether to sell or lease our completed properties and we expect to increase our investment property portfolio over time. In accordance with HKFRS, gains or losses (as applicable) arising from changes in the fair value of our investment properties should be accounted for in our consolidated profit or loss, which may have a substantial effect on our profits. Total GFA of completed investment properties we held for rental income was 563,919 sq.m., 607,815 sq.m. and 535,891 sq.m. as of December 31, 2017, 2018 and 2019, respectively. Our investment properties were revalued by an independent property valuer as of December 31, 2017, 2018 and 2019, respectively, using the income capitalization approach and direct comparison method, as applicable, which reflected market conditions at those dates. The fair value of our investment properties may have been higher or lower had the valuer used a different set of bases or assumptions, or had the valuation been conducted by other qualified independent professional valuers using a different set of bases and assumptions. In addition, upward revaluation adjustments reflect unrealized capital gains on our investment properties as of the relevant reporting dates and do not generate any cash inflow for our operations or potential dividend distribution to our shareholders. The amount of revaluation adjustments has been, and will continue to be, subject to market fluctuations. If similar levels of fair value gains cannot be sustained in the future, our results of operations can be adversely impacted. See “Risk Factors — Risks Relating To the Business — The fair value of our investment properties is likely to fluctuate from time to time and may decrease significantly in the future, which may materially and adversely impact our profitability.”

Critical Accounting Policies

The preparation of our consolidated financial statements in conformity with HKFRS requires the use of certain critical accounting estimates. It also requires our management to exercise its judgment in the process of applying our accounting policies. Therefore, the consolidated financial statements included in this offering memorandum may not necessarily reflect our results of operations, financial position and cash flows in the future or what they would have been had we been a separate, stand-alone entity during the periods presented.

Critical accounting policies are those accounting policies that are reflective of significant judgments and uncertainties and that potentially yield materially different results under different assumptions and conditions.

When reviewing our consolidated financial statements, you should consider (i) our selection of critical accounting policies, (ii) the judgment and other uncertainties affecting the application of such policies, and (iii) the sensitivity of reported results to changes in conditions and assumptions.

We believe the following accounting policies involve the most significant judgment and estimates used in the preparation of our consolidated financial information. In addition, we discuss our revenue recognition policy below because of its significance, even though it does not involve significant estimates or judgments.

Revenue recognition

Revenue is shown after eliminating sales with the companies comprising our Group. Revenue is recognized when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the Group and specific criteria have been met for each of the activities as described below.

As of January 1, 2018, we adopted HKFRS 9, HKFRS 15 and other amended standards that are effective from the financial period beginning from January 1, 2018 and relevant to the our operation. According to HKFRS 15, the recognition of the revenue is replaced by the activities as described below:

Revenue from sale of properties

Prior to January 1, 2018, revenue was measured based on the consideration specified in a contract with a customer and recognized to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which we expect to be entitled in exchange for those goods or services. For property development and sales contracts for which the control of the property is transferred at a point in time, revenue was recognized when the customer obtains the control of the completed property and we have present right to payment and the collection of the consideration is probable.

After January 1, 2018, revenue is recognized when or as the control of the asset is transferred to the customer. Depending on the terms of the contract and the law that apply to the contract, control of the asset may be transferred over time or at a point in time. Control of the asset is transferred over time if our performance:

- provides all of the benefits received and consumed simultaneously by the customer;
- creates and enhances an asset that the customer controls as we perform; or
- does not create an asset with an alternative use to us and we have an enforceable right to payment for performance completed to date.

If control of the asset transfers over time, revenue is recognized over the period of the contract by reference to the progress towards complete satisfaction of that performance obligation. Otherwise, revenue is recognized at a point in time when the customer obtains control of the asset.

For properties that have no alternative use to us due to contractual reasons and when we have an enforceable right to payment from the customers for performance completed to date, we recognize revenue as the performance obligation is satisfied over time in accordance with the input method for measuring progress, i.e. the costs incurred up to date compared with the total budgeted costs, which depict our performance towards satisfying the performance obligation.

For property sales contract for which the control of the property is transferred at a point in time, revenue is recognized when the customer obtains the physical possession or the legal title of the completed property and we have present right to payment and the collection of the consideration is probable.

For contract where the period between the payment by the customer and the transfer of the promised property or service exceeds one year, the transaction price is adjusted for the effects of a significant financing component.

Deposits and instalments received from purchasers prior to delivery of the properties to the customers are contract liabilities.

Rental income

Rental income from properties leasing under operating leases is recognised on a straight-line basis over the lease terms.

Hotel operation income

Revenue from hotel operation is recognised in the accounting period in which the services are rendered.

Property management

Revenue arising from property management is recognized in the accounting period in which the services are rendered. We bill a fixed amount for each month of service provided and recognise as revenue in the amount to which we have a right to invoice and corresponds directly with the value of performance completed.

For property management services income from properties managed under lump sum basis, where we act as principal and is primary responsible for providing the property management services to the property owners, we recognize the fee received or receivable from property owners as its revenue and all related property management costs as its cost of service. For property management services income from properties managed under commission basis, we recognize the commission, which is calculated by certain percentage of the total property management fee received or receivable from the property units, as its revenue for arranging and monitoring the services as provided by other suppliers to the property owners.

If contracts involve the sale of multiple services, the transaction price will be allocated to each performance obligation based on their relative stand-alone selling prices. If the stand-alone selling prices are not directly observable, they are estimated based on expected cost plus a margin or adjusted market assessment approach, depending on the availability of observable information.

Pre-delivery and consulting services to non-property owners mainly includes fees for construction sites management, display units and property sales venues management and consulting services to property developers at the pre-delivery stage, and property management consulting services provided to other property management companies which are billed based on actual level of services provided at pre-determined price and revenue is recognised when such services are provided.

Catering income

Revenue from restaurant operations is recognized when food, beverages and services are delivered to or rendered to and have been accepted by customers.

Hire income from charter

Hire income from time charter is accounted for as operating lease and is recognized on a straight-line basis over the period of each time charter contract.

Passenger transportation agency service

Revenue from passenger transportation agency service are recognized based on net agencies fee upon departure of ferries at terminals.

Sales of goods

We manufacture and sell a range of consumer products, including dental prosthetics. Revenue from sales of goods are recognized when the products have been delivered to and accepted by customers.

Interest income

Interest income is recognized on a time-proportion basis using the effective interest method.

Fair value of investment properties

An investment property is measured initially at its cost, including related transaction costs and where applicable borrowing costs. After initial recognition, investment properties are carried at fair value, representing open market value determined at each reporting date by external valuers. Fair value is based on active market prices, adjusted, if necessary, for any difference in the nature, location or condition of the specific asset. If this information is not available, we use alternative valuation methods such as recent prices on less active markets or discounted cash flow projections. Subsequent expenditure is charged to the asset's carrying amount only when it is probable that future economic benefits associated with the item will flow to us and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed in profit or loss during the financial period in which they are incurred.

Properties under development

For accounting purposes, properties under development include properties for which we have obtained the relevant land use rights certificates. Properties under development are stated at the

lower of cost and net realizable value. Net realizable value is determined by reference to the sale proceeds of properties sold in the ordinary course of business, less applicable variable selling expenses and the anticipated costs to completion, or by management estimates based on marketing conditions. Development cost of properties comprises construction costs, land use rights in relation to properties under development for subsequent sale, borrowing costs on qualifying assets and professional fees incurred during the development period. The assessment of carrying amount of properties under development requires the use of our judgment and estimates. We will make provision to revise these estimates when events or changes in circumstances indicate that the carrying amounts may not be realized.

Completed properties held for sale

Completed properties remaining unsold as of December 31, 2017, 2018 and 2019 are included in current assets and are measured at the lower of cost and net realizable value. Cost comprises development costs attributable to the unsold properties and borrowing costs. Net realizable value is determined by reference to the sale proceeds of properties sold in the ordinary course of business, less applicable variable selling expenses, or by management estimates based on prevailing marketing conditions. The assessment of the carrying amount of completed properties for sale requires the use of our judgment and estimates. We will make provision to revise these estimates when events or changes in circumstances indicate that the carrying amounts may not be realized.

Prepayments for proposed development projects and deposits for land acquisition

We assess the carrying amounts of deposits for land acquisitions and prepayments for proposed development projects according to their recoverable amounts, taking into account estimated net sales value based on prevailing market conditions. Provision is made when events or changes in circumstances indicate that the carrying amounts may not be realized. The assessment requires the use of judgment and estimates.

Borrowings and borrowing costs

Borrowings are initially recognized at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortized cost using the effective interest method. Borrowings are classified as current liabilities unless there is an unconditional right to defer settlement of the liability for at least 12 months after the respective reporting date.

General and specific borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization. Other borrowing costs are recognized as an expense in the period which they are incurred.

Income taxes, withholding taxes and deferred taxation

Significant judgment is required in determining the provision for income taxes and withholding taxes. There are many transactions and calculations for which the ultimate determination is uncertain during the ordinary course of business. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such difference will impact the income tax, withholding tax and deferred tax provision in the period when such determination is made.

Deferred income tax is recognized, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction which is not a business combination and, at the time of the transaction, affects neither accounting nor taxable profit or loss. Deferred income tax is determined using the tax rates (and laws) that have been enacted or substantively enacted by the reporting date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred income tax liabilities have not been established for income tax and withholding tax that would be payable on certain profits of PRC subsidiaries to be repatriated and distributed by way of dividends as the directors consider that the timing of the reversal of the related temporary differences can be controlled and such temporary differences will not be reversed in the foreseeable future.

Deferred income tax assets relating to certain temporary differences and tax losses are recognized when management considers to be probable that future taxable profit will be available against which the temporary differences or tax losses can be utilised. The outcome of their actual utilization may be different.

LAT

Our property developments are subject to LAT. LAT is levied at progressive rates ranging from 30% to 60% on the appreciation of land value, being the proceeds of sales of properties less deductible expenditures including lease charges of land use rights and all property development expenditures, which is included in the consolidated statements of comprehensive income as cost of sales. We make LAT provisions based on our calculation in accordance with relevant government regulations. The tax bureaus in general have not strictly enforced the LAT regulations, and many localities have not published settlement rules. Accordingly, significant judgment is required in determining the amount of LAT. We recognize LAT based on our management's best estimates according to our understanding of the tax rules. The final tax outcome could be different from the amounts that were initially recorded, and these differences will impact the income tax provision in the periods in which such taxes have been finalized with local tax authorities. See “— Key Factors Affecting Our Results of Operations — LAT” and the section entitled “Risk Factors — Risks Relating to the Businesses — Our LAT provisions and prepayments may not be sufficient to meet our LAT obligations.”

Certain Profit or Loss Items

Revenue

Revenue primarily comprises the fair value of the consideration received or receivable for the sales of properties, including completed properties held for sale and properties under development, and provision of services in the ordinary course of business. We generally recognize our revenue from sales of properties after the properties have been sold and delivered to the purchasers. We pre-sell our properties under development in accordance with PRC pre-sale regulations. In respect of pre-sales of completed properties held for sale, we do not recognize the proceeds from pre-sales until we have completed the construction of these properties and delivered the properties to the purchasers. Typically there is a time gap ranging from one to two years between the time we commence pre-sale of the properties under development and the delivery of the properties. We record the proceeds received from the pre-sold properties as contract liabilities (or “advance proceeds received from customers and deposits received” prior to January 1, 2018 on which date HKFRS 9 and HKFRS 15 became effective), an item of current liabilities on our consolidated statement of financial position and as a part of cash inflows from operating activities on our consolidated cash flow statements. We generate a small portion of revenue from the rental income derived from our investment properties, property management services, hotel and catering operations, cinema, department store and cultural center operations and other operations.

In 2017, 2018 and 2019, we derived most of our revenue from sales of properties we developed. The following table sets out our revenue in each business segment and the percentage of revenue represented by each segment for the periods indicated.

	For the year ended December 31,

Cost of sales

Cost of sales comprises primarily land costs, construction costs, capitalized borrowing costs, business taxes and other direct costs related to property development, property investment and property management. The table below sets forth breakdowns by these categories of our cost of sales for the periods indicated.

	For the year ended December 31,			
	2017	2018	2019	
	(RMB in millions)	(RMB in millions)	(RMB in millions)	(US\$ in millions) (unaudited)
Land costs	7,186.1	12,330.4	13,198.7	1,895.9

Total cost of sales	<u>23,845.1</u>	<u>27,576.2</u>	<u>34,191.6</u>	<u>4,911.3</u>

Land costs. Land costs represent costs relating to the acquisition of the rights to occupy, use and develop land, including land premiums, deed taxes and government surcharges and demolition and resettlement cost. The land costs are recognized as part of cost of sales upon the completion and delivery of relevant properties to the purchasers. In 2017, 2018 and 2019, our GFA delivered was 2,241,286 sq.m., 2,096,568 sq.m., and 2,547,961 sq.m. respectively, and our average land costs per sq.m. of GFA were approximately RMB3,206.2, RMB5,881.2 and RMB5,180.1 (US\$744.1), respectively, as measured by dividing the aggregate land costs recognized as cost of sales in our consolidated statements of comprehensive income by the aggregate saleable GFA of properties delivered within these periods. Our average land costs per sq.m. of GFA increased by 83.4% from 2017 to 2018 and decreased by 10.7% from 2018 to 2019.

Construction costs. Construction costs represent costs for the design and construction of a property project, consisting primarily of fees paid to our contractors, including contractors responsible for civil engineering construction, landscaping, equipment installation and interior decoration, as well as infrastructure construction costs, design costs and certain government surcharges. The construction costs are recognized as part of cost of sales upon the completion and delivery of relevant properties to the purchasers. Our construction costs are affected by a number of factors such as price movements for construction materials, location and types of properties, choices of materials and investments in ancillary facilities. In 2017, 2018 and 2019, our construction costs were RMB10,785.3 million and RMB9,388.1 million and RMB13,067.4 million (US\$1,877.0 million), respectively.

Capitalized borrowing costs. Capitalized borrowing costs are general and specific borrowing costs directly attributable to the acquisition, constructions or production of our property development projects that are released to profit or loss as part of the cost of sales when the properties are sold.

Business taxes. Revenues from property development and property investment are subject to business taxes of 5%, and revenue from property management is also subject to business taxes of 5%. In March 2016, the Ministry of Finance and State Administration of Taxation jointly issued the Circular on Comprehensively Promoting the Pilot Program of the Collection of Value-added Tax in Lieu of Business Tax (《關於全面推開營業稅改徵增值稅試點的通知》), pursuant to which we are subject to value-added tax instead of business tax since May 2016.

Other gains and losses — net

Net other gains and losses primarily consist of write-down of completed properties held for sale and properties under development net of government subsidy income and gain on disposal of available-for-sale financial assets.

Selling and marketing costs

Selling and marketing costs include advertising expenses, sales and agency commissions and other expenses relating to sales and promotion of our properties.

Administrative expenses

Administrative expenses comprise primarily staff costs, office expenses, directors' emoluments, depreciation, legal and professional fees, travel expenses and donations.

Fair value gain on investment properties

We hold certain properties for rental income or capital appreciation. Changes in fair values of investment properties are recognized in the consolidated profit or loss in the year such changes arise. The fair values of our investment properties as of December 31, 2017, 2018 and 2019 were determined by independent property valuers. The amounts of revaluation adjustments have been, and may continue to be, significantly affected by the prevailing property markets. See “— Critical Accounting Policies — Fair Value of Investment Properties.”

Fair value loss on financial derivatives

Pursuant to our Debt Restructuring, we issued CVRs and Mandatorily Exchangeable Bonds on July 21, 2016. See “Description of Material Indebtedness and Other Obligations Debt Restructuring.” The CVRs and the derivative component of the Mandatorily Exchange Bonds are measured at fair value at each reporting date. The decrease in fair value of financial derivatives of approximately RMB21.5 million in 2016 was primarily attributable to the increase in fair value of the derivative component of the Mandatorily Exchangeable Bonds.

Finance income

Finance income comprises interest income on bank deposits.

Finance costs

Finance costs comprise primarily interest expenses on bank borrowings and other borrowings, net of capitalized borrowing costs. Since the construction period for a project does not necessarily coincide with the interest payment period of the relevant loan, not all of the interest costs related to a project can be capitalized. As a result, our finance costs fluctuate from period to period.

Income tax expenses

Income tax expenses represent PRC enterprise income tax payable, deferred income tax and LAT payable by our subsidiaries. The following table sets forth our tax provision for the periods indicated:

	For the year ended December 31,			
	2017	2018	2019	
	(RMB in thousands)	(RMB in thousands)	(RMB in thousands)	(US\$ in thousands) (unaudited)
Current income tax				
— PRC enterprise income tax	1,919,823	2,687,318	2,466,161	354,242
— PRC LAT	1,611,358	2,505,458	2,559,899	367,707
Deferred income tax	91,398	(715,147)	277,535	39,865
Total income tax expenses	<u>3,622,579</u>	<u>4,477,629</u>	<u>5,303,595</u>	<u>761,814</u>

In 2017, 2018 and 2019, we recognized enterprise income tax (including deferred income tax) of RMB2,011.2 million, RMB1,972.2 million and RMB2,743.7 million (US\$394.1 million), respectively. The fluctuations in our enterprise income taxes during 2017, 2018 and 2019 were primarily attributable to the fluctuations in profit before income tax.

No Hong Kong profits tax was provided in 2017, 2018 and 2019 as we had no assessable profits for those periods. The Company is incorporated in the Cayman Islands as an exempted company with limited liability under the Companies Law (Revised) of Cayman Islands and, accordingly, is exempt from payment of income tax as there are no laws enacted in the Cayman Islands which impose any tax to be levied on profits, income, gains or appreciations.

Under the PRC tax laws effective prior to January 1, 2008, dividends paid by our PRC subsidiaries to us were exempt from PRC income tax. However, pursuant to the Enterprise Income Tax Law and its implementation rules that became effective on January 1, 2008, dividends payable by foreign-invested enterprises, such as subsidiaries and joint ventures in China, to their foreign investors are subject to a withholding tax at a rate of 10% unless such foreign investors'

jurisdiction of incorporation has a tax treaty with the PRC that provides for a different withholding tax arrangement. See “Regulations.”

Results of Operations

2019 Compared to 2018

Revenue. Our revenue increased by 24.1% to approximately RMB48,021.7 million (US\$6,897.9 million) in 2018 from approximately RMB38,705.0 million in 2018, mainly attributable to an increase in sales of properties.

Sales of properties. Our revenue from sales of properties increased by approximately RMB7,768.0 million, or 21.5%, to approximately RMB43,848.6 million (US\$6,298.5 million) in 2019 from approximately RMB36,080.6 million in 2018. The increase was primarily attributable to an increase in the total delivered GFA from approximately 2,096,568 sq.m. in 2018 to approximately 2,547,961 sq.m. in 2019.

Rental income. Our rental income increased by approximately RMB177.1 million, or 63.6%, to approximately RMB455.7 million (US\$65.5 million) in 2019 from approximately RMB278.6 million in 2018. The increase was primarily attributable to an increase in the total GFA delivered and rented in 2019.

Property management services. Our revenue from property management services increased by approximately RMB396.1 million, or 76.7%, to approximately RMB912.3 million (US\$131.0 million) in 2019 from approximately RMB516.2 million in 2018. This increase was primarily attributable to the increased GFA under property management.

Hotel and catering operations. Our revenue from hotel and catering operations increased by approximately RMB27.0 million, or 10.8% to approximately RMB276.9 million (US\$39.8 million) in 2019 from approximately RMB249.9 million in 2018. The increase was primarily attributable to the business expansion in this segment.

Cinema, department store and cultural center operations. Our revenue from cinema, department store and cultural center operations increased by approximately RMB173.3 million, or 35.3%, to approximately RMB664.4 million (US\$95.4 million) in 2019 from approximately RMB491.1 million in 2018. The increase was primarily attributable to the business expansion in this segment.

Water-way passenger and cargo transportation. Our revenue from water-way passenger and cargo transportation increased by approximately RMB59.2 million, or 7.3%, to approximately RMB869.8 million (US\$124.9 million) in 2019 from approximately RMB810.6 million in 2018. The increase was primarily attributable to the business expansion in this segment.

Cost of sales. Our cost of sales increased by approximately RMB6,615.4 million, or 24.0%, to approximately RMB34,191.6 million (US\$4,911.3 million). The increase was in line with the increase in revenue.

Gross profit. As a result of the above, our gross profit increased by approximately RMB2,701.3 million, or 24.3%, to approximately RMB13,830.1 million (US\$1,986.6 million) in 2019 from approximately RMB11,128.8 million in 2018. Our gross profit margin remained unchanged in 2019 at 28.8%.

Other losses, net. We had net other losses of approximately RMB677.8 million (US\$97.4 million) in 2019, as compared to net other losses of approximately RMB638.7 million in 2018. Our net other losses in 2018 mainly comprised provision for expected credit loss of approximately RMB478.1 million (US\$68.7 million), loss on disposal of investment properties of approximately RMB193.8 million (US\$27.8 million), impairment loss on intangible assets of approximately RMB473.4 million (US\$68.0 million) and write-down of completed properties held for sale and properties under development of approximately RMB367.7 million (US\$52.8 million), written off of debtors and other receivables of approximately RMB275.3 million (US\$39.5 million), loss on derecognition of interest in an associate of approximately RMB252.0 million (US\$36.2 million) and offset by net fair value gain on financial assets at fair value through profit or loss of approximately RMB1,380.9 million (US\$198.4 million), and government subsidy income of approximately RMB83.2 million (US\$12.0 million), and net gain on repurchase of senior notes of approximately RMB178.4 million (US\$25.6 million).

Selling and marketing costs. Our selling and marketing costs increased by approximately RMB733.7 million, or 58.1%, to approximately RMB1,996.2 million (US\$286.7 million) in 2019

from approximately RMB1,262.5 million in 2018. The increase in selling and marketing costs was in line with the increase in the contracted sales for the year ended 31 December 2019.

Administrative expenses. Our administrative expenses increased by approximately RMB749.7 million, or 28.8%, to approximately RMB3,350.8 million (US\$481.3 million) in 2019 from approximately RMB2,601.1 million in 2018. The increase was mainly due to increase in legal and professional fees, donations and amortisation of intangible assets.

Fair value gain on investment properties. The net fair value gain of our investment properties decreased by approximately RMB34.0 million, or 16.0%, to approximately RMB178.4 million (US\$25.6 million) in 2019 from approximately RMB212.4 million in 2018. The decrease was mainly due to disposal of certain investment properties during the year ended 31 December 2019.

Finance costs, net. Our net finance costs decreased by approximately RMB1,135.8 million or 52.3%, to approximately RMB1,035.0 million (US\$148.7million) in 2019 from approximately RMB2,170.8 million in 2018. The decrease was mainly due to a decrease in exchange loss arised from the U.S. dollar denominated offshore financing as a result of the less depreciation of Renminbi against the U.S. dollar in 2019 as compared with 2018.

Income tax expense. Our income tax expenses increased by approximately RMB826.0 million, or approximately 18.4%, to approximately RMB5,303.6 million (US\$761.8 million) in 2019 from approximately RMB4,477.6 million in 2018. The increase was primarily attributable to the increase in operating profit in 2019.

Profit for the year. As a result of the foregoing, our profit for the year increased by RMB869.7 million, or approximately 26.4%, to approximately RMB4,164.0 million (US\$598.1 million) in 2019 from RMB3,294.3 million in 2017.

2018 Compared to 2017

Revenue. Our revenue increased by 18.1% to approximately RMB38,705.0 million in 2018 from approximately RMB32,779.3 million in 2017, mainly attributable to an increase in sales of properties.

Sales of properties. Our revenue from sales of properties increased by approximately RMB4,874.5 million, or 15.6%, to approximately RMB36,080.6 million in 2018 from approximately RMB31,206.1 million in 2017. The increase was primarily attributable to an increase in the average selling price per sq. m. from approximately RMB13,923 in 2017 to approximately RMB17,209 in 2018 partially offset by a decrease in the total delivered GFA from approximately 2,241,286 sq. m. in 2017 to approximately 2,096,568 sq. m. in 2018. The increase in the average selling price was primarily due to the increase in the selling price of our properties in the Pearl River Delta region. The decrease in the total GFA delivered was mainly as result of the blockage of the pre-sale of our properties by Shenzhen Urban Planning and Land and Resources Commission during the period from December 2014 to July 2016. See “Risk Factors — Risks Relating to the Business — We experienced net cash outflows from operating activities in the past and maintain a significant amount of indebtedness, which may materially and adversely affect our liquidity and our ability to service our indebtedness.”

Rental income. Our rental income increased by approximately RMB29.0 million, or 11.6%, to approximately RMB278.6 million in 2018 from approximately RMB249.6 million in 2017. The increase was primarily attributable to an increase in the total GFA delivered and rented in 2018.

Property management services. Our revenue from property management services increased by approximately RMB200.3 million, or 63.4%, to approximately RMB516.2 million in 2018 from approximately RMB315.9 million in 2017. This increase was primarily attributable to the increased GFA under property management. Such increased GFA under management was mainly due to properties for management delivered by us to, as well as property management contracts obtained from third parties by, Kaisa Prosperity Holdings Limited in 2018.

Hotel and catering operations. Our revenue from hotel and catering operations increased by approximately RMB87.3 million, or 53.7% to approximately RMB249.9 million in 2018 from approximately RMB162.6 million in 2017. This increase was mainly attributable to the commencement of operation of new hotels towards the end of 2017.

Cinema, department store and cultural center operations. Our revenue from cinema, department store and cultural center operations increased by approximately RMB255.6 million, or 108.4%, to approximately RMB491.1 million in 2018 from approximately RMB235.5 million in

2017. The increase was primarily attributable to increased revenue generated from full operation of certain of our sports facilities as well as certain major sports events we hosted.

Water-way passenger and cargo transportation. Our revenue from water-way passenger and cargo transportation increased by approximately RMB274.1 million, or 51.1%, to approximately RMB810.6 million in 2018 from approximately RMB536.5 million in 2017. The increase was primarily attributable to an increase in revenue generated from our cargo transportation business due to our enhanced marketing and sales efforts.

Cost of sales. Our cost of sales increased by approximately RMB3,731.1 million, or 15.6%, to approximately RMB27,576.2 million, primarily due to the increase in unit cost as the properties sold and delivered in 2018 were mainly located in the first and second-tier cities as result of increased cost to acquire land and increased cost of financing.

Gross profit. As a result of the above, our gross profit increased by approximately RMB2,194.6 million, or 24.6%, to approximately RMB11,128.8 million in 2018 from approximately RMB8,934.2 million in 2017. Our gross profit margin increased to 28.8% in 2018 from 27.3% in 2017. The increase in gross profit margin was primarily attributable to a higher level of selling price attained in general for the properties completed and delivered to the purchasers in 2018, in particular the increase in the selling price of our properties in the Pearl River Delta region.

Other losses, net. We had net other losses of approximately RMB638.7 million in 2018, as compared to net other losses of approximately RMB123.5 million in 2017. Our net other losses in 2018 mainly comprised provision for expected credit loss of approximately RMB529.3 million, net fair value loss on financial assets at fair value through profit or loss of approximately RMB271.3 million, impairment loss on interest in an associate of approximately RMB658.7 million and write-down of completed properties held for sale and properties under development of approximately RMB220.2 million, offset by government subsidy income of approximately RMB438.6 million, waiver of other payables of approximately RMB406.3 million and net gain on repurchase of senior notes of approximately RMB142.7 million.

Selling and marketing costs. Our selling and marketing costs increased by approximately RMB366.5 million, or 40.9%, to approximately RMB1,262.5 million in 2018 from approximately RMB896.0 million in 2017. The increase in selling and marketing costs was in line with the increase in our contracted sales in 2018.

Administrative expenses. Our administrative expenses increased by approximately RMB99.9 million, or 4.0%, to approximately RMB2,601.1 million in 2018 from approximately RMB2,501.2 million in 2017.

Fair value gain on investment properties. Our fair value gain on investment properties was approximately RMB212.4 million in 2018 and approximately RMB2,088.8 million in 2017. In 2017, more properties were transferred to investment properties and significant increase in fair value was resulted, while there was less properties were transferred to investment properties during the year and led to the decrease in our fair value gain on investment properties in 2018.

Finance costs, net. We recorded net finance costs of approximately RMB2,170.8 million in 2018, compared to net finance income of approximately RMB247.8 million in 2017. The change was mainly due to the net exchange losses of approximately RMB1,524.3 million in 2018 whereas the net exchange gains of approximately of RMB1,300.3 million was recorded in 2017. The net exchange losses/gains was mainly attributable to the U.S. dollar denominated offshore financing as a result of the depreciation/appreciation of Renminbi against the U.S. dollar.

Income tax expense. Our income tax expenses increased by approximately RMB855.0 million, or approximately 23.6%, to approximately RMB4,477.6 million in 2018 from approximately RMB3,622.6 million in 2017. The increase was primarily attributable to the increase in operating profit in 2018.

Profit for the year. As a result of the foregoing, our profit for the year increased by approximately RMB250.5 million, or approximately 8.2%, to approximately RMB3,294.3 million in 2018 from RMB3,043.8 million in 2017.

Liquidity and Capital Resources

We believe our current liquidity and capital resources are sufficient to meet anticipated working capital needs, interest expenses, commitments, capital expenditures, and investment activities over the next twelve months.

The following table presents selected cash flow data from our consolidated cash flow statements for the periods indicated:

	For the year ended December 31,

Operating activities

In 2019, our net cash used in operating activities of RMB2,063.5 million (US\$296.4 million) was attributable to cash generated from operations of RMB9,362.3 million (US\$1,344.8 million), partially offset by income tax paid of RMB1,784.2 million (US\$256.3 million) and interest paid of RMB9,641.5 million (US\$1,384.9 million). We recorded cash generated from operations before changes in working capital of RMB9,382.6 million (US\$1,347.7 million), primarily attributable to profit for the year of RMB4,164.0 million (US\$958.1 million), as adjusted by income tax expenses of RMB5,303.6 million (US\$761.8 million) and net exchange losses of RMB785.4 million (US\$112.8 million), partially offset by net gain on deemed disposals of subsidiaries of RMB2,460.6 million (US\$353.4 million) and net gain on disposals of subsidiaries of RMB245.6 million (US\$35.3 million). Changes in working capital contributed to a net cash outflow of RMB20.3 million (US\$2.9 million) consisting primarily of other payables of RMB18,593.6 million (US\$2,670.8 million), accrued construction costs of RMB4,676.6 (US\$671.8 million), and properties under development and completed properties held for sale RMB4,510.4 million (US\$647.9 million), partially offset by contract liabilities of RMB3,157.2 million (US\$453.5 million), debtors, deposits and other receivables of RMB14,046.3 million (US\$2,017.6 million) and prepayments for proposed development projects of RMB8,017.9 million (US\$1,151.7 million).

In 2018, our net cash generated from operating activities of RMB10,599.2 million was attributable to cash generated from operations of RMB24,650.9 million, partially offset by income tax paid of RMB3,190.1 million and interest paid of RMB10,861.6 million. We recorded cash generated from operations before changes in working capital of RMB8,416.6 million, primarily attributable to profit for the year of RMB3,294.3 million, as adjusted by income tax expenses of RMB4,477.6 million and net exchange losses of RMB1,524.3 million, partially offset by net gain on deemed disposals of subsidiaries of RMB2,912.6 million. Changes in working capital contributed to a net cash inflow of RMB16,234.3 million consisting primarily of contract liabilities of RMB15,511.6 million, other payables of RMB3,196.0 million and deposits for land acquisition of RMB1,977.5 million, partially offset by debtors, deposits and other receivables of RMB3,371.6 million and prepayments for proposed development projects of RMB1,981.4 million.

In 2017, our net cash used in operating activities of RMB3,431.2 million was attributable to cash generated from operations of RMB6,666.2 million, partially offset by income tax paid of RMB1,971.4 million and interest paid of RMB8,126.0 million. We recorded cash generated from operations before changes in working capital of RMB5,749.4 million, primarily attributable to profit for the year of RMB3,043.8 million, as adjusted by income tax expenses of RMB3,622.6 million and interest expense of RMB1,238.3 million, partially offset by fair value gain of investment properties of RMB2,088.8 million and net exchange losses of RMB1,300.3 million. Changes in working capital contributed to a net cash inflow of RMB916.8 million consisting primarily of accrued construction costs of RMB4,753.4 million, properties under development and completed properties held for sale of RMB4,045.1 million and advance proceeds received from customers and deposits received of RMB1,534.4 million, partially offset by other payables of RMB4,014.8 million, debtors, deposits and other receivables of RMB3,620.6 million and deposits for land acquisition for RMB2,033.4 million.

Investing activities

In 2019, our net cash used in investing activities of RMB24,646.1 million (US\$3,540.2 million) was primarily attributable to acquisitions of associates and increase in amounts due from joint ventures.

In 2018, our net cash used in investing activities of RMB22,174.5 million was primarily attributable to increase in amounts due from associates and additions to investment properties.

In 2017, our net cash used in investing activities of RMB19,498.4 million was primarily attributable to addition to investment properties, acquisitions of associates and acquisitions of subsidiaries, net of case acquired.

Financing activities

In 2019, our net cash generated from financing activities of RMB38,026.5 million (US\$5,462.2 million) was primarily attributable to proceeds from bank and other borrowings and issuance of senior notes, partially offset by repayments of bank and other borrowings.

In 2018, our net cash generated from financing activities of RMB14,725.7 million was primarily attributable to proceeds from bank and other borrowings and issuance of senior notes, partially offset by repayment of bank and other borrowings.

In 2017, our net cash generated from financing activities of RMB24,037.8 million was primarily attributable to proceeds from bank and other borrowings and proceeds from issuance of senior notes, partially offset by repayments of bank and other borrowings.

Capital commitment

Commitments for property development expenditure and acquisition of subsidiaries and an associate

We incur capital expenditure primarily for our property development. The following table sets forth the commitments for our property development expenditure as of the dates indicated:

	As of December 31,			
	2017	2018	2019	
	(RMB in millions)	(RMB in millions)	(RMB in millions)	(US\$ in millions) (unaudited)
Contracted but not provided for				
— Acquisitions/construction of property, plant and equipment	150.6	100.2	69.3	10.0
— Acquisitions of land use rights and property development activities	31,849.8	35,377.0	34,429.9	4,945.5
— Acquisitions of subsidiaries	858.6	863.3	4,399.6	632.0

	<u>34,567.6</u>	<u>38,218.7</u>	<u>39,458.8</u>	<u>5,667.9</u>

The continued increase in our commitments for property development expenditures as of December 31, 2017, 2018 and 2019 was primarily due to our increased commitments arising from acquisitions of land use rights and property development activities, as well as acquisitions of property, plant and equipments, which were in line with our enlarged scale of property development activities.

Operating lease commitments

The following table sets forth our future aggregate minimum lease payments under non-cancellable operating leases in respect of land and buildings as of the dates indicated:

	As of December 31,			
	2017	2018	2019	
	(RMB in millions)	(RMB in millions)	(RMB in millions)	(US\$ in millions) (unaudited)
Not later than one year	46.9	168.0	6.4	0.9
Later than one year and not later than five years	91.1	398.1	—	—
Later than five years	70.1	586.4	—	—
Total	<u>208.1</u>	<u>1,152.5</u>	<u>6.4</u>	<u>0.9</u>

As of December 31, 2017, 2018 and 2019, our operating lease commitments were RMB208.1 million, RMB1,152.5 million and RMB6.4 million (US\$0.9 million), respectively. The increase in operating lease commitments from 2016 to 2018 was primarily due to the increasing number of properties, offices and office equipment we leased which was in line with our business expansion in the same period. We adopted HKFRS 16 from January 1, 2019. For details of its impact please see Note 2 to the Condensed Consolidated Financial Information included in this offering memorandum.

Capital resources and cash management

Property development projects require substantial capital expenditure for land acquisition and construction. The financing methods for our projects vary and are subject to limitations imposed by PRC regulations and monetary policies. Historically, we have primarily financed our expenditures and working capital through internal funds, proceeds from pre-sales and sales of properties, borrowings from banks and other funds raised from the capital markets from time to time. Our cash flow and results of operations of our operating subsidiaries affect our liquidity. See the section entitled “Risk Factors — We experienced net cash outflows from operating activities in the past and maintain a significant amount of indebtedness, which may materially and adversely affect our liquidity and our ability to service our indebtedness.”

As of December 31, 2017, 2018 and 2019, the carrying amount of our cash and bank deposits was approximately RMB21,170.2 million, RMB22,924.1 million and RMB36,978.1 million (US\$5,311.6 million), respectively. Pursuant to relevant regulations in the PRC, certain of our property development companies are required to place a certain amount of pre-sales proceeds received at designated bank accounts as guarantee deposits for construction of the relevant properties. Such guarantee deposits will be released after pre-sold properties are completed or their property ownership certificates are issued, whichever is the earlier. Additionally, as of December 31, 2019, some of our cash was deposited in certain banks as guarantee deposits for the benefit of mortgage loan facilities granted by the banks to the purchasers of the our properties. The aggregate of the above guarantee deposits amounted to approximately RMB2,267.5 million (US\$325.7 million) as of December 31, 2019.

We seek to manage our working capital to ensure collection and deployment of our funds. We use our annual budget, supplemented by our monthly cash flow projections, to forecast and manage our cash inflows and outflows. In addition, we prepare cash flow projections on a monthly basis to monitor our cash flow in connection with land acquisition, construction cost payments, financings, repayments of loans, taxes and other expenses. Our finance division also prepares daily cash flow summaries for our senior management to monitor and manage daily collection and use of cash.

We seek to manage the level of our liquid assets to ensure the availability of sufficient cash flows to meet any unexpected cash requirements arising from our business. In addition, we seek to effectively manage our future cash flows and reduce our exposure to unexpected adverse changes in economic conditions through a number of alternative plans, including adjusting our development schedule to ensure that we have available resources to finance our projects, implementing cost control measures, adopting more flexible approach to pricing for our property sales, and renegotiating payment terms with counterparties in certain land-related contractual arrangements. We will continue to assess these alternative plans on an ongoing basis and may choose to adopt them if necessitated by our then-existing financial conditions and cash requirements.

We monitor our capital and indebtedness levels by reviewing our gearing ratio, which is equal to net debt (total borrowings net of cash and cash equivalents, bank deposits and restricted cash) divided by total equity. Our gearing ratio, as of December 31, 2017, 2018 and 2019 and December 31, 2019, was 300.0%, 236.2% and 144.0%, respectively. We also monitor our indebtedness level generally through monthly review of our management accounts including balance sheets, income statements and cash flow statements to assess our financial condition and maintain our indebtedness at a reasonable level.

Indebtedness

	<u>111,173.2</u>	<u>108,766.0</u>	<u>117,195.6</u>	<u>16,834.1</u>

We had onshore borrowings in the PRC of RMB75,584.4 million, RMB67,086.0 million and RMB57,102.3 million (US\$8,202.2 million) as of December 31, 2017, 2018 and 2019, respectively, representing 68.0%, 61.7% and 48.7% of our total indebtedness as of each respective date. Our offshore borrowings outside the PRC were RMB35,588.8 million, RMB41,680.0 million and RMB60,093.2 million (US\$8,631.8 million) as of December 31, 2017, 2018 and 2019, respectively.

We have, since December 31, 2019, in the ordinary course of business, entered into additional financing arrangements to finance our property developments and for general corporate purposes. See “— Recent Developments”. We continue to evaluate our financing requirements and monitor our capital and indebtedness levels and may from time to time retire or refinance some of our existing indebtedness through opportunistic repurchases, tender offers or otherwise, depending on market conditions.

	<u>111,173.2</u>	<u>108,766.0</u>	<u>117,195.6</u>	<u>16,834.1</u>

Our total borrowings amounted to RMB111,173.2 million, RMB108,766.0 million and RMB117,195.6 million (US\$16,834.1 million), respectively, as of December 31, 2017, 2018 and 2019. The increase in our total borrowings during 2017, 2018 and 2019 was primarily due to additional funds needed for our acquisition of land reserves for future development (excluding payments for land premiums) and financing new development projects. We used the proceeds from these borrowings to finance our property development and for corporate and working capital purposes. As of December 31, 2017, 2018 and 2019, the effective interest rate was approximately 6.9%, 7.3% and 7.0%, respectively, for our bank borrowings included in non-current liabilities and approximately 6.4%, 7.2% and 6.6%, respectively, for our bank borrowings included in current liabilities. Changes in interest rates have affected and will continue to affect our financing costs and, ultimately, our results of operations.

Our borrowings as of December 31, 2019 were denominated in Renminbi, except for bank and other borrowings with aggregate amounts of RMB60,093.2 million denominated in U.S. dollars and Hong Kong dollars.

The table below sets forth the maturity profiles of our borrowings as of the dates indicated:

Total	<u>111,173.2</u>	<u>108,766.0</u>	<u>117,195.6</u>	<u>16,834.1</u>

As of December 31, 2019, we had total bank borrowings in an aggregate amount of RMB40,018.7 million (US\$5,748.3 million), which comprised RMB20,431.0 million (US\$2,934.7 million) included in the current liabilities and RMB19,587.7 million (US\$2,813.6 million) included in the non-current liabilities.

Commercial banks in China typically require guarantees or security interests for our borrowings. As of December 31, 2017, 2018 and 2019, RMB64,455.8 million, RMB54,695.4 million and RMB52,692.5 million (US\$7,568.8 million), respectively, of our outstanding bank and other borrowings were secured by property and equipment, land use rights, investment properties, properties under development, completed properties held for sale and/or certain shares of our subsidiaries owned by us, with carrying amounts totaling RMB71,964.2 million, RMB73,927.4 million and RMB71,775.7 million (US\$10,309.9 million), respectively.

Our bank borrowings are primarily used for our property developments. When applying the bank loans to finance a project, we refer to our property development schedule for the project to determine the maturity date of such loans. In 2017, 2018 and 2019, most of our property developments were residential projects that were completed or expected to be completed within two and a half years.

As of December 31, 2019, approximately RMB19,072.3 million (US\$2,739.6 million) of our Trust Financing Loans was outstanding. See “Description of Material Indebtedness and Other Obligations — Trust Financing Loans.”

Debt Restructuring

On July 21, 2016, our Debt Restructuring was effected whereby our 2012 Notes, January 2013 Notes, March 2013 Notes, April 2013 Notes, 2014 Notes, Convertible Bonds and Original Offshore Facilities were exchanged for the Series A-E Senior Notes, the Mandatorily Exchangeable Bonds and the CVRs. See “Description of Material Indebtedness and Other Obligations — Debt Restructuring” for details.

On June 30, 2017, the Company completed an exchange offer (the “Exchange Offer”) pursuant to which the Senior Notes Series A-E were exchanged for the 2020 Notes, the 2021 Notes, the 2022 Notes and the 2024 Notes.

US\$2,657,937,000 of the Senior Notes Series A-E, representing approximately 93.08% of the total aggregate principal amounts of the outstanding Senior Notes Series A-E, have been validly tendered for exchange and accepted pursuant to the Exchange Offer. All remaining Senior Notes Series A-E have been redeemed on August 3, 2017. Up to December 31, 2017, the Company issued additional Senior Notes that form a single series with the corresponding Senior Notes issued in the Exchange Offer.

On June 30, 2017, the Company issued convertible bonds of approximately US\$265.9 million in exchange for the then principal amount of the Mandatorily Exchangeable Bonds in accordance with the terms of the Mandatorily Exchangeable Bonds. During the period from July 2017 to October 2017, convertible bonds of approximately US\$265.2 million have been converted into ordinary shares of the Company and the Company has redeemed in aggregate of approximately US\$0.7 million convertible bonds in August 2017 and November 2017.

Gearing ratio

We monitor capital on the basis of the gearing ratio. Our gearing ratio equals net debt divided by total equity. Net debt is calculated as total borrowings (including current and non-current borrowings, as shown in the consolidated statements of financial position) less cash and cash equivalents, bank deposits and restricted cash.

The following table sets out our gearing ratios as of the dates indicated:

	As of December 31,

Gearing ratio	300.0%	236.2%	144.0%	144.0%

Current ratio

Our current ratio is calculated as current assets divided by current liabilities. As of December 31, 2017, 2018 and 2019, our current ratio was 1.8, 1.7 and 1.5, respectively.

Financial Guarantees

We typically arrange for various banks to provide mortgage loans to the purchasers of our properties who require mortgage loans. In accordance with market practice, we make arrangements with various domestic banks to provide mortgage facilities to purchasers of our properties. Furthermore, we are required to provide guarantees to these banks in respect of mortgages offered to our customers. Pursuant to the terms of the guarantees, upon default in mortgage payments by a purchaser, we would be responsible for repaying the outstanding mortgage principal together with accrued interest and penalties owed by the defaulting purchaser to the bank, and we would be entitled to assume legal title to and possession of the related property. These guarantees will be released upon the earlier of (i) the satisfaction of the mortgage loan by the purchaser of the property; and (ii) the issuance of the property ownership certificate for the mortgaged property and the completion of the registration of the mortgage, which is generally available within six months to one year after the purchaser takes possession of the relevant property. If a purchaser defaults on the mortgage payment, we may be required to repurchase the underlying property by paying off the mortgage loan. If we fail to do so, the mortgagee bank may auction the underlying property under the relevant PRC laws and regulations and recover the balance from us if the outstanding loan amount exceeds the net foreclosure sale proceeds. In line with industry practice, we do not conduct independent credit evaluations on our customers but rely on the credit checks conducted by the mortgagee banks.

As of December 31, 2017, 2018 and 2019, the outstanding guarantees for mortgage loans of the purchasers of our properties were equal to RMB30,094.9 million, RMB30,587.4 million and RMB32,816.5 million (US\$4,713.8 million), respectively. The fluctuations of our financial guarantees were in line with the fluctuations of our pre-sales and sales activities and were also affected by the timing of our property delivery.

Off-Balance Sheet Commitments and Arrangements

Except for the financial guarantees set forth above, we have not entered into any off-balance sheet guarantees or other commitments to guarantee the payment obligations of any third parties. We do not have any variable interest in any unconsolidated entity that provides financing, liquidity, market risk or credit support to us or engages in leasing or hedging or research and development services with us.

Market Risks

We are, in the normal course of business, exposed to market risks primarily relating to fluctuations in interest rates, commodity prices, foreign exchange rates and the inflation rate.

Interest rate risk

We are exposed to cash flow interest rate risk due to the fluctuation of the prevailing market interest rate on bank borrowings which carry prevailing market interest rates. Our interest rate risk primarily arises from the floating interest rate of domestic bank loans.

An increase in interest rates may also adversely affect prospective purchasers' ability to obtain financing and depress overall housing demand. Higher interest rates may adversely affect our revenue and profits. PBOC benchmark one-year lending rates in China (which directly affects the property mortgage rates offered by commercial banks in the PRC) as of December 31, 2017, 2018 and 2019, were 4.35%. We cannot assure you that PBOC will not raise lending rates in the future or that our business, financial condition and results of operations will not be adversely affected as a result of these adjustments. We do not currently use any derivative instruments to modify the nature of our debt so as to manage our interest rate risk. However, our management will consider hedging significant interest rate exposure should the need arise.

Commodities risk

We are exposed to fluctuations in the prices of raw materials for our property developments, primarily steel and cement. Accordingly, rising prices for construction materials will affect our construction costs in the forms of increased fees payable to our contractors. As a result, fluctuations in the prices of our construction materials have a significant impact on our results of operations.

Foreign exchange risk

We are subject to foreign exchange risk arising from future commercial transactions and recognized assets and liabilities such as cash and cash equivalents and loans which are denominated in a currency that is not Renminbi. As of December 31, 2019, we had US\$8,139 million senior notes, US\$100 million convertible bonds and offshore banking and other facilities of US\$245 million and HK\$1,412.5 million. Our functional currency is Renminbi, so bank balances and borrowings denominated in foreign currencies are subject to retranslation at each reporting date. Fluctuation of the exchange rates of Renminbi against foreign currencies could affect the our results of operations. Appreciation of the Renminbi against the U.S. dollar generally results in a gain arising from our U.S. dollar-denominated debt and a loss arising from our bank deposits in Hong Kong dollars and U.S. dollars. A depreciation of the Renminbi against the U.S. dollar would have the opposite effect. In addition, a depreciation of Renminbi would negatively affect the value of dividends paid by our PRC subsidiaries, which may in turn affect our ability to service foreign currency denominated debts.

Because Renminbi is not freely convertible, our ability to reduce the foreign exchange risk is limited. You should refer to "Risk Factors — Risks Relating to China — Changes in government control of currency conversion and in PRC foreign exchange regulations may adversely affect our business operations" for additional risk disclosure. We do not have a foreign currency hedging policy. However, our management monitors foreign exchange exposure and will consider hedging significant foreign currency exposure should the need arise.

Inflation

According to the National Bureau of Statistics of China, China's overall national inflation rate, as represented by the general consumer price index, was approximately 2.0%, 1.6% and 2.5% in 2016, 2017 and 2018, respectively. Deflation could negatively affect our business as it would be a disincentive for prospective property buyers to make a purchase.

Non-GAAP Financial Measures

We use EBITDA to provide additional information about our operating performance. EBITDA refers to our earnings before the following items:

- changes in fair value of investment properties;
- changes in fair value of financial derivatives;
- net finance cost (excluding net exchange gains/losses);
- capitalized interest charged to cost of sales;
- income tax expense;
- depreciation of property, plant and equipment and right-of-use assets;
- amortization of intangible assets;
- amortization of land use rights;
- share-based payments;
- write down of completed properties held for sale and provisions for properties under development.
- write off of intangible assets
- write off of trade and other receivables
- net gain on repurchase of senior notes
- net fair value change on financial assets at fair value through profit or loss
- waiver of other payables
- net exchange gains/losses
- impairment loss on intangible assets
- impairment loss on interest in an associate
- loss on derecognition of interest in an associate
- provision for expected credit loss
- gain/(loss) on disposal of financial assets at fair value through profit or loss (“FVTPL”)
- loss on disposal of investment properties
- loss on disposal of deposits for land acquisitions
- gain/loss on disposal of property, plant and equipment

EBITDA is not a standard measure under HKFRS. As the property development business is capital intensive, capital expenditure requirements and levels of debt and interest expenses may have a significant impact on the profit for the year of companies with similar operating results. Therefore, we believe the investor community commonly uses this type of financial measure to assess the operating performance of companies in our market sector.

We operate in a capital intensive industry. We use EBITDA in addition to profit or loss for the year because profit or loss for the year includes many accounting items, for example, those associated with write down of completed properties held for sale and provisions for properties under development, capital expenditures, depreciation of property, plant and equipment, amortization of intangible assets, amortization of land use rights, change in fair value of investment properties and financial derivatives, net fair value gain/loss on financial assets at FVTPL, net gain on repurchase of senior notes, net finance costs (excluding net exchange gains/losses), net exchange gains/losses, impairment loss on intangible assets, write off of intangible assets, write off of trade and other receivables, waiver of other payables, impairment loss on interest in an associate, loss on derecognition of interest in an associate, provision for expected credit loss, gain on disposal of financial assets at FVTPL, loss on disposal of investment properties, loss on disposal of deposits for land acquisitions and (gain)/loss on disposal of property, plant and equipment. These accounting items may vary between companies depending on the method of accounting adopted by a company. By minimizing differences in capital expenditures and the associated depreciation expenses as well as reported tax positions, land use rights amortization, change in fair value of investment properties and interest income and expense, EBITDA provides further information about our operating performance and an additional measure for comparing our operating performance with other companies' results. Funds depicted by this measure may not be available for debt service due to covenant restrictions, capital expenditure requirements and other commitments.

The following table reconciles our profit for the years indicated under HKFRS to our definition of EBITDA.

CORPORATE STRUCTURE

The following chart shows our corporate structure as of the date of this offering memorandum⁽¹⁾:

Subsidiary Guarantor

BUSINESS

Overview

We are a leading PRC property developer with a sizable and diversified land bank of approximately 26.8 million sq.m. GFA in 47 cities across six regions. According to China Real Estate Information Corporation and China Real Estate Appraisal Center, we were ranked 27th among Chinese property developers nationwide in terms of attributable contracted sales. We focus on mass market housing demand and are primarily engaged in the development of large-scale residential properties as well as integrated commercial properties.

Headquartered in Shenzhen, the Special Economic Zone adjacent to Hong Kong, we have historically focused our property development in the Pearl River Delta region. Our well-established position in the Pearl River Delta region is supported by our geographically diversified development portfolio, including projects in Shenzhen, Foshan, Guangzhou, Huizhou, Dongguan, Zhongshan, Zhuhai, Yangjiang and Qingyuan. Leveraging our success in the Pearl River Delta region, we have expanded into other areas in China, including Shanghai, Hangzhou, Taizhou, Suzhou, Zhangjiagang, Ningbo, Nanjing, Changzhou, Shaoxing, Jiaxing, Xuzhou, Hefei and Jiangyin in the Yangtze River Delta region, Chengdu, Chongqing, Pengzhou and Nanchong in the Western China region, Changsha, Hengyang, Wuhan, Ezhou, Xiaogan, Xinzheng, Xinxiang, Luoyang and Zhuzhou in the Central China region, and Shenyang, Yingkou, Benxi, Anshan, Liaoyang, Dalian, Dandong, Huludao, Bazhou, Gu'an and Qingdao in the Pan-Bohai Bay Rim.

As of December 31, 2019, we had a total of 176 property development projects, including completed properties, properties under development and properties for future development, in 47 cities in China. As of December 31, 2019, we had completed properties with a total GFA of approximately 27.3 million sq.m., and had a land bank with an estimated total GFA of approximately 26.8 million sq.m., including completed properties held for sale with a total GFA of approximately 2.5 million sq.m., properties under development with an estimated total GFA of approximately 13.9 million sq.m. and properties for future development with an estimated total GFA of approximately 10.4 million sq.m.

We focus primarily on development of the following:

- Residential properties. Our large-scale residential properties are generally located in suburban areas with access to public transport and other urban facilities in selected cities in China. These properties include apartments, serviced apartments and townhouses, often with complementary commercial facilities, restaurants and community facilities. The principal target customers for our residential properties are middle to upper-middle income households. We often develop our residential properties in a number of phases. We believe our multi-phased approach has enabled us to manage our capital resources efficiently and has increased our returns through the higher average selling prices which we expect to achieve at subsequent development phases.
- Commercial properties. Our integrated commercial properties are generally located in central business districts in selected cities in China. Our other commercial projects are expected to consist of a mixture of office buildings and retail spaces.

Our revenue was RMB32,779.3 million, RMB38,705.0 million and RMB48,021.7 million (US\$6,897.9 million) in 2017, 2018 and 2019, respectively.

We have historically contracted out construction works of all our development projects to construction contractors, and intend to continue to outsource substantially all of our construction works. We cooperate with Centaline and World Union to jointly promote our developed properties in different regional markets in China. Going forward, we will continue to improve the management of our sales through our dedicated sales team and intend to continue to engage professional property sales agencies to provide marketing and sales services for our properties in China.

We intend to continue to focus on developing residential and commercial properties in the Pearl River Delta region and further diversify geographically through expansion into other promising markets in China. In addition to our focus on residential and commercial development projects, we also aim to increase our investment properties and consequentially our rental income. We intend to retain certain of our commercial properties for long-term investment purposes. In

managing our investment property portfolio, we will take into account the estimated long-term growth potential, overall market conditions and our cash flows and financial conditions.

Our Competitive Strengths

We believe we have the following competitive strengths:

Market leadership in the Pearl River Delta region with a national footprint

We are a leading property developer in the Pearl River Delta region and have an increasing presence in other select strategic cities with high economic growth potential in China.

We are well-recognized in the Pearl River Delta region with a proven track record of successfully bringing to market reputable residential properties. Leveraging our success in the Pearl River Delta region, we have expanded into other areas in China, including Shanghai, Hangzhou, Taizhou, Suzhou, Zhangjiagang, Ningbo, Nanjing, Changzhou, Taicang, Shaoxing, Jiaxing, Xuzhou and Jiangyin in the Yangtze River Delta region, Chengdu, Chongqing, Pengzhou and Nanchong in the Western China region, Changsha, Hengyang, Wuhan, Ezhou, Xiaogan, Xinzheng, Xinxiang and Zhuzhou in the Central China region, and Shenyang, Yingkou, Benxi, Anshan, Weifang, Liaoyang, Dalian, Dandong, Huludao, Bazhou, Gu'an and Qingdao in the Pan-Bohai Bay Rim. According to "Top 200 Real Estate Enterprise Property Developers by Sales in 2018" jointly compiled and issued by China Real Estate Information Corporation and China Real Estate Appraisal Center, we were ranked 31st nationwide in terms of attributable contracted sales.

We believe that "Kaisa" evokes our high standard of industry practice and that the market recognition of "Kaisa" is further supplemented by our award winning property management services for properties we developed. We customize services to meet the particular needs and requirements of the community and focus particularly on maintaining customer satisfaction. We believe that by providing quality property management services, we will be able to improve the appeal of our products to customers and distinguish our products from those of our competitors.

We believe that our well-established position and operating expertise will enable us to successfully capture market share and mass market housing demand nationwide.

Quality land bank acquired at relatively low cost through various channels, including redevelopment

Our land acquisition team adopts a coordinated approach during the land acquisition process. We believe our insight into development trends in our target regions has enabled us to acquire large tracts of land at relatively low cost. We acquired our land reserves at relatively low cost as our reserves consist mostly of parcels of land located in selected cities where, we believe, the value of acquired land had not been fully recognized at the time of acquisition.

We intend to continue to leverage our extensive experience, in-depth local knowledge and business and technical expertise in managing urban redevelopment projects to take advantage of the incentives and preferential policies for promoting urbanization and redevelopment announced by the Shenzhen Municipal Government in October 2009.

We also have experience building our land reserves through acquiring and renovating distressed and uncompleted properties. While certain distressed properties present potential for achieving profitability at relatively low cost, this land acquisition approach requires the ability to resolve the numerous problems that rendered the properties distressed, to perform an evaluation and complete the property acquisition on a timely basis, and to devise and execute a comprehensive turn-around solution. Regardless, we have been able to acquire parcels of land by acquiring uncompleted distressed property developments at relatively low cost. We believe that the relatively low cost of our land reserves has enhanced our ability to respond to changing market conditions by adjusting prices while maintaining profitability.

Responsiveness to market trends and prudent financial management

Our knowledge of real estate markets and our understanding of market trends in China enable us to respond effectively to market conditions and changes. Our business model incorporates the key market factors that influence housing growth in China, particularly in the cities and regions where we operate or into which we intend to expand. In selecting sites for our residential developments, we focus on identifying suburban areas with access to road networks, public transport and urban facilities. We conduct in-depth internal market analysis, together with our site

research and additional market information provided by third-party sources, which enable us to better assess the risks, costs and potential returns associated with potential sites for development. By being proactive and responsive, we believe that we have been able to utilize our understanding of market fundamentals to guide our land reserve strategy. In addition, we closely monitor our cash flows and financial position with a view to achieving a balanced capital structure. We manage and seek to improve our liquidity profile by taking advantage of capital efficient projects, such as redevelopment of old urban areas, primary land development and joint venture projects with financial investors, and by instituting proactive cost controls and conservative budgeting procedures.

We have also exploited new market opportunities by identifying and acquiring distressed and uncompleted residential and commercial properties in Shenzhen and Guangzhou. We generally develop plans to achieve profitability through an analysis of various factors pertaining to the properties, including their valuation, execution, market repositioning and promotion. With our responsiveness to market conditions and innovative approach, as well as our growing track record of bringing such properties to market, we believe we have the ability to take advantage of similar market opportunities in the future.

Experienced and long-serving senior management team and continuous recruitment of management talent

Our senior management team members have extensive experience in the PRC real estate industry and expertise in strategic planning and business management. Certain of our core management members, including our founder and Chairman, Mr. Kwok Ying Shing, have led the growth of our business. To retain management talent and align their interests with those of us, we offer competitive compensation, stock option plans and a cohesive team-based working environment. We believe that our highly experienced senior management members will enable us to maintain the growth of our business. In recent years, we have attracted and hired, through a selective recruitment process, a number of seasoned managers and professionals from the real estate industry in China. We continually seek to attract and retain management talent in accordance with our aim to further expand our business operations.

Our Business Strategies

We aim to continue to grow as a leading property developer with a national presence in key economic regions in China. We have developed the following business strategies to pursue our growth objectives:

Continue to enhance profit margin from urban redevelopments in Shenzhen and the rest of the Pearl River Delta region and achieve further geographical diversification in China

We intend to continue to consolidate our leading market position in Shenzhen and the rest of the Pearl River Delta region. We believe that the Pearl River Delta region will remain one of the most economically dynamic regions in China, and that we will be able to continue to capitalize on the mass market housing demand for residential property as well as other types of property we develop in this region. In particular, we intend to continue to leverage our extensive experience, in-depth local knowledge and business and technical expertise in managing urban redevelopment projects to take advantage of the incentives and preferential policies on promoting urbanization and redevelopment announced by the Shenzhen government in October 2009. We also intend to continue to enhance profit margin from urban redevelopment and capture the growth opportunities of the Pearl River Delta region in light of the continuing improvement and expansion of the metro network and successive completion of the inter-city high speed railways.

In addition, we intend to further geographically diversify our revenue portfolio by opportunistically expanding our business operations in first-tier cities and provincial capitals following our successful expansion into several regions across China. We have entered into selected cities beyond the Pearl River Delta region. We plan to pursue further revenue geographical diversification through expansion into other select high-growth areas and major cities in China.

Further enhance asset turnover and cost efficiency through standardized product lines and a scalable business model

We have been focusing on an asset-turnover business model in order to capture the robust housing demand in China. We intend to continue to develop standardized product lines to achieve rapid asset turnover and expand the scale of our development while keeping costs competitive. We have developed certain standardized product lines which we have implemented in cities across

China, and we believe that such product lines offer comfortable and convenient community living environments. We believe standardized product lines and development processes will allow us to achieve efficient use of capital and other resources and develop new projects on a timely basis.

We segment the development process into various stages and maintain a systematic approach to manage and control the major steps of our developments, including site selection and land acquisition, detailed project planning and design work, development management and construction, sales and pre-sale, and after-sale services. Our turnover time from land acquisition to pre-sales in many lower-tier cities typically range from six and a half months to nine months. We intend to further standardize our scalable property development model and optimize our development process by establishing certain standard criteria and operational guidelines that may be replicated across projects. We believe that by replicating standardized and scalable practices and methodologies in strategically selected cities, we will be able to effectively expand our business and enter into new geographic markets as attractive opportunities arise.

Continue to focus on residential mass market and commercial property development while selectively expanding our land bank and diversify our business

We will continue to focus on residential mass market and commercial property developments. We intend to continue to develop mixed-use and multifunctional complexes comprising high-end office space, hotels, shopping centers, entertainment facilities and restaurants. We believe demand for office buildings, retail space and other types of commercial properties will continue to increase as commercial activities grow in China. We seek to achieve and maintain a balanced development structure by further diversifying into commercial property markets, while continuing to develop residential properties, particularly in the mass market housing segment.

We intend to increase our holdings of the commercial properties which we develop for long-term investment purposes so as to enhance the overall value of our property portfolio and to increase the proportion of recurring rental income. The commercial properties we intend to develop and retain include office space, retail space and hotels. We intend to enter into tenancy agreements with reputable international and local tenants to secure recurring rental income. We believe the diversification of our property portfolio will reduce our reliance on one particular sector of the market.

We will continue to selectively expand our land reserves for new property developments in order to sustain our continued growth and to execute our business expansion plan. We will continue to acquire land through acquisitions of controlling equity interests in parties that hold land use rights. In addition to building our land reserves through the public tender, auction and listing-for-sale process, we intend to take advantage of our experience in revamping distressed properties and continue to acquire distressed properties with good development potential. Furthermore, we intend to continue to participate in the redevelopment projects for old urban areas and villages in Shenzhen and other cities with high growth potential in Pearl River Delta to gain access to land that is suited for our property development plans.

We are actively seeking to diversify our business. For example, in November 2016, we acquired 21.7% equity interest in Kaisa Health Group Holdings Limited (formerly known as Mega Medical Technology Limited), a Hong Kong Stock Exchange listed company engaging in supply of dental equipment and consumables, and became its largest shareholder. In 2017, we further increased our equity interest in Kaisa Health Group Holdings Limited to 41.24% through its rights issue. We intend to further promote our brand name and increase our overall competitiveness through such diversification. We also continue to evaluate our business model and strive to optimize our business portfolio, have further restructured our property management business through a spin-off. See “— Property Management”.

Further enhance our brand recognition

We intend to enhance the brand awareness of “Kaisa” not only in the Pearl River Delta region, but in other selected cities and regions in China. We intend to continue to promote our brand, “Kaisa,” by focusing on product quality, site planning, layout and architectural design and customer service. We seek to distinguish ourselves by continuing to provide value-added products that meet the needs of our local middle to upper-middle income target mass market customers, and to continue to build our product reliability through “risk announcement” practices. We have a branding team to promote recognition of our brand and products. In addition, we will continue to advertise “Kaisa” across a variety of media, including newspapers, the Internet, television, radio and outdoor advertisements, and by participating in property exhibitions and organizing promotional events. Our goal is to further enhance “Kaisa” as a national brand.

Description of Our Property Developments

The map below shows the geographical distribution of our property development projects as of December 31, 2019:

As of December 31, 2019, the total GFA of our land bank was 26.8 million sq.m., located in the six regions shown in the below table:

The Pearl River Delta	13.6 million sq.m.
The Pan-Bohai Bay Rim	3.9 million sq.m.
The Western China Region	3.4 million sq.m.
The Central China Region	3.6 million sq.m.
The Yangtze River Delta	2.2 million sq.m.
Hainan	0.1 million sq.m.

As of December 31, 2019, approximately 80.0% of our land bank is located in first- and key second-tier cities, including 3.3 million sq.m. located in Shenzhen.

As of December 31, 2019, we had a total of 176 property development projects in the following three categories:

- completed properties, comprising completed properties sold, each property held for sale and each investment property for which we have completed construction and received a construction works acceptance and compliance certificate from the relevant governmental authorities;
- properties under development, comprising each property for which we hold a land use rights certificate and a construction works commencement permit; and
- properties for future development, comprising properties for which (i) we have obtained land use rights certificates but have not received a construction works commencement permit; and (ii) we have not obtained land use rights certificates but have entered into a land grant contract or obtained confirmation from the relevant land and resources bureau that we have been selected as the winner of the public listing-for-sale process.

Our classification of projects reflects the basis on which we operate our business and may differ from classifications employed for other purposes or by other developers. Each property project or project phase may involve multiple land use rights certificates, construction permits, pre-sale permits, completion certificates and other permits and certificates which may be issued at different stages of their developments.

The table below sets forth project-by-project information for our property development projects as of December 31, 2019. For illustrative purpose, the table below includes projects held by our affiliates/joint ventures which are not consolidated into our financial statements. The total GFA figures are not adjusted by our attributable interest in our subsidiaries or unconsolidated affiliates/joint ventures.

Note:

1. For projects with multiple phases, the estimated time for completing the first phase of the project.

The site area information in this offering memorandum is derived on the following basis:

- before a land use rights certificate has been issued, the site area information in respect of the related development or phase is derived from figures set out in the relevant land grant contract or the preliminary approval documents (excluding the areas earmarked for public infrastructure and facilities); and
- if a land use rights certificate has been issued, the site area information relating to the relevant development or phase of the development is derived from the land use rights certificate.

The commencement time for each project or project phase refers to the date or estimated date for beginning construction of the first building.

The completion time for each project or project phase refers to the date on which the completion certificate is duly issued.

If no completion certificate has been issued, the completion time is estimated based on our management's best belief and knowledge. These estimates do not represent commitments and are subject to change.

A property is considered sold when the risks and rewards of property are transferred to the purchasers, which occurs when the construction of relevant property has been completed, the property has been delivered to the purchasers and collectibility of related receivables is reasonably assured.

Contractual Arrangements

In China, land use rights can be obtained in the primary market or the secondary market. See "— Land Acquisition." Land acquisitions in the secondary market are usually not subject to the public tender, auction and listing-for-sale requirements and can be completed by agreements among the relevant parties through private negotiation. In particular, under existing rules and regulations in Shenzhen, land use rights may be acquired through redevelopment programs without going through the public tender, auction and listing-for-sale process. From time to time, we may enter into contractual arrangements to participate in land acquisitions or development in the secondary market. In most cases, we are required to prepay deposits, advances or other consideration under these contractual arrangements. These deposits, down payments or other

consideration are unsecured obligations and have been accounted for as prepayments for proposed development projects in our consolidated financial statements. We acquired 30 land parcels with approximately 4.1 million sq.m. of attributable GFA in 2019. As of December 31, 2019, our prepayments for proposed development projects were approximately RMB23,782.1 million (US\$3,416.1 million).

Our contractual arrangements for land acquisition and development as of December 31, 2019 can be broadly divided into the following categories (a project may fall under more than one category):

- *Redevelopment* — we enter into agreements with the local government or government-affiliated entities to provide demolition and resettlement services and secure the required financing in specified old urban areas, such as old industrial areas, old business districts, old residential areas and old villages, with an aim to eventually acquire land use rights to land that we redevelop. The local government or government-affiliated entities are mainly responsible for the required government filings and applications for the redevelopment project to ensure that such project is approved as an old urban area redevelopment project. Based on the framework cooperation agreements we had entered into as of December 31, 2019, we expect to acquire urban redevelopment projects with a site area of approximately 40.0 million sq.m..
- *Cooperative or joint development* — we enter into cooperative or joint development contractual arrangements with independent third parties to jointly develop projects. In such arrangements, we may not hold 100% of the rights and interests in such projects. We typically are responsible for sourcing the development funds required for the joint development, preparation, planning and development of the properties and the additional facilities.

Property Development

We maintain a systematic development approach although each project development is designed to cater to the preferences of the specific target market. The diagram below summarizes the major stages typically involved in our development of a property project:

Land Acquisition	Project Planning and Pre-development Issues	Design	Construction	Pre-sale and Sale	After Sales Services
<ul style="list-style-type: none"> • Land identification/evaluation • Equity target acquisition/due diligence • Market analysis • Feasibility study • Land acquisition 	<ul style="list-style-type: none"> • Market analysis • Production positioning • Development planning and designing/conceptual design 	<ul style="list-style-type: none"> • Outline design • Structural design • Construction design • Drawing • Landscape design • Interior design • Property management proposal 	<ul style="list-style-type: none"> • Contractor selection • Supplies procurement • Construction monitoring • Completion check acceptance • Development project ownership 	<ul style="list-style-type: none"> • Promote to potential purchasers • Apply for pre-sale permits • Sale and selling management • Possession • Deliver possession properties • Mortgage and • Registration support 	<ul style="list-style-type: none"> • Unit property ownership certificates • Property management • Client service • Client activities and survey • Data analysis • Client database

Going forward, we intend to further standardize our scalable property development model and optimize our development process by establishing certain standard criteria and operational guidelines that may be replicated across our property projects.

Site Selection And Market Evaluation

We believe site selection and market evaluation are major determining factors for the success of our property development business. Prior to acquiring a parcel of land, our management will consider key market factors that influence housing growth in the local area and make an informed decision based on market analysis and site research performed by our land acquisition team as well as the additional market information provided by third-party sources. These pre-acquisition measures help us acquire land prudently and develop our projects with clear market positioning from the outset. The key factors we consider in site selection are the following:

- size and population of the city;
- general economic condition and development prospect in the private business sector;
- infrastructure, urban planning and the development plan of the city by the local government;

- anticipated demand for private residential and commercial properties;
- purchasing power of the residents;
- income levels;
- site area and suitability for a large-scale residential property development or for an integrated commercial property development;
- location within the city, proximity to the city center, access to transport and commercial facilities;
- surrounding environment;
- existing and potential property developments in the area and historical property demand in that area;
- overall competitive landscape; and
- overall cost structure.

We typically select sites for our residential developments in suburban areas with access to public transport and other urban facilities. We typically select sites for our commercial developments in prime locations of CBDs in selected cities.

Land Acquisition

Under current PRC laws and regulations, land use rights for the purpose of industrial use, commercial use, tourism, entertainment and commodity housing development must be granted by the government through public tender, auction or listing-for-sale. When deciding to whom to grant the land use rights, the relevant authorities will consider not only the tender price, but also the credit history and qualifications of the tenderer and its development proposal. When land use rights are granted by way of a tender, an evaluation committee consisting of no fewer than five members and in odd numbers (including a representative of the grantor and other experts) evaluates and selects the tenders that have been submitted. If land use rights are granted by way of an auction, a public auction is held by the relevant local land bureau and the land use rights are granted to the highest bidder.

Under current PRC laws and regulations, original grantees of land use rights may sell, assign or transfer the land use rights granted to them in the secondary markets. The “primary market” commonly refers to the grant of state-owned land use rights by relevant government authorities, and the “secondary market” commonly refers to the acquisition of land use rights from entities or persons which hold granted land use rights. PRC laws allow grantees of land use rights to dispose of the land use rights granted to them through secondary market sales, subject to the terms and conditions of the land use rights grant contracts and relevant laws and regulations. Unless otherwise required by relevant PRC laws and regulations, land acquisition in the secondary market is not subject to mandatory public tender, auction or listing-for-sale and can be accomplished by agreement among the relevant parties.

In 2017, 2018 and 2019, we successfully acquired land through the following means:

- public tender, auction and listing-for-sale organized by the relevant government authorities;
- acquisition of controlling equity interests in companies that possess the land use rights for targeted land; and
- participation in redevelopment projects for old urban areas and villages.

We intend to continue to expand our land reserves for new property developments through the primary market as well as the secondary market. The table below sets forth our land acquisition in the year ended December 31, 2019:

Financing of Property Developments

Historically our main sources of funding for our property developments are internal funds, proceeds from pre-sales and sales of properties and borrowings from banks and other financial institutions. From time to time, we also seek to obtain further funding to finance our project developments by accessing the international capital markets.

Our financing methods vary from project to project and are subject to limitations imposed by PRC regulations and monetary policies.

Project Planning and Design Work

We have an engineering and procurement division and a design management division which work with our project managers as well as external designers and architects in project planning and design phases. Our senior management is regularly involved in our land acquisition and development process, especially in the master planning and architectural design of our projects. We have established written procedures to manage our planning and design process. By implementing these procedures, we can unify planning and overall coordination. We also implement a series of review and design guidelines for our planned projects.

We engage external design firms to carry out design work for our projects according to our design standards and guidelines. We select the design firm based on an evaluation of their proposed concept designs, technical capacities and track record in developing similar projects. Our design management division coordinates and works with the selected design firms in major aspects of the design process, including product positioning, master planning, concept design, layout and architectural design, landscape design and interior design.

Our design contracts generally include a price list and basis for calculating the design fees such as price per sq.m. of GFA and dispute resolution provisions. We generally make payments in installments according to the progress of a project and settle the balance of the contract amounts after the project has passed the requisite government inspections and acceptances. We adopt procedures for project monitoring and quality control during the construction process to ensure that the project construction complies with design drawings, regulations, technical standards and contract requirements.

Project Management

We maintain a systematic development approach even though each project is specifically designed to cater to the target market. We have established various centralized divisions to oversee and control the major steps of our developments. These centralized divisions include the investment and development division, the engineering and procurement division, the design management division, the cost management division, the finance division and the customer services and sales division. Our investment and development division is responsible for performing market and site analysis on the feasibility of potential projects and preparing the preliminary budget for each new project. Our engineering and procurement division manages our material procurement and project construction. Our design management division is responsible for ensuring that construction is conducted in accordance with our planning, project design and construction drawings. Our cost management division focuses on cost control in our project development process, particularly land acquisition, project planning and design, construction and finance. Our finance division is responsible for providing senior management with the relevant cost and other financial information in relation to our operations. Our customer services and sales division works with our other centralized divisions throughout the development process to ensure that our products meet market trends and regional preferences. The involvement of these centralized divisions in the process of a project development enables us to achieve consistency in project management and synergies across our various projects.

In order to effectively carry out daily development functions in projects in various cities and regions, we have established project companies in the respective cities or regions to implement the significant strategic decisions by our centralized divisions.

Procurement

We directly purchase certain major building materials and equipment such as aluminum alloys and elevators from suppliers and engage them for the installation of such materials and equipment. The amount paid for materials directly procured by us constitutes only a small portion of our total costs of materials because most construction materials are procured through our construction contractors. We have established a screening and bidding process to select material suppliers. We make decisions in selecting suppliers based on a set of factors including product quality, production capacity, management and implementation capability, track record and after-sales services. Our construction contractors are responsible for procuring most construction materials. For procurement of key construction materials, we typically designate a few brands which the contractors are required to procure.

Project Construction

We have historically contracted out all of our construction work to independent construction companies. These construction companies carry out various work including foundation leveling,

civil engineering construction, equipment installation, internal decoration, landscaping and various engineering work. Under relevant PRC laws and regulations, a construction company is required to hold the relevant construction qualification certificate for the type of construction it undertakes. We have guidelines for selecting construction companies and typically invite at least three qualified construction companies to bid through a tender process. We limit our selection of construction contractors to those which have obtained the relevant construction certificates and necessary licenses, including construction enterprise qualification certificates, safety permits and permits for production of industrial products. When selecting construction contractors, we consider various factors including quality and safety, reputation, track record in similar-size projects, technical and construction capabilities and proposed construction schedule and price.

The construction contracts we enter into with construction companies typically provide for the completion date of the construction projects, quality and safety requirements mandated by relevant PRC laws and regulations and our quality standards and other specifications. Our construction contracts generally provide progressive payment arrangements according to construction phases until approximately 95% of the total contract price is paid. We typically withhold 5% of the contract sum for one to two years after the completion of construction as the additional quality warranty retention. In 2017, 2018 and 2019, we did not experience any material problems with services provided by our third-party construction contractors.

Quality Control and Construction Supervision

We emphasize quality control and adopt our quality control procedures to ensure that our properties and services comply with relevant rules and regulations relating to quality, safety and total permitted GFA and meet market standards. We adopt written selection and specification requirements for procurement of each type of material and equipment, including brand requirements, quality, technical standards, sample inspection and random quality inspection. We impose ingredient specifications for certain important construction materials such as cement. In addition, construction materials must go through the procedures of submission, sampling and testing before they are used in our projects.

We have adopted a construction plan design manual, which sets out the general classifications and illustrative guidelines for the quality specifications and parameters of our construction projects. It contains various aspects of design requirements, including construction and decoration, structural design, power supply, drainage and air conditioning systems, as well as environmental protection matters. In addition, we have adopted a manual for the general design of residential projects, which sets out the guidelines and requirements for our residential developments by classes and standards in terms of applications, environmental and economic functions, safety, and durability.

We have formulated internal control standards and procedures to regulate all major processes and procedures in our construction works. We require external contractors to adhere to the guidelines in respect of our standards and procedures, comply with relevant PRC laws and regulations in carrying out their work, and report any deviations and instances of non-compliance. Our project engineers perform on-site supervision during our construction process and conduct progressive inspections at each construction phase. We assign evaluation teams to perform on-site evaluation reviews of our existing contractors periodically with respect to construction quality, safety control and their compliance with the relevant PRC regulations and standards relating to building materials and workmanship. We also prepare detailed quality evaluation reports for each unit of our projects after construction completion.

In addition, we engage independent third-party supervisory companies to monitor, control and manage the construction progress of our projects, including quality, cost control, safety, quality control of construction materials and equipment, and to conduct on-site inspection. Our contracts with supervisory companies generally set out payment terms, fee calculation methods and dispute resolution provisions. The supervisory fees are generally determined either at a negotiated percentage of the total construction cost of the construction project, or according to the number of supervisory personnel persons deployed. We generally make progressive payments to our supervisory companies according to construction phases until they complete the relevant services.

We are not responsible for any labor problems in respect of workers employed by our contractors or accidents and injuries that may be incurred by those workers on our construction sites if such accidents or injuries were not caused by us. These risks are borne by our contractors as

provided for in our contracts with them. During the three years ended 2019, we were not aware of any non-compliance by the construction contractors of the PRC laws and regulations relating to environmental protection, health and safety or labor disputes raised by our contractors or subcontractors.

We provide our customers with a warranty for the quality of the structure of the construction pursuant to the Measures on the Sales of Commodity Housing (《商品房銷售管理辦法》) and Regulations for the Operations of Urban Property Development (《城市房地產開發經營管理條例》). In addition, we also provide a quality warranty on certain fittings and fixtures, if applicable, usually for a period of two years according to the published national standards.

Pre-Sale

In line with market practice, we pre-sell properties prior to the completion of their construction. Under applicable PRC laws and regulations, the following conditions must be met prior to commencing any pre-sale of any particular property development:

- the land premium has been fully paid and the relevant land use rights certificate has been duly issued;
- the construction land planning permit, construction works planning permit and the construction works commencement permit have been duly issued;
- the funds contributed to the property development may not be less than 25% of the total amount required to be invested in the project;
- the progress and the expected completion date and delivery date of the construction work have been ascertained; and
- a pre-sale permit has been duly issued by the relevant construction bureau or real estate administration authority.

In addition, our pre-sale activities are subject to the relevant regulations of the cities where our property projects are located. Our Directors confirm that we complied with the relevant regulations in relation to the pre-sale of properties in the cities where we have undertaken pre-sale activities and we did not encounter any defaults committed by our customers in pre-sales or sales contracts that had a material adverse effect on our business operations or financial condition in 2017, 2018 and 2019. See the section entitled “Risk Factors — Risks Relating to the Real Estate Industry in China — We are exposed to contractual, legal and regulatory risks related to pre-sales.”

Sales and Marketing

Our sales team in our customer services and sales division is responsible for executing our overall marketing strategy and sales and product promotion plans. We provide training programs and courses to our sales staff with different levels of experience. Our sales team conducts market analysis, prepares promotional designs and project brochures, organizes on-site promotions, arranges advertising campaigns, recommends pricing, sets sales-related policies and manages our customer relationships.

We cooperate with Centaline and World Union to jointly promote our products across different regional markets in China. Through cooperating with Centaline and World Union, we believe that we are able to share their national and regional market research and information, sell and pre-sell our properties through their property sales network in China and promote our products with their professional assistance and resources. We generally enter into one-year non-exclusive sales agency agreements for the sales agency services provided by Centaline and World Union on a project-by-project basis. Pursuant to these agreements, their project teams assist with our marketing and sales. In mainland China, all of us, Centaline and World Union may conduct on-site sales through the respective on-site sales representatives. Project managers from us and Centaline or World Union are jointly responsible for monitoring the overall sales and supervising their respective sales personnel, who are subject to the relevant joint sales administration agreements entered into between Centaline or World Union and us. In general, the price, discount and all other conditions of sales conducted by Centaline or World Union and us for the same project are identical. Under these agreements, Centaline and World Union are generally entitled to a sales commission upon the execution of the relevant property purchase contract. We believe that the range of the sales commission we pay to Centaline and World Union is in line with industry practice. The sales commission is calculated and settled in cash at the end of each calendar month during the term of the sales agency agreement. Going forward, we will continue to improve the

management of our sales through our sales team and intend to engage professional property sales agencies to carry out marketing and sales services for our property projects in China.

We promote our products through various media including newspapers, the Internet, television, radio and outdoor billboards. We also conduct advertising campaigns by means of direct mail, phone text messages, and project promotional materials. As part of our sales strategy, we conduct on-site promotion and display units to potential customers.

Delivery and After-Sales Services

We endeavor to deliver our products to our customers in a timely manner. We closely monitor the progress of construction of our property projects and conduct pre-delivery property inspections to ensure the quality of our properties. The time frame for delivery is set out in the sale and purchase agreements entered into with our customers. Once a property project or project phase has passed the requisite inspections and is ready for delivery, our customer services and sales division will notify our customers, and together with representatives of the construction contractors and third-party supervisory companies, inspect the properties prior to delivery to ensure quality. Furthermore, our customer services and sales division generally assists the purchasers of our properties with mortgage financing applications, title registrations and obtaining their property ownership certificates.

Our after-sales services is customer-oriented. Our objective is to ensure continued customer satisfaction. Our customer services and sales division is responsible for our after-sale services for each of our various projects. We offer multiple communication channels for our customers to provide feedback and complaints about our products or services, including a customer service telephone hotline. We also study customer satisfaction through third-party research. We also cooperate with our property management companies to handle customer complaints. We seek to make timely adjustments to products and services to meet our customers' needs. As part of our after-sales services, we provide our existing customers with "Joy Club" (佳族會), our internal bimonthly publication, to introduce our culture, brand, various projects and promotional activities.

Payment Arrangements

Purchasers of our residential properties, including those purchasing pre-sale properties, may arrange for mortgage loans with banks. We typically require a purchaser to pay a deposit no less than RMB30,000 upon signing of a preliminary sale and purchase agreement. A formal sale and purchase agreement would be arranged within seven days. If the purchaser later decides not to enter into a formal sale and purchase agreement, the purchaser will forfeit the deposit. The purchasers typically make a down payment as required by the applicable regulations on the date of execution of the formal sales and purchase agreement. Mortgage applications and approvals are the purchaser's own responsibility, and we assist them on an as-needed basis. The payment terms of sales and pre-sales of properties are substantially identical.

In accordance with industry practice, we provide guarantees to banks with respect to the mortgage loans they offer to our purchasers. These guarantees are released upon the earlier of (i) the satisfaction of the mortgage loan by the purchaser of the property and (ii) the issuance of property ownership certificate for the mortgaged property and the completion of the registration of the mortgage, which is generally available within six months to one year after the purchaser takes possession of the relevant property. In line with industry practice, we do not conduct independent credit checks on our purchasers but rely on the credit checks conducted by the mortgagee banks. As of December 31, 2017, 2018 and 2019, our outstanding guarantees over the mortgage loans of our customers amounted to RMB30,094.9 million, RMB30,587.4 million and RMB32,816.5 million (US\$4,713.8 million), respectively. In 2017, 2018 and 2019, we did not experience any instances where we had to honor our guarantee obligations as a result of a failure by our customers to repay their mortgage loans. See "Risk Factors — Risks Relating to the Business — We guarantee mortgage loans of our customers and may be liable to the mortgagee banks if our customers default on their mortgage payments."

Property Management

We provide property management services through Kaisa Prosperity Holdings Limited, our subsidiary, which holds [23] property management companies currently managing the properties. All these companies are our indirect subsidiaries. The property management agreements between our property management companies and the property owners set forth the scope and the quality requirements of the services provided by our property management companies. Our property

management companies typically provide after-sales services to purchasers of our properties, including maintenance of public areas and facilities, rental of car parking spaces, security, operation of clubhouse, gardening and landscaping and other services. The property management agreements also set forth the payment arrangements of management fees. In 2017, 2018 and 2019, we derived revenue from our property management services of RMB315.9 million, RMB516.2 million and RMB912.3 million (US\$131.0 million), respectively. Under PRC laws and regulations, the owners' association of a residential community has the right to change property management companies pursuant to certain procedures. As of December 31, 2019, owners of all of our property developments who had become statutorily entitled to choose their property management companies continued to choose our property management companies to manage their properties. See "Risk Factors — Risk Relating to Our Business — Property owners may terminate our engagement as the provider for property management services."

On June 22, 2018, we proposed to spin-off and separately list the shares of our subsidiary, Kaisa Property Holdings Limited, which is the holding company of our property management business, on the main board of the Stock Exchange. The Stock Exchange has confirmed we may proceed with the proposed spin-off. On June 22, 2018, Kaisa Property Holdings Limited submitted a listing application form (Form A1) to the Stock Exchange to apply for the listing of, and permission to deal in, its shares on the main board of the Stock Exchange. On December 6, 2018, the spin-off and listing of Kaisa Property Holdings Limited on the Stock Exchange was completed. We believe the spin-off is commercially beneficial for the following reasons, including, among others, the spin-off will provide opportunity for us to realize the value of investment in our property management business under a separate standalone platform, and allow Kaisa Property Holdings Limited to gain direct access to capital market to improve its operating and financial performance. As of the date of this offering memorandum, hold approximately 73.95% of the total issued share capital of Kaisa Property Holdings Limited. In connection with the spin-off, we have designated Kaisa Property Holdings Limited as an Unrestricted Subsidiary under the Existing Notes. Similarly, Kaisa Property Holdings Limited will be an Unrestricted Subsidiary under the Notes.

Hotel Development and Operation

We currently operate four hotels in Shenzhen, two in Huizhou, one in Zhuhai, one in Liaoyang and one in Suizhong. The three hotels in Shenzhen and the one in Zhuhai are being operated under our own brand "Kare (可域酒店)". We, through Marriott, operated Marriott Golden Bay Resort, an ocean front hotel located on Jinshawan Beach in Shenzhen. Shenzhen Kaisa Golden Bay International Park has a site area of 869,838 sq.m. and a total GFA of 516,400 sq.m. We intend to redevelop it to further enhance its attraction to individual and corporate customers and marketability. According to our current preliminary redevelopment plan, the redeveloped complex is expected to consist of a number of renovated hotel and serviced apartments.

We intend to launch a few new hotels under our own brands "Kare (可域酒店)" and "Orientino Hotels (鉞域酒店)" in the near future. We will also engage internationally recognized hotel management companies to manage and operate some of our hotels upon the completion of their construction. We believe that by engaging hotel management companies to manage our hotels, we will be able to benefit from their reputation and brand recognition, hotel management and operating experience, an advanced management model as well as global reservation systems and employee training programs.

Investment Properties

We develop commercial properties such as office buildings, retail stores and car parking spaces for leasing purposes. We believe these properties help to maintain our recurring revenue. Our commercial leases are generally for terms of three to four years. If there are anchor tenants renting relatively large areas at our commercial properties, or whose presences are expected to attract other tenants, we may consider offering them leases for terms of between ten and 20 years, with annual rental reviews with reference to fixed percentage increases. Rents are typically determined based on prevailing market rates and calculated on a per square meter basis. We may choose to sell the commercial properties we have developed when we believe that sales would generate a better return on investment than rental. We intend to retain certain of our commercial properties under development and for future development for long-term investment purposes. In managing our investment property portfolio we will take into account estimated long-term growth potential, overall market conditions and our cash flows and financial condition. The rental income derived from our investment properties represented 0.8%, 0.7% and 0.9%, respectively, of our revenue in 2017, 2018 and 2019.

Properties Used by Us

Our corporate headquarters is in Shenzhen Kerry Center, located in Luohu District, Shenzhen, with a GFA of approximately 542 sq.m. Our office premises in Shenzhen primarily consist of Rooms 3303-04 in the Kerry Center, which was acquired by us in 2006, and most of the office space on the 5th floor of the Shenzhen Kaisa Center, which was retained and owned by us since 2006. In addition, as of December 31, 2019, we rented properties in various cities in the PRC. We use these rented properties primarily as office premises.

Competition

We believe that the property markets in the Pearl River Delta region and other parts of China are highly fragmented. We compete with other real estate developers based on a number of factors including product quality, service quality, price, financial resources, brand recognition, ability to acquire proper land reserves and other factors. Our existing and potential competitors include private and public developers in the PRC and Hong Kong. Our competitors may have more experience and resources than we do. We believe we maintain a competitive position with our well-known “Kaisa” brand in the Pearl River Delta region. We have entered the Western China region, the Central China region, the Yangtze River Delta region and the Pan-Bohai Bay Rim. We believe major barriers to enter into these markets include a potential new entrant’s limited knowledge of local property market conditions and limited brand recognition in these markets. For more information on competition, please refer to the section titled “Risk Factors — Risks Relating to the Real Estate Industry in China — Intensified competition may adversely affect our business and our financial condition.”

Intellectual Property Rights

As of December 31, 2019, we had registered 2,181 trademarks in the PRC and six trademarks in Hong Kong. Our other trademark applications were still under the review of the PRC Trademark Office as of December 31, 2019. We did not experience any infringement of our intellectual property rights in 2017, 2018 and 2019, and we are not aware of any material unauthorized use of our brand name or logo or other forms of our brand image as of December 31, 2019. We believe that although the registration of our certain trademarks is pending, our business operation will not be materially affected. Our Directors confirm that we had not committed any infringement of intellectual property rights as of December 31, 2019.

Insurance

We maintain group accident insurance for our employees. The insurance primarily insures our employees for personal injuries in our workplace or on our construction sites. We also maintain property damage or third-party liability insurance for our workplace, construction sites or property developments for some of our projects. Under PRC law, these types of insurance are not mandatory and may be purchased on a voluntary basis. We and our construction contractors monitor the quality and safety measures adopted at our construction sites to lower the risks of damage to our property and liabilities that may be attributable to us. We re-evaluate the risk profile of the property development business and adjust our insurance practices from time to time. We believe we have sufficient insurance coverage in place and that our insurance practice is in line with the customary practice in the PRC real estate industry.

However, there are risks that are not covered, and we are self-insured for money losses, damages and liabilities that may arise in our business operations. See the section entitled “Risk Factors — Risks Relating to the Business — We may suffer certain losses not covered by insurance.”

Employees

As of December 31, 2019, we had approximately 15,300 full-time employees.

The remuneration package of our employees includes salary, bonus, share options and other cash subsidies. In general, we determine employee salaries based on each employee’s qualification, position and seniority. We have designed an annual review system to assess the performance of our employees, which forms the basis of our determination on salary raise, bonus and promotion. We are subject to social insurance contribution plans organized by the PRC local governments. In accordance with the relevant national and local labor and social welfare laws and regulations, we are required to pay, on behalf of our employees, a monthly social insurance premium covering pension insurance, medical insurance, unemployment insurance and housing

reserve fund. See “Risk Factors — Risks Relating to China — Our operations and financial performance could be adversely affected by labor shortages, increase in labor costs, changes to the PRC labor-related laws and regulations or labor disputes.” We believe the salaries and benefits that our employees receive are competitive in comparison with market rates.

Our employees do not negotiate their terms of employment through any labor union or by way of collective bargaining agreements. We believe our relationship with our employees is good. We have not experienced significant labor disputes which adversely affected or are likely to have an adverse effect on the operations of our business had occurred.

Environmental and Safety Matters

We are subject to PRC environmental laws and regulations as well as environmental regulations promulgated by local governments. We are required to engage qualified agencies to conduct an environmental assessment and submit an environmental impact assessment report to the relevant government authorities for approval before construction begins. Under relevant PRC laws and regulations, when there is a material change in respect of the construction site, or the scale or nature of a project, a property developer must submit a new environmental impact assessment report for approval. During the course of construction, the property developer and the construction companies must take measures to minimize air pollution, noise pollution and water and waste discharge. Upon completion of each property development, the relevant government authorities will inspect the site to ensure that applicable environmental standards have been met. The resulting report is then submitted together with other specified documents to the local construction administration authorities for the record. From November 20, 2017, after the construction project has been completed, the project company (other than the environmental authorities) should conduct environmental protection inspection of the completed project, formulate environmental protection inspection report, disclose the report to the public, and submit the relevant data and information through the online platform of environmental protection inspection on completion of construction projects. See the section entitled “Risk Factors — Risks Relating to the Real Estate Industry in China — Potential liability for environmental damages could result in substantial cost increases.”

During the course of property development, our construction may result in the creation of dust, noise, waste water and solid construction waste. Our construction contractors, under the construction contracts, are responsible for performing all necessary measures to prevent pollution and enhance environmental control of the construction sites and to comply with relevant laws and regulations. We endeavor to comply with relevant PRC laws and regulations on environmental protection and safety by (i) engaging qualified construction contractors and requiring the construction contractors to take steps to minimize adverse environmental impact during construction and to be responsible for the final clean up of the construction site, (ii) monitoring the project at every stage to ensure the construction process is in compliance with the environmental protection and safety laws and regulations, and (iii) requiring the construction contractors to immediately remedy any default or non-compliance.

Inspections of each of our completed property projects by the relevant PRC government authorities to date have not revealed any environmental liability which we believe would have a material adverse effect on our business operations or financial condition.

In 2017, 2018 and 2019, we did not experience any material environmental pollution incidents and we incurred insignificant costs in connection with our compliance with environmental and safety laws and regulations. All of our completed property projects and properties under construction had received the requisite environmental approvals according to the timeline imposed by the relevant PRC government authorities.

We monitor the safety measures adopted by our construction contractors and safety aspects of the construction process through engaging independent third-party supervisory companies to oversee compliance with environmental and health and safety laws and regulations. See “— Quality Control and Construction Supervision” for further details. In relation to workplace safety on our construction sites, our construction contractors are generally responsible for any accidents or injuries not caused by us. We also require our construction contractors to purchase accident insurance to cover their workers and to adopt appropriate safety measures, including providing workers with safety training.

We believe that our operations are in compliance with currently applicable national and local environmental and health and safety laws and regulations in all material respects. We intend to

continue to comply with relevant PRC environmental and health and safety laws and regulations, to engage only qualified construction contractors with good environmental protection and safety track records and to require the construction contractors to strictly comply with relevant laws and regulations relating to environment and health and safety and to maintain appropriate insurance. We will also continue to educate our employees in relation to the importance of environmental and safety and health issues and to keep abreast of developments in PRC environmental laws and regulations.

Internal Control

We engaged Grant Thornton Advisory Services Limited, an external professional adviser, in August 2016 to conduct an independent internal control review and to assist our management to improve our internal control system. We have adopted various measures to enhance our internal control procedures. The enhanced internal controls measures include: (1) segregating the internal audit function from the operational functions, (2) assigning the internal audit function to handle the whistle-blowing function, (3) strengthening document retention procedures, (4) strengthening approval procedures on the use of company chops, (5) defining detail requirements on supporting documents for accounting recording, (6) putting in place guidelines specifying documents for accounting personnel's inspection before release of on-line bank payment, (7) segregating fund sourcing and internal fund transfer functions and implementing additional control procedures, (8) enforcing restrictions on transactions with fund remittance agents, (9) implementing policies and procedures on transactions of significant monetary amounts or transactions not in the normal course of business, (10) setting up automatic approval processes in the office automation system in line with delegation of authority and (11) introducing collective approval from the board in approving transactions involving significant monetary amounts. Our board of directors considered that our enhanced internal control system was adequate and effective.

Legal Proceedings And Material Claims

In 2017, 2018 and 2019, we were involved in legal proceedings or disputes in the ordinary course of business, including claims primarily relating to contract disputes with our contractors, our purchasers and financial institutions. We are currently involved in certain outstanding lawsuits with some financial institutions, contractors, co-development partners, tenants and individuals. Other than the aforementioned, we are not implicated in or aware of any other material legal proceedings or claims currently existing or pending against us. See the section entitled "Risk Factors — Risks Relating to the Business — We may be involved from time to time in disputes, administrative, legal and other proceedings arising out of our operations or subject to fines and sanctions in relation to our non-compliance with certain PRC laws and regulations, and may face significant liabilities as a result."

In 2017, 2018 and 2019, we did not encounter any circumstances that led to material construction delays or received any material claims from our customers for our failure to complete any pre-sold project on time or for our delay in the delivery of ownership certificates except as disclosed in this offering memorandum. See the section entitled "Risk Factors — Risks Relating to the Business — We may not be able to complete our projects according to schedule or on budget."

REGULATIONS

The following discussion summarizes the principal laws, regulations, policies and administrative directives to which we are subject.

The PRC Legal System

The PRC legal system is based on the PRC Constitution and is made up of written laws, regulations, directives and local laws, of Special Administrative Regions and laws resulting from international treaties entered into by the PRC government. Court verdicts do not constitute binding precedents. However, they are used for the purposes of judicial reference and guidance.

The National People's Congress of the PRC, or NPC, and the Standing Committee of the NPC are empowered by the PRC Constitution to exercise the legislative power of the State. The NPC has the power to amend the PRC Constitution and enact and amend basic laws governing State agencies and civil and criminal matters. The Standing Committee of the NPC is empowered to enact and amend all laws except for the laws that are required to be enacted and amended by the NPC.

The State Council is the highest organ of the State administration and has the power to enact administrative rules and regulations. The ministries and commissions under the State Council are also vested with the power to issue orders, directives and regulations within the jurisdiction of their respective departments. All administrative rules, regulations, directives and orders promulgated by the State Council and its ministries and commissions must be consistent with the PRC Constitution and the national laws enacted by the NPC. In the event that a conflict arises, the Standing Committee of the NPC has the power to annul administrative rules, regulations, directives and orders.

At the regional level, the provincial and municipal congresses and their respective standing committees may enact local rules and regulations and the people's governments may promulgate administrative rules and directives applicable to their own administrative areas. These local laws and regulations must be consistent with the PRC Constitution, the national laws and the administrative rules and regulations promulgated by the State Council.

The State Council, provincial and municipal governments may also enact or issue rules, regulations or directives in new areas of the law for experimental purposes. After gaining sufficient experience with experimental measures, the State Council may submit legislative proposals to be considered by the NPC or the Standing Committee of the NPC for enactment at the national level.

The PRC Constitution vests the power to interpret laws in the Standing Committee of the NPC. According to the Decision of the Standing Committee of the NPC Regarding the Strengthening of Interpretation of Laws passed in June 1981, the Supreme People's Court. The State Council and its ministries and commissions are also vested with the power to interpret rules and regulations that they have promulgated. At the regional level, the power to interpret regional laws is vested in the regional legislative and administrative bodies which promulgate such laws.

The PRC Judicial System

Under the PRC Constitution and the Law of Organization of the People's Courts, the judicial system is made up of the Supreme People's Court, the local courts, military courts and other special courts. The local courts are comprised of the basic courts, the intermediate courts and the higher courts. The basic courts are organized into civil, criminal, economic and administrative divisions. The intermediate courts are organized into divisions similar to those of the basic courts, and are further organized into other special divisions, such as the intellectual property division. The higher level court supervise the basic and intermediate courts. The people's procuratorates also have the right to exercise legal supervision over the civil proceedings of courts of the same level and lower levels. The Supreme People's Court is the highest judicial body in China. It supervises the administration of justice by all other courts.

The courts employ a two-tier appellate system. A party may appeal against a judgment or order of a local court to the court at the next higher level. First judgments or orders of the Supreme People's Court are also final. If, however, the Supreme People's Court or a court at a higher level finds an error in a judgment which has been given in any court at a lower level, or the presiding judge of a court finds an error in a judgment which has been given in the court over which he presides, the case may then be retried according to the judicial supervision procedures.

The Civil Procedure Law of the PRC adopted in April 1991, amended in October 2007 August 2012, and June 2017 respectively, sets forth the criteria for instituting a civil action, the

jurisdiction of the courts, the procedures to be followed for conducting a civil action and the procedures for enforcement of a civil judgment or order. All parties to a civil action conducted within the PRC must comply with the Civil Procedure Law. Generally, a civil case is initially heard by a local court of the municipality or province in which the defendant resides. The parties to a contract may, by express agreement, select a jurisdiction where civil actions may be brought, provided that the jurisdiction is either the plaintiff's or the defendant's place of residence, the place of execution or implementation of the contract or the object of the action. However, such selection can not violate the stipulations of grade jurisdiction and exclusive jurisdiction in any case.

A foreign individual or enterprise generally has the same litigation rights and obligations as a citizen or legal person of the PRC. If a foreign country's judicial system limits the litigation rights of PRC citizens and enterprises, the PRC courts may apply the same limitations to the citizens and enterprises of that foreign country within the PRC. If any party to a civil action refuses to comply with a judgment or order made by a court or an award granted by an arbitration panel in the PRC, the aggrieved party may apply to the court to request for enforcement of the judgment, order or award. There are time limits imposed on the right to apply for such enforcement. If a party fails to satisfy a judgment made by the court within the stipulated time, the court will, upon application by either party, mandatorily enforce the judgment.

A party seeking to enforce a judgment or order of a court against a party who is not located within the PRC and does not own any property in the PRC may apply to a foreign court with proper jurisdiction for recognition and enforcement of the judgment or order. A foreign judgment or ruling may also be recognized and enforced by the court according to the PRC enforcement procedures if the PRC has entered into, or acceded to, an international treaty with the relevant foreign country, which provides for such recognition and enforcement, or if the judgment or ruling satisfies the court's examination according to the principal of reciprocity, unless the court finds that the recognition or enforcement of such judgment or ruling will result in a violation of the basic legal principles of the PRC, its sovereignty or security, or for reasons of social and public interests.

Establishment of a Real Estate Development Enterprise

According to the PRC Law on Administration of Urban Real Estate (《中華人民共和國城市房地產管理法》) promulgated by the Standing Committee of the NPC, effective in January 1995, amended in August 2007, August 2009 and August 2019 (effective in January 2020), a real estate developer is defined as an enterprise that engages in the development and operation of real estate for the purpose of making profits. Under the Regulations on Administration of Development of Urban Real Estate (《城市房地產開發經營管理條例》) promulgated by the State Council in July 1998, and amended on January 8, 2011, March 19, 2018, March 24, 2019 and March 27, 2020 respectively, an enterprise that is to engage in development of real estate must satisfy the following requirements:

- its registered capital must be RMB1 million or more; and
- it must have four or more full-time professional real estate/construction technicians and two or more full-time accounting officers, each of whom must hold the relevant qualification certificate.

The local government of a province, autonomous region or municipality directly under the PRC central government may, based on local circumstances, impose more stringent requirements on the registered capital and the professional personnel of a real estate developer.

To establish a real estate development enterprise, the developer must apply for registration with the administration for industry and commerce. The developer must also report its establishment to the real estate development authority in the location of its registration, within 30 days of the receipt of its business license. Where a foreign-invested enterprise is to be established to engage in the development and operation of real estate, it must also comply with the relevant requirements under the PRC laws and administrative regulations regarding foreign-invested enterprises and apply for approvals or filings relating to foreign investments in China.

On June 26, 2018, MOFCOM and NDRC jointly issued the Special Administrative Measures (Negative List) for Foreign Investment Access (2018 Version) (《外商投資准入特別管理措施(負面清單)(2018年版)》) effective from July 28, 2018. On June 30, 2019, MOFCOM and the NDRC jointly issued the Special Administrative Measures (Negative List) for Foreign Investment Access (2019 Version) (《外商投資准入特別管理措施(負面清單)(2019年版)》) which will replace the Special Administrative Measures (Negative List) for Foreign Investment Access (2018 Version) effective from July 30, 2019.

In July 2006, the MOHURD, MOFCOM, NDRC, PBOC, the State Administration for Industry and Commerce (“SAIC”, which has been reorganized as the State Administration for Market Regulation) and SAFE jointly issued an Opinion on Standardizing the Admittance and Administration of Foreign Capital in the Real Estate Market (《關於規範房地產市場外資進入和管理的意見》), which provides, among other things, that an overseas entity or individual investing in real estate in China other than for self-use must apply for the establishment of a foreign invested real estate enterprise (“FIREE”) in accordance with applicable PRC laws and may only conduct operations within the authorized business scope. The joint opinion attempts to impose additional restrictions on the establishment and operation of FIREE by regulating the amount of registered capital as a percentage of total investment in certain circumstances, limiting the validity of approval certificates and business licenses to one year, restricting the ability to transfer equity interests of a FIREE or its projects and prohibiting the borrowing of money from domestic and foreign lenders where its registered capital is not paid up or the land use rights not obtained. In addition, the joint opinion also limits the ability of foreign individuals to purchase commodity residential properties in China.

In May 2007, MOFCOM and SAFE issued the Circular on Strengthening and Regulating the Examination and Approval and Supervision of Foreign Direct Investment in the Real Estate Sector (《關於進一步加強、規範外商直接投資房地產業審批和監管的通知》) (“Circular 50”). Under Circular 50, prior to applying for establishment of real estate companies, foreign investors must first obtain land use rights and building ownership, or must have entered into pre-sale or pre-grant agreements with respect to the land use rights or building ownership. If foreign-invested enterprises in China engage in real estate development or operations or if FIREEs in China engage in new real estate project developments, they must first apply to the relevant PRC governmental authorities to expand their scope of business or scale of operations in accordance with the PRC laws and regulations related to foreign investments. In addition, the local PRC governmental authorities must file with MOFCOM for record their approvals of establishment of FIREEs, and must exercise due control over foreign investments in high-end properties. Foreign exchange authorities may not allow capital-account foreign exchange sales and settlements by FIREEs that have been established in contravention of these requirements.

Moreover, in November 2010, MOFCOM promulgated the Notice on Strengthening Administration of the Approval and Registration of Foreign Investment into Real Estate Industry (《關於加強外商投資房地產業審批備案管理的通知》), which provides that, among other things, in the case that a real estate enterprise is established within the PRC with overseas capital, it is prohibited to purchase and/or sell real estate properties completed or under construction within the PRC for arbitrage purposes. The local MOFCOM authorities are not permitted to approve foreign-invested investment companies to engage in the real estate development and management.

According to the Several Opinions of the State Council on Further Strengthening the Utilization of Foreign Investment (《關於進一步做好利用外資工作的若干意見》), promulgated by the State Council on April 6, 2010, except where approval by the relevant departments under the State Council is required by the Catalog of the Projects which Shall be Approved by the Government (《政府核准的投資項目目錄》), foreign investment in encouraged and permitted industries with a total investment of US\$300 million or less must be examined and approved by NDRC branches at the provincial level. Pursuant to the Notice on Issues Related to Devolution of Authority of Examination and Approval of Foreign Investment (《關於下放外商投資審批權限有關問題的通知》), promulgated by MOFCOM on June 10, 2010, which was abolished on January 1, 2020 MOFCOM branches at the provincial level are responsible for the examination and approval of establishment and modifications of foreign-invested enterprises in encouraged or permitted industries with a total investment of less than US\$300 million and with a total investment of less than US\$50 million in restricted industries.

On November 11, 2015, MOFCOM and SAFE jointly issued the “Circular on Further Improving the Record-filing for Foreign Investment in Real Estate” (《關於進一步改進外商投資房地產備案工作的通知》) which was abolished on January 1, 2020. According to this circular, the record-filing procedure has been cancelled. On September 3, 2016, the Standing Committee of the NPC adopted a decision on amending the law of foreign invested companies which became effective from October 1, 2016. Upon the effectiveness of the decision, the establishment of the foreign invested enterprise and its subsequent changes will be required to be filed with the relevant authorities instead of obtaining approvals from relevant commerce authorities as required by the existing PRC laws, except for the foreign invested enterprises which are subject to the special administrative measures regarding foreign investment entry. On September 30, 2016, the SAIC

issued a circular on relevant issues of the registration of foreign invested enterprises to implement the decision. On October 8, 2016, NDRC and MOFCOM jointly issued a notice according to which the industries falling within the categories in which foreign investment is prohibited or restricted and those falling within the encouraged category subject to relevant requirements of equity or senior management under the Guidance Catalog, will be subject to the special administrative measures for foreign investment entry. On the same day, MOFCOM promulgated the “Provisional Measures for Filing Administration of Establishment and Changes of Foreign-invested Enterprises” (《外商投資企業設立及變更備案管理暫行辦法》) which was revised on July 30, 2017 and June 29, 2018 (effective on June 30, 2018) and was abolished on January 1, 2020. On January 14, 2017, NDRC issued the Circular on Effectively Implementing Foreign Capital-related Work in the Catalog of Investment Projects Subject to Governmental Approval (2016 Version)(《關於做好貫徹落實《政府核准的投資項目目錄(2016年本)》有關外資工作的通知》), according to which, 1) any project of the restricted category with a total investment (including capital increase) for USD300 million or above as included in the Guidance Catalog shall be approved by NDRC, and any project with a total investment (including capital increase) for USD2 billion and above shall be submitted to the State Council for filing, 2) any project of the restricted category with a total investment (including capital increase) for less than USD300 million as included in the Guidance Catalog shall be approved by the provincial government, and 3) the foreign investment projects beyond the scope of projects subject to approval and not in the prohibited category as provided in the Guidance Catalog shall be presented to local development and reform commissions for filing. On February 28, 2018, MOFCOM and SAIC jointly issued the “Notice on Relevant Matters Concerning the Acceptance of Applications for MOFCOM Filing and AIC Registration of Foreign Investment Enterprises at a Single Window with a Single Form” (《關於實行外商投資企業商務備案與工商登記“單一窗口、單一表格”受理有關工作的通知》) under which, since June 30, 2018, applications for MOFCOM filing and registration with administration for market regulation of foreign investment enterprises which are not subject to special administrative measures of foreign investment entry, should be accepted at a single window with a single form nationwide. Subsequently on June 29, 2018, MOFCOM issued the revised Provisional Measures for Filing Administration of Establishment and Changes of Foreign-invested Enterprises which came into effect from June 30, 2018. On March 15, 2019, the National People’s Congress of the PRC adopted the Foreign Investment Law of the PRC or the Foreign Investment Law (《中華人民共和國外商投資法》) with a view toward unifying and streamlining the foreign investment framework into China which came into effect on January 1, 2020. The Foreign Investment Law will replace the PRC Law on Sino-foreign Equity Joint Ventures, the PRC Law on Wholly Foreign-owned Enterprise and the PRC Law on Sino-foreign Cooperative Joint Ventures. Under the Foreign Investment Law, the types of foreign investment into China will include:

- establishment of a foreign invested enterprise in China, independently or jointly with any other investor
- acquisition of shares, equities, property or any other similar rights and interests of an enterprise in China
- investment in a new project in China, independently or jointly with any other investor
- investment in any other way as may be stipulated by laws, administrative regulations or provisions of the State Council

The Foreign Investment Law establishes a nationwide “pre-establishment national treatment and negative list” management system. The system is intended to create an environment where all foreign investment will be treated the same as domestic investments, other than foreign investments into industries that are listed in the “Special Administrative Measures (Negative List) for Foreign Investment Access.” According to the Foreign Investment Law, all foreign invested enterprises will be required to follow the corporate governance rules under the PRC Company Law once the Foreign Investment Law comes into effect. However, for foreign invested enterprises formed prior to the adoption of the Foreign Investment Law, the Foreign Investment Law allows for a five-year transition period to bring the corporate governance of such foreign invested enterprises in line with the PRC Company Law.

On December 26, 2019, the State Council issued the Regulation on Implementing the Foreign Investment Law of the People’s Republic of China effective from January 1, 2020. On December 30, 2019, MOFCOM and the State Administration for Market Regulation jointly issued the Measures for Information Report of Foreign Investment (《外商投資信息報告辦法》), according to which, since January 1, 2020, the relevant reports to the commerce authorities through the enterprise registration system will be required for the establishment of foreign-invested enterprises and the subsequent changes, instead of filing with or obtaining approvals from the commerce authorities. The Provisional Measures for Filing Administration of Establishment and Changes of Foreign-invested Enterprises has been abolished since January 1, 2020.

Qualifications of a Real Estate Developer

Under the Provisions on Administration of Qualifications of Real Estate Developers (《房地產開發企業資質管理規定》) (the “Provisions on Administration of Qualifications”) promulgated by the Ministry of Construction in March 2000 and amended in May 2015 and December 2018, a real estate developer must apply for registration of its qualifications according to such Provisions on Administration of Qualifications. An enterprise may not engage in property development without a qualification classification certificate for real estate development. The Ministry of Construction oversees the qualifications of real estate developers with national operations, and local real estate development authorities at or above the county level oversee the qualifications of local real estate developers.

In accordance with the Provisions on Administration of Qualifications, real estate developers are classified into four classes.

- Class 1 qualifications are subject to preliminary examination by the construction authorities at the provincial level and final approval of the Ministry of Construction. A class 1 real estate developer is not restricted as to the scale of its real estate projects and may undertake a real estate development anywhere in the country.
- Class 2 or lower qualifications are regulated by the construction authorities at the provincial level subject to delegation to lower level government agencies. A real estate developer of class 2 or lower may undertake a project with a gross floor area of less than 250,000 square meters subject to confirmation by the construction authorities at the provincial level.

Under the relevant PRC laws and regulations, the real estate development authorities will examine applications for registration of qualifications submitted by real estate developers by considering the professional personnel in their employ, financial condition and operating results. A real estate developer that passes the qualification examination will be issued a qualification certificate of the relevant class by the qualification examination authority. A developer of any qualification classification may only engage in the development and sale of real estate within its approved scope of business and may not engage in business which is limited to another classification.

For a newly established real estate developer, the real estate development authority will issue a provisional qualification certificate, if it is an eligible developer, within 30 days of receipt by the authority of the application. The provisional qualification certificate will be effective for one year from its date of issue and may be extended for not more than two additional years with the approval of the real estate development authority. The real estate developer must apply for qualification classification to the real estate development authority within one month before expiration of the provisional qualification certificate.

Development of a Real Estate Project

Under the Interim Regulations of the People's Republic of China on Grant and Assignment of the Use Right of State-owned Urban Land (《中華人民共和國城鎮國有土地使用權出讓和轉讓暫行條例》) promulgated by the State Council in May 1990, China adopted a system to grant and assign the right to use state-owned land. A land user must pay a land premium to the state as consideration for the grant of the right to use a land site within a specified period of time, and the land user may assign, lease out, mortgage or otherwise commercially exploit the land use rights within the term of use. Under the relevant PRC laws and regulations, the land administration authority at the city or county level may enter into a land grant contract with the land user to provide for the grant of land use rights. The land user must pay the land premium as provided by the land use rights grant contract. After payment in full of the land premium, the land user may register with the land administration authority and obtain a land use rights certificate which evidences the acquisition of land use rights. The relevant PRC laws and regulations provide that land use rights for a site intended for real estate development must be obtained through grant except for land use rights which may be obtained through premium-free allocation by the PRC government pursuant to the PRC laws or the stipulations of the State Council. Government-allocated land is not allowed to be transferred unless the transfer is approved by the relevant PRC government authorities and the land premium as determined by the relevant PRC government authorities has been paid.

At the stages of examination, approval or record-filing for a construction project, the construction or the developer entity must make a preliminary application for construction on the relevant site to the relevant land administration authority in accordance with the Measures for Administration of Examination and Approval for Construction Sites (《建設用地審查報批管理辦法》) promulgated by the Ministry of Land and Resources (which has been reorganized as the Ministry of Natural Resources) in March 1999 and amended on November 30, 2010 and November 2016 respectively, and the Measures for Administration of Preliminary Examination of Construction Project Sites (《建設項目用地預審管理辦法》) promulgated by the Ministry of Land and Resources in July 2001, as amended in November 2004, November 2008 and November 2016 respectively. After receiving the preliminary application, the land administration authority will carry out preliminary examinations of various aspects of the construction project in compliance with the overall zoning plans and land supply policy of the government, and will issue a preliminary approval in respect of the project site if its examination proves satisfactory. The land administration authority at the relevant city or county will sign a land use rights grant contract with the land user and issue an approval for the construction site to the construction entity or the developer.

Under the Measures for Control and Administration of Grant and Assignment of Right to Use Urban State-owned Land (《城市國有土地使用權出讓轉讓規劃管理辦法》) promulgated by the Ministry of Construction in December 1992, the grantee under a land grant contract, i.e. a real estate developer, must further apply for a permit for construction site planning from the relevant municipal planning authority. After obtaining such permit, a real estate developer will organize the necessary planning and design work. Planning and design proposals in respect of a real estate development project are again subject to relevant reporting and approval procedures required under the Law of the People's Republic of China on Urban and Rural Planning (《中華人民共和國城鄉規劃法》) promulgated by the NPC in October 2007 and amended in April 2015 and April 23, 2019 and local statutes on municipal planning. Upon approval by the authorities, a permit for construction works planning will be issued by the relevant municipal planning authority.

In accordance with the Regulations for the Expropriation of Compensation for Housing on State-owned Land (《國有土地上房屋徵收與補償條例》) promulgated by the State Council and implemented in January, 2011, with regard to the expropriation of the housing of entities and individuals on the State-owned land for the need of public interest, the owners of the housing being expropriated shall be offered a fair compensation.

Compensation offered by governments at municipal and county levels that make housing expropriation decisions regarding parties with housing being expropriated includes: (i) compensation for the value of the housing being expropriated; (ii) compensation for relocation and temporary settlement caused by expropriation of housing; and (iii) compensation for the loss arising from the suspension of production and operation caused by expropriation of housing.

The amount of compensation for the value of housing being expropriated may not be less than the market price of the real estate similar to it on the announcement date of the housing expropriation decision. The value of housing being expropriated must be appraised and determined by a real estate price appraisal institution with corresponding qualifications according to the housing expropriation appraisal measures. A party that objects to the appraised value of the housing being expropriated may apply to the real estate price appraisal institution for review of the appraisal. A party that objects to the review result may apply to the real estate price appraisal expert committee for authentication.

The parties whose housing is being expropriated may choose monetary compensation, or may choose to exchange the property rights of the housing. If the parties whose housing is being expropriated choose to exchange the property rights of the housing, governments at municipal and county levels must provide housing used for the exchange of property rights, and calculate and settle the difference between the value of housing being expropriated and the value of housing used for the exchange of property rights. If residential housing of an individual is expropriated due to renovation of an old urban district and the individual chooses to exchange for the property rights of the housing in the area being renovated, governments at municipal and county levels that make housing expropriation decisions must provide the housing in the area being renovated or the nearby area.

When the site has been properly prepared and is ready for the commencement of construction works, the developer must apply for a permit for commencement of works from the construction authorities at or above the county level according to the Measures for Administration of Granting Permission for Commencement of Construction Works (《建築工程施工許可管理辦法》) promulgated by the MOHURD in June 2014 and amended in September 2018. According to the Notice Regarding Strengthening and Regulating the Administration of Newly-commenced Projects (《國務院辦公廳關於加強和規範新開工項目管理的通知》) issued by the General Office of the State Council on November 17, 2007, before commencement of construction, all kinds of projects shall fulfill certain conditions, including, among other things, compliance with national industrial policy, development plan, land supply policy and market access standard, completion of all approval and filing procedures, compliance with zoning plan in terms of site and planning, completion of proper land use procedures and obtaining proper environmental valuation approvals and construction permit or report.

The development of a real estate project must comply with various laws and legal requirements on construction quality, safety standards and technical guidance on architecture, design and construction work, as well as provisions of the relevant contracts. On January 30, 2000, the State Council promulgated and implemented the Regulation on the Quality Management of Construction Projects (《建設工程質量管理條例》) as amended in October 2017 and April 2019, which sets the respective quality responsibilities and liabilities for developers, construction companies, reconnaissance companies, design companies and construction supervision companies. In August 2008, the State Council issued the Regulations on Energy Efficiency for Civil Buildings (《民用建築節能條例》), which reduces the energy consumption of civil buildings and improves the efficiency of the energy utilization. According to this regulation, the design and construction of new buildings must meet the mandatory criteria on energy efficiency for buildings, and failure to meet such criteria will result in no commencement of construction or acceptance upon completion. Among other things, this regulation sets forth additional requirements for property developers in the sale of commodity buildings in this respect. According to the Administrative Measures for Reporting Details Regarding Acceptance Examination Upon Completion of Buildings and Municipal Infrastructure (《房屋建築和市政基礎設施工程竣工驗收備案管理辦法》) enacted by the Ministry of Construction in April 2000 and amended on October 19, 2009 and the Provisions on Acceptance Examination Upon Completion of Buildings and Municipal Infrastructure (《房屋建築和市政基礎設施工程竣工驗收規定》) which were promulgated by the MOHURD in December 2013, after completion of work for a project, a property developer is required to apply for the acceptance examination to the property development authority under the people's government on or above the county level and report details of the acceptance examination, upon which the "Record of acceptance examination upon project completion" is issued. For a housing estate or other building complex project, an acceptance examination is required to be conducted upon completion of the whole project and where such a project is developed in phases, separate acceptance examination is required to be carried out for each completed phase.

Land for Property Development

In April 1988, the NPC amended the PRC Constitution to permit the transfer of land use rights in accordance with the laws and regulations. In December 1988, the National People's Congress amended the Land Administration Law (《中華人民共和國土地管理法》) to permit the transfer of land use rights in accordance with the laws and regulations.

Pursuant to the Measures on Disposal of Idle Land (《閑置土地處置辦法》) promulgated by the Ministry of Land and Resources on April 28, 1999, idle land fees may be imposed on land that has not been developed for one year from the contractual construction commencement date. Land use rights may be forfeited to the government without compensation to the developer if the land has not been developed for two years as required by the laws and regulations, and allotted for other purposes. Under current PRC laws and regulations on land administration, land for property development may be obtained only by grant except for land use rights obtained through allocation. Under the Regulations on the Grant of State-owned Land Use Rights Through Public Tender, Auction and Listing-for-Sale promulgated by the Ministry of Land and Resources (《招標拍賣掛牌出讓國有土地使用權規定》) in May 2002 and amended in September 2007, land for commercial use, tourism, entertainment and commodity housing development must be granted by public tender, auction or listing-for-sale. Under these regulations, the relevant land administration authority at city or county level, or the grantor, is responsible for preparing the public tender or auction documents and must make an announcement 20 days prior to the day of public tender or auction with respect to the particulars of the land parcel and the time and venue of the public tender or auction. The grantor must also verify the qualification of the bidding and auction applicants, accept an open public auction to determine the winning tender or hold an auction to ascertain a winning bidder. The grantor and the winning tender or bidder will then enter into a confirmation followed by the execution of a contract for assignment of state-owned land use rights. Over the years, the Ministry of Land and Resources has promulgated further rules and regulations to define the various circumstances under which the state-owned land use rights may be granted by means of public tender, auction and listing-for-sale or by agreement. Under the Regulation on Grant of State-owned Land Use Rights by Agreements (《協議出讓國有土地使用權規定》) promulgated by the Ministry of Land and Resources on June 11, 2003, except for a project that must be granted through tender, auction and listing as required by the relevant laws and regulations, land use right may be granted through transfer by agreement and the land premium for the transfer by agreement of the state-owned land use right shall not be lower than the benchmark land price.

The Urgent Notice on Further Governing and Rectifying Land Market and Strengthening Administration of Land (《關於深入開展土地市場治理整頓嚴格土地管理的緊急通知》) issued by the General Office of the State Council on April 29, 2004 restated the principle of strict administration of the approval process for the construction land and protection of the basic farmland.

The Notice on Issues Relating to Strengthening the Land Control (《關於加強土地調控有關問題的通知》) promulgated by the State Council on August 31, 2006 sets forth the administration of the receipt and disbursement of the land premium, modifies the tax policies relating to the construction land, and builds up the system of publicity for the standards of the lowest price with respect to the granted state-owned land use right.

In March 2007, the NPC adopted the PRC Property Rights Law (《中華人民共和國物權法》), which became effective on October 1, 2007 and will be superseded by the Civil Law of the PRC (《中華人民共和國民法典》) since January 1, 2021. According to the Property Rights Law, when the term of the right to use construction land for residential (but not other) purposes expires, it will be renewed automatically. Unless it is otherwise prescribed by any law, the owner of construction land use rights has the right to transfer, exchange, and use such land use rights as equity contributions or collateral for financing. If the state takes the premises owned by entities or individuals, it must compensate the property owners in accordance with law and protect the lawful rights and interests of the property owners.

In September 2007, the Ministry of Land and Resources further promulgated the Regulations on the Grant of State-owned Construction Land Use Rights Through Public Tender, Auction and Listing-for-Sale (《招標拍賣掛牌出讓國有建設用地使用權規定》) to require that land for industrial use, except land for mining, must also be granted by public tender, auction and listing-for-sale. Only after the grantee has paid the land premium in full under the land grant contract, can the grantee apply for the land registration and obtain the land use right certificates. Furthermore, land use rights certificates may not be issued in proportion to the land premium paid under the land grant contract.

In October 2007, the Standing Committee of National People's Congress promulgated the Law of the People's Republic of China Urban and Planning (《中華人民共和國城鄉規劃法》), pursuant to which, a construction planning permit must be obtained from the relevant urban and rural planning government authorities for building any structure, fixture, road, pipeline or other engineering project within an urban or rural planning area.

In November 2007, the Ministry of Land and Resources, the Ministry of Finance and PBOC jointly promulgated the Administration Measures on Land Reserves (《土地儲備管理辦法》) as amended in January 2018, pursuant to which, local authorities should reasonably decide the scale of land reserves in accordance with the macro-control of the land market. Idle, unoccupied, and low-efficient state-owned construction land inventory shall be used as land reserves in priority.

In December, 2007, the Ministry of Land and Resources promulgated the Rules on Land Registration (《土地登記辦法》), which further stresses payment in full of the land premium prior to the application for the registration of state-owned construction land use rights. In December 2017, the Rules on Land Registration was abolished.

In November 2009, the MOF, the Ministry of Land and Resources, PBOC, the PRC Ministry of Supervision and the PRC National Audit Office jointly promulgated the Notice on Further Enhancing the Revenue and Expenditure Control over Land Grant (《關於進一步加強土地出讓收支管理的通知》). The Notice raises the minimum down-payment for land premiums to 50% and requires the land premium to be fully paid within one year after the signing of a land grant contract, subject to limited exceptions. Any developer defaulting on any such payment may not participate in any new transactions of land grant.

In November 2009, the MOHURD and the Office of the Leading Group for Addressing Problems Regarding Unauthorized Change of Planning and Adjustment of the Floor Ratio in Real Estate Development under the Ministry of Supervision jointly promulgated the Notification on Further Unfolding of the Special Project to Address Problems Regarding Unauthorized Change of Planning and Adjustment of the Floor Area Ratio (《關於深入推進房地產開發領域違規變更規劃調整容積率問題專項治理的通知》) which re-emphasized the need to rectify, investigate and punish real estate developing companies committing any unauthorized adjustment of the floor area ratio.

In March 2010, the Ministry of Land and Resources promulgated the Notification on Issues Relating to Strengthening the Supply and Regulation of the Land for Real Estate Development (《關於加強房地產用地供應和監管的有關問題的通知》) which adopted measures to improve the regulation of land for real estate development. These include, among others, measures to improve the preparation and implementation of the plan of land supply, guarantee the supply of land for supportive housing development, improve the regime of public tender, auction and list-for-sale of land use right, enhance the supervision on the use of land, disclose information on the supply and grant of land and the status of the construction project on the land to the public, and conduct special inspection on outstanding problems in the field of land use.

Pursuant to the notification, the administration of land and resources of cities and counties shall establish a regime for developers to report the commencement and completion of construction projects. Under such regime, the developer shall report in writing to the respective administration of land and resources at the commencement and completion of the construction project. The commencement and completion date of construction set forth in the agreements may be postponed by reporting the reasons of delay to the respective administration of land and resources no later than 15 days prior to the expiration. The developer who fails to report accordingly shall be announced to the public and prohibited from participating in any new transactions of land grant for at least one year. Additionally, the land used for developing supportive housing, small-to-medium-size self-used residential commodity housing and reconstructing shantytown shall not be less than 70% of the total land supply for residential property development. The lowest land premium for the grant of land use right shall not be lower than 70% of the benchmark price for the land grade the granted land locates, and the deposit for the participation of tender shall not be lower than 20% of the lowest land premium. The land grant agreement shall be executed in writing within 10 days after the deal is reached, the down payment of the land grant price which shall not be less than 50% of the full land grant price shall be paid within one month after the land grant agreement is executed, and the land grant price shall be paid in full no later than one year after the land grant agreement is executed. A developer who defaults on the payment of the land premium, holds idle land, hoards or speculates in land, develops property on the land exceeding its actual development capacity or defaults on the performance of land grant agreement shall be banned from participating in any transactions of land grant for a certain period.

On September 21, 2010, the Ministry of Land and Resources and the Ministry of Housing and Urban Development jointly promulgated the Notice of Further Strengthening Control and Regulation of Land and Construction of Property Development (《關於進一步加強房地產用地和建設管理調控的通知》), which stipulated, among other things, that: (i) at least 70% of land designated for construction of urban housing must be used for economically affordable housing, housing for resettlement of shanty towns and small to medium-sized ordinary commercial housing; in areas with high housing prices, the supply of land designated for small to medium-sized, price-capped housing must be increased; (ii) developers and their controlling shareholders (as defined under PRC laws) are prohibited from participating in land biddings before the rectification of certain misconduct, including (1) illegal transfer of land use rights; (2) failure to commence required construction within one year from the delivery of land under land grant contracts due to such developers' own reasons; (3) noncompliance with the land development requirements specified in land grant contracts; and (4) crimes such as swindling land by forging official documents and illegal land speculation; (iii) developers are required to commence construction within one year from the date of delivery of land under the relevant land grant contract and complete construction within three years since commencement of the construction; (iv) development and construction of projects of low-density and large-sized housing must be strictly limited and the plot ratio of the planned GFA to the total site area of residential projects must be more than 1:1; and (v) the grant of two or more bundled parcels of lands and undeveloped land is prohibited.

In December 2010, the Ministry of Land and Resources promulgated the Notice on Strict Implementation of Policies Regarding Regulation and Control of Real Property Land and Promotion of the Healthy Development of Land Markets (《關於嚴格落實房地產用地調控政策促進土地市場健康發展有關問題的通知》), which provides, among other things, that: (i) cities and counties that have less than 70% of their land supply designated for social security housing projects, housing for redevelopment of shanty towns or small/medium residential units must not provide land for large-sized and high-end housing before the end of 2010; (ii) land and resource authorities in local cities and counties will report to the Ministry of Land and Resources and provincial land and resource authorities, respectively regarding land with a premium rate of more than 50%; (iii) land designated for affordable housing which is used for commodity property development against relevant policies or involved illegal income will be confiscated and the relevant land use rights will be withdrawn. Moreover, changing the plot ratio without approval is strictly prohibited.

On February 15, 2012, the Ministry of Land and Resources promulgated the Notice on Accomplishment of Real Estate Land Administration and Control in 2012 (《國土資源部關於做好2012年房地產用地管理和調控重點工作的通知》). The notice provides that:

- **The real estate control policy shall be firmly performed and the key tasks shall be clarified.** The real estate land administration and control is confronting fundamental requirements and key tasks that the control policy by central government shall be strictly implemented, the supervision and control shall be strengthened, while the price of real estate and land shall be stable and reasonable.
- **The real estate land supply shall be properly managed for the purpose of the welfare of the masses.** Relevant authorities shall compile the annual supply plan of land for residential purposes of year 2012 from a scientific and reasonable perspective. The planned land supply quantity shall be no smaller than the average quantity of the recent five years, no less than 70% among which shall be designated for social security housing projects, housing for redevelopment of shanty towns and small/medium residential units. The supply of land for social security housing projects shall be guaranteed. The supply of high-end housing land shall be strictly controlled and no land shall be permitted for the development of villas.
- **The land supply for social security housing projects shall be guaranteed.** The construction land permission procedure for social security housing projects shall be accelerated.

- **Unlawful acts shall be strictly punished and the development and construction shall be vigorously encouraged.** Unlawful acts, including any of the following ones, shall be prohibited: a land use right is granted over a parcel of land where the land area exceeds the size approved by the relevant competent authorities; more than one parcel of land is granted to the same bidder at the same time; a land use right is granted over a parcel of land where the demolition of buildings erected on such land has not been carried out of the occupants of such land have not been compensated for the demolition and resettlement; a land use right is granted over a parcel of land with a plot ratio of less than one. A reporting system shall be implemented according to which, when concluding a land grant contract, a provision providing land users report to land and resources authorities in a written form before or at the commencement and completion of a project.
- **Supervision analysis and media propaganda shall be strengthened to provide a positive guidance towards the market.** Relevant local departments shall strengthen the supervision over land price. A record filing system of abnormal land purchases shall be implemented and improved.

On May 22, 2012, the Ministry of Land and Resources amended the Measures on Disposal of Idle Land (《閒置土地處置辦法》), which were originally published in April 1999. This amendment includes the following significant changes or new provisions:

- **Emphasizing the key purposes of regulating idle land.** The current version of Measures on Disposal of Idle Land re-emphasize the importance of suppressing intentional reservations of land for the purpose of resale. For example, it provides that if the real estate developer intentionally delays the commencement of construction and development for the purpose of reserving the land for resale with bad faith, and before the condition of such land is reviewed and disposed of by the government, the government should neither accept new applications for land use by the same holder of land use rights, nor register the status of transfer, lease, mortgage or information change of the land considered to be idle.
- **Readdressing the disposal method of idle land.** Consistent with the April 1999 version, the amended Measures on Disposal of Idle Land once again addressed the method of disposal of idle land. If the real estate developer fails to commence the construction and development of the land for one year, the government should issue the Notice on Imposition of Land Idleness Penalty Fees to the holder of land use right. The penalty fees should be 20% of the price that the holder paid for obtaining the land use right. If the holder of land use rights failed to commence the construction and development of the land for two years, the government should issue the Notice on Decision of Withdrawal of Land Use Right to the holder, thereby withdrawing the holder's right to use land for free. However, compared with the 1999 version, the amended Measures on Disposal of Idle Land specify the procedure for determining and disposing of idle land, including:
 1. Once relevant governmental authority suspects that a tract of land has become idle, it should initiate investigation within 30 days therefrom and issue a "notice on investigation of idle land" to the holder of land use right. The holder of land use right should submit explanatory materials about the development condition and reason for land idleness to the government within 30 days upon the receipt of such notice.
 2. After investigation, if the government decides that the investigated land has become idle, it should issue a "notice on confirmation of idle land" to the investigated holder of land use rights, which will specify the facts and grounds for determining that the land concerned has become idle. Relevant information of the idle land will also be published on the governmental authority's official website after issuance of such notice.

3. If the idleness of land was caused by the real estate developer rather than the government, the governmental authority is entitled to impose penalty fees for the idleness or even withdraw the decision for granting the land use right. However, before such penalty decisions are made, the government should notify the holder of the land use rights that the holder has the right to request a hearing.
 4. Once the government decides to impose penalty fees for land idleness, it should issue a “notice on imposition of land idleness penalty fees” to the holder of the land use rights, and the owner should pay the penalty fees within 30 days upon the receipt of the notice. If the government decides to withdraw the decision for granting land use right, the government should issue a “notice on decision of withdrawal of land use rights” to the holder, and the holder should cancel the registration of its land use rights from government’s record within 30 days upon its receipt of such notice.
- **Specifying the circumstances where the delay of commencement of construction and development was caused by the government.** If the delay of commencement of construction and development was caused by the government, the real estate developer will not be directly subject to penalties for delays caused by the developer itself. The amended Measures on Disposal of Idle Land specify the following circumstances where the delay of commencement of construction and development is considered to be caused by the government:
 1. Where the land fails to be delivered to the holder of the land use rights in accordance with the time limit and conditions as prescribed in the land transfer contract or the land allocation decision, with the result that the conditions for commencing the construction and development of the project are not met;
 2. Where relevant land-use planning is modified, with the result that the owner of the land use rights cannot commence construction and development;
 3. Where the land-use planning and construction conditions need to be modified in light of new policies issued by the government;
 4. Where the construction and development of the land cannot be commenced due to complaints lodged by the general public in connection with the land;
 5. Where the construction and development of the land cannot be commenced due to military control or protection of historic and cultural relics; and
 6. Where other acts of any government or government agency cause the delay.

According to the Circular on the Distribution of the Catalog for Restricted Land Use Projects (2012 Edition) and the Catalog for Prohibited Land Use Projects (2012 Edition) (《關於印發《限制用地項目目錄(2012年本)》和《禁止用地項目目錄(2012年本)》的通知》) promulgated by the Ministry of Land and Resources in May 2012, the transferred area of the residential housing projects should not exceed (i) seven hectares for small cities and towns, (ii) 14 hectares for medium-sized cities, and (iii) 20 hectares for large cities, and plot ratio must be more than 1.0. The MOHURD and the Ministry of Land and Resources jointly issued the Circular of Relevant Work on Strengthening the Recent Administration and Control of Housing and Land Supply (《關於加強近期住房及用地供應管理和調控有關工作的通知》) dated April 1, 2017 which provides, among others, that cities and counties that have more than one million inhabitants should make three-year (2017-2019) and a five-year (2017-2021) plans for housing land supply, and make the plans public by the end of June 2017. The circular further requires that local governments should adjust the size, structure and timing of land supply for residential housing in due course depending on the period of the inventory cycle of commodity housing: where such period is longer than 36 months, no more land is to be supplied; land supply shall be reduced in size if the said period is over 18 months but shorter than 36 months; more land shall be provided in the case of a period of longer than six months but shorter than 12 months; however, if the current inventory could be sold in less than six months, land shall be supplied in a significant scale at a fast pace. In addition, the circular stipulates that local authorities should adopt the examination system of land acquisition capital to insure the property developers acquiring land with internal funds and the property developers should be disqualified for any land bid backed by capital from questionable sources and prohibited from bidding for land within stipulated time limit.

Sale of Commodity Houses

Under the Measures for Administration of Sale of Commodity Houses (《商品房銷售管理辦法》) promulgated by the Ministry of Construction in April 2001, sale of commodity houses can include both sales before the completion of the properties, or pre-sale, and sales after the completion of the properties.

Any pre-sale of commodity buildings must be conducted in accordance with the Measures for Administration of Pre-sale of Commodity Buildings in Urban Area promulgated by the Ministry of Construction in November 1994 (《城市商品房預售管理辦法》), as amended in August 2001 and July 2004, and other related regulations. The pre-sale regulations provide that any pre-sale of commodity properties is subject to specified procedures. According to the current PRC laws and regulations, a pre-sale permit must be in place before a commodity building may be put to pre-sale. Specifically, a developer intending to sell a commodity building before its completion must apply to the real estate development authorities for a pre-sale permit. A commodity building may be sold before completion only if:

- the purchase price has been paid in full for the grant of the land use rights involved and a land use rights certificate has been properly obtained;
- a construction planning permit and a construction permit have been properly obtained;
- funds invested in the development of the commodity buildings for pre-sale represent 25% or more of the total investment in the project and the construction progress as well as the completion and delivery dates have been properly ascertained; and
- a pre-sale permit has been obtained.

The pre-sale proceeds of commodity buildings must be used to develop the relevant project so pre-sold.

Commodity buildings may be put to post-completion sale and delivery after they have passed the acceptance examination and otherwise satisfy the various preconditions for such sale. Before the post-completion sale of a commodity building, the developer must, among other things, submit a real estate development project manual and other documents relating to the project evidencing the satisfaction of the preconditions for post-completion sale to the real estate development authority for its record.

On April 13, 2010, MOHURD issued the *Notice on Further Enhancing the Supervision of the Real Estate Market and Perfecting the Pre-sale System of Commodity Houses* (《關於進一步加強房地產市場監管完善商品住房預售制度的有關問題的通知》). Pursuant to the notice, without the pre-sale approval, the commodity properties are not permitted to be pre-sold and the real estate developer are not allowed to charge the buyer any deposit or pre-payment or payment of the similar nature. In addition, the notice urges local governments to enact regulations on sale of completed commodity properties in light of the local conditions, and encourages property developers to sell completed commodity properties.

The *Provisions on Sales of Commodity Properties at Clearly Marked Price* (《商品房銷售明碼標價規定》) was promulgated by the NDRC on March 16, 2011 and became effective on May 1, 2011. According to the provisions, any real estate developer or real estate agency (“real estate operators”) is required to mark the selling price explicitly and clearly for both newly-build and second-hand commodity properties. The provisions require real estate operators to clearly indicate the prices and relevant fees of commodity properties, as well as other factors affecting the prices of commodity properties to the public. With respect to the real estate development projects that have received property pre-sale permit or have completed the filing procedures for the sales of constructed properties, real estate operators shall announce all the commodity properties available for sales on at once within the specified time limit. Furthermore, with regard to a property that has been sold out, real estate operators are obliged to disclose this information and to disclose the actual transaction price. Real estate operators cannot sell commodity properties beyond the explicit marked price or charge any other fees not explicitly marked. Moreover, real estate operators may neither mislead properties purchasers with false or irregular price marking, nor engage in price fraud by using false or misleading price marking methods.

Transfer of Real Estate

According to the PRC laws and the Provisions on Administration of Transfer of Urban Real Estate (《城市房地產轉讓管理規定》) promulgated by the Ministry of Construction in August 1995, as amended in August 2001, a real estate owner may sell, gift or otherwise legally transfer the property to another natural person or legal entity. When transferring a building, the ownership of the building and the land use rights to the site on which the building is situated are transferred together. The parties to a transfer must enter into a written real estate transfer contract and register the transfer with the real estate administration authority having jurisdiction over the location of the real estate within 90 days of the execution of the transfer contract.

Where the land use rights are originally obtained by grant, the real property may only be transferred on the condition that:

- the land premium has been paid in full for the granted land use rights as required by the land grant contract and a land use rights certificate has been properly obtained; and
- in the case of a project in which buildings are being developed, development representing more than 25% of the total investment has been completed; or
- in case of a whole land lot development project, construction works have been carried out as planned, water supply, sewerage, electricity supply, heat supply, access roads, telecommunications and other infrastructure or utilities have been made available, and the site has been leveled and made ready for industrial or other construction purposes.

If the land use rights are originally obtained by grant, the term of the land use rights after transfer of the real estate will be the remaining portion of the original term in the land grant contract. In the event that the assignee intends to change the use of the land provided in the land grant contract, consent must first be obtained from the original land use rights grantor and the planning administration authority at the relevant city or county and an agreement to amend the land grant contract or a new land grant contract must be signed in order to, inter alia, change the use of the land and adjust the land premium accordingly.

If the land use rights are originally obtained by allocation, such allocated land use right may be changed to granted land use rights upon approval by the government vested with the necessary approval power as required by the State Council. After the government authorities vested with the necessary approval power approve such change, the grantee must complete the formalities for the grant of the land use rights and pay the land premium according to the relevant statutes. Assignment of Land for commercial use, tourism, entertainment and commodity housing development must be conducted through public tender, auction or listing-for-sale under the current PRC laws and regulations.

Leases of Buildings

The Measures for Administration of Lease of Commodity Housing (《商品房屋租賃管理辦法》) promulgated by the MOHURD on December 1, 2010 and implemented on February 1, 2011, requires parties to a leasehold arrangement of a property shall register the leasing agreement with property administrative authorities within 30 days after entering into such leasing agreement under local government at the municipal or county level where the property is situated. In addition, enterprise may be imposed a fine of RMB1,000 to RMB10,000 and individuals of RMB1,000 or less if they do not register leasing agreement within time limit required by competent authorities. On June 3, 2016, the General Office of the State Council issued the Opinions on Accelerating the Cultivation and Development of Leasing Market (《國務院辦公廳關於加快培育和發展住房租賃市場的若干意見》), which encourages real estate developers to carry out house leasing businesses. The said opinions support real estate developers to utilize built residential properties or newly built residential properties to carry out leasing businesses. The opinions also encourage real estate developers to put up the residential properties for rent and to cooperate with residential property leasing enterprises to develop rental properties.

On July 18, 2017, MOHURD, NDRC and other government departments jointly released the Circular on Accelerating the Development of the Housing Leasing Market in Large and

Medium-sized Cities with a Large Inflow Population (《關於在人口淨流入的大中城市加快發展住房租賃市場的通知》, hereinafter referred to as the Circular). According to the Circular, the government will take multiple measures to speed up the development of the rental market and increase supply of rental housing, including but not limited to, encouraging the local governments to increase land supply for the development of property for rental- and increasing the proportion of rental housing to the commercial residential building projects.

On September 14, 2017, MOHURD issued a notice and officially announce its support for the pilot program on houses with joint property ownership rights in Beijing and Shanghai. On March 16, 2016, Shanghai Municipal People's Government promulgated the Measures for the Administration on Houses with Joint Property Rights (《上海市共有產權保障住房管理辦法》), which was implemented on May 1, 2016. On September 20, 2017, Beijing Municipal Housing and Urban-Rural Development Commission, Beijing Municipal Planning and Land Resources Management Committee, Beijing Municipal Development and Reform Commission and Beijing Municipal Bureau of Finance released the Interim Measures for the Administration of Houses with Joint Property Rights (《共有產權住房管理暫行辦法》), which was implemented on September 30, 2017. According to the aforementioned measures, the houses with joint property ownership rights refers to the housing that the property ownership rights are jointly owned by the government and the purchasers, and the sales price is lower than the market price and the ownership of the housing is restricted. The land for joint property ownership rights will be included in the annual plan of land supply of the local government, listed separately and supplied with priority. On December 13, 2019, MOHURD, NDRC and other government departments jointly issued the Opinions on Regulating the Leasing Market Order (《關於整頓規範住房租賃市場秩序的意見》).

Mortgages of Real Estate

Under the PRC Urban Real Estate Administration Law (《中華人民共和國城市房地產管理法》) promulgated by the Standing Committee of the National People's Congress in July 1994 as amended in August 2019 and came into effect on January 1, 2020, the PRC Security Law (《中華人民共和國擔保法》) promulgated by the NPC in June 1995 which will be superseded by the Civil Law of the PRC since January 1, 2021, and the Measures for Administration of Mortgages of Urban Real Estate (《城市房地產抵押管理辦法》) promulgated by the Ministry of Construction in May 1997, as amended in August 2001, when mortgage is created on the ownership of a building legally obtained, such mortgage must be simultaneously created on the land use rights of the land on which the building is situated. The mortgagor and the mortgagee must sign a mortgage contract in writing. China has adopted a system to register mortgages of real estate. After a real estate mortgage contract has been signed, the parties to the mortgage must register the mortgage with the real estate administration authority at the location where the real estate is situated. A real estate mortgage contract will become effective on the date of registration of the mortgage. If a mortgage is created on the real estate in respect of which a property ownership certificate has been obtained legally, the registration authority will, when registering the mortgage, make an entry under "third party rights" on the original property ownership certificate and then issue a certificate of third party rights to the mortgagee. If a mortgage is created on the commodity building put to pre-sale or on works in progress, the registration authority will, when registering the mortgage, record the details on the mortgage contract. If construction of a real property is completed during the term of a mortgage, the parties involved will re-register the mortgage of the real property after issue of the certificates evidencing the rights and ownership to the real estate.

The PRC Property Rights Law promulgated in March 2007 that became effective in October 2007 further widens the scope of assets that can be mortgaged, allowing for any asset associated with property rights to be mortgaged as collateral unless a specific prohibition under another law or regulation applies.

Property Financing

The Circular on Further Strengthening the Management of Loans for Property Business (《關於進一步加強房地產信貸業務管理的通知》) (Yinfa [2003] No. 121) issued by PBOC on June 5, 2003 specifies the requirements for banks to provide loans for the purposes of property development and individual residential mortgage as follows:

- commercial banks shall issue loans applied for by property development enterprises on through property development loans, and shall not issue in the form of property development cash flow loans or any other forms. Any kind of loan cannot be granted for the projects which do not have land-use rights certificates, construction land planning

permits, construction works planning permits and construction commencement permits. Where non-property loans are issued to property development enterprises, commercial banks shall observe the principle of “recovering only, and no issuing.” The proprietary capital (owner’s equity) of property development enterprises applying for loans shall be no less than 30% of the total development investment. Property loans extended by commercial banks may only be used for local housing projects and may not be used cross-regionally;

- property loans may be granted to property enterprises who are qualified for property development, rank high in credibility and have no overdue payment for construction. Such loans must be given in full support of residential housing projects which conform to the purchasing capacity of families with medium-to-low income, and must be properly restricted where projects involve building properties of large size and/or cover large area, such as luxury commodity houses and villas. For property enterprises with commodity houses of high vacancy rate and debt ratio, strict approval procedures must be applied to their new property development loans and their activities must also be subject to close monitoring;
- loans to land reserve institutions shall be mortgage loans, the amount of which shall not exceed 70% of the assessed value of purchased lands, and the term of loans shall not exceed two years. Commercial banks shall not issue loans to property development enterprises for the purpose of paying for land premiums; and
- commercial banks shall further expand the spectrum of individual housing loans to allow more people to benefit from such loans. To reduce unnecessary interest for borrowers, commercial banks shall issue individual housing loans only to those who purchase housing where main structural development has already been completed. Where borrowers apply for individual housing loans to purchase their first residence for self-use, the ratio of down payment shall remain 20%; for second or further residences, the ratio of down payment shall be raised appropriately.

In a Circular on Facilitating the Continuously Healthy Development of Property Market (《關於促進房地產市場持續健康發展的通知》) issued by the State Council in August 2003, a series of measures were adopted by the government to control the property market, including on the lending for residential development. They included, among others, strengthening efforts in housing provident fund collection and the granting of loans, improving the guarantee mechanism of individual home loans and strengthening the monitoring over property loans.

Pursuant to the Guidance on Risk Management of Property Loans of Commercial Banks (《商業銀行房地產貸款風險管理指引》) issued by the CBRC on August 30, 2004, any property development enterprises applying for property development loans must have at least 35% of capital required for the development.

The Notice on Adjustment of the Housing Loan Policy and Deposit Rate of Excess Reserve for Commercial Banks (《關於調整商業銀行住房信貸政策和超額準備金存款利率的通知》), promulgated by PBOC in March 2005, has made adjustment to individual housing loan policies of commercial banks as well as individual housing fund loan rate. Pursuant to this notice, the preferential mortgage loan interest rate was replaced by the commercial loan interest rate subject to certain restrictions on the lower limit on such interest rates. In the urban areas or cities with rapidly increased real estate prices, minimum down payment ratio for individual housing loans was adjusted from 20%-30%. On May 24, 2006, the Opinion of MOHURD and Other Departments on Adjusting the Housing Supply Structure and Stabilizing Property Prices forwarded by the State Council (《關於調整住房供應結構穩定住房價格的意見》) (Guobanfa [2006] No. 37) reiterated the existing measures and ushered additional measures that aim to further curb rapid increases in property prices in large cities and to promote healthy development of the PRC property market. See “Regulations-Measures on Stabilizing Housing Price” below for more details.

The Opinion on Standardizing the Admittance and Administration of Foreign Capital in Property Market (《關於規範房地產市場外資准入和管理的意見》) enforced by MOFCOM, the MOHURD and the NDRC on July 11, 2006 provides that where any foreign-invested enterprises fails to make full payment of its registered capital, fails to obtain the land use rights certificate or fails to make its project development capital reach 35% of the total project investment amount, it shall not deal with any domestic or overseas loan and the administrative department of foreign exchange shall not approve the settlement of the foreign exchange loan thereof.

On May 26, 2010, MOHURD, PBOC, and the CBRC jointly issued the Circular on Standardizing the Assessing Criteria of the Second Home for Personal Mortgage Loans (《關於規範商業性個人住房貸款中第二套房認定標準的通知》), under which a stricter standard will be adopted in assessing whether a house to be bought is a second home when granting mortgage loans. The new standard will be based on property ownership, not mortgage history, and the unit for the number of the houses will be determined in terms of family (including the borrower, his spouse and minor children), rather than individuals. Home buyers are required to provide a registration record from the local housing registration system when applying for mortgage loans. If it is impossible to check the purchasing record, loan applicants are required to submit a certification listing the number of homes owed by the applicant's family. The banks will examine both the number of the homes owned by the applicant's family and the applicant's previous mortgage and purchasing record in order to counter speculative activities. The banks will define a loan applicant as a second-home buyer as long as the applicant has taken out a mortgage loan previously, or his family has a home ownership record in the housing registration system, or it is confirmed that his family has owned a property based on due diligence.

The Notice on Issues Relating to Standardizing Different Residential Mortgage Loan Policies (《關於完善差別化住房信貸政策有關問題的通知》) jointly issued by PBOC and CBRC on September 29, 2010 provides (also see in "Regulations-Measures on Stabilizing Housing Price"):

- all commercial banks shall suspend the granting of housing loans to resident families for purchasing third and further residences; commercial banks shall also suspend the granting of housing loans to non-local residents who cannot provide local tax payment proof or proof of social insurance payment for a period of one year or longer;
- for the purchase of commodity housing with loans, the down payment shall be adjusted to more than 30% of the total price; for families who purchase a second residence with a mortgage loan, the down payment shall not be less than 50%, and the loan rate shall not be less than 1.1 times the benchmark rate; and
- all commercial banks shall strengthen the management of consumption loans, and prohibit such loans from being used for purchasing houses. For property development enterprise with idle land, that change the use and nature of land, delay the time of construction initiation or complement, hold bank housing units for future sales, or have other records of violations of laws and regulations, all commercial banks shall suspend the granting of loans to them for new development projects and suspend the extension of loans. Any commercial banks which fails to earnestly implement the differential credit policies shall be seriously punished once the issued is ascertained.

On November 2, 2010, the Ministry of Finance, MOHURD, CBRC and PBOC jointly issued the Circular on Issues Concerning Policies on Regulation of Personal Housing Provident Fund Loan (《關於規範住房公積金個人住房貸款政策有關問題的通知》), which provides that where personal housing provident fund loan is used to buy the first ordinary self-use house and the floor area of the house is no more than 90 sq.m., the down-payment proportion shall not be lower than 20%; where the floor area of the house is more than 90 sq.m., the down-payment proportion shall not be lower than 30%. Only the housing provident fund-paying families whose floor area per capita is less than local average shall have access to personal housing provident fund loan which is used to buy the second house, and the loan shall be used to buy ordinary self-use house so as to improve dwelling conditions. Where the personal housing provident fund loan is used to buy the second house, the down-payment proportion shall not be lower than 50%, and the interest rate of such loan shall not be less than 1.1 times of the interest rate of the personal housing provident fund loan for the purchase of the first house. Personal housing provident fund loan for the purchase of a third or more houses by housing provident fund-paying families shall be suspended.

On March 8, 2011, the General Office of CBRC issued the Notice on Promoting Housing Financial Services and Strengthening Risk Management (《中國銀監會辦公廳關於做好住房金融服務加強風險管理的通知》), which stipulates that in handling the individual housing loan business financial institutions must strictly implement the provision that, with respect to families that purchase second residential properties through a loan, the down payment may not be less than 60%, and the loan interest rate may not be less than 1.1 times the benchmark rate.

To support the demand of purchasers of residential property and to promote the sustainable development of the real estate market, the PBOC and the CBRC jointly issued the Notice on Further Improving Financial Services for Residential Property (《關於進一步做好住房金融服務

工作的通知》) on September 29, 2014, which provides that for any family that wishes to use a loan to purchase a residential property, the minimum down payment will be 30% of the property price and the minimum loan interest rate will be 70% of the benchmark lending interest rate, with the specific terms of such loan to be decided by the banking financial institution that provides the loan, based on the risk profile of the borrower. Where a family that owns a residential property and has paid off its existing mortgage loan applies for a new mortgage loan to purchase another residential property to improve living conditions, the bank may apply mortgage loan policy for first-time purchasers of residential property. In cities that have lifted restrictions on the purchase of residential property by residents or those that have not imposed such restrictions, when a family that owns two residential properties or more and has paid off its existing mortgage loans applies for a new mortgage loan to purchase another residential property, the bank is required to assess the credit profile of the borrower, taking into consideration the solvency and credit standing of the borrower and other factors, to decide the down payment ratio and loan interest rate. In view of the local urbanization plan, banks may provide mortgage loans to non-local residents that meet the conditions required by the related policies. In March 2015, the PBOC, CBRC and MOHURD jointly issued a notice to lower the minimum down payment to 40% for households that own a residential property and have not paid off their existing mortgage loan applying for a new mortgage loan to purchase another ordinary residential property to improve their living conditions, and allow the bank to decide at its own discretion the down payment ratio and loan interest rate taking into consideration the solvency and credit standing of the borrower. On February 1, 2016, the PBOC and CBRC jointly issued the “Notice on the Adjustment of Individual Housing Loans Policies” (《關於調整個人住房貸款政策有關問題的通知》) which provides that in cities where property purchase control measures are not being implemented, the minimum down payment ratio for a personal housing commercial loan obtained by a household for purchasing its first ordinary residential property is, in principle, 25% of the property price, which can be adjusted downward by 5% by local authorities. For existing residential property household owners which have not fully repaid the previous loan and are obtaining further personal housing commercial loan to purchase an additional ordinary residential property for the purpose of improving living conditions, the minimum down payment ratio shall be not less than 30% which is lower than the previous requirement of not less than 40%. On August 25, 2019, PBOC issued the Announcement of the People’s Bank of China No.16 [2019] under which, starting from October 8, 2019, new commercial individual housing loans should be priced by adding basis points to the latest monthly loan prime rate (LPR) of corresponding maturity. The basis points added should conform to the national and local housing credit policy requirements, reflect the loan risk profile, and remain fixed during the contract period. The interest rate of first-time commercial individual housing loans should not be lower than the LPR of corresponding maturity, and the interest rate of second-time commercial individual housing loans not be lower than the LPR of corresponding maturity plus 60 basis points.

Real Estate Management

Under the Measures for the Administration of Qualifications of Property Service Enterprises (《物業服務企業資質管理辦法》) promulgated by the Ministry of Construction in March 2004, as amended in November 2007 and May 2015 respectively, a property service enterprise must apply for assessment of its qualification by the relevant qualification approval authority. An enterprise which passes such a qualification assessment will be issued a qualification certificate. No enterprise may engage in property management without undertaking a qualification assessment conducted by the relevant authority and obtaining a qualification certificate. However, on March 8, 2018, the Measures for the Administration of Qualifications of Property Service Enterprises was abolished. On March 19, 2018, the Regulation on Property Management was revised accordingly so that no qualification certificate is required for the property service enterprises.

Insurance

There is no mandatory provision under the PRC laws, regulations and government rules which require a property developer to take out insurance policies for its real estate developments. According to the common practice of the property industry in China, construction companies are usually required to submit insurance proposals in the course of tendering and bidding for construction projects. Construction companies must pay for the insurance premium at their own costs and take out insurance to cover their liabilities, such as third party’s liability risk, employer’s liability risk, risk of non-performance of contract in the course of construction and other kinds of risks associated with the construction and installation works throughout the construction period. The insurance coverage for all these risks will cease immediately after the completion and acceptance upon inspection of construction.

Measures on Stabilizing Housing Price

The General Office of the State Council promulgated a Circular on Stabilizing Housing Price (《關於切實穩定住房價格的通知》) in March 2005, introducing measures to be taken to restrain the housing price from increasing too fast and to promote a stable development of the real estate market. In April 2005, the Ministry of Construction, NDRC, the Ministry of Finance, the Ministry of Land and Resources, PBOC, SAT and CBRC jointly issued an Opinions on Stabilizing Housing Prices (《關於做好穩定住房價格工作的意見》) containing the following guidance:

- Where the housing price is growing too fast, while the supply of ordinary commodity houses at medium or low prices and low-cost affordable houses is insufficient, the housing construction should mainly involve projects of ordinary commodity houses at medium or low prices and low-cost affordable houses. The construction of low-density, high-end houses should be strictly controlled. The relevant local government authorities are authorized to impose conditions on planning and design such as the building height, plot ratio and green space and to impose such requirements as the selling price, type and gross floor area as preconditions on land assignment. The local governments are also required to strengthen their supervision of real estate developments in their jurisdictions.
- Where the price of land for residential use and the price for residential housing are growing too fast, the proportion of land supply for residential use to the total land supply should be appropriately raised, and the land supply for the construction of ordinary commodity houses at medium or low prices and low-cost affordable houses should be especially increased. Land supply for villa construction should continue to be suspended, and land supply for high-end housing property construction should be strictly restricted.
- Idle land fee must be imposed on land that has not been developed for one year from the contractual construction commencement date. Land use rights of land that has not been developed for two years must be forfeited without compensation.
- Commencing from June 1, 2005, a business tax upon transfer of a residential house by an individual within two years from his/her purchase will be levied on the entire sales proceeds from such sale. For an individual to transfer an ordinary residential house after two years from his/her purchase, the business tax will be exempted. For an individual to transfer a property other than an ordinary residential house after two years from his/her purchase, the business tax will be levied on the difference between the price of such sale and the original purchase price.
- Ordinary residential houses with medium or small gross floor areas and at medium or low prices may be granted preferential treatment such as planning permits, land supply, credit and taxation. Houses enjoying these preferential policies must satisfy the following conditions in principle: the plot ratio is above 1.0, the gross floor area of one single unit is less than 120 square meters, and the actual transfer price is lower than 120% of the average transfer price of comparable houses at comparable locations. The local governments at the provincial level may, based on their actual local circumstances, formulate specific standards for ordinary residential houses that may enjoy the preferential policies.
- Transfer of unfinished commodity properties by any pre-sale purchaser is forbidden. In addition, purchasers are required to buy properties in their real names. Any commodity property pre-sale contract must also be filed with the relevant government agencies electronically immediately after its execution.

The Notice on Adjustment of the Housing Loan Policy and Deposit Rate of Excess Reserve for Commercial Banks (《關於調整商業銀行住房信貸政策和超額準備金存款利率的通知》), promulgated by PBOC in March 2005, has made adjustment to individual housing loan policies of commercial banks as well as individual housing fund loan rate. Pursuant to this notice, the preferential mortgage loan interest rate was replaced by the commercial loan interest rate subject to certain restrictions on the lower limit on such interest rates. In the urban areas or cities with rapidly increased real estate prices, minimum down payment ratio for individual housing loans was adjusted from 20% to 30%. In May 2006, the Ministry of Construction, NDRC, PBOC and other relevant PRC government authorities jointly issued their Opinions on Housing Supply Structure and Stabilization of Property Prices (《關於調整住房供應結構穩定住房價格意見的通知》). These

opinions reiterated the existing measures and ushered additional measures that aim to further curb rapid increases in property prices in large cities and to promote healthy development of the PRC property market. These measures include:

- requiring that at least 70% of the land supply approved by a local government for residential property development for any given year must be used for developing low-to-medium-cost and small-to medium-size units and low-cost rental properties;
- requiring that at least 70% of residential projects approved or constructed on or after June 1, 2006 must consist of units with a unit floor area of less than 90 square meters per unit and that projects which have received approvals prior to this date but have not obtained construction permits must adjust their planning in order to be in conformity with this new requirement, with the exception that municipalities under direct administration of the PRC central government, such as Beijing, Chongqing and Shanghai, provincial capitals and certain other cities may deviate from such ratio under special circumstances upon approval from the Ministry of Construction;
- increasing the minimum amount of down-payment from 20% to 30% of the purchase price of the underlying property if the underlying property has a unit floor area of 90 square meters or more, effective from June 1, 2006;
- prohibiting commercial banks from lending to real estate developers with an internal capital ratio, calculated by dividing the internal funds by the total project capital required for the relevant projects, of less than 35%, restricting the grant or extension of revolving credit facilities to property developers holding a large amount of idle land and vacant commodity properties, and prohibiting commercial banks from accepting commodity properties which have been vacant for more than three years as security for their loans; and
- imposing a business tax levy on the entire sales proceeds from transfer of properties if the holding period is shorter than five years, effective from June 1, 2006, as opposed to two years when such levy was initially implemented in June 2005, and allowing such business tax to be levied on the difference between the price for such re-sale and the original purchase price in the event that an individual transfers a property other than an ordinary residential property after five years from his/her date of purchase.

In July 2006, the Ministry of Construction, NDRC, MOFCOM, PBOC, SAIC, and SAFE jointly issued an Opinion on Regulating the Access and Management of Foreign Capital in the Real Estate Market (《關於規範房地產市場外資准入和管理的通知》) (the “171 Opinion”). The 171 Opinion aims to tighten access by foreign capital to the PRC real estate market and to restrict property purchases in China by foreign institutions or individuals. It provides, among others, that a foreign institution or individual must establish a foreign-invested enterprise in order to purchase real property in China if the property is not intended for self use. The registered capital of such foreign-invested enterprise must amount to at least 50% of its total investments in PRC real properties if the amounts of such investments exceed US\$10 million. Branches and representative offices of foreign institutions in China and foreign individuals who work or study in China for more than one year may purchase real property for their own use but not for any other purposes. In addition, foreign institutions which have no branches or representative offices in China or foreign individuals who work or study in China for less than a year are prohibited from purchasing any real property in China. In September 2006, SAFE and the Ministry of Construction jointly issued a Notice in Respect of Foreign Exchange Issues in the Real Estate Market (《關於規範房地產市場外匯管理有關問題的通知》) (the “47 Notice”) to implement the 171 Opinion. The 47 Notice provides specific procedures for purchasing real properties by foreign institutions and foreign individuals. The 47 Notice also forbids a foreign invested real estate enterprise to apply for overseas loans if it has failed to pay its registered capital in full or failed to obtain the land use rights certificates, or its own capital funds do not reach 35% of the total investment for the project.

In September 2007, the Ministry of Land and Resources issued the Notice on Implementation of the State Council’s Certain Opinions on Resolving Difficulties of Housing for Low-income Urban Families and Further Strengthening Macro-control of Land Supply (《關於認真貫徹國務院〈關於解決城市低收入家庭住房困難的若干意見〉進一步加強土地供應調控的通知》) as amended on January 1, 2010, pursuant to which, at least 70% of the land supply arranged by the relevant land administration authority at city or county level for residential property development for any given year must be used for developing low-to-medium-cost and small- to medium-size units, low-cost rental properties and affordable housing.

In November 2007, the PRC government revised its Catalog of Guidance on Industries for Foreign Investment by, among other things, removing the development of ordinary residences from the foreign-investment-encouraged category and adding the secondary market residential property trading and brokering into the foreign-investment-restricted category. In July 2008, PBOC and CBRC jointly issued the Notice on Financially Promoting the Saving and Intensification of Use of Land (《關於金融促進節約集約用地的通知》), requiring that relevant financial institutions to strengthen the administration of construction land project loans, including the administration of commercial real estate credit loan.

In October 2008, PBOC issued the Notice on Extending the Downward Range of the Interest Rate for Commercial Personal Home Loans and Supporting the Residents in First-time Purchase of Ordinary Residential Homes (《關於擴大商業性個人住房貸款利率下浮幅度等有關問題的通知》), pursuant to which, since October 27, 2008, the bottom limit of the interest rate applicable to the commercial personal home loans has been extended, the minimum amount of down payment has been adjusted to 20% and the interest rate applicable to personal home loans financed by provident fund has been also reduced.

In October 2008, the Ministry of Finance and SAT issued the Notice on the Adjustments to Taxation on Real Property Transactions (《關於調整房地產交易環節稅收政策的通知》), pursuant to which, since November 1, 2008, the rate of deed tax has been reduced to 1% for a first-time home buyer of an ordinary residence with a unit floor area less than 90 square meters, individuals who sell or purchase residential properties are temporarily exempted from stamp duty and who sell residential properties are temporarily exempted from land value-added tax.

In December 2008, the General Office of the State Council issued the Several Opinions on Facilitating the Healthy Development of the Real Estate Market (《關於促進房地產市場健康發展的若干意見》), which aims to, among other things, encourage the consumption of the ordinary residence and support the real estate developer to handle the market change. Pursuant to this opinion, in order to encourage the consumption of the ordinary residence, from January 1, 2009 to December 31, 2009, business tax is imposed on the full amount of the sale income upon the transfer a non-ordinary residence by an individual within two years from the purchase date. For the transfer of non-ordinary residence which is more than two years from the purchase date and ordinary residence which is within two years from the purchase date, the business tax is to be levied on the difference between the sale income and the purchase price. In the case of an ordinary residence, the business tax is exempted if that transfer occurs after two years from the purchase date. Furthermore, individuals with an existing ordinary residence that is smaller than the average size for their locality may buy a second ordinary residence under favorable loan terms similar to first-time buyers. In addition, support for real estate developers to deal with the changing market is to be provided by increasing credit financing services to “low-to-medium-level price” or “small-to-medium-sized” ordinary commercial housing projects, particularly those under construction, and providing financial support and other related services to real estate developers with good credit standing for merger and acquisition activities.

In December 2009, the State Council terminated the policy on preferential treatment relating to business taxes payable upon transfers of residential properties by property owners as previously adopted in December 2008 by the PRC government in response to the global economic slowdown, and the Ministry of Finance and SAT jointly issued the Notice on Adjusting the Policy of Business Tax on Re-sale of Personal Residential Properties (《關於調整個人住房轉讓營業稅政策的通知》) to curtail speculation in the property market in response to the property price rises across the country. Pursuant to the Notice, effective from January 1, 2010, business tax will be imposed on the full amount of the sale income upon the transfer of non-ordinary residence by an individual within five years, instead of two years, from the purchase date. For the transfer of non-ordinary residence which is more than five years from the purchase date and ordinary residence which is within five years of the purchase date, the business tax is to be levied on the difference between the sale income and the purchase prices. In the case of an ordinary residence, the business tax is exempted if that transfer occurs after five years from the purchase date.

In January 2010, the General Office of the State Council issued a Circular on Facilitating the Stable and Healthy Development of Property Market (《關於促進房地產市場平穩健康發展的通知》), which adopted a series of measures to strengthen and improve the regulation of the property market, stabilize market expectation and facilitate the stable and healthy development of the property market. These include, among others, measures to increase the supply of affordable housing and ordinary commodity housing, provide guidance for the purchase of property, restrain

speculation of properties, and strengthen risk prevention and market supervision. Additionally, it explicitly requires each family (including a borrower, his or her spouse and children under 18), that has already purchased a residence through mortgage financing and have applied to purchase a second or more residences through mortgage financing, to pay a minimum down-payment of 40% of the purchase price on the second or more residences.

On April 17, 2010, the State Council announced a series of new measures in the Notice on Resolutely Curbing the Rapid Rising of the House Price in Certain Cities (《國務院關於堅決遏制部分城市房價過快上漲的通知》) to keep housing prices from rising too quickly in certain cities in conjunction with and subsequent to a meeting held on April 14, 2010. The new measures include, among other things:

- **Higher minimum down payment requirements**
 - o first-time home house buyers must make a down payment of at least 30% of the purchase price of the underlying property if the underlying property has a unit floor area of 90 sq.m. or more;
 - o second-time home buyers must make a down payment of at least 50% of the purchase price of the underlying property subject to a minimum mortgage loan interest rate at 110% of the relevant PBOC benchmark one-year lending interest rate; and
 - o commercial banks should significantly increase the ratio of minimum down payment to the purchase price and the minimum mortgage loan interest rate, respectively, for buyers who purchase a third or additional houses by mortgage financing.
- **Commercial banks' right to stop lending**
 - o in regions where house prices have been increasing too quickly, commercial banks may stop granting mortgage loans to home buyers who purchase a third or any additional houses;
 - o commercial banks are required to stop granting mortgage loans to home buyers who are not local residents and cannot provide evidence of payment of tax or social insurance contribution in such local area for more than one year; and
 - o the local governments may adopt interim measures to impose limits on the maximum number of units that one family may own.
- **Punishment of speculative developers**
 - o commercial banks are not allowed to lend to developers who hold idle land or manipulate land reserve or price; and
 - o the CSRC may suspend review of applications from speculative developers for listing of shares, restructuring or refinancing.
- **Disclosure of property ownership**
 - o property developers who have filed with the local government information of the completed properties to be sold or who have obtained the pre-sale permits are required to disclose to the public the properties for sale all at once and within a specified period of time and sell the properties they develop exactly at the price provided to the local government.

On September 29, 2010, the Ministry of Finance, SAT and the Ministry of Housing and Urban Development jointly issued the Notice on Adjustments to Deed Tax and Individual Income Tax on Real Estate Transactions (《關於調整房地產交易環節契稅個人所得稅優惠政策的通知》), according to which, a family (including the purchaser, the purchaser's spouse and minor children) purchasing its first ordinary residential property will enjoy a 50% reduction on deed tax payment; in case that the GFA of fore-mentioned property is less than 90 sq.m., the deed tax rate will be 1%. Individuals who purchase another residential property within one year after selling their own residential properties shall no longer enjoy exemption or reduction of individual income tax.

On September 29, 2010, PBOC and CBRC jointly issued the Notice on Relevant Issues Regarding the Improvement of Differential Mortgage Loan Policies (《關於完善差別化住房信貸政策有關問題的通知》), according to which, the minimum down-payment has been raised to 30%

of the purchase price of the commodity residential property, and commercial banks shall suspend granting mortgage loans to families that purchase a third or further residential property or non-local residents who fail to provide one-year or longer tax payment certificates or social insurance payment certificates. For a mortgage on the second residential property, the minimum down-payment must be 50% of the purchase price and the interest rate must be no less than 1.1 times that of the corresponding benchmark interest rate over the same corresponding period released by the PBOC.

On January 26, 2011, the State Council issued the Notice on Further Adjustment and Control of Property Markets (《關於進一步做好房地產市場調控工作有關問題的通知》) which requires, among other restrictive measures: (i) a minimum down-payment of 60% of the total purchase price with a minimum mortgage interest rate of 110% of the benchmark rate published by PBOC for the purchase of a second residential property; and (ii) in municipalities directly under the central government, cities listed on state plans, provincial capitals, and cities where the housing prices are overly high or increasing at an excessively high rate, local residents with two or more residential properties, non-local residents with one or more residential properties and non-local residents that are unable to provide documentation certifying payment of local tax or social insurance payment for a specified time period, are not permitted to purchase any residential properties located in the local administrative area.

On January 27, 2011, the Ministry of Finance and SAT jointly issued the Notice on Adjusting the Business Tax Policies upon Transferring Residential Properties by Individuals (《關於調整個人住房轉讓營業稅政策的通知》). Pursuant to the notice, business tax will be levied upon the transfer of a residential property held by an individual for less than five years and the amount of business tax to be paid will be calculated based on the full amount of the sale proceeds. For an individual transferring a non-ordinary residential property held for five years or more, the business tax to be paid will be calculated based on the difference between the sale proceeds and the original purchase price. An individual transferring an ordinary residential property held for five years or more will be exempted from the business tax.

On July 12, 2011, the State Council announced the PRC government's intention to impose austerity measures on second- and third-tier cities. The State Council ordered the Ministry of Construction to compile a list of second- and third-tier cities that will be affected by the austerity measures.

On July 19, 2012, Ministry of Land and Resources and MOHURD issued the Urgent Notice to Further Tighten Up Real Property Land Administration and Consolidate the Achievement of Macroeconomic Control of the Real Property Market (《國土資源部、住房城鄉建設部關於進一步嚴格房地產用地管理鞏固房地產市場調控成果的緊急通知》). According to this notice, the Ministry of Land and Resources, MOHURD and their respective local counterparts will continue to strictly regulate the market to prevent housing prices from rebounding. Local governments must ensure a supply of land for social security housing projects, and must try to increase the completion rate of such projects. Further, the governments will further improve the land price evaluation procedure, thereby allowing for the reasonable determination of base prices for land auction. For those auctions in which the land prices may be raised to a significantly higher level, the governments must adjust the bidding method in a timely manner. For those lands which are expected to reach unprecedentedly high prices and those lands whose final deal prices have a premium rate of more than 50%, the government should adjust the land transfer scheme in a timely manner, such as by limiting the final home prices or requiring the land purchaser to build additional social security housing projects. Further, the government will continue enforcing the system for reporting unusual transactions, which requires that governments at city-level and county-level should, within two business days upon the signing of purchase confirmation letter or the dispatch of the letter of acceptance, submit the unusual transaction data to the national land market monitoring and administration system, thereby reporting the unusual transaction to the Ministry of Land and Resources and its agencies at the provincial level.

Additionally under this notice, the government emphasizes that the scope of land to be transferred should not exceed its scope limit, and some other acts will continue to be strictly prohibited, such as combining two or more separate tracts of land into one bidding subject, or transferring land without first completing the demolition and relocation work. The floor-area ratio of residential land should be no less than 1. Further, land allocation decision or land transfer contract should require real estate developer to commence the construction and development within one year after the land has been delivered to it and to complete the construction and

development within three years. The government will strictly inspect the competence of bidders so as to prohibit any bank loan from being used for the payment of land price. The deposit for land auction or bidding should not be less than 20% of the base price. After the deal of land transfer has been reached, the land transfer agreement should be signed within 10 business days, 50% of the land price should be paid within one month after the signing of the land transfer agreement and the payment of remaining land price should be made within one year. Also, the government should prohibit the purchaser from purchasing land for a certain period if such a purchaser (a) failed to pay the land price in a timely manner; (b) intentionally left the land idle; (c) intentionally reserved land for the purpose of resale; (d) developed land beyond its development capability; or (e) failed to duly perform the land use contract.

On November 5, 2012, the Ministry of Land and Resources, the Ministry of Finance, PBOC and CBRC jointly promulgated the Notice on Strengthening Land Reserves and Financing Administration (Guotuzi Fa [2012] No. 162) (《關於加強土地儲備與融資管理的通知》(國土資發[2012]162號)) in order to strengthen land bank institutions administration, determine the reasonable scale and structure of land bank, strengthen the administration of land pre-development, reservation and protection, and regulate the financing to land reservation and the use of land reservation funds.

On February 20, 2013, the executive meeting of the State Council chaired by Premier Wen Jiabao issued a document emphasizing the strict implementation of tightening measures for the real estate market. The measures include completing a system of responsibility for stabilizing housing prices; restraining purchases of residential housing for investment and speculation purposes; expanding the supply of both ordinary commodity housing and of land; accelerating construction of affordable housing projects; and strengthening market supervision.

On February 26, 2013, the General Office of State Council issued the Notice on Continuing to Effectively Regulate the Real Estate Market (《關於繼續做好房地產市場調控工作的通知》) (the “No. 17 Notice”) which requires, among other restrictive measures:

- (i) *Improving the responsibility system for stabilizing housing prices.* Municipalities directly under the central government, cities listed on state plans and provincial capitals (excluding Lhasa), must set an annual objective for controlling housing prices and publish annual new commodity housing price control target in the first quarter of the year.
- (ii) *Firmly restraining purchases of residential housing for investment and speculation purposes.* Municipalities directly under the central government, cities listed on state plans and provincial capitals (excluding Lhasa) which have implemented restrictions on the real estate market are required to cover all administrative areas of the cities as restricted areas, and restricted housing shall include new commodity housing and second-hand housing. Non-local residents who possess one or more residential properties or fail to continuously provide a certain number of years local tax payment certificates or social insurance payment certificates are to be barred from purchasing any residential properties located in the administrative area. For cities where housing prices are increasing at an excessively high rate, local branches of the PBOC may further raise the down-payment rate and mortgage interest rate for the purchase of a second residential property. In addition, the state will strictly enforce a 20% tax on home sale profits.
- (iii) *Expanding supply of ordinary commercial housing and its land use.* The overall housing land supply in 2013 shall not be lower than the average actual land supply in the past five years. Financial institutions, subject to credit requirements, are to prioritize requests for loans for ordinary commodity housing construction projects in which medium and small housing units constitute 70% or more of the total units in such construction project.
- (iv) *Accelerating the planning and construction of affordable housing projects.* All local regions shall actively advance the renovation of scattered shantytowns and ramshackle buildings, gradually carry out comprehensive redevelopment of old urban residential areas, and steadily develop urban villages. It is important to reinforce planning and overall coordination, to integrate the construction of affordable housing with urban development in view of the actual needs of urbanization and improving the housing conditions of residents.
- (v) *Strengthening market regulation and managing expectations.* All local regions shall raise the pre-sale threshold for commercial housing, and reinforce the management of

commercial housing pre-sale licensing, so as to guide real estate developers to rationally determine housing prices, and steadily push forward the reform of the commercial housing pre-sale system.

- (vi) *Accelerating the establishment and development of a long-term mechanism to guide the healthy development of the real estate market.* All relevant departments shall press ahead with the reform of the real estate tax regime, improve the housing financial system and housing land supply mechanism, and push forward the housing industrialization.

Pursuant to the “No. 17 Notice”, local branches of the PBOC may further raise the minimum down-payment for the purchase of a second residential property in the case that the local housing prices are increasing at an excessively high rate. On April 7, 2013, Beijing raised the percentage of the minimum down payment for second-home purchases from 60% to 70% of the total purchase price. In October and November of 2013, certain branches of the PBOC in several major cities, such as Shanghai, Shenzhen, Guangzhou, Hangzhou, Shenyang and Changsha, also adjusted their differentiated credit extension policies based on housing types and raised the minimum down payment for second-home purchases to 65% or 70% of the purchase price.

On November 24, 2014, the State Council promulgated the Interim Regulations on Real Estate Registration (《不動產登記暫行條例》), effective from March 1, 2015, which provides for the following, among others:

- i) The Competent department of land and resources under the State Council shall be responsible for guiding and supervising the real estate registration of the State. The local government at or above the county level shall designate a department as the real estate registration authority within its administrative region which shall be subject to the guide and supervision by the competent real estate registration authority at the higher level.
- ii) The real estate authority shall establish a uniform real estate registration book to record the items including, without limitation, the nature condition, ownership conditions of the real estate, and restriction of rights.
- iii) The competent department of land and resources under the State Council shall, in coordination with other related departments, establish a uniform basic management platform for real estate registration information. The information registered by the real estate registration authorities at all levels shall be incorporated into the uniform basic platform to ensure the real-time sharing of registration information at the national, provincial, municipal and county level.
- iv) Any right holder or interested party may apply for inquiring about or copying the real estate registration materials and the registration authority shall not refuse to provide such information. Units and individuals inquiring about the real estate registration information shall not use such registration information for any other purpose and no such information may be disclosed to the public or others without the consent of the right holder.

The Implementing Rules of the Interim Regulations on Real Estate Registration (《不動產登記暫行條例實施細則》), which took effect on January 1, 2016, authorizes the real estate registration authority to perform site inspection following an acceptance of the application for real estate registration and sets out regulations regarding real estate registration information management.

On March 30, 2015, the Ministry of Finance and SAT jointly issued the Notice on Adjusting the Business Tax Policies upon Transferring Residential Properties by Individuals (《關於調整個人住房轉讓營業稅政策的通知》). Pursuant to the notice, business tax will be levied upon the transfer of a residential property held by an individual for less than two years and the amount of business tax to be paid will be calculated based on the full amount of the sale proceeds. For an individual transferring a non-ordinary residential property held for two years or more, the business tax to be paid will be calculated based on the difference between the sale proceeds and the original purchase price. An individual transferring an ordinary residential property held for two years or more will be exempted from the business tax.

On August 27, 2015, the MOHURD, the MOF and PBOC jointly issued the Notice on the Adjustment of the Rate of the Minimum Down Payment for Personal Housing Loans from Housing

Provident Fund (《關於調整住房公積金個人住房貸款購房最低首付款比例的通知》) to further improve the policies on the personal housing loans from housing provident fund and support the needs of depositing workers, under which, from September 1, 2015, with regard to families which have already owned one house and settled the housing payment, when applying for loans from the housing provident fund for a second housing so as to improve living conditions, the lowest down payment rate will be reduced from 30% to 20%.

In September 2015, the State Council issued a Notice to Adjust and Promote the System of Capital Fund for Investment Projects in Fixed Assets (《關於調整和完善固定資產投資項目資本金制度的通知》), under which the minimum capital ratio remains 20% for affordable housing projects and ordinary commodity residential projects, and is decreased to 25% for other property projects.

On February 1, 2016, the PBOC and CBRC jointly issued the Notice on the Adjustment of Individual Housing Loans Policies (《關於調整個人住房貸款政策有關問題的通知》) which provides that in cities where property purchase control measures are not being implemented, the minimum down payment ratio for a personal housing commercial loan obtained by a household for purchasing its first ordinary residential property is, in principle, 25% of the property price, which can be adjusted downward by 5% by local authorities. For existing residential property household owners which have not fully repaid the previous loan and are obtaining further personal housing commercial loan to purchase an additional ordinary residential property for the purpose of improving living conditions, the minimum down payment ratio shall be not less than 30% which is lower than the previous requirement of not less than 40%.

On October 10, 2016, the MOHURD issued the Circular on Further Regulating Operations of Real Estate Developers to Safeguard the Real Estate Market Order (《關於進一步規範房地產開發企業經營行為維護房地產市場秩序的通知》), which requires that improper operations of real estate developers shall be investigated and punished according to law. The improper operations include releasing or spreading false housing information and advertisements, maliciously pushing higher and artificially inflating housing prices by fabricating or spreading information on rising property price and other operations. On May 19, 2018, the MOHURD issued the Notice on Issues of Further Do Good Job of the Regulation of the Real Estate Market (《關於進一步做好房地產市場調控工作有關問題的通知》) which required that local governments shall formulate the residential property development plan according to their respective social development level, supply and demand of residential property and population, and certain cities shall increase the supply of construction land for residential.

On February 13, 2017, the Asset Management Association of China issued the No. 4 Administrative Rules for the Filing of Private Equity and Asset Management Plans Issued by Securities and Futures Institutions (《證券期貨經營機構私募資產管理計劃備案管理規範第4號》) which stops the filing of private equity and asset management plans of securities and futures institutions which investing into the ordinary residential real estate projects in 16 cities including Beijing, Shanghai, Guangzhou, Hefei, Suzhou, Hangzhou, Tianjin, Wuhan, Chengdu etc.. It also prevents private equity and asset management plans from funding real estate development enterprises to pay land premium or supply working capital through multiple ways, including but not limited to entrusted loans, trust plans and receiving beneficial right of the assets.

Environmental Protection

The laws and regulations governing the environmental protection requirements for real estate development in China include the PRC Environmental Protection Law (《中華人民共和國環境保護法》), the PRC Prevention and Control of Noise Pollution Law (《中華人民共和國環境噪聲污染防治法》), the PRC Environmental Impact Assessment Law (《中華人民共和國環境影響評價法》) and the PRC Administrative Regulations on Environmental Protection for Development Projects (《建設項目環境保護管理條例》). Pursuant to these laws and regulations, depending on the impact of the project on the environment, an environmental impact report, an environmental impact analysis table or an environmental impact registration form must be submitted by a developer before the relevant authorities grant approval for the commencement of construction of the property development. In addition, upon completion of the property development, the project company (other than the environmental authorities) should conduct environmental protection inspection of the completed project to ensure compliance with the applicable environmental protection standards and regulations before the property can be delivered to the purchasers. The project company shall formulate environmental protection inspection report, disclose the report to the public, and submit the relevant data and information through the online platform of environmental protection inspection on completion of construction projects.

Labor Law and Labor Contract Law

Pursuant to the Labor Law of the PRC (《中華人民共和國勞動法》) effective since January 1, 1995, the PRC Labor Contract Law effective since January 1, 2008, and the Implementing Regulations of the PRC Labor Contract Law effective since September 18, 2008, an employment relationship is established from the date when an employee commences working for an employer, and a written employment contract must be entered into on this same date. If an employment relationship has already been established with an employee but no written employment contract has been entered into simultaneously, a written employment contract must be entered into within one month from the date on which the employee commences work. If an employer fails to enter into a written employment contract with an employee within one year from the date on which the employment relationship is established, it must pay the employee twice his/her salary for each month of the eleven months' period and rectify the situation by subsequently entering into a written employment contract with the employee.

Regulation on Social Insurance and Housing Fund

As required under Regulation of Insurance for Labor Injury, Provisional Insurance Measures for Maternity of Employees, Regulation of Unemployment Insurance, the Decision of the State Council on Setting up Basic Medical Insurance System for Staff Members and Workers in Cities and Towns, the Interim Regulations on the Collection and Payment of Social Insurance Premiums and the Interim Provisions on Registration of Social Insurance, business enterprises are obliged to provide their employees in China with welfare schemes covering pension insurance, unemployment insurance, maternity insurance, injury insurance and medical insurance. Any enterprise that fails to make social insurance contributions in accordance with the relevant regulations may be ordered to rectify the noncompliance and pay the required contributions within a stipulated deadline. If the enterprise fails to rectify the noncompliance by the stipulated deadline set out by the government authorities, it can be assessed a late fee by the relevant authority in the amount of 0.2% of the amount overdue per day from the original due date.

In addition, on October 28, 2010, the Standing Committee of the National People's Congress promulgated the Social Insurance Law, which became effective on July 1, 2011, to clarify the components of the social insurance system in China. According to the Social Insurance Law, employees will participate in pension insurance, work-related injury insurance, medical insurance, unemployment insurance and maternity insurance and the employers must, together with their employees or separately, pay the social insurance premiums for such employees. According to the Social Insurance Law, an employer that fails to make social insurance contributions may be ordered to pay the required contributions within a stipulated deadline and be subject to a late fee of 0.05% of the amount overdue per day from the original due date by the relevant authority. If the employer continues to fail to rectify the delinquent social insurance contribution payment within such stipulated deadline, it may be subject to a fine ranging from one to three times the amount overdue.

According to Regulations on Management of Housing Fund, enterprises must register at and be subject to review by housing fund administration centers with competent jurisdictions, and open accounts of housing fund for their employees with the designated banks. Enterprises are also obliged to pay and deposit housing fund in full amount in a timely manner. Any enterprise that fails to make housing fund contributions may be ordered to rectify the noncompliance and pay the required contributions within a stipulated deadline; otherwise, an application may be made to a local court for compulsory enforcement.

Foreign Exchange Controls

Under the PRC Foreign Currency Administration Rules (《中華人民共和國外匯管理條例》) promulgated in 1996 and revised in 1997 and as amended in 2008 and various regulations issued by SAFE and other relevant PRC government authorities, Renminbi is convertible into other currencies for the purpose of current account items, such as trade related receipts and payments and the payment interest and dividend. The conversion of Renminbi into other currencies and remittance of the converted foreign currency outside China for the purpose of capital account items, such as direct equity investments, loans and repatriation of investment, requires the prior approval from SAFE or its local office. Payments for transactions that take place within China must be made in Renminbi. Unless otherwise provided, PRC companies may repatriate foreign currency payments received from abroad or retain the same abroad under capital account items after obtaining the prior approval from SAFE or its local office. Foreign-invested enterprises may

retain foreign exchange in accounts with designated foreign exchange banks subject to a cap set by SAFE or its local office. Foreign exchange proceeds under the current accounts may be either retained or sold to a financial institution engaging in settlement and sale of foreign exchange pursuant to relevant rules and regulations of the State. For foreign exchange proceeds under the capital accounts, approval from SAFE is required for its retention or sale to a financial institution engaging in settlement and sale of foreign exchange, except where such approval is not required under the rules and regulations of the State.

On May 10, 2013, SAFE issued Notice on Printing and Distributing “the Provisions on Foreign Exchange Administration over Direct Investment Made by Foreign Investors in China” and the Ancillary Documents (國家外匯管理局關於印發《外國投資者境內直接投資外匯管理規定》及配套文件的通知), which includes three appendices: (i) Provisions on Foreign Exchange Administration over Direct Investment Made by Foreign Investor (《外國投資者境內直接投資外匯管理規定》); (ii) List of Repealed Regulations on Foreign Exchange Administration over Direct Investment (《廢止境內直接投資外匯管理法規目錄》); and (iii) Operating Guidelines for Domestic Direct Investment Business (《境內直接投資業務操作指引》).

Provisions on Foreign Exchange Administration over Direct Investment Made by Foreign Investors (《外國投資者境內直接投資外匯管理規定》) (the “Provisions”) was promulgated on May 10, 2013 and effective on May 13, 2013, which contains a total of four chapters and 20 articles. The Provisions set out the general principles for foreign exchange control in direct investments of foreign investors and specific provisions on foreign exchange registration, foreign exchange account management, foreign exchange settlement and sales, as well as supervision and administration of banks engaging in the foreign exchange business related to direct investments of foreign investors. The Provisions apply to foreign investors setting up foreign investment enterprises, foreign investment projects and foreign-invested financial institutions in China through methods of new establishment, mergers or acquisitions, and obtaining the ownership right, control right and business management right of domestic enterprises. The Provisions also apply to domestic direct investments of investors from Hong Kong, Macao and Taiwan.

Operating Guidelines for Domestic Direct Investment Business (《境內直接投資業務操作指引》) (the “Guidelines”) was promulgated on May 11, 2013 and effective on May 13, 2013, which has two parts, 23 Clauses and three tables. The Guidelines provide advice for basic information registration of prior-period costs, basic information registration of the newly established foreign-invested enterprises, foreign-invested enterprises set up through mergers or acquisitions by foreign investors, registration to conform foreign investors’ cash and non-cash capital contributions, opening, entry and use of foreign exchange capital accounts, prior-period costs foreign exchange accounts, domestic asset realization accounts, domestic re-investment special accounts, security deposit special foreign exchange accounts, as well as transfer and remittance of foreign exchange funds for domestic direct investments. On March 30, 2015, SAFE issued the Notice on the Reform of the Administration of Foreign Exchange Registered Capital Settlement for Foreign-Invested Enterprises (《國家外匯管理局關於改革外商投資企業外匯資本金結匯管理方式的通知》) effective from June 1, 2015, under which, a reform on the administration of foreign exchange capital settlement for foreign-invested enterprises is carried out in China and foreign-invested enterprises may make equity investments within China by utilizing the RMB funds converted from their foreign exchange registered capital. Besides the remittance of equity transfer payments in the original foreign currency, foreign-invested enterprises mainly engaged in investment business (including foreign investment companies, foreign-invested venture capital enterprises and foreign-invested equity investment enterprises) are permitted to directly convert foreign capital funds into RMB funds or transfer the RMB funds converted from the foreign capital account to the bank account of the investee enterprise based on the actual investment scale on the premise that the domestic investment projects are authentic and in compliance. Equity investments within China by remitting the equity transfer payments in the original foreign currency by general foreign-invested enterprises other than the above enterprises shall be governed by the current domestic reinvestment laws and regulations. If such foreign-invested enterprises make equity investments in China by using converted RMB funds, the investee enterprise shall first register this domestic reinvestment activity with the administration of foreign exchange (bank) of its incorporation place and open a corresponding RMB account for depositing the converted RMB funds, and the foreign-invested enterprises shall then transfer the converted RMB funds into the above RMB account of the investee enterprise based on the actual investment scale. If the investee enterprise continues to make equity investments in China, the above principles shall apply. On June 9, 2016, SAFE issued the Notice to Reform and Regulate the Administration Policies of

Foreign Exchange Capital Settlement (《關於改革和規範資本項目結匯管理政策的通知》) to further reform the foreign exchange capital settlement over the nationwide.

SAFE stressed in a post published on its website on December 31, 2016 that the authority is improving the application process for individual foreign exchange purchasing and reiterated that individuals are prohibited to buy foreign currencies to purchase overseas real estate.

According to Circular of the State Administration of Foreign Exchange on Further Advancing Foreign Exchange Administration Reform to Enhance Authenticity and Compliance Reviews (《國家外匯管理局關於進一步推進外匯管理改革完善真實合規性審核的通知》) issued by SAFE on 26 January 2017, funds for overseas loans under domestic guarantees are allowed to be transferred back for domestic use. Debtors can transfer back, directly or indirectly, the funds under guarantees for domestic use through issuing loans to or equity participation in domestic institutions. SAFE promulgated the Circular to Further Promote Cross-border Trade and Investment (《關於進一步促進跨境貿易投資便利化的通知》) dated October 23, 2019 to further ease cross-border trade and investment, such as canceling restrictions on the use of foreign exchange settlement in domestic asset transaction accounts and allowing foreign non-investment enterprises to carry out domestic equity investment provided that such investment will not violate applicable special administrative measures (negative list) for foreign investment access and the projects to be invested shall be authentic and legitimate.

Mainland China Taxation

Because virtually all of our business operations are in mainland China and we carry out these business operations through operating subsidiaries and joint ventures organized under the PRC law, our PRC operations and our operating subsidiaries and joint ventures in mainland China are subject to PRC tax laws and regulations, which indirectly affect your investment in the Notes.

Dividends from our PRC Operations

Under the PRC tax laws effective prior to January 1, 2008, dividends paid by our PRC subsidiaries or joint ventures to us were exempt from PRC income tax. However, pursuant to the Enterprise Income Tax Laws (《中華人民共和國企業所得稅法》), dividends payable by foreign invested enterprises, such as subsidiaries and joint ventures in China, to their foreign investors are subject to a withholding tax at a rate of 10% unless any lower treaty rate is applicable.

Under the Enterprise Income Tax Laws, enterprises established under the laws of foreign jurisdictions but whose “de facto management body” is located in China are treated as “resident enterprises” for PRC tax purposes, and are subject to PRC income tax on their worldwide income. For such PRC tax purposes, dividends from PRC subsidiaries to their foreign shareholders are excluded from such taxable worldwide income. Under the implementation rules of the Enterprise Income Tax Law, “de facto management bodies” are defined as the bodies that have material and overall management control over the business, personnel, accounts and properties of an enterprise. There is uncertainty as to how this new law and its implementation rules will be interpreted or implemented by relevant tax bureaus.

Our Operations in Mainland China

Our subsidiaries and joint ventures through which we conduct our business operations in mainland China are subject to PRC tax laws and regulations.

Deed Tax

Under the PRC Interim Regulation on Deed Tax (《中華人民共和國契稅暫行條例》) promulgated by the State Council in July 1997, implemented in October 1997 and amended in March 2019 deed tax is chargeable to transferees of land use rights and/or ownership in real properties within the territory of mainland China. These taxable transfers include:

- grant of use right of state-owned land;
- sale, gift and exchange of land use rights, other than transfer of right to manage rural collective land; and
- sale, gift and exchange of real properties.

Deed tax rate is between 3% to 5% subject to determination by local governments at the provincial level in light of the local conditions.

Pursuant to the Notice on Adjustment of Preferential Treatment Policies in respect of Deed Tax and Business Tax on Real Estate Transactions (《關於調整房地產交易環節契稅、營業稅優惠

政策的通知》) promulgated by MOF, SAT and MOHURD on February 17, 2016 and implemented on February 22, 2016, the rate of deed tax payable for real estate transactions is adjusted downward as follows:

- (1) for an individual purchasing the only residential property for his/her household, the rate of deed tax is adjusted downward to 1% for a property of 90 sq.m. or less and to 1.5% for a property of more than 90 sq.m.; and
- (2) for an individual purchasing the second residential property for his/her household to improve the living conditions, the rate of deed tax is reduced to 1% for a property of 90 sq.m. or less and to 2% for a property of more than 90 sq.m.

If a taxpayer applies for tax preferential treatments, the competent real estate authority at the location of the property will issue written search results on the housing status of the taxpayer's household pursuant to his/her application or authorization and promptly provide the search results and the relevant housing status information to the tax authority. Detailed operation measures will be collectively formulated by the competent financial, tax and real estate departments of various provinces, autonomous region and municipalities.

Beijing, Shanghai, Guangzhou and Shenzhen are not subject to the above deed tax preferential treatment policies temporarily.

Corporate Income Tax

Prior to the implementation of the Enterprise Income Tax Laws, our PRC subsidiaries and joint ventures were generally subject to a 33% corporate income tax. Under the Enterprise Income Tax Laws, effective from January 1, 2008, a unified enterprise income tax rate is set at 25% for both domestic enterprises and foreign-invested enterprises. The Enterprise Income Tax Laws provided certain relief to enterprises that were established prior to March 16, 2007, including (1) continuing to enjoy the previous preferential income tax rate during a five-year transition period if such enterprises were entitled to preferential income tax rates before the effectiveness of the Enterprise Income Tax Laws; (2) continuing to enjoy the preferential income tax rate until its expiry if such enterprises were entitled to tax holidays for a fixed period under the relevant laws and regulations. However, where the preferential tax treatment had not commenced due to losses or accumulated loss not being fully offset, such preferential tax treatment was deemed to commence from January 1, 2008. In addition, according to the Enterprise Income Tax Laws, dividends from PRC subsidiaries to their foreign corporate shareholders are subject to a withholding tax at a rate of 10% unless any lower treaty rate is applicable. However, under the Enterprise Income Tax Laws, enterprises established under the laws of foreign jurisdictions but whose "de facto management body" is located in China are treated as "resident enterprises" for PRC tax purposes, and are subject to PRC income tax on their worldwide income. Dividends from PRC subsidiaries to their foreign corporate shareholders that are treated as resident enterprises for the reason mentioned above will be excluded from such taxable worldwide income. Under the Enterprise Income Tax Laws, "de facto management bodies" are defined as the bodies that have material and overall management control over the business, personnel, accounts and properties of an enterprise. There is uncertainty as to how the Enterprise Income Tax Laws will be interpreted or implemented by relevant tax bureaus.

On March 6, 2009, SAT issued the Measures Dealing with Income Tax of Enterprise Engaged in Real Estate Development and Operation (《房地產開發經營業務企業所得稅處理辦法》) effective on January 1, 2008 and amended on July 16, 2014 and June 15, 2018, which specifically stipulates the rules regarding tax treatment of income and deduction of cost and fees, verification of calculated tax cost and tax treatment on certain matters of the real estate development enterprise according to the Enterprise Income Tax Law and its implementation rules.

On May 12, 2010, SAT promulgated the Notice on the Confirmation of Completion Conditions for Development of Products by Real Estate Development Enterprises (《關於房地產開發企業開發產品完工條件確認問題的通知》), which provides that a property will be deemed as completed when its delivery procedures (including move-in procedures) have commenced or when the property is in fact put in use. Real estate developers must conduct the settlement of cost in time and calculate the amount of corporate income tax for the current year.

Business Tax and Value-added Tax

Under the PRC Interim Regulation on Business Tax (《中華人民共和國營業稅暫行條例》) of 1994, as amended in December 2008, and the Detailed Implementation Rules of the Interim Regulation of the PRC on Business Tax (《中華人民共和國營業稅暫行條例實施細則(2011年修訂)》) issued and implemented by MOF on December 25, 1993 and as amended on December 15, 2008 and October 28, 2011, services in China are subject to business tax. Taxable services include sale of real property in mainland China. The Business tax rate is between 3% to 20% depending on the type of services provided. Sale of real properties and other improvements on land are levied a business tax at the rate of 5% of the turnover of the selling enterprise payable to the relevant local tax authorities. On November 19, 2017, the PRC Interim Regulation on Business Tax was abolished.

Pursuant to the Notice on the Full Implementation of Pilot Program for Transition from Business Tax to Value-Added Tax (《關於全面推開營業稅改徵增值稅試點的通知》) and the Implementing Measures for the Pilot Program for Transition from Business Tax to Value-added Tax (《營業稅改徵增值稅試點實施辦法》) issued by the MOF and SAT on March 23, 2016. On May 1, 2016, the “transitioning from business tax to value-added tax” scheme became effective. The sale of self-developed old real estate projects (refers to real estate projects launched time before April 30, 2016 stating on the construction works commencement permit) by common taxpayer among real estate developers shall be subject to a simple tax rate of 5%. Real estate developers selling real estate project by advance payment will be subject to an appreciation tax of 3% when receiving the advance payment.

Pursuant to the Interim Measures on the Management of Value Added Tax of Self-developed Real Estate Project by the Sale of Real Estate Developers (《房地產開發企業銷售自行開發的房地產項目增值稅徵收管理暫行辦法》) issued on March 31, 2016 and implemented on May 1, 2016 and as amended on June 15, 2018 by SAT, “self-development” means infrastructure facilities and buildings erected on the land with land use rights which are developed by a real estate development company (“taxpayer”). These measures are also applicable to a development completed by a taxpayer after such project is taken over.

VAT is payable by taxpayers in the calendar month immediately following receipt of the presale proceeds of real estate self-development in accordance with the following formula:

$$\text{Prepaid VAT} = \text{Presale proceeds} \div (1 + \text{applicable rate or simplified rate}) \times 3\%$$

The applicable rate is 11%. Nevertheless, for taxpayers conducting old real estate projects and have chosen simplified tax method, the simplified rate of 5% will be applied in calculating the Prepaid VAT. Once simplified tax method is chosen, it will be applicable for 36 months.

Old real estate projects refer to (1) real estate projects with commencement dates of construction stated in the Construction Permits prior to April 30, 2016, and (2) construction projects which commencement dates of construction are not stated in the Construction Permits, or construction projects with commencement dates of construction stated in the construction contracts prior to April 30, 2016 but has yet to receive Construction Permits.

On November 19, 2017, the Provisional Regulations Concerning Business Tax was abolished and the Interim Regulations of the People’s Republic of China on Value-added Tax (中華人民共和國增值稅暫行條例) was revised by the State Council. According to the revised Interim Regulations of the People’s Republic of China on Value-added Tax, selling goods, providing labor services of processing, repairs or maintenance, or selling services, intangible assets or real property in the PRC, or importing goods to the PRC, shall be subject to value-added tax.

According to a notice jointly issued by MOF and SAT in April 2018, starting from May 1, 2018, the value-added tax rate will be lowered from 17 percent to 16 percent for manufacturing and some other industries, and from 11 percent to 10 percent for transportation, construction, real estate leasing service, sale of real estate, basic telecommunication services, and farm produce. According to a notice jointly issued by MOF, SAT and the General Administration of Customs in March 2019, from April 1, 2019, the value-added tax rate of 16 percent will be further lowered to 13 percent and the value-added tax rate of 10 percent will be further lowered to 9 percent.

Land Appreciation Tax

Under the PRC Interim Regulation on Land Appreciation Tax (《中華人民共和國土地增值稅暫行條例》) of 1994 and its implementation rules of 1995, LAT applies to both domestic and

foreign investors in real properties in mainland China, irrespective of whether they are corporate entities or individuals. The tax is payable by a taxpayer on the appreciation value derived from the transfer of land use rights, buildings or other facilities on such land, after deducting the “deductible items” that include the following:

- payments made to acquire land use rights;
- costs and charges incurred in connection with the land development;
- construction costs and charges in the case of newly constructed buildings and facilities;
- assessed value in the case of old buildings and facilities;
- taxes paid or payable in connection with the transfer of the land use rights, buildings or other facilities on such land; and
- other items allowed by the Ministry of Finance.

The tax rate is progressive and ranges from 30% to 60% of the appreciation value as compared to the “deductible items” as follows:

Appreciation value	LAT rate
Portion not exceeding 50% of deductible items	30%
Portion over 50% but not more than 100% of deductible items	40%
Portion over 100% but not more than 200% of deductible items	50%
Portion over 200% of deductible items	60%

Exemptions from LAT are available in the following cases:

- Taxpayers constructing ordinary residential properties for sale (i.e. the residences built in accordance with the local standard for residential properties used by the general population, excluding deluxe apartments, villas, resorts and other high-end premises), where the appreciation amount does not exceed 20% of the sum of deductible items;
- Real estate taken over and repossessed according to laws due to the construction requirements of the state; and
- Due to redeployment of work or improvement of living standard, transfers by individuals of originally self-used residential properties, with five years or longer of self-used residence and with tax authorities’ approval.

According to a notice issued by the Ministry of Finance in January 1995, the LAT regulation does not apply to the following transfers of land use rights:

- real estate transfer contracts executed before January 1, 1994; and
- first time transfers of land use rights and/or premises and buildings during the five years commencing on January 1, 1994 if the land grant contracts were executed or the development projects were approved before January 1, 1994 and the capital has been injected for the development in compliance with the relevant regulations.

After the enactment of the LAT regulations and the implementation rules in 1994 and 1995, respectively, due to the long period of time typically required for real estate developments and their transfers, many jurisdictions, while implementing these regulations and rules, did not require real estate development enterprises to declare and pay the LAT as they did other taxes. Therefore, in order to assist the local tax authorities in the collection of LAT, the Ministry of Finance, SAT, Ministry of Construction and State Land Administration Bureau separately and jointly issued several notices to reiterate that, after the assignments are signed, the taxpayers should declare the tax to the local tax authorities where the real estate is located, and pay the LAT in accordance with the amount as calculated by the tax authority and within the time period as required. For those who fail to acquire proof as regards the tax paid or the tax exemption from the tax authorities, the real estate administration authority will not process the relevant title change procedures, and will not issue the property ownership certificates.

SAT issued a further the Notice on Serious Handling of Administration of the Collection of Land Appreciation Tax (《關於認真做好土地增值稅徵收管理工作的通知》) in July 2002 to require local tax authorities to require prepayment of LAT on basis of proceeds from pre-sale of real estate.

In December 2006, SAT issued a Notice on the Administration of the Settlement of Land Appreciation Tax of Property Development Enterprises (《關於房地產開發企業土地增值稅清算管理有關問題通知》), which came into effect on February 1, 2007. The notice required settlement of LAT liabilities by real estate developers. Provincial tax authorities are given authority to formulate their implementation rules according to the notice and their local situation.

To further strengthen LAT collection, in May 2009, SAT released the Rules on the Administration of the Settlement of Land Appreciation Tax (《土地增值稅清算管理規程》), which came into force on June 1, 2009.

On May 19, 2010, SAT promulgated the Notice on Issues Regarding Land Appreciation Tax Settlement (《關於土地增值稅清算有關問題的通知》), which provides further clarifications and guidelines on LAT settlement, revenue recognition, deductible expenses, timing of assessment and other related issues.

On May 25, 2010, SAT issued the Notice on Strengthening the Collection of Land Appreciation Tax (《關於加強土地增值稅徵管工作的通知》), which provides for a minimum LAT prepayment rate at 2% for provinces in eastern China region, 1.5% for provinces in the central and northeastern China regions, and 1% for provinces in the western China region. The notice also delegated to the local tax authorities the authority to determine the applicable LAT prepayment rates based on the types of the properties in their respective regions.

On June 20, 2013, SAT issued the Notice of the State Administration of Taxation on Further Improving the Collection of Land Value-added Taxes (《關於進一步做好土地增值稅徵管工作的通知》), which requires the local taxation authorities further strengthening administration on the collection of LAT, in particular, the administration on the settlement of LAT, strict examination of deductions and reduction of assessment and collection projects.

Urban Land Use Tax and Buildings Tax

Pursuant to the PRC Interim Regulations on Land Use Tax in respect of Urban Land (《中華人民共和國城鎮土地使用稅暫行條例》) promulgated by the State Council in September 1988, amended on December 31, 2006, January 8, 2011, December 7, 2013 and March 2, 2019, the land use tax in respect of urban land is levied according to the area of relevant land. The annual tax on urban land was between RMB0.6 and RMB30 per square meter.

Buildings Tax. Under the PRC Interim Regulations on Buildings Tax (《中華人民共和國房產稅暫行條例》) promulgated by the State Council in September 1986, and amended on January 8, 2011, buildings tax applicable to domestic enterprises is 1.2% if it is calculated on the basis of the residual value of a building and 12% if it is calculated on the basis of the rental. On January 27, 2011, the governments of Shanghai and Chongqing respectively issued measures for implementing pilot individual property tax schemes which became effective on January 28, 2011.

According to the Notice on Issues Relating to Assessment of Buildings Tax against Foreign-invested Enterprises and Foreign Individuals (《關於對外資企業及外籍個人徵收房產稅有關問題的通知》) issued by the Ministry of Finance and SAT in January 2009, the foreign-invested enterprises, foreign enterprises and foreign individuals are to be levied the same as domestic enterprise.

Stamp Duty

Under the PRC Interim Regulations on Stamp Duty (《中華人民共和國印花稅暫行條例》) promulgated by the State Council in August 1988, and amended on January 8, 2011, for property transfer instruments, including those in respect of property ownership transfers, the duty rate is 0.05% of the amount stated therein; for permits and certificates relating to rights, including property ownership certificates and land use rights certificates, stamp duty is levied on an item-by-item basis of RMB5 per item.

Municipal Maintenance Tax

Under the PRC Interim Regulations on Municipal Maintenance Tax (《中華人民共和國城市維護建設稅暫行條例》) promulgated by the State Council in 1985, and amended on January 8, 2011, any taxpayer, whether an individual or otherwise, of product tax, value-added tax or business tax is required to pay municipal maintenance tax calculated on the basis of product tax, value-added tax and business tax. The tax rate is 7% for a taxpayer whose domicile is in an urban area, 5% for a taxpayer whose domicile is in a county or a town, and 1% for a taxpayer whose domicile is not in any urban area or county or town.

According to the Circular Concerning Unification of Municipal Maintenance Tax and Education Surcharge for Foreign Investment and Domestic Enterprises and Individuals (《關於統一內外資企業和個人城市維護建設稅和教育費附加制度的通知》) issued by State Council on October 18, 2010, the municipal maintenance tax is applicable to foreign invested enterprises, foreign enterprises and foreign individuals from December 1, 2010.

Education Surcharge

Outbound Investment Administration of NDRC

On December 26, 2017, NDRC issued the Administrative Measures for the Outbound Investment of Enterprises (《企業境外投資管理辦法》), or the Measures, effective from March 1, 2018. Under the Measures, sensitive outbound investment projects carried out by PRC enterprises either directly or through overseas enterprises under their control shall be approved by NDRC, and non-sensitive outbound investment projects directly carried out by PRC enterprises shall be filed with NDRC or its local branch at provincial level. In the case of the large-amount non-sensitive outbound investment projects with the investment amount of USD300 million or above carried out by PRC enterprises through the overseas enterprises under their control, such PRC enterprises shall, before the implementation of the projects, submit a report describing the details about such large-amount non-sensitive projects to NDRC. Where the PRC resident natural persons make outbound investments through overseas enterprises under their control, the Measures shall apply mutatis mutandis. Subsequently on January 31, 2018, NDRC issued the Catalogue of Sensitive Outbound Investment Industry (2018 Version) (《境外投資敏感行業目錄(2018年版)》) effective from March 1, 2018 under which enterprises shall be restricted from making outbound investments in certain industries including without limitation real estate and hotel.

Foreign Debt Administration of NDRC

On September 14, 2015, the NDRC issued the NDRC Notice which came into effect on the same date. According to the NDRC Notice, domestic enterprises and their overseas controlled entities should register any debt securities issued outside the PRC with the NDRC prior to the issue of the securities and notify the particulars of the relevant issues within ten business days after the issue of the securities. On May 11, 2018, the NDRC and the MOF jointly issued the Notice on Promoting the Market Restraint Mechanisms to Strictly Prevent the Risks of Foreign Debt and Local Debt (《關於完善市場約束機制嚴格防範外債風險和地方債務風險的通知》) which reiterated the regulatory administration of foreign debt. On June 27, 2018, NDRC emphasized in a post on its website that the proceeds from bond offerings offshore by PRC property enterprises shall be mainly used for repayments of the debts due and shall be restricted from being used for investments in property projects within or outside China or working capital and it is also expressed that NDRC plans to further regulate and standardize, among others, the relevant qualifications for the issuance of foreign debt and the usage of funds from such issuance by enterprises. On July 12, 2019, NDRC published a Notice on Requirements for Foreign Debt Registration Application by Real Estate Enterprises (《關於對房地產企業發行外債申請備案登記有關要求的通知》) on its website which imposes more restrictions on the use of proceeds of foreign debts incurred by real estate developers. According to the notice, the use of proceeds of foreign debt incurred by a real estate developer is limited to refinancing its medium to long term offshore debts which will become due within one year, and the real estate developer is required to specify in the documents for application of foreign debt registration with NDRC the details of such medium to long term offshore debts to be refinanced, such as amount, maturity date and whether such medium to long term offshore debts were registered with NDRC. The real estate developer is also required to submit a commitment letter to NDRC regarding the authenticity of its foreign debt issuance. Failure to comply with these restrictions, the real estate developer may be blacklisted and prevented from obtaining foreign debt registrations in the future.

DESCRIPTION OF MATERIAL INDEBTEDNESS AND OTHER OBLIGATIONS

To fund our existing property projects and to finance our working capital requirements, we have borrowed money or incurred indebtedness from various financial institutions or trust companies and obtained financings through debt offerings. As of December 31, 2019, our total borrowings were RMB117,195.6 million (US\$16,834.1 million). We have also incurred other borrowings after December 31, 2019. See “Summary — Recent Developments”. We set forth below a summary of the material terms and conditions of these loans and other indebtedness.

Project Loan Agreements

Certain of our PRC subsidiaries have entered into loan agreements with various PRC banks, primarily including without limitation, Bank of China, China Construction Bank, Agricultural Bank of China, Industrial and Commercial Bank of China, China Everbright Bank, China CITIC Bank, Industrial Bank, Hua Xia Bank, Ping An Bank, Bank of Communications, Bank of Dalian, Nanyang Commercial Bank, China Minsheng Bank, Bank of Jiangsu, Shenzhen Rural Commercial Bank, Guangzhou Rural Commercial Bank and Shengjing Bank. These loans typically are project loans to finance the construction of our projects (the “project loans”) and with a term of one to ten years, which generally correspond to the construction periods of the particular projects.

Interest

The principal amounts outstanding under the project loans generally bear interest at floating rates calculated by reference to the relevant bank’s benchmark interest rate per annum. Floating interest rates generally are subject to review by the banks annually. Interest payments generally are payable either monthly or quarterly and must be made on each payment date as provided in the particular loan agreement. As of December 31, 2019, the effective interest rate on the aggregate outstanding amount of our project loans was 6.83% per annum.

Covenants

Under these project loans, some of our subsidiary borrowers have agreed, among other things, not to take the following actions without first notifying the lender and/or obtaining the lenders’ prior consent:

- create encumbrances on any part of their properties or assets or deal with their assets in a way that may adversely affect their ability to repay their loans;
- grant guarantees to any third parties that may adversely affect their ability to repay their loans;
- make any major changes to their corporate structures, such as entering into joint ventures, mergers and acquisitions and reorganizations or change the company’s status, such as liquidation and dissolution;
- alter the nature or scope of their business operations in any material respect;
- incur additional debts;
- reduce their registered capital;
- transfer part or all of the liabilities under the loans to a third party;
- prepay the loan; or
- repay shareholder loans.

Dividend restriction

Pursuant to these project loans, certain of our PRC subsidiaries also agreed not to distribute any dividends:

- if the borrower’s after-tax net profit is nil or negative;
- if the after-tax net profit is insufficient to cover losses in previous financial years;
- if the before-tax profit is not used to satisfy the relevant debt due during the same financial year;
- if the before-tax profit is insufficient to cover the principal, interest or other related expenses due in the next period;

- before the principal amount of and accrued interest on the relevant project loan have been timely or fully paid;
- before all the principal amount of and accrued interest with the relevant lending banks have been fully paid; or
- before obtaining written consent from the lender.

See “Risk Factors - Risks Relating to the Notes - Our subsidiaries are subject to restrictions on the payment of dividends and the repayment of intercompany loans or advances to us and our subsidiaries.”

Guarantee and security

Certain of our PRC subsidiaries and associates have entered into guarantee or security agreements with the PRC banks in connection with some of the project loans pursuant to which these subsidiaries and associates have guaranteed or pledged certain of their properties and land use rights, share equity, account receivables, or deposits to secure the obligations of these subsidiary borrowers under these project loans.

Customer Guarantees

In line with industry practice, we provide guarantees to mortgagee banks in respect of mortgage loans taken out by purchasers of our properties. See “Management’s Discussion and Analysis of Financial Condition and Results of Operations — Financial Guarantees.” As of December 31, 2019, the aggregate outstanding amount guaranteed was RMB32,816.5 million (US\$4,713.8 million).

Trust Financing Loans

Certain of our PRC subsidiaries have entered into trust financing loan agreements with PRC trust companies (the “Trust Financing Loans”). These Trust Financing Loans typically have a term of half to three years. As of December 31, 2019, we had outstanding trust financing loans of an aggregate principal amount of RMB19,072.3 million (US\$2,739.6 million).

Interest

The principal amounts outstanding under the trust financing loan agreements bear interest rates ranging from 8% to 16%, respectively, per annum. Interest payments generally are payable quarterly and must be made on each payment date as provided in the particular loan agreement.

Covenants

Under the Trust Financing Loans, our PRC subsidiary borrowers has agreed, among other things, not to take the following actions without first notifying the lender or obtaining the lenders’ prior consent:

- change controlling shareholders;
- effect any consolidation, merger or spin-off;
- liquidate or dissolve such subsidiaries;
- grant guarantees to any third party that may adversely affect their ability to repay their loans;
- enter into any major asset acquisition or disposition;
- involve in any litigation or arbitration;
- alter the name of the company, scope of business operations, legal person or registered address;
- suffer any deterioration of business;
- take any other action which may adversely affect their ability to repay the loans; or
- repay shareholder loans.

Dividend restriction

Pursuant to these Trust Financing Loans, certain of our PRC subsidiaries also agreed not to distribute any dividends:

- if the borrower’s after-tax net profit is nil or negative;
- if the after-tax net profit is insufficient to cover losses in previous financial years;

- if the before-tax profit is not used to satisfy the relevant debt due during the same financial year;
- if the before-tax profit is insufficient to cover the principal, interest or other related expenses due in the next period;
- before the principal amount of and accrued interest on the relevant project loan have been timely or fully paid; or
- before obtaining written consent from the lender.

See “Risk Factors - Risks Relating to the Notes - Our subsidiaries are subject to restrictions on the payment of dividends and the repayment of intercompany loans or advances to us and our subsidiaries.”

Guarantee and security

Certain of our PRC subsidiaries have provided guarantees for, or pledged certain of their properties and land use rights, or pledged share equity to secure, the obligations of these subsidiary borrowers under these Trust Financing Loans.

Offshore Facility Agreements

We have entered into facility agreements for terms of up to two years with certain financial and non-financial institutions. As of the date of this offering memorandum, the aggregate outstanding amount of our offshore facilities was US\$646.2 million.

Guarantee and Security

Our offshore facilities are unsecured or secured by certain accounts, shares or mortgage over certain property.

Interest

Our offshore facilities bear fixed interest or interest calculated with reference to the aggregate of the London Interbank Offered Rate.

Covenants

Our offshore facilities generally contain customary covenants and restrictions, including, among others, negative pledge on assets, financial covenants including consolidated net borrowings/loan-to value ratios.

Events of Default

These offshore facilities generally contain certain customary events of default, including nonpayment of principal or interest, cross default, insolvency and breaches of its terms. If an event of default occurs, all amounts outstanding including all interest accrued thereon may become immediately due and payable.

Debt Restructuring

On July 21, 2016, we effected a debt restructuring (the “Debt Restructuring”) pursuant to a scheme of arrangement sanctioned by the Grand Court of the Cayman Islands and a scheme of arrangement sanctioned by the High Court of Hong Kong (collectively, the “Schemes or Arrangement”). Pursuant to the Debt Restructuring, our offshore debts, including our 2012 Notes, January 2013 Notes, March 2013 Notes, April 2013 Notes, 2014 Notes, Convertible Bonds and Original Offshore Facilities were exchanged for one of the following at the election of the holders:

- Series A-E Senior Notes, at an exchange ratio of 1.00000x, and contingent value rights (the “CVRs”) with a notional value equal to 7.0% of the aggregate principal amount of the such notes issued to such holders. The holders of the 2012 Notes, January 2013 Notes, March 2013 Notes, April 2013 Notes, 2014 Notes and/or the Original Offshore Facilities who failed to submit a value election were deemed to have elected this option. Our Company and U.S. Bank National Association, as the CVR trustee, entered into a contingent value rights agreement (the “Contingent Value Rights Agreement”) on July 21, 2016;
- Series A-E Senior Notes only, at an exchange ratio of 1.02598x; or

- Mandatorily Exchangeable Bonds, at an exchange ratio of 1.00000x, subject to a cut-back mechanism stipulated in the Schemes or Arrangement. Our Company, the Subsidiary Guarantors, U.S. Bank National Association, as the trustee of the Mandatorily Exchangeable Bonds and Citicorp International Limited, as the common security trustee, entered into a trust deed, pursuant to which we issued the Mandatorily Exchangeable Bonds on July 21, 2016. The holders of the Convertible Bonds who failed to submit a value election were deemed to have elected this option.

On June 30, 2017, the Company completed an exchange offer pursuant to which the Senior Notes Series A-E were exchanged for the 2020 Notes, the 2021 Notes, the 2022 Notes and the 2024 Notes. All remaining Senior Notes Series A-E have been redeemed on August 3, 2017.

On June 30, 2017, the Company issued convertible bonds of approximately US\$265.9 million in exchange for the then principal amount of the Mandatorily Exchangeable Bonds in accordance with the terms of the Mandatorily Exchangeable Bonds. During the period from July 2017 to October 2017, convertible bonds of approximately US\$265.2 million have been converted into ordinary shares of the Company and the Company has redeemed in aggregate of approximately US\$0.7 million convertible bonds in August 2017 and November 2017.

2020 Notes

On June 30, 2017, we entered into an indenture (as amended or supplemented from time to time, the “2020 Indenture”). Pursuant to the 2020 Indenture, we issued an aggregate principal amount of US\$285 million of the 2020 Notes on June 30, 2017 and have issued an aggregate principal amount of US\$330 million of additional 2020 Notes on May 4, 2018. As of the date of this offering memorandum, we had an aggregate principal amount of US\$540 million of the 2020 Notes outstanding.

Guarantee

The obligations pursuant to the 2020 Notes are guaranteed by our existing subsidiaries (the “2020 Subsidiary Guarantors”) other than (i) those organized under the laws of the PRC and (ii) certain other subsidiaries specified in the 2020 Indenture. Each of the 2020 Subsidiary Guarantors, jointly and severally, guarantees the due and punctual payment of the principal of, any premium (if any) and interest on, and all other amounts payable under, the 2020 Notes.

Interest

The 2020 Notes bear interests at 7.25% per annum, payable semi-annually in arrears.

Covenants

Subject to certain conditions and exceptions, the 2020 Indenture and each of the relevant subsidiary guarantees contain certain covenants, restricting us and each of the relevant restricted subsidiaries from, among other things:

- incurring additional indebtedness and issuing preferred stock;
- making investments or other restricted payments;
- paying dividends or making other distributions;
- repurchasing or redeeming capital stock;
- guaranteeing indebtedness;
- entering into certain transactions with affiliates;
- creating liens;
- entering into sale and leaseback transactions;
- selling assets;
- entering into agreements that restrict restricted subsidiaries’ ability to pay dividends;
- issue and sell capital stock of restricted Subsidiaries;
- effect a consolidation or merger; and
- engaging in different business activities.

Events of Default

The 2020 Indenture contains certain customary events of default, including default in the payment of principal of (or any premium on) the 2020 Notes when such payments become due, default in payment of interest which continues for 30 days and other events of default substantially similar to the Events of Default under the Indenture. If an event of default occurs and is continuing, the trustee under the 2020 Indenture or the holders of at least 25% of the outstanding 2020 Notes may declare the principal of the 2020 Notes plus a premium and any accrued and unpaid interest to be immediately due and payable.

Change of Control

Upon the occurrence of certain events of change of control, we are required to make an offer to repurchase all outstanding 2020 Notes at a purchase price equal to 101% of their principal amount plus any accrued and unpaid interest.

Maturity and Redemption

The maturity date of the 2020 Notes is June 30, 2020.

At any time prior to June 30, 2020, we may at its option redeem the 2020 Notes, in whole but not in part, at a redemption price equal to 100% of the principal amount of the 2020 Notes plus the applicable premium as of, and accrued and unpaid interest, if any, to, the redemption date. Notice of such redemption must be mailed by first-class mail to each Holder's registered address, not less than 30 nor more than 60 days prior to the redemption date. Neither the Trustee nor any of the Agents shall be responsible for verifying or calculating the Applicable Premium.

At any time prior to June 30, 2020, we may redeem up to 35% of the aggregate principal amount of the 2020 Notes with the Net Cash Proceeds of one or more sales of Common Stock of the Company in an Equity Offering at a redemption price of 107.25% of the principal amount of the 2020 Notes, plus accrued and unpaid interest, if any, to the redemption date; provided that at least 65% of the aggregate principal amount of the 2020 Notes issued on the Original Issue Date remains outstanding after each such redemption and any such redemption takes place within 60 days after the closing of the related Equity Offering.

Intercreditor Agreement

On June 30, 2017, the trustee for the 2020 Notes executed a supplement to the Intercreditor Agreement dated December 20, 2010 to become a secured party under the Intercreditor Agreement and to share the collateral on a pari passu basis with other holders of permitted pari passu secured indebtedness or their agent or trustee who are parties to the Intercreditor Agreement.

2021 Notes

On June 30, 2017, we entered into an indenture (as amended or supplemented from time to time, the "2021 Indenture"). Pursuant to the 2021 Indenture, we issued an aggregate principal amount of US\$225 million of the 2021 Notes on June 30, 2017 and have completed two tap issues since then. As of the date of this offering memorandum, we had an aggregate principal amount of US\$400 million of the 2021 Notes outstanding.

Guarantee

The obligations pursuant to the 2021 Notes are guaranteed by our existing subsidiaries (the "2021 Subsidiary Guarantors") other than (i) those organized under the laws of the PRC and (ii) certain other subsidiaries specified in the 2021 Indenture. Each of the 2021 Subsidiary Guarantors, jointly and severally, guarantees the due and punctual payment of the principal of, any premium (if any) and interest on, and all other amounts payable under, the 2021 Notes.

Interest

The 2021 Notes bear interests at 7.875% per annum, payable semi-annually in arrears.

Covenants

Subject to certain conditions and exceptions, the 2021 Indenture and each of the relevant subsidiary guarantees contain certain covenants, restricting us and each of the relevant restricted subsidiaries from, among other things:

- incurring additional indebtedness and issuing preferred stock;
- making investments or other restricted payments;

- paying dividends or making other distributions;
- repurchasing or redeeming capital stock;
- guaranteeing indebtedness;
- entering into certain transactions with affiliates;
- creating liens;
- entering into sale and leaseback transactions;
- selling assets;
- entering into agreements that restrict restricted subsidiaries' ability to pay dividends;
- issue and sell capital stock of restricted Subsidiaries;
- effect a consolidation or merger; and
- engaging in different business activities.

Events of Default

The 2021 Indenture contains certain customary events of default, including default in the payment of principal of (or any premium on) the 2021 Notes when such payments become due, default in payment of interest which continues for 30 days and other events of default substantially similar to the Events of Default under the Indenture. If an event of default occurs and is continuing, the trustee under the 2021 Indenture or the holders of at least 25% of the outstanding 2021 Notes may declare the principal of the 2021 Notes plus a premium and any accrued and unpaid interest to be immediately due and payable.

Change of Control

Upon the occurrence of certain events of change of control, we are required to make an offer to repurchase all outstanding 2021 Notes at a purchase price equal to 101% of their principal amount plus any accrued and unpaid interest.

Maturity and Redemption

The maturity date of the 2021 Notes is June 30, 2021.

At any time prior to June 30, 2021, we may at its option redeem the 2021 Notes, in whole but not in part, at a redemption price equal to 100% of the principal amount of the 2021 Notes plus the applicable premium as of, and accrued and unpaid interest, if any, to, the redemption date. Notice of such redemption must be mailed by first-class mail to each Holder's registered address, not less than 30 nor more than 60 days prior to the redemption date. Neither the Trustee nor any of the Agents shall be responsible for verifying or calculating the Applicable Premium.

At any time prior to June 30, 2021, we may redeem up to 35% of the aggregate principal amount of the 2021 Notes with the Net Cash Proceeds of one or more sales of Common Stock of the Company in an Equity Offering at a redemption price of 107.875% of the principal amount of the 2021 Notes, plus accrued and unpaid interest, if any, to the redemption date; provided that at least 65% of the aggregate principal amount of the 2021 Notes issued on the Original Issue Date remains outstanding after each such redemption and any such redemption takes place within 60 days after the closing of the related Equity Offering.

Intercreditor Agreement

On June 30, 2017, the trustee for the 2021 Notes executed a supplement to the Intercreditor Agreement dated December 20, 2010 to become a secured party under the Intercreditor Agreement and to share the collateral on a pari passu basis with other holders of permitted pari passu secured indebtedness or their agent or trustee who are parties to the Intercreditor Agreement.

2022 Notes

On June 30, 2017, we entered into an indenture (as amended or supplemented from time to time, the "2022 Indenture"). Pursuant to the 2022 Indenture, we issued an aggregate principal amount of US\$820 million of the 2022 Notes on June 30, 2017 and have completed a tap issue since then. In May and June 2018, we made on-market repurchases of a principal amount of

US\$85.0 million and US\$23.0 million, respectively, of the 2022 Notes. As of the date of this offering memorandum, we had an aggregate principal amount of US\$1,147.0 million of the 2022 Notes outstanding.

Guarantee

The obligations pursuant to the 2022 Notes are guaranteed by our existing subsidiaries (the “2022 Subsidiary Guarantors”) other than (i) those organized under the laws of the PRC and (ii) certain other subsidiaries specified in the 2022 Indenture. Each of the 2022 Subsidiary Guarantors, jointly and severally, guarantees the due and punctual payment of the principal of, any premium (if any) and interest on, and all other amounts payable under, the 2022 Notes.

Interest

The 2022 Notes bear interests at 8.50% per annum, payable semi-annually in arrears.

Covenants

Subject to certain conditions and exceptions, the 2022 Indenture and each of the relevant subsidiary guarantees contain certain covenants, restricting us and each of the relevant restricted subsidiaries from, among other things:

- incurring additional indebtedness and issuing preferred stock;
- making investments or other restricted payments;
- paying dividends or making other distributions;
- repurchasing or redeeming capital stock;
- guaranteeing indebtedness;
- entering into certain transactions with affiliates;
- creating liens;
- entering into sale and leaseback transactions;
- selling assets;
- entering into agreements that restrict restricted subsidiaries’ ability to pay dividends;
- issue and sell capital stock of restricted Subsidiaries;
- effect a consolidation or merger; and
- engaging in different business activities.

Events of Default

The 2022 Indenture contains certain customary events of default, including default in the payment of principal of (or any premium on) the 2022 Notes when such payments become due, default in payment of interest which continues for 30 days and other events of default substantially similar to the Events of Default under the Indenture. If an event of default occurs and is continuing, the trustee under the 2022 Indenture or the holders of at least 25% of the outstanding 2022 Notes may declare the principal of the 2022 Notes plus a premium and any accrued and unpaid interest to be immediately due and payable.

Change of Control

Upon the occurrence of certain events of change of control, we are required to make an offer to repurchase all outstanding 2022 Notes at a purchase price equal to 101% of their principal amount plus any accrued and unpaid interest.

Maturity and Redemption

The maturity date of the 2022 Notes is June 30, 2022.

At any time on or after June 30, 2021, we may redeem the 2022 Notes, in whole or in part, at a redemption price equal to the percentage of principal amount set forth below, plus accrued and unpaid interest, if any, to the redemption date, if redeemed during the 12-month period commencing on June 30 of any year set forth below:

Period Redemption Price

2020	104.250%
2021	102.125%

At any time prior to June 30, 2021, we may at its option redeem the 2022 Notes, in whole but not in part, at a redemption price equal to 100% of the principal amount of the 2022 Notes plus the applicable premium as of, and accrued and unpaid interest, if any, to, the redemption date. Notice of such redemption must be mailed by first-class mail to each Holder's registered address, not less than 30 nor more than 60 days prior to the redemption date. Neither the Trustee nor any of the Agents shall be responsible for verifying or calculating the Applicable Premium.

At any time prior to June 30, 2021, we may redeem up to 35% of the aggregate principal amount of the 2022 Notes with the Net Cash Proceeds of one or more sales of Common Stock of the Company in an Equity Offering at a redemption price of 108.50% of the principal amount of the 2022 Notes, plus accrued and unpaid interest, if any, to the redemption date; provided that at least 65% of the aggregate principal amount of the 2022 Notes issued on the Original Issue Date remains outstanding after each such redemption and any such redemption takes place within 60 days after the closing of the related Equity Offering.

Intercreditor Agreement

On June 30, 2017, the trustee for the 2022 Notes executed a supplement to the Intercreditor Agreement dated December 20, 2010 to become a secured party under the Intercreditor Agreement and to share the collateral on a pari passu basis with other holders of permitted pari passu secured indebtedness or their agent or trustee who are parties to the Intercreditor Agreement.

2024 Notes

On June 30, 2017, we entered into an indenture (as amended or supplemented from time to time, the "2024 Indenture"). Pursuant to the 2024 Indenture, we issued an aggregate principal amount of US\$2,120 million of the 2024 Notes on June 30, 2017 and have completed a tap issue since then. In May and June 2018, we made on-market repurchases of a principal amount of US\$25.0 million and US\$42.5 million, respectively, of the 2024 Notes. As of the date of this offering memorandum, we had an aggregate principal amount of US\$3,051.5 million of the 2024 Notes outstanding.

Guarantee

The obligations pursuant to the 2024 Notes are guaranteed by our existing subsidiaries (the "2024 Subsidiary Guarantors") other than (i) those organized under the laws of the PRC and (ii) certain other subsidiaries specified in the 2024 Indenture. Each of the 2024 Subsidiary Guarantors, jointly and severally, guarantees the due and punctual payment of the principal of, any premium (if any) and interest on, and all other amounts payable under, the 2024 Notes.

Interest

The 2024 Notes bear interests at 9.375% per annum, payable semi-annually in arrears.

Covenants

Subject to certain conditions and exceptions, the 2024 Indenture and each of the relevant subsidiary guarantees contain certain covenants, restricting us and each of the relevant restricted subsidiaries from, among other things:

- incurring additional indebtedness and issuing preferred stock;
- making investments or other restricted payments;
- paying dividends or making other distributions;
- repurchasing or redeeming capital stock;
- guaranteeing indebtedness;
- entering into certain transactions with affiliates;

Events of Default

The 2024 Indenture contains certain customary events of default, including default in the payment of principal of (or any premium on) the 2024 Notes when such payments become due, default in payment of interest which continues for 30 days and other events of default substantially similar to the Events of Default under the Indenture. If an event of default occurs and is continuing, the trustee under the 2024 Indenture or the holders of at least 25% of the outstanding 2024 Notes may declare the principal of the 2024 Notes plus a premium and any accrued and unpaid interest to be immediately due and payable.

Change of Control

Upon the occurrence of certain events of change of control, we are required to make an offer to repurchase all outstanding 2024 Notes at a purchase price equal to 101% of their principal amount plus any accrued and unpaid interest.

Maturity and Redemption

The maturity date of the 2024 Notes is June 30, 2024.

At any time on or after June 30, 2021, we may redeem the 2024 Notes, in whole or in part, at a redemption price equal to the percentage of principal amount set forth below, plus accrued and unpaid interest, if any, to the redemption date, if redeemed during the 12-month period commencing on June 30 of any year set forth below:

Period Redemption Price

2021	104.688%
2022	102.344%
2023	101.172%

At any time prior to June 30, 2021, we may at its option redeem the 2024 Notes, in whole but not in part, at a redemption price equal to 100% of the principal amount of the 2024 Notes plus the applicable premium as of, and accrued and unpaid interest, if any, to, the redemption date. Notice of such redemption must be mailed by first-class mail to each Holder's registered address, not less than 30 nor more than 60 days prior to the redemption date. Neither the Trustee nor any of the Agents shall be responsible for verifying or calculating the Applicable Premium.

At any time prior to June 30, 2021, we may redeem up to 35% of the aggregate principal amount of the 2024 Notes with the Net Cash Proceeds of one or more sales of Common Stock of the Company in an Equity Offering at a redemption price of 109.375% of the principal amount of the 2024 Notes, plus accrued and unpaid interest, if any, to the redemption date; provided that at least 65% of the aggregate principal amount of the 2024 Notes issued on the Original Issue Date remains outstanding after each such redemption and any such redemption takes place within 60 days after the closing of the related Equity Offering.

Intercreditor Agreement

On June 30, 2017, the trustee for the 2024 Notes executed a supplement to the Intercreditor Agreement dated December 20, 2010 to become a secured party under the Intercreditor Agreement and to share the collateral on a pari passu basis with other holders of permitted pari passu secured indebtedness or their agent or trustee who are parties to the Intercreditor Agreement.

In addition, at any time prior to November 12, 2021, we may redeem up to 35% of the aggregate principal amount of the November 2023 Notes with the net cash proceeds of one or more sales of our common stock in an equity offering at a redemption price of 111.95% of the principal amount of the November 2023 Notes, plus accrued and unpaid interest, if any, to the redemption date.

Intercreditor Agreement

On November 12, 2019, the trustee for the November 2023 Notes executed a supplement to the Intercreditor Agreement dated July 21, 2016 to become a secured party under the Intercreditor Agreement and to share the collateral on a pari passu basis with other holders of permitted pari passu secured indebtedness or their agent or trustee who are parties to the Intercreditor Agreement.

January 2025 Notes

On January 15, 2020, we entered into an indenture (as amended or supplemented from time to time, the “January 2025 Indenture”). Pursuant to the January 2025 Indenture, we issued an aggregate principal amount of US\$500 million of the January 2025 Notes on January 15, 2020. As of the date of this offering memorandum, the entire principal amount of the January 2025 Notes is outstanding.

Guarantee

The obligations pursuant to the January 2025 Notes are guaranteed by our existing subsidiaries (the “January 2025 Subsidiary Guarantors”) other than (i) those organized under the laws of the PRC and (ii) certain other subsidiaries specified in the January 2025 Indenture. Each of the January 2025 Subsidiary Guarantors, jointly and severally, guarantees the due and punctual payment of the principal of, any premium (if any) and interest on, and all other amounts payable under, the January 2025 Notes.

Interest

The January 2025 Notes bear interest at 10.5% per annum, payable semi-annually in arrears on January 15 and July 15, commencing July 15, 2020.

Covenants

Subject to certain conditions and exceptions, the January 2025 Indenture and each of the relevant subsidiary guarantees contain certain covenants, restricting us and each of the relevant restricted subsidiaries from, among other things:

- incurring additional indebtedness and issuing preferred stock;
- making investments or other restricted payments;
- paying dividends or making other distributions;
- repurchasing or redeeming capital stock;
- guaranteeing indebtedness;
- entering into certain transactions with affiliates;
- creating liens;
- entering into sale and leaseback transactions;
- selling assets;
- entering into agreements that restrict restricted subsidiaries' ability to pay dividends;
- issue and sell capital stock of restricted subsidiaries;
- effect a consolidation or merger; and
- engaging in different business activities.

Events of Default

The January 2025 Indenture contains certain customary events of default, including default in the payment of principal of (or any premium on) the January 2025 Notes when such payments become due, default in payment of interest which continues for 30 days and other events of default substantially similar to the Events of Default under the Indenture. If an event of default occurs and is continuing, the trustee under the January 2025 Indenture or the holders of at least 25% of the outstanding January 2025 Notes may declare the principal of the January 2025 Notes plus a premium and any accrued and unpaid interest to be immediately due and payable.

Change of Control

Upon the occurrence of certain events of change of control, we are required to make an offer to repurchase all outstanding January 2025 Notes at a purchase price equal to 101% of their principal amount plus any accrued and unpaid interest.

Maturity and Redemption

The maturity date of the January 2025 Notes is January 15, 2025. At any time and from time to time on or after January 15, 2023, we may at our option redeem the January 2025 Notes, in whole or in part, at a redemption price equal to the percentage of principal amount set forth below plus accrued and unpaid interest, if any, to (but not including) the redemption date if redeemed during the twelve-month period beginning on January 15 of the year indicated below.

Period	Redemption Price
2023	103%
2024	101%

At any time prior to January 15, 2023, we may at our option redeem the January 2025 Notes, in whole but not in part, at a redemption price equal to 100% of the principal amount of the January 2025 Notes plus the applicable premium, as of, and accrued and unpaid interest, if any, to the redemption date. In addition, at any time prior to January 15, 2023, we may redeem up to 35% of the aggregate principal amount of the January 2025 Notes with the net cash proceeds of one or more sales of our common stock in an equity offering at a redemption price of 110.5% of the principal amount of the January 2025 Notes, plus accrued and unpaid interest, if any, to the redemption date.

Intercreditor Agreement

On January 15, 2020, the trustee for the January 2025 Notes executed a supplement to the Intercreditor Agreement dated July 21, 2016 to become a secured party under the Intercreditor Agreement and to share the collateral on a pari passu basis with other holders of permitted pari passu secured indebtedness or their agent or trustee who are parties to the Intercreditor Agreement.

July 2025 Notes

On January 23, 2020, we entered into an indenture (as amended or supplemented from time to time, the “July 2025 Indenture”). Pursuant to the July 2025 Indenture, we issued an aggregate principal amount of US\$300 million of the July 2025 Notes on January 23, 2020. As of the date of this offering memorandum, the entire principal amount of the July 2025 Notes is outstanding.

Guarantee

The obligations pursuant to the July 2025 Notes are guaranteed by our existing subsidiaries (the “July 2025 Subsidiary Guarantors”) other than (i) those organized under the laws of the PRC and (ii) certain other subsidiaries specified in the July 2025 Indenture. Each of the July 2025 Subsidiary Guarantors, jointly and severally, guarantees the due and punctual payment of the principal of, any premium (if any) and interest on, and all other amounts payable under, the July 2025 Notes.

Interest

The July 2025 Notes bear interest at 9.95% per annum, payable semi-annually in arrears on January 23 and July 23, commencing July 23, 2020.

Covenants

Subject to certain conditions and exceptions, the July 2025 Indenture and each of the relevant subsidiary guarantees contain certain covenants, restricting us and each of the relevant restricted subsidiaries from, among other things:

- incurring additional indebtedness and issuing preferred stock;
- making investments or other restricted payments;
- paying dividends or making other distributions;
- repurchasing or redeeming capital stock;
- guaranteeing indebtedness;
- entering into certain transactions with affiliates;
- creating liens;
- entering into sale and leaseback transactions;
- selling assets;
- entering into agreements that restrict restricted subsidiaries’ ability to pay dividends;
- issue and sell capital stock of restricted subsidiaries;
- effect a consolidation or merger; and
- engaging in different business activities.

Events of Default

The July 2025 Indenture contains certain customary events of default, including default in the payment of principal of (or any premium on) the July 2025 Notes when such payments become due, default in payment of interest which continues for 30 days and other events of default substantially similar to the Events of Default under the Indenture. If an event of default occurs and is continuing, the trustee under the July 2025 Indenture or the holders of at least 25% of the outstanding July 2025 Notes may declare the principal of the July 2025 Notes plus a premium and any accrued and unpaid interest to be immediately due and payable.

Change of Control

Upon the occurrence of certain events of change of control, we are required to make an offer to repurchase all outstanding July 2025 Notes at a purchase price equal to 101% of their principal amount plus any accrued and unpaid interest.

Maturity and Redemption

The maturity date of the July 2025 Notes is July 23, 2025. At any time and from time to time on or after January 23, 2023, we may at our option redeem the July 2025 Notes, in whole or in part, at a redemption price equal to the percentage of principal amount set forth below plus accrued and unpaid interest, if any, to (but not including) the redemption date if redeemed during the period indicated below.

Period	Redemption Price
Twelve-month period beginning on January 23, 2023	103%
Eighteen-month period beginning on January 23, 2024	101%

At any time prior to January 23, 2023, we may at our option redeem the July 2025 Notes, in whole but not in part, at a redemption price equal to 100% of the principal amount of the July 2025 Notes plus the applicable premium, as of, and accrued and unpaid interest, if any, to the redemption date. In addition, at any time prior to January 15, 2023, we may redeem up to 35% of the aggregate principal amount of the July 2025 Notes with the net cash proceeds of one or more sales of our common stock in an equity offering at a redemption price of 109.95% of the principal amount of the July 2025 Notes, plus accrued and unpaid interest, if any, to the redemption date.

Intercreditor Agreement

On January 23, 2020, the trustee for the July 2025 Notes executed a supplement to the Intercreditor Agreement dated July 21, 2016 to become a secured party under the Intercreditor Agreement and to share the collateral on a pari passu basis with other holders of permitted pari passu secured indebtedness or their agent or trustee who are parties to the Intercreditor Agreement.

February 18 2021 Notes

On February 20, 2020, we entered into an indenture (as amended or supplemented from time to time, the “February 18 2021 Indenture”). Pursuant to the February 18 2021 Indenture, we issued an aggregate principal amount of US\$400 million of the February 18 2021 Notes on February 20, 2020. As of the date of this offering memorandum, the entire principal amount of the February 18 2021 Notes is outstanding.

Guarantee

The obligations pursuant to the February 18 2021 Notes are guaranteed by our existing subsidiaries (the “February 18 2021 Subsidiary Guarantors”) other than (i) those organized under the laws of the PRC and (ii) certain other subsidiaries specified in the February 18 2021 Indenture. Each of the February 18 2021 Subsidiary Guarantors, jointly and severally, guarantees the due and punctual payment of the principal of, any premium (if any) and interest on, and all other amounts payable under, the February 18 2021 Notes.

Interest

The February 18 2021 Notes bear interest at 6.75% per annum, payable in arrears on August 20, 2020 and February 18, 2021.

Covenants

Subject to certain conditions and exceptions, the February 18 2021 Indenture and each of the relevant subsidiary guarantees contain certain covenants, restricting us and each of the relevant restricted subsidiaries from, among other things:

- incurring additional indebtedness and issuing preferred stock;
- making investments or other restricted payments;
- paying dividends or making other distributions;
- repurchasing or redeeming capital stock;
- guaranteeing indebtedness;
- entering into certain transactions with affiliates;
- creating liens;
- entering into sale and leaseback transactions;
- selling assets;

- entering into agreements that restrict restricted subsidiaries' ability to pay dividends;
- issue and sell capital stock of restricted subsidiaries;
- effect a consolidation or merger; and
- engaging in different business activities.

Events of Default

The February 18 2021 Indenture contains certain customary events of default, including default in the payment of principal of (or any premium on) the February 18 2021 Notes when such payments become due, default in payment of interest which continues for 30 days and other events of default substantially similar to the Events of Default under the February 18 2021 Indenture. If an event of default occurs and is continuing, the trustee under the February 18 2021 Indenture or the holders of at least 25% of the outstanding February 18 2021 Notes may declare the principal of the February 18 2021 Notes plus a premium and any accrued and unpaid interest to be immediately due and payable.

Change of Control

Upon the occurrence of certain events of change of control, we are required to make an offer to repurchase all outstanding February 18 2021 Notes at a purchase price equal to 101% of their principal amount plus any accrued and unpaid interest.

Maturity and Redemption

The maturity date of the February 18 2021 Notes is February 18, 2021.

At any time prior to February 18, 2021, we may at our option redeem the February 18 2021 Notes, in whole but not in part, at a redemption price equal to 100% of the principal amount of the February 18 2021 Notes plus the applicable premium, as of, and accrued and unpaid interest, if any, to the redemption date. In addition, at any time prior to February 18, 2021, we may redeem up to 35% of the aggregate principal amount of the February 18 2021 Notes with the net cash proceeds of one or more sales of our common stock in an equity offering at a redemption price of 106.75% of the principal amount of the February 18 2021 Notes, plus accrued and unpaid interest, if any, to the redemption date.

Intercreditor Agreement

On February 20, 2020, the trustee for the February 18 2021 Notes executed a supplement to the Intercreditor Agreement dated July 21, 2016 to become a secured party under the Intercreditor Agreement and to share the collateral on a pari passu basis with other holders of permitted pari passu secured indebtedness or their agent or trustee who are parties to the Intercreditor Agreement.

DESCRIPTION OF THE NOTES

For purposes of this “Description of the Notes”, the term “Company” refers only to Kaisa Group Holdings Ltd., a company incorporated with limited liability under the laws of the Cayman Islands, and any successor obligor on the Notes, and not to any of its Subsidiaries. Each Subsidiary of the Company which guarantees the Notes is referred to as a “Subsidiary Guarantor”, and each such guarantee is referred to as a “Subsidiary Guarantee”. Each Subsidiary of the Company that in the future provides a JV Subsidiary Guarantee (as defined below) is referred to as a “JV Subsidiary Guarantor”.

The Notes are to be issued under an indenture (the “Indenture”), to be dated as of the Original Issue Date, among the Company, the initial Subsidiary Guarantors, as guarantors, and Citicorp International Limited, as trustee (the “Trustee”).

The following is a summary of certain provisions of the Indenture, the Notes, the Subsidiary Guarantees, the JV Subsidiary Guarantees (if any), the Security Documents and the Intercreditor Agreement. This summary does not purport to be complete and is qualified in its entirety by reference to all of the provisions of the Indenture, the Notes, the Subsidiary Guarantees, the JV Subsidiary Guarantees (if any), the Security Documents and the Intercreditor Agreement. It does not restate those agreements in their entirety. Whenever particular sections or defined terms of the Indenture not otherwise defined herein are referred to, such sections or defined terms are incorporated herein by reference. Copies of the Indenture will be available for inspection on or after the Original Issue Date during normal office hours at the corporate trust office of the Trustee at 20/F, Citi Tower, One Bay East, 83 Hoi Bun Road, Kwun Tong, Kowloon, Hong Kong.

Brief Description of the Notes

The Notes are:

- general obligations of the Company;
- senior in right of payment to any existing and future obligations of the Company expressly subordinated in right of payment to the Notes;
- at least *pari passu* in right of payment with all other unsecured, unsubordinated Indebtedness of the Company (subject to any priority rights of such unsubordinated Indebtedness pursuant to applicable law);
- guaranteed by the Subsidiary Guarantors and the JV Subsidiary Guarantors (if any) on a senior basis, subject to the limitations described below under the caption “— The Subsidiary Guarantees and JV Subsidiary Guarantees” and in “Risk Factors — Risks Relating to the Subsidiary Guarantees, the JV Subsidiary Guarantees and the Collateral”;
- effectively subordinated to the secured obligations of the Company, the Subsidiary Guarantors and the JV Subsidiary Guarantors (if any), to the extent of the value of the collateral serving as security therefor (other than the Collateral); and
- effectively subordinated to all existing and future obligations of the Non-Guarantor Subsidiaries (defined below).

In addition, on the Original Issue Date, subject to the limitations described in “Risk Factors — Risks Relating to the Subsidiary Guarantees, the JV Subsidiary Guarantees and the Collateral”, the Notes will be secured by a pledge of the Collateral as described below under the caption “— Security” and will:

- be entitled to a lien on the Collateral (subject to any Permitted Liens and the Intercreditor Agreement); and
- rank effectively senior in right of payment to unsecured obligations of the Company with respect to the value of the Collateral pledged by the Company securing the Notes (subject to any priority rights of such unsecured obligations pursuant to applicable law).

The Notes will mature on June 9, 2021, unless earlier redeemed pursuant to the terms thereof and the Indenture (the “Maturity Date”).

The Indenture allows additional Notes to be issued from time to time (the “Additional Notes”), subject to certain limitations described under “— Further Issues”. Unless the context requires otherwise, references to the “Notes” for all purposes of the Indenture and this “Description of the Notes” include any Additional Notes that are actually issued. The Notes will bear interest at 7.875% per annum from the Original Issue Date or from the most recent interest payment date to which interest has been paid or duly provided for, payable in arrears on December 10, 2020 and June 9, 2021 (each an “Interest Payment Date”).

Interest on the Notes will be paid to Holders of record at the close of business on November 25, 2020 and May 25, 2021 immediately preceding an Interest Payment Date (each, a “Record Date”), notwithstanding any transfer, exchange or cancellation thereof after a Record Date and prior to the immediately following Interest Payment Date. So long as the Notes are held in global form, each payment in respect of the Global Note will be made to the person shown as the holder of the Notes in the Register at the close of business (of the relevant clearing system) on the Clearing System Business Day before the due date for such payments, where “Clearing System Business Day” means a weekday (Monday to Friday, inclusive) except December, 25 and January, 1. In any case in which the date of the payment of principal of or premium (if any) or interest on the Notes is not a Business Day in the relevant place of payment, then payment of principal or premium (if any) or interest need not be made in such place on such date but may be made on the next succeeding Business Day in such place. Any payment made on such Business Day shall have the same force and effect as if made on the date on which such payment is due, and no interest on the Notes shall accrue for the period after such date. Interest on the Notes will be calculated on the basis of a 360 day year comprised of twelve 30-day months.

The Notes will be issued only in fully registered form, without coupons, in denominations of US\$200,000 and integral multiples of US\$1,000 in excess thereof. No service charge will be made for any registration of transfer or exchange of Notes, but the Company may require payment of a sum sufficient to cover any transfer tax or other similar governmental charge payable in connection therewith.

All payments on the Notes will be made in U.S. dollars by the Company at the office or agency of the Company maintained for that purpose (which initially will be the specified office of the Paying Agent), and the Notes may be presented for registration of transfer or exchange at such office or agency; provided that, if the Notes are in definitive form and the Company acts as its own paying agent, payment of interest may be made by check mailed to the address of the Holders as such address appears in the Note register or by wire transfer. Interest payable on the Notes held through Euroclear and Clearstream will be available to Euroclear and Clearstream participants (as defined herein) on the Business Day following payment thereof.

The Subsidiary Guarantees and JV Subsidiary Guarantees

As of the date of the Indenture, all of the Company’s Subsidiaries will be “Restricted Subsidiaries” other than Kaisa Property Holdings Limited, Kaisa Ventures Limited, Dragon Range Holdings Limited, Star Joy Holdings Limited, Zhan Zheng Consulting Company Limited, Cornwell Holdings (Hong Kong) Limited, Central Broad (Hong Kong) Investment Limited, Victor Select Limited, Ye Chang Investment Company Limited, Greater Sail Limited, Kaisa WeWa Space (China) Limited and their respective Subsidiaries. However, under the circumstances described below under the caption “— Certain Covenants — Designation of Restricted and Unrestricted Subsidiaries”, the Company will be permitted to designate certain of its Subsidiaries as “Unrestricted Subsidiaries”. The Company’s Unrestricted Subsidiaries will generally not be subject to the restrictive covenants in the Indenture and will not guarantee the Notes.

On the Original Issue Date, the initial Subsidiary Guarantors will be Chang Ye Investment Company Limited (昌業投資有限公司), Da Hua Investment Company Limited (大華投資有限公司), Dong Chang Investment Company Limited (東昌投資有限公司), Dong Sheng Investment Company Limited (東升投資有限公司), Guang Feng Investment Company Limited (廣豐投資有限公司), Heng Chang Investment Company Limited (恒昌投資有限公司), Jie Feng Investment Company Limited (捷豐投資有限公司), Jin Chang Investment Company Limited (進昌投資有限公司), Rong Hui Investment Company Limited (榮輝投資有限公司), Rui Jing Investment Company Limited (瑞景投資有限公司), Tai He Xiang Investment Company Limited (泰和詳投資有限公司), Yifa Trading Limited (益發貿易有限公司), Zheng Zhong Tian Investment Company Limited (正中天投資有限公司), Tai He Sheng Investment Company Limited (泰和盛投資有限公司), Tai An Da Investment Company Limited (泰安達投資有限公司), Tai Chang Jian Investment Company Limited (泰昌建投資有限公司), Tai Chong Fa Investment Company Limited (泰昌發投

資有限公司), Tai Chong Li Investment Company Limited (泰昌利投資有限公司), Bakai Investments Limited (八凱投資有限公司), Advance Guard Investments Limited (先驅投資有限公司), Central Broad Limited (中博有限公司), Guo Cheng Investments Limited (國承投資有限公司), Ri Xiang Investments Limited (日翔投資有限公司), Yin Jia Investments Limited (銀佳投資有限公司), Jet Smart Global Development Limited (捷利環球發展有限公司), Apex Walk Limited (歲行有限公司), Vast Wave Limited (廣濤有限公司), Fulbright Financial Group (Enterprise) Limited (富昌金融集團(企業)有限公司), Fulbright Financial Group (Development) Limited (富昌金融集團(發展)有限公司), Kaisa Investment Consulting Limited, Goldenform Company Limited, Hong Kong Jililong Industry Co., Limited, Kaisa Holdings Limited, Leisure Land Hotel Management (China) Limited, Regal Silver Manufacturing Limited, Success Take International Limited, Woodland Height Holdings Limited, Yi Qing Investment Company Limited, Yong Rui Xiang Investment Company Limited, Kaisa Investment (China) Limited, Wan Rui Fa Investment Company Limited, Wan Rui Chang Investment Company Limited, Wan Tai Chang Investment Company Limited, Wan Jin Chang Investment Company Limited, Multi-Shiner Limited, Hong Kong Kaisa Industry Co., Limited, Bakai Investments (Hong Kong) Limited, Topway Asia Group Limited, Kaisa Financial Group (China) Company Limited, Hong Kong Kaisa Trading Limited, Hong Kong Wanyuchang Trading Limited, Hong Kong Zhaoruijing Trading Limited, Guo Cheng (Hong Kong) Investment Limited, Ri Xiang (Hong Kong) Investment Limited, Yin Jia (Hong Kong) Investment Limited, Rich Tech Hong Kong Investment Limited, Apex Walk (Hong Kong) Limited, Vast Wave (Hong Kong) Limited and Fulbright Financial Group (Hong Kong) Limited. Other than the initial Subsidiary Guarantors, none of the Company's other Restricted Subsidiaries organized outside of the PRC (the "Other Non-Guarantor Subsidiaries") and the Restricted Subsidiaries organized under the laws of the PRC (the "PRC Non-Guarantor Subsidiaries," and together with the Other Non-Guarantor Subsidiaries, the "Existing Non-Guarantor Subsidiaries") will be a Subsidiary Guarantor on the Original Issue Date. The initial Subsidiary Guarantors do not have significant operations or assets.

None of the existing or future Restricted Subsidiaries organized under the laws of the PRC or any Exempted Subsidiaries will provide a Subsidiary Guarantee or a JV Subsidiary Guarantee on the Original Issue Date or at any time in the future. Although the Indenture contains limitations on the amount of additional Indebtedness that the Restricted Subsidiaries organized under the laws of the PRC may incur, the amount of such additional Indebtedness could be substantial. In the event of a bankruptcy, liquidation or reorganization of any Non-Guarantor Subsidiary, the Non-Guarantor Subsidiary will pay the holders of its debt and its trade creditors before it will be able to distribute any of its assets to the Company. See "Risk Factors — Risks Relating to the Notes — We are a holding company and payments with respect to the Notes are structurally subordinated to liabilities, contingent liabilities and obligations of our subsidiaries".

As of December 31, 2019,

- the Company and its consolidated subsidiaries had approximately RMB117,195.6 million (US\$16,834.1 million) of consolidated indebtedness outstanding, of which approximately RMB52,692.5 million (US\$7,568.8 million) was secured;
- the Company and the Subsidiary Guarantors had approximately RMB58,522.5 million (US\$8,406.2 million) of secured indebtedness outstanding; and
- the Non-Guarantor Subsidiaries had approximately RMB58,673.1 million (US\$8,427.9 million) of consolidated indebtedness and other liabilities outstanding owed to third parties.

In addition, as of December 31, 2019, the Non-Guarantor Subsidiaries had approximately RMB39,458.8 million (US\$5,667.9 million) of capital commitments and RMB32,816.5 million (US\$4,713.8 million) of financial guarantees.

The Company will cause each of its future Subsidiaries (other than Subsidiaries organized under the laws of the PRC or Exempted Subsidiaries), as soon as practicable after such Subsidiary becomes a Restricted Subsidiary or ceases to be an Exempted Subsidiary, to execute and deliver to the Trustee a supplemental indenture to the Indenture pursuant to which such Restricted Subsidiary will guarantee the payment of the Notes as either a Subsidiary Guarantor or a JV Subsidiary Guarantor. Notwithstanding the foregoing sentence, the Company may elect to have any future Restricted Subsidiary (and its Restricted Subsidiaries) organized outside the PRC not provide a Subsidiary Guarantee or a JV Subsidiary Guarantee at the time such entity becomes a Restricted Subsidiary or ceases to be an Exempted Subsidiary (the "New Non-Guarantor Subsidiary" and,

together with the Existing Non-Guarantor Subsidiaries, the “Non-Guarantor Subsidiaries”); provided that, after giving effect to the Consolidated Assets of such Restricted Subsidiary, the Consolidated Assets of all Restricted Subsidiaries organized outside the PRC (other than Exempted Subsidiaries) that are not Subsidiary Guarantors or JV Subsidiary Guarantors do not account for more than 20% of Total Assets. Each Subsidiary of the Company that guarantees the Notes after the Original Issue Date other than through a JV Subsidiary Guarantee is referred to as a “Future Subsidiary Guarantor” and, upon execution of the applicable supplemental indenture to the Indenture, will be a “Subsidiary Guarantor”.

In the case of a Restricted Subsidiary that is, or is proposed by the Company or any Restricted Subsidiary to be, established after the Original Issue Date or any entity (1) that is incorporated in any jurisdiction other than the PRC and (2) in respect of which the Company or any Restricted Subsidiary (x) in the case of a Restricted Subsidiary, is proposing to sell, whether through the sale of existing shares or the issuance of new shares, no less than 20% of the Capital Stock of such Restricted Subsidiary or (y) in the case of any other entity, is proposing to purchase the Capital Stock of such entity such that it becomes a Subsidiary and designate such entity as a Restricted Subsidiary, the Company may, concurrently with or as soon as practicable after the consummation of such sale or purchase, provide a JV Subsidiary Guarantee instead of a Subsidiary Guarantee for (a) such Restricted Subsidiary and (b) the Restricted Subsidiaries of such Restricted Subsidiary that are organized in any jurisdiction other than the PRC (other than Exempted Subsidiaries), if the following conditions are satisfied:

- as of the date of execution of the JV Subsidiary Guarantee, no document exists that is binding on the Company or any such Restricted Subsidiary that would have the effect of (1) prohibiting the Company or any such Restricted Subsidiary from providing such JV Subsidiary Guarantee or (2) requiring the Company or any Restricted Subsidiary to deliver or keep in place a guarantee on terms that are more favorable to the recipients of such guarantee than the JV Subsidiary Guarantee;
- such sale or issuance of Capital Stock is made to, or such purchase of Capital Stock is made from, an Independent Third Party at a consideration that is not less than the Fair Market Value of such Capital Stock;
- concurrently with providing the JV Subsidiary Guarantee, the Company shall or shall cause such JV Subsidiary Guarantor to deliver to the Trustee and, if applicable, the Common Security Trustee (as defined below):
 - (i) (A) a duly executed JV Subsidiary Guarantee of such JV Subsidiary Guarantor (the “JV Subsidiary Guarantee”) and each Restricted Subsidiary of such JV Subsidiary Guarantor that is not organized under the laws of the PRC (other than Exempted Subsidiaries) and (B) a duly executed supplemental indenture to the Indenture pursuant to which such JV Subsidiary Guarantor will guarantee the payment of the Notes, each of which provides, among other things, that the aggregate claims of the Trustee under such JV Subsidiary Guarantee and all JV Subsidiary Guarantees provided by the Restricted Subsidiaries and shareholders of such JV Subsidiary Guarantor will be limited to the JV Entitlement Amount;
 - (ii) a duly executed Security Document that pledges in favor of the Common Security Trustee on behalf of the Trustee and the holders of the Notes the Capital Stock of such JV Subsidiary Guarantor held by the Company or any Subsidiary Guarantor, but not the Capital Stock of the direct or indirect Subsidiaries of such JV Subsidiary Guarantor;
 - (iii) an Officers’ Certificate certifying a copy of the Board Resolution to the effect that such JV Subsidiary Guarantee has been approved by a majority of the disinterested members of the Board of Directors; and
 - (iv) a legal opinion by a law firm of recognized international standing confirming that under New York law such JV Subsidiary Guarantee is legal, valid, binding and enforceable against the JV Subsidiary Guarantor providing the JV Subsidiary Guarantee (subject to customary qualifications and assumptions).

The Subsidiary Guarantee of each Subsidiary Guarantor:

- is a general obligation of such Subsidiary Guarantor;
- is effectively subordinated to secured obligations of such Subsidiary Guarantor, to the extent of the value of the assets serving as security therefor;
- is senior in right of payment to all future obligations of such Subsidiary Guarantor expressly subordinated in right of payment to such Subsidiary Guarantee;
- ranks at least *pari passu* with all other unsecured, unsubordinated Indebtedness of such Subsidiary Guarantor (subject to any priority rights of such unsubordinated Indebtedness pursuant to applicable law); and
- effectively subordinated to all existing and future obligations of the Non-Guarantor Subsidiaries.

The JV Subsidiary Guarantee of any JV Subsidiary Guarantor:

- is a general obligation of such JV Subsidiary Guarantor;
- is enforceable only up to the JV Entitlement Amount;
- is effectively subordinated to secured obligations of such JV Subsidiary Guarantor, to the extent of the value of the assets serving as security therefor;
- is limited to the JV Entitlement Amount, and senior in right of payment to all future obligations of such JV Subsidiary Guarantor expressly subordinated in right of payment to such JV Subsidiary Guarantee;
- is limited to the JV Entitlement Amount, and ranks at least *pari passu* with all other unsecured, unsubordinated Indebtedness of such JV Subsidiary Guarantor (subject to any priority rights of such unsubordinated Indebtedness pursuant to applicable law); and
- effectively subordinated to all existing and future obligations of the Non-Guarantor Subsidiaries.

In addition, subject to the limitations described in Risk Factors Risks Relating to the Subsidiary Guarantees, the JV Subsidiary Guarantees and the Collateral, the Subsidiary Guarantee of each Subsidiary Guarantor Pledgor:

- will be entitled to a security interest in the Collateral (subject to any Permitted Liens and the Intercreditor Agreement) pledged by such Subsidiary Guarantor Pledgor, as described below under the caption Security; and
- will rank effectively senior in right of payment to the unsecured obligations of such Subsidiary Guarantor Pledgor with respect to the value of the Collateral securing such Subsidiary Guarantee (subject to any priority rights of such unsecured obligations pursuant to applicable law).

The JV Subsidiary Guarantee of any JV Subsidiary Guarantor will not be secured.

Under the Indenture, and any supplemental indenture to the Indenture, as applicable, each of the Subsidiary Guarantors and JV Subsidiary Guarantors will jointly and severally guarantee the due and punctual payment of the principal of, premium, if any, and interest on, and all other amounts payable under, the Notes; provided that any JV Subsidiary Guarantee will be limited to the JV Entitlement Amount. The Subsidiary Guarantors and JV Subsidiary Guarantors will (1) agree that their respective obligations under the Subsidiary Guarantees and JV Subsidiary Guarantees, as the case may be, will be enforceable irrespective of any invalidity, irregularity or unenforceability of the Notes or the Indenture and (2) waive their right to require the Trustee to pursue or exhaust its legal or equitable remedies against the Company prior to exercising its rights under the Subsidiary Guarantees and the JV Subsidiary Guarantees, as the case may be. Moreover, if at any time any amount paid under a Note or the Indenture is rescinded or must otherwise be restored, the rights of the Holders under the Subsidiary Guarantees and the JV Subsidiary Guarantees, as the case may be, will be reinstated with respect to such payment as though such payment had not been made. All payments under the Subsidiary Guarantees and the JV Subsidiary Guarantees, as the case may be, are required to be made in U.S. dollars.

Under the Indenture and any supplemental indenture to the Indenture, as applicable, each Subsidiary Guarantee will be limited to an amount not to exceed the maximum amount that can be guaranteed by the applicable Subsidiary Guarantor without rendering the Subsidiary Guarantee, as it relates to such Subsidiary Guarantor, voidable under applicable law relating to

fraudulent conveyance or fraudulent transfer or similar laws affecting the rights of creditors generally. Each JV Subsidiary Guarantee will be limited to an amount which is the lower of (i) the JV Entitlement Amount and (ii) an amount not to exceed the maximum amount that can be guaranteed by the applicable JV Subsidiary Guarantor without rendering the JV Subsidiary Guarantee, as it relates to such JV Subsidiary Guarantor, voidable under applicable law relating to fraudulent conveyance or fraudulent transfer or similar laws affecting the rights of creditors generally. If a Subsidiary Guarantee or JV Subsidiary Guarantee were to be rendered voidable, it could be subordinated by a court to all other indebtedness (including guarantees and other contingent liabilities) of the applicable Subsidiary Guarantor or JV Subsidiary Guarantee and, depending on the amount of such indebtedness, a Subsidiary Guarantor's liability on its Subsidiary Guarantee or a JV Subsidiary Guarantor's liability on its JV Subsidiary Guarantee could be reduced to zero.

The obligations of each Subsidiary Guarantor under its Subsidiary Guarantee and the enforceability of the Collateral granted in respect of the Subsidiary Guarantees of the Subsidiary Guarantor Pledgors may be limited, or possibly invalid, under applicable laws. Similarly, the obligations of each JV Subsidiary Guarantor under its JV Subsidiary Guarantee may be limited, or possibly invalid, under applicable laws. See Risk Factors Risks Relating to the Subsidiary Guarantees, the JV Subsidiary Guarantees and the Collateral The Subsidiary Guarantees or JV Subsidiary Guarantees may be challenged under applicable insolvency or fraudulent transfer laws, which could impair the enforceability of the Subsidiary Guarantees or JV Subsidiary Guarantees.

Release of the Subsidiary Guarantees and JV Subsidiary Guarantees

A Subsidiary Guarantee given by a Subsidiary Guarantor and a JV Subsidiary Guarantee given by a JV Subsidiary Guarantor may be released in certain circumstances, including:

- upon repayment in full of the Notes;
- upon a defeasance as described under Defeasance Defeasance and Discharge;
- upon the designation by the Company of a Subsidiary Guarantor or a JV Subsidiary Guarantor, as the case may be, as an Unrestricted Subsidiary in compliance with the terms of the Indenture;
- upon the sale, disposition or merger of a Subsidiary Guarantor or a JV Subsidiary Guarantor, as the case may be, in compliance with the terms of the Indenture (including the covenants described under the captions Certain Covenants Limitation on Sales and Issuances of Capital Stock in Restricted Subsidiaries, Certain Covenants Limitation on Asset Sales, and Consolidation, Merger and Sale of Assets) resulting in such Subsidiary Guarantor or JV Subsidiary Guarantor, as the case may be, no longer being a Restricted Subsidiary, so long as (1) such Subsidiary Guarantor or JV Subsidiary Guarantor, as the case may be, is simultaneously released from its obligations in respect of any of the Company's other Indebtedness or any Indebtedness of any other Restricted Subsidiary and (2) the proceeds from such sale, disposition or merger are used for the purposes permitted or required by the Indenture;
- in the case of a Subsidiary Guarantee, upon the replacement of a Subsidiary Guarantee with a JV Subsidiary Guarantee; or
- in the case of a Subsidiary Guarantor that becomes a New Non-Guarantor Subsidiary, in compliance with the terms of the Indenture.

In the case of a Subsidiary Guarantor with respect to which the Company or any Restricted Subsidiary is proposing to sell, whether through the sale of existing shares or the issuance of new shares, no less than 20% of the Capital Stock of such Subsidiary Guarantor, the Company may concurrently with or as soon as practicable after the consummation of such sale or issuance of Capital Stock, (a) instruct the Trustee to release the Subsidiary Guarantees provided by such Subsidiary Guarantor and each of its Restricted Subsidiaries organized outside the PRC, and upon such release such Subsidiary Guarantor and its Restricted Subsidiaries organized outside the PRC will become New Non-Guarantor Subsidiaries (such that each New Non-Guarantor Subsidiary will no longer guarantee the Notes) and (b) instruct the Common Security Trustee to (i) discharge the pledge of the Capital Stock granted by each such New Non-Guarantor Subsidiary and (ii) discharge the pledge of Capital Stock made by the Company or any Subsidiary Guarantor over the shares it owns in such New Non-Guarantor Subsidiary (in each case, without any requirement to seek the consent or approval of the Holders of the Notes), provided that after the release of such Subsidiary Guarantees, the Consolidated Assets of all

Restricted Subsidiaries organized outside the PRC (other than Exempted Subsidiaries) that are not Subsidiary Guarantors or JV Subsidiary Guarantors (including the New Non-Guarantor Subsidiaries) do not account for more than 20% of Total Assets. A Subsidiary Guarantee of a Subsidiary Guarantor may only be released pursuant to this paragraph if as of the date of such proposed release, no document exists that is binding on the Company or any Restricted Subsidiary that would have the effect of (a) prohibiting the Company or any Restricted Subsidiary from releasing such Subsidiary Guarantee or (b) requiring the Company or such Subsidiary Guarantor to deliver or keep in place a guarantee of other Indebtedness of the Company by such Subsidiary Guarantor.

Replacement of Subsidiary Guarantees with JV Subsidiary Guarantees

A Subsidiary Guarantee given by a Subsidiary Guarantor may be released following the sale or issuance by the Company or any Restricted Subsidiary of Capital Stock in (x) such Subsidiary Guarantor or (y) any other Subsidiary Guarantor that, directly or indirectly, owns a majority of the Capital Stock of such Subsidiary Guarantor, in each case where such sale or issuance, whether through the sale of existing shares or the issuance of new shares, is for no less than 20% of the issued Capital Stock of the relevant Subsidiary Guarantor, provided that the following conditions are satisfied or complied with:

- as of the date of such proposed release, no document exists that is binding on the Company or any such Restricted Subsidiary that would have the effect of (1) prohibiting the Company or any such Restricted Subsidiary from releasing such Subsidiary Guarantee or (2) requiring the Company or any such Restricted Subsidiary to deliver or keep in force a replacement guarantee on terms that are more favorable to the recipients of such guarantee than the JV Subsidiary Guarantee;
- such sale or issuance of Capital Stock is made to an Independent Third Party at a consideration that is not less than the Fair Market Value of such Capital Stock;
- concurrently with the release of such Subsidiary Guarantee, the Company shall or shall cause such JV Subsidiary Guarantor to deliver to the Trustee and, if applicable, the Common Security Trustee:
 - (i) (A) a duly executed JV Subsidiary Guarantee of such JV Subsidiary Guarantor and each Restricted Subsidiary of such JV Subsidiary Guarantor that is not organized under the laws of the PRC and (B) a duly executed supplemental indenture to the Indenture pursuant to which such JV Subsidiary Guarantor will guarantee the payment of the Notes, each of which provides, among other things, that the aggregate claims of the Trustee under such JV Subsidiary Guarantee and all JV Subsidiary Guarantees provided by the Restricted Subsidiaries and shareholders of such JV Subsidiary Guarantor will be limited to the JV Entitlement Amount;
 - (ii) a duly executed Security Document that pledges in favor of the Common Security Trustee on behalf of the Trustee and the holders of the Notes the Capital Stock of such JV Subsidiary Guarantor held by the Company or any Subsidiary Guarantor, but not the Capital Stock of the direct or indirect Subsidiaries of such JV Subsidiary Guarantor;
 - (iii) an Officers Certificate certifying a copy of a Board Resolution to the effect that such JV Subsidiary Guarantees have been approved by a majority of the disinterested members of the Board of Directors; and
 - (iv) a legal opinion by a law firm of recognized international standing concurring that under New York law such JV Subsidiary Guarantee is legal, valid, binding and enforceable against the JV Subsidiary Guarantor providing such JV Subsidiary Guarantee (subject to customary qualifications and assumptions).

Notwithstanding the foregoing paragraph, any such sale or issuance of the Capital Stock of the relevant Subsidiary Guarantor (including where such sale results in the relevant Subsidiary Guarantor ceasing to be a Restricted Subsidiary) will need to comply with the other covenants set forth in the Indenture, including the Limitation on Asset Sales and Limitation on Restricted Payments covenants.

Any Net Cash Proceeds from the sale of such Capital Stock shall be applied by the Company (or any Restricted Subsidiary) in accordance with the Limitation on Asset Sales covenant.

No release of a Subsidiary Guarantor from its Subsidiary Guarantee or a JV Subsidiary Guarantor from its JV Subsidiary Guarantee shall be effective against the Trustee or the Holders

until the Company has delivered to the Trustee an Officers' Certificate stating that all requirements relating to such release have been complied with and that such release is authorized and permitted by the terms of the Indenture.

Security

Each of the Company and the initial Subsidiary Guarantor Pledgors has pledged the Capital Stock of the initial Subsidiary Guarantors (the "Collateral") owned by it (subject to Permitted Liens and the Intercreditor Agreement) in order to secure the obligations of the Company and such Subsidiary Guarantor Pledgor under the Existing Notes. On the Original Issue Date, the Trustee will execute a supplement to and become a party to the Intercreditor Agreement, at which time the Trustee will become a Secured Party (as defined below) under the Intercreditor Agreement, and the Holders of the Notes issued on the Original Issue Date will be entitled to share in the benefit of the pledge of such Capital Stock on a *pari passu* basis with the holders of the Existing Notes and the holders of any other Permitted *Pari Passu* Secured Indebtedness. See "— *Intercreditor Agreement*".

The initial Subsidiary Guarantor Pledgors are Chang Ye Investment Company Limited (昌業投資有限公司), Da Hua Investment Company Limited (大華投資有限公司), Dong Chang Investment Company Limited (東昌投資有限公司), Dong Sheng Investment Company Limited (東升投資有限公司), Guang Feng Investment Company Limited (廣豐投資有限公司), Heng Chang Investment Company Limited (恒昌投資有限公司), Jie Feng Investment Company Limited (捷豐投資有限公司), Jin Chang Investment Company Limited (進昌投資有限公司), Rong Hui Investment Company Limited (榮輝投資有限公司), Rui Jing Investment Company Limited (瑞景投資有限公司), Tai An Da Investment Company Limited (泰安達投資有限公司), Tai Chang Jian Investment Company Limited (泰昌建投資有限公司), Tai Chong Fa Investment Company Limited (泰昌發投資有限公司), Tai Chong Li Investment Company Limited (泰昌利投資有限公司), Tai He Sheng Investment Company Limited (泰和盛投資有限公司), Tai He Xiang Investment Company Limited (泰和詳投資有限公司), Zheng Zhong Tian Investment Company Limited (正中天投資有限公司), Bakai Investments Limited (八凱投資有限公司), Yifa Trading Limited (益發貿易有限公司), Kaisa Holdings Limited, Central Broad Limited (中博有限公司), Guo Cheng Investments Limited (國承投資有限公司), Ri Xiang Investments Limited (日翔投資有限公司), Yin Jia Investments Limited (銀佳投資有限公司), Jet Smart Global Development Limited (捷利環球發展有限公司), Apex Walk Limited (歲行有限公司), Vast Wave Limited (廣濤有限公司), Fulbright Financial Group (Enterprise) Limited (富昌金融集團(企業)有限公司) and Fulbright Financial Group (Development) Limited (富昌金融集團(發展)有限公司).

None of the Capital Stock of the Non-Guarantor Subsidiaries will be pledged on the Original Issue Date or at any time in the future (unless they cease to be Non-Guarantor Subsidiaries). In addition, none of the Capital Stock of any future Restricted Subsidiary that may be organized under the laws of the PRC will be pledged at any time in the future. If any JV Subsidiary Guarantor is established, the Capital Stock of such JV Subsidiary Guarantor owned by the Company or any Subsidiary Guarantor will be pledged to secure the obligations of the Company under the Notes and the Indenture, and of such Subsidiary Guarantor under its Subsidiary Guarantee, as the case may be, in the manner described above. However, none of the JV Subsidiary Guarantors will provide a Security Document pledging the Capital Stock of its direct or indirect Restricted Subsidiaries as security in favor of the Common Security Trustee.

The Company has also agreed, for the benefit of the holders of the Notes, to pledge, or cause each Subsidiary Guarantor to pledge, the Capital Stock owned directly by the Company or such Subsidiary Guarantor of any Person that becomes a Subsidiary Guarantor or JV Subsidiary Guarantor after the Original Issue Date, as soon as practicable after such Person becomes a Subsidiary Guarantor or JV Subsidiary Guarantor, to secure (subject to Permitted Liens) the obligations of the Company under the Notes and the Indenture, and of such Subsidiary Guarantor under its Subsidiary Guarantee, in the manner described above.

Each Subsidiary Guarantor that pledges Capital Stock of a Restricted Subsidiary after the Original Issue Date is referred to as a "Future Subsidiary Guarantor Pledgor" and, upon giving such pledge, will be a "Subsidiary Guarantor Pledgor".

The value of the Collateral securing the Notes and the Subsidiary Guarantees of the Subsidiary Guarantor Pledgors is unlikely to be sufficient to satisfy the Company's and the Subsidiary Guarantor Pledgors' obligations under the Notes and the Subsidiary Guarantees of the Subsidiary Guarantor Pledgors, and the Collateral securing the Notes and such Subsidiary Guarantees may be reduced or diluted under certain circumstances, including the issuance of Additional Notes and other Permitted *Pari Passu* Secured Indebtedness and the disposition of assets comprising the Collateral, subject to the terms of the Indenture, the Security Documents and the Intercreditor Agreement. See "Security — Release of Security" and "Risk Factors — Risks

Relating to the Subsidiary Guarantees, the JV Subsidiary Guarantees and the Collateral — The value of the Collateral is unlikely to be sufficient to satisfy our obligations under the Notes and other *pari passu* secured indebtedness”.

No appraisals of the Collateral have been prepared in connection with this offering of the Notes. There can be no assurance that the proceeds of any sale of the Collateral, in whole or in part, pursuant to the Indenture, the Intercreditor Agreement and the Security Documents following an Event of Default, would be sufficient to satisfy amounts due on the Notes or the Subsidiary Guarantees of the Subsidiary Guarantor Pledgors. By its nature, some or all of the Collateral will be illiquid and may have no readily ascertainable market value. Accordingly, there can be no assurance that the Collateral would be sold in a timely manner or at all.

So long as no Payment Default has occurred and is continuing, and subject to the terms of the Security Documents and the Indenture, the Company and the Subsidiary Guarantor Pledgors, as the case may be, will be entitled to exercise any and all voting rights and to receive, retain and use any and all cash dividends, stock dividends, liquidating dividends, non-cash dividends, shares or stock resulting from stock splits or reclassifications, rights issues, warrants, options and other distributions (whether similar or dissimilar to the foregoing) in respect of Capital Stock constituting Collateral.

Permitted Pari Passu Secured Indebtedness

On or after the Original Issue Date, the Company and each Subsidiary Guarantor Pledgor may create Liens on the Collateral *pari passu* with the Lien for the benefit of the Holders to secure Indebtedness of the Company (including Additional Notes) or any Subsidiary Guarantor and any *Pari Passu* Guarantee with respect to such Indebtedness (such Indebtedness of the Company or any Subsidiary Guarantor and any such *Pari Passu* Guarantee, “Permitted *Pari Passu* Secured Indebtedness”); provided that (i) the Company or such Subsidiary Guarantor was permitted to Incur such Indebtedness under the covenant under the caption “Limitation on Indebtedness and Preferred Stock”, (ii) the holders (or their representative) of such Indebtedness (other than Additional Notes) become party to the Intercreditor Agreement referred to below, (iii) the agreement in respect of such Indebtedness contains provisions with respect to releases of Collateral and such *Pari Passu* Guarantee substantially similar to and no more restrictive on the Company and such Subsidiary Guarantor than the provisions of the Indenture and the Security Documents, and (iv) the Company and such Subsidiary Guarantor Pledgor deliver to the Trustee and/or the Common Security Trustee (defined below) an Opinion of Counsel and an Officers’ Certificate, each with respect to corporate and collateral matters in connection with the Security Documents, stating that either (x) all necessary actions have been taken with respect to the recording, registering and filing of the Security Documents or (y) no such action is necessary to make such Lien effective. The Trustee and/or the Common Security Trustee, as the case may be, will be permitted and authorized, without the consent of any Holder, to enter into any amendments to the Security Documents, the Intercreditor Agreement or the Indenture and take any other action necessary to permit the creation and registration of Liens on the Collateral to secure Permitted *Pari Passu* Secured Indebtedness in accordance with this paragraph (including, without limitation, the appointment of any collateral agent under the Intercreditor Agreement referred to below to hold the Collateral on behalf of the Holders and the holders of Permitted *Pari Passu* Secured Indebtedness).

Except for certain Permitted Liens and the Permitted *Pari Passu* Secured Indebtedness, the Company and its Restricted Subsidiaries will not be permitted to issue or Incur any other Indebtedness secured by all or any portion of the Collateral without the consent of each Holder of the Notes then outstanding.

Intercreditor Agreement

The Company, the Subsidiary Guarantor Pledgors, Citicorp International Limited, as the shared security agent (the “Common Security Trustee”) and other secured parties thereto, have entered into an amended and restated intercreditor agreement dated July 21, 2016 (such intercreditor agreement, as so supplemented and amended from time to time, the “Intercreditor Agreement”), to which the Trustee will accede on the Original Issue Date. Pursuant to the Intercreditor Agreement, the Existing Notes Trustee and the Trustee agree to (1) share the Collateral on an equal and ratable basis, (2) the conditions that are applicable to the release of or granting of any Lien on such Collateral, and (3) the conditions under which their rights with respect to such Collateral and the Indebtedness secured thereby will be enforced.

In connection with any future Permitted *Pari Passu* Secured Indebtedness (other than Additional Notes), the holders of such Permitted *Pari Passu* Secured Indebtedness (or their

representative) will accede to the Intercreditor Agreement and become parties to it. The Common Security Trustee, the Trustee, the Existing Notes Trustee and the holders of future Permitted Pari Passu Secured Indebtedness (or their representative) are collectively referred to as the “Secured Parties”.

By accepting the Notes, each Holder shall be deemed to have consented to the execution of the Intercreditor Agreement, any supplements, amendments or modifications thereto, and any future intercreditor agreement required and permitted under the Indenture.

Enforcement of Security

The lien securing the Notes and the Subsidiary Guarantees of the Subsidiary Guarantor Pledgors will be granted to the Common Security Trustee. The Common Security Trustee, subject to the Intercreditor Agreement, will hold such Liens and security interests in the Collateral granted pursuant to the Security Documents with sole authority as directed by the Trustee (acting in accordance with written instruction of the Holders) and subject to receiving indemnity and/or security to its satisfaction to exercise remedies under the Security Documents. The Common Security Trustee has agreed to act as secured party on behalf of the Holders and the Trustee under the applicable Security Documents, to follow the instructions provided to it under the Indenture, the Security Documents and the Intercreditor Agreement and to carry out certain other duties.

The Indenture and/or the Security Documents principally provide that, at any time while the Notes are outstanding, the Common Security Trustee has the right to manage, perform and enforce the terms of the Security Documents relating to the Collateral and to exercise and enforce all privileges, rights and remedies thereunder according to its direction, including to take or retake control or possession of such Collateral and to hold, prepare for sale, process, lease, dispose of or liquidate such Collateral, including, without limitation, following the occurrence of an Event of Default under the Indenture.

The Intercreditor Agreement will provide, among other things, that any Secured Party may instruct the Common Security Trustee to enforce the Collateral and to deliver a notice of enforcement to the Company and the applicable Subsidiary Guarantor Pledgor (such instructions, the “Enforcement Instructions”). Upon receipt of an Enforcement Instruction from any Secured Party, the Common Security Trustee will provide a copy of such Enforcement Instruction and notice of enforcement to the Company and the other Secured Parties. If (a) the Common Security Trustee identifies a conflict (i) between Secured Parties’ interests in connection with any Enforcement Instruction or (ii) in the event that each of the Secured Parties issues Enforcement Instructions, between those Enforcement Instructions, and (b) the Common Security Trustee believes in its sole discretion that the interests of the Secured Parties would be in conflict upon the exercise of those Enforcement Instructions, or that compliance with an Enforcement Instruction would cause the Common Security Trustee to contravene another Enforcement Instruction, the Common Security Trustee shall notify each Secured Party in writing not more than five Business Days after it becomes aware of such conflict. In such circumstances, the Common Security Trustee is not obligated to take any action if it identifies such conflict.

The Intercreditor Agreement provides that any proceeds from any sale, collection, liquidation or enforcement of the Collateral shall be distributed by the Common Security Trustee in accordance with the terms of the Intercreditor Agreement and subject to the conditions of the relevant Security Document. Such proceeds shall be applied as follows:

first, to the Common Security Trustee for any unpaid fees, costs and expenses (including any indemnity expenses) reasonably incurred thereunder;

second, pro rata to each of the Trustee, the Existing Notes Trustee and any agent, trustee or representative as a secured party for any series of Permitted Pari Passu Secured Indebtedness for any unpaid fees, costs and expenses (including any indemnity expenses) reasonably incurred under the applicable secured party document;

third, pro rata to each of the Trustee for the benefit of the Holders, the Existing Notes Trustee for the benefit of holders of the Existing Notes and, to the extent applicable, to holders of Permitted Pari Passu Secured Indebtedness (or their representative for the benefit of such holders) in accordance with the terms of the applicable secured party document; and

fourth, any surplus remaining after such payments will be paid to the Company, the Subsidiary Guarantor Pledgors or to whomever may be lawfully entitled thereto.

The Trustee and/or the Common Security Trustee may decline to foreclose on the Collateral or exercise remedies available if it does not receive indemnification and/or security to its

satisfaction. In addition, the Common Security Trustee's ability to foreclose on the Collateral may be subject to lack of perfection, the consent of third parties, prior Liens and practical problems associated with the realization of the Trustee's Liens on the Collateral. Neither the Trustee, the Common Security Trustee nor any of their respective officers, directors, employees, attorneys or agents will be responsible or liable for the existence, genuineness, value, title or protection of any Collateral securing the Notes, for the legality, enforceability, effectiveness, adequacy or sufficiency of the Security Documents or the Intercreditor Agreement, for the creation, perfection, priority, sufficiency or protection of any of the Liens, or for any defect or deficiency as to any such matters, or for any failure to demand, collect, foreclose or realize upon or otherwise enforce any of the Liens or Security Documents or any delay in doing so.

The Security Documents provide that the Company and the Subsidiary Guarantor Pledgors will indemnify the Common Security Trustee for all liabilities, obligations, losses, damages, penalties, actions, judgments, suits, costs, expenses or disbursements of any kind imposed against the Common Security Trustee arising out of the Security Documents except to the extent that any of the foregoing are finally judicially determined to have resulted from the gross negligence or willful misconduct of the Common Security Trustee.

This section, "— Enforcement of Security", shall be subject to any amendments to the Security Documents or the Indenture to permit the creation of Liens on the Collateral to secure Permitted Pari Passu Secured Indebtedness in accordance with "— Permitted Pari Passu Secured Indebtedness" above.

Release of Security

Subject to the provisions of the Indenture, the Security Documents and Intercreditor Agreement, the security created in respect of the Collateral granted under the Security Documents may be released in relation to the Notes and the Subsidiary Guarantees in certain circumstances, including:

- upon repayment in full of the Notes;
- upon defeasance and discharge of the Notes as provided below under the caption "— Defeasance — Defeasance and Discharge";
- upon certain dispositions of the Collateral in compliance with the covenants under the captions "— Certain Covenants — Limitation on Sales and Issuances of Capital Stock in Restricted Subsidiaries" or "— Certain Covenants — Limitation on Asset Sales" or in accordance with the provision under the caption "— Consolidation, Merger and Sale of Assets";
- with respect to security granted by a Subsidiary Guarantor Pledgor, upon the release of the Subsidiary Guarantee of such Subsidiary Guarantor Pledgor in accordance with the terms of the Indenture;
- in whole or in part, with the requisite consent of the Holders in accordance with the provisions described under "— Amendments and Waiver";
- with respect to a Subsidiary Guarantor that becomes a New Non-Guarantor Subsidiary, the release of the pledge of Capital Stock made by the Company or any Subsidiary Guarantor over the shares it owns in such New Non-Guarantor Subsidiary;
- in connection with and upon execution of a JV Subsidiary Guarantee to replace a Subsidiary Guarantee with respect to all pledges of Capital Stock granted by such JV Subsidiary Guarantor or its Subsidiaries in its direct and indirect Subsidiaries, in accordance with the terms of the Indenture; and
- with respect to any pledge over any Capital Stock of any Subsidiary Guarantor or JV Subsidiary Guarantor, upon the designation by the Company of such Subsidiary Guarantor or JV Subsidiary Guarantor as an Unrestricted Subsidiary in accordance with the terms of the Indenture.

No release of the Collateral shall be effective against the Common Security Trustee, the Trustee or the Holders until the Company and the relevant Subsidiary Guarantor Pledgor have delivered to the Common Security Trustee and the Trustee an Officer's Certificate and an Opinion of Counsel stating that all requirements relating to such release have been complied with and that such release has been authorized by, permitted by and made in accordance with the provisions of the Indenture, the Security Documents and the Intercreditor Agreement.

Further Issues

Subject to the covenants described below, the Company may, from time to time, without notice to or the consent of the Holders, create and issue Additional Notes having the same terms and conditions as the Notes (including the benefit of the Subsidiary Guarantees and JV Subsidiary Guarantees) in all respects (or in all respects except for the issue date, issue price and the first payment of interest on them and, to the extent necessary, certain temporary securities law transfer restrictions) (a “Further Issue”) so that such Additional Notes may be consolidated and form a single class with the previously outstanding Notes and vote together as one class on all matters with respect to the Notes; provided that the issuance of any such Additional Notes shall then be permitted under the “— Certain Covenants — Limitation on Indebtedness and Preferred Stock” covenant described below.

Optional Redemption

At any time prior to June 9, 2021, the Company may at its option redeem the Notes, in whole but not in part, at a redemption price equal to 100% of the principal amount of the Notes plus the Applicable Premium as of, and accrued and unpaid interest, if any, to, the redemption date. Neither the Trustee nor any of the Agents shall be responsible for verifying or calculating the Applicable Premium.

In addition, at any time prior to June 9, 2021, the Company may redeem up to 35% of the aggregate principal amount of the Notes with the Net Cash Proceeds of one or more sales of Common Stock of the Company in an Equity Offering at a redemption price of 107.875% of the principal amount of the Notes, plus accrued and unpaid interest, if any, to the redemption date; provided that at least 65% of the aggregate principal amount of the Notes issued on the Original Issue Date remains outstanding after each such redemption and any such redemption takes place within 60 days after the closing of the related Equity Offering.

The Company will give not less than 30 days’ nor more than 60 days’ notice of any redemption. If less than all of the Notes are to be redeemed, the Notes will be selected for redemption as follows:

- if the Notes are listed on any securities exchange and/or being held through the clearing systems, in compliance with the requirements of the principal securities exchange on which the Notes are then listed and/or the requirements of the clearing systems; or
- if the Notes are not listed on any securities exchange and/or held through the clearing systems, on a pro rata basis or by lot or such other method as the Trustee may determine in its sole and absolute discretion, unless otherwise required by law.

However, no Note of US\$200,000 in principal amount or less shall be redeemed in part. If any Note is to be redeemed in part only, the notice of redemption relating to such Note will state the portion of the principal amount to be redeemed. With respect to any Certificated Note, a new Note in principal amount equal to the unredeemed portion will be issued upon cancellation of the original Note. On and after the redemption date, interest will cease to accrue on Notes or portions of them called for redemption.

Repurchase of Notes Upon a Change of Control Triggering Event

Not later than 30 days following a Change of Control Triggering Event, the Company will make an Offer to Purchase all outstanding Notes (a “Change of Control Offer”) at a purchase price equal to 101% of the principal amount thereof plus accrued and unpaid interest, if any, to (but not including) the Offer to Purchase Payment Date.

The Company has agreed in the Indenture that it will timely repay all Indebtedness or obtain consents as necessary under, or terminate, agreements or instruments that would otherwise prohibit a Change of Control Offer required to be made pursuant to the Indenture. Notwithstanding this agreement of the Company, it is important to note that if the Company is unable to repay (or cause to be repaid) all of the Indebtedness, if any, that would prohibit repurchase of the Notes or is unable to obtain the requisite consents of the holders of such Indebtedness, or terminate any agreements or instruments that would otherwise prohibit a Change of Control Offer, it would continue to be prohibited from purchasing the Notes. In that case, the failure by the Company to purchase tendered Notes would constitute an Event of Default under the Indenture.

Certain of the events constituting a Change of Control Triggering Event under the Notes will also constitute an event of default under certain other debt instruments of the Company and its Subsidiaries. Future debt of the Company may also (i) prohibit the Company from purchasing Notes in the event of a Change of Control Triggering Event, (ii) provide that a Change of Control Triggering Event is a default or (iii) require repurchase of such debt upon a Change of Control Triggering Event. Moreover, the exercise by the Holders of their right to require the Company to purchase the Notes could cause a default under other Indebtedness, even if the Change of Control Triggering Event itself does not, due to the financial effect of the purchase on the Company. The ability of the Company to pay cash to the Holders following the occurrence of a Change of Control Triggering Event may be limited by the Company's then existing financial resources. There can be no assurance that sufficient funds will be available when necessary to make the required purchase of the Notes. See "Risk Factors — Risks Relating to the Notes — We may not be able to repurchase or repay the Notes upon a Change of Control Triggering Event".

The definition of Change of Control includes a phrase "all or substantially all" as used with respect to the assets of the Company. No precise definition of the phrase has been established under applicable law, and the phrase will likely be interpreted under applicable law of the relevant jurisdictions based on particular facts and circumstances. Accordingly, there may be a degree of uncertainty as to the ability of a Holder of Notes to require the Company to repurchase such Holder's Notes as a result of a sale of less than all the assets of the Company to another person or group.

Notwithstanding the above, the Company will not be required to make a Change of Control Offer following a Change of Control Triggering Event if a third party makes the Change of Control Offer in the same manner, at the same times and otherwise in compliance with the requirements set forth in the Indenture applicable to a Change of Control Offer made by the Company and purchases all Notes validly tendered and not withdrawn under such Change of Control Offer.

Except as described above with respect to a Change of Control Triggering Event, the Indenture does not contain provisions that permit the Holders to require that the Company purchase or redeem the Notes in the event of a takeover, recapitalization or similar transaction.

Neither the Trustee nor the Agents shall be required to monitor or to take any steps to ascertain whether a Change of Control Triggering Event, or any event which could lead to the occurrence of a Change of Control Triggering Event, has occurred or may occur.

No Mandatory Redemption or Sinking Fund

There will be no mandatory redemption or sinking fund payments for the Notes.

Additional Amounts

All payments of principal of, and premium (if any) and interest on, the Notes or under the Subsidiary Guarantees or the JV Subsidiary Guarantees will be made without withholding or deduction for, or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature imposed or levied by or within any jurisdiction in which the Company, a Surviving Person (as defined under the caption "— Consolidation, Merger and Sale of Assets") or an applicable Subsidiary Guarantor or an applicable JV Subsidiary Guarantor is organized or resident for tax purposes or any jurisdiction from or through which payment is made (or any political subdivision or taxing authority thereof or therein) (each, as applicable, a "Relevant Jurisdiction"), unless such withholding or deduction is required by law or by regulation or governmental policy having the force of law. In the event that any such withholding or deduction is so required, the Company, a Surviving Person, the applicable Subsidiary Guarantor or the applicable JV Subsidiary Guarantor, as the case may be, will pay such additional amounts ("Additional Amounts") as will result in receipt by the Holder of each Note of such amounts as

would have been received by such Holder had no such withholding or deduction been required, except that no Additional Amounts shall be payable:

- (a) for or on account of:
 - (i) any tax, duty, assessment or other governmental charge that would not have been imposed but for:
 - (A) the existence of any present or former connection between the Holder or beneficial owner of such Note, Subsidiary Guarantee or Security Document, as the case may be, and the Relevant Jurisdiction other than merely holding such Note or the receipt of payments thereunder or under a Subsidiary Guarantee or JV Subsidiary Guarantee, as the case may be, including, without limitation, such Holder or beneficial owner being or having been a national, domiciliary or resident of such Relevant Jurisdiction or treated as a resident thereof or being or having been physically present or engaged in a trade or business therein or having or having had a permanent establishment therein;
 - (B) the presentation of such Note (in cases in which presentation is required) more than 30 days after the later of the date on which the payment of the principal of, premium, if any, and interest on, such Note became due and payable pursuant to the terms thereof or was made or duly provided for, except to the extent that the Holder thereof would have been entitled to such Additional Amounts if it had presented such Note for payment on any date within such 30 day period;
 - (C) the failure of the Holder or beneficial owner to comply with a timely request of the Company, a Surviving Person or any Subsidiary Guarantor or JV Subsidiary Guarantor addressed to the Holder to provide information concerning such Holder's or beneficial owner's nationality, residence, identity or connection with any Relevant Jurisdiction, if and to the extent that due and timely compliance with such request would have reduced or eliminated any withholding or deduction as to which Additional Amounts would have otherwise been payable to such Holder or beneficial owner; or
 - (D) the presentation of such Note (in cases in which presentation is required) for payment in the Relevant Jurisdiction, unless such Note could not have been presented for payment elsewhere;
 - (ii) any estate, inheritance, gift, sale, transfer, personal property or similar tax, assessment or other governmental charge;
 - (iii) any tax, assessment, withholding or deduction required by sections 1471 through 1474 of the Internal Revenue Code of 1986, as amended ("FATCA"), any current or future Treasury Regulations or rulings promulgated thereunder, any law, regulation or other official guidance enacted in any jurisdiction implementing FATCA, any intergovernmental agreement between the United States and any other jurisdiction pursuant to the implementation of FATCA, or any other agreement pursuant to the implementation of FATCA; or
 - (iv) any combination of taxes, duties, assessments or other governmental charges referred to in the preceding clauses (i), (ii) and (iii); or
- (b) to a Holder that is a fiduciary, partnership or person other than the sole beneficial owner of any payment, to the extent that such payment would be required to be included for tax purposes in the income under the laws of a Relevant Jurisdiction of a beneficiary or settlor with respect to the fiduciary, or a member of that partnership or a beneficial owner who would not have been entitled to such Additional Amounts had that beneficiary, settlor, partner or beneficial owner been the Holder thereof.

As a result of these provisions, there are circumstances in which taxes could be withheld or deducted but Additional Amounts would not be payable to some or all beneficial owners of Notes.

Whenever there is mentioned in any context the payment of principal, premium or interest in respect of any Note, any Subsidiary Guarantee or any JV Subsidiary Guarantee, such mention shall be deemed to include payment of Additional Amounts provided for in the Indenture to the extent that, in such context, Additional Amounts are, were or would be payable in respect thereof.

Redemption for Tax Reasons

The Notes may be redeemed, at the option of the Company or a Surviving Person (as defined under the caption "— Consolidation, Merger and Sale of Assets"), as a whole but not in part, upon

giving not less than 30 days' nor more than 60 days' notice to the Holders (which notice shall be irrevocable), at a redemption price equal to 100% of the principal amount thereof, together with accrued and unpaid interest (including any Additional Amounts), if any, to the date fixed by the Company or the Surviving Person, as the case may be, for redemption (the "Tax Redemption Date") if, as a result of:

- (1) any change in, or amendment to, the laws (or any regulations or rulings promulgated thereunder) of a Relevant Jurisdiction affecting taxation; or
- (2) any change in the existing official position, or the stating of an official position, regarding the application or interpretation of such laws, regulations or rulings (including a holding, judgment or order by a court of competent jurisdiction),

which change or amendment becomes effective on or after (i) with respect to the Company or any initial Subsidiary Guarantor, the Original Issue Date or (ii) with respect to any Future Subsidiary Guarantor, JV Subsidiary Guarantor or Surviving Person, the date such Future Subsidiary Guarantor, JV Subsidiary Guarantor or Surviving Person becomes a Subsidiary Guarantor, JV Subsidiary Guarantor or Surviving Person, as the case may be, with respect to any payment due or to become due under the Notes or the Indenture, the Company, such Subsidiary Guarantor, JV Subsidiary Guarantor or such Surviving Person, as the case may be, is, or on the next Interest Payment Date would be, required to pay Additional Amounts, and such requirement cannot be avoided by the taking of reasonable measures by the Company, such Subsidiary Guarantor, JV Subsidiary Guarantor or such Surviving Person, as the case may be; provided that no such notice of redemption shall be given earlier than 90 days prior to the earliest date on which the Company, such Subsidiary Guarantor, such JV Subsidiary Guarantor or such Surviving Person, as the case may be, would be obligated to pay such Additional Amounts if a payment in respect of the Notes were then due.

Prior to the giving of any notice of redemption of the Notes pursuant to the foregoing, the Company, a Subsidiary Guarantor, a JV Subsidiary Guarantor or a Surviving Person, as the case may be, will deliver to the Trustee at least 30 days but not more than 60 days before the Tax Redemption Date:

- (1) an Officers' Certificate stating that such change or amendment referred to in the prior paragraph has occurred, describing the facts related thereto and stating that such requirement cannot be avoided by the Company, such Surviving Person, such Subsidiary Guarantor or such JV Subsidiary Guarantor, as the case may be, by taking reasonable measures available to it; and
- (2) an Opinion of Counsel or an opinion of a tax consultant, in either case, of recognized standing with respect to tax matters of the Relevant Jurisdiction, stating that the requirement to pay such Additional Amounts results from such change or amendment referred to in the prior paragraph.

The Trustee shall be entitled to and shall accept such certificate and opinion as sufficient evidence of the satisfaction of the conditions precedent described above, in which event it shall be conclusive and binding on the Holders.

Any Notes that are redeemed will be cancelled.

Certain Covenants

Set forth below are summaries of certain covenants contained in the Indenture.

Limitation on Indebtedness and Preferred Stock

- (a) The Company will not, and will not permit any Restricted Subsidiary to, Incur any Indebtedness (including Acquired Indebtedness) and the Company will not permit any Restricted Subsidiary to issue any Preferred Stock; provided that the Company, any Subsidiary Guarantor or any JV Subsidiary Guarantor may Incur Indebtedness (including Acquired Indebtedness) and any Non-Guarantor Subsidiary may Incur Permitted Subsidiary Indebtedness if, after giving effect to the Incurrence of such Indebtedness and the receipt and application of the proceeds therefrom, (x) no Default has occurred and is continuing and (y) the Fixed Charge Coverage Ratio would be not less than 2.25 to 1.0. Notwithstanding the foregoing, the Company will not permit any Restricted Subsidiary to Incur any Disqualified Stock (other than Disqualified Stock held by the Company or a Subsidiary Guarantor, so long as it is so held).

- (b) Notwithstanding the foregoing, the Company and, to the extent provided below, any Restricted Subsidiary, may incur each and all of the following (“Permitted Indebtedness”):
- (1) Indebtedness under the Notes (excluding any Additional Notes), each Subsidiary Guarantee and each JV Subsidiary Guarantee;
 - (2) any *Pari Passu* Guarantees;
 - (3) Indebtedness of the Company or any Restricted Subsidiary outstanding on the Original Issue Date excluding Indebtedness permitted under clause (b)(4) of this covenant; provided that such Indebtedness of Non-Guarantor Subsidiaries shall be included in the calculation of Permitted Subsidiary Indebtedness;
 - (4) Indebtedness of the Company or any Restricted Subsidiary owed to the Company or any Restricted Subsidiary; provided that (x) any event which results in any such Restricted Subsidiary ceasing to be a Restricted Subsidiary or any subsequent transfer of such Indebtedness (other than to the Company or any Restricted Subsidiary) shall be deemed, in each case, to constitute an Incurrence of such Indebtedness not permitted by this clause (b)(4), and (y) if the Company is the obligor on such Indebtedness, such Indebtedness must be expressly subordinated in right of payment to the Notes, and if a Subsidiary Guarantor or a JV Subsidiary Guarantor is the obligor on such Indebtedness and the Company or any other Subsidiary Guarantor or JV Subsidiary Guarantor is not the obligee, such Indebtedness must be expressly subordinated in right of payment to the Subsidiary Guarantee of such Subsidiary Guarantor or the JV Subsidiary Guarantee of such JV Subsidiary Guarantor, as the case may be;
 - (5) Indebtedness (“Permitted Refinancing Indebtedness”) issued in exchange for, or the net proceeds of which are used to refinance or refund, then outstanding Indebtedness Incurred under clause (a) or clause (b)(1), (b)(2), (b)(3), (b)(7), (b)(16), (b)(17), (b)(19), (b)(20), (b)(22) or (b)(23) of this covenant and any refinancings thereof in an amount not to exceed the amount so refinanced or refunded (plus premiums, accrued interest, fees and expenses); provided that (A) Indebtedness the proceeds of which are used to refinance or refund the Notes or Indebtedness that is *pari passu* with, or subordinated in right of payment to, the Notes, a Subsidiary Guarantee or a JV Subsidiary Guarantee shall only be permitted under this clause (b)(5) if (x) in case the Notes are refinanced in part or the Indebtedness to be refinanced is *pari passu* with the Notes, a Subsidiary Guarantee or a JV Subsidiary Guarantee, such new Indebtedness, by its terms or by the terms of any agreement or instrument pursuant to which such new Indebtedness is issued or remains outstanding, is expressly made *pari passu* with, or subordinate in right of payment to, the remaining Notes, such Subsidiary Guarantee or such JV Subsidiary Guarantee or (y) in case the Indebtedness to be refinanced is subordinated in right of payment to the Notes, a Subsidiary Guarantee or a JV Subsidiary Guarantee, such new Indebtedness, by its terms or by the terms of any agreement or instrument pursuant to which such new Indebtedness is issued or remains outstanding, is expressly made subordinate in right of payment to the Notes, such Subsidiary Guarantee or such JV Subsidiary Guarantee at least to the extent that the Indebtedness to be refinanced is subordinated to the Notes, such Subsidiary Guarantee or such JV Subsidiary Guarantee, (B) such new Indebtedness, determined as of the date of Incurrence of such new Indebtedness, does not mature prior to the Stated Maturity of the Indebtedness to be refinanced or refunded, and the Average Life of such new Indebtedness is at least equal to the remaining Average Life of the Indebtedness to be refinanced or refunded and (C) in no event may Indebtedness of the Company, any Subsidiary Guarantor or any JV Subsidiary Guarantor be refinanced pursuant to this clause (b)(5) by means of any Indebtedness of any Restricted Subsidiary that is not a Subsidiary Guarantor or a JV Subsidiary Guarantor;
 - (6) Indebtedness Incurred by the Company or any Restricted Subsidiary pursuant to Hedging Obligations entered into in the ordinary course of business and designed

solely to protect the Company or any Restricted Subsidiary from fluctuations in interest rates, currencies or the price of commodities and not for speculation;

- (7) Indebtedness Incurred by the Company or any Restricted Subsidiary for the purpose of financing (i) all or any part of the purchase price of real or personal property (including the lease purchase price of land use rights) or equipment to be used in the ordinary course of business by the Company or a Restricted Subsidiary in the Permitted Business, including any such purchase through the acquisition of Capital Stock of any Person that owns such real or personal property or equipment which will, upon such acquisition, become a Restricted Subsidiary (other than as provided for in the second proviso of this clause (b)(7)) or (ii) all or any part of the purchase price or the cost of development, construction or improvement of real or personal property (including the lease purchase price of land use rights) or equipment to be used in the ordinary course of business by the Company or such Restricted Subsidiary in the Permitted Business; provided, however, that in each case (A) the aggregate principal amount of such Indebtedness shall not exceed such purchase price or cost, (B) such Indebtedness shall be Incurred no later than 180 days after the acquisition of such property or completion of such development, construction or improvement, and (C) on the date of the Incurrence of such Indebtedness and after giving effect thereto, the aggregate principal amount outstanding of all such Indebtedness permitted by this clause (b)(7) (together with the aggregate principal amount outstanding of Indebtedness that was permitted to be Incurred under clauses (b)(16), (b)(19), (b)(20), (b)(21), (b)(22) and (b)(23) below and the refinancings of all such Indebtedness Incurred hereunder and thereunder, but excluding any Contractor Guarantee Incurred under this clause (b)(7) to the extent the amount of such Contractor Guarantee is otherwise reflected in such aggregate principal amount) does not exceed an amount equal to 35.0% of Total Assets; provided further that, without prejudice to the first proviso in this clause (b)(7), the Company and any Restricted Subsidiary may Incur Indebtedness for the purpose of financing all or any part of the purchase price of real or personal property (including the lease purchase price of land use rights) or equipment to be used in the ordinary course of business by the Company or a Restricted Subsidiary in the Permitted Business through the acquisition of Capital Stock of any Person which will not, upon such acquisition, become a Restricted Subsidiary if on the date of the Incurrence of such Indebtedness and after giving effect thereto, the aggregate principal amount outstanding of all Indebtedness Incurred in reliance on this second proviso of this clause (b)(7) (together with refinancings of all such Indebtedness) does not exceed an amount equal to 10.0% of Total Assets;
- (8) Indebtedness Incurred by the Company or any Restricted Subsidiary constituting reimbursement obligations with respect to workers' compensation claims or self-insurance obligations or bid, performance or surety bonds (in each case other than for an obligation for borrowed money);
- (9) Indebtedness Incurred by the Company or any Restricted Subsidiary constituting reimbursement obligations with respect to letters of credit, trade guarantees or similar instruments issued in the ordinary course of business to the extent that such letters of credit, trade guarantees or similar instruments are not drawn upon or, if drawn upon, to the extent such drawing is reimbursed no later than the 30 days following receipt by the Company or such Restricted Subsidiary, as applicable, of a demand for reimbursement;
- (10) Indebtedness arising from agreements providing for indemnification, adjustment of purchase price or similar obligations, or from guarantees or letters of credit, surety bonds or performance bonds securing any obligation of the Company or any Restricted Subsidiary pursuant to such agreements, in any case, Incurred in connection with the disposition of any business, assets or Restricted Subsidiary (other than guarantees of Indebtedness Incurred by any Person acquiring all or any portion of such business, assets or Restricted Subsidiary for the purpose of financing such acquisition); provided that the maximum aggregate liability in respect of all such Indebtedness shall at no time exceed the gross proceeds actually received by the Company or any Restricted Subsidiary from the disposition of such business, assets or Restricted Subsidiary;

- (11) Indebtedness arising from the honoring by a bank or other financial institution of a check, draft or similar instrument drawn against insufficient funds in the ordinary course of business; provided, however, that such Indebtedness is extinguished within five Business Days of Incurrence;
- (12) (i) guarantees by the Company or any Subsidiary Guarantor of Indebtedness of the Company or any Restricted Subsidiary that was permitted to be Incurred by another provision of this covenant, (ii) guarantees by any Restricted Subsidiary of Indebtedness of another Restricted Subsidiary that was permitted to be Incurred under clause (b)(7) above or clauses (b)(14) and (b)(16) below; or (iii) guarantees by any JV Subsidiary Guarantor of Indebtedness of any other JV Subsidiary Guarantor that is a direct or indirect Subsidiary or parent of such JV Subsidiary Guarantor, which Indebtedness was permitted to be Incurred by another provision of this covenant;
- (13) Pre-Registration Mortgage Guarantees by the Company or any Restricted Subsidiary;
- (14) Indebtedness of the Company or any Restricted Subsidiary with a maturity of one year or less used by the Company or any Restricted Subsidiary for working capital; provided that the aggregate principal amount of Indebtedness permitted by this clause (b)(14) at any time outstanding does not exceed US\$35.0 million (or the Dollar Equivalent thereof);
- (15) Indebtedness of the Company or any Restricted Subsidiary constituting an obligation to pay the deferred purchase price in the form of installment payments pursuant to a Staged Acquisition Agreement;
- (16) Preferred Stock or Disqualified Stock issued by a Restricted Subsidiary or Indebtedness Incurred by the Company or any Restricted Subsidiary constituting a guarantee by, or grant of a Lien on assets of, the Company or such Restricted Subsidiary in favor of any Insurance Company Investor in respect of the obligation of any Subsidiary of such Restricted Subsidiary to pay a guaranteed or preferred dividend or return on any shares of Capital Stock of such Subsidiary held by such Insurance Company Investor (including any shares of Preferred Stock or Disqualified Stock which may be issued by such Subsidiary pursuant to this clause (b)(16) to such Insurance Company Investor); provided that on the date of the Incurrence of such Indebtedness and after giving effect thereto, the aggregate principal amount outstanding of all such Indebtedness permitted by this clause (b)(16) (together with the aggregate principal amount outstanding of Indebtedness that was permitted to be Incurred under clause (b)(7) above and clauses (b)(19), (b)(20), (b)(21), (b)(22) and (b)(23) below and the refinancings of all such Indebtedness Incurred hereunder and thereunder, but excluding any Contractor Guarantee Incurred under clause (b)(7) above to the extent the amount of such Contractor Guarantee is otherwise reflected in such aggregate principal amount) does not exceed an amount equal to 35.0% of Total Assets;
- (17) Indebtedness of the Company or any Restricted Subsidiary in an aggregate principal amount outstanding at any time (together with refinancings thereof) not to exceed US\$25.0 million (or the Dollar Equivalent thereof);
- (18) Indebtedness constituting a Subordinated Shareholder Loan;
- (19) Indebtedness Incurred by any Restricted Subsidiary which is secured by Investment Properties, and guarantees thereof by the Company or any such Restricted Subsidiary; provided that on the date of the Incurrence of such Indebtedness and after giving effect thereto, the aggregate principal amount outstanding of all such Indebtedness permitted by this clause (b)(19) (together with the aggregate principal amount outstanding of Indebtedness that was permitted to be Incurred under clauses (b)(7) and (b)(16) above and clauses (b)(20), (b)(21), (b)(22) and (b)(23) below and the refinancings of all such Indebtedness Incurred hereunder and thereunder, but excluding any Contractor Guarantee Incurred under clause (b)(7) above to the extent the amount of such

Contractor Guarantee is otherwise reflected in such aggregate principal amount) does not exceed an amount equal to 35.0% of Total Assets;

- (20) Bank Deposit Secured Indebtedness Incurred by the Company or any Restricted Subsidiary, provided that on the date of Incurrence of such Indebtedness and after giving effect thereto, the aggregate principal amount outstanding of such Indebtedness permitted by this clause (b)(20) (together with the aggregate principal amount outstanding of Indebtedness that was permitted to be Incurred under clauses (b)(7), (b)(16) and (b)(19) above and clauses (b)(21), (b)(22) and (b)(23) below and the refinancings of all such Indebtedness Incurred hereunder and thereunder, but excluding any Contractor Guarantee Incurred under clause (b)(7) above to the extent the amount of such Contractor Guarantee is otherwise reflected in such aggregate principal amount) does not exceed an amount equal to 35.0% of Total Assets;
 - (21) Indebtedness Incurred by the Company or any Restricted Subsidiary constituting a guarantee of Indebtedness of any Person (other than the Company or a Restricted Subsidiary) by the Company or such Restricted Subsidiary, if the aggregate of all Indebtedness Incurred under this clause (b)(21) (together with the aggregate principal amount outstanding of Indebtedness that was permitted to be Incurred under clauses (b)(7), (b)(16), (b)(19) and (b)(20) above and clauses (b)(22) and (b)(23) below and the refinancings of all such Indebtedness Incurred hereunder and thereunder, but excluding any Contractor Guarantee Incurred under clause (b)(7) above to the extent the amount of such Contractor Guarantee is otherwise reflected in such aggregate principal amount) does not exceed an amount equal to 35.0% of Total Assets;
 - (22) Acquired Indebtedness of any Restricted Subsidiary Incurred and outstanding on the date on which such Person becomes a Restricted Subsidiary (other than Indebtedness Incurred (i) to provide all or any portion of the funds utilized to consummate the transaction or series of transactions pursuant to which a Person becomes a Restricted Subsidiary or (ii) otherwise in contemplation of a Person becoming a Restricted Subsidiary or any such acquisition); provided that on the date of the Incurrence of such Indebtedness and after giving effect thereto, the aggregate principal amount outstanding of all such Indebtedness Incurred pursuant to this clause (b)(22) (together with the aggregate principal amount outstanding of Indebtedness that was permitted to be Incurred under clauses (b)(7), (b)(16), (b)(19), (b)(20) and (b)(21) above and clause (b)(23) below and the refinancings of all such Indebtedness Incurred hereunder and thereunder, but excluding any Contractor Guarantee Incurred under clause (b)(7) above to the extent the amount of such Contractor Guarantee is otherwise reflected in such aggregate principal amount) does not exceed an amount equal to 35.0% of Total Assets; and
 - (23) Indebtedness Incurred by the Company or any Restricted Subsidiary under Credit Facilities; provided that on the date of the Incurrence of such Indebtedness and after giving effect thereto, the aggregate principal amount outstanding of all such Indebtedness Incurred pursuant to this clause (b)(23) (together with the aggregate principal amount outstanding of Indebtedness that was permitted to be Incurred under clauses (b)(7), (b)(16), (b)(19), (b)(20), (b)(21) and (b)(22) above and the refinancings of all such Indebtedness Incurred hereunder and thereunder, but excluding any Contractor Guarantee Incurred under clause (b)(7) above to the extent the amount of such Contractor Guarantee is otherwise reflected in such aggregate principal amount) does not exceed an amount equal to 35.0% of Total Assets.
- (c) For purposes of determining compliance with this “Limitation on Indebtedness and Preferred Stock” covenant, in the event that an item of Indebtedness meets the criteria of more than one of the types of Indebtedness described above, including under the proviso in the first sentence of clause (a) of this covenant, the Company, in its sole discretion, shall classify, and from time to time may reclassify, such item of Indebtedness in one or more types of Indebtedness described above.
 - (d) Notwithstanding any other provision of this covenant, the maximum amount of Indebtedness that may be Incurred or Preferred Stock that may be issued pursuant to this

covenant will not be deemed to be exceeded with respect to any outstanding Indebtedness due solely to the result of fluctuations in the exchange rates of currencies.

Limitation on Restricted Payments

The Company will not, and will not permit any Restricted Subsidiary to, directly or indirectly (the payments or any other actions described in clauses (a) through (d) below being collectively referred to as “Restricted Payments”):

- (a) declare or pay any dividend or make any distribution on or with respect to the Company’s or any Restricted Subsidiary’s Capital Stock (other than dividends or distributions payable or paid in shares of the Company’s, or payable or paid solely in shares of any Restricted Subsidiary’s, Capital Stock (other than Disqualified Stock or Preferred Stock) or in options, warrants or other rights to acquire shares of such Capital Stock) held by Persons other than the Company or any Restricted Subsidiary;
- (b) purchase, call for redemption or redeem, retire or otherwise acquire for value any shares of Capital Stock (including options, warrants or other rights to acquire such shares of Capital Stock) of the Company, any Restricted Subsidiary or any direct or indirect parent of the Company held by any Persons other than the Company or any Restricted Subsidiary (excluding (i) the purchase of any shares of Capital Stock of any Person pursuant to a Staged Acquisition Agreement and (ii) the purchase of any shares of Capital Stock of any Restricted Subsidiary held by any Insurance Company Investor);
- (c) make any voluntary or optional principal payment, or voluntary or optional redemption, repurchase, defeasance, or other acquisition or retirement for value, of Indebtedness that is subordinated in right of payment to the Notes, any Subsidiary Guarantee or any JV Subsidiary Guarantee (excluding any intercompany Indebtedness between or among the Company and any Restricted Subsidiary); or
- (d) make any Investment, other than a Permitted Investment;

if, at the time of, and after giving effect to, the proposed Restricted Payment:

- (A) a Default has occurred and is continuing or would occur as a result of such Restricted Payment;
- (B) the Company could not Incur at least US\$1.00 of Indebtedness under the proviso in the first sentence of clause (a) of the covenant described under the caption “— Limitation on Indebtedness and Preferred Stock”; or
- (C) such Restricted Payment, together with the aggregate amount of all Restricted Payments made by the Company and its Restricted Subsidiaries after the Measurement Date, shall exceed the sum (without duplication) of:
 - (i) 50% of the aggregate amount of the Consolidated Net Income of the Company (or, if the Consolidated Net Income is a loss, minus 100% of the amount of such loss) accrued on a cumulative basis during the period (taken as one accounting period) beginning on the first day of the semi-annual fiscal period in which the Measurement Date occurred and ending on the last day of the Company’s most recently ended fiscal quarter period for which consolidated financial statements of the Company (which the Company shall use its reasonable best efforts to compile in a timely manner) are available (which may include internal consolidated financial statements); plus
 - (ii) 100% of the aggregate Net Cash Proceeds received by the Company after the Measurement Date as a capital contribution to its common equity or from the issuance and sale of its Capital Stock (other than Disqualified Stock) to a Person who is not a Restricted Subsidiary of the Company, including any such Net Cash Proceeds received upon (x) the conversion of any Indebtedness (other than Subordinated Indebtedness) of the Company into Capital Stock (other than Disqualified Stock) of the Company, or (y) the exercise by a Person who is not a Restricted Subsidiary of the Company of any options, warrants or other rights to acquire Capital Stock of the Company (other than Disqualified Stock), in each case after deducting the amount of any such Net Cash Proceeds used to redeem, repurchase, defease or otherwise acquire or retire for value any Subordinated Indebtedness or Capital Stock of the Company; plus

- (iii) the amount by which Indebtedness of the Company or any Restricted Subsidiary is reduced on the Company's consolidated balance sheet upon the conversion or exchange (other than by a Restricted Subsidiary of the Company) subsequent to the Measurement Date of any Indebtedness of the Company or any Restricted Subsidiary convertible or exchangeable into Capital Stock (other than Disqualified Stock) of the Company (less the amount of any cash, or the Fair Market Value of any other property, distributed by the Company upon such conversion or exchange); plus
- (iv) an amount equal to the net reduction in Investments (other than reductions in Permitted Investments) that were made after the Measurement Date in any Person resulting from (w) payments of interest on Indebtedness, dividends or repayments of loans or advances by such Person, in each case, to the Company or any Restricted Subsidiary (except, in each case, to the extent any such payment or proceeds are included in the calculation of Consolidated Net Income), (x) the unconditional release of a guarantee provided by the Company or any Restricted Subsidiary after the Measurement Date of an obligation of another Person, (y) the net cash proceeds from the sale of any such Investment (except to the extent such proceeds are included in the calculation of Consolidated Net Income) or (z) from redesignations of Unrestricted Subsidiaries as Restricted Subsidiaries, not to exceed, in each case, the amount of Investments made by the Company or a Restricted Subsidiary after the Measurement Date in any such Person; plus
- (v) US\$25.0 million (or the Dollar Equivalent thereof).

The foregoing provision shall not be violated by reason of:

- (1) the payment of any dividend or redemption of any Capital Stock within 60 days after the related date of declaration or call for redemption if, at said date of declaration or call for redemption, such payment or redemption would comply with the preceding paragraph;
- (2) the redemption, repurchase, defeasance or other acquisition or retirement for value of Subordinated Indebtedness of the Company, any Subsidiary Guarantor or any JV Subsidiary Guarantor with the Net Cash Proceeds of, or in exchange for, a substantially concurrent Incurrence of Permitted Refinancing Indebtedness;
- (3) the redemption, repurchase or other acquisition of Capital Stock of the Company, any Subsidiary Guarantor or any JV Subsidiary Guarantor (or options, warrants or other rights to acquire such Capital Stock) in exchange for, or out of the Net Cash Proceeds of a substantially concurrent capital contribution or sale (other than to a Subsidiary of the Company) of, shares of Capital Stock (other than Disqualified Stock) of the Company, any Subsidiary Guarantor or any JV Subsidiary Guarantor (or options, warrants or other rights to acquire such Capital Stock); provided that the amount of any such Net Cash Proceeds that are utilized for any such Restricted Payment will be excluded from clause (C)(ii) of the preceding paragraph;
- (4) the redemption, repurchase, defeasance or other acquisition or retirement for value of Subordinated Indebtedness of the Company, any Subsidiary Guarantor or any JV Subsidiary Guarantor in exchange for, or out of the Net Cash Proceeds of, a substantially concurrent capital contribution or sale (other than to a Subsidiary of the Company) of, shares of Capital Stock (other than Disqualified Stock) of the Company, any Subsidiary Guarantor or any JV Subsidiary Guarantor (or options, warrants or other rights to acquire such Capital Stock); provided that the amount of any such Net Cash Proceeds that are utilized for any such Restricted Payment will be excluded from clause (C)(ii) of the preceding paragraph;
- (5) the payment of any dividends or distributions declared, paid or made by a Restricted Subsidiary that is not, directly or indirectly, Wholly Owned by the Company payable on a pro rata basis or on a basis more favorable to the Company to all holders of any class of Capital Stock of such Restricted Subsidiary;
- (6) the purchase by the Company or a Restricted Subsidiary of Capital Stock of any Restricted Subsidiary that is not Wholly Owned, directly or indirectly, by the Company from an Independent Third Party pursuant to an agreement entered into between/among the Company or any Restricted Subsidiary and such Independent Third Party solely for

the purpose of acquiring real property or land use rights, provided that (x) such purchase occurs within 12 months after such Restricted Subsidiary acquires the real property or land use rights it was formed to acquire and (y) the Company delivers to the Trustee a Board Resolution set forth in an Officers' Certificate confirming that, in the opinion of the Board of Directors, the purchase price of such Capital Stock is less than or equal to the Fair Market Value of such Capital Stock;

- (7) (A) the repurchase, redemption or other acquisition or retirement for value of the Capital Stock of the Company or any Restricted Subsidiary (directly or indirectly, including through any trustee, agent or nominee) in connection with an employee benefit plan, and any corresponding Investment by the Company or any Restricted Subsidiary in any trust or similar arrangements to the extent of such repurchased, redeemed, acquired or retired Capital Stock, or (B) the repurchase, redemption or other acquisition or retirement for value of any Capital Stock of the Company or any Restricted Subsidiary held by an employee benefit plan of the Company or any Restricted Subsidiary, any current or former officer, director, consultant, or employee of the Company or any Restricted Subsidiary (or permitted transferees, estates or heirs of any of the foregoing); provided that the aggregate consideration paid for all such repurchased, redeemed, acquired or retired Capital Stock shall not exceed US\$25.0 million (or the Dollar Equivalent thereof using the Original Issue Date as the date of determination);
- (8) cash payments in lieu of fractional shares in connection with the exercise of warrants, options or other securities convertible into or exchangeable for Capital Stock of the Company, provided, however, that any such cash payment shall not be for the purpose of evading the limitation of this “— Limitation on Restricted Payments” covenant (as determined in good faith by the Board of Directors of the Company);
- (9) repurchases of Capital Stock deemed to occur upon the surrender by the holder of a stock option of shares of Capital Stock otherwise issuable upon exercise of such stock options as payment of a portion of the exercise price thereof;
- (10) dividends paid to any Insurance Company Investor in respect of any Preferred Stock or Disqualified Stock issued by or any Indebtedness Incurred by any Restricted Subsidiary under paragraph (b)(16) of the “— Limitation on Indebtedness and Preferred Stock” covenant;
- (11) any payments made pursuant to the CVR Agreement;
- (12) the payment of any dividend or distribution payable or paid solely in Capital Stock (other than Disqualified Stock or Preferred Stock) of any Unrestricted Subsidiary or in options, warrants or other rights to acquire shares of such Capital Stock;
- (13) the declaration and payment of dividends on the Common Stock of the Company by the Company in an aggregate amount not to exceed 20.0% of profit for the year on the Company's consolidated financial statements in any fiscal year ending after the Original Issue Date; or
- (14) the distributions or payments of Securitization Fees in connection with Receivable Financings;

provided that, in the case of clause (2), (3), (4) or (13) above, no Default shall have occurred and be continuing or would occur as a consequence of the actions or payments set forth therein.

Each Restricted Payment permitted pursuant to clauses (1) and (13) of the preceding paragraph made after the Measurement Date shall be included in calculating whether the conditions of clause (C) of the first paragraph of this “— Limitation on Restricted Payments” covenant have been met with respect to any subsequent Restricted Payments.

The amount of any Restricted Payments (other than cash and any Investment deemed to have been made by the Company or any Restricted Subsidiary in the Restructuring Group in connection with the Restructuring upon designation of such Subsidiaries as Unrestricted Subsidiaries (to the extent such Investment does not constitute a Permitted Investment pursuant to clause (18) of the definition thereof)) will be the Fair Market Value on the date of the Restricted Payment of the asset(s) or securities proposed to be transferred or issued by the Company or the Restricted Subsidiary, as the case may be, pursuant to the Restricted Payment. The value of any assets or

securities that are required to be valued by this covenant will be the Fair Market Value. The Board of Directors' determination of the Fair Market Value of a Restricted Payment or any such assets or securities must be based upon an opinion or appraisal issued by an appraisal or investment banking firm of recognized international standing if the Fair Market Value exceeds US\$10.0 million (or the Dollar Equivalent thereof).

Not later than the date of making any Restricted Payment (other than any Restricted Payment set forth in clauses (5) through (14) above and any Investment deemed to have been made by the Company or any Restricted Subsidiary in the Restructuring Group in connection with the Restructuring upon designation of such Subsidiaries as Unrestricted Subsidiaries (to the extent such Investment does not constitute a Permitted Investment pursuant to clause (18) of the definition thereof)) in excess of US\$10.0 million (or the Dollar Equivalent thereof), the Company will deliver to the Trustee an Officers' Certificate stating that such Restricted Payment is permitted and setting forth the basis upon which the calculations required by this "— Limitation on Restricted Payments" covenant were computed, together with a copy of any fairness opinion or appraisal required by the Indenture.

Limitation on Dividend and Other Payment Restrictions Affecting Restricted Subsidiaries

- (a) Except as provided below, the Company will not, and will not permit any Restricted Subsidiary to, create or otherwise cause or permit to exist or become effective any encumbrance or restriction on the ability of any Restricted Subsidiary to:
- (1) pay dividends or make any other distributions on any Capital Stock of such Restricted Subsidiary owned by the Company or any other Restricted Subsidiary;
 - (2) pay any Indebtedness or other obligation owed to the Company or any other Restricted Subsidiary;
 - (3) make loans or advances to the Company or any other Restricted Subsidiary; or
 - (4) sell, lease or transfer any of its property or assets to the Company or any other Restricted Subsidiary;

provided that it being understood that (i) the priority of any Preferred Stock in receiving dividends or liquidating distributions prior to dividends or liquidating distributions being paid on Common Stock; (ii) the subordination of loans or advances made to the Company or any Restricted Subsidiary to other Indebtedness Incurred by the Company or any Restricted Subsidiary; and (iii) the provisions contained in documentation governing Indebtedness requiring transactions between or among the Company and any Restricted Subsidiary or between or among any Restricted Subsidiary to be on fair and reasonable terms or on an arm's length basis, in each case, shall not be deemed to constitute such an encumbrance or restriction.

- (b) The provisions of paragraph (a) do not apply to any encumbrances or restrictions:
- (1) existing in agreements as in effect on the Original Issue Date, the Notes, the Subsidiary Guarantees, the JV Subsidiary Guarantees, the Indenture, the Security Documents, or under any Permitted Pari Passu Secured Indebtedness of the Company or any Subsidiary Guarantor Pledgor or Pari Passu Guarantee, or in any extensions, refinancings, renewals or replacements of any of the foregoing agreements; provided that the encumbrances and restrictions in any such extension, refinancing, renewal or replacement, taken as a whole, are no more restrictive in any material respect than those encumbrances or restrictions that are then in effect and that are being extended, refinanced, renewed or replaced;
 - (2) existing under or by reason of applicable law, rule, regulation or order;
 - (3) with respect to any Person or the property or assets of such Person acquired by the Company or any Restricted Subsidiary, existing at the time of such acquisition and not incurred in contemplation thereof, which encumbrances or restrictions are not applicable to any Person or the property or assets of any Person other than such Person or the property or assets of such Person so acquired, or in any extensions, refinancings, renewals or replacements thereof; provided that the encumbrances and restrictions in any such extension, refinancing, renewal or replacement, taken as a whole, are no more restrictive in any material respect to the Holders than those encumbrances or restrictions that are then in effect and that are being extended, refinanced, renewed or replaced;

- (4) that otherwise would be prohibited by the provision described in clause (a)(4) of this covenant if they arise, or are agreed to in the ordinary course of business, and that (x) restrict in a customary manner the subletting, assignment or transfer of any property or asset that is subject to a lease or license, (y) exist by virtue of any Lien on, or agreement to transfer, option or similar right with respect to any property or assets of the Company or any Restricted Subsidiary not otherwise prohibited by the Indenture or (z) do not relate to any Indebtedness, and that do not, individually or in the aggregate, detract from the value of property or assets of the Company or any Restricted Subsidiary in any manner material to the Company or any Restricted Subsidiary;
- (5) with respect to a Restricted Subsidiary and imposed pursuant to an agreement that has been entered into for the sale or disposition of all or substantially all of the Capital Stock of, or property and assets of, such Restricted Subsidiary that is permitted by the “— Limitation on Sales and Issuances of Capital Stock in Restricted Subsidiaries”, “— Limitation on Indebtedness and Preferred Stock” and “— Limitation on Asset Sales” covenants;
- (6) with respect to any Restricted Subsidiary and imposed pursuant to an agreement that has been entered into for the Incurrence of Indebtedness or issuance of Preferred Stock of the type described under clause (b)(7), (b)(14), (b)(16), (b)(19), (b)(20), (b)(21), (b)(22) and (b)(23) of the “— Limitation on Indebtedness and Preferred Stock” covenant if, as determined by the Board of Directors, such encumbrances or restrictions (x) are customary for such types of agreements and (y) would not, at the time agreed to, be expected to materially and adversely affect the ability of the Company to make any required payment on the Notes, or in any extensions, refinancings, renewals or replacements of any of the foregoing agreements; provided that the encumbrances and restrictions in any such extension, refinancing, renewal or replacement, taken as a whole, are no more restrictive in any material respect to the Holders than those encumbrances or restrictions that are then in effect and that are being extended, refinanced, renewed or replaced;
- (7) existing in customary provisions in joint venture agreements and other similar agreements permitted under the Indenture, to the extent such encumbrance or restriction relates to the activities or assets of a Restricted Subsidiary that is a party to such joint venture and if (as determined in good faith by the Board of Directors) (i) the encumbrances or restrictions are customary for a joint venture or similar agreement of that type and (ii) the encumbrances or restrictions would not, at the time agreed to, be expected to materially and adversely affect (x) the ability of the Company to make the required payments on the Notes or (y) any Subsidiary Guarantor or JV Subsidiary Guarantor to make required payments under its Subsidiary Guarantee or JV Subsidiary Guarantee; or
- (8) existing with respect to any Unrestricted Subsidiary or the property or assets of such Unrestricted Subsidiary that is designated as a Restricted Subsidiary in accordance with the terms of the Indenture at the time of such designation and not incurred in contemplation of such designation, which encumbrances or restrictions are not applicable to any Person or the property or assets of any Person other than such Subsidiary or its subsidiaries or the property or assets of such Subsidiary or its subsidiaries, or in any extensions, refinancing, renewals or replacements thereof; provided that the encumbrances and restrictions in any such extension, refinancing, renewal or replacement, taken as a whole, are no more restrictive in any material respect to the Holders than those encumbrances or restrictions that are then in effect and that are being extended, refinanced, renewed or replaced.

Limitation on Sales and Issuances of Capital Stock in Restricted Subsidiaries

The Company will not sell, and will not permit any Restricted Subsidiary, directly or indirectly, to issue or sell, any shares of Capital Stock of a Restricted Subsidiary (including options, warrants or other rights to purchase shares of such Capital Stock) except:

- (1) to the Company or a Restricted Subsidiary;

- (2) to the extent such Capital Stock represents director's qualifying shares or is required by applicable law to be held by a Person other than the Company or a Restricted Subsidiary;
- (3) for the issuance or sale of the Capital Stock of a Restricted Subsidiary if, immediately after giving effect to such issuance or sale, such Restricted Subsidiary would no longer constitute a Restricted Subsidiary and any remaining Investment in such Person would have been permitted to be made under the "— Limitation on Restricted Payments" covenant if made on the date of such issuance or sale and if the Company complies with the "— Limitation on Asset Sales" covenant; provided that, paragraph (c) of clause (16) of the definition of "Permitted Investments" shall not apply if such Restricted Payment would otherwise have been permitted under clause (16) of such definition;
- (4) the issuance or sale of Capital Stock of a Restricted Subsidiary (which remains a Restricted Subsidiary after any such issuance or sale); provided that the Company or such Restricted Subsidiary applies the Net Cash Proceeds of such issuance or sale in accordance with the "— Limitation on Asset Sales" covenant.

Notwithstanding the foregoing, a Restricted Subsidiary may issue Common Stock to its shareholders on a pro rata basis or on a basis more favorable to the Company and its Restricted Subsidiaries.

Limitation on Issuances of Guarantees by Restricted Subsidiaries

The Company will not permit any Restricted Subsidiary which is not a Subsidiary Guarantor or a JV Subsidiary Guarantor, directly or indirectly, to guarantee any Indebtedness ("Guaranteed Indebtedness") of the Company or any Subsidiary Guarantor or JV Subsidiary Guarantor, unless (a) (1) such Restricted Subsidiary simultaneously executes and delivers a supplemental indenture to the Indenture providing for an unsubordinated Subsidiary Guarantee (in the case of a Subsidiary Guarantor) or JV Subsidiary Guarantee (in the case of a JV Subsidiary Guarantor) of payment of the Notes by such Restricted Subsidiary and (2) such Restricted Subsidiary waives and will not in any manner whatsoever claim, or take the benefit or advantage of, any rights of reimbursement, indemnity or subrogation or any other rights against the Company or any other Restricted Subsidiary as a result of any payment by such Restricted Subsidiary under its Subsidiary Guarantee or JV Subsidiary Guarantee until the Notes have been paid in full, or (b) such guarantee is permitted by clause (b)(3), (b)(4), (b)(12)(ii) (other than, in the case of clause (b)(12)(ii), (x) a guarantee by a PRC Restricted Subsidiary of the Indebtedness of a non-PRC Restricted Subsidiary that is not a Subsidiary of such PRC Subsidiary or (y) a guarantee by a non-PRC Restricted Subsidiary that is not a Subsidiary Guarantor or a JV Subsidiary Guarantor of Indebtedness of a Subsidiary Guarantor or a JV Subsidiary Guarantor) or (b)(20) (in the case of clause (b)(20), with respect to the guarantee provided by any Restricted Subsidiary which is not a Subsidiary Guarantor or JV Subsidiary Guarantor through the pledge of cash deposits, bank accounts or other assets to secure (or the use of any guarantee or letter of credit or similar instrument to guarantee) any Bank Deposit Secured Indebtedness), under the covenant described under the caption "— Limitation on Indebtedness and Preferred Stock".

If the Guaranteed Indebtedness (A) ranks *pari passu* in right of payment with the Notes, any Subsidiary Guarantee or JV Subsidiary Guarantee, then the guarantee of such Guaranteed Indebtedness shall rank *pari passu* in right of payment with, or subordinated to, the Subsidiary Guarantee or the JV Subsidiary Guarantee, as the case may be, or (B) is subordinated in right of payment to the Notes, any Subsidiary Guarantee or any JV Subsidiary Guarantee, then the guarantee of such Guaranteed Indebtedness shall be subordinated in right of payment to the Subsidiary Guarantee or the JV Subsidiary Guarantee, as the case may be, at least to the extent that the Guaranteed Indebtedness is subordinated to the Notes, the Subsidiary Guarantee or the JV Subsidiary Guarantee.

The Company will not permit any JV Subsidiary Guarantor, directly or indirectly, to guarantee any Indebtedness of the Company or any other Restricted Subsidiary unless the aggregate claims of the creditor under such guarantee will be limited to the JV Entitlement Amount. If any JV Subsidiary Guarantor guarantees any Indebtedness of the Company or any other Restricted Subsidiary where the aggregate claims of the creditor under such guarantee exceed the JV Entitlement Amount, such JV Subsidiary Guarantee shall be replaced with a Subsidiary Guarantee given by a Subsidiary Guarantor.

Limitation on Transactions with Shareholders and Affiliates

The Company will not, and will not permit any Restricted Subsidiary to, directly or indirectly, enter into, renew or extend any transaction or arrangement (including, without limitation, the purchase, sale, lease or exchange of property or assets, or the rendering of any service) with (a) any holder (or any Affiliate of such holder) of 10% or more of any class of Capital Stock of the Company or (b) with any Affiliate of the Company (each an “Affiliate Transaction”), unless:

- (1) the Affiliate Transaction is on fair and reasonable terms that are no less favorable to the Company or the relevant Restricted Subsidiary than those that would have been obtained in a comparable arm’s-length transaction by the Company or the relevant Restricted Subsidiary with a Person that is not such a holder or an Affiliate of the Company or such Restricted Subsidiary; and
- (2) the Company delivers to the Trustee:
 - (A) with respect to any Affiliate Transaction or series of related Affiliate Transactions involving aggregate consideration in excess of US\$5.0 million (or the Dollar Equivalent thereof), a Board Resolution set forth in an Officers’ Certificate certifying that such Affiliate Transaction complies with this covenant and such Affiliate Transaction has been approved by a majority of the disinterested members of the Board of Directors; and
 - (B) with respect to any Affiliate Transaction or series of related Affiliate Transactions involving aggregate consideration in excess of US\$10.0 million (or the Dollar Equivalent thereof), in addition to the Board Resolution required in clause (2)(A) above, an opinion issued by an accounting, appraisal or investment banking firm of recognized international standing as to the fairness to the Company or such Restricted Subsidiary of such Affiliate Transaction from a financial point of view.

The foregoing limitation does not limit, and shall not apply to:

- (1) the payment of reasonable and customary regular fees and other compensation to directors of the Company or any Restricted Subsidiary who are not employees of the Company or any Restricted Subsidiary;
- (2) transactions between or among the Company and any Subsidiary Guarantor or between or among Subsidiary Guarantors;
- (3) transactions between or among the Company and any Wholly Owned Restricted Subsidiary or between or among Wholly Owned Restricted Subsidiaries;
- (4) any Restricted Payment of the type described in clause (a), (b) or (c) of the first paragraph of the covenant described under the caption “— Limitation on Restricted Payments” if permitted by that covenant;
- (5) any sale of Capital Stock (other than Disqualified Stock) of the Company;
- (6) the payment of compensation to officers and directors of the Company or any Restricted Subsidiary pursuant to an employee stock or share option scheme, so long as such scheme is in compliance with the listing rules of The Stock Exchange of Hong Kong Limited, which as of the Original Issue Date require a majority shareholder approval of any such scheme;
- (7) any transaction between (A) the Company or any Restricted Subsidiary and (B) any entity in the Restructuring Group entered into in connection with the Restructuring, including, without limitation, transactions entered into for purposes of any reorganization in connection with the Restructuring and the entry into, and the performance thereof, of any underwriting agreement or other transaction documents in connection with the Restructuring; and
- (8) any transaction between (A) the Company or any Restricted Subsidiary and (B) any entity in the Restructuring Group entered into in the ordinary course of business, on fair and reasonable terms and disclosed in the offering document issued in connection with the Restructuring, or any amendment or modification or extension or replacement thereof, so long as such amendment, modification or replacement is not more disadvantageous to the Company and its Restricted Subsidiaries than the original transaction described in the offering document issued in connection with the Restructuring and in compliance with the rules of the relevant Qualified Exchange.

In addition, the requirements of clause (2) of the first paragraph of this covenant shall not apply to (i) Investments (other than Permitted Investments) not prohibited by the “— Limitation on Restricted Payments” covenant, (ii) transactions pursuant to agreements in effect on the Original Issue Date and described in this offering memorandum, or any amendment or modification or replacement thereof, so long as such amendment, modification or replacement is not more disadvantageous to the Company and its Restricted Subsidiaries than the original agreement in effect on the Original Issue Date, (iii) any transaction between or among (A) any of the Company, any Wholly Owned Restricted Subsidiary and any Restricted Subsidiary that is not a Wholly Owned Restricted Subsidiary or (B) the Company or a Restricted Subsidiary on the one hand and a Minority Joint Venture or an Unrestricted Subsidiary on the other hand; provided that in the case of this clause (iii), (a) such transaction is entered into in the ordinary course of business and (b) none of the shareholders or partners (other than the Company or any Restricted Subsidiary) of or in such Minority Joint Venture, Unrestricted Subsidiary or Restricted Subsidiary that is not a Wholly Owned Restricted Subsidiary is a Person described in clause (a) or (b) of the first paragraph of this covenant (other than by reason of such shareholder or partner being an officer or director of such Restricted Subsidiary, Minority Joint Venture or Unrestricted Subsidiary, as the case may be) and (iv) any Investment by the Company or any Restricted Subsidiary in accordance with the requirements under clause (16) of the definition of “Permitted Investment” on a pro rata basis based on its percentage ownership at the time of such Investment.

Limitation on Liens

The Company will not, and will not permit any Restricted Subsidiary to, directly or indirectly, incur, assume or permit to exist any Lien on the Collateral (other than Permitted Liens).

The Company will not, and will not permit any Restricted Subsidiary to, directly or indirectly, incur, assume or permit to exist any Lien of any nature whatsoever on any of its assets or properties of any kind, whether owned at the Original Issue Date or thereafter acquired, except Permitted Liens, unless the Notes are secured equally and ratably with (or, if the obligation or liability to be secured by such Lien is subordinated in right of payment to the Notes, prior to) the obligation or liability secured by such Lien, for so long as such obligation or liability is secured by such Lien.

Limitation on Sale and Leaseback Transactions

The Company will not, and will not permit any Restricted Subsidiary to, enter into any Sale and Leaseback Transaction; provided that the Company or any Restricted Subsidiary may enter into a Sale and Leaseback Transaction if:

- (a) the Company or any Restricted Subsidiary could have (1) incurred Indebtedness in an amount equal to the Attributable Indebtedness relating to such Sale and Leaseback Transaction under clause (a) of the covenant described under the caption “— Limitation on Indebtedness and Preferred Stock” and (2) incurred a Lien to secure such Indebtedness pursuant to the covenant described under the caption “— Limitation on Liens”, in which case, the corresponding Indebtedness and Lien will be deemed incurred pursuant to those provisions;
- (b) the gross cash proceeds of that Sale and Leaseback Transaction are at least equal to the Fair Market Value of the property that is the subject of such Sale and Leaseback Transaction; and
- (c) the transfer of assets in that Sale and Leaseback Transaction is permitted by, and the Company or any Restricted Subsidiary applies the proceeds of such transaction in compliance with, the covenant described under the caption “— Limitation on Asset Sales”.

Limitation on Asset Sales

The Company will not, and will not permit any Restricted Subsidiary to, consummate any Asset Sale, unless:

- (a) no Default shall have occurred and be continuing or would occur as a result of such Asset Sale;
- (b) the consideration received by the Company or such Restricted Subsidiary, as the case may be, is at least equal to the Fair Market Value of the assets sold or disposed of;
- (c) at least 75% of the consideration received consists of cash, Temporary Cash Investments or Replacement Assets; provided that in the case of an Asset Sale in which the Company or such Restricted Subsidiary receives Replacement Assets involving aggregate consideration in excess of US\$35.0 million (or the Dollar Equivalent thereof), the Company shall deliver to the Trustee an opinion as to the fairness to the Company or such Restricted Subsidiary of such Asset Sale from a financial point of view issued by an accounting, appraisal or investment banking firm of recognized international standing. For purposes of this provision, each of the following will be deemed to be cash:
 - (A) any liabilities, as shown on the Company's most recent consolidated balance sheet, of the Company or any Restricted Subsidiary (other than contingent liabilities and liabilities that are by their terms subordinated to the Notes, any Subsidiary Guarantee or any JV Subsidiary Guarantee) that are assumed by the transferee of any such assets pursuant to a customary assumption, assignment, novation or similar agreement that releases the Company or such Restricted Subsidiary from further liability; and
 - (B) any securities, notes or other obligations received by the Company or any Restricted Subsidiary from such transferee that are promptly, but in any event within 30 days of closing, converted by the Company or such Restricted Subsidiary into cash, to the extent of the cash received in that conversion.

Within 360 days after the receipt of any Net Cash Proceeds from an Asset Sale, the Company (or the applicable Restricted Subsidiary, as the case may be) may apply such Net Cash Proceeds to:

- (1) permanently repay Senior Indebtedness of the Company or any Restricted Subsidiary (and, if such Senior Indebtedness repaid is revolving credit Indebtedness, to correspondingly reduce commitments with respect thereto) in each case owing to a Person other than the Company or a Restricted Subsidiary; or
- (2) acquire properties and assets that replace the properties and assets that were the subject of such Asset Sale or in properties or assets that will be used in the Permitted Business (including any shares of Capital Stock in a Person holding such properties or assets that is primarily engaged in a Permitted Business) ("Replacement Assets").

Any Net Cash Proceeds from Asset Sales that are not applied or invested as provided in clauses (1) and (2) in the immediately preceding paragraph will constitute "Excess Proceeds". Excess Proceeds of less than US\$10.0 million (or the Dollar Equivalent thereof) will be carried forward and accumulated. When accumulated Excess Proceeds equals to or exceeds US\$10.0 million (or the Dollar Equivalent thereof), within 10 days thereof, the Company must make an Offer to Purchase Notes having a principal amount equal to:

- (i) accumulated Excess Proceeds, multiplied by
- (ii) a fraction (x) the numerator of which is equal to the outstanding principal amount of the Notes and (y) the denominator of which is equal to the outstanding principal amount of the Notes and all *pari passu* Indebtedness similarly required to be repaid, redeemed or tendered for in connection with the Asset Sale, rounded down to the nearest US\$1,000.

The offer price in any Offer to Purchase will be equal to 100% of the principal amount plus accrued and unpaid interest to the date of purchase, and will be payable in cash.

If any Excess Proceeds remain after consummation of an Offer to Purchase, the Company may use such Excess Proceeds for any purpose not otherwise prohibited by the Indenture. If the aggregate principal amount of Notes and any other *pari passu* Indebtedness tendered into (or required to be prepaid or redeemed in connection with) such Offer to Purchase exceeds the amount of Excess Proceeds, the Notes and such other *pari passu* Indebtedness will be purchased on a pro

rata basis based on the principal amount of Notes and such other *pari passu* Indebtedness tendered (or required to be prepaid or redeemed). Upon completion of each Offer to Purchase, the amount of Excess Proceeds will be reset at zero.

Limitation on the Company's Business Activities

The Company will not, and will not permit any Restricted Subsidiary to, directly or indirectly, engage in any business other than a Permitted Business; provided, however, that the Company or any Restricted Subsidiary may own Capital Stock of an Unrestricted Subsidiary or joint venture or other entity that is engaged in a business other than a Permitted Business as long as any Investment therein was not prohibited when made by the covenant under the caption “— Limitation on Restricted Payments”.

Use of Proceeds

The Company will not, and will not permit any Restricted Subsidiary to, use the net proceeds from the sale of the Notes, in any amount, for any purpose other than (a) in the approximate amounts and for the purposes specified under the caption “Use of Proceeds” in this offering memorandum and (b) pending the application of all of such net proceeds in such manner, to invest the portion of such net proceeds not yet so applied in Temporary Cash Investments.

Designation of Restricted and Unrestricted Subsidiaries

The Board of Directors may designate any Restricted Subsidiary to be an Unrestricted Subsidiary; provided that (a) no Default shall have occurred and be continuing at the time of or after giving effect to such designation; (b) neither the Company nor any Restricted Subsidiary guarantees or provides credit support for the Indebtedness of such Restricted Subsidiary; (c) such Restricted Subsidiary has no outstanding Indebtedness that could trigger a cross-default to the Indebtedness of the Company or any other Restricted Subsidiary; (d) such Restricted Subsidiary does not own any Disqualified Stock of the Company or Disqualified or Preferred Stock of another Restricted Subsidiary or hold any Indebtedness, or any Lien on any property, of the Company or any Restricted Subsidiary, if such Disqualified or Preferred Stock or Indebtedness could not be Incurred under the covenant described under the caption “— Limitation on Indebtedness and Preferred Stock” or such Lien would violate the covenant described under the caption “— Limitation on Liens”; (e) such Restricted Subsidiary does not own any Voting Stock of another Restricted Subsidiary, and all of its Subsidiaries are Unrestricted Subsidiaries or are being concurrently designated as Unrestricted Subsidiaries in accordance with this paragraph; and (f) the Investment deemed to have been made thereby in such newly designated Unrestricted Subsidiary and each other newly designated Unrestricted Subsidiary being concurrently redesignated would be permitted to be made by the covenant described under the caption “Limitation on Restricted Payments” (other than any Investment deemed to have been made by the Company or any Restricted Subsidiary in the Subsidiaries in the Restructuring Group in connection with the Restructuring upon designation of such Subsidiaries in the Restructuring Group as Unrestricted Subsidiaries, provided that (i) the Board of Directors of the Company has determined in good faith that the designation of such Subsidiaries in the Restructuring Group as Unrestricted Subsidiaries is necessary to obtain approval from a Qualified Exchange for the Restructuring, (ii) at the time of such designation, the members of the Restructuring Group remain Subsidiaries of the Company, and (iii) at the time of such designation, the members of the Restructuring Group remain primarily engaged in the Permitted Businesses).

The Board of Directors may designate any Unrestricted Subsidiary to be a Restricted Subsidiary; provided that (a) no Default shall have occurred and be continuing at the time of or after giving effect to such designation; (b) any Indebtedness of such Unrestricted Subsidiary outstanding at the time of such designation which will be deemed to have been Incurred by such newly designated Restricted Subsidiary as a result of such designation would be permitted to be Incurred by the covenant described under the caption “— Limitation on Indebtedness and Preferred Stock”; (c) any Lien on the property of such Unrestricted Subsidiary at the time of such designation which will be deemed to have been Incurred by such newly designated Restricted Subsidiary as a result of such designation would be permitted to be Incurred by the covenant described under the caption “— Limitation on Liens”; (d) such Unrestricted Subsidiary is not a Subsidiary of another Unrestricted Subsidiary (that is not concurrently being designated as a Restricted Subsidiary); (e) if such Restricted Subsidiary is not organized under the laws of the PRC, such Restricted Subsidiary shall upon such designation execute and deliver to the Trustee a supplemental indenture to the Indenture by which such Restricted Subsidiary shall become a

Subsidiary Guarantor or a JV Subsidiary Guarantor to the extent required under “— The Subsidiary Guarantees and JV Subsidiary Guarantees”; and (f) if such Restricted Subsidiary is not organized under the laws of the PRC, all Capital Stock of such Restricted Subsidiary owned by the Company or any other Restricted Subsidiary shall be pledged to the extent required under “— Security”.

Government Approvals and Licenses; Compliance with Law

The Company will, and will cause each Restricted Subsidiary to, (a) obtain and maintain in full force and effect all governmental approvals, authorizations, consents, permits, concessions and licenses as are necessary to engage in the Permitted Business, (b) preserve and maintain good and valid title to its properties and assets (including land-use rights) free and clear of any Liens other than Permitted Liens and (c) comply with all laws, regulations, orders, judgments and decrees of any governmental body, except to the extent that failure so to obtain, maintain, preserve and comply would not reasonably be expected to have a material adverse effect on (1) the business, results of operations or prospects of the Company and its Restricted Subsidiaries, taken as a whole, or (2) the ability of the Company, any Subsidiary Guarantor or any JV Subsidiary Guarantor to perform its obligations under the Notes, the relevant Subsidiary Guarantee or JV Subsidiary Guarantee or the Indenture.

Anti-Layering

The Company will not, and will not permit any Subsidiary Guarantor or JV Subsidiary Guarantor to, incur any Indebtedness if such Indebtedness is contractually subordinated in right of payment to any other Indebtedness of the Company, such Subsidiary Guarantor or such JV Subsidiary Guarantor, as the case may be, unless such Indebtedness is also contractually subordinated in right of payment to the Notes, the applicable Subsidiary Guarantee or the applicable JV Subsidiary Guarantee, on substantially identical terms. This does not apply to distinctions between categories of Indebtedness that exist by reason of any Liens or guarantees securing or in favor of some but not all of such Indebtedness.

Suspension of Certain Covenants

If, on any date following the date of the Indenture, the Notes have an Investment Grade Rating from two of the three Rating Agencies and no Default or Event of Default has occurred and is continuing (a “Suspension Event”), then, beginning on that day and continuing until such time, if any, at which the Notes cease to have an Investment Grade rating from at least two of the three Rating Agencies, the provisions of the Indenture summarized under the following captions will be suspended:

- (1) “— Certain Covenants — Limitation on Indebtedness and Preferred Stock”;
- (2) “— Certain Covenants — Limitation on Restricted Payments”;
- (3) “— Certain Covenants — Limitation on Dividend and Other Payment Restrictions Affecting Restricted Subsidiaries”;
- (4) “— Certain Covenants — Limitation on Sales and Issuances of Capital Stock in Restricted Subsidiaries”;
- (5) “— Certain Covenants — Limitation on Issuances of Guarantees by Restricted Subsidiaries”;
- (6) “— Certain Covenants— Limitation on Sale and Leaseback Transactions”;
- (7) “— Certain Covenants — Limitation on Asset Sales”;
- (8) “— Certain Covenants — Limitation on the Company’s Business Activities”; and
- (9) clauses (3) and (4) of the first and second paragraphs of “— Consolidation, Merger and Sale of Assets”.

During any period that the foregoing covenants have been suspended, the Board of Directors may not designate any Restricted Subsidiary as an Unrestricted Subsidiary pursuant to the covenant described under the caption “— Certain Covenants — Designation of Restricted and Unrestricted Subsidiaries” or the definition of “Unrestricted Subsidiary”.

Such covenants will be reinstated and apply according to their terms as of and from the first day on which a Suspension Event ceases to be in effect. Such covenants will not, however, be of any effect with regard to actions of the Company or any Restricted Subsidiary properly taken in

compliance with the provisions of the Indenture during the continuance of the Suspension Event and, following reinstatement, the calculations under the covenant described under the caption “— Certain Covenants — Limitation on Restricted Payments” will be made as if such covenant had been in effect since the date of the Indenture except that no Default will be deemed to have occurred solely by reason of a Restricted Payment made while that covenant was suspended. There can be no assurance that the Notes will ever achieve an Investment Grade rating or that, if achieved, any such rating will be maintained.

Provision of Financial Statements and Reports

- (a) So long as any of the Notes remain outstanding, the Company will file with the Trustee and furnish to the Holders upon request, as soon as they are available but in any event not more than 10 calendar days after they are filed with The Stock Exchange of Hong Kong Limited or any other securities exchange on which the Company’s ordinary shares are at any time listed for trading, true and correct copies of any financial or other report in the English language filed with such exchange; provided that, if at any time the ordinary shares of the Company cease to be listed for trading on a recognized securities exchange, the Company will file with the Trustee and furnish to the Holders:
- (1) as soon as they are available, but in any event within 90 calendar days after the end of the fiscal year of the Company, copies of its financial statements (on a consolidated basis and in the English language) in respect of such financial year (including a statement of income, balance sheet and cash flow statement) audited by a member firm of an internationally recognized firm of independent accountants;
 - (2) as soon as they are available, but in any event within 45 calendar days after the end of the first semi-annual fiscal period of the Company, copies of its financial statements (on a consolidated basis and in the English language) in respect of such half-year period (including a statement of income, balance sheet and cash flow statement) reviewed by a member firm of an internationally recognized firm of independent accountants; and
 - (3) as soon as they are available, but in any event within 45 calendar days after the end of each of the first and third fiscal quarters of the Company, copies of its unaudited financial statements (on a consolidated basis and in the English language), including a statement of income, balance sheet and cash flow statement, prepared on a basis consistent with the audited financial statements of the Company together with a certificate signed by the person then authorized to sign financial statements on behalf of the Company to the effect that such financial statements are true in all material respects and present fairly the financial position of the Company as at the end of, and the results of its operations for, the relevant quarterly period.
- (b) In addition, so long as any of the Notes remain outstanding, the Company will provide to the Trustee (1) within 120 days after the close of each fiscal year ending after the Original Issue Date, an Officers’ Certificate stating the Fixed Charge Coverage Ratio with respect to the four most recent fiscal quarter periods and showing in reasonable detail the calculation of the Fixed Charge Coverage Ratio, including the arithmetic computations of each component of the Fixed Charge Coverage Ratio, together with a certificate from the Company’s external auditors verifying the accuracy and correctness of the calculation and arithmetic computation, provided that the Company shall not be required to provide such auditor certification if its external auditors refuse to provide such certification as a result of a policy of such external auditors not to provide such certification; and (2) as soon as possible and in any event within 30 days after the Company becomes aware or should reasonably become aware of the occurrence of a Default, an Officers’ Certificate setting forth the details of such Default, and the action which the Company proposes to take with respect thereto.

Events of Default

The following events will be defined as “Events of Default” in the Indenture:

- (a) default in the payment of principal of (or premium, if any, on) the Notes when the same becomes due and payable at maturity, upon acceleration, redemption or otherwise;
- (b) default in the payment of interest on any Note when the same becomes due and payable, and such default continues for a period of 30 consecutive days;

- (c) default in the performance or breach of the provisions of the covenants described under the caption “— Consolidation, Merger and Sale of Assets”, the failure by the Company to make or consummate an Offer to Purchase in the manner described under the captions “— Repurchase of Notes upon a Change of Control Triggering Event” or “— Certain Covenants — Limitation on Asset Sales”, or the failure by the Company to create, or cause its Restricted Subsidiaries to create, a lien on the Collateral (subject to any Permitted Liens and the Intercreditor Agreement) in accordance with the covenant described under the caption “— Security”;
- (d) the Company or any Restricted Subsidiary defaults in the performance of or breaches any other covenant or agreement in the Indenture or under the Notes (other than a default specified in clause (a), (b) or (c) above) and such default or breach continues for a period of 30 consecutive days after written notice by the Trustee or the Holders of 25% or more in aggregate principal amount of the Notes (with a copy to the Trustee if given by the Holders);
- (e) there occurs with respect to any Indebtedness of the Company or any Restricted Subsidiary (other than a Subordinated Shareholder Loan) having an outstanding principal amount of US\$20.0 million (or the Dollar Equivalent thereof) or more in the aggregate for all such Indebtedness of all such Persons, whether such Indebtedness now exists or shall hereafter be created, (1) an event of default that has caused the holder thereof to declare such Indebtedness to be due and payable prior to its Stated Maturity and/or (2) a failure to make a principal payment when due;
- (f) one or more final judgments or orders for the payment of money are rendered against the Company or any Restricted Subsidiary and are not paid or discharged, and there is a period of 60 consecutive days following entry of the final judgment or order that causes the aggregate amount for all such final judgments or orders outstanding and not paid or discharged against all such Persons to exceed US\$20.0 million (or the Dollar Equivalent thereof, in excess of amounts which the Company’s insurance carriers have agreed to pay under applicable policies) during which a stay of enforcement, by reason of a pending appeal or otherwise, is not in effect;
- (g) an involuntary case or other proceeding is commenced against the Company or any Significant Restricted Subsidiary with respect to it or its debts under any applicable bankruptcy, insolvency or other similar law now or hereafter in effect seeking the appointment of a receiver, liquidator, assignee, custodian, trustee, sequestrator or similar official of the Company or any Significant Restricted Subsidiary or for any substantial part of the property and assets of the Company or any Significant Restricted Subsidiary and such involuntary case or other proceeding remains undismissed and unstayed for a period of 60 consecutive days; or an order for relief is entered against the Company or any Significant Restricted Subsidiary under any applicable bankruptcy, insolvency or other similar law as now or hereafter in effect;
- (h) the Company or any Significant Restricted Subsidiary (1) commences a voluntary case under any applicable bankruptcy, insolvency or other similar law now or hereafter in effect, or consents to the entry of an order for relief in an involuntary case under any such law, (2) consents to the appointment of or taking possession by a receiver, liquidator, assignee, custodian, trustee, sequestrator or similar official of the Company or any Significant Restricted Subsidiary, or for all or substantially all of the property and assets of the Company or any Significant Restricted Subsidiary, or (3) effects any general assignment for the benefit of creditors;
- (i) any Subsidiary Guarantor or any JV Subsidiary Guarantor denies or disaffirms its obligations under its Subsidiary Guarantee or JV Subsidiary Guarantee or, except as permitted by the Indenture, any Subsidiary Guarantee or JV Subsidiary Guarantee is determined to be unenforceable or invalid or shall for any reason cease to be in full force and effect;
- (j) any default by the Company or any Subsidiary Guarantor Pledgor in the performance of any of its obligations under the Security Documents or the Indenture, which adversely affects the enforceability, validity, perfection or priority of the applicable Lien on the Collateral or which adversely affects the condition or value of the Collateral, taken as a whole, in any material respect; and

- (k) the Company or any Subsidiary Guarantor Pledgor denies or disaffirms its obligations under any Security Document or, other than in accordance with the Indenture and the Security Documents, any Security Document ceases to be or is not in full force and effect or the Common Security Trustee on behalf of the Trustee and the Holders ceases to have a security interest in the Collateral (subject to any Permitted Liens and the Intercreditor Agreement).

If an Event of Default (other than an Event of Default specified in clause (g) or (h) above) occurs and is continuing under the Indenture, the Trustee or the Holders of at least 25% in aggregate principal amount of the Notes, then outstanding, by written notice to the Company (and to the Trustee if such notice is given by the Holders), may, and the Trustee at the request of such Holders shall (subject to receiving indemnity and/or security to its satisfaction), declare the principal of, premium, if any, and accrued and unpaid interest on the Notes to be immediately due and payable. Upon a declaration of acceleration, such principal of, premium, if any, and accrued and unpaid interest shall be immediately due and payable. If an Event of Default specified in clause (g) or (h) above occurs with respect to the Company or any Significant Restricted Subsidiary, the principal of, premium, if any, and accrued and unpaid interest on the Notes then outstanding shall automatically become and be immediately due and payable without any declaration or other act on the part of the Trustee or any Holder.

The Holders of at least a majority in principal amount of the outstanding Notes by written notice to the Company and to the Trustee may on behalf of all Holders waive all past defaults and rescind and annul a declaration of acceleration and its consequences if:

- (x) all existing Events of Default, other than the non-payment of the principal of, premium, if any, and interest on the Notes that have become due solely by such declaration of acceleration, have been cured or waived; and
- (y) the rescission would not conflict with any judgment or decree of a court of competent jurisdiction.

Upon such waiver, the Default will cease to exist, and any Event of Default arising therefrom will be deemed to have been cured, but no such waiver will extend to any subsequent or other Default or impair any right consequent thereon.

If an Event of Default occurs and is continuing, the Trustee may pursue, in its own name or as trustee of an express trust, any available remedy by proceeding at law or in equity to collect the payment of principal of and interest on the Notes or to enforce the performance of any provision of the Notes or the Indenture. The Trustee may maintain a proceeding even if it does not possess any of the Notes or does not produce any of them in the proceeding. In addition, if an Event of Default occurs and is continuing, the Trustee may, and shall upon request of Holders of at least 25% in aggregate principal amount of outstanding Notes (subject to receiving indemnity and/or security to its satisfaction), instruct the Common Security Trustee to foreclose on the Collateral in accordance with the terms of the Security Documents and take such further action on behalf of the Holders of the Notes with respect to the Collateral as the Trustee deems appropriate or is directed by the Holders of at least 25% in aggregate principal amount of outstanding Notes. See “— Security”.

The Holders of at least a majority in aggregate principal amount of the outstanding Notes may direct the time, method and place of conducting any proceeding for any remedy available to the Trustee or exercising any trust or power conferred on the Trustee. However, the Trustee may refuse to follow any direction that conflicts with law, the Indenture or the Security Documents that may involve the Trustee in personal liability, or that the Trustee determines in good faith may be unduly prejudicial to the rights of Holders not joining in the giving of such direction and may take any other action it deems proper that is not inconsistent with any such direction received from such Holders. A Holder may not pursue any remedy with respect to the Indenture or the Notes unless:

- (1) the Holder has previously given the Trustee written notice of a continuing Event of Default;
- (2) the Holders of at least 25% in aggregate principal amount of outstanding Notes make a written request to the Trustee to pursue the remedy;
- (3) such Holder or Holders offer the Trustee indemnity and/or security satisfactory to the Trustee against any costs, liability or expense to be incurred in compliance with such request;

- (4) the Trustee does not comply with the request within 60 days after receipt of the request and the offer of indemnity and/or security; and
- (5) during such 60-day period, the Holders of a majority in aggregate principal amount of the outstanding Notes do not give the Trustee a written direction that is inconsistent with the request.

However, such limitations do not apply to the right of any Holder to receive payment of the principal of, premium, if any, or interest on, such Note or to bring suit for the enforcement of any such payment, on or after the due date expressed in the Notes, which right shall not be impaired or affected without the consent of the Holder.

Two Officers of the Company must certify to the Trustee in writing, on or before a date not more than 120 days after the end of each fiscal year, that a review has been conducted of the activities of the Company and its Restricted Subsidiaries and the Company's and its Restricted Subsidiaries' performance under the Indenture and the Security Documents and that the Company and its Restricted Subsidiaries have fulfilled all obligations thereunder, or, if there has been a default in the fulfillment of any such obligation, specifying each such default and the nature and status thereof. The Company will also be obligated to notify the Trustee in writing of any default or defaults in the performance of any covenants or agreements under the Indenture and the Security Documents. See "— Provision of Financial Statements and Reports".

Consolidation, Merger and Sale of Assets

The Company will not consolidate with, merge with or into another Person, permit any Person to merge with or into it, or sell, convey, transfer, lease or otherwise dispose of all or substantially all of its and its Restricted Subsidiaries' properties and assets (computed on a consolidated basis) (as an entirety or substantially an entirety in one transaction or a series of related transactions), unless:

- (a) the Company shall be the continuing Person, or the Person (if other than it) formed by such consolidation or merger or that acquired or leased such property and assets (the "Surviving Person") shall be a corporation organized and validly existing under the laws of the Cayman Islands, the British Virgin Islands, Hong Kong or the United States or any jurisdiction thereof and shall expressly assume, by a supplemental indenture to the Indenture, executed and delivered to the Trustee, all the obligations of the Company under the Indenture, the Notes and the Security Documents, as the case may be, including the obligation to pay Additional Amounts with respect to any jurisdiction in which it is organized or resident for tax purposes, or from or through which payment is made, and the Indenture, the Notes and the Security Documents, as the case may be, shall remain in full force and effect;
- (b) immediately after giving effect to such transaction, no Default shall have occurred and be continuing;
- (c) immediately after giving effect to such transaction on a *pro forma* basis, the Company or the Surviving Person, as the case may be, shall have a Consolidated Net Worth equal to or greater than the Consolidated Net Worth of the Company immediately prior to such transaction;
- (d) immediately after giving effect to such transaction on a *pro forma* basis, the Company or the Surviving Person, as the case may be, could Incur at least US\$1.00 of Indebtedness under the proviso in the first sentence of clause (a) of the covenant described under the caption "— Certain Covenants — Limitation on Indebtedness and Preferred Stock";
- (e) the Company delivers to the Trustee (1) an Officers' Certificate (attaching the arithmetic computations to demonstrate compliance with clauses (c) and (d)) and (2) an Opinion of Counsel, in each case stating that such consolidation, merger or transfer and such supplemental indenture complies with this provision and that all conditions precedent provided for in the Indenture relating to such transaction have been complied with;
- (f) each Subsidiary Guarantor and JV Subsidiary Guarantor, unless such Subsidiary Guarantor or JV Subsidiary Guarantor is the Person with which the Company has entered into a transaction described under this covenant, shall execute and deliver a supplemental indenture to the Indenture confirming that its Subsidiary Guarantee or JV Subsidiary Guarantee shall apply to the obligations of the Company or the Surviving Person in accordance with the Notes and the Indenture; and

(g) no Rating Decline shall have occurred if the Notes are rated.

No Subsidiary Guarantor or JV Subsidiary Guarantor will consolidate with or merge with or into another Person, permit any Person to merge with or into it, or sell, convey, transfer, lease or otherwise dispose of all or substantially all of its and its Restricted Subsidiaries' properties and assets (computed on a consolidated basis) (as an entirety or substantially an entirety in one transaction or a series of related transactions) to another Person (other than the Company or another Subsidiary Guarantor or, in the case of a JV Subsidiary Guarantor, other than to another JV Subsidiary Guarantor, the Company or a Subsidiary Guarantor), unless:

- (A) such Subsidiary Guarantor or JV Subsidiary Guarantor shall be the continuing Person, or the Person (if other than it) formed by such consolidation or merger or that acquired or leased such property and assets shall be the Company, another Subsidiary Guarantor or shall become a Subsidiary Guarantor concurrently with the transaction by executing and delivering a supplemental indenture to the Indenture or, in the case of a JV Subsidiary Guarantor, another JV Subsidiary Guarantor, the Company or a Subsidiary Guarantor;
- (B) immediately after giving effect to such transaction, no Default shall have occurred and be continuing;
- (C) immediately after giving effect to such transaction on a *pro forma* basis, the Company shall have a Consolidated Net Worth equal to or greater than the Consolidated Net Worth of the Company immediately prior to such transaction;
- (D) immediately after giving effect to such transaction on a *pro forma* basis, the Company could Incur at least US\$1.00 of Indebtedness under the proviso in the first sentence of clause (a) of the covenant described under the caption “— Certain Covenants — Limitation on Indebtedness and Preferred Stock”;
- (E) the Company delivers to the Trustee (1) an Officers' Certificate (attaching the arithmetic computations to demonstrate compliance with clauses (C) and (D)) and (2) an Opinion of Counsel, in each case stating that such consolidation, merger or transfer and the relevant supplemental indenture complies with this provision and that all conditions precedent provided for in the Indenture relating to such transaction have been complied with; and
- (F) no Rating Decline shall have occurred if the Notes are rated;

provided that this paragraph shall not apply to (1) any sale or other disposition that complies with the “Limitation on Asset Sales” covenant or any Subsidiary Guarantor or JV Subsidiary Guarantor whose Subsidiary Guarantee or JV Subsidiary Guarantee, as the case may be, is unconditionally released in accordance with the provisions described under “The Subsidiary Guarantees and JV Subsidiary Guarantees — Release of Subsidiary Guarantees and JV Subsidiary Guarantees” and (2) a consolidation or merger of any Subsidiary Guarantor or JV Subsidiary Guarantor with and into the Company or any other Subsidiary Guarantor or JV Subsidiary Guarantor, so long as the Company or such Subsidiary Guarantor or JV Subsidiary Guarantor survives such consolidation or merger.

For the avoidance of doubt, for purposes of this covenant, a sale of shares of Capital Stock of a Restricted Subsidiary which holds all or substantially all properties and assets of the Company or the relevant Subsidiary Guarantor or JV Subsidiary Guarantor to Independent Third Parties in an initial public offering and listing on a stock exchange of the shares of Capital Stock of such Restricted Subsidiary where such Restricted Subsidiary (i) remains a Restricted Subsidiary immediately after such sale and (ii) the Company or the relevant Subsidiary Guarantor or JV Subsidiary Guarantor, immediately after such sale, owns at least 30.0% of the Voting Stock of such Restricted Subsidiary shall not constitute a sale of substantially all properties and assets of the Company or the relevant Subsidiary Guarantor or JV Subsidiary Guarantor.

Although there is a limited body of case law interpreting the phrase “substantially all”, there is no precise established definition of the phrase under applicable law. Accordingly, in certain circumstances there may be a degree of uncertainty as to whether a particular transaction would involve “all or substantially all” of the property or assets of a Person.

The foregoing provisions would not necessarily afford Holders protection in the event of highly leveraged or other transactions involving the Company that may adversely affect Holders.

No Payments for Consents

The Company will not, and shall not permit any of its Subsidiaries to, directly or indirectly, pay or cause to be paid any consideration, whether by way of interest, fee or otherwise, to any Holder for or as an inducement to any consent, waiver or amendment of any of the terms or provisions of the Indenture or the Notes unless such consideration is offered to be paid or is paid to all Holders that consent, waive or agree to amend such term or provision within the time period set forth in the solicitation documents relating to such consent, waiver or amendment.

Notwithstanding the foregoing, in any offer or payment of consideration for, or as an inducement to, any consent, waiver or amendment of any of the terms or provisions of the Indenture or the Notes in connection with an exchange or tender offer, the Company and any Restricted Subsidiary may exclude (i) Holders or beneficial owners of the Notes that are not institutional “accredited investors” as defined in Rule 501 under the Securities Act, and (ii) Holders or beneficial owners of the Notes in any jurisdiction where the inclusion of such Holders or beneficial owners would require the Company or any Restricted Subsidiary to comply with the registration requirements or other similar requirements under any securities laws of such jurisdiction, or the solicitation of such consent, waiver or amendment from, or the granting of such consent or waiver, or the approval of such amendment by, Holders or beneficial owners in such jurisdiction would be unlawful, in each case as determined by the Company in its sole discretion.

Defeasance

Defeasance and Discharge

The Indenture will provide that the Company will be deemed to have paid and will be discharged from any and all obligations in respect of the Notes on the 183rd day after the deposit referred to below, and the provisions of the Indenture and the Security Documents will no longer be in effect with respect to the Notes (except for, among other matters, certain obligations to register the transfer or exchange of the Notes, to replace stolen, lost or mutilated Notes, to maintain paying agencies, to hold monies for payment in trust and to pay compensation to the Trustee in accordance with the Indenture) if, among other things:

- (a) the Company has (1) deposited with the Trustee, in trust, money in U.S. dollars and/or U.S. Government Obligations that through the payment of interest and principal in respect thereof in accordance with their terms will provide money in U.S. dollars in an amount sufficient (without consideration of investment or reinvestment) to pay the principal of, premium, if any, and accrued interest on the Notes on the Stated Maturity of such payments in accordance with the terms of the Indenture and the Notes and (2) delivered to the Trustee an Opinion of Counsel or a certificate of an internationally recognized firm of independent accountants to the effect that the amount deposited by the Company is sufficient to provide payment for the principal of, premium, if any, and accrued interest on, the Notes on the Stated Maturity of such payment in accordance with the terms of the Indenture;
- (b) the Company has delivered to the Trustee an Opinion of Counsel of recognized international standing to the effect that the creation of the defeasance trust does not violate the U.S. Investment Company Act of 1940, as amended, and after the passage of 123 days following the deposit, the trust fund will not be subject to the effect of Section 547 of the United States Bankruptcy Code or Section 15 of the New York Debtor and Creditor Law; and
- (c) immediately after giving effect to such deposit on a *pro forma* basis, no Event of Default, or event that after the giving of notice or lapse of time or both would become an Event of Default, shall have occurred and be continuing on the date of such deposit or during the period ending on the 183rd day after the date of such deposit, and such defeasance shall not result in a breach or violation of or constitute a default under, any other agreement or instrument to which the Company or any Restricted Subsidiary is a party or by which the Company or any Restricted Subsidiary is bound.

Defeasance of Certain Covenants

The Indenture further will provide that the provisions of the Indenture will no longer be in effect with respect to clauses (c), (d) and (e)(1) under the first paragraph and clauses (C), (D) and (E)(1) under the second paragraph under “Consolidation, Merger and Sale of Assets” and all the covenants described herein under “Certain Covenants”, other than as described under “— Certain Covenants — Government Approvals and Licenses; Compliance with Law” and “— Certain Covenants — Anti-Layering”, clause (c) under “Events of Default” with respect to such clauses (c), (d) and (e)(1) under the first paragraph and clauses (C), (D) and (E)(1) under the second

paragraph under “Consolidation, Merger and Sale of Assets” and with respect to the other events set forth in such clause, clause (d) under “Events of Default” with respect to such other covenants and clauses (e) and (f) under “Events of Default” shall be deemed not to be Events of Default upon, among other things, the deposit with the Trustee, in trust, of money in U.S. dollars, U.S. Government Obligations or a combination thereof that through the payment of interest and principal in respect thereof in accordance with their terms will provide money in U.S. dollars in an amount sufficient (without consideration of investment or reinvestment) to pay the principal of, premium, if any, and accrued interest on the Notes on the Stated Maturity of such payments in accordance with the terms of the Indenture and the Notes, the satisfaction of the provisions described in clause (b) of the preceding paragraph.

Defeasance and Certain Other Events of Default

In the event the Company exercises its option to omit compliance with certain covenants and provisions of the Indenture with respect to the Notes as described in the immediately preceding paragraph and the Notes are declared due and payable because of the occurrence of an Event of Default that remains applicable, the amount of money and/or U.S. Government Obligations on deposit with the Trustee will be sufficient to pay amounts due on the Notes at the time of their Stated Maturity but may not be sufficient to pay amounts due on the Notes at the time of the acceleration resulting from such Event of Default. However, the Company and the Subsidiary Guarantors will remain liable for such payments.

Amendments and Waiver

Amendments Without Consent of Holders

The Indenture, the Notes, the Intercreditor Agreement or any Security Document may be amended, without the consent of any Holder, to:

- (a) cure any ambiguity, defect, omission or inconsistency in the Indenture, the Notes, the Intercreditor Agreement or any Security Document;
- (b) comply with the provisions described under “Consolidation, Merger and Sale of Assets”;
- (c) evidence and provide for the acceptance of appointment by a successor Trustee;
- (d) add any Subsidiary Guarantor or JV Subsidiary Guarantor or any Subsidiary Guarantee or JV Subsidiary Guarantee or release any Subsidiary Guarantor or JV Subsidiary Guarantor from any Subsidiary Guarantee or JV Subsidiary Guarantee as provided or permitted by the terms of the Indenture;
- (e) provide for the issuance of Additional Notes in accordance with the limitations set forth in the Indenture;
- (f) add any Subsidiary Guarantor Pledgor or release any Subsidiary Guarantor Pledgor as provided or permitted by the terms of the Indenture;
- (g) add additional Collateral to secure the Notes or any Subsidiary Guarantee and create or register Liens on such additional Collateral;
- (h) in any other case where a supplemental indenture to the Indenture is required or permitted to be entered into pursuant to the provisions of the Indenture without the consent of any Holder;
- (i) effect any changes to the Indenture in a manner necessary to comply with the procedures of Euroclear and Clearstream;
- (j) permit Permitted Pari Passu Secured Indebtedness in accordance with the terms of the Indenture (including, without limitation, permitting the Trustee to enter into the Intercreditor Agreement or any amendments to the Security Documents or the Indenture, the appointment of any common security trustee or collateral agent under any Intercreditor Agreement to hold the Collateral on behalf of the Holders and the holders of Permitted Pari Passu Secured Indebtedness and taking any other action necessary to permit the creation and registration of Liens on the Collateral to secure Permitted Pari Passu Secured Indebtedness, in accordance with the Indenture);
- (k) make any other change that, in the good faith opinion of the Board of Directors, does not materially and adversely affect the rights of any Holder; or
- (l) conform the text of the Indenture, the Notes, the Subsidiary Guarantees or the JV Subsidiary Guarantees to any provision of this “Description of the Notes” to the extent

that such provision in this “Description of the Notes” was intended to be a verbatim recitation of a provision of the Indenture, the Notes, the Subsidiary Guarantees or the JV Subsidiary Guarantees.

Amendments With Consent of Holders

Amendments of the Indenture, the Notes, the Intercreditor Agreement or any Security Document may be made by the Company, the Subsidiary Guarantors, the Trustee and the Common Security Trustee with the consent of the Holders of not less than a majority in aggregate principal amount of the outstanding Notes, and the holders of a majority in aggregate principal amount of the outstanding Notes may waive future compliance by the Company with any provision of the Indenture, the Notes, the Intercreditor Agreement or any Security Document; provided, however, that no such modification, amendment or waiver may, without the consent of each Holder affected thereby:

- (a) change the Stated Maturity of the principal of, or any installment of interest on, any Note;
- (b) reduce the principal amount of, or premium, if any, or interest on, any Note;
- (c) change the currency of payment of principal of, or premium, if any, or interest on, any Note;
- (d) impair the right to institute suit for the enforcement of any payment on or after the Stated Maturity (or, in the case of a redemption, on or after the redemption date) of any Note;
- (e) reduce the above stated percentage of outstanding Notes the consent of whose Holders is necessary to modify or amend the Indenture;
- (f) waive a default in the payment of principal of, premium, if any, or interest on the Notes;
- (g) release any Subsidiary Guarantor or JV Subsidiary Guarantor from its Subsidiary Guarantee or its JV Subsidiary Guarantee, as the case may be, except as provided in the Indenture;
- (h) release any Collateral, except as provided in the Indenture, the Intercreditor Agreement and the Security Documents;
- (i) reduce the percentage or aggregate principal amount of outstanding Notes the consent of whose Holders is necessary for waiver of compliance with certain provisions of the Indenture or for waiver of certain defaults;
- (j) amend, change or modify any Subsidiary Guarantee or any JV Subsidiary Guarantee in a manner that adversely affects the Holders;
- (k) amend, change or modify any provision of any Security Document, the Intercreditor Agreement or any provision of the Indenture relating to the Collateral, in a manner that adversely affects the Holders, except in accordance with the other provisions of the Indenture, such Security Document or such Intercreditor Agreement;
- (l) reduce the amount payable upon a Change of Control Offer or an Offer to Purchase with the Excess Proceeds from any Asset Sale or change the time or manner by which a Change of Control Offer or an Offer to Purchase with the Excess Proceeds from any Asset Sale may be made or by which the Notes must be repurchased pursuant to a Change of Control Offer or an Offer to Purchase with the Excess Proceeds from any Asset Sale;
- (m) change the redemption date or the redemption price of the Notes from that stated under “— Optional Redemption” or “— Redemption for Tax Reasons”;
- (n) amend, change or modify the obligation of the Company, any Subsidiary Guarantor or any JV Subsidiary Guarantor to pay Additional Amounts; or
- (o) amend, change or modify any provision of the Indenture or the related definition affecting the ranking of the Notes, any Subsidiary Guarantee or any JV Subsidiary Guarantee in a manner which adversely affects the Holders.

Satisfaction and Discharge

The Indenture will be discharged and will cease to be of further effect (except as to surviving rights of registration of transfer or exchange of the Notes, as expressly provided for in the Indenture) as to all outstanding Notes when:

- (1) either:
 - (a) all of the Notes theretofore authenticated and delivered (except lost, stolen or destroyed Notes which have been replaced or paid and Notes for whose payment money has theretofore been deposited in trust by the Company and thereafter repaid to the Company) have been delivered to the Paying Agent for cancellation; or
 - (b) all Notes not theretofore delivered to the Paying Agent for cancellation have become due and payable pursuant to an optional redemption notice or otherwise or will become due and payable within one year, and the Issuer has irrevocably deposited or caused to be deposited with the Trustee funds, in cash in U.S. dollars, non-callable U.S. Government Obligations or a combination thereof, in an amount sufficient to pay and discharge the entire indebtedness on the Notes not theretofore delivered to the Paying Agent for cancellation, for principal of, premium, if any, and interest on the Notes to the date of deposit together with irrevocable written instructions from the Issuer directing the Trustee or the Paying Agent to apply such funds to the payment thereof at maturity or redemption, as the case may be;
- (2) the Company, any Subsidiary Guarantor or any JV Subsidiary Guarantor has paid all other sums payable under this Indenture;
- (3) such deposit will not result in a breach or violation of, or constitute a default under, any instruments to which the Company, any Subsidiary Guarantor or any JV Subsidiary Guarantor is a party or by which the Company, any Subsidiary Guarantor or any JV Subsidiary Guarantor is bound (other than the Indenture, the Notes or any Security Document).

In addition, the Company must deliver to the Trustee an Officers' Certificate stating that all conditions precedent to satisfaction and discharge have been satisfied.

Unclaimed Money

Claims against the Company for the payment of principal of, premium, if any, or interest, on the Notes will become void unless presentation for payment is made as required in the Indenture within a period of six years.

No Personal Liability of Incorporators, Stockholders, Members, Officers, Directors or Employees

No recourse for the payment of the principal of, premium, if any, or interest on any of the Notes or for any claim based thereon or otherwise in respect thereof, and no recourse under or upon any obligation, covenant or agreement of the Company or any of the Subsidiary Guarantors or JV Subsidiary Guarantors in the Indenture, or in any of the Notes, the Subsidiary Guarantees or JV Subsidiary Guarantees or because of the creation of any Indebtedness represented thereby, shall be had against any incorporator, stockholder, member, officer, director, employee or controlling person of the Company or any of the Subsidiary Guarantors or JV Subsidiary Guarantors or of any successor Person thereof. Each Holder, by accepting the Notes, waives and releases all such liability. The waiver and release are part of the consideration for the issuance of the Notes, the Subsidiary Guarantees and JV Subsidiary Guarantees. Such waiver may not be effective to waive liabilities under any applicable law.

Concerning the Trustee, the Common Security Trustee and the Agents

Citicorp International Limited is to be appointed as Trustee under the Indenture and Citibank, N.A., London Branch (a banking corporation organized and existing under the laws of the State of New York with limited liability) is to be appointed as paying agent (the "Paying Agent"), as transfer agent (the "Transfer Agent") and as Registrar (the "Registrar" and together with the Paying Agent and the Transfer Agent, the "Agents") with regard to the Notes. Except during the continuance of a Default, the Trustee will not be liable, except for the performance of such duties as are specifically set forth in the Indenture. If an Event of Default has occurred and is continuing, the Trustee will use the same degree of care and skill in its exercise of the rights and powers vested in it under the Indenture as a prudent person would exercise under the circumstances in the conduct of such person's own affairs.

The Indenture contains limitations on the rights of the Trustee, should it become a creditor of the Company or any of the Subsidiary Guarantors, to obtain payment of claims in certain cases or

to realize on certain property received by it in respect of any such claims, as security or otherwise. The Trustee is permitted to engage in other transactions with the Company and its Affiliates; provided, however, that if it acquires any conflicting interest, it must eliminate such conflict or resign.

Citicorp International Limited will initially act as the Common Security Trustee under the Security Documents in respect of the security over the Collateral. The Common Security Trustee, acting in its capacity as such, shall have such duties with respect to the Collateral pledged, assigned or granted pursuant to the Security Documents as are set forth in the Indenture and the Security Documents. Under certain circumstances, the Common Security Trustee may have obligations under the Security Documents or the Intercreditor Agreement that are in conflict with the interests of the Holders. The Common Security Trustee will be under no obligation to exercise any rights or powers conferred under the Indenture, the Intercreditor Agreement or any of the Security Documents for the benefit of the Holders, unless such Holders have offered to the Common Security Trustee indemnity and/or security satisfactory to the Common Security Trustee against any loss, liability or expense. Furthermore, each Holder, by accepting the Notes will agree, for the benefit of the Trustee and the Common Security Trustee that it is solely responsible for its own independent appraisal of and investigation into all risks arising under or in connection with the Security Documents and has not relied on and will not at any time rely on the Trustee and the Common Security Trustee in respect of such risks.

Book-Entry; Delivery and Form

The Notes will be represented by one or more global notes in registered form without interest coupons attached (each a “Global Note”). On the Original Issue Date, the Global Note will be deposited with a common depository and registered in the name of the common depository or its nominee for the accounts of Euroclear and Clearstream.

Global Note

Ownership of beneficial interests in the Global Note (the “book-entry interests”) will be limited to persons that have accounts with Euroclear and/or Clearstream or persons that may hold interests through such participants. Book-entry interests will be shown on, and transfers thereof will be effected only through, records maintained in book-entry form by Euroclear and Clearstream and their participants.

Except as set forth below under “— Individual Definitive Notes”, the book-entry interests will not be held in definitive form. Instead, Euroclear and/or Clearstream will credit on their respective book-entry registration and transfer systems a participant’s account with the interest beneficially owned by such participant. The laws of some jurisdictions may require that certain purchasers of securities take physical delivery of such securities in definitive form. The foregoing limitations may impair the ability to own, transfer or pledge book-entry interests.

So long as the Notes are held in global form, the common depository for Euroclear and/or Clearstream (or its nominee) will be considered the sole holder of Global Note for all purposes under the Indenture and “holders” of book-entry interests will not be considered the owners or “Holders” of Notes for any purpose. As such, participants must rely on the procedures of Euroclear and Clearstream and indirect participants must rely on the procedures of the participants through which they own book-entry interests in order to transfer their interests in the Notes or to exercise any rights of Holders under the Indenture.

The Notes are not issuable in bearer form.

Payments on the Global Note

Payments of any amounts owing in respect of the Global Note (including principal, premium, interest and additional amounts) will be made to the paying agent. The Paying Agent will, in turn, make such payments to the common depository for Euroclear and Clearstream, which will distribute such payments to participants in accordance with their procedures. The Company will make payments of all such amounts without deduction or withholding for, or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature, except as may be required by law and as described under “— Additional Amounts”.

Under the terms of the Indenture, the Company, the Trustee and the Agents will treat the registered holder of the Global Note (i.e., the common depository or its nominee) as the owner thereof for the purpose of receiving payments and for all other purposes. Consequently, none of the Company, the Trustee or any of their respective agents has or will have any responsibility or liability for:

- any aspect of the records of Euroclear, Clearstream or any participant or indirect participant relating to or payments made on account of a book-entry interest, for any such payments made by Euroclear, Clearstream or any participant or indirect participants, or for maintaining, supervising or reviewing any of the records of Euroclear, Clearstream or any participant or indirect participant relating to or payments made on account of a book-entry interest; or
- Euroclear, Clearstream or any participant or indirect participant.

Payments by participants to owners of book-entry interests held through participants are the responsibility of such participants.

Redemption of Global Note

In the event any Global Note, or any portion thereof, is redeemed, the common depository will distribute the amount received by it in respect of the Global Note so redeemed to Euroclear and/or Clearstream, as applicable, who will distribute such amount to the holders of the book-entry interests in such Global Note. The redemption price payable in connection with the redemption of such book-entry interests will be equal to the amount received by the common depository, Euroclear or Clearstream, as applicable, in connection with the redemption of such Global Note (or any portion thereof). The Company understands that under existing practices of Euroclear and Clearstream, if fewer than all of the Notes are to be redeemed at any time, Euroclear and Clearstream will credit their respective participants' accounts on a proportionate basis (with adjustments to prevent fractions) or by lot or on such other basis as they deem fair and appropriate; provided, however, that no book-entry interest of US\$200,000 principal amount, or less, as the case may be, will be redeemed in part.

Action by Owners of Book-Entry Interests

Euroclear and Clearstream have advised that they will take any action permitted to be taken by a Holder only at the direction of one or more participants to whose account the book-entry interests in the Global Note are credited and only in respect of such portion of the aggregate principal amount of Notes as to which such participant or participants has or have given such direction. Euroclear and Clearstream will not exercise any discretion in the granting of consents, waivers or the taking of any other action in respect of the Global Note. If there is an Event of Default under the Notes, however, each of Euroclear and Clearstream reserves the right to exchange the Global Note for individual definitive notes in certificated form, and to distribute such individual definitive notes to their participants.

Transfers

Transfers between participants in Euroclear and Clearstream will be effected in accordance with Euroclear and Clearstream's rules and will be settled in immediately available funds. If a Holder requires physical delivery of individual definitive notes for any reason, including to sell the Notes to persons in jurisdictions which require physical delivery of such securities or to pledge such securities, such Holder must transfer its interest in the Global Note in accordance with the normal procedures of Euroclear and Clearstream and in accordance with the provisions of the Indenture.

Any book-entry interest in a Global Note that is transferred to a person who takes delivery in the form of a book-entry interest in another Global Note will, upon transfer, cease to be a book-entry interest in the first-mentioned Global Note and become a book-entry interest in the other Global Note and, accordingly, will thereafter be subject to all transfer restrictions, if any, and other procedures applicable to book-entry interests in such other Global Note for as long as it retains such a book-entry interest.

Global Clearance and Settlement Under the Book-Entry System

Book-entry interests owned through Euroclear or Clearstream accounts will follow the settlement procedures applicable. Book-entry interests will be credited to the securities custody accounts of Euroclear and Clearstream holders on the business day following the settlement date against payment for value on the settlement date.

The book-entry interests will trade through participants of Euroclear or Clearstream, and will settle in immediately available funds. Since the purchaser determines the place of delivery, it is

important to establish at the time of trading of any book-entry interests where both the purchaser's and seller's accounts are located to ensure that settlement can be made on the desired value date.

Information Concerning Euroclear and Clearstream

We understand as follows with respect to Euroclear and Clearstream:

Euroclear and Clearstream hold securities for participating organizations and facilitate the clearance and settlement of securities transactions between their respective participants through electronic book-entry changes in accounts of such participants. Euroclear and Clearstream provide to their participants, among other things, services for safekeeping, administration, clearance and settlement of internationally traded securities and securities lending and borrowing. Euroclear and Clearstream interface with domestic securities markets. Euroclear and Clearstream participants are financial institutions, such as underwriters, securities brokers and dealers, banks and trust companies, and certain other organizations. Indirect access to Euroclear or Clearstream is also available to others such as banks, brokers, dealers and trust companies that clear through or maintain a custodian relationship with a Euroclear or Clearstream participant, either directly or indirectly.

Although the foregoing sets out the procedures of Euroclear and Clearstream in order to facilitate the original issue and subsequent transfers of interests in the Notes among participants of Euroclear and Clearstream, neither Euroclear nor Clearstream is under any obligation to perform or continue to perform such procedures, and such procedures may be discontinued at any time.

None of the Company, the Trustee or any of their respective agents will have responsibility for the performance of Euroclear or Clearstream or their respective participants of their respective obligations under the rules and procedures governing their operations, including, without limitation, rules and procedures relating to book-entry interests.

Individual Definitive Notes

If (1) the common depository or any successor to the common depository is at any time unwilling or unable to continue as a depository for the reasons described in the Indenture and a successor depository is not appointed within 90 days (2) either Euroclear or Clearstream, or a successor clearing system is closed for business for a continuous period of 14 days (other than by reason of holidays, statutory or otherwise) or announces an intention to permanently cease business or does in fact do so, or (3) any of the Notes has become immediately due and payable in accordance with “— Events of Default” and the Company has received a written request from a Holder, the Company will issue individual definitive notes in registered form in exchange for the Global Note. Upon receipt of such notice from the common depository or the Trustee, as the case may be, the Company will use its best efforts to make arrangements with the common depository for the exchange of interests in the Global Note for individual definitive notes and cause the requested individual definitive notes to be executed and delivered to the registrar in sufficient quantities and authenticated by the Trustee for delivery to Holders. Persons exchanging interests in a Global Note for individual definitive notes will be required to provide the registrar, through the relevant clearing system, with written instruction and other information required by the Company and the registrar to complete, execute and deliver such individual definitive notes. In all cases, individual definitive notes delivered in exchange for any Global Note or beneficial interests therein will be registered in the names, and issued in any approved denominations, requested by the relevant clearing system.

Individual definitive notes will not be eligible for clearing and settlement through Euroclear or Clearstream.

Notices

All notices or demands required or permitted by the terms of the Notes or the Indenture to be given to or by the Holders are required to be in writing and may be given or served by being sent by prepaid courier or by being deposited, first-class postage prepaid, in the United States mails (if intended for the Company or any Subsidiary Guarantor) addressed to the Company or such Subsidiary Guarantor at the principal office of the Company; (if intended for the Trustee) addressed to the Trustee at the corporate trust office of the Trustee; and (if intended for any Holder) addressed to such Holder at such Holder's last address as it appears in the Note register.

While the Notes are in global form, any such notice or demand will be deemed to have been sufficiently given or served when so sent or deposited and, if to the Holders, when delivered in

accordance with the applicable rules and procedures of Euroclear and Clearstream. Any such notice shall be deemed to have been delivered on the day such notice is delivered to Euroclear and Clearstream or if by mail, when so sent or deposited.

Consent to Jurisdiction; Service of Process

The Company and each of the Subsidiary Guarantors will irrevocably (i) submit to the non-exclusive jurisdiction of any U.S. federal or New York state court located in the Borough of Manhattan, The City of New York in connection with any suit, action or proceeding arising out of, or relating to, the Notes, any Subsidiary Guarantee, the Indenture or any transaction contemplated thereby and (ii) designate and appoint Cogency Global Inc., currently at 122 East 42nd Street, 18th Floor, New York, NY 10168, the United States, for receipt of service of process in any such suit, action or proceeding.

Governing Law

Each of the Notes, the Subsidiary Guarantees and the Indenture provides that such instrument will be governed by, and construed in accordance with, the laws of the State of New York.

Definitions

Set forth below are defined terms used in the covenants and other provisions of the Indenture. Reference is made to the Indenture for other capitalized terms used in this “Description of the Notes” for which no definition is provided.

“Asset Acquisition” means (1) an Investment by the Company or any Restricted Subsidiary in any other Person pursuant to which such Person shall become a Restricted Subsidiary or shall be merged into or consolidated with the Company or any Restricted Subsidiary or (2) an acquisition by the Company or any Restricted Subsidiary of the property and assets of any Person other than the Company or any Restricted Subsidiary that constitute substantially all of a division or line of business of such Person.

“Asset Disposition” means the sale or other disposition by the Company or any Restricted Subsidiary (other than to the Company or another Restricted Subsidiary) of (1) all or substantially all of the Capital Stock of any Restricted Subsidiary or (2) all or substantially all of the assets that constitute a division or line of business of the Company or any Restricted Subsidiary which accounts for all or substantially all of the assets of such Restricted Subsidiary).

“Asset Sale” means any sale, transfer or other disposition (including by way of merger, consolidation or Sale and Leaseback Transaction and including any sale or issuance of the Capital Stock of any Restricted Subsidiary) in one transaction or a series of related transactions by the Company or any Restricted Subsidiary to any Person; provided that “Asset Sale” shall not include:

- (a) sales, transfers or other dispositions of inventory, receivables and other current assets (including properties under development for sale and completed properties for sale) in the ordinary course of business;
- (b) sales, transfers or other dispositions of assets constituting a Permitted Investment or Restricted Payment permitted to be made under the covenant described under the caption “— Certain Covenants — Limitation on Restricted Payments”;
- (c) sales, transfers or other dispositions of assets with a Fair Market Value not in excess of US\$1.0 million (or the Dollar Equivalent thereof) in any transaction or series of related transactions;
- (d) any sale, transfer, assignment or other disposition of any property or equipment that has become damaged, worn out, obsolete or otherwise unsuitable for use in connection with the business of the Company or its Restricted Subsidiaries;
- (e) any transfer, assignment or other disposition deemed to occur in connection with creating or granting any Permitted Lien;
- (f) a transaction covered by the covenant under the caption “— Consolidation, Merger and Sale of Assets”; and
- (g) any sale, transfer or other disposition by the Company or any Restricted Subsidiary, including the sale or issuance by the Company or any Restricted Subsidiary of any Capital Stock of any Restricted Subsidiary to the Company or any Restricted Subsidiary.

“Attributable Indebtedness” means, in respect of a Sale and Leaseback Transaction, at the time of determination, the present value, discounted at the interest rate implicit in such Sale and Leaseback Transaction, of the total obligations of the lessee for rental payments during the remaining term of the lease in such Sale and Leaseback Transaction, including any period for which such lease has been extended or may, at the option of the lessor, be extended.

“Average Life” means, at any date of determination with respect to any Indebtedness, the quotient obtained by dividing (1) the sum of the products of (a) the number of years from such date of determination to the dates of each successive scheduled principal payment of such Indebtedness and (b) the amount of such principal payment by (2) the sum of all such principal payments.

“Bank Deposit Secured Indebtedness” means Indebtedness of the Company or any Restricted Subsidiary that is (i) secured by cash deposits, bank accounts or other assets of the Company or a Restricted Subsidiary and/or (ii) guaranteed by a guarantee or a letter of credit (or similar

instruments) from or arranged by the Company or a Restricted Subsidiary and is used by the Company and its Restricted Subsidiaries to effect exchange of foreign currencies or remit money onshore or offshore.

“Board of Directors” means the board of directors elected or appointed by the stockholders of the Company to manage the business of the Company or any committee of such board duly authorized to take the action purported to be taken by such committee.

“Board Resolution” means any resolution of the Board of Directors taking an action which it is authorized to take and adopted at a meeting duly called and held at which a quorum of disinterested members (if so required) was present and acting throughout or adopted by written resolution executed by every member of the Board of Directors.

“Business Day” means any day which is not a Saturday, Sunday, legal holiday or other day on which banking institutions in The City of New York, London or Hong Kong (or in any other place in which payments on the Notes are to be made) are authorized by law or governmental regulation to close.

“Capital Stock” means, with respect to any Person, any and all shares, interests, participations or other equivalents (however designated, whether voting or non-voting) in equity of such Person, whether outstanding on the Original Issue Date or issued thereafter, including, without limitation, all Common Stock and Preferred Stock, but excluding debt securities convertible into such equity.

“Capitalized Lease” means, with respect to any Person, any lease of any property (whether real, personal or mixed) which, in conformity with GAAP, is required to be capitalized on the balance sheet of such Person.

“Capitalized Lease Obligations” means the discounted present value of the rental obligations under a Capitalized Lease.

“Change of Control” means the occurrence of one or more of the following events:

- (1) the direct or indirect sale, transfer, conveyance or other disposition (other than by way of merger or consolidation), in one or a series of related transactions, of all or substantially all of the properties or assets of the Company and its Restricted Subsidiaries, taken as a whole, to any “person” (within the meaning of Section 13(d) of the U.S. Securities Exchange Act of 1934, as amended (the “Exchange Act”)), other than one or more Permitted Holders;
- (2) the Company consolidates with, or merges with or into, any Person (other than one or more Permitted Holders), or any Person consolidates with, or merges with or into, the Company, in any such event pursuant to a transaction in which any of the outstanding Voting Stock of the Company or such other Person is converted into or exchanged for cash, securities or other property, other than any such transaction where the Voting Stock of the Company outstanding immediately prior to such transaction is converted into or exchanged for (or continues as) Voting Stock (other than Disqualified Stock) of the surviving or transferee Person constituting a majority of the outstanding shares of Voting Stock of such surviving or transferee Person (immediately after giving effect to such issuance) and in substantially the same proportion as before the transaction;
- (3) the Permitted Holders are the beneficial owners of less than 35.0% of the total voting power of the Voting Stock of the Company;
- (4) any “person” or “group” (as such terms are used in Sections 13(d) and 14(d) of the Exchange Act) is or becomes the “beneficial owner” (as such term is used in Rule 13d-3 of the Exchange Act), directly or indirectly, of the total voting power of the Voting Stock of the Company greater than such total voting power held beneficially by the Permitted Holders;
- (5) individuals who on the Original Issue Date constituted the Board of Directors (together with any new directors whose election was approved by a vote of at least a majority of the members of the Board of Directors then in office who were members of the Board of Directors on the Original Issue Date or whose election was previously so approved) cease for any reason to constitute a majority of the members of the Board of Directors then in office; or
- (6) the adoption of a plan relating to the liquidation or dissolution of the Company.

For the avoidance of doubt, for purposes of this “Change of Control” definition, a sale of shares of Capital Stock of a Restricted Subsidiary which holds all or substantially all properties and assets of the Company, and its Restricted Subsidiaries, taken as a whole, to Independent Third Parties in an initial public offering and listing on a stock exchange of the shares of Capital Stock of such Restricted Subsidiary where such Restricted Subsidiary (i) remains a Restricted Subsidiary immediately after such sale and (ii) the Company, a Subsidiary Guarantor or a JV Subsidiary Guarantor, as the case may be, immediately after such sale, owns, directly or indirectly, at least 30.0% of the Voting Stock of such Restricted Subsidiary shall not constitute a sale of substantially all properties and assets of the Company and its Restricted Subsidiaries.

“Change of Control Triggering Event” means (i) the occurrence of both a Change of Control and a Rating Decline if the Notes are rated by at least one Rating Agency or (ii) the occurrence of a Change of Control if the Notes are not rated.

“Clearstream” means Clearstream Banking S.A.

“Collateral” means all collateral securing, or purported to be securing, directly or indirectly, the Notes or any Subsidiary Guarantee pursuant to the Security Documents, and shall initially consist of the Capital Stock of the initial Subsidiary Guarantors.

“Commodity Agreement” means any spot, forward, swap or option commodity price protection agreements or other similar agreement or arrangement designed to protect against fluctuations in commodity prices.

“Common Stock” means, with respect to any Person, any and all shares, interests or other participations in, and other equivalents (however designated and whether voting or non-voting) of such Person’s common stock or ordinary shares, whether or not outstanding on the Original Issue Date, and include, without limitation, all series and classes of such common stock or ordinary shares.

“Comparable Treasury Issue” means the U.S. Treasury security having a maturity comparable to June 9, 2021 that would be utilized, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities of comparable maturity to June 9, 2021.

“Comparable Treasury Price” means, with respect to any redemption date, if clause (ii) of the Adjusted Treasury Rate is applicable, the average of three (or such lesser number as is received by the Trustee) Reference Treasury Dealer Quotations for such redemption date.

“Consolidated Assets” means, with respect to any Restricted Subsidiary at any date of determination, the Company and its Restricted Subsidiaries’ proportionate interest in the total consolidated assets of that Restricted Subsidiary and its Restricted Subsidiaries measured in accordance with GAAP as of the last day of the most recent fiscal quarter period for which consolidated financial statements of the Company (which the Company shall use its reasonable best efforts to compile on a timely manner) are available (which may include internal consolidated financial statements).

“Consolidated EBITDA” means, for any period, Consolidated Net Income for such period plus, to the extent such amount was deducted in calculating such Consolidated Net Income:

- (1) Consolidated Interest Expense;
- (2) income taxes (other than income taxes attributable to extraordinary and non-recurring gains or losses or sales of assets); and
- (3) depreciation expense, amortization expense and all other non-cash items reducing Consolidated Net Income (other than non-cash items in a period which reflect cash expenses paid or to be paid in another period), less all non-cash items increasing Consolidated Net Income,

all as determined on a consolidated basis for the Company and its Restricted Subsidiaries in conformity with GAAP; provided that (i) if any Restricted Subsidiary is not a Wholly Owned Restricted Subsidiary, Consolidated EBITDA shall be reduced (to the extent not otherwise reduced in accordance with GAAP) by an amount equal to (A) the amount of the Consolidated Net Income attributable to such Restricted Subsidiary multiplied by (B) the percentage ownership interest in the income of such Restricted Subsidiary not owned on the last day of such period by the Company or any Restricted Subsidiary and (ii) in the case of any PRC CJV consolidated in accordance with GAAP, Consolidated EBITDA shall be reduced (to the extent not already reduced in accordance with GAAP) by any payments, distributions or amounts (including the Fair Market Value of any non-cash payments, distributions or amounts) required to be made or paid by such PRC CJV to the

PRC CJV Partner, or to which the PRC CJV Partner otherwise has a right or is entitled, pursuant to the joint venture agreement governing such PRC CJV.

“Consolidated Fixed Charges” means, for any period, the sum (without duplication) of (i) Consolidated Interest Expense for such period and (ii) all cash and non-cash dividends paid, declared, accrued or accumulated during such period on any Disqualified Stock or Preferred Stock of the Company or any Restricted Subsidiary held by Persons other than the Company or any Wholly Owned Restricted Subsidiary, except for dividends payable in the Company’s Capital Stock (other than Disqualified Stock) or dividends paid to the Company or to a Wholly Owned Restricted Subsidiary.

“Consolidated Interest Expense” means, for any period, the amount that would be included in gross interest expense on a consolidated income statement prepared in accordance with GAAP for such period of the Company and its Restricted Subsidiaries, plus, to the extent not included in such gross interest expense, and to the extent incurred, accrued or payable during such period by the Company and its Restricted Subsidiaries, without duplication, (i) interest expense attributable to Capitalized Lease Obligations and imputed interest with respect to Attributable Indebtedness, (ii) amortization of debt issuance costs and original issue discount expense and non-cash interest payments in respect of any Indebtedness, (iii) the interest portion of any deferred payment obligation, (iv) all commissions, discounts and other fees and charges with respect to letters of credit or similar instruments issued for financing purposes or in respect of any Indebtedness, (v) the net costs associated with Hedging Obligations (including the amortization of fees), (vi) interest on Indebtedness of any other Person that is guaranteed by the Company or any Restricted Subsidiary (other than Pre-Registration Mortgage Guarantees), only to the extent such interest is actually paid by the Company or any Restricted Subsidiary and (vii) any capitalized interest; provided that interest expense attributable to interest on any Indebtedness bearing a floating interest rate will be computed on a *pro forma* basis as if the rate in effect on the date of determination had been the applicable rate for the entire relevant period.

“Consolidated Net Income” means, with respect to any specified Person for any period, the aggregate of the net income (or loss) of such Person and its Restricted Subsidiaries for such period, on a consolidated basis, determined in conformity with GAAP; provided that the following items shall be excluded in computing Consolidated Net Income (without duplication):

- (1) the net income (or loss) of any Person that is not a Restricted Subsidiary or that is accounted for by the equity method of accounting, except to the extent of the amount of net income actually paid in cash to, or the amount of loss actually funded in cash by, the specified Person or a Restricted Subsidiary of the Person during such period;
- (2) the net income (or loss) of any Person accrued prior to the date it becomes a Restricted Subsidiary or is merged into or consolidated with the Company or any Restricted Subsidiary or all or substantially all of the property and assets of such Person are acquired by the Company or any Restricted Subsidiary;
- (3) the net income (but not loss) of any Restricted Subsidiary to the extent that the declaration or payment of dividends or similar distributions by such Restricted Subsidiary of such net income is not at the time permitted by the operation of the terms of its charter, articles of association or other similar constitutive documents, or any agreement, instrument, judgment, decree, order, statute, rule or governmental regulation applicable to such Restricted Subsidiary;
- (4) the cumulative effect of a change in accounting principles;
- (5) any net after-tax gains realized on the sale or other disposition of (A) any property or assets of the Company or any Restricted Subsidiary or (B) any Capital Stock of any Person (including any gains by the Company realized on sales of Capital Stock of the Company or any Restricted Subsidiary), in each case, which is not sold in the ordinary course of business of the Company or any Restricted Subsidiary;
- (6) any translation gains or losses due solely to fluctuations in currency values and related tax effects; and
- (7) any net after-tax extraordinary or non-recurring gains,

provided that any net after tax gains derived from direct or indirect sale by the Company or any Restricted Subsidiary of (i) Capital Stock of a Restricted Subsidiary primarily engaged in the holding of Investment Property or (ii) an interest in any Investment Property arising from the difference between the original cost basis and the cash sale price shall be added to Consolidated Net Income to the extent not already included in the net income for such period as determined in conformity with GAAP and Consolidated Net Income.

“Consolidated Net Worth” means, at any date of determination, stockholders’ equity as set forth on the most recently available fiscal quarter, semi-annual or annual consolidated balance sheet of the Company and its Restricted Subsidiaries, plus, to the extent not included, any Preferred Stock of the Company, less any amounts attributable to Disqualified Stock or any equity security convertible into or exchangeable for Indebtedness, the cost of treasury stock and the principal amount of any promissory notes receivable from the sale of the Capital Stock of the Company or any Restricted Subsidiary, each item to be determined in conformity with GAAP.

“Contractor Guarantees” means any guarantee by the Company or any Restricted Subsidiary of Indebtedness of any contractor, builder or other similar Person engaged by the Company or such Restricted Subsidiary in connection with the development, construction or improvement of real or personal property or equipment to be used in a Permitted Business by the Company or any Restricted Subsidiary in the ordinary course of business, which Indebtedness was Incurred by such contractor, builder or other similar Person to finance the cost of such development, construction or improvement.

“Credit Facilities” means one or more of the facilities or arrangements with one or more banks or other lenders or institutions providing for revolving credit loans, term loans, receivables financings (including without limitation through the sale of receivables or assets to such institutions or to special purpose entities formed to borrow from such institutions against such receivables or assets or the creation of any Liens in respect of such receivables or assets in favor of such institutions), letters of credit or other Indebtedness, in each case, including all agreements, instruments and documents executed and delivered pursuant to or in connection with any of the foregoing, including but not limited to any notes and letters of credit issued pursuant thereto and any guarantee and collateral agreement, patent and trademark security agreement, mortgages or letter of credit applications and other guarantees, pledge agreements, security agreements and collateral documents, in each case as the same may be amended, supplemented, waived or otherwise modified from time to time, or refunded refinanced, restructured, replaced, renewed, repaid, increased or extended from time to time (whether in whole or in part, whether with the original banks, lenders or institutions or other banks, lenders or institutions or otherwise, and whether provided under any original Credit Facility or one or more other credit agreements, indentures, financing agreements or other Credit Facilities or otherwise). In making the foregoing calculation:

- (A) *pro forma* effect shall be given to any Indebtedness or Preferred Stock Incurred, repaid or redeemed during the period (the “Reference Period”) commencing on and including the first day of the Four Fiscal-Quarter Period and ending on and including the Transaction Date (other than Indebtedness Incurred or repaid under a revolving credit or similar arrangement (or under any predecessor revolving credit or similar arrangement) in effect on the last day of such Four Fiscal-Quarter Period), in each case as if such Indebtedness or Preferred Stock had been Incurred, repaid or redeemed on the first day of such Reference Period; provided that in the event of any such repayment or redemption, Consolidated EBITDA for such Four Fiscal-Quarter Period shall not include any interest income actually earned by the Company or such Restricted Subsidiary during such Four Fiscal-Quarter Period in respect of the funds used to repay or redeem such Indebtedness or Preferred Stock;
- (B) Consolidated Interest Expense attributable to interest on any Indebtedness (whether existing or being Incurred) computed on a *pro forma* basis and bearing a floating interest rate shall be computed as if the rate in effect on the Transaction Date (taking into account any Interest Rate Agreement applicable to such Indebtedness if such Interest Rate Agreement has a remaining term in excess of 12 months or, if shorter, at least equal to the remaining term of such Indebtedness) had been the applicable rate for the entire period;
- (C) *pro forma* effect shall be given to Asset Dispositions and Asset Acquisitions (including giving *pro forma* effect to the application of proceeds of any Asset Disposition) that occur during such Reference Period as if they had occurred and such proceeds had been applied on the first day of such Reference Period;
- (D) *pro forma* effect shall be given to asset dispositions and asset acquisitions (including giving *pro forma* effect to the application of proceeds of any asset disposition) that have been made by any Person that has become a Restricted Subsidiary or has been merged with or into the Company or any Restricted Subsidiary during such Reference Period and that would have constituted Asset Dispositions or Asset Acquisitions had such transactions occurred when such Person was a Restricted Subsidiary as if such asset dispositions or asset acquisitions were Asset Dispositions or Asset Acquisitions that occurred on the first day of such Reference Period; and
- (E) *pro forma* effect shall be given to the creation, designation or re-designation of Restricted Subsidiaries and Unrestricted Subsidiaries as if such creation, designation or re-designation had occurred on the first day of such Reference Period;

provided that to the extent that clause (C) or (D) of this paragraph requires that *pro forma* effect be given to an Asset Acquisition or Asset Disposition (or asset acquisition or asset disposition), such *pro forma* calculation shall be based upon the four full fiscal quarter periods immediately preceding the Transaction Date of the Person, or division or line of business of the Person, that is acquired or disposed for which financial information is available.

- (4) all obligations of such Person to pay the deferred and unpaid purchase price of property or services, except Trade Payables;
- (5) all Capitalized Lease Obligations and Attributable Indebtedness;
- (6) all Indebtedness of other Persons secured by a Lien on any asset of such Person, whether or not such Indebtedness is assumed by such Person; provided that the amount of such Indebtedness shall be the lesser of (A) the Fair Market Value of such asset at such date of determination and (B) the amount of such Indebtedness;
- (7) all Indebtedness of other Persons guaranteed by such Person to the extent such Indebtedness is guaranteed by such Person;
- (8) to the extent not otherwise included in this definition, Hedging Obligations; and
- (9) all Disqualified Stock issued by such Person valued at the greater of its voluntary or involuntary liquidation preference and its maximum fixed repurchase price plus accrued dividends.

Notwithstanding the foregoing, Indebtedness shall not include (1) any capital commitments, deferred payment obligation, pre-sale receipts in advance from customers or similar obligations Incurred in the ordinary course of business in connection with the acquisition, development, construction or improvement of real or personal property (including land use rights) to be used in a Permitted Business, (2) any Entrusted Loan; provided that such Indebtedness is not reflected as borrowings on the consolidated balance sheet of the Company (contingent obligations and commitments referred to in a footnote to financial statements and not otherwise reflected on the balance sheet will not be deemed to be reflected on such balance sheet) or (3) any obligations in respect of the CVRs.

The amount of Indebtedness of any Person at any time shall be the outstanding balance at such time of all unconditional obligations as described above and, with respect to contingent obligations, the maximum liability upon the occurrence of the contingency giving rise to the obligation; provided that:

- (A) the amount outstanding at any time of any Indebtedness issued with original issue discount is the face amount of such Indebtedness less the remaining unamortized portion of the original issue discount of such Indebtedness at such time as determined in conformity with GAAP;
- (B) money borrowed and set aside at the time of the Incurrence of any Indebtedness in order to prefund the payment of the interest on such Indebtedness shall not be deemed to be “Indebtedness” so long as such money is held to secure the payment of such interest;
- (C) that the amount of Indebtedness with respect to any Hedging Obligation shall be (i) zero if Incurred pursuant to paragraph (b)(6) under the “Limitation on Indebtedness and Preferred Stock” covenant or (ii) equal to the net amount payable by such Person if the

Commodity Agreement, Currency Agreement or Interest Rate Agreement giving rise to such Hedging Obligation were terminated at that time due to default by such Person if not Incurred pursuant to such paragraph, and

- (D) that the contingent obligations arising from letters of credit, bankers' acceptances or other similar instruments of a Restricted Subsidiary to secure Indebtedness of another Restricted Subsidiary shall not be deemed to be Indebtedness so long as such contingent obligations are used to secure the payment of Indebtedness of another Restricted Subsidiary permitted to be Incurred under the Indenture.

“Transaction Date” means, with respect to the Incurrence of any Indebtedness, the date such Indebtedness is to be Incurred and, with respect to any Restricted Payment, the date such Restricted Payment is to be made.

“Unrestricted Subsidiary” means (1) subject to any redesignation under the section entitled “— Certain Covenants — Designation of Restricted and Unrestricted Subsidiaries,” each of Kaisa Property Holdings Limited (佳兆物業集團有限公司), Kaisa Ventures Limited, Dragon Range Holdings Limited (域龍控股有限公司), Star Joy Holdings Limited (星進集團有限公司), Zhan Zheng Consulting Company Limited, Cornwell Holdings (Hong Kong) Limited, Central Broad (Hong Kong) Investment Limited, Victor Select Limited, Ye Chang Investment Company Limited, Greater Sail Limited and Kaisa WeWa Space (China) Limited; (2) any Subsidiary of the Company that at the time of determination shall be designated an Unrestricted Subsidiary by the Board of Directors in the manner provided in the Indenture; and (3) any Subsidiary of an Unrestricted Subsidiary.

“U.S. Government Obligations” means securities that are (1) direct obligations of the United States of America for the payment of which its full faith and credit is pledged or (2) obligations of a Person controlled or supervised by and acting as an agency or instrumentality of the United States of America the payment of which is unconditionally guaranteed as a full faith and credit obligation by the United States of America, which, in either case, are not callable or redeemable at the option of the holder thereof at any time prior to the Stated Maturity of the Notes, and shall also include a depository receipt issued by a bank or trust company as custodian with respect to any such U.S. Government Obligation or a specific payment of interest on or principal of any such U.S. Government Obligation held by such custodian for the account of the holder of a depository receipt; provided that (except as required by law) such custodian is not authorized to make any deduction from the amount payable to the holder of such depository receipt from any amount received by the custodian in respect of the U.S. Government Obligation or the specific payment of interest on or principal of the U.S. Government Obligation evidenced by such depository receipt.

“Voting Stock” means, with respect to any Person, Capital Stock of any class or kind ordinarily having the power to vote for the election of directors, managers or other voting members of the governing body of such Person.

“Wholly Owned” means, with respect to any Subsidiary of any Person, the ownership of 100% of the outstanding Capital Stock of such Subsidiary (other than any director’s qualifying shares or Investments by foreign nationals mandated by applicable law) by such Person or one or more Wholly Owned Subsidiaries of such Person; provided that Subsidiaries that are PRC CJVs shall not be considered Wholly Owned Subsidiaries unless such Person or one or more Wholly Owned Subsidiaries of such Person are entitled to 95% or more of the economic benefits distributable by such Subsidiary.

TAXATION

The following summary of certain Cayman Islands, British Virgin Islands, Hong Kong and PRC tax consequences of the purchase, ownership and disposition of Notes is based upon applicable laws, regulations, rulings and decisions in effect as of the date of this offering memorandum, all of which are subject to change (possibly with retroactive effect). This discussion does not purport to be a comprehensive description of all the tax considerations that may be relevant to a decision to purchase, own or dispose of the Notes and does not purport to deal with consequences applicable to all categories of investors, some of which may be subject to special rules. Persons considering the purchase of Notes should consult their own tax advisors concerning the tax consequences of the purchase, ownership and disposition of Notes, including such possible consequences under the laws of their country of citizenship, residence or domicile.

Cayman Islands

The following is a discussion of certain Cayman Islands income tax consequences of an investment in the Notes. The discussion is a general summary of present law, which is subject to prospective and retroactive change. It is not intended as tax advice, does not consider any investor's particular circumstances, and does not consider tax consequences other than those arising under Cayman Islands law.

Under the laws of the Cayman Islands, payments of interest and principal on the Notes will not be subject to taxation and no withholding will be required on the payment of interest, principal or premium to any holder of the Notes, as the case may be, nor will gains derived from the disposal of the Notes be subject to any capital gains, income or corporation tax in the Cayman Islands. The Cayman Islands currently have no exchange control restrictions and are not party to any double taxation treaties. The Cayman Islands currently levy no taxes on individuals or corporations based upon profits, income, gains or appreciations and there is no taxation in the nature of inheritance tax or estate duty.

No stamp duties or similar taxes or charges are payable under the laws of the Cayman Islands in respect of the execution and issue of the Notes unless they are executed in or brought within (for example, for the purposes of enforcement) the jurisdiction of the Cayman Islands, in which case stamp duty of 0.25% of the face amount thereof may be payable on each Note (up to a maximum of 250 Cayman Islands dollars ("CI\$") (US\$312.50)) unless stamp duty of CI\$500 (US\$625) has been paid in respect of the entire issue of Notes.

The above conversions of Cayman Islands dollars to U.S. dollars have been made on the basis of US\$1.25 = CI\$1.00.

Pursuant to section 6 of the Tax Concessions Law (2011 Revision) of the Cayman Islands, the Company has obtained an undertaking from the Governor-in-Cabinet:

- (1) that no law which is enacted in the Cayman Islands imposing any tax to be levied on profits, income, gains or appreciation shall apply to the Company or its operations; and
- (2) that the aforesaid tax or any tax in the nature of estate duty or inheritance tax shall not be payable on or in respect of the shares, debentures or other obligations of the Company.

The undertaking for the Company is for a period of twenty years from August 14, 2007.

British Virgin Islands

There is no income or other tax of the British Virgin Islands imposed by withholding or otherwise on any payment to be made to or by the Subsidiary Guarantors pursuant to the Subsidiary Guarantees.

Hong Kong

Withholding Tax. No withholding tax in Hong Kong is payable on payments of principal (including any premium payable on redemption of the Notes) or interest in respect of the Notes.

Profits Tax. Hong Kong profits tax is charged on every person carrying on a trade, profession or business in Hong Kong in respect of assessable profits arising in or derived from Hong Kong from such trade, profession or business. Under the Inland Revenue Ordinance (Chapter 112 of the Laws of Hong Kong) (the "Inland Revenue Ordinance"), as it is currently applied, Hong Kong profits tax may be charged on revenue profits arising on the sale, disposal or redemption of the Notes where such sale, disposal or redemption is or forms part of a trade, profession or business carried on in Hong Kong.

Interest on the Notes will be subject to Hong Kong profits tax where such interest has a Hong Kong source, and is received by or accrues to:

- a financial institution (as defined in the Inland Revenue Ordinance) and arises through or from the carrying on by the financial institution of its business in Hong Kong; or
- a corporation carrying on a trade, profession or business in Hong Kong; or
- a person, other than a corporation, carrying on a trade, profession or business in Hong Kong and such interest is in respect of the funds of the trade, profession or business.

Although no tax is imposed in Hong Kong in respect of capital gains, Hong Kong profits tax may be chargeable on trading gains arising on the sale or disposal of the Notes where such transactions are or form part of a trade, profession or business carried on in Hong Kong.

Stamp Duty. No Hong Kong stamp duty will be chargeable upon the issue or transfer (for so long as the register of holders of the Notes is maintained outside Hong Kong) of a Note.

PRC Taxation

The following summary of certain PRC tax consequences of the purchase, ownership and disposition of Notes is based upon applicable laws, rules and regulations in effect as of the date of this offering memorandum, all of which are subject to change (possibly with retroactive effect). This discussion does not purport to be a comprehensive description of all the tax considerations that may be relevant to a decision to purchase, own or dispose of the Notes and does not purport to deal with consequences applicable to all categories of investors, some of which may be subject to special rules. Persons considering the purchase of Notes should consult their own tax advisors concerning the tax consequences of the purchase, ownership and disposition of Notes, including such possible consequences under the laws of their country of citizenship, residence or domicile.

Taxation on Interest. The Enterprise Income Tax Laws, effective January 1, 2008, impose a tax at the rate of 10% on interest paid to holders of the Notes that are “non-resident enterprises” so long as any such “non-resident enterprise” holder does not have an establishment or place of business in China or, despite the existence of establishment or place of business in China, the relevant income is not effectively connected with such establishment or place of business in China, to the extent such interest is sourced within China. Pursuant to these provisions of the Enterprise Income Tax Laws, despite many uncertainties with respect to their application, if we are considered a PRC resident enterprise, interest payable to non-resident enterprise holders on the Notes may be treated as income derived from sources within China and be subject to the PRC withholding tax. To the extent that China has entered into arrangements relating to the avoidance of double-taxation with any jurisdiction, such as Hong Kong, that allow a lower rate of withholding tax, such lower rate may apply to qualified investors in the Notes.

Taxation on Capital Gains. The Enterprise Income Tax Laws impose a tax at the rate of 10% (or 20% in the case of individuals) on capital gains realized by holders of the Notes that are “non-resident enterprises” so long as any such “non-resident enterprise” holder does not have an establishment or place of business in China or, despite the existence of establishment or place of business in China, the relevant gain is not effectively connected with such establishment or place of business in China, to the extent such capital gains are sourced within China. Pursuant to these provisions of the Enterprise Income Tax Laws, despite many uncertainties with respect to their application, if we are considered a PRC resident enterprise, the capital gains realized by holders of the Notes may be treated as income derived from sources within China and be subject to the PRC tax. To the extent that China has entered into arrangements relating to the avoidance of double-taxation with any jurisdiction, such as Hong Kong, that allow a lower rate of withholding tax, such lower rate may apply to qualified investors in the Notes.

Stamp duty. No PRC stamp tax will be chargeable upon the issue or transfer (for so long as the register of holders of the Notes is maintained outside Mainland China) of a Note.

PLAN OF DISTRIBUTION

Under the terms and conditions contained in a purchase agreement dated June 3, 2020, we have agreed to sell to Credit Suisse (Hong Kong) Limited, Deutsche Bank AG, Singapore Branch, BOCI Asia Limited, Haitong International Securities Company Limited, UBS AG Hong Kong Branch, Fulbright Securities Limited and Kaisa Financial Group Company Limited as the Initial Purchasers, and the Initial Purchasers have agreed to purchase from us, the following principal amount of the Notes:

Initial Purchasers	Principal Amount of the Notes to be Purchased
Credit Suisse (Hong Kong) Limited	US\$105,000,000
Deutsche Bank AG, Singapore Branch	US\$105,000,000
BOCI Asia Limited	US\$30,000,000
Haitong International Securities Company Limited	US\$30,000,000
UBS AG Hong Kong Branch	US\$30,000,000
Fulbright Securities Limited	US\$0
Kaisa Financial Group Company Limited	US\$0
Total	US\$300,000,000

The purchase agreement provides that the obligations of the Initial Purchasers are subject to the approval of certain legal matters by their counsel and certain conditions precedent. The purchase agreement provides that the Initial Purchasers are obligated to purchase all of the Notes if any are purchased. If an Initial Purchaser defaults, the purchase agreement provides that the purchase commitments of the non-defaulting Initial Purchasers may be increased or the purchase agreement may be terminated. The Initial Purchasers propose to offer the Notes initially at the price on the cover page of this offering memorandum (the “Offering Price”) and may also offer the Notes to selling group members at the Offering Price less a selling concession. After the initial offering, the Offering Price may be changed.

We and the Subsidiary Guarantors will pay the Initial Purchasers customary fees and commissions in connection with the offering and will reimburse the Initial Purchasers for certain expenses incurred in connection with the offering. In addition, we and the Subsidiary Guarantors have agreed with the Initial Purchasers that private banks be paid a commission in connection with the purchase of the Notes by their private bank clients, which commission may be deducted from the purchase price for the Notes payable by such private banks upon settlement.

No action has been taken or will be taken in any country or jurisdiction that would permit a public offering of the Notes or the possession or distribution of the Offering Memorandum or any other offering material relating to the Notes in any jurisdiction where action for any such purpose may be required.

The Initial Purchasers and their respective affiliates may have engaged in transactions with and performed various investment banking, commercial banking and other services for the Company and its affiliates in the past and may do so from time to time in the future. The Initial Purchasers and their respective affiliates have received customary fees and commissions for these transactions. We may enter into non-speculative hedging or other derivative transactions as part of our risk management strategy with the Initial Purchasers, which may include transactions relating to our obligations under the Notes. Our obligations under these transactions may be secured by cash or other collateral. The Initial Purchasers or certain of their affiliates may purchase and allocate the Notes for asset management and/or proprietary purposes but not with a view for distribution. In the ordinary course of its business, the Initial Purchasers or their respective affiliates may at any time hold long or short positions, and may trade for their own account or the accounts of customers, in our securities.

General

Purchasers of the Notes outside the United States may be required to pay stamp taxes and other charges in compliance with the laws and practices of the country of purchase in addition to the Offering Price on the cover page of this Offering Memorandum.

We have agreed to indemnify the Initial Purchasers against certain liabilities or to contribute to payments which the Initial Purchasers may be required to make in that respect.

We and the Subsidiary Guarantors have agreed that for a period from the date of this offering memorandum to the settlement date, neither we nor any Subsidiary Guarantor will, directly or indirectly, take any of the following actions with respect to any United States dollar-denominated debt securities issued or guaranteed by us or such Subsidiary Guarantor and having a maturity of more than one year from the date of issue (“Lock-Up Securities”): (i) offer, sell, issue, contract to sell, pledge or otherwise dispose of Lock-Up Securities, (ii) offer, sell, issue, contract to sell, contract to purchase or grant any option, right or warrant to purchase Lock-Up Securities, (iii) enter into any swap, hedge or any other agreement that transfers, in whole or in part, the economic consequences of ownership of Lock-Up Securities, (iv) establish or increase a put equivalent position or liquidate or decrease a call equivalent position in Lock-Up Securities within the meaning of Section 16 of the Exchange Act or (v) file with the United States Securities and Exchange Commission a registration statement under the Securities Act relating to Lock-Up Securities or publicly disclose the intention to take any such action, without the prior written consent of the Initial Purchasers.

The Notes are a new issue of securities for which there currently is no trading market. Application will be made to the SGX-ST for the listing and quotation of the Notes on the SGX-ST. However, we cannot assure you that we will ultimately obtain such listing or that we will be able to maintain such listing.

No assurance can be given as to the development or liquidity of any market for the Notes. If an active trading market for the Notes does not develop, the market price and liquidity of the Notes may be adversely affected. If the Notes are traded, they may trade at a discount from their initial offering price, depending on prevailing interest rates, the market for similar securities, our operating performance and financial condition, general economic conditions and other factors.

We expect delivery of the Notes will be made against payment therefor on or about the closing date specified on the cover page of this offering memorandum, which will be the fifth business day following the date of pricing (this settlement cycle being referred to as “T+5”).

Pursuant to Rule 15c6-1 under the Exchange Act, trades in the secondary market generally are required to settle in two business days, unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade the Notes on the date of pricing or the next succeeding business day will be required, by virtue of the fact that the Notes initially will settle in T+5, to specify an alternate settlement cycle at the time of any such trade to prevent a failed settlement. Purchasers of Notes who wish to trade Notes on the date of pricing or the next succeeding business day should consult their own advisor.

United States

The Notes, the Subsidiary Guarantees and the JV Subsidiary Guarantees (if any) have not been and will not be registered under the U.S. Securities Act, and may not be offered or sold in the United States. The Notes, the Subsidiary Guarantees are being offered and sold outside of the United States in reliance on Regulation S.

In addition, until 40 days following the commencement of this offering, an offer or sale of Notes within the United States by a dealer (whether or not participating in the offering) may violate the registration requirements of the U.S. Securities Act unless the dealer makes the offer or sell in compliance with an exemption from registration under the U.S. Securities Act.

Prohibition of Sales to the European Economic Area and the United Kingdom Retail Investors

The Notes may not be offered, sold or otherwise made available to any retail investor in the European Economic Area or in the United Kingdom. For the purposes of this provision, the expression “retail investor” means a person who is one (or more) of:

- (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, “MiFID II”); or
- (ii) a customer within the meaning of Directive (EU) 2016/97 (the “Insurance Distribution Directive”), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II.

United Kingdom

Any invitation or inducement to engage in investment activity (within the meaning of Section 21 of the FSMA) in connection with the issue or sale of the Notes may only be communicated or caused to be communicated in circumstances in which Section 21(1) of the FSMA does not apply to the Company or the Subsidiary Guarantors.

All applicable provisions of the FSMA must be complied with in respect to anything done by any person in relation to the Notes in, from or otherwise involving the United Kingdom.

British Virgin Islands

No invitation will be made directly or indirectly to any person resident in the British Virgin Islands to subscribe for any of the Notes but the Notes may be acquired by British Virgin Islands persons who receive the offer outside the British Virgin Islands and in a manner which does not contravene the laws of the jurisdictions in which such offer is received.

Cayman Islands

No Notes will be offered or sold to the public in the Cayman Islands.

Hong Kong

The Notes may not be offered or sold in Hong Kong by means of any document other than (i) in circumstances which do not constitute an offer to the public within the meaning of the Companies (Winding Up and Miscellaneous Provisions) Ordinance (Cap. 32, Laws of Hong Kong), or (ii) to “professional investors” within the meaning of the SFO (Cap. 571, Laws of Hong Kong) and any rules made thereunder, or (iii) in other circumstances which do not result in the document being a “prospectus” within the meaning of the Companies (Winding Up and Miscellaneous Provisions) Ordinance (Cap. 32, Laws of Hong Kong) and no advertisement, invitation or document relating to the Notes may be issued or may be in the possession of any person for the purpose of issue (in each case whether in Hong Kong or elsewhere), which is directed at, or the contents of which are likely to be accessed or read by, the public in Hong Kong (except if permitted to do so under the laws of Hong Kong) other than with respect to the Notes which are or are intended to be disposed of only to persons outside Hong Kong or only to “professional investors” within the meaning of the SFO and any rules made thereunder.

Japan

The Notes have not been and will not be registered under the Financial Instruments and Exchange Law of Japan (Law No. 25 of 1948) (as amended) (the “FIEL”), and disclosure under the FIEL has not been made with respect to the Notes. Accordingly, the Notes may not be offered or sold, directly or indirectly, in Japan or to, or for the account of, any resident of Japan, or to others for re-offering or re-sale, directly or indirectly in Japan or to, or for the benefit of, any resident of Japan, except pursuant to any exemption from the registration requirements of the FIEL and otherwise in compliance with the FIEL and other applicable provisions of Japanese laws and regulations. As used in this paragraph, “resident of Japan” means any person residing in Japan, including any corporation or other entity organized under the laws of Japan.

Singapore

This offering memorandum has not been and will not be registered as a prospectus with the Monetary Authority of Singapore under the Securities and Futures Act, Chapter 289 of Singapore (the “SFA”). Accordingly, this offering memorandum and any other document or material in connection with the offer or sale, or invitation for subscription or purchase, of the Notes may not be circulated or distributed, nor may the Notes be offered or sold, or be made the subject of an invitation for subscription or purchase, whether directly or indirectly, to any person in Singapore other than (i) to an institutional investor under Section 274 of the SFA, (ii) to a relevant person pursuant to Section 275(1) of the SFA, or any person pursuant to Section 275(1A) of the SFA, and in accordance with the conditions specified in Section 275 of the SFA and (where applicable) Regulation 3 of the Securities and Futures (Classes of Investors) Regulations 2018 of Singapore, or (iii) otherwise pursuant to, and in accordance with the conditions of, any other applicable provision of the SFA.

Where the Notes are initially subscribed or purchased by (i) an institutional investor under Section 274 of the SFA, or (ii) a relevant person pursuant to Section 275(1) of the SFA, or any person pursuant to Section 275(1A) of the SFA, and in accordance with the conditions specified in

Section 275 of the SFA and (where applicable) Regulation 3 of the Securities and Futures (Classes of Investors) Regulations 2018 of Singapore, the Notes may only be sold or transferred: (a) at any time, to an institutional investor under Section 274 of the SFA; (b) at any time, to a relevant person defined in Section 275(2) of the SFA or to any person pursuant to an offer referred to in Section 275(1A) of the SFA; or (c) otherwise pursuant to, and in accordance with the conditions of, any other applicable provision of the SFA.

Where the Notes are subscribed or purchased under Section 275 of the SFA by a relevant person which is:

- (a) a corporation (which is not an accredited investor (as defined in Section 4A of the SFA)) the sole business of which is to hold investments and the entire share capital of which is owned by one or more individuals, each of whom is an accredited investor; or
- (b) a trust (where the trustee is not an accredited investor) whose sole purpose is to hold investments and each beneficiary of the trust is an individual who is an accredited investor,

securities or securities-based derivatives contracts (each term as defined in the SFA) of that corporation or the beneficiaries' rights and interest (howsoever described) in that trust shall not be transferred within six months after that corporation or that trust has acquired the Notes pursuant to an offer made under Section 275 of the SFA except:

- (1) to an institutional investor or to a relevant person defined in Section 275(2) of the SFA or to any person arising from an offer referred to in Section 275(1A) or Section 276(4)(i)(B) of the SFA;
- (2) where no consideration is or will be given for the transfer;
- (3) where the transfer is by operation of law;
- (4) as specified in Section 276(7) of the SFA; or
- (5) as specified in Regulation 37A of the Securities and Futures (Offers of Investments) (Securities and Securities-based Derivatives Contracts) Regulations 2018 of Singapore.

Notification under Section 309B(1)(c) of the Securities and Futures Act, Chapter 289 of Singapore (the "SFA") — the Company has determined, and hereby notifies all relevant persons (as defined in Section 309A(1) of the SFA), that the Notes are prescribed capital markets products (as defined in the Securities and Futures (Capital Markets Products) Regulations 2018 of Singapore) and Excluded Investment Products (as defined in MAS Notice SFA 04-N12: Notice on the Sale of Investment Products and MAS Notice FAA-N16: Notice on Recommendations on Investment Products).

The PRC

This Offering Memorandum does not constitute a public offer of the Notes, whether by way of sale or subscription, in the PRC. Other than to qualified domestic institutional investors in the PRC, the Notes are not being offered and may not be offered or sold, directly or indirectly, in the PRC to or for the benefit of, legal or natural persons of the PRC. According to the laws and regulatory requirements of the PRC, with the exception of qualified domestic institutional investors in the PRC, the Notes may, subject to the laws and regulations of the relevant jurisdictions, only be offered or sold to non-PRC natural or legal persons in any country other than the PRC.

Switzerland

This offer memorandum is not intended to constitute an offer or solicitation to purchase or invest in the Notes described herein. The Notes may not be publicly offered, sold or advertised, directly or indirectly, in, into or from Switzerland and will not be listed on the SIX Swiss Exchange or on any other exchange or regulated trading facility in Switzerland. Neither this document nor any other offering or marketing material relating to the Notes constitutes a prospectus as such term is understood pursuant to article 652a or article 1156 of the Swiss Code of Obligations, and neither this document nor any other offering or marketing material relating to Notes may be publicly distributed or otherwise made publicly available in Switzerland.

TRANSFER RESTRICTIONS

Because of the following restrictions, prospective investors are encouraged to consult their legal counsel prior to making any offer, resale, pledge or other transfer of the Notes.

Each purchaser of the Notes will be deemed to:

- represent that it is purchasing the Notes in an offshore transaction in accordance with Regulation S under the U.S. Securities Act;
- acknowledge that the Notes and the Subsidiary Guarantees in respect thereof have not been and will not be registered under the U.S. Securities Act and may not be offered or sold within the United States except pursuant to an exemption from registration under the U.S. Securities Act;
- acknowledge that the Notes will be represented by the Global Note, and that transfers thereof are subject to and will only be effected through the records maintained by the Euroclear and Clearstream; and
- acknowledge that the Company and the Initial Purchasers and others will rely upon the truth and accuracy of the foregoing acknowledgements, representations and agreements, and agree that if any of the acknowledgements, representations or agreements deemed to have been made by its purchase of the Notes are no longer accurate, it shall promptly notify us and the Initial Purchasers. If it is acquiring any Notes as a fiduciary or agent for one or more investor accounts, it represents that it has sole investment discretion with respect to each such account and it has full power to make the foregoing acknowledgements, representations and agreements on behalf of each such account.

RATINGS

We have been assigned a long-term corporate rating of “B” with a stable outlook by S&P, “B1” with a stable outlook by Moody’s and “B” with a stable outlook by Fitch. The ratings do not constitute recommendations to purchase, hold or sell the Notes inasmuch as such ratings do not comment as to market price or suitability for a particular investor. We cannot assure you that the ratings will remain in effect for any given period or that the ratings will not be revised by such rating agencies in the future if in their judgment circumstances so warrant. Each such rating should be evaluated independently of any other rating on other of our securities, or on us.

LEGAL MATTERS

Certain legal matters with respect to the offering and the Notes will be passed upon for us by Sidley Austin as to matters of United States federal and New York law and Hong Kong law, Harneys as to matters of Cayman Islands law and British Virgin Islands law and Commerce & Finance Law Offices as to matters of PRC law. Certain legal matters will be passed upon for the Initial Purchasers by Linklaters as to matters of United States federal and New York law and Jia Yuan Law Office as to matters of PRC law.

INDEPENDENT AUDITOR

Our audited consolidated financial statements as of and for the years ended December 31, 2017, 2018 and 2019 reproduced in this offering memorandum have been audited by Grant Thornton Hong Kong Limited, as stated in the reports therein and in our annual reports for the years ended December 31, 2018 and 2019, respectively.

GENERAL INFORMATION

Consents

We have obtained all necessary consents, approvals and authorizations in the Cayman Islands, the British Virgin Islands and Hong Kong in connection with the offering and the issue and performance of the Notes and the Subsidiary Guarantees. The entering into of the Indentures and the issue of the Notes have been authorized by a resolution of our Board of Directors dated June 3, 2020.

Litigation

Except as disclosed in this offering memorandum, there are no legal or arbitration proceedings against or affecting us, any of our subsidiaries or any of our assets, nor are we aware of any pending or threatened proceedings, which are or might be material in the context of the offering and this issue of the Notes or the Subsidiary Guarantees.

No Material Adverse Change

There has been no adverse change, or any development reasonably likely to involve an adverse change, in the condition (financial or otherwise) of our general affairs since December 31, 2019 that is material in the context of the offering and the issue of the Notes or the Subsidiary Guarantees.

Documents Available

For so long as any of the Notes is outstanding, copies of the Indentures may be inspected free of charge during normal business hours on any weekday (except public holidays) at the corporate trust office of the Trustee.

For so long as any of the Notes is outstanding, copies of the independent auditor's reports and/or our published financial statements, if any, including the independent auditor's report set out in the section entitled "Index to Financial Statements," may be obtained during normal business hours on any weekday (except public holidays) at the corporate trust office of the Trustee.

Listing of the Notes

Application will be made to the SGX-ST for the listing and quotation of the Notes on the SGX-ST. For so long as the Notes are listed on the SGX-ST and the rules of the SGX-ST so require, the Notes, if traded on the SGX-ST, will be traded in a minimum board lot size of S\$200,000 (or its equivalent in foreign currencies). Accordingly, the Notes, if traded on the SGX-ST, will be traded in a minimum board lot size of US\$200,000. The SGX-ST assumes no responsibility for the correctness of any of the statements made, opinions expressed or reports contained in this offering memorandum. Approval in-principle from, admission to the Official List of, and listing and quotation of the Notes on, the SGX-ST are not to be taken as an indication of the merits of the offering, the Company, the Notes, the Subsidiary Guarantees, the Subsidiary Guarantors or their respective subsidiaries or associated companies (if any).

For so long as the Notes are listed on the SGX-ST and the rules of the SGX-ST so require, in the event that a Global Note is exchanged for individual definitive Notes, we will appoint and maintain a paying agent in Singapore, where the Notes may be presented or surrendered for payment or redemption. In addition, in the event that a Global Note is exchanged for individual definitive Notes, an announcement of such exchange will be made by or on behalf of us through the SGX-ST and such announcement will include all material information with respect to the delivery of the individual definitive Notes, including details of the paying agent in Singapore.

OPINION

We have audited the consolidated financial statements of Kaisa Group Holdings Ltd. (the "Company") and its subsidiaries (the "Group") set out on pages 137 to 304, which comprise the consolidated statement of financial position as at 31 December 2019, and the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2019, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSAAs") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the HKICPA's Code of Ethics for Professional Accountants (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

INDEPENDENT AUDITOR'S REPORT

KEY AUDIT MATTERS (Continued)

Key Audit Matter	How our audit addressed the Key Audit Matter
<p>Valuation of properties under development and completed properties held for sale</p> <p>Refer to note 5 of critical accounting estimates and judgements, note 22 of properties under development and note 23 of completed properties held for sale to the consolidated financial statements.</p> <p>As at 31 December 2019, the Group had properties under development and completed properties held for sale ("properties") amounting to RMB63,674,746,000 and RMB13,003,874,000, respectively, which in total represented approximately 28.30% of the total assets of the Group. Given the significant balance of properties under development and completed properties held for sale and the involvement of critical accounting estimates, the impairment assessment of these properties is considered a key audit matter.</p> <p>These properties are carried at the lower of cost and net realisable value. Significant management judgement is required in determining the estimated net realisable values of these properties with reference to the latest selling prices of the properties and the budgeted costs to be incurred until completion and sale.</p> <p>Based on management's analysis of the net realisable value of the properties, write-down of approximately RMB367,737,000 were charged to profit or loss for the year ended 31 December 2019.</p>	<p>We understood and evaluated the management's procedures on identifying properties for which the net realisable values may be lower than their carrying amounts, including the methodologies and inputs used in the estimation of the net realisable values.</p> <p>Our procedures in relation to assessing the appropriateness of the valuation of these properties included:</p> <ul style="list-style-type: none"> (i) testing the calculation for the impairment assessment performed by management; (ii) assessing future costs to be incurred to completion on a sample basis; (iii) comparing the carrying amounts of the properties taking into account the estimated amounts to completion with the related net realisable value with regard to properties under development; and (iv) testing management's key estimates on a sample basis for selling price which is estimated based on prevailing market conditions. We compared the estimated selling price to the recent market transactions by reference to the Group's selling prices of pre-sale units in the same project or the prevailing market price of the comparable properties with similar type, size and location.
<p>Valuation of investment properties</p> <p>Refer to note 5 of critical accounting estimates and judgements, note 2.8 of accounting policy of investment properties and note 17 of investment properties to the consolidated financial statements.</p> <p>As at 31 December 2019, the Group had investment properties amounting to RMB35,309,000,000 which in total represented approximately 13.03% of the total assets of the Group.</p> <p>The estimate of the fair value of the Group's investment properties requires significant management judgement taking into account the conditions and locations of the properties as well as the latest market transactions. To support management's determination of the fair value, the Group has engaged an external valuer to perform valuations on the investment properties at the reporting date. Different valuation techniques were applied to different types of investment properties.</p>	<p>We evaluated the independence, competence and relevant experience of the external valuer engaged by the Company.</p> <p>We also assessed the scope of the valuations, critical judgements and data used in the valuations and evaluated the methodology and assumptions used.</p> <p>In addition, we evaluated the source data used in the valuations by benchmarking them to relevant market information.</p>

<p>Valuation of interests in associates and joint ventures</p> <p>Refer to note 5 of critical accounting estimates and judgements, note 19(a) of investments in associates and note 19(b) of investments in joint ventures to the consolidated financial statements.</p> <p>We identified the valuation of investments in associates and joint ventures as a key audit matter due to the significance of the Group's interests in associates and joint ventures in the context of the Group's consolidated financial statements, combined with the judgements involved in management's impairment assessment of the investments in associates and joint ventures, in particular, the future prospects of each associate and joint venture.</p> <p>As at 31 December 2019, the carrying amounts of investments in associates and joint ventures amounting to RMB11,918,789,000 and RMB14,092,325,000, respectively.</p> <p>As disclosed in notes 2.3 and 2.4 to the consolidated financial statements, investments in associates and joint ventures are carried in the consolidated statement of financial position at cost and adjusted for post-acquisition changes in the Group's share of the net assets of the associates and joint ventures, less accumulated impairment in the values of individual investments. As such, the Group is required to assess at each reporting date whether there is any indication that the carrying amounts of interests in associates and joint ventures may be impaired. For those associates and joint ventures in which such indication exists, the Group assessed the carrying amounts for impairment. As disclosed in notes 19(a) and 19(b) to the consolidated financial statements, no impairment of interests in associates and joint ventures was considered to be necessary as at 31 December 2019.</p>	<p>Our procedures in relation to the valuation of investments in associates and joint ventures included:</p> <ul style="list-style-type: none"> • assessing the appropriateness of management's accounting for investments in associates and joint ventures; • understanding the management's process for identifying the existence of impairment indicators in respect of the interests in associates and joint ventures and evaluating the effectiveness of such process; • where indicators of impairment have been identified, assessing the reasonableness of the recoverable amount of each of the relevant associates and joint ventures and obtaining an understanding from management of their financial position and future development plan; and • assessing the reasonableness of key inputs and assumptions used by management in their estimation of recoverable amounts, including projections of cash flows, growth rates and discount rates applied; and comparing cash flow projections to supporting evidence, such as budgets, and evaluating the reasonableness of these budgets with reference to the future prospects of the associates and joint ventures as well as our knowledge of the industry and business.

OTHER INFORMATION

The directors are responsible for the other information. The other information comprises all the information included in the 2019 annual report of the Company, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF THE DIRECTORS FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The directors are assisted by the Audit Committee are responsible for overseeing the Group's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

INDEPENDENT AUDITOR'S REPORT

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS *(Continued)*

As part of an audit in accordance with HKSAAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

INDEPENDENT AUDITOR'S REPORT

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS *(Continued)*

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence and, where applicable, related safeguards.

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2019

1. GENERAL INFORMATION

Kaisa Group Holdings Ltd. (the "Company") was incorporated in the Cayman Islands on 2 August 2007 as an exempted company with limited liability under the Companies Law, Cap. 22 (2009 Revision as consolidated and revised from time to time) of the Cayman Islands.

The address of the registered office and principal place of business of the Company are disclosed in the "Corporate Information" section to the annual report.

The Company is engaged in investment holding and its subsidiaries (collectively, the "Group") are principally engaged in property development, property investment, property management, hotel and catering operations, cinema, department store and cultural centre operations, water-way passenger and cargo transportation in the People's Republic of China (the "PRC").

The Company's shares are listed on the Main Board of The Stock Exchange of Hong Kong Limited (the "Stock Exchange").

These consolidated financial statements are presented in Renminbi ("RMB"), which is also the currency of the primary economic environment in which most of the group entities operate (the functional currency of the Company and most of the entities comprising the Group), and all values are rounded to the nearest thousand ('000) unless otherwise stated. These consolidated financial statements have been approved for issue by the Board of Directors of the Company on 31 March 2020.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

2.1 Basis of preparation

These annual consolidated financial statements have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs"), which collective term includes all applicable individual Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards and Interpretations issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and accounting principles generally accepted in Hong Kong.

The consolidated financial statements also comply with the applicable requirements of the Hong Kong Companies Ordinance and include the applicable disclosure requirements of the Rules Governing the Listing of Securities on the Stock Exchange (the "Listing Rules").

The significant accounting policies that have been used in the preparation of these consolidated financial statements are summarised below. These policies have been consistently applied to all the years presented unless otherwise stated. The adoption of new or amended HKFRSs and the impacts on the Group's financial statements, if any, are disclosed in note 3. The consolidated financial statements have been prepared under historical cost convention, except for financial assets at fair value through profit or loss ("FVTPL"), investment properties and financial derivatives which have been measured at fair values.

It should be noted that accounting estimates and assumptions are used in preparation of the consolidated financial statements. Although these estimates are based on management's best knowledge and judgement of current events and actions, actual results may ultimately differ from those estimates. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in note 5.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.2 Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and its subsidiaries made up to 31 December each year.

Subsidiaries are entities controlled by the Group. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. When assessing whether the Group has power over the entity, only substantive rights relating to the entity (held by the Group and others) are considered.

The Group includes the income and expenses of a subsidiary in the consolidated financial statements from the date it gains control until the date when the Group ceases to control the subsidiary.

Intra-group transactions, balances and unrealised gains and losses on transactions between group companies are eliminated in preparing the consolidated financial statements. Where unrealised losses on sales of intra-group asset are reversed on consolidation, the underlying asset is also tested for impairment from the Group's perspective. Amounts reported in the financial statements of subsidiaries have been adjusted where necessary to ensure consistency with the accounting policies adopted by the Group.

Non-controlling interests represent the equity on a subsidiary not attributable directly or indirectly to the Company, and in respect of which the Group has not agreed any additional terms with the holders of those interests which would result in the Group as a whole having a contractual obligation in respect of those interests that meets the definition of a financial liability. For each business combination, the Group can elect to measure any non-controlling interests either at fair value or at their proportionate share of the subsidiary's net identifiable assets.

Non-controlling interests are presented in the consolidated statement of financial position within equity, separately from the equity attributable to the owners of the Company. Non-controlling interests in the results of the Group are presented on the face of the consolidated statement of profit or loss and other comprehensive income as an allocation of the total profit or loss and total comprehensive income for the year between non-controlling interests and the owners of the Company.

Changes in the Group's interests in subsidiaries that do not result in a loss of control are accounted for as equity transactions, whereby adjustments are made to the amounts of controlling interests within consolidated equity to reflect the change in relative interests, but no adjustments are made to goodwill and no gain or loss is recognised.

When the Group loses control of a subsidiary, the profit or loss on disposal is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the previous carrying amount of the assets (including goodwill), and liabilities of the subsidiary and any non-controlling interests. Where certain assets of the subsidiary are measured at revalued amounts or fair values and the related cumulative gain or loss has been recognised in other comprehensive income and accumulated in equity, the amounts previously recognised in other comprehensive income and accumulated in equity are accounted for as if the Company had directly disposed of the related assets (i.e., reclassified to profit or loss or transferred directly to retained profits). The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under HKFRS 9 "Financial Instruments" or, when applicable, the cost on initial recognition of an investment in an associate or a joint venture.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.2 Basis of consolidation (Continued)

(i) Business combinations

The Group applies the acquisition method to account for business combinations. The consideration transferred for the acquisition of a subsidiary comprises the fair values of the assets transferred, the liabilities incurred to the former owners of the acquired business and the equity interests issued by the Group in exchange for control of the acquiree. The consideration transferred includes the fair value of any asset or liability resulting from a contingent consideration arrangement. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date.

The Group recognises any non-controlling interest in the acquiree on an acquisition-by-acquisition basis. Non-controlling interests in the acquiree that are present ownership interests and entitle their holders to a proportionate share of the entity's net assets in the event of liquidation are measured at either fair value or the present ownership interests' proportionate share in the recognised amounts of the acquiree's identifiable net assets. All other components of non-controlling interests are measured at their acquisition date fair value, unless another measurement basis is required by HKFRSs.

Acquisition-related costs are expensed as incurred.

If the business combination is achieved in stages, the acquisition date carrying value of the acquirer's previously held equity interest in the acquiree is re-measured to fair value at the acquisition date; any gains or losses arising from such re-measurement are recognised in profit or loss.

Any contingent consideration to be transferred by the Group is recognised at fair value at the acquisition date. Subsequent changes to the fair value of the contingent consideration that is deemed to be an asset or liability is recognised in accordance with HKFRS 9 in profit or loss. Contingent consideration that is classified as equity is not remeasured, and its subsequent settlement is accounted for within equity.

The excess of the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisition-date fair value of any previous equity interest in the acquiree over the fair value of the net identifiable assets acquired is recorded as goodwill. If the total consideration transferred, non-controlling interest recognised and previously held interest measured is less than the fair value of the net identifiable assets of the business acquired, the difference is recognised directly in profit or loss as a bargain purchase.

(ii) Changes in ownership interests in subsidiaries without change of control

Transactions with non-controlling interests that do not result in loss of control are accounted for as equity transactions – that is, as transactions with the owners of the subsidiary in their capacity as owners. The difference between fair value of any consideration paid and the relevant share of the subsidiary's carrying value of net assets is recorded in equity. Gains or losses on disposals of non-controlling interests are also recorded in equity.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.2 Basis of consolidation (Continued)

(iii) Disposal of subsidiaries

When the Group ceases to have control, any retained interest in the entity is re-measured to its fair value at the date when control is lost, with the change in carrying amount recognised in profit or loss. The fair value is the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognised in other comprehensive income in respect of that entity are accounted for as if the Group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognised in other comprehensive income are reclassified to profit or loss.

(iv) Separate financial statements

In the Company's statement of financial position the investments in subsidiaries are accounted for at cost less impairment. Cost includes direct attributable costs of investment. The results of subsidiaries are accounted for by the Company on the basis of dividend received and receivable.

Impairment testing of the investments in subsidiaries is required upon receiving a dividend from these investments if the dividend exceeds the total comprehensive income of the subsidiary in the period the dividend is declared or if the carrying amount of the investment in the separate financial statements exceeds the carrying amount in the consolidated financial statements of the investee's net assets including goodwill.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.3 Associates

An associate is an entity over which the Group has significant influence but not control, generally accompanying a shareholding of between 20% and 50% of the voting rights. Investments in associates are accounted for using the equity method of accounting. Under the equity method, the investment is initially recognised at cost, and the carrying amount is increased or decreased to recognise the investor's share of the profit or loss of the investee after the date of acquisition. The Group's investments in associates include goodwill identified on acquisition. Upon the acquisition of the ownership interest in an associate, any difference between the cost of the associate and the Group's share of the net fair value of the associate's identifiable assets and liabilities is accounted for as goodwill.

If the ownership interest in an associate is reduced but significant influence is retained, only a proportionate share of the amounts previously recognised in other comprehensive income is reclassified to profit or loss where appropriate.

The Group's share of post-acquisition profit or loss is recognised in profit or loss, and its share of post-acquisition movements in other comprehensive income is recognised in other comprehensive income with a corresponding adjustment to the carrying amount of the investment. When the Group's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Group does not recognise further losses, unless it has incurred legal or constructive obligations or made payments on behalf of the associate.

The Group determines at each reporting date whether there is any objective evidence that the investment in the associate is impaired. If this is the case, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value and recognises the amount adjacent to "share of results of associates" in profit or loss.

Profits and losses resulting from upstream and downstream transactions between the Group and its associates are recognised in the Group's financial statements only to the extent of unrelated investor's interests in the associates. Unrealised losses are eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of associates have been changed where necessary to ensure consistency with the policies adopted by the Group.

Gains or losses on dilution of equity interest in associates are recognised in profit or loss.

2.4 Joint ventures

The Group applied HKFRS 11 to all joint arrangements. Under HKFRS 11, investments in joint arrangements are classified as either joint operations or joint ventures depending on the contractual rights and obligations of each investor. The Group has assessed the nature of its joint arrangements and determined them to be joint ventures. Joint ventures are accounted for using the equity method.

Under the equity method of accounting, interests in joint ventures are initially recognised at cost and adjusted thereafter to recognise the Group's share of the post-acquisition profits or losses and movements in other comprehensive income. The Group's investments in joint ventures include goodwill identified on acquisition. Upon the acquisition of the ownership interest in a joint venture, any difference between the cost of the joint venture and the Group's share of the net fair value of the joint venture's identifiable assets and liabilities is accounted for as goodwill. When the Group's share of losses in a joint venture equals or exceeds its interests in the joint ventures (which includes any long-term interests that, in substance, form part of the Group's net investment in the joint ventures), the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the joint ventures.

Unrealised gains on transactions between the Group and its joint ventures are eliminated to the extent of the Group's interest in the joint ventures. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of the joint ventures have been changed where necessary to ensure consistency with the policies adopted by the Group.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.5 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker ("CODM"). The CODM, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the executive directors of the Company that makes strategic decisions.

2.6 Foreign currency translation

(i) Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The consolidated financial statements are presented in Renminbi ("RMB"), which is the functional and presentation currency of the Company.

(ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are re-measured. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies rates are recognised in profit or loss.

Foreign exchange gains and losses that relate to borrowings and cash and cash equivalents are presented in profit or loss within 'finance costs, net'. All other foreign exchange gains and losses are presented in profit or loss on a net basis within "other gains and (losses), net".

(iii) Group companies

The results and financial positions of all the group entities (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- assets and liabilities for each statement of financial position presented are translated at the closing rate at the reporting date;
- income and expenses for each statement of profit or loss and other comprehensive income are translated at average exchange rates (unless this is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the rates of the dates of the transactions); and
- all resulting exchange differences are recognised in other comprehensive income.

On consolidation, exchange differences arising from the translation of any net investment in foreign entities are taken into equity owners' equity. When a foreign operation is partially disposed of or sold, exchange differences that were recorded in equity are recognised in profit or loss as part of the gain or loss on sale.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.7 Property, plant and equipment

Property, plant and equipment are stated at historical cost less depreciation and any impairment loss. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance costs are recognised in profit or loss during the financial period in which they are incurred.

Depreciation on property, plant and equipment is calculated using the straight-line method to allocate their cost to their residual values over their estimated useful lives, as follows:

Hotel properties	20-25 years
Land and buildings	20-40 years
Machinery	5 years
Motor vehicles	5-10 years
Furniture, fitting and equipment	3-8 years
Vessels	10 years

The assets' residual values and useful lives are reviewed and adjusted if appropriate, at each reporting date.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount (note 2.11).

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognised within "other gains and (losses), net" in profit or loss.

2.8 Investment properties

Property that is held for long-term rental yields or for capital appreciation or both, and that is not occupied by the Group, is classified as investment property. Properties and land use right that are currently being constructed or developed for future use as investment property is classified as investment property.

Effective from 1 January 2019, investment properties also include leased properties which are being recognised as right-of-use assets upon application of HKFRS 16 and subleased by the Group under operating leases.

Investment property is measured initially at its cost, including related transaction costs.

After initial recognition, investment property is carried at fair value. Where fair value of investment property under construction is not reliably measurable, the property is measured at cost until the earlier of the date construction is completed or the date at which fair value becomes reliably measurable. Fair value is based on active market prices, adjusted, if necessary, for any difference in the nature, location or condition of the specific asset. If this information is not available, the Group uses alternative valuation methods such as recent prices on less active markets or discounted cash flow projections.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.8 Investment properties (Continued)

Subsequent expenditure is charged to the asset's carrying amount only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed in profit or loss during the financial period in which they are incurred.

Changes in fair values of investment property are recognised in profit or loss.

If an investment property becomes owner-occupied or commence to be further developed for sale, it is reclassified as property, plant and equipment and land use right or properties under development, and its fair value at the date of change in use becomes its cost for accounting purposes.

If an item of property, plant and equipment becomes an investment property because its use has changed, any difference resulting between the carrying amount and the fair value of this item at the date of transfer is recognised in equity as a revaluation of property, plant and equipment under HKAS 16. However, if a fair value gain reverses a previous impairment loss, the gain is recognised in profit or loss to the extent the impairment provision previous made.

2.9 Land use rights

The Group makes upfront payments to obtain operating leases of land use rights (which meet the definition of right-of-use assets upon initial application of HKFRS 16). The upfront payments of the land use rights are recorded as assets. The amortisation (before the application of HKFRS 16)/depreciation (upon the application of HKFRS 16) of land use rights is recognised as an expense on a straight-line basis over the unexpired period of the land use rights.

2.10 Intangible assets and goodwill

(i) Contracts with sports players

Separately acquired contracts with sports players are shown at historical cost. Costs of contracts with sports players are initially recognised at fair value at the acquisition date. They have a finite useful life and are subsequently carried at cost less accumulated amortisation and impairment losses. Amortisation is calculated using the straight-line method ranged from one to five years (2018: one to four years).

(ii) Trademarks and patent, customer relationship, technology, distribution network and other intangible assets

Trademarks and patent, customer relationship, technology, distribution network and other intangible assets acquired in a business combination are recognised at fair value at the acquisition date. They have a finite useful life and are carried at cost less accumulated amortisation. Amortisation is calculated using the straight-line method ranged from five to eleven years over the expected life of these intangible assets.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.10 Intangible assets and goodwill (Continued)

(iii) Goodwill

Goodwill arising in a business combination is recognised as an asset at the date that control is acquired (i.e. the acquisition date). Goodwill is measured as the excess of the aggregate of the fair value of the consideration transferred, the amount of any non – controlling interests in the acquiree, and the fair value of the acquirer’s previously held equity interest in the acquiree (if any) over the Group’s interest in the net fair value of the acquiree’s identifiable assets and liabilities measured as at the acquisition date.

If, after reassessment, the Group’s interest in the fair value of the acquiree’s identifiable net assets exceeds the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the acquirer’s previously held equity interest in the acquiree (if any), the excess is recognised immediately in profit or loss as a bargain purchase gain.

Goodwill is stated at cost less accumulated impairment losses. Goodwill is allocated to cash-generating units and is tested annually for impairment (see note 2.11).

On subsequent disposal of a subsidiary, the attributable amount of goodwill capitalised is included in the determination of the amount of gain or loss on disposal.

2.11 Impairment of non-financial assets (other than contract assets)

The following assets are subject to impairment testing:

- goodwill arising on acquisition of a subsidiary;
- other intangible assets;
- property, plant and equipment;
- Right-of-use assets;
- land use rights;
- investment properties; and
- the Company’s interests in subsidiaries, associates and joint ventures

Goodwill and other intangible assets with indefinite useful life or those not yet available for use are tested for impairment at least annually, irrespective of whether there is any indication that they are impaired. All other assets are tested for impairment whenever there are indications that the asset’s carrying amount may not be recoverable.

An impairment loss is recognised as an expense immediately for the amount by which the asset’s carrying amount exceeds its recoverable amount. Recoverable amount is the higher of fair value, reflecting market conditions less costs of disposal, and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessment of time value of money and the risk specific to the asset.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.11 Impairment of non-financial assets (other than contract assets) (Continued)

For the purposes of assessing impairment, where an asset does not generate cash inflows largely independent from those from other assets, the recoverable amount is determined for the smallest group of assets that generate cash inflows independently (i.e. a cash-generating unit). As a result, some assets are tested individually for impairment and some are tested at cash-generating unit level. Corporate assets are allocated to individual cash-generating units, when a reasonable and consistent basis of allocation can be identified, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified. Goodwill in particular is allocated to those cash-generating units that are expected to benefit from synergies of the related business combination and represent the lowest level within the Group at which the goodwill is monitored for internal management purpose and not be larger than an operating segment.

Impairment losses recognised for cash-generating units, to which goodwill has been allocated, are credited initially to the carrying amount of goodwill. Any remaining impairment loss is charged pro rata to the other assets in the cash generating unit, except that the carrying value of an asset will not be reduced below its individual fair value less cost of disposal, or value in use, if determinable.

An impairment loss on goodwill is not reversed in subsequent periods. In respect of other assets, an impairment loss is reversed if there has been a favourable change in the estimates used to determine the asset's recoverable amount and only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

2.12 Financial instruments

Recognition and derecognition

Financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions of the financial instrument.

Financial assets are derecognised when the contractual rights to the cash flows from the financial asset expire, or when the financial asset and substantially all of its risks and rewards are transferred. A financial liability is derecognised when it is extinguished, discharged, cancelled or expires.

2.12 Financial instruments (Continued)

Financial assets

Classification and initial measurement of financial assets

Except for those trade debtors that do not contain a significant financing component and are measured at the transaction price in accordance with HKFRS 15, all financial assets are initially measured at fair value, in case of a financial asset not at FVTPL, plus transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at FVTPL are expensed in the consolidated statement of profit or loss and other comprehensive income.

Financial assets are classified into the following categories:

- amortised cost;
- FVTPL; or
- fair value through other comprehensive income (“FVOCI”)

The classification is determined by both:

- the entity’s business model for managing the financial asset; and
- the contractual cash flow characteristics of the financial asset.

All income and expenses relating to financial assets that are recognised in profit or loss are presented within “finance costs, net” or “other gains and (losses), net.”

Subsequent measurement of financial assets

Debt investments

Financial assets at amortised cost

Financial assets are measured at amortised cost if the assets meet the following conditions (and are not designated as FVTPL):

- they are held within a business model whose objective is to hold the financial assets and collect its contractual cash flows; and
- the contractual terms of the financial assets give rise to cash flows that are solely payments of principal and interest on the principal amount outstanding.

2.12 Financial instruments (Continued)

Financial assets (Continued)

Subsequent measurement of financial assets (Continued)

Debt investments (Continued)

Financial assets at amortised cost (Continued)

After initial recognition, these are measured at amortised cost using the effective interest method. Discounting is omitted where the effect of discounting is immaterial. Interest income from these financial assets is included in finance income in profit or loss. The Group's debtors, deposits and other receivables, restricted cash, short-term bank deposits, long-term bank deposits and cash and bank balances fall into this category of financial instruments.

Financial assets at FVTPL

Assets that do not meet the criteria for amortised cost or financial assets at FVOCI are categorised and measured at FVTPL. A gain or loss on a debt investment that is subsequently measured at FVTPL and is not part of a hedging relationship is recognised in profit or loss and presented net in the consolidated statement of profit or loss and other comprehensive income within "other gains and (losses), net" in the period in which it arises. Interest income from these financial assets is included in the "finance costs, net" in profit or loss.

Equity investments

Investments in equity instruments are classified as FVTPL unless these equity instruments are not held for trading, this will depend on whether the Group has made an irrevocable election at the time of initial recognition to account for the equity investment at FVOCI.

Dividends from these investments in equity instruments are recognised in profit or loss when the Group's right to receive the dividends is established, unless the dividends clearly represent a recovery of part of the cost of the investment. Dividends are included in the "other gains and (losses), net" in profit or loss.

Financial liabilities

Classification and measurement of financial liabilities

The Group's financial liabilities include accrued construction cost, lease liabilities, borrowings and other payables (excluding deed tax and other tax payables, and deposits received).

Financial liabilities (other than lease liabilities) are initially measured at fair value, and, where applicable, adjusted for transaction costs unless the Group designated a financial liability at FVTPL.

Subsequently, financial liabilities (other than lease liabilities) are measured at amortised cost using the effective interest method except for derivatives designated at FVTPL, which are carried subsequently at fair value with "other gains or (losses), (net)" recognised in profit or loss.

All interest-related charges and, if applicable, changes in an instrument's fair value that are reported in profit or loss are included within "finance costs, net" in profit or loss.

Accounting policies of lease liabilities are set out in note 2.25.

Borrowings

Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in profit or loss over the period of the borrowings using the effective interest method.

Fees paid to the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that part or all of the facility will be drawn down. In this case, the fee is deferred until the draw-down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a pre-payment for liquidity services and amortised over the period of the facility which it relates.

Borrowings are removed from the consolidated statement of financial position when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as finance costs.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least twelve months after the reporting date.

Convertible bonds

The fair value of the liability portion of a convertible bond is determined using a market interest rate for a non-convertible bond with similar terms. This amount is recorded as a liability on an amortised cost basis until conversion or maturity of the bonds. The remainder of the proceeds is allocated to the conversion option. This is recognised and included in shareholders' equity or derivative liability according to the conversion feature embedded. Any directly attributable transaction costs are allocated to the liability and equity or derivative liability component in proportion to their initial carrying amounts. The difference between the proceeds of the issue of the convertible bond and the fair value assigned to the liability component, representing the call option for conversion of the bond into equity, is included in equity as convertible bond equity reserve.

Subsequent to initial recognition, the liability component of a convertible bond is measured at amortised cost using the effective interest method. The equity component of a convertible bond is not re-measured subsequent to initial recognition except on conversion or expiry. The derivative liability component of a convertible bond is measured at fair value with changes in fair value recognised in profit or loss. When the bond is converted, the equity component of convertible bond and the carrying value of the liability component at the time of conversion are transferred to share capital as consideration for the shares issued. If the bond is redeemed, the convertible bond equity reserve is released directly to retained earnings.

2.12 Financial instruments (Continued)

Financial liabilities (Continued)

Classification and measurement of financial liabilities (Continued)

Accrued construction cost and other payables

Accrued construction cost and other payables are recognised initially at their fair value and subsequently measured at amortised cost, using the effective interest method.

Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the consolidated statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the company or the counterparty.

2.13 Impairment of financial assets

HKFRS 9's impairment requirements use more forward-looking information to recognise expected credit losses ("ECL") – the "ECL model". Instruments within the scope included loans and other debt-type financial assets measured at amortised cost and trade debtors recognised and measured under HKFRS 15.

The Group considers a broader range of information when assessing credit risk and measuring ECL, including past events, current conditions, reasonable and supportable forecasts that affect the expected collectability of the future cash flows of the instrument.

In applying this forward-looking approach, a distinction is made between:

- financial instruments that have not deteriorated significantly in credit quality since initial recognition or that have low credit risk ("Stage 1") and
- financial instruments that have deteriorated significantly in credit quality since initial recognition and whose credit risk is not low ("Stage 2").

"Stage 3" would cover financial assets that have objective evidence of impairment at the reporting date.

"12-month ECL" are recognised for the Stage 1 category while "lifetime ECL" are recognised for the Stage 2 category.

Measurement of the ECL is determined by a probability-weighted estimate of credit losses over the expected life of the financial instrument.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.13 Impairment of financial assets (Continued)

Trade debtors

For trade debtors, the Group applies a simplified approach in calculating ECL and recognises a loss allowance based on lifetime ECL at each reporting date. These are the expected shortfalls in contractual cash flows, considering the potential for default at any point during the life of the financial assets. In calculating the ECL, the Group has established a provision matrix that is based on its historical credit loss experience and external indicators, adjusted for forward-looking factors specific to the debtors and the economic environment.

To measure the ECL, trade debtors have been grouped based on shared credit risk characteristics and the days past due.

Other financial assets measured at amortised cost

The Group measures the loss allowance for other receivables equal to 12-month ECL, unless when there has been a significant increase in credit risk since initial recognition, the Group recognises lifetime ECL. The assessment of whether lifetime ECL should be recognised is based on significant increase in the likelihood or risk of default occurring since initial recognition.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECL, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Group's historical experience and informed credit assessment and including forward-looking information.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly:

- an actual or expected significant deterioration in the financial instrument's external (if available) or internal credit rating;
- significant deterioration in external market indicators of credit risk, e.g. a significant increase in the credit spread, the credit default swap prices for the debtor;
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor; and
- an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.13 Impairment of financial assets (Continued)

Other financial assets measured at amortised cost (Continued)

Despite the foregoing, the Group assumes that the credit risk on a debt instrument has not increased significantly since initial recognition if the debt instrument is determined to have low credit risk at the end of each reporting period. A debt instrument is determined to have low credit risk if it has a low risk of default, the borrower has strong capacity to meet its contractual cash flow obligations in the near term and adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfill its contractual cash flow obligations.

Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument.

12-month ECLs are the portion of ECL that results from default events on a financial instrument that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

In all cases, the maximum period considered when estimating ECLs is the maximum contractual period over which the Group is exposed to credit risk.

(i) Measurement of ECLs

ECLs are probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Group expects to receive).

Credit-impaired financial assets

At each reporting date, the Group assesses on a forward looking basis whether financial assets carried at amortised cost are credit – impaired. A financial asset is “credit-impaired” when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- significant of financial difficulty of the borrower or issuer;
- a breach of contract such as a default or past due event;
- the restructuring of a loan or advance by the Group on terms that the Group would not consider otherwise; and
- it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation or the disappearance of an active market for a security because of financial difficulties.

Presentation of allowance for ECL in the consolidated statement of financial position as the loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the relevant assets.

2.13 Impairment of financial assets (Continued)

Other financial assets measured at amortised cost (Continued)

(ii) *Write-offs*

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Group determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Group's procedures for recovery of amounts due.

The Group reclassifies debt investments when and only when its business model for managing those assets changes.

2.14 Inventories

Inventories are stated at the lower of cost and net realisable value. Costs of inventories are calculated using the first-in, first-out method. Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale.

2.15 Properties under development

Except for the leasehold land element which is measured at cost model in accordance with the accounting policies of right-of-use assets upon the application of HKFRS 16, properties under development are stated at the lower of cost and net realisable value. Net realisable value takes into account the price ultimately expected to be realised less applicable variable selling expenses and anticipated cost to completion.

Development cost of properties comprises mainly construction costs, land use rights in relation to properties under development for subsequent sale, borrowing costs on qualifying assets and professional fees incurred during the development period. On completion, the properties are transferred to completed properties held for sale.

Properties under development are classified as current assets unless those will not be realised in the normal operating cycle.

2.16 Completed properties held for sale

Except for the leasehold land element which is measured at cost model in accordance with the accounting policies of right-of-use assets upon the application of HKFRS 16, completed properties remaining unsold at each reporting date are stated at the lower of cost and net realisable value.

Cost comprises development costs attributable to the unsold properties.

Net realisable value is determined by reference to the estimated selling price in the ordinary course of business, less applicable estimated selling expenses to make the sale.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.17 Cash and cash equivalents

Cash and cash equivalents include cash in hand, deposits held by banks, other short-term high liquidity investment with original maturities of three months or less.

Restricted cash, short-term bank deposits and long-term bank deposits are not included in cash and cash equivalents.

2.18 Contract liabilities

A contract liability is recognised when the customer pays consideration before the Group recognises the related revenue (see note 2.24). A contract liability would also be recognised if the Group has an unconditional right to receive consideration before the Group recognises the related revenue. In such cases, a corresponding receivable would also be recognised (see note 2.12).

For a single contract with the customer, either a net contract asset or a net contract liability is presented. For multiple contracts, contract assets and contract liabilities of unrelated contracts are not presented on a net basis.

2.19 Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new share or options are shown in equity as a deduction, net of tax, from the proceeds.

2.20 Borrowing costs

Borrowing costs incurred, net of any investment income earned on the temporary investment of the specific borrowings, for the acquisition, construction or production of any qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use. A qualifying asset is an asset which necessarily takes a substantial period of time to get ready for its intended use or sale. Other borrowing costs are expensed when incurred.

Borrowing costs are capitalised as part of the cost of a qualifying asset when expenditure for the asset is being incurred, borrowing costs are being incurred and activities that are necessary to prepare the asset for its intended use or sale are being undertaken. Capitalisation of borrowing costs ceases when substantially all the activities necessary to prepare the qualifying asset for its intended use or sale are complete.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.21 Current and deferred income tax

The tax expense for the period comprises current and deferred tax. Tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

(i) Current income tax

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the reporting date in the countries where the group entities operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation and establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

(ii) Deferred income tax

Deferred income tax is recognised, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, the deferred income tax is not accounted for if it arises from initial recognition of goodwill or an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is determined using the tax rates (and laws) that have been enacted or substantively enacted by the reporting date and are expected to apply when the related deferred tax asset is realised or the deferred tax liability is settled.

For the purposes of measuring deferred tax liabilities or deferred tax assets for investment properties that are measured using the fair value model, the carrying amounts of such properties are presumed to be recovered entirely through sale, unless the presumption is rebutted. The presumption is rebutted when the investment property is depreciable and is held within a business model whose objective is to consume substantially all of the economic benefits embodied in the investment property over time, rather than through sale. If the presumption is rebutted, deferred tax liabilities and deferred tax assets for such investment properties are measured in accordance with the above general principles set out in HKAS 12 (i.e. based on the expected manner as to how the properties will be recovered).

Deferred tax liabilities are provided on taxable temporary differences arising from investments in subsidiaries, associate and joint ventures, except for deferred tax liability where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future. Generally, the Group is unable to control the reversal of the temporary difference for its associate, unless there is an agreement in place that gives the Group the ability to control the reversal of the temporary difference.

Deferred tax assets are recognised on deductible temporary differences arising from investments in subsidiaries, associates and joint ventures only to the extent that it is probable the temporary difference will reverse in the future and there is sufficient taxable profit available against which the temporary difference can be utilised.

(iii) Offsetting

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred tax assets and liabilities relate to income taxes levied by the same taxation authority on either the taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.22 Employee benefits

(i) Employee leave entitlements

Employee entitlements to annual leave and long service leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave and long service leave as a result of services rendered by employees up to the reporting date.

Employee entitlements to sick leave and maternity leave are not recognised until the time of leave.

(ii) Retirement benefits

In accordance with the rules and regulations in the PRC, the PRC based employees of the Group participate in various defined contribution retirement benefit plans organised by the relevant municipal and provincial governments in the PRC under which the Group and the PRC based employees are required to make monthly contributions to these plans calculated at a percentage of the employees' salaries.

The municipal and provincial governments undertake to assume the retirement benefit obligations of all existing and future retired PRC based employees' payable under the plans described above. Other than the monthly contributions, the Group has no further obligation for the payment of retirement and other post retirement benefits of its employees. The assets of these plans are held separately from those of the Group in independently administrated funds managed by the PRC government.

The Group also participates in a pension scheme under the rules and regulations of the Mandatory Provident Fund Scheme Ordinance ("MPF Scheme") for all employees in Hong Kong, which is a defined contribution retirement scheme. The contributions to the MPF Scheme are based on minimum statutory contribution requirement of 5% of eligible employees' relevant aggregate income. The assets of this pension scheme are held separately from those of the Group in independently administered funds.

The Group's contributions to the defined contribution retirement schemes are expensed as incurred.

(iii) Bonus entitlements

The expected cost of bonus payment is recognised as a liability when the Group has a present legal or constructive obligation as a result of services rendered by employees and a reliable estimate of the obligation can be made. Liabilities of bonus plan are expected to be settled within twelve months and are measured at the amounts expected to be paid when they are settled.

(iv) Termination benefits

Termination benefits are payable when employment is terminated before the normal retirement date, or whenever an employee accepts voluntary redundancy in exchange for these benefits. The Group recognises termination benefits when it is demonstrably committed to either: terminating the employment of current employees according to a detailed formal plan without possibility of withdrawal; or providing termination benefits as a result of an offer made to encourage voluntary redundancy. Benefits falling due more than 12 months after reporting date are discounted to present value.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.22 Employee benefits (Continued)

(v) Share-based payments

The Group operates equity-settled share option schemes, which the entity receives services from employees as consideration for equity instruments ("options") of the Group. The fair value of the employee services received in exchange for the grant of the options is recognised as an expense. The total amount to be expensed over the vesting period is determined by reference to the fair value of the options granted, excluding the impact of any service and non-market performance vesting conditions. At each reporting date, the Group revises its estimates of the number of options that are expected to vest based on the non-market performance and service conditions. It recognises the impact of the revision of original estimates, if any, in profit or loss, with a corresponding adjustment to equity.

The cash subscribed for the shares issued when the options are exercised is credited to share capital (nominal value) and share premium, net of any directly attributable transaction costs.

The options granted by the Company over its equity instruments to the employees of subsidiary undertakings in the Group is treated as a capital contribution. The fair value of employee services received, measured by reference to the grant date fair value, is recognised over the vesting period as an increase to investments in subsidiary undertakings, with a corresponding credit to equity.

2.23 Provisions and contingent liabilities

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognised as interest expense.

A contingent liability is a possible obligation that arises from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group. It can also be a present obligation arising from past events that is not recognised because it is not probable that outflow of economic resources will be required or the amount of obligation cannot be measured reliably.

A contingent liability is not recognised but is disclosed in the notes to the consolidated financial statements. When a change in the probability of an outflow occurs so that outflow is probable, it will then be recognised as a provision.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.24 Revenue recognition

The Group recognises revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the entity and specific criteria have been met for each of the Group's activities as described below. The Group bases its estimates on historical results, taking into consideration the type of customers, the type of transactions and the specifics of each arrangement.

To determine whether to recognise revenue, the Group follows a 5-step process:

1. Identifying the contract with a customer
2. Identifying the performance obligations
3. Determining the transaction price
4. Allocating the transaction price to the performance obligations
5. Recognising revenue when (or as) performance obligation(s) are satisfied

In all cases, the total transaction price for a contract is allocated amongst the various performance obligations based on their relative stand-alone selling prices. If the stand-alone selling prices are not directly observable, they are estimated based on expected cost plus a margin or adjusted market assessment approach, depending on the availability of observable information. The transaction price for a contract excludes any amounts collected on behalf of third parties.

Revenue is recognised either at a point in time or over time, when (or as) the Group satisfies performance obligations by transferring the promised goods or services to its customers.

(i) Sales of properties

Revenue is recognised when or as the control of the asset is transferred to the customer. Depending on the terms of the contract and the law that apply to the contract, control of the asset may be transferred over time or at a point in time. Control of the asset is transferred over time if the Group's performance:

- provides all of the benefits received and consumed simultaneously by the customer;
- creates and enhances an asset that the customer controls as the Group performs; or
- does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

If control of the asset transfers over time, revenue is recognised over the period of the contract by reference to the progress towards complete satisfaction of that performance obligation. Otherwise, revenue is recognised at a point in time when the customer obtains control of the asset.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.24 Revenue recognition (Continued)

(i) Sales of properties (Continued)

For properties that have no alternative use to the Group due to contractual reasons and when the Group has an enforceable right to payment from the customers for performance completed to date, the Group recognises revenue as the performance obligation is satisfied over time in accordance with the input method for measuring progress, i.e. the costs incurred up to date compared with the total budgeted costs, which depict the Group's performance towards satisfying the performance obligation.

For contract where the period between the payment by the customer and the transfer of the promised property or service exceeds one year, the transaction price is adjusted for the effects of a significant financing component.

Deposits and instalments received from purchasers prior to delivery of the properties to the customers are contract liabilities.

For property sales contract for which the control of the property is transferred at a point in time, revenue is recognised when the customer obtains the physical possession or the legal title of the completed property and the Group has present right to payment and the collection of the consideration is probable.

(ii) Rental income

Rental income from properties leasing under operating leases is recognised on a straight-line basis over the lease terms.

(iii) Hotel operation income

Revenue from hotel operation is recognised in the accounting period in which the services are rendered.

(iv) Property management

Revenue arising from property management is recognised in the accounting period in which the services are rendered. The Group bills a fixed amount for each month of service provided and recognises as revenue in the amount to which the Group satisfies performance obligations by transferring the services to its customers.

For property management services income from properties managed under lump sum basis, where the Group acts as principal and is primary responsible for providing the property management services to the property owners, the Group recognises the fee received or receivable from property owners as its revenue and all related property management costs as its cost of service. For property management services income from properties managed under commission basis, the Group recognises the commission, which is calculated by certain percentage of the total property management fee received or receivable from the property units, as its revenue for arranging and monitoring the services as provided by other suppliers to the property owners.

Pre-delivery and consulting services to non-property owners mainly includes fees for construction sites management, display units and property sales venues management and consulting services to property developers at the pre-delivery stage, and property management consulting services provided to other property management companies which are billed based on actual level of services provided at pre-determined price and revenue is recognised when such services are provided.

(v) Catering income

Revenue from restaurant operations is recognised when food, beverages and services are delivered to or rendered to and have been accepted by customers.

- (vi) Hire income from charter
Hire income from time charter is accounted for as operating lease and is recognised on a straight-line basis over the period of each time charter contract.
- (vii) Passenger transportation agency service
Revenue from passenger transportation agency service are recognised based on net agencies fee upon departure of ferries at terminals.
- (viii) Sales of goods
The Group manufactures and sells a range of consumer products, including dental prosthetics. Revenue from sales of goods are recognised when the products have been delivered to and accepted by customers.
- (ix) Interest income
Interest income is recognised on a time-proportion basis using the effective interest method. For financial assets measured at amortised cost are not credit-impaired, the effective interest rate is applied to the gross carrying amount of the asset. For credit-impaired financial assets, the effective interest rate is applied to the amortised cost (i.e. gross carrying amount net of ECL allowance) of the asset.

2.25 Leases

- (a) Definition of lease and the Group as a lessee

Policy applicable from 1 January 2019

For any new contracts entered into on or after 1 January 2019, the Group considers whether a contract is, or contains a lease. A lease is defined as "a contract, or part of a contract, that conveys the right to use an identified asset (the underlying asset) for a period of time in exchange for consideration". To apply this definition, the Group assesses whether the contract meets three key evaluations which are whether:

- the contracts contain an identified asset, which is either explicitly identified in the contract or implicitly specified by being identified at the time the asset is made available to the Group;
- the Group has the right to obtain substantially all of the economic benefits from use of the identified asset throughout the period of use, considering its rights within the defined scope of the contract; and
- the Group has the right to direct the use of the identified asset throughout the period of use. The Group assesses whether it has the right to direct "how and for what purpose" the asset is used throughout the period of use.

For contracts that contain a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the contract to each lease and non-lease component on the basis of their relative stand-alone price.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.25 Leases (Continued)

- (a) Definition of lease and the Group as a lessee (Continued)

Policy applicable from 1 January 2019 (Continued)

Measurement and recognition of leases as a lessee

At the lease commencement date, the Group recognises a right-of-use asset and a lease liability on the consolidated statement of financial position. The right-of-use asset is measured at cost, which is made up of the initial measurement of the lease liability, any initial direct costs incurred by the Group, an estimate of any costs to dismantle and remove the underlying asset at the end of the lease, and any lease payments made in advance of the lease commencement date (net of any lease incentives received).

Except for those right-of-use assets meeting the definition of investment properties and those relating to a class of property, plant and equipment to which revaluation model was applied, the Group depreciates the right-of-use assets on a straight-line basis from the lease commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term unless the Group is reasonably certain to obtain ownership at the end of the lease term. The Group also assesses the right-of-use assets (except for those meeting the definition of investment properties) for impairment when such indicator exists. Those right-of-use assets meeting the definition of investment properties are subsequently measured at fair value, in accordance with the Group's accounting policies.

At the lease commencement date, the Group measures the lease liability at the present value of the lease payments unpaid at that date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Group's incremental borrowing rate.

Lease payments included in the measurement of the lease liability are made up of fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable payments based on an index or rate, and amounts expected to be payable under a residual value guarantee. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payment of penalties for terminating a lease, if the lease term reflects the Group exercising the option to terminate.

Subsequent to initial measurement, the liability will be reduced for lease payments made and increased for interest cost on the lease liability. It is remeasured to reflect any reassessment or lease modification, or if there are changes in-substance fixed payments. The variable lease payments that do not depend on an index or a rate are recognised as expense in the period on which the event or condition that triggers the payment occurs.

When the lease is remeasured, the corresponding adjustment is reflected in the right-of-use asset, or profit or loss if the right-of-use asset is already reduced to zero.

The Group has elected to account for short-term leases and leases of low-value assets using the practical expedients. Instead of recognising a right-of-use asset and lease liability, the payments in relation to these leases are recognised as an expense in profit or loss on a straight-line basis over the lease term. Short-term leases are leases with a lease term of 12 month or less. Low-value assets comprise IT-equipment and small items of office equipment.

On the consolidated statement of financial position, right-of-use assets that do not meet the definition of investment property have been included in "property, plant and equipment", the same line as it presents the underlying assets of the same nature that it owns. Right-of-use assets that meet the definition of investment property are presented within "investment property". The prepaid lease payments for leasehold land are presented as "Land use rights" under non-current assets.

Refundable rental deposits paid are accounted for under HKFRS 9 and initially measured at fair value. Adjustments to fair value at initial recognition are considered as additional lease payments and included in the cost of right-of-use assets.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.25 Leases (Continued)

- (a) Definition of lease and the Group as a lessee (Continued)

Policy applicable before 1 January 2019

An arrangement comprising a transaction or a series of transactions, is or contains a lease if the Group determines that the arrangement conveys a right to use a specific asset or assets for an agreed period of time in return for a payment or a series of payments such a determination is made based on an evaluation of the substance of the arrangement and is regardless of whether the arrangement takes the legal form of a lease.

Leases where a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases.

- (i) The Group is the lessee other than operating lease of land use rights
Payments made under operating leases (net of any incentives received from the lessor) are charged to profit or loss on a straight-line basis over the period of the lease.
- (ii) The Group is the lessee under operating lease of land use rights
Land use rights under operating lease, which mainly comprised land use rights to be developed for hotel properties and self-use buildings, are stated at cost and subsequently amortised in the consolidated statement of profit or loss and other comprehensive income on a straight-line basis over the operating lease periods, less accumulated impairment provision.

- (b) The Group as a lessor

As a lessor, the Group classifies its leases as either operating or finance leases.

A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership of the underlying asset, and classified as an operating lease if it does not.

The Group also earns rental income from operating leases of its investment properties. Rental income is recognised on a straight-line basis over the term of the lease.

2.26 Dividend distribution

Dividend distribution to the owners of the Company is recognised as a liability in the Group's and the Company's financial statements in the period in which the dividends are approved by the Company's shareholders or the board of directors, where applicable.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.27 Financial guarantee liabilities

A financial guarantee contract is a contract that requires the issuer (or guarantor) to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due in accordance with the terms of a debt instrument.

Where the Group issues a financial guarantee, the fair value of the guarantee is initially recognised as deferred income within “other payables”. The fair value of financial guarantees is determined based on the present value of the difference in cash flows between the contractual payments required under the debt instruments and the payments that would be required without the guarantee, or the estimated amount that would be payable to a third party for assessing the obligations. Where consideration is received or receivable for the issuance of the guarantee, the consideration is recognised in accordance with the Group’s policies applicable to that category of asset. Where no such consideration is received or receivable, an immediate expense is recognised in profit or loss on initial recognition of any deferred income.

Subsequently, financial guarantees are measured at the higher of the amount determined in accordance with ECL under HKFRS 9 as set out in note 2.13 and the amount initially recognised less, where appropriate, the cumulative amount of income recognised over the guarantee period.

2.28 Government grants

Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received and the Group will comply with all attached conditions.

Government grants relating to property, plant and equipment are deferred and recognised in profit or loss over the period necessary to match them with the costs that they are intended to compensate.

Government grants relating to income is presented in gross under “other gains and (losses), net” in the consolidated statement of profit or loss and other comprehensive income.

2.29 Related parties

For the purposes of these consolidated financial statements, a party is considered to be related to the Group if:

- (a) the party is a person or a close member of that person’s family and if that person:
 - (i) has control or joint control over the Group;
 - (ii) has significant influence over the Group; or
 - (iii) is a member of the key management personnel of the Group or of a parent of the Group.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.29 Related parties (Continued)

- (b) the party is an entity and if any of the following conditions applies:
- (i) the entity and the Group are members of the same group;
 - (ii) one entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member);
 - (iii) the entity and the Group are joint ventures of the same third party;
 - (iv) one entity is a joint venture of a third entity and the other entity is an associate of the third entity;
 - (v) the entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group (if the Group is itself such a plan) and the sponsoring employers are also related to the Group;
 - (vi) the entity is controlled or jointly controlled by a person identified in (a);
 - (vii) a person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity); and
 - (viii) the entity, or any member of a group of which it is a part, provides key management personnel services to the Group or to the parent of the Group.

Close members of the family of a person are those family members who may be expected to influence, or be influenced by, that person in their dealings with the entity.

3. ADOPTION OF NEW AND AMENDED HKFRSs

3.1 New and amended HKFRSs that are effective for annual periods beginning or after 1 January 2019

In the current year, the Group has applied for the first time the following new and amended standards issued by HKICPA, which are relevant to the Group's operations and effective for the consolidated financial statements for the annual period beginning on 1 January 2019:

HKFRS 16	Leases
Amendments to HKAS 19	Plan Amendment, Curtailment or Settlement
Amendments to HKAS 28	Long-term Interests in an Associate or Joint Venture
Amendments to HKFRS 9	Prepayment Features with Negative Compensation
Amendments to HKFRSs	Annual improvements to HKFRSs 2015–2017 Cycle
HK (IFRIC) – Int. 23	Uncertainty over Income Tax Treatments

Other than HKFRS 16 "Leases" as noted below, the adoption of the new and amended HKFRSs had no material impact on how the results and financial position for the current and prior periods have been prepared and presented.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

3. ADOPTION OF NEW AND AMENDED HKFRSs (Continued)

3.1 New and amended HKFRSs that are effective for annual periods beginning or after 1 January 2019 (Continued)

HKFRS 16 "Leases"

HKFRS 16 "Leases" replaces HKAS 17 "Leases" along with three Interpretations HK(IFRIC) – Int. 4 "Determining whether an Arrangement contains a Lease", HK(SIC) – Int. 15 "Operating Leases – Incentives" and HK(SIC) – Int. 27 "Evaluating the Substance of Transactions Involving the Legal Form of a Lease"). HKFRS 16 has been applied using the modified retrospective approach, with the cumulative effect of adopting HKFRS 16 being recognised in equity as an adjustment to the opening balance of retained earnings for the current year. Prior years have not been restated.

For contracts in place at the date of initial application, the Group has elected to apply the definition of a lease from HKAS 17 and HK(IFRIC) – Int. 4 and has not applied HKFRS 16 to arrangements that were previously not identified as lease under HKAS 17 and HK(IFRIC) – Int. 4.

As a Lessee

The Group has elected not to include initial direct costs in the measurement of the right-of-use asset for operating leases in existence at the date of initial application of HKFRS 16, being 1 January 2019. At this date, the Group has also elected to measure the right-of-use assets at an amount equal to the lease liability adjusted for any prepaid or accrued lease payments that existed at the date of transition.

The Group has already recognised the prepaid lease payments for leasehold land where the Group is a lessee. The application of HKFRS 16 does not have impact on these assets except for the whole balance is now presented as "Land use rights" under non-current assets.

Instead of performing an impairment review on the right-of-use assets at the date of initial application, the Group has relied on its historic assessment as to whether leases were onerous immediately before the date of initial application of HKFRS 16.

On transition, for leases previously accounted for as operating leases with a remaining lease term of less than 12 months and for leases of low-value assets, the Group has applied the optional exemptions to not recognise right-of-use assets but to account for the lease expense on a straight-line basis over the remaining lease term.

On transition to HKFRS 16, the weighted average incremental borrowing rate applied to lease liabilities recognised under HKFRS 16 was 5.82% per annum.

HKFRS 16 “Leases” (Continued)

As a Lessee (Continued)

On transition, the Group recognised lease liabilities of RMB799,167,000 and right-of-use assets of RMB799,167,000 at 1 January 2019.

The following is a reconciliation of total operating lease commitments at 31 December 2018 to the opening balance for lease liabilities recognised at 1 January 2019:

	RMB'000
Total operating lease commitments disclosed at 31 December 2018 (note 39(b))	1,152,467
Less: commitments relating to lease exempt from capitalisation:	
– short-term lease with remaining lease term ended on or before 31 December 2019	(11,378)
Operating leases liabilities before discounting	1,141,089
Less: discounting using incremental borrowing rate as at 1 January 2019	(341,922)
Total lease liabilities recognised at 1 January 2019	799,167
Classified as:	
Current lease liabilities	110,519
Non-current lease liabilities	688,648
	799,167

The remaining contractual maturities of the Group's lease liabilities at the date of transition to HKFRS 16 are as follows:

	As at 1 January 2019	
	Present value of the minimum lease payments RMB'000	Total minimum lease payments RMB'000
Within 1 year	110,519	157,479
After 1 year but within 2 years	88,248	128,950
After 2 years but within 5 years	171,283	268,300
After 5 years or above	429,117	586,360
	688,648	983,610

HKFRS 16 “Leases” (Continued)

As a Lessor

In accordance with the transitional provisions in HKFRS 16, the Group is not required to make any adjustment on transition for lease in which the Group is a lessor but account for these leases in accordance with HKFRS 16 from the date of initial application and comparative information has not been restated.

The following table summarises the impact of transition to HKFRS 16 on the Group’s consolidated statement of financial position at 1 January 2019:

	RMB’000
Increase in right-of-use assets (non-current assets)	799,167
Increase in lease liabilities (current liabilities)	(110,519)
Increase in lease liabilities (non-current liabilities)	(688,648)

3.2 Issued but not yet effective HKFRSs

At the date of authorisation of these consolidated financial statements, the following new and amended standards have been published but are not yet effective, and have not been adopted early by the Group:

	Effective for the accounting period beginning on or after
Amendments to HKFRS 3	1 January 2020 (note)
Amendments to HKFRS 9, HKAS 39 and HKFRS 7	1 January 2020
Amendments to HKAS 1 and HKAS 8	1 January 2020
HKFRS 17	1 January 2021
Amendments to HKFRS 10 and HKAS 28	To be determined
Definition of a Business

Insurance Contracts	
Sale or Contribution of Assets between an Investor and its Associate or Joint Venture	

Note: Effective for business combinations and assets acquisitions for which the acquisition date is on or after the beginning of the first annual period beginning on or after 1 January 2020.

The directors anticipate that all of the pronouncements will be adopted in the Group’s accounting policy for the first period beginning on or after the effective date of the pronouncement. Information on new and amended HKFRSs that are expected to have impact on the Group’s accounting policies is provided below. Other new and amended HKFRSs are not expected to have a material impact on the Group’s consolidated financial statements.

3.2 Issued but not yet effective HKFRSs (Continued)

Amendments to HKFRS 3 “Definition of a Business”

The amendments narrowed and clarified the definition of a business, with the objective of assisting entities to determine whether a transaction should be accounted for as a business combination or as an asset acquisition.

The amendments:

- clarify that a business is considered as an acquired set of activities and assets must include, at a minimum, an input and a substantive process that together significantly contribute to the ability to create outputs. Guidance and illustrative examples are provided to help entities assess whether a substantive process has been acquired;
- narrow the definitions of a business and of outputs by focusing on goods and services provided to customers and by removing the reference to an ability to reduce costs;
- add an optional concentration test that permits simplified assessment of whether an acquired set of activities and assets is not a business; and
- remove the assessment of whether market participants are capable of replacing any missing inputs or processes and continuing to produce outputs.

Amendments to HKFRS 3 is effective for annual reporting period beginning on or after 1 January 2020 and apply prospectively. Earlier application is permitted. The directors expect that the amendments have no material impact on these consolidated financial statements.

Amendments to HKAS 1 and HKAS 8 “Definition of Material”

The amendments clarify the definition of material and state that “information is material if omitting, misstating or obscuring it could reasonably be expected to influence the decisions that the primary users of general purpose financial statements make on the basis of those financial statements, which provide financial information about a specific reporting entity”. Materiality depends on nature or magnitude of information or both.

The amendments also:

- introduce the concept of obscuring information when considering materiality and provide some examples of circumstances that may result in material information being obscured;
- clarify that materiality assessment will need to take into account how primary users could reasonably be expected to be influenced in making economic decisions by replacing the threshold “could influence” with “could reasonably be expected to influence” in the definition of material; and
- clarify that materiality assessment will need to take into account of information provided to primary users of general purpose financial statements (i.e. existing and potential investors, lenders and other creditors that rely on general purpose financial statements for much of the financial information they need).

Amendments to HKAS 1 and HKAS 8 are effective for annual reporting period beginning on or after 1 January 2020 and apply prospectively. Earlier application is permitted. The directors expect that the amendments have no material impact on these consolidated financial statements.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

4. FINANCIAL RISK MANAGEMENT

The Group conducts its operations in the PRC and is subject to special considerations and significant risks. These include risks associated with, among others, the political, economic and legal environment, influence of national authorities over pricing regulation and competition in the industry.

The Group's major financial instruments include financial assets at FVTPL, debtors, deposits and other receivables (excluding prepayments and prepaid other taxes), long-term and short-term bank deposits, cash and bank balances, restricted cash, accrued construction costs, other payables, lease liabilities, derivative financial instruments and borrowings. Details of these financial instruments are disclosed in respective notes. The Group's activities expose it to a variety of financial risks: market risk (including foreign exchange risk, interest rate risk and price risk), credit risk and liquidity risk.

4.1 Financial risk factors

The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance. The property industry is highly sensitive to the economic environment in the PRC, which will affect the volumes of property transactions and selling prices. The Group mainly relies on sales of properties and borrowings to fund its operations. The Group has alternative plans to monitor liquidity risk should there be significant adverse changes on the Group's cash flow projections.

Risk management is carried out by the Group's management under the supervision of the Board. The Group's management identifies, evaluates and manages significant financial risks in the Group's individual operating units. The Board provides guidance for overall risk management.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

4. FINANCIAL RISK MANAGEMENT (Continued)

4.1 Financial risk factors (Continued)

(i) Market risk

(1) Foreign exchange risk

The Group's businesses are principally conducted in RMB, except that borrowings are denominated in other currencies. As at 31 December 2019, the carrying amounts of the Group's foreign currency denominated monetary assets and monetary liabilities at the respective reporting dates are as follows:

	2019 RMB'000	2018 RMB'000
Monetary assets		
United States Dollars ("US\$")	5,305,109	2,889,638
Hong Kong Dollars ("HK\$")	339,936	247,782
Euro ("EUR")	56,701	54,370
	5,701,746	3,191,790
Monetary liabilities		
US\$	58,827,932	39,978,614
HK\$	1,265,318	1,701,382
	60,093,250	41,679,996

The following table shows the sensitivity analysis of a 5% change in RMB against the relevant foreign currencies. The sensitivity analysis includes only foreign currency denominated monetary items and adjusts their translation at the year-end for a 5% change in foreign currency rates. If there is a 5% increase/decrease in RMB against the relevant currencies, the effect of increase/(decrease) in the profit for the year is as follows:

	2019 Sensitivity rate	Increase/ (Decrease) in profit or loss and equity RMB'000	2018 Sensitivity rate	Increase/ (Decrease) in profit or loss and equity RMB'000
US\$	5%	2,742,456	5%	1,890,569
HK\$	5%	50,518	5%	75,777
EUR	5%	(2,126)	5%	(2,039)

Exposures to foreign exchange rates vary during the year depending on the volume of overseas transactions. Nevertheless, the analysis above is mainly as a result of the net foreign exchange gains/losses on translation of US\$ and HK\$ denominated cash and bank balances, long-term and short-term bank deposits, debtors, deposits and other receivables and borrowings.

4. FINANCIAL RISK MANAGEMENT (Continued)

4.1 Financial risk factors (Continued)

(i) Market risk (Continued)

(2) *Interest rate risk*

The Group's interest-bearing assets and liabilities are mainly restricted cash, long-term and short-term bank deposits, cash and bank balances, certain bank and other borrowings, senior notes and convertible bonds. Restricted cash, long-term and short term bank deposits, cash and bank balances, and certain bank and other borrowings issued at variable rates expose the Group to cash flow interest-rate risk. Senior notes, certain bank and other borrowings, convertible bonds and lease liabilities issued at fixed rates expose the Group to fair value interest-rate risk. The Group currently does not use any derivative contracts to hedge its exposure to interest rate risk. However, management will consider hedging significant interest rate exposure should the need arise.

As at 31 December 2019, if interest rates on assets and liabilities had been increased/decreased by 100 (2018: 100) basis point with all variables held constant, the Group's post-tax profit for the year would have been RMB109,332,000 decreased/increased (2018: RMB139,300,000 decreased/increased). Majority of the interest expenses would be capitalised as a result of such interest expenses directly attributable to the property construction.

(3) *Price risk*

The Group is exposed to equity securities price risk in connection with the Group's investment in listed equity securities classified as financial assets at FVTPL. The Group closely monitors the fluctuation of the price and assesses the impact on the Group's consolidated financial statements.

If the price of listed equity securities had been 5% (2018: 5%) increased/decreased, post-tax profit for the year ended 31 December 2019 would have been increased/decreased by approximately RMB9,679,000 (2018: RMB9,730,000).

4. FINANCIAL RISK MANAGEMENT (Continued)

4.1 Financial risk factors (Continued)

(ii) Credit risk

Credit risk refers to the risk that the counterparty to a financial instrument would fail to discharge its obligation under the terms of the financial instrument and cause a financial loss to the Group. The Group's exposure to credit risk mainly arises from granting credit to customers in the ordinary course of its operations and from its investing activities.

The Group's credit risk primarily arises from debtors, deposits and other receivables (excluding prepayments and prepaid other taxes), restricted cash, long-term and short-term bank deposits, and cash and bank balances. The Group has policies in place to ensure that sales are made to buyers with an appropriate financial strength and appropriate percentage of down payments. It also has other monitoring procedures to ensure that follow-up action is taken to recover overdue debts. For properties that are still under construction and the buyers choose to pay by bank mortgage, the Group typically provides guarantees to banks in connection with the buyers' borrowing of mortgage loans to finance their purchases of the properties. If a buyer defaults on the payment of its mortgage during the term of the guarantee, the bank holding the mortgage may demand the Group to repay the outstanding amount under the loan and any accrued interest thereon. Under such circumstances, the Group is able to retain the buyer's deposits and sell the property to recover any amounts paid by the Group to the bank. Unless the selling price would drop by more than the buyer's deposits received, the Group may not be in a loss position in selling those properties out. In this regard, the directors of the Company consider that the Group's credit risk is largely mitigated. In addition, the Group reviews regularly the recoverable amount of each individual trade receivables to ensure that adequate impairment losses are made for irrecoverable amounts. The Group has no significant concentrations of credit risk, with exposure spread over a large number of counterparties and buyers.

The Group has arranged bank financing for certain purchasers of property units and provided guarantees to secure obligations of such purchasers for repayments. Detailed disclosure of these guarantees is made in note 38. No credit limits were exceeded during the year, and management does not expect any significant losses from non-performance by these counterparties.

The credit risk of long-term bank deposits, short-term bank deposits, restricted cash and cash and bank balances is limited because the counterparties are either state-owned banks located in the PRC or banks with high credit ratings.

For financial assets at amortised cost include other receivables, other deposits, restricted deposits for borrowings from non-financial institutions, amounts due from joint ventures, associates and non-controlling interests of subsidiaries, management makes periodic collective assessments as well as individual assessment on the recoverability of deposits and other receivables based on historical settlement records and past experience.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

4. FINANCIAL RISK MANAGEMENT (Continued)

4.1 Financial risk factors (Continued)

(ii) Credit risk (Continued)

The Group considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period. To assess whether there is a significant increase in credit risk, the Group compares the risk of a default occurring on the asset as at the reporting date with the risk of default as at the date of initial recognition. It also considers available reasonable and supportive forwarding-looking information. Especially the following indicators are incorporated:

- internal credit rating
- external credit rating
- actual or expected significant adverse changes in business, financial or economic conditions that are expected to cause a significant change to the borrower's ability to meet its obligations
- actual or expected significant changes in the operating results of individual property owner or the borrower
- significant increases in credit risk on other financial instruments of the individual property owner or the same borrower
- significant changes in the expected performance and behaviour of the borrower, including changes in the payment status of borrowers in the Group and changes in the operating results of the borrower.

The Group uses four categories for those receivables which reflect their credit risk and how the loss provision is determined for each of those categories.

Trade debtors

The Group applies the simplified approach to providing for ECL prescribed by HKFRS 9, which permits the use of the lifetime expected loss provision for all trade debtors.

To measure the ECL of trade debtors, trade debtors have been grouped based on shared credit risk characteristics and the days past due. As at 31 December 2019 and 2018, there was no concentration of credit risk with respect to trade debtors as the Group has a large number of customers. Credit losses for trade debtors are assessed on both individual and collective basis.

The loss allowance provision of trade debtors as at 31 December 2019 and 2018 is determined as follows, the ECL provision below also incorporate forward-looking information.

Deposits and other receivables (excluding prepayments and prepaid other taxes)

For financial assets at amortised cost include other receivables, other deposits, restricted deposits for borrowings from non-financial institutions, amounts due from joint ventures, associates and non-controlling interests of subsidiaries, management makes periodic collective assessments as well as individual assessment on the recoverability of deposits and other receivables based on historical settlement records and past experience. Credit losses for deposits and other receivables (excluding prepayments and prepaid other taxes) are assessed on both individual and collective basis.

A summary of the assumptions underlying the Group's ECL model is as follows:

Category	Group definition of category	Basis for recognition of ECL provision
Performing	Customers have a low risk of default and a strong capacity to meet	12 months expected losses. Where the expected lifetime of an asset is less than 12 months, expected losses are measured at its expected lifetime
Underperforming	Receivables for which there is a significant increase in credit risk; as significant increase in credit risk is presumed if interest and/or principal repayments are more than 180 days past due	Lifetime expected losses
Non-performing	Interest and/or principal repayments are more than 365 days past due	Lifetime expected losses
Write-off	Interest and/or principal repayments are more than 3 years past due and there is no reasonable expectation of recovery	Asset is written off

The Group accounts for its credit risk by appropriately providing for ECL on a timely basis. In calculating the ECL rates, the Group considers historical loss rates for each category of receivables and adjusts for forward-looking macroeconomic data.

(iii) Liquidity risk

Management aims at maintaining sufficient cash and bank balances or having available funding through an adequate amount of available financing, including proceeds from pre-sale of properties, short-term and long-term bank and other borrowings to meet its construction commitments. Due to the dynamic nature of the underlying businesses, the Group maintains flexibility in funding by maintaining adequate amount of cash and bank balances and through having available sources of financing.

To cope with the rapid expansion of the Group's businesses, the Group raised significant amounts of borrowings during the years ended 31 December 2019 and 2018. As at 31 December 2019, the Group's total borrowings stood at RMB117,195,552,000 (2018: RMB108,765,952,000). During the year ended 31 December 2019, in order to properly manage the Group's liquidity risk and capital structure, the Group has issued several batches of senior notes with an aggregated principal amount of RMB20,872,250,000 (2018: RMB5,862,362,000).

Except for the aforementioned recent development, the Group has certain alternative plans to mitigate the potential impacts on anticipated cash flows should there be significant adverse changes in economic environment. These include control on investment in land reserve, adjusting project development timetable to adopt the changing local real estate market environment, implementing cost control measures, accelerating sales with more flexible pricing, seeking partners to develop quality projects and renegotiating payment terms with counterparties for certain land acquisitions. The Group will pursue such options based on its assessment of relevant future costs and benefits.

With the aforementioned activities and plans, the directors of the Company considered the Group's liquidity risk has been controlled. The directors of the Company have reviewed the working capital forecast of the Group for the 12 months from 31 December 2019 and are of the opinion that the Group will have sufficient working capital to meet its financial obligations as and when they fall due within the next 12 months from the reporting date.

4.2 Capital risk management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

The capital structure of the Group consists of debt, which includes the total borrowings (note 31) less cash and bank balances, short-term bank deposits, long-term bank deposits (note 28) and restricted cash (note 27) and equity attributable to owners of the Company, comprising share capital and reserves.

The directors of the Company review the capital structure periodically. As a part of this review, the directors of the Company assess the annual budget prepared by the treasury department which reviews the planned construction projects proposed by engineering department and prepare the annual budget taking into account of the provision of funding. Based on the proposed annual budget, the directors of the Company consider the cost of capital and the risks associated with each class of capital. The directors of the Company also balance its overall capital structure through the payment of dividends, new share issues as well as the issue of new debt or the redemption of existing debt.

Consistent with others in the industry, the Group monitors capital on the basis of the gearing ratio. This ratio is calculated as net debt divided by total equity. Net debt is calculated as total borrowings (including current and non-current borrowings, as shown in the consolidated statement of financial position) less cash and bank balances, long-term and short-term bank deposits and restricted cash. Total capital is calculated as equity, as shown in the consolidated statement of financial position, plus net debt.

The gearing ratios of the Group at 31 December 2019 and 2018 were as follows:

	2019 RMB'000	2018 RMB'000
Total borrowings (note 31)	117,195,552	108,765,952
Less: Cash and bank balances, long-term and short-term bank deposits (note 28) and restricted cash (note 27)	(36,978,038)	(22,924,149)
Net debt	80,217,514	85,841,803
Total equity	55,706,573	36,339,312
Gearing ratio	144.00%	236.22%

The gearing ratio for 2019 was lower than that for 2018 as a result of the increase in profit for the year.

4.3 Fair value estimation

The different levels of the financial instruments carried at fair value, by valuation method, have been defined as follows:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The following table presents the Group's financial assets and financial liabilities that are measured at fair value:

	Level 1 RMB'000	Level 2 RMB'000	Level 3 RMB'000	Total RMB'000
As at 31 December 2019				
Assets				
Financial assets at FVTPL	258,114	1,209,339	6,382,938	7,850,391
Liabilities				
Derivative financial instruments	–	–	82,807	82,807
As at 31 December 2018				
Assets				
Financial assets at FVTPL	259,477	–	6,636,349	6,895,826

There was no transfer into or out of level 3 during the year ended 31 December 2019.

During the year ended 31 December 2018, financial assets at FVTPL related to investment in equity fund which invest in automobile business amounting to RMB199,131,000 were transferred in level 3 to level 1.

The nominal value less impairment provisions of debtors and other receivables and the nominal value of accrued construction costs and other payables approximate their fair value due to their short maturities. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Group for similar financial instruments.

(i) Financial instruments in level 1

The fair value of financial instruments traded in active markets is based on quoted market prices at the reporting date. A market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis. The quoted market price used for financial assets held by the Group is the current bid price. These instruments are included in level 1.

(ii) Financial instruments in level 2

The fair value of unlisted managed funds of RMB1,209,339,000 (2018: nil) in level 2 are determined by reference to the net asset values of these investments prescribed by a financial institution, which is based on the fair value of the underlying investments. Fair value gain on financial assets at FVTPL of RMB57,489,000 (2018: nil) was included in "other gains and (losses), net" in the profit or loss for the year ended 31 December 2019.

Information about level 3 financial instruments' fair value measurements

The following table presents the changes in level 3 financial assets for the year ended 31 December 2019 and 2018:

	2019 RMB'000	2018 RMB'000
At 1 January	6,636,349	5,086,320
Additions	246,132	2,016,911
Derecognition	(1,904,427)	(32,565)
Fair value gain/(loss) recognised in profit or loss	1,404,884	(235,186)
Reclassification financial instruments to level 1	–	(199,131)
At 31 December	6,382,938	6,636,349

Additions during the year ended 31 December 2019 mainly represented unlisted investment fund units in properties development and other businesses in the PRC. Disposal during the year ended 31 December 2019 represented unlisted investment fund units in properties development and other business in the PRC.

For the financial assets at FVTPL, the fair value gain on financial assets at FVTPL amounting to RMB1,404,884,000 (2018: fair value loss of RMB235,186,000) was included in "other gains and (losses), net" in the profit or loss for the year ended 31 December 2019. For the financial derivative, the fair value loss of financial derivatives amounting to RMB82,191,000 (2018: nil) was included in the consolidated statement of profit or loss and other comprehensive income for the year ended 31 December 2019. Information for the derivative financial instruments as detail disclosed in note 33.

4. FINANCIAL RISK MANAGEMENT (Continued)

4.3 Fair value estimation (Continued)

(iii) Financial instruments in level 3 (Continued)

The fair value of financial instruments is determined by using the market approach model. The valuation techniques and significant unobservable inputs of the financial assets at FVTPL and derivative financial instruments are as follows:

Financial instrument	Valuation techniques	Significant unobservable inputs	Range	Sensitivity relationship of unobservable inputs to fair value
Financial assets at FVTPL	Market approach method	Price to book ratios (2018: Price to earnings ratios) (note)	0.66 to 2.75 (2018: 8.39 to 35.99)	Increase/(decrease) in price to book (2018: price to earnings) ratio would result in increase/(decrease) in fair value
		Discount for lack of marketability (2018: Discount for lack of marketability)	20% (2018: 20%)	Increase/(decrease) in discount rate would result in increase/(decrease) in fair value
Derivative financial instruments	Binomial option pricing model	Expected volatility (2018: nil)	50.4% to 56.07% (2018: nil)	Increase/(decrease) in expected volatility would result in increase/(decrease) in fair value

Note: During the year ended 31 December 2019, in the opinion of the directors, the change in unobservable inputs is more representative of fair value in the circumstances.

The discount for lack of marketability represents the amounts of premiums and discounts determined by the Group that market participants would take into account when pricing the investments.

Since one or more of the significant inputs are not based on observable market data, the fair value measurement of these instruments are categorised as level 3. For disclosures of fair value measurement of the Group's investment properties, details are disclosed in note 17 to the consolidated financial statements.

The carrying amounts of the Group's financial instruments carried at cost or amortised cost were not materially different from their fair values as at 31 December 2019 and 2018 except for the following financial instruments, for which their carrying amounts and fair value are disclosed below:

	2019		2018	
	Carrying amount RMB'000	Fair value RMB'000	Carrying amount RMB'000	Fair value RMB'000
Borrowings: – Senior notes (note 31(a))	56,418,863	56,416,773	39,726,866	30,883,782

The Group does not have any financial assets/liabilities that are subject to offsetting, enforceable master netting arrangement and similar agreements during the years ended 31 December 2019 and 2018.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

5. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS

5.1 Key estimation of uncertainties

Estimates and judgements used in preparing the consolidated financial statements are evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal to the related actual results. The estimates and assumptions that may have a significant effect on the carrying amounts of assets and liabilities within the next financial year are discussed below.

(i) Fair value of investment properties

Investment properties, including those completed investment properties and investment properties under construction, are carried at fair value in the consolidated statement of financial position and the changes in the fair value recognised in the profit or loss. It obtains independent valuations at least annually. In making the judgement, consideration is given to assumptions that are mainly based on market conditions existing at the reporting date, expected rental from future leases in the light of current market conditions and appropriate capitalisation rates. Changes in subjective input assumptions can materially affect the fair value estimate. The key assumptions used in the valuation in determining fair value for the Group's portfolio of properties are set out in note 17 to the consolidated financial statements.

As at 31 December 2019, the aggregate fair value of the Group's investment properties amounted to RMB35,309,000,000 (2018: RMB35,930,000,000) based on the valuation performed by an independent professional valuers.

(ii) Provision for properties under development and completed properties held for sale

The Group assesses the carrying amounts of properties under development and completed properties held for sale according to their recoverable amounts based on the realisability of these properties, taking into account estimated costs to completion based on past experience (properties under development only) and committed contracts and estimated net sales value based on prevailing market conditions. Provision is made when events or changes in circumstances indicate that the carrying amounts may not be realised. The assessment requires the use of judgement and estimates.

As at 31 December 2019, based on management's best estimates, the Group has made a provision of RMB1,499,464,000 (2018: RMB1,505,566,000) for properties under development and completed properties held for sale.

(iii) Provision for prepayments for proposed development projects and deposits for land acquisitions

The Group assesses the carrying amounts of deposits for land acquisitions and prepayments for proposed development projects according to their recoverable amounts based on the realisability of these land use rights and property development projects, taking into account estimated net sales values based on prevailing market conditions. Provision is made when events or changes in circumstances indicate that the carrying amounts may not be realised. The assessment requires the use of judgement and estimates.

As at 31 December 2019, the carrying amounts of prepayments for proposed development projects and deposits for land acquisitions are RMB23,782,080,000 (2018: RMB19,080,815,000) and RMB19,891,354,000 (2018: RMB19,445,196,000) respectively.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

5. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS *(Continued)*

5.1 Key estimation of uncertainties *(Continued)*

(iv) Impairment of non-financial assets (other than goodwill)

The Group assesses whether there are any indicators of impairment for all non-financial assets (other than goodwill) at the reporting date. These non-financial assets are tested for impairment when there are indicators that the carrying amounts may not be recoverable. An impairment exists when the carrying value of an asset or a CGU exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The calculation of the fair value less costs of disposal is based on available data from binding sales transactions in an arm's length transaction of similar assets or observable market prices less incremental costs for disposing of the asset. When value-in-use calculations are undertaken, management must estimate the expected future cash flows from the asset or CGU and choose a suitable discount rate in order to calculate the present value of those cash flows.

As at 31 December 2019, based on management's best estimates, the Group has made a provision of RMB149,316,000 (2018: RMB149,316,000), RMB12,249,000 (2018: RMB12,249,000), RMB658,685,000 (2018: RMB658,685,000) and RMB473,361,000 (2018: nil) for property, plant and equipment, land use rights, investments in associates and intangible assets (other than goodwill) respectively.

(v) Income taxes, land appreciation taxes, withholding taxes and deferred income taxes

The Group's subsidiaries that operate in the PRC are subject to income tax in the PRC. Significant judgement is required in determining the provision for income taxes and withholding taxes on undistributed earnings of PRC subsidiaries. There are many transactions and calculations for which the ultimate determination is uncertain during the ordinary course of business. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such difference will impact the income tax and deferred income tax provision in the period in which such determination is made.

Deferred tax liabilities have not been established for income tax and withholding tax that would be payable on certain profits of PRC subsidiaries to be repatriated and distributed by way of dividends as the directors consider that the timing of the reversal of the related temporary differences can be controlled and such temporary differences will not be reversed in the foreseeable future. If those undistributed earnings of the PRC subsidiaries are considered to be repatriated and distributed by way of dividends, the deferred income tax charge and deferred tax liabilities would have been increased by the same amount of approximately RMB1,534,634,000 (2018: RMB769,786,000).

Deferred tax assets relating to certain temporary differences and tax losses are recognised when management considers to be probable that future taxable profit will be available against which the temporary differences or tax losses can be utilised. The outcome of their actual utilisation may be different.

The Group is subject to land appreciation taxes in the PRC. However, the implementation and settlement of these taxes varies among various tax jurisdictions in cities of the PRC, and the Group has not finalised certain of its land appreciation taxes calculation and payments with any local tax authorities in the PRC for most of its property projects. Accordingly, judgement is required in determining the amount of the land appreciation tax. The Group recognises these land appreciation taxes based on management's best estimates according to the interpretation of the tax rules. The final tax outcome could be different from the amounts that were initially recorded, and these differences will impact the income tax expense and tax provisions in the periods in which such taxes have been finalised with local tax authorities.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

5. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS (Continued)

5.1 Key estimation of uncertainties (Continued)

(vi) Intangible assets – contracts with various sports players

Intangible assets acquired separately are measured at initial recognition at cost. The cost of intangible assets acquired in a business combination is the fair value as at the date of acquisition.

The life of the intangible assets ranges from 1 to 4 years based on the respective sports players' contract. These are reviewed annually on a player by player basis to determine whether there are indicators of impairment. Determining whether the intangible asset should be impaired at the reporting date, factors such as whether the sports player will remain an active member of the playing squad and an assessment of the league that the football team will be playing in, will be taken into account.

As at 31 December 2019, the carrying amount of the intangible asset is RMB280,829,000 (2018: RMB234,870,000).

(vii) Provision for impairment of trade debtors and other receivables

Under HKFRS 9, the Group makes allowances on items subjects to ECL (including debtors, deposits and other receivables (excluding prepayments and prepaid other taxes) based on assumptions about risk of default and expected loss rates. The Group uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on the Group's past history, existing market conditions as well as forward looking estimates at the end of each reporting period as set out in note 2.13 As at 31 December 2019, the aggregate carrying amounts of debtors, deposits and other receivables (excluding prepayments and prepaid other taxes) amounted to RMB27,035,652,000 (net of ECL allowance of RMB1,142,166,000) (2018: RMB18,196,025,000 (net of ECL allowance of RMB783,164,000)).

When the actual future cash flows are different from expected, such difference will impact the carrying amount of trade receivables and other items within the scope of ECL of HKFRS 9 and credit losses in the periods in which such estimate has been changed.

(viii) Estimation of goodwill impairment

The Group tests whether goodwill has suffered any impairment on an annual basis. The recoverable amount of CGU is determined based on value-in-use calculations which require the use of assumptions. Details of impairment assessment and key assumptions are disclosed in note 21(a).

(ix) Fair value measurement of financial instruments

Financial asset at FVTPL amounting to RMB6,832,938,000 (2018: RMB6,636,349,000) as at 31 December 2019 is measured at fair value with fair value being determined based on unobserved inputs using valuation techniques. Judgement and estimation are required in establishing the relevant valuation techniques and the relevant inputs thereof. Changes in assumptions relating to these factors could affect the reported fair values of these instruments. Further disclosures regarding the fair value measurement of these financial assets are set out in note 4.3.

(x) Impairment of associates and joint ventures

The investments in associates or joint ventures are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. The recoverable amount of investments is evaluated based on the financial position of associates or joint ventures, historical and expected future performance by management judgement. A considerable amount of judgement is required in assessing the ultimate recoverability of the investments.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

5. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS (Continued)

5.2 Critical accounting judgements

(i) Revenue recognition from sales of properties

Revenue from sales of properties is recognised over time when the Group's performance under a sales contract does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date; otherwise the revenue is recognised at a point in time when the buyer obtains control of the completed property. The Group may not change or substitute the property unit or redirect the property unit for another use due to the contractual restrictions with the customer and thus the property unit does not have an alternative use to the Group. However, whether there is an enforceable right to payment depends on the terms of sales contract and the interpretation of the applicable laws that apply to the contract. Such determination requires significant judgements. The Group has obtained legal counsel opinion regarding the enforceability of the right to payment for sales contracts. Management uses judgements, based on legal counsel opinion, to classify sales contracts into those with enforceable right to payment for performance completed to date and those without the right.

The Group recognises property development revenue over time by reference to the progress toward complete satisfaction of the performance obligation at the reporting date. The progress is measured based on the Group's efforts or inputs to the satisfaction of the performance obligation, by reference to the contract costs incurred up to the reporting date as a percentage of total estimated costs for each property unit in the contract. The Group calculated the cost allocation based on type of properties, gross and saleable floor areas. Significant judgements and estimations are required in determining the completeness of the estimated total costs and the accuracy of progress towards complete satisfaction of the performance obligation at the reporting date. The Group has a standard cost budgeting and estimate completion process in which management reviews the development progress and execution of the performance obligations. As part of this process, management reviews information including but not limited to, the cost to achieve the schedule. Changes in cost estimates in future periods can have effect on the Group's revenue recognised. In making the above estimations, the Group relies on past experience and work of contractors and, if appropriate, surveyors.

The Group recognised sales of properties over time amounted to RMB2,011,751,000 (2018: RMB5,493,620,000) (note 6) for the year ended 31 December 2019.

(ii) Classification of financial assets at FVTPL

Note 20 describes that the investment in an unlisted entity is treated as financial assets at FVTPL although the Company has 21.98% effective equity interest in this investee. The Group is entitled to appoint a director of the investee's board of directors out of a total of seven. In making the judgement, the directors of the Company considered the majority ownership of the investee is concentrated by a major shareholder who operate the investee and direct all the relevant financing and operating decisions relating to daily investment activities for the investee by simple majority votes without regard to the views of the Group and concluded that it does not have sufficient significant influence over the relevant activities of this investee or to participate in their operations. Accordingly, the investee is classified as financial assets at FVTPL.

(iii) Business combinations and control over Kaisa Health Group Holdings Limited ("Kaisa Health Group")

The Group has de facto control over Kaisa Health Group in November 2018 and since then the Group's 42.89% interest at the completion date of right issue of Kaisa Health Group (2018: 42.89%) is accounted for and consolidated into the consolidated financial statements of the Group as a subsidiary. The directors of the Company assessed whether the Group has control over Kaisa Health Group based on whether the Group has the practical ability to direct the relevant activities of Kaisa Health Group unilaterally. Key judgments adopted in concluding the Group has obtained control in Kaisa Health Group are: the Group has held a majority of the voting rights exercised at Kaisa Health Group's shareholders' meetings and no other single shareholder directly or indirectly controls more voting rights than the Group; the shareholding of other non-controlling interests is dispersed and the chance of all other shareholders getting together to vote against the Group is remote; and the Group has obtained effective control over majority of the board of Kaisa Health Group.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

6. SEGMENT INFORMATION

The CODM has been identified as the executive directors of the Company who are responsible for reviewing the Group's internal reporting in order to assess performance and allocate resources. The management has determined the operating segments based on these reports. The executive directors assessed the performance of each single operating segment based on a measure of segment results. Fair value loss of financial derivatives, net fair value gain/loss on financial assets at FVTPL, net gain on repurchase of senior notes, corporate and other unallocated expenses, finance income, finance costs and income tax expenses are not included in the result for each operating segment.

The CODM identified the segments based on the nature of business operations. Specifically, the CODM assessed the performance of property development, property investment, property management services, hotel and catering operations, cinema, department store and cultural centre operations, water-way passenger and cargo transportation operation and regarded these being the reportable segments. The healthcare business was insignificant to present as a separate segment and grouped under other operating segments.

As the CODM of the Group considers most of the revenue and results of the Group are attributable to the market primarily in the PRC, and over 90% of the Group's assets are located in the PRC, no geographical segment information is presented.

Revenue for the year ended 31 December 2019 consists of the following:

	2019 RMB'000	2018 RMB'000
Sales of properties		
– Completed properties held for sale	40,451,657	29,766,932

Contribution to pension plans

Employees in the Group’s PRC subsidiaries are required to participate in a defined contribution retirement scheme administrated and operated by the local municipal governments. The Group’s PRC subsidiaries contribute funds which are calculated on certain percentage of the average employee salary as agreed by local municipal governments to the scheme to fund the retirement benefits of the employees.

The Group also participates in a pension scheme under the rules and regulations of the Mandatory Provident Fund Scheme Ordinance (“MPF Scheme”) for all employees in Hong Kong. The contributions to the MPF Scheme are based on minimum statutory contribution requirement of the lower of 5% of eligible employees’ relevant aggregate income and the maximum contribution is HK\$1,500.

Valuation processes of the Group

The Group obtains independent valuations from Savills Valuation and Professional Services Limited, for its investment properties at least semi-annually. For all investment properties, their current use equates to the highest and best use.

Discussions of valuation processes and results are held between the management, audit committee and the valuers at least once every six months, in line with the Group's interim and annual reporting dates.

At each of half year-end, the management:

- Verifies major inputs to the independent valuation report;
- Assesses property valuations movements when compared to the prior year valuation report; and
- Holds discussions with the independent valuer.

Valuation techniques

Fair value measurements using significant unobservable inputs

Fair values of completed commercial properties are generally derived using the income capitalisation method. This valuation method is based on the capitalisation of the net income and reversionary income potential by adopting appropriate capitalisation rates, which are derived from analysis of sale transactions and valuers' estimates of prevailing investor requirements or expectations. The prevailing market rents adopted in the valuation have reference to recent lettings, within the subject properties and other comparable properties.

Significant inputs used to determine fair value

	2019		2018	
	Commercial	Carpark	Commercial	Carpark
Capitalisation rate	3.0%-6.5%	6.5%	3.0%-6.5%	6.5%
Expected vacancy rate	0%-5%	N/A	0%-5%	N/A
Monthly rental	RMB21-594 per sq.m.	RMB2,300 per unit	RMB26-590 per sq.m.	RMB2,500 per unit

Capitalisation and discount rates are estimated by the valuer based on the risk profile of the properties being valued. The higher the rates, the lower the fair value.

Fair values of commercial properties under development are generally derived using the combination of direct comparison method by making reference to the comparable market transactions for the land portion as available in the market and the income capitalisation method by capitalising market rent derived from the properties. This valuation method is essentially a means of valuing the land and properties under development by reference to its development potential by deducting development costs together with developer's profit and risk from the estimated capital value of the proposed development assuming completed as at the date of valuation.

Significant inputs used to determine fair value

	2019	2018
Term yield and revisionary yield	4.35% – 4.75%	4.35% – 4.75%
Budgeted construction cost (RMB/sq.m.)	312-6,078	197-6,152
Anticipated developer's profit margin	10% – 20%	5% – 20%

The higher the term yield and revisionary yield, the lower the fair value.

Estimated costs to complete per square meter and developer's profit margin required are estimated by the valuer based on market conditions at the year end dates. The estimates are largely consistent with the budgets developed internally by the Group based on management's experience and knowledge of market conditions. The higher the estimated costs to be incurred, the lower the fair value. The higher the anticipated developer's profit margin, the higher the fair value.

As at 31 December 2019 and 2018, the fair value measurement of the Group's investment properties is categorised at level 3. During the years ended 31 December 2019 and 2018, there were no transfers into or out of level 3.

On 28 November 2017, the Group had entered into an agreement with an independent third party to acquire 50,621,064 shares in Southern Shuanglin Bio-pharmacy Co., Ltd.* (previously known as Zhenxing Biopharmaceutical & Chemical Co., Ltd.) (“Shuanglin Bio-pharmacy”) at the consideration of RMB2,186,830,000. Shuanglin Bio-pharmacy is listed in Shenzhen Stock Exchange. Shuanglin Bio-pharmacy is engaged in research, development, production and sales of blood products. During the year ended 31 December 2019, the transfer of shares had been completed. The Group is entitled to appoint two directors of Shuanglin Bio-pharmacy out of a total of nine, the directors of the opinion that the Group can exercise significant influence over Shuanglin Bio-pharmacy and recognised as an associate. The Group further acquired 343,111 shares at the consideration of RMB10,022,000. As at 31 December 2019, the Group had 18.57% equity interest in Shuanglin Bio-pharmacy.

In addition, the Group entered into a cooperation agreement with an independent third party to set up a company, namely Fuzhou Jinpeng Sheng Tian Property Development Co., Ltd. (“Fuzhou Jinpeng”) (2018: Fuzhou Xin De Yuan Property Development Co. Ltd. (“Xin De Yuan”) to obtain a development project for redevelopment. The Group and the independent third party injected capital of RMB2,499,000,000 and RMB2,601,000,000 (2018: RMB1,568,000,000 and RMB1,632,000,000) to Fuzhou Jinpeng (2018: Xin De Yuan), respectively. The Group had 49% equity interest in Fuzhou Jinpeng and Xin De Yuan.

During the year ended 31 December 2019, the Group filed a claim to the court against the substantial shareholder of an associate, Xing Huo Ju Long Technology Investment Co., Ltd. (“Xing Huo”) that the shareholder agreement signed in the acquisition of Xing Huo in 2010 was invalid and entitled to claim back the consideration paid by the Group including the cash consideration and eight shops located in Luowo district in Shenzhen. In the opinion of the directors, the Group could not exercise significant influence and derecognise Xing Huo from the investments in associates. A loss on derecognition of interest in an associate of RMB252,016,000 (note 8) was recognised for the year ended 31 December 2019.

The remaining additions represented investments in a number of property development companies together with certain third parties. For the year ended 31 December 2018, the Group entered into agreements with third parties to acquire four immaterial associates in aggregate amounts of RMB325,238,000 and, the Group injected additional capital amounting to RMB331,630,000 into certain associates.

19. INVESTMENTS ACCOUNTED FOR USING THE EQUITY METHOD (Continued)

(a) Investments in associates (Continued)

As at 31 December 2019, the fair value of the Group's interests in associates Nam Tai Property Limited ("Nam Tai"), Kaisa JiaYun Technology Inc. ("JiaYun Technology") and Shuanglin Bio-pharmacy, which are listed in the New York Stock Exchange, Shenzhen Stock Exchange and Shenzhen Stock Exchange was RMB551,463,000, RMB546,313,000 and RMB1,635,060,000 (2018: RMB547,535,000, RMB586,609,000 and nil) respectively based on the market prices available on the respective stock exchanges, which is level 1 input in terms of HKFRS 13, Fair value measurement.

As at 31 December 2018, management has reviewed the shortfall between the carrying amount of a Shenzhen Stock Exchange listed associate, JiaYun Technology, and the market value of JiaYun Technology at the end of the reporting period. The management considers that the value in use based on discounted future cash flows of JiaYun Technology is lower than the carrying amount and the market value of JiaYun Technology, hence, impairment loss on interest in an associate amounting to RMB658,685,000 (note 8) was recognised during the year ended 31 December 2018.

As at 31 December 2019 and 31 December 2018, 101,419,425 (2018: 101,419,425) shares of JiaYun Technology were pledged as collateral for the Group's borrowings (note 31).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

21. GOODWILL AND INTANGIBLE ASSETS (Continued)

Note:

- (a) The Group's goodwill arose from business combinations in connection with the acquisition of (i) Kaisa Health Group, (ii) Fujian Jianke Insurance Brokers Co. Ltd.* ("Fujian Jianke"), (iii) Shenzhen Qijia Internet Technology Co. Ltd.* ("Qijia"), (iv) Shanghai Yitao Sports Culture Communication Co., Ltd.* (上海毅濤體育文化傳播有限公司) and its subsidiary (collectively referred to as "Shanghai Yitao Group"), (v) Shenzhen Football Co., Ltd. ("Shenzhen Football Club"), (vi) Qinghai Pharmaceutical Co., Ltd.* ("Qinghai Pharmaceutical"), (vii) Jiaxing Dashu Property Management Company Limited* and its subsidiaries ("Jiaxing Dashu Group") and (viii) Jiangsu Hengyuan Property Management Company Limited* and its subsidiary ("Jiangsu Hengyuan Group").

For the purpose of impairment testing, goodwill has been allocated to eight cash-generating units ("CGUs") of RMB121,493,000 (2018: RMB121,493,000) in sports operations included in cinema, department store and cultural centre operations segment, RMB286,000 (2018: RMB286,000) in entertainment operations included in cinema, department store and cultural centre operations segment, RMB473,857,000 (2018: RMB203,931,000) in healthcare operations included in other segment, RMB2,462,000 (2018: RMB2,462,000) in financial service operations included in other segment and RMB47,051,000 (2018: RMB4,207,000) in property management operations included in property management segment.

The recoverable amounts of the CGUs are determined by directors of the Company based on value-in-use calculations. These calculations use in cash flow projections in relation to the CGU of sports operations based on financial budgets approved by management covering a 5-year (2018: 5-year) period and assumed the growth rate and inflation rate of 25.7% (2018: 22.9%) per annum and 3% (2018: 3%) per annum respectively. The cash flow discounted using a pre-tax discount rate of 12% (2018: 12%) and reflects specific risks relating to the relevant segments. The value assigned to the key assumptions on market development and discount rates are consistent with external information sources. As at 31 December 2019, the Directors of the Company conducted a review on goodwill relating to sports operation and no impairment loss in respect of goodwill has been recognised (2018: nil).

In relation to Kaisa Health Group, the recoverable amount of the CGU is determined based on fair value less costs of disposal by using the income approach (discounted cash flow method). The calculation uses cash flow projections derived from the financial budgets approved by the management covering a 5-year period with an average growth rate of 35.5% per annum. Cash flows beyond the five-year period are extrapolated using 3% growth rate. A pre-tax discount rate of 25.6% is used for this CGU and derived using risk-free rate, the market returns and CGU specific factors. The key assumptions are annual growth rates, estimated future selling prices and direct costs which are estimated based on past practices and expectations of future changes in the market. During the year ended 31 December 2019, the directors of the Company reviewed the carrying amounts of CGUs and identified that the recoverable amounts of CGUs, were less than their carrying amounts of assets of CGUs. Accordingly, the carrying amounts of the goodwill and the intangible assets were reduced to their recoverable amounts and impairment loss of approximately RMB203,931,000 and RMB473,361,000 respectively had been recognised in the profit or loss for the year ended 31 December 2019.

As at 31 December 2018, the recoverable amount of the CGU is determined based on value-in-use calculation. The calculation uses cash flow projections based on financial budgets approved by the management for the year ending 31 December 2019 and the following four years based on average growth rate of 35.5% per annum. Cash flows beyond the five-year period are extrapolated using 3% growth rate. A discount rate of 19.0% is used for this CGU and derived using risk-free rate, the market returns and CGU specific factors. The key assumptions are annual growth rates, estimated future selling prices and direct costs which are estimated based on past practices and expectations of future changes in the market. The Directors believe that any reasonably possible change in any of these assumptions would not cause the aggregate carrying amount of CGU to exceed the aggregate recoverable amount of CGU. As at 31 December 2018, the Directors of the Company conducted a review on goodwill and no impairment loss in respect of goodwill has been recognised.

In relation to Qinghai Pharmaceutical, the recoverable amount of the CGU is determined based on value-in-use calculation. The calculation uses the five-year cash flow projections based on financial budgets approved by the management with an average growth rate of 20% per annum. Cash flows beyond the five-year period are extrapolated using 3% growth rate. A pre-tax discount rate of 18.01% is used for this CGU and derived using risk-free rate, the market returns and CGU specific factors. The key assumptions are annual growth rates, estimated future selling prices and direct costs which are estimated based on past practices and expectations of future changes in the market. The Directors believe that any reasonably possible change in any of these assumptions would not cause the aggregate carrying amount of CGU to exceed the aggregate recoverable amount of CGU. As at 31 December 2019, the Directors of the Company conducted a review on goodwill and no impairment loss in respect of goodwill has been recognised.

- (b) The amounts represent the costs to acquire sports players' contracts or to extend their contracts, including the related agent's fees. The amortisation period ranged from 1 to 5 (2018: 1 to 4) years.
- (c) The trademarks and patent, customer relationship and distribution network were measured at their fair values at the date of acquisition and the valuation of the intangible assets is performed by an independent professional valuer not related to the Group. The fair value of these intangible assets at the date of acquisition was determined based on the income approach by estimating the future income arising from these intangible assets and the cost approach by reference to the financial information provided by the Group. The expected useful lives of these intangible assets ranged from 5 to 11 (2018: 5 to 11) years.

The Group applies the simplified approach to provide for ECL prescribed by HKFRS 9. As at 31 December 2019, a provision of RMB72,472,000 was made against the gross amount of trade receivables (2018: RMB23,470,000) (note 4.1(ii)).

Generally, no credit terms were granted to the customers of residential properties. There is no concentration of credit risk with respect to trade debtors as the Group has a large number of customers as at 31 December 2019.

Included in the Group's trade debtors of RMB247,885,000 were due over 180 days and within 270 days (2018: RMB408,243,000 were not yet due) as at 31 December 2019. The balances mainly represented receivables from sales of commercial and residential properties and property under development to independent third parties. These receivables were repayable within one month (2018: six months to nine months) after the completion of certain legal documents, which were expected to be settled in the next year.

Receivables that were past due but not impaired related to the balances primarily represented receivables from residential properties to independent third parties of which the majority of the balances were due from customers in the process of applying mortgage loans.

The Group did not hold any collateral as security or other credit enhancements over the trade receivables.

(v) The carrying amounts of the Group's receivables are mainly denominated in RMB and US\$.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

24. DEBTORS, DEPOSITS AND OTHER RECEIVABLES (Continued)

- (c) Impairment losses in respect of debtors, deposits and other receivables (excluding prepayments and prepaid other taxes) are recorded using an allowance account unless the Group is satisfied that recovery of the amounts are remote, in which case the impairment losses are written off against debtors, deposits and other receivables (excluding prepayments and prepaid other taxes) directly. The movement in the allowance for impairment of debtors, deposits and other receivables (excluding prepayments and prepaid other taxes) is disclosed in note 4.1(ii).
- (d) Prepayments mainly represent prepayments for purchase of construction materials and services.
- (e) The maximum credit risk exposure is the amount shown on the consolidated statement of financial position.

25. DEPOSITS FOR LAND ACQUISITION

Deposits for land acquisition arise from the acquisition of land in various regions in the PRC. These deposits would be converted into land use rights when the rights to use the lands have been obtained. The carrying amounts of the Group's deposits for land acquisition are mainly denominated in Renminbi.

26. PREPAYMENTS FOR PROPOSED DEVELOPMENT PROJECTS

The Group has entered into a number of contractual arrangements relating to redevelopment of certain areas and other development projects with independent third parties and has made prepayments in accordance with the terms of these respective contracts. These prepayments would be converted into properties under development upon the completion of the contracts.

27. RESTRICTED CASH

Restricted cash mainly comprised of:

- (a) In accordance with relevant documents issued by local State-Owned Land and Resource Bureau, certain subsidiaries of the Group engaged in property development are required to place in designated bank accounts certain amount of proceeds from pre-completion sale of properties as guaranteed deposits for constructions of related properties. The deposits can only be used for purchases of construction materials and construction of the relevant property projects when approvals are obtained from local State-Owned Land and Resource Bureau. As at 31 December 2019, such guaranteed deposits amounted to RMB2,877,310,000 (2018: RMB3,707,171,000). They will be released after the construction of the relevant properties is completed or the related property ownership certificates are issued, whichever is earlier.
- (b) As at 31 December 2019, the Group's cash of RMB2,267,537,000 (2018: RMB160,656,000) was deposited in certain banks as guaranteed deposits for the benefit of mortgage loan facilities (note 38) granted by the banks to the purchasers of the Group's properties.

31. BORROWINGS (Continued)

Notes: (Continued)

(a) Senior Notes (Continued)

The major terms and conditions of the senior notes include early redemption options of the Company and the repurchase of the senior notes upon a change of control. Early redemption options exercisable by the Group are regarded as embedded derivatives not closely related to the host contract. The directors of the Company consider that the fair value of the above early redemption options was insignificant on initial recognition as at 31 December 2019 and 2018.

The senior notes are secured by the pledge of shares of the Group's subsidiaries incorporated outside the PRC, and are jointly and severally guaranteed by certain subsidiaries of the Group.

The movement of the Senior Notes is as follow:

	2019 RMB'000	2018 RMB'000
Carrying amount as at 1 January	39,726,866	34,752,933
Accrued interests (note 9)	5,062,042	3,007,885
Interests paid	(3,693,926)	(3,353,695)
Repurchase/repayment of Senior Notes	(6,087,357)	(2,157,866)
Senior Notes recognised	20,872,250	5,862,362
Transaction costs	(222,251)	(224,774)
Exchange difference	761,239	1,840,021
Carrying amount as at 31 December	56,418,863	39,726,866

During the year ended 31 December 2019, the Company repurchased US\$250,000,000 of the 2020 7.25% Notes (equivalent to approximately RMB1,683,375,000), US\$175,000,000 of the 2021 7.875% Notes (equivalent to approximately RMB1,351,400,000), and the 2019 6.1% Private Notes (equivalent to approximately RMB1,079,206,000), and repaid the 2019 12.0% Notes (equivalent to approximately RMB1,973,376,000) resulted a gain on repurchase of senior notes of approximately RMB178,438,000 (note 8). The repurchase did not constitute a substantial modification.

(b) Convertible Bonds

On 14 January 2019, the Company issued 10.5% convertible bonds at an aggregate principal amount of US\$100,000,000 (equivalent to approximately RMB643,496,000) (the "Convertible Bonds") which will be matured on 14 July 2021 (the "Maturity Date"). The Convertible bonds are denominated in United States dollars and are secured by the shares of the Company and certain subsidiaries of the Group. The Convertible Bonds entitle the holders to convert them into ordinary shares of the Company at any time starting from 41 days after the date of issue of the Convertible Bonds to 10 days before the Maturity Date at a conversion price of HK\$5 per share (translated into HK\$ at a fixed rate of exchange equal to US\$1.00: HK\$7.83) subject to antidilutive adjustments. The conversion price of the Convertible Bonds was adjusted to HK\$4.86 per share with effect from 25 June 2019, pursuant to the terms and conditions of the Convertible Bonds, as a result of the approval by the shareholders of a final dividend of HK9.0 cents per share for the year ended 31 December 2018. The conversion price of the Convertible Bonds was further adjusted to HK\$4.82 per share with effect from 5 December 2019, pursuant to the terms and conditions of the Convertible Bonds, as a result of the approval by the shareholders of an interim dividend of HK3.0 cents per share for the year ended 31 December 2019. Neither the Company nor the holders of the Convertible Bonds may demand early redemption. The terms of Convertible Bonds do not satisfy the "fixed for fixed" rule in HKFRS 9. The proceeds of the Convertible Bonds were allocated into two components, debt and financial derivative elements on initial recognition. The Convertible Bond bears interest at 10.5% per annum on the outstanding principal amount and would be payable semi-annually in arrears until the Convertible Bonds are converted or matured. As at 31 December 2019, there has been no conversion of the Convertible bonds. The Convertible Bonds are listed on the Singapore Exchange Securities Trading Limited

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

36. THE GROUP'S RESERVES (Continued)

Notes:

- (a) The merger reserve of the Group represents the difference between the nominal value of the share capital and share premium of the subsidiaries acquired pursuant to the group reorganisation in December 2007 and the nominal value of the share capital of the Company issued in exchange thereof. The reorganisation qualifies as common control combinations and has been accounted for using merger accounting.
- (b) In accordance with the relevant rules and regulations in the PRC and the provision of the articles of association of the PRC companies comprising the Group, before 1 January 2006, the local investment enterprises were required to appropriate at each year end 5% to 10% of the profit for the year after netting off the accumulated losses brought forward (based on figures reported in the statutory financial statements) to the statutory surplus reserve and the statutory public welfare fund (collectively the "Statutory Reserves"), respectively. After 1 January 2006, the local investment enterprises are allowed to appropriate 10% of the net profit to the Statutory Reserves until the accumulated appropriation exceeds 50% of the registered capital.

For Chinese-foreign entities, in accordance with the Law of the PRC on Chinese-foreign Equity Joint Ventures, the percentage of profits to be appropriated to the Statutory Reserves is solely determined by the Board of Directors of these foreign investment enterprises.

In accordance with the Laws of the PRC on Enterprises Operated Exclusively with Foreign Capital and the companies' articles of association, an appropriation to the Statutory Reserves, after net of accumulated losses of previous years, have to be made prior to profit distribution to the investor. The appropriation for the Statutory Reserve of these foreign investment enterprises shall be no less than 10% of the net profit until the accumulated appropriation exceeds 50% of the registered capital.

For the year ended 31 December 2019, the Board of Directors of the Company's subsidiaries in the PRC, including both local and foreign investment enterprises, appropriated RMB99,264,000 (2018: RMB6,009,000) to the Statutory Reserves.

- (c) Share option reserve represents value of employee services in respect of share options granted under the Share Option Scheme (note 42).
- (d) Capital reserve arose from the difference between the amount by which the non-controlling interests are adjusted and the consideration paid for the acquisition of additional equity interest in subsidiaries.

38. FINANCIAL GUARANTEES CONTRACTS

The Group had the following financial guarantees as at 31 December 2019 and 2018:

	2019 RMB'000	2018 RMB'000
Guarantees in respect of mortgage facilities for certain purchasers of the property units sold by the Group	32,816,544	30,587,387

The guarantees in respect of mortgage facilities granted by certain banks related to mortgage loans arranged for certain purchasers of the Group's properties. Pursuant to the terms of the guarantees, upon default in mortgage payments by these purchasers, the Group is responsible to repay the outstanding mortgage principals together with accrued interest and penalty owed by the defaulted purchasers to the banks and the Group is entitled to take over the legal title and possession of the related properties. Such guarantees expire or terminate upon the earlier of (i) issuance of the property ownership certificates which are generally be available within six months to one year after the purchasers take possession of the relevant properties; and (ii) the mortgage loans obtained by the purchasers of properties.

The directors consider that in case of default in payments, the net realisable value of the related properties can cover the repayment of the outstanding mortgage principals together with the accrued interest and penalty and therefore no provision has been made in the consolidated financial statements for the guarantees.

(b) Lease commitments

At the reporting date, the lease commitments for short-term leases (2018: the future aggregate minimum lease payments under non-cancellable operating leases in respect of land and buildings and office equipment) are as follows:

	2019 RMB'000	2018 RMB'000
Not later than one year	6,441	167,967
Later than one year and not later than five years	–	398,140
Later than five years	–	586,360
	6,441	1,152,467

As at 31 December 2019, the Group leases staff quarters, offices and office equipment with a lease period of twelve months, which are qualified to be accounted for under low-value assets and short-term lease exemption under HKFRS 16.

As at 31 December 2018, the Group leases a number of properties and office equipment under operating leases. The leases run for an initial period of one to nineteen years, with an option to renew the lease and renegotiate the terms at the expiry date or at the dates as mutually agreed between the Group and respective landlords/lessors. None of the leases include contingent rentals.

(c) Operating lease rentals receivable

The future aggregate minimum lease rentals receivable under non-cancellable operating leases in respect of land and buildings are as follows:

	2019 RMB'000	2018 RMB'000
Within 1 year	211,320	174,899
After 1 year but within 2 years	182,619	168,879
After 2 years but within 3 years	135,328	142,118

After 5 years	182,316	227,787
	874,199	935,094

The Group leases its investment properties (note 17) under operating lease arrangements which run for an initial period of one to twenty-one (2018: one to forty-eight) years, with an option to renew the lease and renegotiated the terms at the expiry date or at the dates as mutually agreed between the Group and the respective tenants. The terms of the leases generally also require the tenants to pay security deposits.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

40. ACQUISITIONS OF SUBSIDIARIES

(a) Acquisitions of assets

During the year ended 31 December 2019, the Group entered into agreements with independent third parties to acquire offices and certain property development companies at total consideration of RMB1,258,465,000. These companies did not operate any business prior to the acquisitions and only had land and building included in property, plant and equipment, properties under development and prepayment for proposed development projects. Therefore, the Group considered this would be an acquisition of assets in substance and as a result the difference between the purchase consideration paid and the net assets acquired would be recognised as adjustments to the carrying value of land and building included in property, plant and equipment, properties under development, and prepayment for proposed development projects.

The considerations of all these transactions were based on the fair value of the assets acquired.

The non-controlling interests recognised at the acquisition date were measured by reference to the proportionate share of the recognised amounts of the acquiree's identifiable net assets.

The aggregate balances of identifiable assets and liabilities arising from these acquisitions as at their respective acquisition date are as follows:

	2019 RMB'000
Property, plant and equipment	863,574
Properties under development	760,925
Prepayment for proposed development projects	12,666
Debtors, deposits and other receivables	231,179

(a) Acquisitions of assets (Continued)

During the year ended 31 December 2018, the Group acquired controlling equity interests of several individually immaterial subsidiaries at a total consideration of approximately RMB1,571,903,000. These companies did not operate any business prior to the acquisitions and only had properties under development and prepayment for proposed development projects. Therefore, the Group considered this would be an acquisition of assets in substance and as a result the difference between the purchase consideration paid and the net assets acquired would be recognised as adjustments to the carrying value of properties under development and prepayment for proposed development projects.

The considerations of all these transactions were based on the fair value of the assets acquired.

The non-controlling interests recognised at the acquisition date were measured by reference to the proportionate share of the recognised amounts of the acquiree's identifiable net assets.

(b) Acquisitions of businesses

Acquisition of Qinghai Pharmaceutical

During the year ended 31 December 2019, the Group entered into agreement with an independent third party to acquire 54.84% equity interests in Qinghai Pharmaceutical which is engaged in manufacturing and trading of pharmaceutical products to diversify their healthcare business at a consideration of RMB581,658,000. The directors of the Group were of the view that the acquisition constitutes acquisition of business.

The non-controlling interests recognised at the acquisition date were measured by reference to the proportionate share of the recognised amounts of the acquiree's identifiable net assets.

The following table summarises the consideration paid for the acquisitions, the aggregate amounts of fair value of the assets acquired and liabilities assumed of Qinghai Pharmaceutical at the acquisition date.

	2019 RMB'000

The Jiaxing Dashu Group contributed revenues of approximately RMB94,624,000 and net profit of approximately RMB5,084,000 to the Group for the period from the acquisition date to 31 December 2019. If the acquisitions had occurred on 1 January 2019, the Group's consolidated revenue and consolidated profit for the year would have been increased by approximately RMB37,530,000 and decreased by approximately RMB1,567,000 respectively.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

40. ACQUISITIONS OF SUBSIDIARIES (Continued)

(b) Acquisitions of businesses (Continued)

Acquisitions of Jiaying Dashu Group and Jiangsu Hengyuan Group (continued)

The Jiangsu Hengyuan Group contributed revenues of approximately RMB14,300,000 and net profit of approximately RMB1,403,000 to the Group for the period from the acquisition date to 31 December 2019. If the acquisitions had occurred on 1 January 2019, the Group's consolidated revenue and consolidated profit for the year would have been increased by approximately RMB65,200,000 and decreased by approximately RMB1,812,000 respectively.

The consideration for the acquisition of Jiangsu Hengyuan Group of RMB34,160,000 is subject to downward adjustment of certain performance targets of the Jiangsu Hengyuan Group. With reference to the announcement of Kaisa Prosperity Holdings Limited ("Kaisa Prosperity") on 31 October 2019, the Group may, at its discretion, terminate the agreement or re-negotiate for a lower consideration with the vendors. However, the directors of the Group consider that the probability of not meeting these performance target is low.

Acquisition of Xinghai Tea Co., Ltd.* ("Xinghai Tea")

On 27 January 2018, the Group acquired 80% equity interest in Xinghai Tea from third parties at a total cash consideration of RMB4,800,000 to diversify its business. Xinghai Tea is principally engaged in trading of tea leaf. Thus, the Directors of the Company are of the view that the acquisition constitutes an acquisition of business.

The non-controlling interests recognised at the acquisition date were measured by reference to the proportionate share of the recognised amounts of the acquiree's identifiable net assets.

Details of the aggregate fair values of the identifiable assets and liabilities of Xinghai Tea as at the date of acquisition are as follows:

	2018 RMB'000
Inventories	655

Guangzhou Mosi contributed total revenue of approximately RMB1,517,000 and net loss of approximately RMB4,293,000 to the Group for the period from the acquisition date to 31 December 2018. Had Guangzhou Mosi been consolidated from 1 January 2018, the consolidated statement of profit or loss and other comprehensive income would show the increase in pro-forma revenue by approximately RMB47,000 and the increase in pro-forma loss for the year by approximately RMB133,000.

(c) Acquisition of additional interests in subsidiaries

During the year ended 31 December 2019, the Group entered into a cooperation agreement with an associate of the Group to acquire 90% direct equity interest in Guangzhou Yurui Real Estate Development Co., Ltd.* (Guangzhou Yurui") and its subsidiaries ("Guangzhou Yurui Group") at RMB18,000,000. The Group's effective equity interest in Guangzhou Yurui Group then increased from 49% to 94.90%.

Guangzhou Yurui entered into a cooperation agreement with Guangdong Kaisa that Guangzhou Yurui injected RMB306,000,000 to Guangzhou Yaxiang Real Estate Development Co., Ltd.* ("Guangzhou Yaxiang") to obtain 25% equity interest in Guangzhou Yaxiang. The Group's effective equity interest in Guangzhou Yaxiang then increased from 49% to 60.48%.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

40. ACQUISITIONS OF SUBSIDIARIES (Continued)

(c) Acquisition of additional interests in subsidiaries (Continued)

Upon the capital injections to Guangzhou Yurui and Guangzhou Yaxiang, the Group is entitled to appoint two directors out of a total of three. In the view of the Group, the Group can operate the investees and direct all relevant financing and operating activities relating to daily investment activities for the investee by simple majority votes. Accordingly, Guangzhou Yurui Group and Guangzhou Yaxiang become subsidiaries of the Group.

Guangzhou Yurui Group and Guangzhou Yaxiang had properties under development and completed properties held for sale, hence the Group considered this would be acquisitions of properties under development and completed properties held for sale in substance.

The non-controlling interests recognised at the acquisition date were measured by reference to the proportionate share of the recognised amounts of the acquiree's identifiable net assets.

40. ACQUISITIONS OF SUBSIDIARIES (Continued)

(d) Acquisition through capital injection

Capital injection in Hengyang Heng Ji Real Estate Co., Ltd.* (“Hengyang Heng Ji”) and Chengdu Huaguan Ke Heng Technology Co., Ltd.* (“Chengdu Huaguan”)

During the year ended 31 December 2018, the Group entered into cooperation agreements with other investors that the Group injected RMB41,600,000 and RMB20,816,000 to Hengyang Heng Ji and Chengdu Huaguan, which are controlled by independent third parties before the capital injection by the Group, respectively to obtain 51% and 51% equity interests in these two companies respectively.

According to the Hengyang Heng Ji’s and Chengdu Huaguan’s cooperation agreement, the Group is entitled to appoint four directors of Hengyang Heng Ji’s board of directors out of a total of five whereas the Group is entitled to appoint two directors of Chengdu Huaguan’s board of directors out of a total of three. In the view of the Group, the Group can operate the investees and direct all the relevant financing and operating decisions relating to daily investment activities for the investee by simple majority votes. Accordingly, the investees are classified as subsidiaries of the Group.

Hengyang Heng Ji and Chengdu Huaguan had properties under development and deposits for land acquisitions respectively hence the Group considered this would be acquisitions of assets in substance.

42. SHARE OPTION (Continued)

(a) Share Option Scheme of the Company (Continued)

Expected volatility was determined by using the historical volatility of the Company's share price from the listing date to the grant date. The risk-free interest rate is equal to Hong Kong Dollar swap rate over the exercise period at the grant date.

The Binomial Option Pricing Model has been used to estimate the fair value of the options. The variables and assumptions used in computing the fair value of the share options are based on the Directors' best estimate. The value of an option varies with different variables of certain subjective assumptions.

The Group recognised a share option expense of RMB139,961,000 (2018: RMB260,612,000) during the year ended 31 December 2019.

(b) Share Option Scheme of Kaisa Health Group

Kaisa Health Group, a non-wholly owned subsidiary of the Company, operates a share option scheme (the "Kaisa Health's Scheme"). The Kaisa Health's Scheme was adopted pursuant to a special general meeting on 8 June 2015 for a period of 10 years as incentive or reward for the grantees for their contribution or potential contribution to Kaisa Health Group and its subsidiaries.

Under the Kaisa Health's Scheme, Kaisa Health Group may grant options to eligible participant which includes any full-time or part-time employees, consultants, potential employees, executives or officers (including executive, non-executive and independent non-executive directors) of Kaisa Health Group or any of its subsidiaries and any suppliers, customers, consultants, agents and advisers who, in the sole opinion of the board of directors, will contribute or has contributed to Kaisa Health Group and/or any of its subsidiaries.

Share options granted to a director, chief executive or substantial shareholder of Kaisa Health Group, or to any of their associates, are subject to approval by the independent non-executive directors of Kaisa Health Group. In addition, any share options granted to a substantial shareholder or any independent non-executive director of Kaisa Health Group, or to any of their associates, which would result in the shares issued and to be issued upon exercise of all share options already granted and to be granted (including share options exercised, cancelled and outstanding) to such person in any one year up to and including the date of such grant (i) representing in aggregate value over 0.1% of the shares of Kaisa Health Group in issue on that date; and (ii) having an aggregate value, based on the closing price of the shares on the date of each grant, in excess of HK\$5 million, are subject to shareholders' approval in a general meeting.

The exercisable period of the options granted are determined by the board of directors of Kaisa Health Group at its absolute discretion. The share options will expire no later than ten years from the date of grant. At the time of grant of the share options, Kaisa Health Group may specify a minimum period for which an option must be held before it can be exercised. The acceptance date should not be later than 14 days after the date of offer. A nominal consideration of HK\$1 is payable on acceptance of the grant of options. The subscription price of the option shares is not less than the higher of (i) the closing price of the shares on the date of grant; (ii) the average closing prices of the shares on the five trading days immediately preceding the date of grant; and (iii) the nominal value of the shares. The maximum number of shares in respect of which options may be granted under the Kaisa Health's Scheme may not exceed, in aggregate, nominal amount of 10% of the issued share capital of Kaisa Health Group at the date of approval of the Kaisa Health's Scheme. The Kaisa Health's Scheme limit may be increased from time to time to 10% of the shares in issue as at the date of such shareholders' approval. However, the total maximum number of shares which may be issued upon exercise of all outstanding share options must not exceed 30% of the issued share capital from time to time. The number of shares in respect of which options may be granted to each eligible participants in any one year is not permitted to exceed 1% of the shares of Kaisa Health Group in issue from time to time.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

42. SHARE OPTION (Continued)

(b) Share Option Scheme of Kaisa Health Group (Continued)

At 31 December 2019, the number of shares in respect of which options had been granted and remained outstanding under the Kaisa Health's Scheme was 259,140,000 (2018: 263,440,000), representing 5.1% (2018: 5.2%) of the shares of Kaisa Health Group in issue at that date.

No share options were granted during the years ended 31 December 2019 and 2018.

The fair values of share options were calculated using binomial option pricing model based on following data:

Grant date	16 June 2015	24 July 2015	12 September 2016
Share price at grant date	HK\$0.780	HK\$0.690	HK\$0.350
Exercise price	HK\$0.784	HK\$0.784	HK\$0.400
Expected volatility	73.49%	80.31%	76.75%
Expected life	5 years	5 years	6 years
Risk-free rate	1.296%	1.230%	0.713%
Expected dividend yield	5.17%	4.62%	0.00%
Early exercise multiples			
– Director and its associate	N/A	2.8x	2.8x
– Employees or consultants	2.2x	N/A	2.2x

The variables and assumptions used in computing the fair value of the share options were based on Kaisa Health Group's directors' best estimate. The value of an option varies with different variables of certain subjective assumptions.

Details of specific categories of options are as follows:

Option type	Date of grant	Vesting period	Exercisable period	Exercise price
2015A	16/6/2015	16/6/2015 – 15/6/2019	16/6/2016 – 15/6/2020	HK\$0.784
2015B	24/7/2015 (note)	16/6/2015 – 15/6/2019	16/6/2016 – 15/6/2020	HK\$0.784
2016	12/9/2016	12/9/2016 – 15/6/2019	12/9/2017 – 11/9/2022	HK\$0.400

Note: Share options subject to approval of independent shareholders was proposed and granted by board of directors of Kaisa Health Group on 16 June 2015. The approval was subsequently obtained on 24 July 2015 which was the date of grant as defined in accordance with HKFRS 2.

Note: Ms. Wu Ansheng is the general manager and sales director of a subsidiary of Kaisa Health Group and a sister of Mr. Wu.

In the opinion of the directors, the fair value of the services received from consultants cannot be estimated reliably, the equity-settled share-based payment transactions with consultants are measured at the fair value of the equity instruments granted.

(c) Share Option Scheme of Kaisa Prosperity

Kaisa Prosperity, a non-wholly owned subsidiary of the Company, operates a share option scheme (the "Kaisa Prosperity's Scheme"). The Kaisa Prosperity's Scheme was adopted pursuant to the shareholders' resolution passed on 18 June 2019. Pursuant to the terms of the share option scheme, Kaisa Prosperity may grant options at its discretion, to any eligible person (including directors, employees, officers of any member of Kaisa Prosperity and its subsidiaries, advisers, consultants, suppliers, agents and customers of any members of the Kaisa Prosperity). The maximum number of shares which may be issued upon exercise of all options granted and yet to be exercised under the Kaisa Prosperity's Scheme or any other Kaisa Prosperity's Schemes adopted by Kaisa Prosperity must not exceed 30% of the Kaisa Prosperity's shares in issue from time to time.

No options may be granted under the Kaisa Prosperity's Scheme after 10 years since the adoption. The vesting periods, exercise periods and vesting conditions may be specified by Kaisa Prosperity at the time of the grant, and the options expire no later than 10 years from the relevant date of grant.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

42. SHARE OPTION (Continued)

(c) Share Option Scheme of Kaisa Prosperity (Continued)

The exercise price of the option under the Kaisa Prosperity's Scheme shall be no less than the highest of (i) the official closing price of Kaisa Prosperity's shares as stated in the daily quotation sheet issued by the Stock Exchange on the date of grant; (ii) the average of the official closing price of Kaisa Prosperity's shares as stated in the daily quotation sheets issued by the Stock Exchange for the five Stock Exchange business days immediately preceding the date of grant; (iii) the nominal value of a share of Kaisa Prosperity.

Details of the movement of the share options under Kaisa Prosperity Scheme are as follows:

	Weighted average exercise price in HK\$ per share	Number
As at 1 January 2019	–	–
Granted during the year	15.7	11,450,000
As at 31 December 2019	15.7	11,450,000

On 19 July 2019, Kaisa Prosperity offered to grant to the directors of Kaisa Prosperity and certain employees of Kaisa Prosperity and its subsidiaries (the "July 2019 Grant") of 2,750,000 and 8,700,000 share options respectively, of HK\$0.1 each in the capital of Kaisa Prosperity.

The valuations were based on the Binomial Option Pricing Model with the following data and assumptions:

	July 2019 Grant
Fair value under binomial model	HK\$84,805,000
Closing share price at grant date	HK\$15.7
Exercise price	HK\$15.7
Annual risk free interest rate	1.87%
Expected volatility	50.86%
Expected option life	10 years
Expected dividend yield	1.15%

Expected volatility was determined by using the historical volatility of Kaisa Prosperity's share price from the listing date to the grant date. The risk free interest rate is equal to HK\$ swap rate over the exercise period at the grant date.

The Binomial Option Pricing Model has been used to estimate the fair value of the options. The variables and assumptions used in computing the fair value of the share options are based on the directors' best estimate. The value of an option varies with different variables of certain subjective assumptions.

(incorporated in Cayman Islands with limited liability)

OPINION

We have audited the consolidated financial statements of Kaisa Group Holdings Ltd. (the "Company") and its subsidiaries (the "Group") set out on pages 93 to 253, which comprise the consolidated statement of financial position as at 31 December 2018, and the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2018, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSAs") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the HKICPA's Code of Ethics for Professional Accountants (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

KEY AUDIT MATTERS (Continued)

Key Audit Matter	How our audit addressed the Key Audit Matter
<p>Valuation of properties under development and completed properties held for sale</p>	
<p>Refer to note 5 of critical accounting estimates and judgements, note 23 of properties under development and note 24 of completed properties held for sale to the consolidated financial statements.</p>	<p>We have understood and evaluated the management's procedures on identifying properties for which the net realisable values may be lower than their carrying amounts, including the methodologies and inputs used in the estimation of the net realisable values.</p>
<p>As at 31 December 2018, the Group had properties under development and completed properties held for sale ("properties") amounting to RMB64,764,338,000 and RMB13,130,534,000, respectively, which in total represented approximately 34.0% of the total assets of the Group. Given the significant balance of properties under development and completed properties held for sale and the involvement of critical accounting estimates, the impairment assessment of these properties is considered a key audit matter.</p>	<p>Our procedures in relation to assessing the appropriateness of the valuation of these properties included:</p> <ul style="list-style-type: none"> (i) testing the calculation for the impairment assessment performed by management; (ii) assessing future costs to be incurred to completion on a sample basis; (iii) comparing the carrying amounts of the properties taking into account the estimated amounts to completion with the related net realisable value with regard to properties under development; and (iv) tested management's key estimates on a sample basis for selling price which is estimated based on prevailing market conditions. We compared the estimated selling price to the recent market transactions by reference to the Group's selling prices of pre-sale units in the same project or the prevailing market price of the comparable properties with similar type, size and location.
<p>These properties are carried at the lower of cost and net realisable value. Significant management judgement is required in determining the estimated net realisable values of these properties with reference to the latest selling prices of the properties and the budgeted costs to be incurred until completion and sale.</p>	
<p>Based on management's analysis of the net realisable value of the properties, write-down of approximately RMB220,178,000 were charged to profit or loss for the year ended 31 December 2018.</p>	
<p>Valuation of investment properties</p>	
<p>Refer to note 5 of critical accounting estimates and judgements, note 2.8 of accounting policy of investment properties and note 16 of investment properties to the consolidated financial statements.</p>	<p>We evaluated the independence, competence and relevant experience of the external valuer engaged by the Company.</p>
<p>As at 31 December 2018, the Group had investment properties amounting to RMB35,930,000,000 which in total represented approximately 15.7% of the total assets of the Group.</p>	<p>We also assessed the scope of the valuations, critical judgements and data used in the valuations and evaluated the methodology and assumptions used.</p>
<p>The estimate of the fair value of the Group's investment properties requires significant management judgement taking into account the conditions and locations of the properties as well as the latest market transactions. To support management's determination of the fair value, the Group has engaged an external valuer to perform valuations on the investment properties at the reporting date. Different valuation techniques were applied to different types of investment properties.</p>	<p>In addition, we evaluated the source data used in the valuations by benchmarking them to relevant market information.</p>

<p>Valuation of interests in associates and joint ventures</p> <p>Refer to note 5 critical accounting estimates and judgements, note 18(a) of investments in associates and note 18(b) of investments in joint ventures to the consolidated financial statements.</p> <p>We identified the valuation of investments in associates and joint ventures as a key audit matter due to the significance of the Group's interests in associates and joint ventures in the context of the Group's consolidated financial statements, combined with the judgements involved in management's impairment assessment of the investments in associates and joint ventures, in particular, the future prospects of each associate and joint venture.</p> <p>As at 31 December 2018, the carrying amounts of investments in associates and joint ventures amounting to RMB7,072,822,000 and RMB8,677,152,000, respectively.</p> <p>As disclosed in notes 2.3 and 2.4 to the consolidated financial statements, investments in associates and joint ventures are carried in the consolidated statement of financial position at cost and adjusted for post-acquisition changes in the Group's share of the net assets of the associates and joint ventures, less accumulated impairment in the values of individual investments. As such, the Group is required to assess at each reporting date whether there is any indication that the carrying amounts of interests in associates and joint ventures may be impaired. For those associates and joint ventures in which such indication exists, the Group assessed the carrying amounts for impairment. As disclosed in notes 18(a) and 18(b) to the consolidated financial statements, impairment of interests in associates and joint ventures RMB658,685,000 was considered to be necessary as at 31 December 2018.</p>	<p>Our procedures in relation to the valuation of investments in associates and joint ventures included:</p> <ul style="list-style-type: none"> • assessing the appropriateness of management's assessment for investments in associates and joint ventures; • understanding the management's process for identifying the existence of impairment indicators in respect of the interests in associates and joint ventures and evaluating the effectiveness of such process; • where indicators of impairment have been identified, assessing the reasonableness of the recoverable amount of each of the relevant associates and joint ventures and obtaining an understanding from management of their financial position and future development plan; and • assessing the reasonableness of key inputs and assumptions used by management in their estimation of recoverable amounts, including projections of cash flows, growth rates and discount rates applied; and comparing cash flow projections to supporting evidence, such as budgets, and evaluating the reasonableness of these budgets with reference to the future prospects of the associates and joint ventures as well as our knowledge of the industry and business.

OTHER INFORMATION

The directors are responsible for the other information. The other information comprises all the information in the 2018 annual report of the Company, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF DIRECTORS FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The directors are assisted by the Audit Committee are responsible for overseeing the Group's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

INDEPENDENT AUDITOR'S REPORT

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

As part of an audit in accordance with HKSAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

INDEPENDENT AUDITOR'S REPORT

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2018

1. GENERAL INFORMATION

Kaisa Group Holdings Ltd. (the “Company”) was incorporated in the Cayman Islands on 2 August 2007 as an exempted company with limited liability under the Companies Law, Cap 22 (2009 Revision as consolidated and revised from time to time) of the Cayman Islands.

The address of the Company’s registered office is Cricket Square, Hutchins Drive, P.O. Box 2681 Grand Cayman, KY1-1111 Cayman Islands.

The Company is engaged in investment holding and its subsidiaries (collectively, the “Group”) are principally engaged in property development, property investment, property management, hotel and catering operations, cinema, department store and cultural centre operations, water-way passenger and cargo transportation in the People’s Republic of China (the “PRC”).

The Company is listed on the Main Board of The Stock Exchange of Hong Kong Limited (the “Stock Exchange”).

These consolidated financial statements are presented in Renminbi (“RMB”), the currency of the primary economic environment in which most of the group entities operate (the functional currency of the Company and most of the entities comprising the Group), and all values are rounded to the nearest thousand (‘000) unless otherwise stated. These consolidated financial statements have been approved for issue by the Board of Directors of the Company on 26 March 2019.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

2.1 Basis of preparation

These annual consolidated financial statements have been prepared in accordance with Hong Kong Financial Reporting Standards (“HKFRSs”) which collective term includes all applicable individual Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards and Interpretations issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”) and the accounting principles generally accepted in Hong Kong.

The consolidated financial statements also comply with the applicable requirements of the Hong Kong Companies Ordinance and include the applicable disclosure requirements of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (“Listing Rules”).

The significant accounting policies that have been used in the preparation of these consolidated financial statements are summarised below. These policies have been consistently applied to all the years presented unless otherwise stated. The adoption of new or amended HKFRSs and the impacts on the Group’s financial statements, if any, are disclosed in note 3. The consolidated financial statements have been prepared on the historical cost basis except for available-for-sale financial assets, financial assets and financial liabilities (including derivative instruments) at fair value through profit or loss and investment properties, which are stated at fair values.

It should be noted that accounting estimates and assumptions are used in preparation of the consolidated financial statements. Although these estimates are based on management’s best knowledge and judgement of current events and actions, actual results may ultimately differ from those estimates. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in note 5.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.2 Consolidation

The consolidated financial statements incorporate the financial statements of the Company and its subsidiaries made up to 31 December each year.

Subsidiaries are entities controlled by the Group. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. When assessing whether the Group has power over the entity, only substantive rights relating to the entity (held by the Group and others) are considered.

The Group includes the income and expenses of a subsidiary in the consolidated financial statements from the date it gains control until the date when the Group ceases to control the subsidiary.

Intra-group transactions, balances and unrealised gains and losses on transactions between group companies are eliminated in preparing the consolidated financial statements. Where unrealised losses on sales of intra-group asset are reversed on consolidation, the underlying asset is also tested for impairment from the Group's perspective. Amounts reported in the financial statements of subsidiaries have been adjusted where necessary to ensure consistency with the accounting policies adopted by the Group.

Non-controlling interests represent the equity on a subsidiary not attributable directly or indirectly to the Company, and in respect of which the Group has not agreed any additional terms with the holders of those interests which would result in the Group as a whole having a contractual obligation in respect of those interests that meets the definition of a financial liability.

Non-controlling interests are presented in the consolidated statement of financial position within equity, separately from the equity attributable to the owners of the Company. Non-controlling interests in the results of the Group are presented on the face of the consolidated statement of profit or loss and other comprehensive income as an allocation of the total profit or loss and total comprehensive income for the year between non-controlling interests and the owners of the Company.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.2 Consolidation (Continued)

(i) Business combinations

The Group applies the acquisition method to account for business combinations. The consideration transferred for the acquisition of a subsidiary comprises the fair values of the assets transferred, the liabilities incurred to the former owners of the acquired business and the equity interests issued by the Group in exchange for control of the acquiree. The consideration transferred includes the fair value of any asset or liability resulting from a contingent consideration arrangement. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date. The Group recognises any non-controlling interest in the acquiree on an acquisition-by-acquisition basis either at fair value or at proportionate share of the acquiree's net identifiable assets.

Non-controlling interests in the acquiree that are present ownership interests and entitle their holders to a proportionate share of the acquiree's net assets in the event of liquidation are measured at either fair value or the proportionate share in the recognised amounts of the acquiree's net identifiable assets. All other components of non-controlling interests are measured at their acquisition date fair value, unless another measurement basis is required by HKFRSs.

Acquisition-related costs are expensed as incurred.

If the business combination is achieved in stages, the carrying value of the acquirer's previously held equity interest in the acquiree is re-measured to fair value at the acquisition date. Any gains or losses arising from such re-measurement are recognised in profit or loss.

Any contingent consideration to be transferred by the Group is recognised at fair value at the acquisition date. Subsequent changes to the fair value of the contingent consideration that is deemed to be an asset or liability is recognised in accordance with HKFRS 9 in profit or loss. Contingent consideration that is classified as equity is not remeasured, and its subsequent settlement is accounted for within equity.

The excess of the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisition-date fair value of any previous equity interest in the acquiree over the fair value of the net identifiable assets acquired is recorded as goodwill. If the total consideration transferred, non-controlling interest recognised and previously held interest measured is less than the fair value of the net identifiable assets of the business acquired, the difference is recognised directly in profit or loss as a bargain purchase.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.2 Consolidation (Continued)

(ii) Changes in ownership interests in subsidiaries without change of control

Transactions with non-controlling interests that do not result in loss of control are accounted for as equity transactions – that is, as transactions with the owners of the subsidiary in their capacity as owners. The difference between fair value of any consideration paid and the relevant share of the subsidiary's carrying value of net assets is recorded in equity. Gains or losses on disposals of non-controlling interests are also recorded in equity.

(iii) Disposal of subsidiaries

When the Group ceases to have control, any retained interest in the entity is re-measured to its fair value at the date when control is lost, with the change in carrying amount recognised in profit or loss. The fair value is the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognised in other comprehensive income in respect of that entity are accounted for as if the Group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognised in other comprehensive income are reclassified to profit or loss.

(iv) Separate financial statements

In the Company's statement of financial position (in note 45 to the consolidated financial statements), subsidiaries are carried at cost less any impairment loss unless the subsidiary is held for sale or included in a disposal group. Cost includes direct attributable costs of investment.

The results of subsidiaries are accounted for by the Company on the basis of dividend received and receivable at the reporting date. All dividends whether received out of the investee's pre or post-acquisition profits are recognised in the Company's profit or loss.

Impairment testing of the investments in subsidiaries is required upon receiving a dividend from these investments if the dividend exceeds the total comprehensive income of the subsidiary in the period the dividend is declared or if the carrying amount of the investment in the separate financial statements exceeds the carrying amount in the consolidated financial statements of the investee's net assets including goodwill.

2.3 Associates

An associate is an entity over which the Group has significant influence but not control, generally accompanying a shareholding of between 20% and 50% of the voting rights. Investments in associates are accounted for using the equity method of accounting. Under the equity method, the investment is initially recognised at cost, and the carrying amount is increased or decreased to recognise the investor's share of profit or loss and other comprehensive income of the investee after the date of acquisition. The Group's investments in associates include goodwill identified on acquisition. Upon the acquisition of the ownership interest in an associate, any difference between the cost of the associate and the Group's share of the net fair value of the associate's identifiable assets and liabilities is accounted for as goodwill.

If the ownership interest in an associate is reduced but significant influence is retained, only a proportionate share of the amounts previously recognised in other comprehensive income is reclassified to profit or loss where appropriate.

The Group's share of post-acquisition profit or loss is recognised in profit or loss, and its share of post-acquisition movements in other comprehensive income is recognised in other comprehensive income with a corresponding adjustment to the carrying amount of the investment. When the Group's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Group does not recognise further losses, unless it has incurred legal or constructive obligations or made payments on behalf of the associate.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.3 Associates (Continued)

The Group determines at each reporting date whether there is any objective evidence that the investment in the associate is impaired. If this is the case, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value and recognises the amount adjacent to “share of result from associate” in profit or loss.

Profits and losses resulting from upstream and downstream transactions between the Group and its associates are recognised in the Group’s financial statements only to the extent of unrelated investor’s interests in the associates. Unrealised losses are eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of associates have been changed where necessary to ensure consistency with the policies adopted by the Group.

Gains or losses on dilution of equity interest in associates are recognised in profit or loss.

2.4 Joint ventures

The Group applied HKFRS 11 to all joint arrangements. Under HKFRS 11, investments in joint arrangements are classified as either joint operations or joint ventures depending on the contractual rights and obligations of each investor. The Group has assessed the nature of its joint arrangements and determined them to be joint ventures. Joint ventures are accounted for using the equity method.

Under the equity method of accounting, interests in joint ventures are initially recognised at cost and adjusted thereafter to recognise the Group’s share of the post-acquisition profits or losses and movements in other comprehensive income. The Group’s investments in joint ventures include goodwill identified on acquisition. Upon the acquisition of the ownership interest in a joint venture, any difference between the cost of the joint venture and the Group’s share of the net fair value of the joint venture’s identifiable assets and liabilities is accounted for as goodwill. When the Group’s share of losses in a joint venture equals or exceeds its interests in the joint ventures (which includes any long-term interests that, in substance, form part of the Group’s net investment in the joint ventures), the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the joint ventures.

Unrealised gains on transactions between the Group and its joint ventures are eliminated to the extent of the Group’s interest in the joint ventures. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of the joint ventures have been changed where necessary to ensure consistency with the policies adopted by the Group.

2.5 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker (“CODM”). The CODM, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the executive directors of the Company that makes strategic decisions.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.6 Foreign currency translation

(i) Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The consolidated financial statements are presented in Renminbi ("RMB"), which is the functional and presentation currency of the Company.

(ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are re-measured. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss.

Foreign exchange gains and losses that relate to borrowings and cash and cash equivalents are presented in profit or loss within 'finance (costs)/income – net'. All other foreign exchange gains and losses are presented in profit or loss on a net basis within "other gains and (losses) – net".

Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currencies are not retranslated (i.e. only translated using the exchange rates at the transaction date).

(iii) Group companies

The results and financial positions of the group entities (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- assets and liabilities for each statement of financial position presented are translated at the closing rate at the reporting date;
- income and expenses for each statement of profit or loss and other comprehensive income are translated at average exchange rates; and
- all resulting exchange differences are recognised in other comprehensive income.

On consolidation, exchange differences arising from the translation of any net investment in foreign entities are taken into equity holders' equity. When a foreign operation is partially disposed of or sold, exchange differences that were recorded in equity are recognised in profit or loss as part of the gain or loss on sale.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.7 Property, plant and equipment

Property, plant and equipment (other than construction in progress as described below) are stated at historical cost less depreciation and any impairment loss. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Properties in the course of construction for production, supply or administrative purposes are carried at cost, less any recognised impairment loss. Cost include professional fees, and for qualifying assets, borrowing costs capitalised in accordance with the Group's accounting policy. Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis, as other property assets, commences when the assets are ready for their intended use.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance costs are recognised in profit or loss during the financial period in which they are incurred.

Depreciation on property, plant and equipment is calculated using the straight-line method to write off their cost less their residual values over their estimated useful lives, as follows:

Hotel properties	20-25 years
Buildings	20-40 years
Machinery	5 years
Motor vehicles	5-10 years
Furniture, fitting and equipment	3-8 years
Vessels	10 years

The assets' residual values and useful lives are reviewed and adjusted if appropriate, at each reporting date.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount (note 2.11).

Gains and losses on disposals are determined by comparing proceeds with the carrying amount at date of disposal and are recognised within "other gains and (losses), net" in profit or loss.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.8 Investment properties

Investment properties, principally comprising leasehold land and buildings, are properties held for long-term rental yields or for capital appreciation or both, and that is not occupied by the Group. The interest is classified and accounted for as an investment property on a property-by-property basis. Properties and land use right that are currently being constructed or developed for future use as investment properties is classified as investment properties.

Investment property is measured initially at its cost, including related transaction costs and where applicable borrowing costs. The cost of self-constructed investment property includes the cost of materials and direct labour, any other costs directly attributable to bringing the investment property to a working condition for their intended use and capitalised borrowing costs.

After initial recognition, investment property is carried at fair value. Where fair value of investment property under construction is not reliably measurable, the property is measured at cost until the earlier of the date construction is completed or the date at which fair value business reliably measurable. Fair value is based on active market prices, adjusted, if necessary, for any difference in the nature, location or condition of the specific asset. If this information is not available, the Group uses alternative valuation methods such as recent prices on less active markets or discounted cash flow projections.

Subsequent expenditure is charged to the asset's carrying amount only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed in profit or loss during the financial period in which they are incurred.

Fair value is determined by external professional valuers, with sufficient experience with respect to both the location and the nature of the investment property. The carrying amounts recognised at the reporting date reflect the prevailing market conditions at the reporting date.

Changes in fair value of investment property are recognised in profit or loss.

If an investment property becomes owner-occupied or commence to be further developed for sale, they are reclassified as property, plant and equipment and land use right or properties under development, and its fair value at the date of change in use becomes its cost for accounting purposes.

If an item of property, plant and equipment becomes an investment property because its use has changed, any difference resulting between the carrying amount and the fair value of this item at the date of transfer is recognised in equity as a revaluation of property, plant and equipment under HKAS 16. However, if a fair value gain reverses a previous impairment loss, the gain is recognised in profit or loss to the extent the impairment provision previous made.

2.9 Land use rights

The Group makes upfront payments to obtain operating leases of land use rights. The upfront payments of the land use rights are recorded as assets. The amortisation of land use rights is recognised as an expense on a straight-line basis over the unexpired period of the land use rights.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.10 Intangible assets and goodwill

(i) Contracts with sports players

Separately acquired contracts with sports players are shown at historical cost. Costs of contracts with sports players are initially recognised at fair value at the acquisition date. They have a finite useful life and are subsequently carried at cost less accumulated amortisation and impairment losses. Amortisation is calculated using the straight-line method ranged from one to four years.

(ii) Trademarks and patent, customer relationship, technology, distribution network and other intangible assets

Trademarks and patent, customer relationship, technology, distribution network and other intangible assets acquired in a business combination are recognised at fair value at the acquisition date. They have a finite useful life and are carried at cost less accumulated amortisation. Amortisation is calculated using the straight-line method ranged from five to eleven over the expected life of these intangible assets.

(iii) Goodwill

Goodwill arising in a business combination is recognised as an asset at the date that control is acquired (i.e. the acquisition date). Goodwill is measured as the excess of the aggregate of the fair value of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the Group's interest in the net fair value of the acquiree's identifiable assets and liabilities measured as at the acquisition date.

If, after reassessment, the Group's interest in the fair value of the acquiree's identifiable net assets exceeds the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the acquirer's previously held equity interest in the acquiree (if any), the excess is recognised immediately in profit or loss as a bargain purchase gain.

Goodwill is stated at cost less accumulated impairment losses. Goodwill is allocated to cash-generating units and is tested annually for impairment (see note 2.11).

On subsequent disposal of a subsidiary, the attributable amount of goodwill capitalised is included in the determination of the amount of gain or loss on disposal.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.11 Impairment of non-financial assets (other than contract assets)

The following assets are subject to impairment testing:

- goodwill arising on acquisition of a subsidiary;
- other intangible assets;
- property, plant and equipment;
- land use rights;
- investment properties; and
- the Company's interests in subsidiaries, associates and joint ventures

Goodwill and other intangible assets with indefinite useful life or those not yet available for use are tested for impairment at least annually, irrespective of whether there is any indication that they are impaired. All other assets are tested for impairment whenever there are indications that the asset's carrying amount may not be recoverable.

An impairment loss is recognised as an expense immediately for the amount by which the asset's carrying amount exceeds its recoverable amount. Recoverable amount is the higher of fair value, reflecting market conditions less costs of disposal, and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessment of time value of money and the risk specific to the asset.

For the purposes of assessing impairment, where an asset does not generate cash inflows largely independent from those from other assets, the recoverable amount is determined for the smallest group of assets that generate cash inflows independently (i.e. a cash-generating unit). As a result, some assets are tested individually for impairment and some are tested at cash-generating unit level. Goodwill in particular is allocated to those cash-generating units that are expected to benefit from synergies of the related business combination and represent the lowest level within the Group at which the goodwill is monitored for internal management purpose and not be larger than an operating segment.

Impairment losses recognised for cash-generating units, to which goodwill has been allocated, are credited initially to the carrying amount of goodwill. Any remaining impairment loss is charged pro rata to the other assets in the cash generating unit, except that the carrying value of an asset will not be reduced below its individual fair value less cost of disposal, or value in use, if determinable.

An impairment loss on goodwill is not reversed in subsequent periods. In respect of other assets, an impairment loss is reversed if there has been a favourable change in the estimates used to determine the asset's recoverable amount and only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.12 Financial instruments

(i) *Recognition and derecognition*

Financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions of the financial instrument.

Financial assets are derecognised when the contractual rights to the cash flows from the financial asset expire, or when the financial asset and substantially all of its risks and rewards are transferred. A financial liability is derecognised when it is extinguished, discharged, cancelled or expires.

Policy applicable from 1 January 2018

Financial assets

(ii) *Classification and initial measurement of financial assets*

Except for those trade debtors that do not contain a significant financing component and are measured at the transaction price in accordance with HKFRS 15, all financial assets are initially measured at fair value, in case of a financial asset not at fair value through profit or loss ("FVTPL"), plus transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at FVTPL are expensed in the consolidated statement of profit or loss and other comprehensive income.

Financial assets are classified into the following categories:

- amortised cost;
- FVTPL.
- Fair value through other comprehensive income ("FVOCI")

The classification is determined by both:

- the entity's business model for managing the financial asset; and
- the contractual cash flow characteristics of the financial asset.

All income and expenses relating to financial assets that are recognised in profit or loss are presented within "finance (costs)/ income, net" or "other gains and (losses), net."

2.12 Financial instruments (Continued)

Financial assets (Continued)

Policy applicable from 1 January 2018 (Continued)

(iii) *Subsequent measurement of financial assets*

Debt investments

Financial assets at amortised cost

Financial assets are measured at amortised cost if the assets meet the following conditions (and are not designated as FVTPL):

- they are held within a business model whose objective is to hold the financial assets and collect its contractual cash flows; and
- the contractual terms of the financial assets give rise to cash flows that are solely payments of principal and interest on the principal amount outstanding.

After initial recognition, these are measured at amortised cost using the effective interest method. Discounting is omitted where the effect of discounting is immaterial. Interest income from these financial assets is included in finance income in profit or loss. The Group's debtors, deposits and other receivables, restricted cash, short-term bank deposits, long-term bank deposits and cash and bank balances fall into this category of financial instruments.

Financial assets at FVTPL

Assets that do not meet the criteria for amortised cost or financial assets at FVOCI are categorised and measured at FVTPL. A gain or loss on a debt investment that is subsequently measured at FVTPL and is not part of a hedging relationship is recognised in profit or loss and presented net in the consolidated statement of profit or loss and other comprehensive income within "other gains and (losses), net" in the period in which it arises. Interest income from these financial assets is included in the "finance income".

Equity investments

Investments in equity instruments are classified as FVTPL unless these equity instruments are not held for trading, this will depend on whether the Group has made an irrevocable election at the time of initial recognition to account for the equity investment at FVOCI.

Dividends from these investments in equity instruments are recognised in profit or loss when the Group's right to receive the dividends is established, unless the dividends clearly represent a recovery of part of the cost of the investment. Dividends are included in the "other gains and (losses), net" in profit or loss.

Policy applicable before 1 January 2018

The Group has applied HKFRS 9 retrospectively, but has elected not to restate comparative information. As a result, the comparative information provided continues to be accounted for in accordance with the Group's previous accounting policy as detailed below.

(i) *Classification of financial assets*

The Group classifies its financial assets in the following categories financial assets at FVTPL, loans and receivables, and available-for-sale financial assets. The classification depends on the purpose for which the financial assets were acquired. Management determines the classification of its financial assets at initial recognition.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.12 Financial instruments (Continued)

Financial assets (Continued)

Policy applicable before 1 January 2018 (Continued)

(i) *Classification of financial assets* (Continued)

Financial assets at FVTPL

Financial assets at FVTPL are financial assets held for trading. A financial asset is classified in this category if acquired principally for the purpose of selling in the short term. Derivatives are also categorised as held for trading unless they are designated as hedges. Assets in this category are classified as current assets if expected to be settled within 12 months; otherwise, they are classified as non-current.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for those with maturities greater than 12 months after the reporting date which are classified as non-current assets. Loans and receivables are classified as "debtors, deposits and other receivables", "restricted cash", "short-term bank deposits", "long-term bank deposits" and "cash and bank balances" in the consolidated statement of financial position.

Available-for-sale financial assets

Available-for-sale financial assets are non-derivative that are either designated in this category or not classified in any of the other categories. They are included in non-current assets unless the investment matures or management intends to dispose it within 12 months of the reporting date.

Convertible bonds receivable

The convertible bonds receivable is initially measured at transaction price, which is also the fair value resulted from arm's length market transaction. At initial recognition, the entire hybrid instrument is treated as financial instrument held for trading as the fair value of the conversion option which will be settled by unquoted instrument cannot be reliably measured. The convertible bonds receivable is subsequently measured at cost, accrued interest less impairment as the conversion option of the hybrid instrument is sufficiently significant to preclude from obtaining a reliable estimate of the entire instrument.

(ii) *Subsequent measurement*

Subsequent to the initial recognition, loans and receivables were subsequently carried at amortised cost using the effective interest method.

Available-for-sale financial assets and financial assets at FVTPL were subsequently carried at fair value. As an exception to this, investments in equity securities that do not have a quoted price in an active market for an identical instrument and whose fair value cannot otherwise be reliably measured are recognised in the consolidated statement of financial position at cost less impairment losses (see note 2.13). Loans and receivables are subsequently carried at amortised cost using the effective interest method.

Changes in the fair value of monetary and non-monetary securities classified as available-for-sale are recognised in other comprehensive income.

When securities classified as available-for-sale are sold or impaired, the accumulated fair value adjustments recognised in equity are included in profit or loss.

Dividends on available-for-sale equity instruments are recognised in profit or loss when the Group's right to receive payments is established.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.12 Financial instruments (Continued)

Financial liabilities

(i) Classification and measurement of financial liabilities

The Group's financial liabilities include borrowings, accrued construction costs and other payables (excluding deed tax and other tax payables, deposits received and financial derivatives).

Financial liabilities are initially measured at fair value, and, where applicable, adjusted for transaction costs unless the Group designated a financial liability at FVTPL.

Subsequently, financial liabilities are measured at amortised cost using the effective interest method except for derivatives designated at FVTPL, which are carried subsequently at fair value with gains or losses recognised in profit or loss.

All interest-related charges and, if applicable, changes in an instrument's fair value that are reported in profit or loss are included within finance cost.

Borrowings

Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in profit or loss over the period of the borrowings using the effective interest method.

Fees paid to the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that part or all of the facility will be drawn down. In this case, the fee is deferred until the draw-down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a pre-payment for liquidity services and amortised over the period of the facility which it relates.

Borrowings are removed from the consolidated statement of financial position when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as finance costs.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least twelve months after the reporting date.

Convertible bonds

Convertible bonds that can be converted to equity share capital at the option of the holder, where the number of shares that would be issued on conversion and the value of the consideration that would be received at that time do not vary, are accounted for as compound financial instruments which contain both a liability component and an equity component.

Convertible bond issued by the Group that contain both financial liability and equity components are classified separately into respective liability and equity components on initial recognition. On initial recognition, the fair value of the liability component is determined using the prevailing market interest rate for similar non-convertible debts. The difference between the proceeds of the issue of the convertible bond and the fair value assigned to the liability component, representing the call option for conversion of the bond into equity, is included in equity as convertible bond equity reserve.

The liability component is subsequently carried at amortised cost using the effective interest method. The equity component will remain in equity until conversion or redemption of the bond.

When the bond is converted, the equity component of convertible bond and the carrying value of the liability component at the time of conversion are transferred to share capital as consideration for the shares issued. If the bond is redeemed, the convertible bond equity reserve is released directly to retained earnings.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.12 Financial instruments (Continued)

Financial liabilities (Continued)

(i) *Classification and measurement of financial liabilities* (Continued)

Financial derivatives

Financial derivatives are initially recognised at fair value on the date when a derivative contract is entered into and are subsequently remeasured at their fair values at the reporting date.

Financial derivatives are accounted for FVTPL. Changes in the fair value of these derivative instruments are recognised immediately in profit or loss.

Accrued construction cost and other payables

Accrued construction cost and other payables are recognised initially at their fair value and subsequently measured at amortised cost, using the effective interest method.

(ii) *Offsetting financial instruments*

Financial assets and liabilities are offset and the net amount reported in the consolidated statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

2.13 Impairment of financial assets and contract assets

Policy applicable from 1 January 2018

HKFRS 9's impairment requirements use more forward-looking information to recognise expected credit losses ("ECL") – the "ECL model". Instruments within the scope included loans and other debt-type financial assets measured at amortised cost and trade debtors and contract assets recognised and measured under HKFRS 15.

The Group considers a broader range of information when assessing credit risk and measuring ECL, including past events, current conditions, reasonable and supportable forecasts that affect the expected collectability of the future cash flows of the instrument.

In applying this forward-looking approach, a distinction is made between:

- financial instruments that have not deteriorated significantly in credit quality since initial recognition or that have low credit risk ("Stage 1") and
- financial instruments that have deteriorated significantly in credit quality since initial recognition and whose credit risk is not low ("Stage 2").

"Stage 3" would cover financial assets that have objective evidence of impairment at the reporting date.

"12-month ECL" are recognised for the Stage 1 category while "lifetime ECL" are recognised for the Stage 2 category.

Measurement of the ECL is determined by a probability-weighted estimate of credit losses over the expected life of the financial instrument.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.13 Impairment of financial assets and contract assets (Continued)

Policy applicable from 1 January 2018 (Continued)

Trade debtors

For trade debtors, the Group applies a simplified approach in calculating ECL and recognises a loss allowance based on lifetime ECL at each reporting date. These are the expected shortfalls in contractual cash flows, considering the potential for default at any point during the life of the financial assets. In calculating the ECL, the Group has established a provision matrix that is based on its historical credit loss experience and external indicators, adjusted for forward-looking factors specific to the debtors and the economic environment.

To measure the ECL, trade debtors have been grouped based on shared credit risk characteristics and the days past due.

Other financial assets measured at amortised cost

The Group measures the loss allowance for other receivables equal to 12-month ECL, unless when there has been a significant increase in credit risk since initial recognition, the Group recognises lifetime ECL. The assessment of whether lifetime ECL should be recognised is based on significant increase in the likelihood or risk of default occurring since initial recognition.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECL, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Group's historical experience and informed credit assessment and including forward-looking information.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly:

- an actual or expected significant deterioration in the financial instrument's external (if available) or internal credit rating;
- significant deterioration in external market indicators of credit risk, e.g. a significant increase in the credit spread, the credit default swap prices for the debtor;
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor;
- an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations.

Despite the foregoing, the Group assumes that the credit risk on a debt instrument has not increased significantly since initial recognition if the debt instrument is determined to have low credit risk at the end of each reporting period. A debt instrument is determined to have low credit risk if it has a low risk of default, the borrower has strong capacity to meet its contractual cash flow obligations in the near term and adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfill its contractual cash flow obligations.

Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument.

12-month ECLs are the portion of ECL that results from default events on a financial instrument that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

In all cases, the maximum period considered when estimating ECLs is the maximum contractual period over which the Group is exposed to credit risk.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.13 Impairment of financial assets and contract assets (Continued)

Policy applicable from 1 January 2018 (Continued)

Other financial assets measured at amortised cost (Continued)

(i) *Measurement of ECLs* (Continued)

ECLs are probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Group expects to receive).

Credit-impaired financial assets

At each reporting date, the Group assesses on a forward looking basis whether financial assets carried at amortised cost are credit-impaired. A financial asset is "credit-impaired" when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- significant of financial difficulty of the borrower or issuer;
- a breach of contract such as a default or past due event;
- the restructuring of a loan or advance by the Group on terms that the Group would not consider otherwise;
- it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation or the disappearance of an active market for a security because of financial difficulties.

Presentation of allowance for ECL in the consolidated statement of financial position as the loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the relevant assets.

(ii) *Write-offs*

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Group determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Group's procedures for recovery of amounts due.

The Group reclassifies debt investments when and only when its business model for managing those assets changes.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.13 Impairment of financial assets and contract assets (Continued)

Policy applicable before 1 January 2018

At each reporting date, financial assets other than at FVTPL are reviewed to determine whether there is any objective evidence of impairment.

Objective evidence of impairment of individual financial assets includes observable data that comes to the attention of the Group about one or more of the following loss events:

- significant financial difficulty of the debtor;
- a breach of contract, such as a default or delinquency in interest or principal payments;
- it becoming probable that the debtor will enter bankruptcy or other financial reorganisation;
- significant changes in the technological, market, economic or legal environment that have an adverse effect on the debtor;
- the disappearance of an active market for that financial asset because of financial difficulties; and
- a significant or prolonged decline in the fair value of an investment in an equity instrument below its cost.

If any such evidence exists, the impairment loss is measured and recognised as follows:

(i) *Financial assets carried at amortised cost*

The amount of the impairment loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate (i.e., the effective interest rate computed at initial recognition). The amount of the loss is recognised in profit or loss of the period in which the impairment occurs.

If, in subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed to the extent that the carrying amount of the financial asset at the date of impairment is reversed, does not exceed what the amortised cost would have been had the impairment not been recognised.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.13 Impairment of financial assets and contract assets (Continued)

Policy applicable before 1 January 2018 (Continued)

(i) *Financial assets carried at amortised cost* (Continued)

Reversals in respect of investment in equity instruments classified as available-for-sale and stated at fair value are not recognised in the profit or loss. The subsequent increase in fair value is recognised in other comprehensive income. Impairment losses in respect of debt securities are reversed if the subsequent increase in fair value can be objectively related to an event occurring after the impairment loss was recognised. Reversal of impairment losses in such circumstances are recognised in profit or loss.

(ii) *Financial assets carried at cost*

For financial assets carried at cost, the amount of impairment loss is measured as the difference between the carrying amount of the financial assets and the present value of the estimated future cash flows discounted at the current market rate of return for a similar financial asset. The amount of the impairment losses is recognised in profit or loss of the period in which the impairment occurs and not reversed in subsequent periods.

2.14 Inventories

Inventories are stated at the lower of cost and net realisable value. Costs of inventories are calculated using the first-in, first-out method. Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale.

2.15 Properties under development

Properties under development are stated at the lower of cost and net realisable value. Net realisable value takes into account the price ultimately expected to be realised less applicable variable selling expenses and anticipated cost to completion.

Development cost of properties comprises mainly construction costs, land use rights in relation to properties under development for subsequent sale, borrowing costs on qualifying assets and professional fees incurred during the development period. On completion, the properties are transferred to completed properties held for sale.

Properties under development are classified as current assets unless those will not be realised in the normal operating cycle.

2.16 Completed properties held for sale

Completed properties remaining unsold at each reporting date are stated at the lower of cost and net realisable value.

Cost comprises development costs attributable to the unsold properties.

Net realisable value is determined by reference to the estimated selling price in the ordinary course of business, less applicable estimated selling expenses to make the sale.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.17 Cash and cash equivalents

Cash and cash equivalents include cash in hand, deposits held by banks, other short-term high liquidity investment with original maturities of three months or less.

Restricted cash, short-term bank deposits and long-term bank deposits are not included in cash and cash equivalents.

2.18 Contract liabilities

A contract liability is recognised when the customer pays consideration before the Group recognises the related revenue (see note 2.24). A contract liability would also be recognised if the Group has an unconditional right to receive consideration before the Group recognises the related revenue. In such cases, a corresponding receivable would also be recognised (see note 2.12).

For a single contract with the customer, either a net contract asset or a net contract liability is presented. For multiple contracts, contract assets and contract liabilities of unrelated contracts are not presented on a net basis.

2.19 Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new share or options are shown in equity as a deduction, net of tax, from the proceeds.

2.20 Borrowing costs

General and specific borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation. Other borrowing costs are recognised as an expense in the period in which they are incurred.

Borrowing costs include interest expense, and exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs. The exchange gains and losses that are an adjustment to interest costs include the difference of the interest rate used between borrowing costs that would be incurred if the entity had borrowed funds in its functional currency, and the borrowing costs actually incurred on foreign currency borrowings. Such amounts are estimated based on forward currency rates at the inception of the borrowings. When the construction of the qualifying assets takes more than one accounting period, the amount of foreign exchange differences eligible for capitalisation is determined for each annual period and are limited to the difference between the hypothetical interest amount for the functional currency borrowings and the actual interest incurred for foreign currency borrowings. Foreign exchange differences that did not meet the criteria for capitalisation in previous years should not be capitalised in subsequent years.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.21 Current and deferred income tax

The tax expense for the period comprises current and deferred tax. Tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

(i) Current income tax

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the reporting date in the countries where the group entities operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation and establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

(ii) Deferred income tax

Deferred income tax is recognised, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, the deferred income tax is not accounted for if it arises from initial recognition of goodwill or an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is determined using the tax rates (and laws) that have been enacted or substantively enacted by the reporting date and are expected to apply when the related deferred tax asset is realised or the deferred tax liability is settled.

For the purposes of measuring deferred tax liabilities or deferred tax assets for investment properties that are measured using the fair value model, the carrying amounts of such properties are presumed to be recovered entirely through sale, unless the presumption is rebutted. The presumption is rebutted when the investment property is depreciable and is held within a business model whose objective is to consume substantially all of the economic benefits embodied in the investment property over time, rather than through sale. If the presumption is rebutted, deferred tax liabilities and deferred tax assets for such investment properties are measured in accordance with the above general principles set out in HKAS 12 (i.e. based on the expected manner as to how the properties will be recovered).

Deferred tax liabilities are provided on taxable temporary differences arising from investments in subsidiaries, associate and joint ventures, except for deferred tax liability where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future. Generally, the Group is unable to control the reversal of the temporary difference for its associate, unless there is an agreement in place that gives the Group the ability to control the reversal of the temporary difference.

Deferred tax assets are recognised on deductible temporary differences arising from investments in subsidiaries, associates and joint ventures only to the extent that it is probable the temporary difference will reverse in the future and there is sufficient taxable profit available against which the temporary difference can be utilised.

(iii) Offsetting

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred tax assets and liabilities relate to income taxes levied by the same taxation authority on either the taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.22 Employee benefits

(i) Employee leave entitlements

Employee entitlements to annual leave and long service leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave and long service leave as a result of services rendered by employees up to the reporting date.

Employee entitlements to sick leave and maternity leave are not recognised until the time of leave.

(ii) Retirement benefits

In accordance with the rules and regulations in the PRC, the PRC based employees of the Group participate in various defined contribution retirement benefit plans organised by the relevant municipal and provincial governments in the PRC under which the Group and the PRC based employees are required to make monthly contributions to these plans calculated at a percentage of the employees' salaries.

The municipal and provincial governments undertake to assume the retirement benefit obligations of all existing and future retired PRC based employees' payable under the plans described above. Other than the monthly contributions, the Group has no further obligation for the payment of retirement and other post retirement benefits of its employees. The assets of these plans are held separately from those of the Group in independently administrated funds managed by the PRC government.

The Group also participates in a pension scheme under the rules and regulations of the Mandatory Provident Fund Scheme Ordinance ("MPF Scheme") for all employees in Hong Kong, which is a defined contribution retirement scheme. The contributions to the MPF Scheme are based on minimum statutory contribution requirement of 5% of eligible employees' relevant aggregate income. The assets of this pension scheme are held separately from those of the Group in independently administered funds.

The Group's contributions to the defined contribution retirement schemes are expensed as incurred.

(iii) Bonus entitlements

The expected cost of bonus payment is recognised as a liability when the Group has a present legal or constructive obligation as a result of services rendered by employees and a reliable estimate of the obligation can be made. Liabilities of bonus plan are expected to be settled within twelve months and are measured at the amounts expected to be paid when they are settled.

(iv) Termination benefits

Termination benefits are payable when employment is terminated before the normal retirement date, or whenever an employee accepts voluntary redundancy in exchange for these benefits. The Group recognises termination benefits when it is demonstrably committed to either: terminating the employment of current employees according to a detailed formal plan without possibility of withdrawal; or providing termination benefits as a result of an offer made to encourage voluntary redundancy. Benefits falling due more than 12 months after balance sheet date are discounted to present value.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.22 Employee benefits (Continued)

(v) Share-based payments

The Group operates equity-settled share option schemes, which the entity receives services from employees as consideration for equity instruments ("options") of the Group. The fair value of the employee services received in exchange for the grant of the options is recognised as an expense. The total amount to be expensed over the vesting period is determined by reference to the fair value of the options granted, excluding the impact of any service and non-market performance vesting conditions. At each reporting date, the Group revises its estimates of the number of options that are expected to vest based on the non-market performance and service conditions. It recognises the impact of the revision of original estimates, if any, in profit or loss, with a corresponding adjustment to equity.

The cash subscribed for the shares issued when the options are exercised is credited to share capital (nominal value) and share premium, net of any directly attributable transaction costs.

The options granted by the Company over its equity instruments to the employees of subsidiary undertakings in the Group is treated as a capital contribution. The fair value of employee services received, measured by reference to the grant date fair value, is recognised over the vesting period as an increase to investments in subsidiary undertakings, with a corresponding credit to equity.

2.23 Provisions and contingent liabilities

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognised as interest expense.

A contingent liability is a possible obligation that arises from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group. It can also be a present obligation arising from past events that is not recognised because it is not probable that outflow of economic resources will be required or the amount of obligation cannot be measured reliably.

A contingent liability is not recognised but is disclosed in the notes to the consolidated financial statements. When a change in the probability of an outflow occurs so that outflow is probable, it will then be recognised as a provision.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.24 Revenue recognition

Policy applicable from 1 January 2018

The Group recognises revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the entity and specific criteria have been met for each of the Group's activities as described below. The Group bases its estimates on historical results, taking into consideration the type of customers, the type of transactions and the specifics of each arrangement.

To determine whether to recognise revenue, the Group follows a 5-step process:

1. Identifying the contract with a customer
2. Identifying the performance obligations
3. Determining the transaction price
4. Allocating the transaction price to the performance obligations
5. Recognising revenue when (or as) performance obligation(s) are satisfied

In all cases, the total transaction price for a contract is allocated amongst the various performance obligations based on their relative stand-alone selling prices. If the stand-alone selling prices are not directly observable, they are estimated based on expected cost plus a margin or adjusted market assessment approach, depending on the availability of observable information. The transaction price for a contract excludes any amounts collected on behalf of third parties.

Revenue is recognised either at a point in time or over time, when (or as) the Group satisfies performance obligations by transferring the promised goods or services to its customers.

(i) Sales of properties

Revenue is recognised when or as the control of the asset is transferred to the customer. Depending on the terms of the contract and the law that apply to the contract, control of the asset may be transferred over time or at a point in time. Control of the asset is transferred over time if the Group's performance:

- provides all of the benefits received and consumed simultaneously by the customer;
- creates and enhances an asset that the customer controls as the Group performs; or
- does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

If control of the asset transfers over time, revenue is recognised over the period of the contract by reference to the progress towards complete satisfaction of that performance obligation. Otherwise, revenue is recognised at a point in time when the customer obtains control of the asset.

For properties that have no alternative use to the Group due to contractual reasons and when the Group has an enforceable right to payment from the customers for performance completed to date, the Group recognises revenue as the performance obligation is satisfied over time in accordance with the input method for measuring progress, i.e. the costs incurred up to date compared with the total budgeted costs, which depict the Group's performance towards satisfying the performance obligation.

For contract where the period between the payment by the customer and the transfer of the promised property or service exceeds one year, the transaction price is adjusted for the effects of a significant financing component.

Deposits and instalments received from purchasers prior to delivery of the properties to the customers are contract liabilities.

For property sales contract for which the control of the property is transferred at a point in time, revenue is recognised when the customer obtains the physical possession or the legal title of the completed property and the Group has present right to payment and the collection of the consideration is probable.

2.24 Revenue recognition (Continued)

Policy applicable from 1 January 2018 (Continued)

(ii) *Rental income*

Rental income from properties leasing under operating leases is recognised on a straight-line basis over the lease terms.

(iii) *Hotel operation income*

Revenue from hotel operation is recognised in the accounting period in which the services are rendered.

(iv) *Property management*

Revenue arising from property management is recognised in the accounting period in which the services are rendered. The Group bills a fixed amount for each month of service provided and recognises as revenue in the amount to which the Group satisfies performance obligations by transferring the services to its customers.

For property management services income from properties managed under lump sum basis, where the Group acts as principal and is primary responsible for providing the property management services to the property owners, the Group recognises the fee received or receivable from property owners as its revenue and all related property management costs as its cost of service. For property management services income from properties managed under commission basis, the Group recognises the commission, which is calculated by certain percentage of the total property management fee received or receivable from the property units, as its revenue for arranging and monitoring the services as provided by other suppliers to the property owners.

Pre-delivery and consulting services to non-property owners mainly includes fees for construction sites management, display units and property sales venues management and consulting services to property developers at the pre-delivery stage, and property management consulting services provided to other property management companies which are billed based on actual level of services provided at pre-determined price and revenue is recognised when such services are provided.

(v) *Catering income*

Revenue from restaurant operations is recognised when food, beverages and services are delivered to or rendered to and have been accepted by customers.

(vi) *Hire income from charter*

Hire income from time charter is accounted for as operating lease and is recognised on a straight-line basis over the period of each time charter contract.

(vii) *Passenger transportation agency service*

Revenue from passenger transportation agency service are recognised based on net agencies fee upon departure of ferries at terminals.

(ix) Interest income

Interest income is recognised on a time-proportion basis using the effective interest method.

Policy applicable before 1 January 2018

Revenue comprises the fair value of the consideration received or receivable for the sales of properties and services, stated net of discounts, returns and value added tax, in the ordinary course of the Group's activities. Revenue is shown after eliminated sales with the group entities.

The Group recognises revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the entity and specific criteria have been met for each of the Group's activities as described below. The Group bases its estimates on historical results, taking into consideration the type of customers, the type of transactions and the specifics of each arrangement.

(i) Sales of properties

(1) Completed properties held for sale

Revenue from sales of completed properties held for sale is recognised when the risks and rewards of properties are transferred to the purchasers, which occurs when the construction of relevant properties has been completed and the properties have been delivered to the purchasers and collectability of related receivables is reasonably assured.

(2) Proposed development project

Revenue from proposed development project is recognised when the risks and rewards of project are transferred to the purchasers, which occurs when the relevant project have been delivered to the purchaser and collectability of related receivable is reasonably assured.

Deposits and instalments received on properties sold prior to the date of revenue recognition are included in the consolidated statement of financial position as advance proceeds received from customers and deposits received under current liabilities.

(ii) Rental income

Rental income from property leasing under operating leases is recognised on a straight-line basis over the lease terms.

When a receivable impaired, the Group reduces the carrying amount to its recoverable amount, being the estimated future cashflow discounted at original effective interest rate of the instrument, and continues unwinding the discount as interest income. Interest income on impaired loans is recognised using the original effective interest rate.

2.25 Leases

Leases where a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases.

- (i) The Group is the lessee other than operating lease of land use rights
Payments made under operating leases (net of any incentives received from the lessor) are charged to profit or loss on a straight-line basis over the period of the lease.
- (ii) The Group is the lessee under operating lease of land use rights
Land use rights under operating lease, which mainly comprised land use rights to be developed for hotel properties and self-use buildings, are stated at cost and subsequently amortised in the consolidated statement of profit or loss and other comprehensive income on a straight-line basis over the operating lease periods, less accumulated impairment provision.
- (iii) The Group is the lessor
Assets leased out under an operating leases are included in investment properties in the consolidated statement of financial position. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised as an expense over the lease term on the same basis as the rental income.

2.26 Dividend distribution

Dividend distribution to the owners of the Company is recognised as a liability in the Group's and the Company's financial statements in the period in which the dividends are approved by the Company's shareholders or the board of directors, where applicable.

2.27 Financial guarantee liabilities

A financial guarantee contract is a contract that requires the issuer (or guarantor) to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due in accordance with the terms of a debt instrument.

Where the Group issues a financial guarantee, the fair value of the guarantee is initially recognised as deferred income within "other payables". The fair value of financial guarantees is determined based on the present value of the difference in cash flows between the contractual payments required under the debt instruments and the payments that would be required without the guarantee, or the estimated amount that would be payable to a third party for assessing the obligations. Where consideration is received or receivable for the issuance of the guarantee, the consideration is recognised in accordance with the Group's policies applicable to that category of asset. Where no such consideration is received or receivable, an immediate expense is recognised in profit or loss on initial recognition of any deferred income.

Subsequently, financial guarantees are measured at the higher of the amount determined in accordance with ECL under HKFRS 9 as set out in note 2.13 (applicable from 1 January 2018)/HKAS 37 (before application of HKFRS 9 on 1 January 2018) and the amount initially recognised less, where appropriate, the cumulative amount of income recognised over the guarantee period.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.28 Government grants

Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received and the Group will comply with all attached conditions.

Government grants relating to property, plant and equipment are deferred and recognised in profit or loss over the period necessary to match them with the costs that they are intended to compensate.

Government grants relating to income is presented in gross under “other gains and (losses) – net” in the consolidated statement of profit or loss and other comprehensive income.

2.29 Related parties

For the purposes of these consolidated financial statements, a party is considered to be related to the Group if:

- (a) the party is a person or a close member of that person’s family and if that person:
 - (i) has control or joint control over the Group;
 - (ii) has significant influence over the Group; or
 - (iii) is a member of the key management personnel of the Group or of a parent of the Group.
- (b) the party is an entity and if any of the following conditions applies:
 - (i) the entity and the Group are members of the same group;
 - (ii) one entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member);
 - (iii) the entity and the Group are joint ventures of the same third party;
 - (iv) one entity is a joint venture of a third entity and the other entity is an associate of the third entity;
 - (v) the entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group (if the Group is itself such a plan) and the sponsoring employers are also related to the Group;
 - (vi) the entity is controlled or jointly controlled by a person identified in (a);
 - (vii) a person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity); and
 - (viii) the entity, or any member of a group of which it is a part, provides key management personnel services to the Group or to the parent of the Group.

Close members of the family of a person are those family members who may be expected to influence, or be influenced by, that person in their dealings with the entity.

3. ADOPTION OF NEW AND AMENDED HKFRSs

3.1 New and amended HKFRSs that are effective for annual periods beginning or after 1 January 2018

The following new and amended standards that may be relevant to the Group's operations have been adopted by the Group for the first time for the financial period beginning on 1 January 2018.

HKFRS 9	Financial Instruments
HKFRS 15	Revenue from Contracts with Customers and the related Amendments
Amendments to HKFRS 1	As part of the Annual Improvements to HKFRSs 2014-2016 Cycle
Amendments to HKFRS 2	Classification and Measurement of Share-based Payment Transactions
Amendments to HKFRS 4	Applying HKFRS 9 Financial Instruments with HKFRS 4 Insurance Contracts
Amendments to HKAS 28	As part of the Annual Improvements to HKFRSs 2014-2016 Cycle
Amendments to HKAS 40	Transfers of Investment Property
HK(IFRIC) – Int 22	Foreign Currency Transactions and Advance Consideration

Other than amendments to HKAS 40, HK(IFRIC) – Int 22, HKFRS 9 “Financial Instruments” (“HKFRS 9”) and HKFRS 15 “Revenue from Contracts with Customers” (“HKFRS 15”), the application of the above amended standards which are effective for the financial period beginning on 1 January 2018 did not have material financial effect to the Group for the current and prior periods.

Amendments to HKAS 40 “Transfers of Investment Property”

The amendments clarify that, to transfer to or from, investment properties, there must be a change in use. To conclude if a property has changed in use, there should be an assessment of whether a property meets, or has ceased to meet, the definition of investment property and the supporting evidence that a change in use has occurred. A change in intention, in isolation, is not enough to support a transfer. The amendments are effective from 1 January 2018 and these amendments do not have any impact on the Group's consolidated financial statements.

HK(IFRIC) – Int 22 “Foreign Currency Transactions and Advance Consideration”

HK(IFRIC)-Int 22 clarifies that, in determining the spot exchange rate to use on initial recognition of the related asset, expenses or income (or part of it) on the derecognition of a non-monetary asset or nonmonetary liability relating to advance consideration, the date of the transaction is the date on which an entity initially recognises the non-monetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, then the entity must determine a date of the transactions of each payment or receipt of advance consideration. The interpretation does not have any impact on the Group's consolidated financial statements.

(i) *Impact on the consolidated financial statements*

As explained below, HKFRS 9 and HKFRS 15 were generally adopted by the Group retrospectively without restating comparative information. As a result of the changes in the Group’s accounting policies, certain reclassification and adjustments are therefore not reflected in the restated consolidated statement of financial position on 1 January 2018.

The following tables show the adjustments recognised for each individual line item. Line items that were not affected by the changes have not been included.

(ii) HKFRS 9 “Financial instruments”

HKFRS 9 replaces HKAS 39 “Financial Instruments: Recognition and Measurement”. It makes major changes to the previous guidance on the classification and measurement of financial assets and introduces an “ECL model” for the impairment of financial assets.

When adopting HKFRS 9, the Group has applied the standard retrospectively to items that existed at 1 January 2018 in accordance with the transition requirement and also applied transitional relief and opted not to restate prior periods. Differences arising from the adoption of HKFRS 9 in relation to classification, measurement, and impairment are recognised in retained earnings.

Classification and measurement of financial instruments

On 1 January 2018 (the date of initial application of HKFRS 9), the Group’s management has assessed which business models apply to the financial assets held by the Group and has classified its financial instruments into the appropriate HKFRS measurement categories including those to be measured at FVTPL and those to be measured at amortised cost.

The Group’s financial assets include financial assets at FVTPL, available-for-sale financial assets, convertible bond receivable, debtors, deposits and other receivables (excluding prepayments and prepaid other taxes), short-term bank deposits, long-term bank deposits, restricted cash and cash and bank balances.

(ii) HKFRS 9 “Financial instruments” (Continued)

Reclassification from available-for-sale financial assets to financial asset at FVTPL

As at 31 December 2017, the Group has equity interest in unlisted companies at cost of RMB4,400,796,000 and the convertible bonds receivable of RMB41,328,000 and these investments were classified as available-for-sale financial assets at cost less impairment under previous standard HKAS 39. With the adoption of HKFRS 9, these investments do not meet the HKFRS 9 criteria for classification at amortised cost, because their cash flows do not represent solely payments of principal and interest. As at 1 January 2018, the Group classified its unlisted equity investments and convertible bonds receivable at financial assets at FVTPL.

As a result of the adoption of HKFRS 9, the equity investments and convertible bonds receivable have been measured at its fair values as at 1 January 2018 with reference to the valuation conducted by independent external valuers and the directors’ best estimation. As at 1 January 2018, the carrying amounts of equity investments in unlisted companies was restated from RMB4,400,796,000 to its fair value of RMB5,044,992,000. There was fair value changes and deferred tax expenses recognised in retained earnings arising from change in fair value in the financial assets at FVTPL amounting to RMB644,196,000 and RMB161,049,000. The carrying amount of convertible bonds receivable as at 1 January 2018 approximated to its fair value and thus no significant financial impact on consolidated financial statement result.

The reclassifications and remeasurements made to balances recognised in the consolidated statement of financial position at the date of initial application (1 January 2018) are summarised as follows:

	Measurement category		31 December 2017 (HKAS 39) RMB'000	Adoption of HKFRS 9		1 January 2018 (HKFRS 9) RMB'000

Impairment of financial assets at amortised costs

The Group assesses on a forward looking basis the ECL associated with its assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

The Group revised its impairment methodology under HKFRS 9 for each of these classes of assets.

(a) Trade debtors

The Group makes use of a simplified approach in accounting for trade debtors and records the loss allowance as lifetime ECL. They are the expected shortfalls in contractual cash flows, considering the potential for default at any point during the life of the financial instrument. In calculating, the Group uses its historical experience, external indicators and forward-looking information to calculate the ECL using a provision matrix. The Group allows 0.1% for amounts that are neither past due nor impaired, 1.1% for amounts that are more than 180 days past due, and 10% for amounts that are 1 year past.

(b) Deposits and other receivables from third parties, joint ventures, associates and non-controlling interests of a subsidiary (excluding prepayments)

Impairment on deposits and other receivables are measured as either 12-month ECL or lifetime ECL depending on whether there has been a significant increase in credit risk since initial recognition. If a significant increase in credit risk of a receivable has occurred since initial recognition, then impairment is measured as lifetime ECL. The Group allows 2% to 30% against deposits and other receivables from third parties, joint ventures, associates and non-controlling interests of a subsidiary.

The total impact on the Group’s retained earnings, net of tax, and non-controlling interests as at 1 January 2018 is as follows:

	Retained earnings RMB’000	Non-controlling interests RMB’000
As at 31 December 2017	10,973,620	10,910,228
Provision for ECL for debtors, deposits and other receivable (excluding prepayments and prepaid other taxes)	(244,197)	(9,635)

As at 1 January 2018 (restated)	11,273,618	10,903,004

The details of new significant accounting policies are set out in note 2.13.

The following table reconciles the provision of impairment determined in accordance with HKAS 39 as at 31 December 2017 with the opening ECL determined in accordance with HKFRS 9 as at 1 January 2018.

(iii) HKFRS 15 “Revenue from contract with customers”

HKFRS 15 deal with revenue recognition and establishes principles for reporting useful information to users of financial statements about the nature, amount, timing and uncertainty of revenue and cash flows arising from an entity’s contracts with customers. Revenue is recognised when a customer obtains control of a good or service and thus has the ability to direct the use and obtain the benefits from the good or service. The standard replaces HKAS 18 “Revenue” and HKAS 11 “Construction contracts” and related interpretations.

The Group has elected to use the cumulative effect transition method, with the cumulative effect of initial application recognised as an adjustments to the opening balance of retained earnings at 1 January 2018. Therefore, comparative information has not been restated and continues to be reported under HKAS 18.

Taking into account the changes in accounting policy arising from initial application of HKFRS 15, except for the recognition of contract liabilities, the directors of the Company considered the initial application of HKFRS 15 has no material impact on the timing and amounts of revenue recognised for contracts from property development in the PRC in the respective reporting periods upon its initial adoption.

In prior reporting periods, the Group accounted for property development activities when significant risk and rewards of ownership has been transferred to the customers on delivery in its entirety at a single time upon vacant possession and not continuously as construction progresses. Under HKFRS 15, for properties that have no alternative use to the Group due to contractual reasons and when the Group has an enforceable right to payment from the customers for performance completed to date, the Group recognises revenue as the performance obligation is satisfied over time in accordance with the input method for measuring progress.

The Group recognises contract liabilities when a customer pays consideration, or is contractually required to pay consideration and the amount is already due, before the Group recognises the related revenue. Reclassifications were made as at 1 January 2018 to be consistent with the terminology used under HKFRS 15. Contract liabilities recognised in relation to property development activities were previously presented as advance proceeds received from customers and deposits received. The contract liabilities as at 1 January 2018 was RMB29,564,933,000.

3. ADOPTION OF NEW AND AMENDED HKFRSs (Continued)

3.2 Issued but not yet effective HKFRSs (Continued)

HKFRS 16 “Leases”

HKFRS 16 “Leases” replaced HKAS 17 and three related Interpretations

As disclosed in note 2.25, currently the Group classifies leases into operating leases and accounts for the lease arrangements differently, depending on the classification of the lease. The Group enters into some leases as the lessor and others as the lessee.

HKFRS 16 is not expected to impact significantly on the way that lessors account for their rights and obligations under a lease. However, once HKFRS 16 is adopted, lessees will no longer distinguish between finance leases and operating leases. Instead, subject to practical expedients, lessees will account for all leases in a similar way to current finance lease accounting, i.e. at the commencement date of the lease, the lessee will recognise a lease liability and a corresponding “right-of-use” asset. After initial recognition of this asset and liability, the lessee would recognise interest expense accrued on the outstanding balance of the lease liability, and the depreciation of the right-of-use asset, instead of the current policy of recognising rental expenses incurred under operating leases on a systematic basis over the lease term. As a practical expedient, the lessee can elect not to apply this accounting model to short-term leases (i.e. where the lease term is 12 months or less) and to leases of low-value assets, in which case the rental expenses would continue to be recognised on a systematic basis over the lease term.

HKFRS 16 will primarily affect the Group’s accounting as a lessee of leases of land and buildings and other assets which are currently classified as operating leases. The application of the new accounting model is expected to lead to an increase in both assets and liabilities and to impact on the timing of the expense recognition in the consolidated statement of profit or loss over the period of the lease.

HKFRS 16 is effective for annual periods beginning on or after 1 January 2019. As allowed by HKFRS 16, the Group plans to use the practical expedient to grandfather the previous assessment of which existing arrangements are, or contain, leases. The Group will therefore apply the new definition of a lease in HKFRS 16 only to contracts that are entered into on or after the date of initial application.

The Group plans to elect to use the modified retrospective approach for the adoption of HKFRS 16 on 1 January 2019 and will recognise the cumulative effect of initial application as an adjustment to the opening balance of equity at 1 January 2019. Comparative information will not be restated. In addition, the Group plans to elect the practical expedient for not applying the new accounting model to short-term leases and leases of low-value assets and not to perform a full review of existing leases and apply HKFRS 16 only to new contracts. Furthermore, the Group plans to use the practical expedient to account for leases for which the lease term ends within 12 months from the date of initial application as short-term lease. As disclosed in note 38, as at 31 December 2018, the Group’s future minimum lease payments under non-cancellable operating leases amount to RMB451,105,000, the majority of which is payable within 5 years after the reporting date or in more than 5 years.

Upon the initial application of HKFRS 16, the Group plans to measure the rights-of-use assets at an amount equal to the lease liability (subject to certain adjustments).

Other than the recognition of lease liabilities and right-of-use assets, the Group expects that the transition adjustments to be made upon the initial adoption of HKFRS 16 will not be material. However, the expected changes in accounting policies as described above could have a material impact on the Group’s financial statement from 2019 onwards.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

4. FINANCIAL RISK MANAGEMENT

The Group conducts its operations in the PRC and accordingly is subject to special considerations and significant risks. These include risks associated with, among others, the political, economic and legal environment, influence of national authorities over pricing regulation and competition in the industry.

The Group's major financial instruments include available-for-sale financial assets, financial assets at FVTPL, debtors, deposits and other receivables (excluding prepayments and prepaid other taxes), long-term and short-term bank deposits, cash and bank balances, restricted cash, convertible bonds receivable, accrued construction costs, other payables, financial derivatives and borrowings. Details of these financial instruments are disclosed in respective notes. The Group's activities expose it to a variety of financial risks: market risk (including foreign exchange risk, interest rate risk and price risk), credit risk and liquidity risk.

4.1 Financial risk factors

The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance. The property industry is highly sensitive to the economic environment in the PRC, which will affect the volumes of property transactions and selling prices. The Group mainly relies on sales of properties and borrowings to fund its operations. The Group has alternative plans to monitor liquidity risk should there be significant adverse changes on the Group's cash flow projections.

Risk management is carried out by the Group's management under the supervision of the Board. The Group's management identifies, evaluates and manages significant financial risks in the Group's individual operating units. The Board provides guidance for overall risk management.

(i) Market risk

(1) Foreign exchange risk

The Group's businesses are principally conducted in RMB, except that borrowings are denominated in other currencies. The major non-RMB assets and liabilities are financial assets at FVTPL, convertible bonds receivable, debtors, deposits and other receivables (excluding prepayments and prepaid other taxes), restricted cash, cash and bank balances, long-term and short-term bank deposits and borrowings denominated in the United States dollar ("USD"), Hong Kong dollar ("HKD") and Euro ("Euro").

The Company and certain of its subsidiaries' functional currency is RMB, so the financial assets at FVTPL, convertible bonds receivable, debtors, deposits and other receivables (excluding prepayments and prepaid other taxes), restricted cash, cash and bank balances, long-term and short-term bank deposits and borrowings denominated in foreign currencies are subject to retranslation at each reporting date. Fluctuation of the exchange rates of RMB against foreign currencies could affect the Group's results of operations.

The Group does not have a foreign currency hedging policy. However, the Group's management monitors foreign exchange exposure and will consider hedging significant foreign currency exposure should the need arise.

The following table illustrates the sensitivity of the Group's profit for the year and equity in regards to an appreciation in the group entities' functional currencies against USD, HKD and EUR. These sensitivity rates are the rates used when reporting foreign currency risk internally to key management personnel and represents management's best assessment of the possible change in foreign exchange rates.

	2018 Sensitivity rate	Increase/ (Decrease) in profit or loss and equity RMB'000	2017 Sensitivity rate	Increase/ (Decrease) in profit or loss and equity RMB'000
USD	5%	1,767,122	5%	1,330,124
HKD	5%	69,685	5%	71,003
EUR	5%	(2,589)	5%	(2,156)

Exposures to foreign exchange rates vary during the year depending on the volume of overseas transactions. Nevertheless, the analysis above is mainly as a result of the net foreign exchange gains/losses on translation of USD and HKD denominated long-term and short-term bank deposits, debtors, deposits and other receivables and borrowings.

4. FINANCIAL RISK MANAGEMENT (Continued)

4.1 Financial risk factors (Continued)

(i) Market risk (Continued)

(2) Interest rate risk

The Group's interest-bearing assets and liabilities are mainly restricted cash, long-term and short-term bank deposits, cash and bank balances, convertible bonds receivable, bank and other borrowings and senior notes. Restricted cash, long-term and short term bank deposits, cash and bank balances, and bank and other borrowings issued at variable rates expose the Group to cash flow interest-rate risk. Senior notes, bank and other borrowings and convertible bonds receivable issued at fixed rates expose the Group to fair value interest-rate risk. The Group currently does not use any derivative contracts to hedge its exposure to interest rate risk. However, management will consider hedging significant interest rate exposure should the need arise.

As at 31 December 2018, if interest rates on assets and liabilities had been increased/decreased by 100 (2017: 100) basis point with all variables held constant, the Group's post-tax profit for the year would have been RMB139,300,000 decreased/increased (2017: RMB82,531,000 decreased/increased). Majority of the interest expenses would be capitalised as a result of such interest expenses directly attributable to the property construction.

(3) Price risk

The Group is exposed to equity securities price risk in connection with the Group's investment in listed equity securities classified as financial assets at FVTPL (2017: financial assets at FVTPL). The Group closely monitors the fluctuation of the price and assesses the impact on the Group's consolidated financial statements.

If the price of listed equity securities had been 5% (2017: 5%) increased/decreased, post-tax profit for the year ended 31 December 2018 would have been decreased/increased by approximately RMB9,730,000 (2017: RMB3,618,000).

(ii) Credit risk

Credit risk refers to the risk that the counterparty to a financial instrument would fail to discharge its obligation under the terms of the financial instrument and cause a financial loss to the Group. The Group's exposure to credit risk mainly arises from granting credit to customers in the ordinary course of its operations and from its investing activities.

The Group's credit risk primarily arises from convertible bonds receivable, debtors, deposits and other receivables, restricted cash, long-term and short-term bank deposits, cash and bank balances, and guarantees provided in respect of mortgage facilities (note 37).

Effective on 1 January 2018

The credit risks on restricted cash, short-term and long-term bank deposits and cash and bank balances are considered to be insignificant because the counterparties are banks/financial institutions with high credit ratings assigned by international credit-rating agencies.

Trade debtors

The Group applies the simplified approach to providing for ECL prescribed by HKFRS 9, which permits the use of the lifetime expected loss provision for all trade debtors.

To measure the ECL of trade debtors, trade debtors have been grouped based on shared credit risk characteristics and the days past due. As at 31 December 2018, there was no concentration of credit risk with respect to trade debtors as the Group has a large number of customers.

Deposits and other receivables (excluding prepayments and prepaid other taxes)

For financial assets at amortised cost include other receivables, amounts due from joint ventures, associates and non-controlling interest of a subsidiary, management makes periodic collective assessments as well as individual assessment on the recoverability of deposits and other receivables based on historical settlement records and past experience.

The Group considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period. To assess whether there is a significant increase in credit risk, the Group compares the risk of a default occurring on the asset as at the reporting date with the risk of default as at the date of initial recognition. It also considers available reasonable and supportive forward-looking information.

Especially the following indicators are incorporated:

- internal credit rating
- external credit rating
- actual or expected significant adverse changes in business, financial or economic conditions that are expected to cause a significant change to the borrower's ability to meet its obligations
- actual or expected significant changes in the operating results of individual property owner or the borrower
- significant increases in credit risk on other financial instruments of the individual property owner or the same borrower
- significant changes in the expected performance and behaviour of the borrower, including changes in the payment status of borrowers in the Group and changes in the operating results of the borrower.

The Group uses four categories for those receivables which reflect their credit risk and how the loss provision is determined for each of those categories.

A summary of the assumptions underlying the Group's ECL model is as follows:

Category	Group definition of category	Basis for recognition of ECL provision
Performing	Customers have a low risk of default and a strong capacity to meet	12 months expected losses. Where the expected lifetime of an asset is less than 12 months, expected losses are measured at its expected lifetime
Underperforming	Receivables for which there is a significant increase in credit risk; as significant increase in credit risk is presumed if interest and/or principal repayments are more than 90 days past due	Lifetime expected losses
Non-performing	Interest and/or principal repayments are more than 365 days past due	Lifetime expected losses
Write-off	Interest and/or principal repayments are more than 3 years past due and there is no reasonable expectation of recovery	Asset is written off

The Group accounts for its credit risk by appropriately providing for ECL on a timely basis. In calculating the ECL rates, the Group considers historical loss rates for each category of receivables and adjusts for forward-looking macroeconomic data.

(ii) Credit risk (Continued)

Effective on 1 January 2018 (Continued)

As at 31 December 2018, the gross carrying amount of debtors, deposits and other receivables (excluding prepayments and prepaid other taxes) was RMB18,979,189,000 and thus the maximum exposure to loss was RMB18,979,189,000. The Group made no write-off of debtors, deposits and other receivables (excluding prepayments and prepaid other taxes) during the year.

Effective before 1 January 2018

The Group has concentration of credit risk on liquid funds which are deposited with several banks, which are mainly state-owned banks and with high credit ratings in the PRC.

The credit risk of the Group's convertible bonds receivable arises from default of the counterparty with a maximum exposure equal to the carrying amounts of this financial instrument.

The Group has arranged bank financing for certain purchasers of property units and provided guarantees to secure obligations of such purchasers for repayments. If a purchaser defaults on the payment of its mortgage during the term of the guarantee, the Group is able to retain the property sales proceeds received from the purchasers and sell the property to recover any amounts paid by the Group to the bank.

The management considers the credit risk exposure to financial guarantees provided to property purchasers is limited because the facilities are secured by the properties and the market price of the properties is higher than the guaranteed amounts. In this regard, the Directors consider that the Group's credit risk is significantly reduced.

The Group has concentration of credit risk on amounts due from associates, joint ventures and non-controlling interests of a subsidiary, the Group assessed the credit quality of the associates, joint ventures and non-controlling interests of a subsidiary by taking into account their financial position and credit history. Management also regularly review the recoverability of the advances. The risk of default by associates, joint ventures and non-controlling interests of a subsidiary is low.

As at 31 December 2017, 81.3% of the total trade receivables was due from the Group's largest customer. The Group does not notice any significant changes in the credit quality of the trade receivable and the amount is considered to be recoverable.

(iii) Liquidity risk

Management aims to maintain sufficient cash and bank balances or have available funding through an adequate amount of available financing, including short-term and long-term bank and other borrowings to meet its construction commitments. Due to the dynamic nature of the underlying businesses, the Group maintains flexibility in funding by maintaining adequate amount of cash and bank balances and through having available sources of financing.

To cope with the rapid expansion of the Group's businesses, the Group raised significant amounts of borrowings during the years ended 31 December 2018 and 2017. As at 31 December 2018, the Group's total borrowings stood at RMB108,765,962,000 (2017: RMB111,173,187,000). During the year ended 31 December 2018, in order to properly manage the Group's liquidity risk and capital structure, the Group has issued several batches of senior notes with an aggregated principal amount of RMB38,771,662,000 (2017: RMB41,577,820,000).

Except for the aforementioned recent development, the Group has certain alternative plans to mitigate the potential impacts on anticipated cash flows should there be significant adverse changes in economic environment. These include control on investment in land reserve, adjusting project development timetable to adopt the changing local real estate market environment, implementing cost control measures, accelerating sales with more flexible pricing, seeking partners to develop quality projects and renegotiating payment terms with counterparties for certain land acquisitions. The Group will pursue such options based on its assessment of relevant future costs and benefits.

4.2 Capital risk management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

The capital structure of the Group consists of debt, which includes the borrowings (note 31) less cash and bank balances, short-term bank deposits, long-term bank deposits (note 29) and restricted cash (note 28) and equity attributable to owners of the Company, comprising share capital and reserves.

The directors of the Company review the capital structure periodically. As a part of this review, the directors of the Company assess the annual budget prepared by the treasury department which reviews the planned construction projects proposed by engineering department and prepare the annual budget taking into account of the provision of funding. Based on the proposed annual budget, the directors of the Company consider the cost of capital and the risks associated with each class of capital. The directors of the Company also balance its overall capital structure through the payment of dividends, new share issues as well as the issue of new debt or the redemption of existing debt.

Consistent with others in the industry, the Group monitors capital on the basis of the gearing ratio. This ratio is calculated as net debt divided by total equity. Net debt is calculated as total borrowings (including current and non-current borrowings, as shown in the consolidated statement of financial position) less cash and bank balances, long-term and short-term bank deposits and restricted cash. Total capital is calculated as equity, as shown in the consolidated statement of financial position, plus net debt.

The gearing ratios of the Group at 31 December 2018 and 2017 were as follows:

	2018 RMB'000	2017 RMB'000
Total borrowings (note 31)	108,765,952	111,173,187
Less: Cash and bank balances, long-term and short-term bank deposits (note 29) and restricted cash (note 28)	(22,924,149)	(21,170,203)
Net debt	85,841,803	90,002,984
Total equity	36,339,312	29,998,150
Gearing ratio	236.22%	300.03%

The gearing ratio for 2018 was lower than that for 2017 as a result of the decrease in borrowings during the year.

4.3 Fair value estimation

The different levels of the financial instruments carried at fair value, by valuation method, have been defined as follows:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

Assets				
Financial assets at FVTPL	96,467	–	–	96,467

Financial assets at FVTPL related to investment in equity fund which invest in automobile business amounting to RMB199,131,000 were transferred in level 3 to level 1 during the year ended 31 December 2018 (2017: there were no transfers between level 1, 2 and 3 during the year.)

The nominal value less impairment provisions of debtors and other receivables and the nominal value of accrued construction costs and other payables approximate their fair value due to their short maturities. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Group for similar financial instruments.

(i) Financial instruments in level 1

The fair value of financial instruments traded in active markets is based on quoted market prices at the reporting date. A market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis. The quoted market price used for financial assets held by the Group is the current bid price. These instruments are included in level 1.

For the financial derivative, the fair value change amounting to RMB969,204,000 were included in "changes in fair value of financial derivatives" in the profit or loss for the year ended 31 December 2017.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

4. FINANCIAL RISK MANAGEMENT (Continued)

4.3 Fair value estimation (Continued)

(ii) Financial instruments in level 3 (Continued)

The fair value of financial instruments is determined by using the market approach model. The valuation techniques and significant unobservable inputs of the financial assets at FVTPL are as follows:

Valuation techniques	Significant unobservable inputs	Range	Sensitivity relationship of unobservable inputs to fair value
Market approach method	Price to earnings ratios	8.26 to 31.22	Increase (decrease) in price to earnings ratio would result in increase (decrease) in fair value
	Discount for lack of marketability	20%	Increase (decrease) in discount rate would result in increase (decrease) in fair value

The discount for lack of marketability represents the amounts of premiums and discounts determined by the Group that market participants would take into account when pricing the investments.

Since one or more of the significant inputs are not based on observable market data, the fair value measurement of these instruments are categorised as level 3. For disclosures of fair value measurement of the Group's investment properties, details are disclosed in note 16 to the consolidated financial statements.

The carrying amounts of the Group's financial instruments carried at cost or amortised cost were not materially different from their fair values as at 31 December 2018 and 2017 except for the following financial instruments, for which their carrying amounts and fair value are disclosed below:

	2018		2017	
	Carrying amount RMB'000	Fair value RMB'000	Carrying amount RMB'000	Fair value RMB'000
Borrowings:				
– Senior notes (note 31(a))	39,726,866	30,883,782	34,752,933	34,795,711

The Group does not have any financial assets/liabilities that are subject to offsetting, enforceable master netting arrangement and similar agreements during the years ended 31 December 2018 and 2017.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

5. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

Estimates and judgements used in preparing the consolidated financial statements are evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal to the related actual results. The estimates and assumptions that may have a significant effect on the carrying amounts of assets and liabilities within the next financial year are discussed below.

(a) Key estimation of uncertainties

(i) Fair value of investment properties

Investment properties, including those completed investment properties and investment properties under construction, are carried at fair value in the consolidated statement of financial position and the changes in the fair value recognised in the profit or loss. It obtains independent valuations at least annually. In making the judgement, consideration is given to assumptions that are mainly based on market conditions existing at the reporting date, expected rental from future leases in the light of current market conditions and appropriate capitalisation rates. Changes in subjective input assumptions can materially affect the fair value estimate. The key assumptions used in the valuation in determining fair value for the Group's portfolio of properties are set out in note 16 to the consolidated financial statements.

As at 31 December 2018, the aggregate fair value of the Group's investment properties amounted to RMB35,930,000,000 (2017: RMB32,025,830,000) based on the valuation performed by an independent professional valuers.

(ii) Provision for properties under development and completed properties held for sale

The Group assesses the carrying amounts of properties under development and completed properties held for sale according to their recoverable amounts based on the realisability of these properties, taking into account estimated costs to completion based on past experience (properties under development only) and committed contracts and estimated net sales value based on prevailing market conditions. Provision is made when events or changes in circumstances indicate that the carrying amounts may not be realised. The assessment requires the use of judgement and estimates.

As at 31 December 2018, based on management's best estimates, the Group has made a provision of RMB1,505,566,000 (2017: RMB1,733,708,000) for properties under development and completed properties held for sale.

(iii) Prepayments for proposed development projects and deposits for land acquisitions

The Group assesses the carrying amounts of deposits for land acquisitions and prepayments for proposed development projects according to their recoverable amounts based on the realisability of these land use rights and property development projects, taking into account estimated net sales values based on prevailing market conditions. Provision is made when events or changes in circumstances indicate that the carrying amounts may not be realised. The assessment requires the use of judgement and estimates.

As at 31 December 2018, the carrying amounts of prepayments for proposed development projects and deposits for land acquisitions are RMB19,080,815,000 (2017: RMB15,925,608,000) and RMB19,445,196,000 (2017: RMB21,422,522,000) respectively.

(iv) Impairment of non-financial assets (other than goodwill)

The Group assesses whether there are any indicators of impairment for all non-financial assets at the reporting date. Other non-financial assets are tested for impairment when there are indicators that the carrying amounts may not be recoverable. An impairment exists when the carrying value of an asset or a CGU exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The calculation of the fair value less costs of disposal is based on available data from binding sales transactions in an arm's length transaction of similar assets or observable market prices less incremental costs for disposing of the asset. When value-in-use calculations are undertaken, management must estimate the expected future cash flows from the asset or CGU and choose a suitable discount rate in order to calculate the present value of those cash flows.

As at 31 December 2018, based on management's best estimates, the Group has made a provision of RMB149,316,000 (2017: RMB149,316,000), RMB12,249,000 (2017: RMB12,249,000) and RMB658,685,000 (2017: nil) for property, plant and equipment, land use rights and investments in associates respectively.

5. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS (Continued)

(a) Key estimation of uncertainties (Continued)

(v) Income taxes, land appreciation taxes, withholding taxes and deferred income taxes

The Group's subsidiaries that operate in the PRC are subject to income tax in the PRC. Significant judgement is required in determining the provision for income taxes and withholding taxes on undistributed earnings of PRC subsidiaries. There are many transactions and calculations for which the ultimate determination is uncertain during the ordinary course of business. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such difference will impact the income tax and deferred income tax provision in the period in which such determination is made.

Deferred tax liabilities have not been established for income tax and withholding tax that would be payable on certain profits of PRC subsidiaries to be repatriated and distributed by way of dividends as the directors consider that the timing of the reversal of the related temporary differences can be controlled and such temporary differences will not be reversed in the foreseeable future. If those undistributed earnings of the PRC subsidiaries are considered to be repatriated and distributed by way of dividends, the deferred income tax charge and deferred tax liabilities would have been increased by the same amount of approximately RMB769,786,000 (2017: RMB971,605,000).

Deferred tax assets relating to certain temporary differences and tax losses are recognised when management considers to be probable that future taxable profit will be available against which the temporary differences or tax losses can be utilised. The outcome of their actual utilisation may be different.

The Group is subject to land appreciation taxes in the PRC. However, the implementation and settlement of these taxes varies among various tax jurisdictions in cities of the PRC, and the Group has not finalised certain of its land appreciation taxes calculation and payments with any local tax authorities in the PRC for most of its property projects. Accordingly, judgement is required in determining the amount of the land appreciation tax. The Group recognises these land appreciation taxes based on management's best estimates according to the interpretation of the tax rules. The final tax outcome could be different from the amounts that were initially recorded, and these differences will impact the income tax expense and tax provisions in the periods in which such taxes have been finalised with local tax authorities.

(vi) Intangible assets – contracts with various sports players

Intangible assets acquired separately are measured at initial recognition at cost. The cost of intangible assets acquired in a business combination is the fair value as at the date of acquisition.

The life of the intangible assets ranges from 1 to 4 years based on the respective sports players' contract. These are reviewed annually on a player by player basis to determine whether there are indicators of impairment. Determining whether the intangible asset should be impaired at the reporting date, factors such as whether the sports player will remain an active member of the playing squad and an assessment of the league that the football team will be playing in, will be taken into account.

As at 31 December 2018, the carrying amount of the intangible asset is RMB234,870,000 (2017: RMB276,823,000).

5. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS (Continued)

(a) Key estimation of uncertainties (Continued)

(vii) Provision for impairment of trade debtors and other receivables

Since the initial adoption of HKFRS 9, the Group makes allowances on items subjects to ECL (including debtors, deposits and other receivables (excluding prepayments and prepaid other taxes) based on assumptions about risk of default and expected loss rates. The Group uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on the Group's past history, existing market conditions as well as forward looking estimates at the end of each reporting period as set out in note 2.12. As at 31 December 2018, the aggregate carrying amounts of debtors, deposits and other receivables (excluding prepayments and prepaid other taxes) amounted to RMB1,032,753,000 (net of ECL allowance of RMB23,470,000) and RMB17,186,742,000 (net of ECL allowance of RMB759,694,000 respectively.

Before the adoption of HKFRS 9, the Group assesses at the end of each reporting period whether there is any objective evidence that debtors, deposits and other receivables (excluding prepayments and prepaid other taxes) are impaired. In determining whether there is objective evidence of impairment, the Group takes into consideration the ageing status and the likelihood of collection by reference to the background and repayment history of the debtors and the occurrence of any default or disputes. Where there is objective evidence of impairment, the amount and timing of future cash flows are estimated based on factors such as repayment plans committed by debtors and subsequent collections. An impairment loss is made for debtors of which the present values of future cash flows are less than their carrying amount. As at 31 December 2017, the aggregate carrying amount of debtors, deposits and other receivables (excluding prepayments and prepaid other taxes) amounted to RMB1,964,390,000 and RMB9,158,575,000 respectively.

When the actual future cash flows are different from expected, such difference will impact the carrying amount of trade receivables and other items within the scope of ECL upon application of HKFRS 9/ other financial instruments before application of HKFRS 9 and credit losses in the periods in which such estimate has been changed.

(viii) Estimation of goodwill impairment

The Group tests whether goodwill has suffered any impairment on an annual basis. The recoverable amount of CGU is determined based on value-in-use calculations which require the use of assumptions. Details of impairment assessment and key assumptions are disclosed in note 21(a).

(b) Critical accounting judgements

(i) Revenue recognition from sales of properties

Revenue from sales of properties is recognised over time when the Group's performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date; otherwise, revenue is recognised at a point in time when the buyer obtains control of the completed property. The Group may not change or substitute the property unit or redirect the property unit for another use due to the contractual restrictions with the customer and thus the property unit does not have an alternative use to the Group. However, whether there is an enforceable right to payment depends on the terms of sales contract and the interpretation of the applicable laws that apply to the contract. Such determination requires significant judgements. The Group has obtained legal counsel opinion regarding the enforceability of the right to payment for sales contracts. Management uses judgements, based on legal counsel opinion, to classify sales contracts into those with enforceable right to payment for performance completed to date and those without the right.

The Group recognises property development revenue over time by reference to the progress toward complete satisfaction of the performance obligation at the reporting date. The progress is measured based on the Group's efforts or inputs to the satisfaction of the performance obligation, by reference to the contract costs incurred up to the reporting date as a percentage of total estimated costs for each property unit in the contract. The Group calculated the cost allocation based on type of properties, gross and saleable floor areas. Significant judgements and estimations are required in determining the completeness of the estimated total costs and the accuracy of progress towards complete satisfaction of the performance obligation at the reporting date. The Group has a standard cost budgeting and estimate completion process in which management reviews the development progress and execution of the performance obligations. As part of this process, management reviews information including but not limited to, the cost to achieve the schedule. Changes in cost estimates in future periods can have effect on the Group's revenue recognised. In making the above estimations, the Group relies on past experience and work of contractors and, if appropriate, surveyors.

The Group recognised sales of properties over time amounted to RMB5,493,620,000 (note 6) for the year ended 31 December 2018.

(b) Critical accounting judgements (Continued)

- (ii) Business combinations and control over Kaisa Health Group Holdings Limited (formerly known as “Mega Medical Technology Limited”) (“Kaisa Health Group”)

As disclosed in note 39(b), the Group has de facto control over Kaisa Health Group in November 2018 and since then the Group’s 42.89% (2017: 41.24%) interest at the completion date of right issue of Kaisa Health Group is accounted for and consolidated into the consolidated financial statements of the Group as a subsidiary. The Group’s equity interest increased from 41.24% as at 31 December 2017 to 42.89% as at 31 December 2018 was due to the Group acquired 63,600,000 shares at a consideration approximately of RMB14,795,000 during the year ended 31 December 2018. The directors of the Company assessed whether the Group has control over Kaisa Health Group based on whether the Group has the practical ability to direct the relevant activities of Kaisa Health Group unilaterally. Key judgments adopted in concluding the Group has obtained control in Kaisa Health Group are: the Group has held a majority of the voting rights exercised at Kaisa Health Group’s shareholders’ meetings and no other single shareholder directly or indirectly controls more voting rights than the Group; the shareholding of other non-controlling interests is dispersed and the chance of all other shareholders getting together to vote against the Group is remote; and the Group has obtained effective control over majority of the board of Kaisa Health Group.

The valuation of the fair value of the net identifiable assets and liabilities was determined by reference to valuation conducted by an independent professional valuer using valuation technique. The valuation included certain key assumptions that involved significant management judgements and estimation.

The Group recognised, inter alia, intangible assets of RMB589,140,000 and other net assets excluding intangible assets of RMB493,357,000 and goodwill of RMB203,931,000, details of which is set out in note 39(b).

- (iii) Classification of financial assets at FVTPL (before 1 January 2018: available-for-sale financial assets)

Note 20 describes that the investment in an unlisted entity is treated as financial assets at FVTPL (before 1 January 2018: available-for-sale financial assets) although the Company has 21.98% effective equity interest in this investee. The Group is entitled to appoint a director of the investee’s board of directors out of a total of seven. In making the judgement, the directors of the Company considered the majority ownership of the investee is concentrated by a major shareholder who operate the investee and direct all the relevant financing and operating decisions relating to daily investment activities for the investee by simple majority votes without regard to the views of the Group and concluded that it is not sufficient significant influence over the relevant activities of this investee or to participate in their operations. Accordingly, the investee is classified as financial assets at FVTPL (before 1 January 2018: available-for-sales financial assets).

- (iv) Classification of joint arrangements as joint ventures

The Group assesses the existing business structure and terms of contractual arrangement of the joint arrangement agreements and classified the development project transferred to various joint arrangements as joint ventures during the year ended 31 December 2017. Accordingly, the rights to assets and obligations for liabilities in relation to the joint operation is reclassified to the joint ventures, each party involved in these companies determines its equity shareholding based on their relative interest in the joint venture under the contractual terms of the joint arrangement agreements. Details of the joint ventures are set out in note 18(b) to the consolidated financial statements.

6. SEGMENT INFORMATION

The CODM has been identified as the executive directors of the Company who are responsible for reviewing the Group's internal reporting in order to assess performance and allocate resources. The management has determined the operating segments based on these reports. The executive directors assessed the performance of each single operating segment based on a measure of segment results. Fair value loss of financial derivatives, net fair value loss on financial assets at FVTPL, net gain on repurchase of senior notes, corporate and other unallocated expenses, finance income, finance costs and income tax expenses are not included in the result for each operating segment.

The CODM identified the segments based on the nature of business operations. Specifically, the CODM assessed the performance of property development, property investment, property management services, hotel and catering operations, cinema, department store and cultural centre operations, water-way passenger and cargo transportation operation and regarded these being the reportable segments. Following the step acquisition of Kaisa Health Group in 2017, the Group commenced to involve in healthcare business and grouped under other operating segments which was insignificant to present as a separate segment.

As the CODM of the Group considers most of the revenue and results of the Group are attributable to the market primarily in the PRC, and over 90% of the Group's assets are located in the PRC, no geographical segment information is presented.

Revenue for the year ended 31 December 2018 consists of the following:

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

12. EARNINGS PER SHARE

(a) Basic

Basic earnings per share are calculated by dividing the profit attributable to owners of the Company by the weighted average number of ordinary shares in issue during the year.

	2018	2017
Profit attributable to owners of the Company (RMB'000)	2,750,206	3,284,889
Weighted average number of ordinary shares in issue	6,067,118,267	5,459,531,620
Basic earnings per share (RMB)	0.453	0.602

The calculation of basic earnings per share is based on the Group's profits attributable to owners of the Company of RMB2,750,206,000 (2017: RMB3,284,889,000) and the weighted average number of 6,067,118,267 (2017: 5,459,531,620) ordinary shares, after adjusting for the issue of shares on exercise of share options during the year ended 31 December 2018.

(b) Diluted

	2018	2017
Profit attributable to owners of the Company (RMB'000)	2,750,206	3,284,889
Weighted average number of ordinary shares in issue during the year	6,067,118,267	5,459,531,620
Effect of issue of shares under adjustment for share option scheme	45,258,367	80,310,257
Weighted average number of ordinary shares for the purpose of calculating diluted earnings per share	6,112,376,634	5,539,841,877
Diluted earnings per share (RMB)	0.450	0.593

Diluted earnings per share for the year ended 31 December 2018 is calculated based on the weighted average number of ordinary shares outstanding adjusted to assume conversion of all dilutive potential ordinary shares.

The Company's dilutive potential ordinary shares consist of share options. For the share options, a calculation is made to determine the number of shares that could have been acquired at fair value (determined as the average annual market share price of the Company's shares) based on the monetary value of the subscription rights attached to the outstanding share options. The number of shares calculated as above is compared with the number of shares that would have been issued assuming the exercise in full of the share options.

Valuation processes of the Group

The Group obtains independent valuations from Savills Valuation and Professional Services Limited, for its investment properties at least annually. For all investment properties, their current use equates to the highest and best use.

Discussions of valuation processes and results are held between the management, audit committee and the valuers at least once every six months, in line with the Group's interim and annual reporting dates.

At each of half year-end, the management:

- Verifies major inputs to the independent valuation report;
- Assesses property valuations movements when compared to the prior year valuation report; and
- Holds discussions with the independent valuer.

Valuation techniques

Fair value measurements using significant unobservable inputs

Fair values of completed commercial properties are generally derived using the income capitalisation method. This valuation method is based on the capitalisation of the net income and reversionary income potential by adopting appropriate capitalisation rates, which are derived from analysis of sale transactions and valuers' estimates of prevailing investor requirements or expectations. The prevailing market rents adopted in the valuation have reference to recent lettings, within the subject properties and other comparable properties.

Significant inputs used to determine fair value

	2018		2017	
	Commercial	Carpark	Commercial	Carpark
Capitalisation rate	3.0% – 6.5%	6.5%	3.0%-6.0%	4.5%
Expected vacancy rate	0% – 5%	N/A	0.0%-10.0%	N/A
Monthly rental	RMB26 – 590 per sq.m.	RMB2,500 per number	RMB56-574 per sq.m.	RMB2,400 per number

Capitalisation and discount rates are estimated by the valuer based on the risk profile of the properties being valued. The higher the rates, the lower the fair value.

Fair values of commercial properties under development are generally derived using the combination of direct comparison method by making reference to the comparable market transactions for the land portion as available in the market and the income capitalisation method by capitalising market rent derived from the properties. This valuation method is essentially a means of valuing the land and properties under development by reference to its development potential by deducting development costs together with developer's profit and risk from the estimated capital value of the proposed development assuming completed as at the date of valuation.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

16. INVESTMENT PROPERTIES (Continued)

Significant inputs used to determine fair value

	2018	2017
Term yield and revisionary yield	4.35% – 4.75%	4.75%
Budgeted construction cost (RMB/sq.m.)	197 – 6,152	2,500-9,500
Anticipated developer's profit margin	5% – 20%	10.0%-20.0%

The higher the term yield and revisionary yield, the lower the fair value.

Estimated costs to complete per square meter and developer's profit margin required are estimated by the valuer based on market conditions at the year end dates. The estimates are largely consistent with the budgets developed internally by the Group based on management's experience and knowledge of market conditions. The higher the costs, the lower the fair value.

As at 31 December 2018 and 2017, the fair value measurement of the Group's investment properties is categorised at level 3. During the years ended 31 December 2018 and 2017, there were no transfers into or out of level 3.

The Group's investment properties are analysed as follows:

	2018 RMB'000	2017 RMB'000
In the PRC, held on:		
Leases of between 10 to 50 years	33,817,000	29,576,620
Leases of over 50 years	2,113,000	2,449,210

For the year ended 31 December 2018, the Group entered into agreements with third parties to acquire four immaterial associates in aggregate amounts of RMB325,238,000 and, the Group injected additional capital amounting to RMB331,630,000 into certain associates. In addition, the Group entered into cooperation agreement with other investor to set up a company to obtain development projects to redevelop. The Group and the investor agreed to contribute RMB1,568,000,000 and RMB1,632,000,000 to the company, Fuzhou Xin De Yuan Property Development Co., Ltd (“Xin De Yuan”) respectively.

As at 31 December 2018, the fair value of the Group’s interests in associates Nam Tai Property Inc. (“Nam Tai”) and Kaisa JiaYun Technology Inc. (“JiaYun Technology”) (previously known as Guangdong Mingjia Lianhe Mobile Technology Co., Ltd. (“Mingjia Lianhe”), which are listed in the New York Stock Exchange and Shenzhen Stock Exchange was RMB547,535,000 and RMB586,609,000 (2017: RMB753,705,000 and RMB1,117,584,000) respectively based on the market prices available on the respective stock exchanges, which is level 1 input in terms of HKFRS 13, Fair value measurement.

Management has reviewed the shortfall between the carrying amount of a Shenzhen Stock Exchange listed associate, JiaYun Technology, and the market value of JiaYun Technology at the end of the reporting period. The management considers that the value in use based on discounted future cash flows of JiaYun Technology is lower than the carrying amount and the market value of JiaYun Technology, hence, impairment loss on interest in an associate amounting to RMB658,685,000 (2017: nil) is recognised during the year ended 31 December 2018.

Set out below are details of associates of the Group as at 31 December 2018 which, in the opinion of the directors, are material to the Group.

- (i) For the year ended 31 December 2018, the Group entered into agreements with third parties to acquire three immaterial joint ventures in aggregate amounts of RMB339,100,000. For the year ended 31 December 2017, the Group entered into agreements with third parties to acquire four immaterial joint ventures in aggregate amount of RMB10,775,000 and a material joint venture namely Guangzhou Nantian Company Limited* ("Nantian") of RMB1,400,000,000. Nantian is engaged in property leasing and development.
- (ii) During the year ended 31 December 2017, the Group assessed the existing business structure of the joint arrangement in relation to acquisition and development of a parcel of land located in Dapeng Xiasha in Shenzhen, which the Group and the joint arrangement partner agreed to set up three entities, namely Shenzhen Jiade Travelling Company Limited*, Shenzhen Jiafu Travelling Company Limited* and Shenzhen Zhaofu Travelling Company Limited*. These companies share similar risk characteristics, and therefore these companies are collectively referred to as "JVs for Dapeng Xiasha Development Project" and present in aggregate. In accordance with the joint arrangement, the decisions about relevant activities in these entities require unanimous consent of the parties sharing control. During the preliminary stage of development, the respective land was owned by the Group and the joint arrangement partner separately, and therefore the management accounted for joint operation under this joint arrangement.

The Group and the joint arrangement partner transferred their respective lands to these three entities, the Group is entitled to share the net asset of these three entities according to its interests in the ownership set out in the joint venture agreement. Accordingly, the management decided to reclassify the assets and liabilities of the former joint operation to the interests in joint ventures during the year ended 31 December 2017.

Available-for-sale financial assets include the following:

	2018 RMB'000	2017 RMB'000
Unlisted equity investments, at cost	–	4,400,796

Notes:

- (i) Available-for-sale financial assets were reclassified to financial assets at FVTPL (note 20) upon the initial application of HKFRS 9 at 1 January 2018, see note 3 in details.
- (ii) During the year ended 31 December 2017, the Group invested in an unlisted entity engaged in financial service business amounting to RMB3,976,000,000. At the date of acquisition, the Group obtained 21.98% equity interest in this entity. As discussed in note 5(b)(iii) to the consolidated financial statements, the directors of the Company consider that the Group has no sufficient significant influence on the entity and classified as available-for-sale financial assets.
- (iii) The Group invested an unlisted investment of RMB199,131,000 in a private equity fund which invest in the automobiles business, and other unlisted investment of RMB35,100,000 and RMB24,027,000 mainly represents the Group's cost of investments in unlisted equity funds and private enterprises respectively. These private enterprises are engaged in holding and chartering of the vessels, investment holding and etc.

As at 31 December 2017, unlisted equity investments with an aggregate carrying amount of RMB4,400,796,000 were stated at cost less accumulated impairment because the range of reasonable fair value estimates is so significant that the directors are of the opinion that the fair value cannot be measured reliably. The Group does not intend to dispose of these investments in the near future. During the years ended 31 December 2017, no impairment loss was recognised.

The Group did not have significant influence nor participate in the policy-making process and the operating and financial decisions of these unlisted investments as at 31 December 2017.

- (a) The Group's goodwill arose from business combinations in connection with the acquisition of (i) Kaisa Health Group, (ii) Fujian Jianke Insurance Brokers Co. Ltd.* ("Fujian Jianke"), (iii) Shenzhen Qijia Internet Technology Co. Ltd.* ("Qijia"), (iv) Shanghai Yitao Sports Culture Communication Co., Ltd.* (上海毅濤體育文化傳播有限公司) and its subsidiary (collectively referred to as "Shanghai Yitao Group") and (v) Shenzhen Football Co., Ltd. ("Shenzhen Football Club").

For the purpose of impairment testing, goodwill has been allocated to five cash-generating units ("CGUs") of RMB121,493,000 (2017: RMB121,493,000) in sports operations included in cinema, department store and cultural centre operations segment, RMB286,000 (2017: RMB286,000) in entertainment operations included in cinema, department store and cultural centre operations segment, RMB203,931,000 (2017: RMB203,931,000) in healthcare operations included in other segment, RMB2,462,000 (2017: RMB2,462,000) in financial service operations included in other segment and RMB4,207,000 (2017: RMB4,207,000) in property management operations included in property management segment.

The recoverable amounts of the CGUs are determined by directors of the Company based on value-in-use calculations. These calculations use in cash flow projections in relation to the CGU of sports operations based on financial budgets approved by management covering a 5-year (2017: 9-year) period and assumed the growth rate and inflation rate of 22.9% (2017: 8%) per annum and 3% (2017: 3%) per annum respectively. The cash flow discounted using a pre-tax discount rate of 12% (2017: 12%) and reflects specific risks relating to the relevant segments. The financial budgets are prepared based on 5-year (2017: 9-year) business plan which is appropriate after considering the sustainability of business growth and achievement of business target extrapolated from a track record of financial results. The value assigned to the key assumptions on market development and discount rates are consistent with external information sources. As at 31 December 2018, the Directors of the Company conducted a review on goodwill and no impairment loss in respect of goodwill has been recognised (2017: nil).

In relation to the health business, the recoverable amount of the CGU is determined based on value-in-use calculation. The calculation uses cash flow projections based on financial budgets approved by the management for the year ending 31 December 2019 (2017: 2018) and the following four years based on average growth rate of 35.5% (2017: 38.1%) per annum. Cash flows beyond the five-year period are extrapolated using 3% (2017: 3%) growth rate. A discount rate of 19.0% (2017: 19.5%) is used for this CGU and derived using risk-free rate, the market returns and CGU specific factors. The key assumptions are annual growth rates, estimated future selling prices and direct costs which are estimated based on past practices and expectations of future changes in the market. The Directors believe that any reasonably possible change in any of these assumptions would not cause the aggregate carrying amount of CGU to exceed the aggregate recoverable amount of CGU.

- (b) The amounts represent the costs to acquire sports players' contracts or to extend their contracts, including the related agent's fees. The amortisation period ranged from 1 to 4 (2017: 1 to 4) years.
- (c) The trademarks and patent, customer relationship, technology and distribution network were measured at their fair values at the date of acquisition, i.e. November 2017 and the valuation of the intangible assets is performed by D&P China (HK) Limited, an independent professional valuer not related to the Group. The fair value of these intangible assets at the date of acquisition was determined based on the income approach by estimating the future income arising from these intangible assets and the cost approach by reference to the financial information provided by the Group. The expected useful lives of these intangible assets ranged from 5 to 11 (2017: 5 to 11) years.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

22. CONVERTIBLE BONDS RECEIVABLE

Convertible bonds were subscribed by Kaisa Health Group in 2016 with an aggregate principal amount of EUR5,000,000. The bonds carried interest of 5% per annum payable on the third anniversary of the date of issue, and are denominated in Euro. As at 31 December 2017, the Group can either redeem the bond or exercise the right to subscribe equity securities from the issuers.

The convertible bonds were initially measured at transaction price, which was also the fair value resulted from arm's length market transaction, and subsequently stated at cost, accrued interest less impairment as the conversion option of the hybrid instrument is sufficiently significant to preclude the Group from obtaining a reliable estimate of the entire instrument.

Details of movement is set out below:

	2018 RMB'000	2017 RMB'000
Balance as at 1 January	–	–
Acquisition of a subsidiary (note 39(b))	–	39,794

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

25. DEBTORS, DEPOSITS AND OTHER RECEIVABLES (Continued)

- (a) Trade debtors mainly arise from sales of properties. Proceeds in respect of sales of properties are to be received in accordance with the terms of the related sales and purchase agreements. The ageing analysis of trade debtors based on contractual terms as at the respective reporting dates is as follows:

	2018 RMB'000	2017 RMB'000
Within 90 days	730,411	240,801
Over 90 days and within 180 days	24,598	10,512
Over 181 days and within 270 days	50,376	1,612,128

Less: allowance for impairment (note c)	(23,470)	–
	1,009,283	1,964,390

The Group applies the simplified approach to provide for ECL prescribed by HKFRS 9. As at 31 December 2018, a provision of RMB23,470,000 was made against the gross amount of trade receivables (2017: RMB27,915,000 (note 4.1(ii))).

Generally, no credit terms were granted to the customers of residential properties. There is no concentration of credit risk with respect to trade debtors as the Group has a large number of customers as at 31 December 2018. Significant concentration of risk exists where the Group has material exposures to the trade receivables from sales of proposed development project from one customer located in Mainland China which accounted for 81.3% of the total trade debtors at 31 December 2017.

Included in the Group's trade debtors of RMB408,243,000 and RMB40,831,000 as at 31 December 2018 and 2017, respectively, were not yet due. The balances mainly represented receivables from sales of commercial and residential properties and property under development (2017: commercial and residential properties and proposed development project) to independent third parties. These receivables were repayable within six months to nine months (2017: one year) after the completion of certain legal documents, which were expected to be settled in the next year.

Receivables that were past due but not impaired related to the balances primarily represented receivables from residential properties to independent third parties of which the majority of the balances were due from customers in the process of applying mortgage loans, and sales of proposed development project.

The Group did not hold any collateral as security or other credit enhancements over the trade receivables.

(i) These receivables mainly included bills receivables, interest receivables and amounts to be refunded by the government in relation to the land acquisition in the PRC.

As at 31 December 2018, there are other receivables amounting to RMB1,370,176,000 (2017: RMB895,256,000) are unsecured, carry at interest rate ranging from 3.8% to 12% (2017: 3.8% to 12%) p.a. and repayable in 2019 (2017: 2018).

Included in other receivables, those which are repayable over 1 year amounting to RMB744,046,000 (2017: RMB584,880,000) are classified as non-current assets.

(ii) Other deposits mainly represented deposits for acquisitions of subsidiaries amounted to RMB279,040,000 (2017: RMB144,402,000), acquisitions of associate amounted to RMB629,766,000 (2017: RMB238,980,000), refundable deposit to redevelopment project partner for the purpose of the project amounted to RMB1,007,361,000 (2017: RMB2,940,376,000) and other deposits amounted to RMB1,057,121,000 (2017: RMB655,419,000).

(iii) The amount represented non-interest bearing deposit restricted for borrowings from non-financial institution.

(iv) The amounts are unsecured, interest-free and repayable on demand, and expected to be recovered within 12 months from the reporting date and is therefore classified as current asset.

(v) The carrying amounts of the Group's receivables are mainly denominated in RMB and USD.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

25. DEBTORS, DEPOSITS AND OTHER RECEIVABLES (Continued)

- (c) Impairment losses in respect of debtors, deposits and other receivables (excluding prepayments and prepaid other taxes) are recorded using an allowance account unless the Group is satisfied that recovery of the amounts are remote, in which case the impairment losses are written off against debtors, deposits and other receivables (excluding prepayments and prepaid other taxes) directly. The movement in the allowance for impairment of debtors, deposits and other receivables (excluding prepayments and prepaid other taxes) is disclosed in note 4.1(ii).
- (d) Prepayments mainly represent prepayments for purchase of construction materials and services.
- (e) The maximum credit risk exposure is the amount shown on the consolidated statement of financial position.

26. DEPOSITS FOR LAND ACQUISITION

Deposits for land acquisition arise from the acquisition of land in various regions in the PRC. These deposits would be converted into land use rights when the rights to use the lands have been obtained. The carrying amounts of the Group's deposits for land acquisition are mainly denominated in Renminbi.

27. PREPAYMENTS FOR PROPOSED DEVELOPMENT PROJECTS

The Group has entered into a number of contractual arrangements relating to redevelopment of certain areas and other development projects with independent third parties and has made prepayments in accordance with the terms of these respective contracts. These prepayments would be converted into properties under development upon the completion of the contracts.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

28. RESTRICTED CASH

Restricted cash mainly comprised of:

- (a) In accordance with relevant documents issued by local State-Owned Land and Resource Bureau, certain subsidiaries of the Group engaged in property development are required to place in designated bank accounts certain amount of proceeds from pre-completion sale of properties as guaranteed deposits for constructions of related properties. The deposits can only be used for purchases of construction materials and construction of the relevant property projects when approvals are obtained from local State-Owned Land and Resource Bureau. As at 31 December 2018, such guaranteed deposits amounted to RMB3,707,171,000 (2017: RMB3,598,458,000). They will be released after the construction of the relevant properties is completed or the related property ownership certificates are issued, whichever is earlier.
- (b) As at 31 December 2018, the Group's cash of RMB160,656,000 (2017: RMB193,632,000) was deposited in certain banks as guaranteed deposits for the benefit of mortgage loan facilities (note 37) granted by the banks to the purchasers of the Group's properties.

On 21 July 2016, the Debt Restructuring (as defined in the Company's announcement dated 22 July 2016 (the "Announcement")) was effected whereby the Group's offshore debts, including various senior notes, convertible bonds, bank and other borrowings (collectively and individually referred to as the "Original Offshore Debts") were exchanged for new notes, being Series A-E Senior Notes and Mandatorily Exchangeable Notes as described in the Announcement (collectively and individually referred to as the "New Offshore Debts"). For those exchanges with substantially different terms, the Original Offshore Debts were derecognised and the New Offshore Debts were recognised at their fair values at the effective date. A gain representing the difference between the carrying amount of the related Original Offshore Debts derecognised and the fair value of the related New Offshore Debts recognised, net of the related fees paid and transaction costs. For the remaining exchanges, the consent fees were adjusted against the carrying amounts of the related Original Offshore Debts and amortised over the remaining terms of the related New Offshore Debts.

On 30 June 2017, the Company completed an exchange offer (the "Exchange Offer") pursuant to which the Senior Notes Series A-E were exchanged for 7.25% senior notes due 2020 (the "2020 Notes"), 7.875% senior notes due 2021 (the "2021 Notes"), 8.50% senior notes due 2022 (the "2022 Notes") and 9.375% senior notes due 2024 (the "2024 Notes") (together with the 2020 Notes, the 2021 Notes and the 2022 Notes, the "Senior Notes"). USD2,657,937,000 of the Senior Notes Series A-E, representing approximately 93.08% of the total aggregate principal amounts of the outstanding Senior Notes Series A-E, have been validly tendered for exchange and accepted pursuant to the Exchange Offer. Up to 31 December 2017, the Company issued additional Senior Notes that form a single series with the corresponding Senior Notes issued in the Exchange Offer (the "New Money Issuance").

According to the purchase agreement in relation to the exchange offer for the existing notes, each USD1,000 principal amount of outstanding Senior Notes Series A-E was eligible to exchange for Senior Notes.

The 2020 Notes, 2021 Notes, 2022 Notes and 2024 Notes are listed on the Singapore Exchange Securities Trading Limited.

(a) Senior Notes (Continued)

The Exchange Offer did not constitute a substantial modification, the consent fees paid to the holders of the Senior Notes Series A-E and the transaction costs in connection with the exchange portion amounting to RMB179,304,000 in aggregate attributable to the Exchange Offer adjusted the carrying amounts of the related Senior Notes and amortised over the remaining term of the related Senior Notes. During the year ended 31 December 2017, certain holders of the Senior Notes Series A-E with principal amounts of USD197,570,000 (equivalent to RMB1,338,416,000) in aggregate were redeemed in full pursuant to the Exchange Offer, and the settlement was completed on 3 August 2017.

The fair values of these Senior Notes recognised, net of the transaction costs of RMB31,087,252,000, were calculated based on the present value of contractually determined stream of future cash flows discounted at the market borrowing rates as at the nearest date to the date of initial recognition, as of that date and remaining time to maturity.

The Company issued 6.1% senior notes due 2019 with an aggregated principal amount of HK\$2,325,000,000 (equivalent to approximately RMB1,943,000,000) at 100% of the face value ("2019 Private Notes") on 22 December 2017. The effective interest rate of the 2019 Private Notes is 6.05% per annum after the adjustment for transaction costs of RMB1,646,000.

The Company issued 7.25% Senior Notes due 2020 with an aggregated principal amount of USD330,000,000 (equivalent to approximately RMB2,198,386,000) ("Additional 2020 Notes") on 4 May 2018, 7.875% Senior Notes due 2021 with an aggregated principal amount of USD250,000,000 (equivalent to approximately RMB1,665,444,000) ("Additional 2021 Notes") in November 2018, and 12.0% Senior Notes due 2019 with an aggregated principal amount of USD300,000,000 (equivalent to approximately RMB1,998,532,000) ("2019 Notes") in December 2018. The effective interest rate of the Additional 2020 Notes, Additional 2021 Notes, and 2019 Notes are 10.99%, 9.09%, and 20.38% per annum after the adjustment for transaction costs of RMB78,046,000, RMB18,689,000, and RMB128,039,000.

During the year ended 31 December 2018, the Company repurchased USD108,000,000 (equivalent to approximately RMB719,472,000) of the 2022 Notes and USD67,500,000 (equivalent to approximately RMB449,670,000) of the 2024 Notes, resulted a gain of repurchase of senior notes approximately RMB142,745,000 (note 8). In addition, the Company has made redemption of HK\$1,163,000,000 (equivalent to approximately RMB988,724,000) 2019 Private Notes in December 2018.

The major terms and conditions of the Senior Notes include redemption at the option of the Company and the repurchase of the Senior Notes upon a change of control. As the estimated fair value of the early redemption rights is insignificant at initial recognition, the embedded derivative is not separately accounted for.

The Senior Notes are secured by the pledge of shares of the Group's subsidiaries incorporated outside the PRC, and are jointly and severally guaranteed by certain subsidiaries of the Group.

The movement of the Senior Notes is as follow:

	2018 RMB'000	2017 RMB'000

Notes: (Continued)

(b) MEBs/Convertible Bonds

On 30 June 2017, all the mandatory exchange conditions pursuant to the terms of the convertible bonds have been fulfilled and the Company issued the Exchange Convertible Bonds in exchange for the MEBs in an aggregate principal amount of USD265,898,440 due 31 December 2019 ("Maturity Date"). At the option of the Company, the Maturity Date may be extended by one year to 31 December 2020 (the "Extended Maturity Date"). The exchange of MEBs to convertible bonds did not constitute a substantial modification.

Pursuant to the terms of the convertible bonds, the number of shares to be issued on conversion of convertible bonds will be determined by dividing the principal amount of the convertible bonds converted at the fixed rate of HKD7.80 = USD1.00 by HKD2.34 per share (initial "Conversion Price"), subject to adjustment, then in effect. The Conversion Price may be adjusted subject to several events.

The convertible bonds holder may require the Company to redeem the convertible bonds at the option of the convertible bonds holder on the Extended Maturity Date; or following the occurrence of delisting, suspension of trading or change of control.

The Company may redeem the convertible bonds if (i) the Company has or will become obliged to pay additional tax amounts as a result of amendment to certain laws or regulations; or (ii) the closing price of the shares of the Company for 20 out of 30 consecutive trading days prior to the date upon which notice of such redemption is published was at least 130% of the Conversion Price then in effect; or (iii) at least 90% convertible bonds originally issued has already been converted, redeemed or purchased and cancelled.

As the estimated fair value of the option for the Extended Maturity Date is insignificant at initial recognition, the embedded derivative is not separately accounted for.

The conversion option and the redemption options mentioned above are considered as embedded derivative component of the convertible bonds and revalued at each reporting date.

During the year ended 31 December 2017, certain convertible bonds were converted by the bondholders into 884,126,419 new ordinary shares at HKD2.34 per share. The weighted average share price at the date of exercise for the convertible bonds during that year was HKD4.03. Accordingly, the convertible bonds derecognised during the year ended 31 December 2017.

The convertible bonds and MEBs are secured by the pledge of shares of the Group's subsidiaries incorporated outside the PRC, and are jointly and severally guaranteed by certain subsidiaries of the Group.

The derivative component was valued at fair value by the directors with reference to valuation carried out by an independent professional valuer, Savills Valuation and Professional Services Limited. The fair values of derivative component is derived by deducting the fair value of the liability component from the fair value of convertible bonds as a whole which is calculated using Binomial Option Pricing Model. The aggregate amounts of fair values changes of conversion option and redemption option are RMB1,129,652,000 as at each of conversion dates were charged to profit or loss for the year ended 31 December 2017.

The major inputs used in the models as at the conversion dates were as follows:

	Conversion dates
Stock price	HK\$3.00-HK\$6.66
Exercise price	HK\$2.34
Time to maturity	2.2-2.5 years
Risk-free rate	0.71%-1.06%
Volatility	35.97%-43.19%

Any changes in the major inputs in the model may result in changes in the fair value of the derivative component.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

35. THE GROUP'S RESERVES (Continued)

Notes:

- (a) The merger reserve of the Group represents the difference between the nominal value of the share capital and share premium of the subsidiaries acquired pursuant to the group reorganisation in December 2007 and the nominal value of the share capital of the Company issued in exchange thereof. The reorganisation qualifies as common control combinations and has been accounted for using merger accounting.
- (b) In accordance with the relevant rules and regulations in the PRC and the provision of the articles of association of the PRC companies comprising the Group, before 1 January 2006, the local investment enterprises were required to appropriate at each year end 5% to 10% of the profit for the year after netting off the accumulated losses brought forward (based on figures reported in the statutory financial statements) to the statutory surplus reserve and the statutory public welfare fund (collectively the "Statutory Reserves"), respectively. After 1 January 2006, the local investment enterprises are allowed to appropriate 10% of the net profit to the Statutory Reserves until the accumulated appropriation exceeds 50% of the registered capital.

For Chinese-foreign entities, in accordance with the Law of the PRC on Chinese-foreign Equity Joint Ventures, the percentage of profits to be appropriated to the Statutory Reserves is solely determined by the Board of Directors of these foreign investment enterprises.

In accordance with the Laws of the PRC on Enterprises Operated Exclusively with Foreign Capital and the companies' articles of association, an appropriation to the Statutory Reserves, after net of accumulated losses of previous years, have to be made prior to profit distribution to the investor. The appropriation for the Statutory Reserve of these foreign investment enterprises shall be no less than 10% of the net profit until the accumulated appropriation exceeds 50% of the registered capital.

For the year ended 31 December 2018, the Board of Directors of the Company's subsidiaries in the PRC, including both local and foreign investment enterprises, appropriated RMB6,009,000 (2017: RMB45,939,000) to the Statutory Reserves.

- (c) Share option reserve represents value of employee services in respect of share options granted under the Share Option Scheme (note 41).
- (d) Capital reserve arose from the difference between the amount by which the non-controlling interests are adjusted and the consideration paid for the acquisition of additional equity interest in subsidiaries.

37. FINANCIAL GUARANTEES CONTRACTS

The Group had the following financial guarantees as at 31 December 2018 and 2017:

	2018 RMB'000	2017 RMB'000
Guarantees in respect of mortgage facilities for certain purchasers of the property units sold by the Group	30,587,387	30,094,885

The guarantees in respect of mortgage facilities granted by certain banks related to mortgage loans arranged for certain purchasers of the Group's properties. Pursuant to the terms of the guarantees, upon default in mortgage payments by these purchasers, the Group is responsible to repay the outstanding mortgage principals together with accrued interest and penalty owed by the defaulted purchasers to the banks and the Group is entitled to take over the legal title and possession of the related properties. Such guarantees expire or terminate upon the earlier of (i) issuance of the property ownership certificates which are generally be available within six months to one year after the purchasers take possession of the relevant properties; and (ii) the mortgage loans obtained by the purchasers of properties.

The directors consider that in case of default in payments, the net realisable value of the related properties can cover the repayment of the outstanding mortgage principals together with the accrued interest and penalty and therefore no provision has been made in the consolidated financial statements for the guarantees.

39. ACQUISITIONS OF SUBSIDIARIES

(a) Acquisitions of assets

During the year ended 31 December 2018, the Group acquired controlling equity interests of several individually immaterial subsidiaries at a total consideration of approximately RMB1,571,903,000. These companies did not operate any business prior to the acquisitions and only had properties under development and, prepayments for proposed development projects. Therefore, the Group considered this would be an acquisition of assets in substance and as a result the difference between the purchase consideration paid and the net assets acquired would be recognised as adjustments to the carrying value of properties under development and, prepayments for proposed development project.

The considerations of all these transactions were based on the fair value of the assets acquired.

The non-controlling interests recognised at the acquisition date were measured by reference to the proportionate share of the recognised amounts of the acquiree's identifiable net assets.

(b) Acquisitions of businesses (Continued)

Acquisition of Kaisa Health Group

On 13 November 2017, Kaisa Health Group completed a right issue, enable the Group obtained the effective control over Kaisa Health Group, and became a subsidiary of the Group. The Group considers that the step acquisition provides a good opportunity to diversify the Group's business risk. The results of Kaisa Health Group is consolidated into the Group's financial statements commencing from the acquisition date (i.e. 13 November 2017).

The Group accordingly remeasured the fair value of its pre-existing interest in Kaisa Health Group at the date of completion and recognised the resulting loss of RMB146,258,000 on the remeasurement of the Group's pre-existing interest in Kaisa Health Group to acquisition date fair value.

Goodwill arose because the consideration paid included amounts in relation to the revenue growth and future market development of the business acquired. These benefits are not recognised separately from goodwill, because they do not meet the recognition criteria for identifiable intangible assets. Goodwill arising from the acquisition is not expected to be deductible for tax purpose. The non-controlling interests recognised at the acquisition date were measured by reference to the proportionate share of the recognised amounts of the acquiree's identifiable net assets.

Details of the carrying value and fair value of the Group's pre-existing interest in Kaisa Health Group at the acquisition date are summarised as follows:

	2017 RMB'000

(b) Acquisitions of businesses (Continued)

Acquisition of Shenzhen Qijia Internet Technology Co. Ltd. (“Qijia”)

On 31 December 2017, the Group acquired an additional equity interest of Qijia at the consideration of RMB5,382,000. Qijia was previously an associate of the Group. After the additional acquisition, the Group has 92.26% effective equity interest in Qijia.

The Group accordingly remeasured the fair value of its pre-existing interest in Qijia at the date of completion and recognised the resulting gain of RMB429,000 on the remeasurement of the Group’s pre-existing interest in Qijia to acquisition date fair value.

Goodwill arose because the consideration paid included amounts in relation to the future market development of the business acquired. These benefits are not recognised separately from goodwill, because they do not meet the recognition criteria for identifiable intangible assets. Goodwill arising from the acquisition is not expected to be deductible for tax purpose.

The non-controlling interests recognised at the acquisition date were measured by reference to the proportionate share of the recognised amounts of the acquiree’s identifiable net assets.

Details of the carrying value and fair value of the Group’s pre-existing interest in Qijia at the acquisition date are summarised as follows:

(c) Acquisition through capital injection

Capital injection in Hengyang Heng Ji Real Estate Co., Ltd.* (“Hengyang Heng Ji”) and Chengdu Huaguan Ke Heng Technology Co., Ltd.* (“Chengdu Huaguan”)

During the year ended 31 December 2018, the Group entered into cooperation agreements with other investors that the Group injected RMB41,600,000 and RMB20,816,000 to Hengyang Heng Ji and Chengdu Huaguan, which are controlled by independent third parties before the capital injection by the Group, respectively to obtain 51% and 51% equity interests in these two companies respectively.

According to the Hengyang Heng Ji’s and Chengdu Huaguan’s cooperation agreement, the Group is entitled to appoint four directors of Hengyang Heng Ji’s board of directors out of a total of five whereas the Group is entitled to appoint two directors of Chengdu Huaguan’s board of directors out of a total of three. In the view of the Group, the Group can operate the investees and direct all the relevant financing and operating decisions relating to daily investment activities for the investee by simple majority votes. Accordingly, the investees are classified as subsidiaries of the Group.

Hengyang Heng Ji and Chengdu Huaguan had properties under development and deposits for land acquisitions respectively hence the Group considered this would be acquisitions of assets in substance.

Details of the aggregate fair values of the identifiable assets and liabilities of Hengyang Heng Ji and Chengdu Huaguan as at the date of acquisitions through capital injection are as follows:

41. SHARE OPTION

Share Option Scheme

Pursuant to the shareholders' resolution passed on 22 November 2009, a post-IPO share option scheme (the "Share Option Scheme") was conditionally adopted. Pursuant to the terms of the Share Option Scheme, the Company may grant options at its discretion, to any eligible person (including directors, employees, officers of any member of the Group, advisers, consultants, suppliers, agents and customers of any members of the Group). The maximum number of shares which may be issued upon exercise of all options (the "Share Option") granted and yet to be exercised under the Share Option Scheme or any other share option schemes adopted by the Company must not exceed 30% of the Company's shares in issue from time to time.

No options may be granted under the Share Option Scheme after 10 years since the adoption. The vesting periods, exercise periods and vesting conditions may be specified by the Company at the time of the grant, and the options expire no later than 10 years from the relevant date of grant. The exercise price of the option under the Share Option Scheme shall be no less than the highest of (i) the official closing price of the Company's shares as stated in the daily quotation sheet issued by the Stock Exchange on the date of grant; (ii) the average of the official closing price of the Company's shares as stated in the daily quotation sheets issued by the Stock Exchange for the five Stock Exchange business days immediately preceding the date of grant; (iii) the nominal value of a share of the Company.

Details of the movement of the share options under Share Option Scheme are as follows:

Expected volatility was determined by using the historical volatility of the Company's share price from the listing date to the grant date. The risk-free interest rate is equal to Hong Kong Dollar swap rate over the exercise period at the grant date.

The Binomial Option Pricing Model has been used to estimate the fair value of the options. The variables and assumptions used in computing the fair value of the share options are based on the Directors' best estimate. The value of an option varies with different variables of certain subjective assumptions.

The Group recognised a share option expense of RMB260,612,000 (2017: RMB141,281,000) during the year ended 31 December 2018.
